NOTICE: When government or other drawings, specifications or other data are used for any purpose other than in connection with a definitely related government procurement operation, the U. S. Government thereby incurs no responsibility, nor any obligation whatsoever; and the fact that the Government may have formulated, furnished, or in any way supplied the said drawings, specifications, or other data is not to be regarded by implication or otherwise as in any manner licensing the holder or any other person or corporation, or conveying any rights or permission to manufacture, use or sell any patented invention that may in any way be related thereto.
The Human Resources Research Office is a nongovernmental agency of The George Washington University, operating under contract with the Department of the Army (DA 44-188-ARO-2). HumRRO's mission, stated by AR 70-8, is to conduct studies and research in the fields of training, motivation, leadership, and man-weapons system analysis.

Research is reported by HumRRO in publications of several types.

1. Technical Reports are prepared at the completion of a research Task or major portion thereof. They are designed specifically for a military audience and convey recommendations for Army action.

2. Research Reports may be prepared at any time during a Task. They are designed primarily for a research audience but may be of interest to a military audience. They report research findings of interest and value to the scientific community and do not recommend Army action.

3. Research Memoranda may be prepared at any time and need not be directly associated with a particular research Task. They report findings that may be of interest to a research or military audience or to both. They do not recommend Army action.

4. Consulting Reports are prepared following completion of a specifically requested consulting action under HumRRO's Technical Advisory Services. They are designed for a specific military audience and usually convey recommendations for Army action.

5. Research Bulletins are prepared as nontechnical summaries of one or more research Tasks or as reports of other HumRRO activities. They are intended primarily for a military audience and do not present recommendations for Army action. Their distribution usually includes agencies and individuals conducting research, and the general public.

Technical Reports and Research Bulletins may be requested from the Director's Office, which also issues a complete bibliography. Other publications may be obtained from the Director of Research of the originating Unit or Division.

INTRODUCTION

...THOSE WHO WILL NOT LEARN FROM HISTORY ARE CONDEMNED TO REPEAT IT.

George Santayana

This is a Selected Subject bibliography concerning the various aspects of counterinsurgency and unconventional warfare. For the most part, the items cited have been published recently.\(^1\) Sometimes not so recent items are included when any of the subject categories are exceptionally weak. While individuals may find many different uses for this bibliography, it is designed primarily for individual study and unit training.

The majority of the items in this bibliography are available in average-sized Service libraries and in many of the larger public libraries. Items not available in a given library can often be obtained through inter-library loan.

A serious study of available historical works should engender the formulation of a realistic and flexible doctrine of operations.

TABLE OF CONTENTS

Counterinsurgency Operations

A. General ............................................. 1
B. Civic Action ....................................... 2
C. Psychological Operations ......................... 2
D. Defensive Measures ................................ 3
E. Counterguerrilla Operations ....................... 3
   a. General ........................................ 3
   b. Air Power and Airborne Operations ............ 4
   c. Riot Control .................................. 5
   d. The Use of Dogs ................................ 5
   e. Training, Advising, and Leading Indigenous Troops . 6
   f. Unit Training .................................. 6
   g. Artillery in Guerrilla Warfare .................. 7
   h. Logistics in Guerrilla Warfare ................ 7
   i. Tactics ........................................ 7

Area Operations Case Studies

A. Russia, World War II .............................. 8
B. Communist China ................................... 9
C. The Philippines, Post-World War II .............. 10
D. Greece, Post-World War II ......................... 10
E. Indochina .......................................... 10
   a. French-Indochina War .......................... 10
   b. Laos ......................................... 10
   c. South Viet-Nam ............................... 11
The Role of the U. S. Armed Forces

A. General ........................................ 13

B. U. S. Army Special Forces ...................... 14

Recommended Background Reading .................. 14

Communist Writings on Insurgency ................. 15

Unconventional Warfare ............................ 15

Theories of Guerrilla and Unconventional Warfare .... 16

United States Foreign Policy ........................ 16

Insurgency and the Law of Nations ................. 17

Underdeveloped Areas and Communist "Wars of National Liberation" ......... 17

Internal Subversion and Internal Security .......... 18

Annotated Bibliographies ........................... 18
