MANUAL ON AEROELASTICITY
SUBJECT AND AUTHOR INDEX

Edited by
E.C. Pike

This publication is sponsored by the Structures and Materials Panel of AGARD
FOREWORD

The Subject Index and Author Index cover all the chapters in the six loose-leaf volumes of the Manual on Aeroelasticity and were up to date in April 1970. Since that date new chapters of the Manual have been published in the AGARD Report series.

Entries are given by Volume, Chapter and Page number. For example, II/9/56 denotes Volume II, Chapter 9, page 56. The letter S after a Chapter number denotes a Supplement to that Chapter. The letters TG denote the section of Tables and Graphs in Volume VI. The abbreviation INTRO denotes the Introductory Survey in Volume I.
