BIBLIOGRAPHY OF LITERATURE
ON THE EMPIRICAL ANALYSIS OF
SOCIAL AND OCCUPATIONAL MOBILITY

Compiled by

David Lynn/Passmore and Kathleen McCluskey/Martin
Research Associate Employment Opportunities
Division of Management Services Specialist
Department for Career
Opportunities

National Technical Institute for the Deaf
Rochester, New York 14623
Introduction

The description and analysis of the mobility of training program graduates is important for the evaluation of the effects of these programs. This bibliography lists citations from economic, sociological, and statistical literature which have application to this evaluation problem. Much of this literature contains applications of Markov and other stochastic models and is, in most cases, technically sophisticated.

Bartholomew, D. J. The effects of changes in quits and hires on the length of service composition of employed workers: A comment on Stoikov's paper. British Journal of Industrial Relations, 1972, 10, 130-133.

Belinsky, W. & Reisman, A. Some manpower planning models based on levels of educational attainment. Management Science, 1972, 18, 691-705.

Henry, N. W., McGinnis, R., & Tegtmeyer, H. W. A finite model of mobility. 

Hodge, R. W. Occupational mobility as a probability process. 

Holland, D. W. & Tweeten, L. G. Human capital migration: Implications 

Hyman, R. Economic motivation and labor stability. British Journal of 
Industrial Relations, 1970, 8, 159-178.

Kodama, F. Approaches to the analysis of vocational education and 

Kuhn, A., Poole, P., Sales, P. & Wynn, H. P. An analysis of graduate 
job mobility. British Journal of Industrial Relations, 1973, 11, 
124-144.

Lane, K. F. & Andrew, J. E. A method of labor turnover analysis. 
Journal of the Royal Statistical Society (Series A), 1955, 118, 
296-323.

Littell, A. S. Estimation of T-year survival rate from follow-up studies 

Long, L. H. Migration differentials by education and occupation: 

Matras, J. Comparison of intergenerational occupational mobility patterns: 
An application of the formal theory of social mobility. Population 
Studies, 1960, 14, 163-169.

Matras, J. Differential fertility, intergenerational occupational mobility, 
and change in the occupational distribution: Some elementary relation- 

Matras, J. Social mobility and social structure: Some insights from 

McCoy, J. L. Factors associated with level-of-living in Washington 
County, Mississippi (Tech. Bulletin No. 1501). Washington, D.C.: 

McFarland, D. Inter-generational social mobility as a Markov process: 
Including a time-stationary Markovian model that explains observed 
declines in mobility rates over time. American Sociological Review,
