THE UNITED STATES AIR FORCE ACADEMY:

a bibliography

1983 · 1989

UNITED STATES AIR FORCE ACADEMY
1990
INTRODUCTION

This compilation of resources on the United States Air Force Academy includes materials published between 1 January 1983 and 31 December 1989. It updates the third supplement, which was published in 1984. Earlier bibliographies on the Academy include the original, published in 1966, and the first and second supplements, published in 1968 and 1972, respectively.

This bibliography does not include articles from local-area newspapers (Colorado Springs and Denver). Reports of specific athletic events are also excluded, regardless of the source. Although recent Academy Assemblies and Harmon Memorial Lectures are a part of this compilation, a number of materials published at the Academy are not included. Finally, a few items are cited which pre-date the years covered by this supplement. These were not listed in previous bibliographies.

The basic arrangement is by subject, as set forth in the Table of Contents. Within each subject area, the listing is subdivided as follows: Air Force regulations; books; newspaper and periodical articles; government documents; and other sources. Call numbers in parentheses indicate the location of the materials in the Academy Library.

We solicit any additional references not included in this or the earlier bibliographies. Bibliographic data on any such materials may be sent to: Director of Academy Libraries, USAF Academy, Colorado 80840. Requests to borrow any of the items listed must be sent to the Interlibrary Loan Office of the Academy Library.

This bibliography was compiled and indexed, using Enable Word Processing software, by Mr. Elwood L. White of the Reference Branch of the Academy Library.

Mission and Purpose

The mission of the Air Force Academy is to provide instruction and experience to all cadets so that they graduate with the knowledge, character and motivation essential to leadership as career officers in the United States Air Force. The purpose of the Air Force Academy is to produce career Air Force officers devoted to duty, honor and country and capable of leading in dynamic and changing times. The entire Academy experience is designed to develop the qualities that will enable you to become:

...an officer who has the skills provided by a sound and balanced undergraduate academic curriculum and the ability to formulate problems and devise and implement solutions in diverse and ambiguous situations

...an officer with a firm understanding of the role of the military in society, the history and traditions of their service, and an appreciation of military customs and courtesies

...an officer who can meet the varied challenges that are traditionally the calling of the military, including the ability to communicate and work effectively and compassionately with others

...an officer with high moral standards who recognizes the ethical aspects of situations, determines the right thing to do and then does it

...an officer who has the self-discipline, adaptability, stamina and courage to perform duty responsibly in both routine activities and the extreme and prolonged conditions of risk and stress that occur in the national defense

...an officer who subordinates self to the service of country, the Air Force and the unit in war and peace

...an officer who inspires pride in the unit and is predisposed to a career in the Air Force and a lifetime of service to the nation

...an officer who is committed to lifelong personal and professional development and growth.
