8. Intelligence:

a. Enemy Situation Before Operation: Elements of the VC 274th HF Regt were believed to have been located in the LONG KHANH Province. The D/82d Local Force Bn was known to operate in northern LONG KHANH Province. The OA was astride a movement route through which VC units and supplies move between War Zone "D" and PHUOC TUI Province, BINH TUY Province, and the MAO TAO area. The VC were known to have a well established intelligence net in the operational vicinity, and they were known to be thoroughly familiar with all aspects of the area. Many reports had been received, concerning extensive VC taxation of the traffic on National Route 20 in Northern LONG KHANH Province, especially traffic of commercial nature.

b. Enemy Situation During Operation: Twenty-seven contacts were made with VC forces during this operation; seventeen of the contacts were VC initiated. All contacts were with small VC units of two-squad-size or less. Most VC initiated contacts were minor incidents of VC sniping and harassment. Interrogation of detained VCS, questioning of Vietnamese commercial vehicle operators, and information volunteered by concerned citizens revealed several locations and other pertinent data concerning VC taxation points in the area. One taxation point was observed from the air and later confirmed on the ground. Nine aircraft received ground fire, one sustaining hits.

c. Area of Operations:

(1) Weather Conditions: The climate in the area of operation
was typical of tropical zones affected by the monsoons. Winds are gentle to moderate, generally from a southwesterly direction. Rainfall was normal, occurring during the late afternoon and early evening hours. Visibility was generally good, with ceilings of approximately 10,000 feet lowering to approximately 1,000 feet during showers.

(2) Terrain: The area is generally an alluvial valley formed by the Song La Nga, flowing generally northward, and its tributaries. The highest points in the area are to be found in the dominating north-south oriented ridge line to the east. The remainder of the area is characterized by rolling hills of low elevation and ravines containing streams flowing generally eastward or westward into the Song La Nga. The vegetation in the vicinity of the river consists primarily of marsh grass which blends into tropical forest.

9. Mission: The mission of the Bde was to conduct search and destroy/spoiling attacks in the AO. Concurrently conducting Roadrunner, Bushmaster and Anti-VC Tax Collection operations within the same AO.

10. Concept of Operation: The Bde moved into AO, AURORA I, by road and air movement in two (2) phases. One intermediate Fire Support Base was set up to support the initial assault on Opn:ion VENUS. One position was secured by establishing the Fire Support Base and Bn's CP there. The second phase involved air assault on three (3) LZ's: MARS, JUPITER and SATURN in the NW portion of AO. Liaison was established with 10th ARVN Div at XIAN LOC with Bde LNO stationed there.

11. Execution: The operation was conducted in three (3) phases as follows (page 5).
SUBJECT: Combat Operations After Action Report

a. Phase I: Movement of Brigade to AO "AURORA I" (6-9 July 1966).

b. Phase II: Conduct search and destroy operations conducting Roadrunner, Bushmaster and Anti-VC Tax Collection Operations.

c. Phase III: Displacement of Bde on Operation "AURORA II".

D - Day (9 July 1966)

The 173d Abn Bde (Sep) terminated Operation "YORKTOWN" and commenced Operation "AURORA I" at 0700 hrs. 1/503d Inf remained at Position WASHINGTON in preparation for an air assault, 10 July. 2/503d Inf commenced at 0847 hrs and conducted an air assault on Position VENUS (YT 430532) closing at 0957 hrs, with negative results. They assumed the Fire Support Base security mission, Bde Reaction Force and CP security. 3/319th Arty supported the air assault of 2/503d Inf from Position PLUTO (YT395360) and then moved to Position VENUS to form the Bde Fire Support Base. HHC (-) moved at 1000 hrs from Position WASHINGTON by road to Position VENUS, closing at 1228 hrs. A/32d Avn participated in the lift of 2/503d Inf and D/16th Armor with E/17th Cav providing convoy security as well as providing control elements in the convoy.

Psychological Operations/Civic Actions: Construction projects and English classes continued in the BIEN HOA area.

D + 1 (10 July 1966)

Operation "AURORA I" continues NE of XUAN LOC. 1/503d Inf conducted an air assault, commencing at 0900 hrs on LZ's JUPITER (YT 334347) and MARS (YT 375365). The LZ's were secured at 1242 hrs and companies initiated
search and destroy operations. A/1/503d Inf at IT 350372, B/1/503d Inf at 
YT 345335 and C/1/503d Inf at IT 350372 stayed in position overnight to 
continue search and destroy operations on 11 July. No significant contact 
was made by any of the units stated above. 2/503d Inf continued to pro-
vide Fire Support Base security, CP security and the Bde Reaction Force. 
A/82d Avn participated in the helilift of 1/503d Inf. E/17th Cav conduct-
ed a Roadrunner operation north along Route 20 to YT 569379 and returned 
with negative results. E/17th Cav introduced two Long Range Patrols at YT 
452255; they were to remain in this location with extraction on order.

Psychological Operations/Civic Actions: MEDCAP treated 147 pa-
patients in the village of THANH MAU (YT 405263). Construction projects and 
English classes continue in the BIEN HOA area.

D + 2 (11 July 1966)

Operation "AURORA I" continued north/NW of XUAN LOC. 1/503 Inf 
continued their search and destroy operations in AO. At 1035 hrs, in vicin-
nity of YT 342372, C/1/503d Inf discovered four (4) tons of polished rice 
in two (2) houses, also a small boat dock. The rice was not extracted at 
that time, but an ambush was set up during the night. The Recon Plt 1/ 
503d Inf conducted a mounted patrol NW of vicinity YT 390385. The remain-
der of the Bn provided security for the Fire Support Base and CP as well 
as Bde Reaction Force. E/17th Cav conducted Roadrunner operation NE along 
Route 20 to YT 569379 and returned to Position VENUS with negative results. 
At 1655 hrs a patrol from E/17th Cav sighted 2 VC at YT 5092d1 moving SW; 
one VC was armed. No contact was made. The two patrols from E/17th Cav,

- Soybeam Oil: 1½ bottles
- Sampans: 2

**Commanders Analysis/Conclusions/Observations and Lessons Learned**

Commanders Analysis: The 173d Abn Bde's (Sep) Operation AURORA I provided a valuable training vehicle for the 4/503d Inf. As the newest unit in the Bde, they gained extensive experience in air assaults, search and destroy operations and small unit patrolling. The enemy reaction was to flee without engaging Bde units except by limited harassing action.

Map Navigation, March and Bivouac Discipline, Detection and Avoidance
of Booby Traps, Adjustment of Artillery Fire and Communications Security are major areas in which additional training is being given.

No main forces were found in the area at the time of the operation. Contacts were relatively light and with small local force VC elements in size of 2 squads or less. Two VC Tax Collection Points were observed in operation, and interrogation revealed the possible location(s) of others.

Lessons Learned: To save time in recovering rice caches, each member of a unit should carry an empty bag with him. There will be no necessity to delay recovery while rice bags are brought forward.

In many cases, battlefield evacuation can be performed by an ordinary UH-1D helicopter as satisfactorily as by special medical Dustoff aircraft, since Dustoff aircraft are in such demand, this provides quicker recovery.
