BIBLIOGRAPHY OF TECHNICAL PUBLICATIONS AND PAPERS

January 1965 - June 1966

August 1966

U. S. ARMY NATICK LABORATORIES
Natick, Massachusetts 01760
FOREWORD

This bibliography is a list of technical publications and papers by personnel of the U. S. Army Natick Laboratories and its contractors for the period January 1965 through June 1966. The Bibliography will be published on a fiscal year basis hereafter.

Reprints of journal articles, in some cases, are available from the individual authors. Copies of technical reports may be obtained from (1) the Defense Documentation Center, Cameron Station, Alexandria, Virginia 22314, or (2) the Clearinghouse for Federal Scientific and Technical Information, Springfield, Virginia 22151. The "AD" number should be cited when ordering copies of reports. Those reports marked with an asterisk (*) are not available for distribution outside the agencies of the Department of Defense.

W. M. MANTZ
Brigadier General, USA

ABSTRACT

A bibliographic listing of technical publications and papers by the personnel of the U. S. Army Natick Laboratories and its contractors for the period January 1965 through June 1966.
U. S. ARMY NATICK LABORATORIES

COMMANDING GENERAL

Technical Papers

2. _____ Remarks. U. S. Army Quartermaster School, Officer Career Class 66-1, Army Supply Officer Class 66-5, and Officer Basic Class 66-4 Graduations, Fort Lee, Va., 17 December 1965.

COMMANDING OFFICER

Technical Papers

OFFICE OF SCIENTIFIC DIRECTOR

Technical Papers

Technical Papers (continued)

13. Role of the Commodity Command's Chief Scientists as viewed by a Technical Director in an AMC Lab. AMC Chief Scientists Conference, Huntsville, Ala., 8 December 1965.

DEPUTY COMMANDER

Technical Papers

TECHNICAL PLANS OFFICE

Books

AIRDROP ENGINEERING DIVISION

Technical Reports

29. Lightweight gantry system (EDT), M. J. LYNCH, June 1966.

Technical Papers

CLOTHING AND ORGANIC MATERIALS DIVISION

Technical Reports

Technical Reports (continued)

57. Mass, permeability, and thickness changes in abraded fabrics, L. I. WEINER. Textile Series 136, October 1965 (AD 629603).

69. Radiation characteristics of military clothing observed with a passive detection system, A. O. RAMSLEY and A. P. MEROLA. 66-16-CM (Textile Series 140), March 1966 (AD 481656).

76. The resistance of nylon/cotton and nylon/rayon poplins to ignition by thermal radiation, W. M. KOZA. MRE 65-1, January 1965.

77. Silica-reinforced ethylene-propylene diene (EPD) rubbers, P. DUNN and V. S. JAVIER. C&OM-7, August 1965 (AD 620694).

78. Sources of thermal radiation for nuclear weapons effects studies, E. T. WALDRON. Textile Series 134, August 1965 (AD 470270).

80. Study of dynamic birefringence and strain produced in transparent polymers by mechanical impact, A. F. WILDE, J. J. RICCA, and F. deS. LYNCH. 66-6-CM (C&OM-18), February 1966 (AD 630913).
CLOTHING AND ORGANIC MATERIALS DIVISION

Technical Reports (continued)

86. The synthesis of special fluorine-containing monomers, J. D. PARK and J. R. LACHER, University of Colorado, Contract No. DA19-129-QM-1926. Semiannual Reports 2 and 3, May and October 1965 (AD 465114 and AD 625935), and 66-54-CM (C&CM-17), January 1966.

87. Textiles for thermal radiation protection, E. T. WALDRON. Textile Series 132, April 1965 (AD 617707).*

Technical Reports (continued)

93. The thermal resistance of Nomex fabrics, H. SHRAGER. MRE 65-7, October 1965 (AD 474015).

Journal Articles

CLOTHING AND ORGANIC MATERIALS DIVISION

Journal Articles (continued)

Technical Papers

120. DAVIDSOHN, W. E., and M. C. HENRY. Tetraethynylsilane, tetraethynylgermane, and some substituted ethynylorganogermanes. International Symposium on Organometallic Chemistry, Madison, Wis., 1 September 1965.

CLOTHING AND ORGANIC MATERIALS DIVISION

Technical Papers (continued)

140. Practical applications of colour measurement in the textile industry. Canadian Association of Textile Colourists and Chemists, Montreal, Canada, 19 March 1965.

142. A. P. MEROLA, and R. J. EVANS. Instrumental control of the color and colorfastness of military textiles, a progress report. American Society for Quality Control, Atlanta, Ga., 10 February; and New York City, N. Y., 3 June 1966.

Technical Papers (continued)

Technical Reports

Journal Articles

152. NEBESKY, E. A. Multipurpose containers for the future. Minutes, Fall Meeting of the American Ordnance Association, Packaging Division, Container Section, Salt Lake City, Utah (6-8 October 1965).

Technical Papers

160. ______ The U. S. Army's food irradiation program with emphasis on packaging. Blue Grass Section, Institute of Food Technologists, Louisville, Ky., 23 September 1965.
CONTAINER DIVISION

Technical Papers (continued)

162. NEBESKY, E. A. Multipurpose containers for the future. American Ordnance Association, Packaging Division, Salt Lake City, Utah, 6-8 October 1965.

Technical Papers (continued)

EARTH SCIENCES DIVISION

Technical Reports

176. Areal distribution and diurnal variation of water vapor near the ground in the contiguous United States, A. V. DODD. ES-17, November 1965 (AD 626471).

177. Climatic atlas for Southeast Asia, H. L. OHMAN. ES-19, December 1965 (AD 632878).

185. Some environmental aspects of the human factors tropical field studies, J. V. CHAMBERS. ES-16, May 1965 (AD 617706).

EARTH SCIENCES DIVISION

Journal Articles

Technical Papers

198. BRIERLY, W. B. Atmospheric sea-salt design criteria. Institute of Environmental Sciences, Chicago, Ill., 21 April 1965.
Technical Papers (continued)

204. THOMPSON, W. F. Summit sculpture and regional mountain environment in the Western United States. Alpine Symposium, International Association for Quarternary Research, Boulder, Colo., 3 September 1965.

Books

Book Chapters

216. Calculated internal radiation dose from ingestion of meat sterilized by electron irradiation, T. G. MARTIN. 66-26-FD (FD-38), April 1966.

Food Division

Technical Reports (continued)

Technical Reports (continued)

233. Induced radioactivity in food and electron sterilization, R. A. MEYER. FD-6, April 1965 (AD 613950).

Technical Reports (continued)

Journal Articles

Journal Articles (continued)

FOOD DIVISION

Journal Articles (continued)

274. STOEWSAND, G. S. Food requirements of the dog. Dog World, 50:26 (January 1965).

Technical Papers

FOOD DIVISION

Technical Papers (continued)

295. _____ Research on instant bread and other cereal products for operational use. U. S. Army Quartermaster School, Subsistence Officer Class 66-1, Fort Lee, Va., 8 September 1965.

310. _____ Microbiological aspects of food irradiation. Ak-Sar-Ben Chapter, Institute of Food Technologists, Omaha, Neb., 14 April 1966.

319. HEIDELBAUGH, N. D., J. E. VANDERVEEN, M. V. KLICKA, and M. J. O'HARA. The study of man during a 56-day exposure to an oxygen helium atmosphere at 258 mm Hg total pressure. VIII. Observations on feeding and bite-size foods. Aerospace Medical Association, Las Vegas, Nev., 18-21 April 1966.

FOOD DIVISION

Technical Papers (continued)

332. JOHNSON, K. R. Combat feeding systems and current advances in food research. U. S. Army Quartermaster School, Subsistence Officer Class 65-1, Fort Lee, Va., May 1965.

337. Discussion and Summary, Symposium - Radiation Preservation of Food, Institute of Food Technologists, Kansas City, Mo., 19 May 1965.

339. Israel through the eyes of a tourist; through the eyes of a scientist. Bay State Lodge, B'nai B'rith, Temple Beth Am, Framingham, Mass., 5 December 1965.

343. Simplified procedures for obtaining clearance of foods preserved by ionizing energy. International Symposium on Food Irradiation, Karlsruhe, Germany, 6-10 June 1966.

370. PRATT, G. B., L. E. KNEELAND, F. HEILIGMAN, and J. J. KILLORAN. 
Irradiation induced gases in packaged foods. I. Identification and measurements. Institute of Food Technologists, 

371. PREVITE, J. J. Biological effects of irradiated endotoxin. 
Pioneering Research Division Biology Seminar, U. S. Army Natick 

372. Biological properties of irradiated endotoxins. Leo F. 
Rettger Society, University of Massachusetts, Amherst, Mass., 
April 1966.

373. and H. M. EL-BISI. Biological properties of incubated 
endotoxins. American Society for Microbiology, Los Angeles, 

374. and H. M. EL-BISI. Effects of radiation on bacterial 
endotoxins. American Society of Microbiology, Atlantic City, 

375. PHILLIPS, C. E. Radiation preservation of foods. Radiology 
Class, Boston University, Boston, Mass., 15 February and 
16 June 1965.

376. SANTORO, L. A. Cortisone and exhaustive running times of dogs and 
rats. Federation of American Societies for Experimental Biology, 
Atlantic City, N. J., 11 April 1966.

377. SCHMIDT, T. R. Foods of the future. Simmons College Club of 

378. and K. R. JOHNSON. Development of a freeze-dehydrated 
potato pattie. Institute of Food Technologists, Portland, 

379. SECRIST, J. L. Development of space foods. U. S. Naval Composite 

380. SHULTS, G. W., C. K. WADSWORTH, and E. WIERBICKI. Development of 

382. STOEWSAND, G. S. The influence of dietary fat levels and 1,3-butanediol on tissue lipids in cold exposed rats. Federation of American Societies for Experimental Biology, Atlantic City, N. J., April 1965.

FOOD DIVISION

Technical Papers (continued)

393. WIERBICKI, E., and E. S. JOSEPHSON. Pilot plant meat and poultry irradiator. I. Food technology requirements pertinent to design. Institute of Food Technologists, Portland, Ore., 25 May 1966.

396. Developments in military rations and space feeding. Mohawk Valley Institute of Food Technologists, Utica, N. Y., 16 September 1965; American Chemical Society, Northeastern University, Boston, Mass., 4 November 1965.

Technical Papers (continued)

403. ______ The freeze-drying process, a step forward in food processing. Food Management Seminar, University of Massachusetts, Amherst, Mass., 27 January 1966.

Book Chapters

FOOD DIVISION

Book Chapters (continued)

Other Publications

414. BRYNJOLFSSON, A. Radiation sterilization of pharmaceutical products with special reference to the most radiation resistant vegetative cells. P. Hansens Bogtrykkeri A/S - Copenhagen, Tidende Nr. 22 (1965).

Other Publications (continued)

Technical Reports

422. Air-supported tents for military use, C. J. MONEGO. ME-3, July 1965 (AD 473714).

423. An analysis of forks for ultra-lightweight rough terrain forklift truck, 4,000-lb (Sandpiper), V. J. DeNINNO. MHE-3, October 1965.*

426. Evaluation of caterpillar articulating vehicle 966B (XAF 1052), W. F. PROUTY. 66-51-ME (MHE-10), May 1966 (AD 485144).*

427. Evaluation of truck, forklift, Baker 4,000-lb capacity, gasoline-engine driven, J. R. PETERS. 66-43-ME (MHE-9), May 1966 (AD 485479).*

430. Evaluation of truck, forklift, electric, 4,000-lb capacity, 36-volt, battery operated, S. B. VINDSBERG. 66-17-ME (MHE-7), March 1966 (AD 480879).*

431. An evaluation of truck, hand, lift, pallet, manual-hydraulic, J. R. PETERS. MHE-2, August 1965 (AD 470920L).*

432. Evaluation of an improved electric drive for a 4,000-lb capacity electric forklift truck, R. N. WALSH. 66-15-ME (MHE-6), March 1966 (AD 482010L).*

433. Evaluation of trucks, lift, electronically guided by stock selectors, L. C. ROOT. 66-18-ME (MHE-8), March 1966 (AD 481107).*
Technical Reports (continued)

434. Evaluation of ramp, loading vehicle, adjustable, mechanically operated, 20,000-lb capacity, W. R. LAVOIE. 66-10-ME (MHE-4), March 1966 (AD 481134).*

435. Evaluation of load stabilizer attachments for forklift trucks, J. R. PETERS. 66-12-ME (MHE-5), March 1966 (AD 481104).*

437. Studies of quantitative correlation between bulk density and thickness of fabrics and their radar transmission characteristics, C. J. MONEGO. ME-2, February 1965 (AD 460111).

Technical Papers

Technical Reports

442. Food acceptance and preference research: An annotated bibliography, R. L. BELL, N. S. OSHINSKY, and J. WOLFSON. EPT-5, July 1965 (AD 633045).

443. Compatibility of Army arctic clothing, footwear, and handwear during contractors cold chamber tests of the TOW launcher and guidance systems, J. M. McGINNIS. EPR-8, October 1965.

446. Fourteenth Conference on prevention of microbiological deterioration of military materiel. 66-47-PR, June 1966 (AD 484476).*

448. Proceedings of the Thirteenth Conference on prevention of microbiological deterioration of military materiel, July 1965 (AD 468572).*

Technical Reports (continued)

452. USAF size extra-large flight helmet: Comparison of dimension specifications with anthropometric data, R. L. BURSE. EPR-6, January 1965.

**BIBLIOGRAPHY OF TECHNICAL PUBLICATIONS AND PAPERS**

January 1965 - June 1966

A bibliographic listing of technical publications and papers by the personnel of the U.S. Army Natick Laboratories and its contractors for the period January 1965 through June 1966.
### INSTRUCTIONS

1. ORIGINATING ACTIVITY: Enter the name and address of the contractor, subcontractor, grantee, Department of Defense activity or other organization (corporate author) issuing the report.

2a. REPORT SECURITY CLASSIFICATION: Enter the overall security classification of the report. Indicate whether "Restricted Data" is included. Marking is to be in accordance with appropriate security regulations.

2b. GROUP: Automatic downgrading is specified in DoD Directive 5200.10 and Armed Forces Industrial Manual. Enter the group number. Also, when applicable, show that optional markings have been used for Group 3 and Group 4 as authorized.

3. REPORT TITLE: Enter the complete report title in all capital letters. Titles in all cases should be unclassified. If a meaningful title cannot be selected without classification, show title classification in all capitals in parenthesis immediately following the title.

4. DESCRIPTIVE NOTES: If appropriate, enter the type of report, e.g., interim, progress, summary, annual, or final. Give the inclusive dates when a specific reporting period is covered.

5. AUTHOR(S): Enter the name(s) of author(s) as shown on or in the report. Enter last name, first name, middle initial. If military, show rank and branch of service. The name of the principal author is an absolute minimum requirement.

6. REPORT DATE: Enter the date of the report as day, month, year; or month, year. If more than one date appears on the report, use date of publication.

7a. TOTAL NUMBER OF PAGES: The total page count should follow normal pagination procedures, i.e., enter the number of pages containing information.

7b. NUMBER OF REFERENCES: Enter the total number of references cited in the report.

8a. CONTRACT OR GRANT NUMBER: If appropriate, enter the applicable number of the contract or grant under which the report was written.

8b, 8c, & 8d. PROJECT NUMBER: Enter the appropriate military department identification, such as project number, subproject number, system numbers, task number, etc.

9a. ORIGINATOR'S REPORT NUMBER(S): Enter the official report number by which the document will be identified and controlled by the originating activity. This number must be unique to this report.

9b. OTHER REPORT NUMBER(S): If the report has been assigned any other report numbers (either by the originator or by the sponsor), also enter this number(s).

10. AVAILABILITY LIMITATION NOTICES: Enter any limitations on further dissemination of the report, other than those imposed by security classification, using standard statements such as:

1. "Qualified requesters may obtain copies of this report from DDC."
2. "Foreign announcement and dissemination of this report by DDC is not authorized."
3. "U. S. Government agencies may obtain copies of this report directly from DDC. Other qualified DDC users shall request through..."
4. "U. S. military agencies may obtain copies of this report directly from DDC. Other qualified users shall request through..."
5. "All distribution of this report is controlled. Qualified DDC users shall request through..."

If the report has been furnished to the Office of Technical Services, Department of Commerce, for sale to the public, indicate this fact and enter the price, if known.

11. SUPPLEMENTARY NOTES: Use for additional explanatory notes.

12. SPONSORING MILITARY ACTIVITY: Enter the name of the departmental project office or laboratory sponsoring (paying for) the research and development. Include address.

13. ABSTRACT: Enter an abstract giving a brief and factual summary of the document indicative of the report, even though it may also appear elsewhere in the body of the technical report. If additional space is required, a continuation sheet shall be attached.

It is highly desirable that the abstract of classified reports be unclassified. Each paragraph of the abstract shall end with an indication of the military security classification of the information in the paragraph, represented as (TS), (S), (C), or (U).

There is no limitation on the length of the abstract. However, the suggested length is from 150 to 225 words.

14. KEY WORDS: Key words are technically meaningful terms or short phrases that characterize a report and may be used as index entries for cataloging the report. Key words must be selected so that no security classification is required. Identifiers, such as equipment model designation, trade name, military project code name, geographic location, may be used as key words but will be followed by an indication of technical context. The assignment of links, rules, and weights is optional.
