Work conducted under contract N00014-87-C-0001.

This Research Contribution represents the best opinion of CNA at the time of issue. It does not necessarily represent the opinion of the Department of the Navy.
This group of indices lists all articles published in the Soviet military journal Voyennyy vestnik (or Military Herald) from 1975 through 1979. The indices have been compiled from available FSTC translations of the article titles. If they were not available, the titles were translated by the staff at the Center for Naval Analyses.

Volume I contains two sections. Section 1 lists the articles in chronological order. In Section 2, the articles have been arranged alphabetically by author. Volume II is a title index that lists the titles alphabetically by each key word in the title. These indices will be useful, for example, to researchers desiring to obtain all articles written on a specific subject regardless of author, articles by a particular author, or articles appearing in certain issues of Voyennyy vestnik.
