CODAP Study Number: 2521

Study Title: Radio Communications Systems

AFSC(s): 3C1X1 - Active Duty

AFOMS Analyst: 2Lt Sabrina Ocampo

AFOMS CODAP Programmer: Ms Jeanie Guesman

Office/DSN: AFOMS/OAE, 487-6811, Ext 3019

Job Inventory Date: May 2002

OSR Date: April 2003

Training Extract Date: April 2003

THE TRAINING EXTRACT

The enclosed Training Extract has been compiled to assist you in making training decisions. It is comprised of a series of computer printouts which show data collected from your specialty. By learning to understand this document and how it applies to training programs, you will find it to be a valuable source of information.

READING THE TRAINING EXTRACT

TABLE OF CONTENTS: The first page of the Training Extract lists a Table of Contents. The Table of Contents reports five things:

1. Report Number - shows the number and sequence of computer products in the Training Extract.
2. Element - shows the report ID of each computer product in the Training Extract. These numbers are of use only to OMSQ personnel.
3. Program - shows the types of computer products included in the Training Extract. Usually there will be three types listed: (1) PRTRMOD, (2) VARSUM, and (3) PRTRFAC. Each type of printout will be discussed in more detail below.
4. Report Title - describes the general contents of each computer product included in the Training Extract.
5. Page Number - shows the page on which the respective products begin. These numbers are located at the bottom center of the page.

TYPES OF COMPUTER PRODUCTS:

PRTRMOD: This computer product can display occupational survey data in a variety of ways. Primary displays included in most Training Extracts are:

- (1) in job inventory order (by duty)
- (2) in STS order
- (3) in POI order

The first page of each PRTRMOD contains information which is useful primarily to OMSQ Analysts. Of primary interest to the user is the "Description of Reported Task Factors" section at the bottom of the page. This section lists the full titles and the number of members in each data group represented across the various columns of the printout. The actual data display begins on page 2 of the individual printout. This page begins with an introductory paragraph which describes the type of data contained in the product. The actual data follows the introductory paragraph. For information on groups or task factors displayed in the column headings, refer to the listing on page 1. When a column heading describes a group of incumbents, the numbers listed below represent the percent of group members who are performing the task listed at the left-hand side of the page. Where the column heading describes a task factor such as Training Emphasis, Task Difficulty, or Automated Training Indicator (ATI), the numbers below represent the value of that task factor for the given task.

Training emphasis refers to the importance of providing training of the given task in some type of formal structured training program, such as resident technical training schools, field training, or formal OJT. It only applies to recommended training for first-enlistment personnel (those with 1-48 months TAFMS) or, in the case of lateral career ladders, first-assignment or first-job personnel (those with 1-48 months TICF). It does not apply when examining advanced courses for a career ladder. Tasks which senior career ladder personnel believe should be trained for first-enlistment personnel have high training emphasis values, while those tasks which they believe do not require formal training have low training emphasis values.

Task difficulty refers to the length of time required for the average job incumbent to learn to perform a task. Task difficulty ratings are always standardized so that tasks having average task difficulty have a mean of 5.0. Tasks with values above 5.0 are considered more difficult to learn than those with values below 5.0.

VARSUM: While the PRTRMOD product provides data on the various tasks being performed, the VARSUM product presents information concerning the responses of career ladder incumbents to the various background questions in the job inventory. Page 1 of the VARSUM lists the groups which are displayed on the product, showing a group ID number, group title, and number of people in the group. These group identities define the groups which comprise the column headings on each page of the VARSUM product. Along the left-hand side of each page, you will see a series of variable numbers, followed by their respective descriptions (i.e. V0000 Equip Used - Automatic Film Processors). Each variable represents a response to a background question. For background questions which allow multiple responses, each response is given below the variable number. In most cases, only the "yes" responses will be displayed. The numbers to the right of each response represent the percentage of the given group (as identified on the first page of the product) who gave that particular response to the question.

PRTRFAC: This product is very similar to the PRTRMOD in that it displays percentages of people performing tasks, as well as Training Emphasis, Task Difficulty, and Automated Training Indicator (ATI) data. The PRTRFAC product however, is used to display task data in descending order of some task factor, such as training emphasis. The two primary PRTRFAC products included in the Training Extract display inventory tasks in descending order of Training Emphasis value, and inventory tasks in descending order of the computed Automated Training Indicator (ATI) value.

To help in interpreting Training Emphasis ratings shown on several of the data products, standardized abbreviations are used. These abbreviations are as follows:

MEAN = Average Training Emphasis Rating
1 SD = 1 Standard Deviation above Mean Training Emphasis Rating
2 SD = 2 Standard Deviations above Mean Training Emphasis Rating

ABOVE AVG = "ABOVE AVERAGE" in Training Emphasis; Tasks that fall between the Mean and 1 SD
HIGH = "HIGH" in Training Emphasis; Tasks that fall between 1 SD and 2 SD
VERY HIGH = "VERY HIGH" in Training Emphasis; Tasks that fall above 2 SD

This document has been designed and prepared as a final summary document containing data printouts which were used in analyzing the occupational survey data collected on this AFSC. We hope this brief summary assists you in utilizing the data presented in this Training Extract. If you need additional information that is not contained in this Extract, please feel free to contact one of our analysts at DSN 487-6811 for assistance.

AFSC 3C1X1 tasks are presented in USAF Job Inventory order under Duty headings.

The percent of AD TAFMS/DAFSC group members performing each task, as well as task difficulty are presented to the right of each task.

Note that tasks are listed in alphabetical order under each Duty heading so that tasks may be easily located and cross-referenced. Differences between groups may be highlighted where there are large differences in percent members performing each task across the various groups.

STS 3C1X1, Radio Communications Systems, dated February 2002, is presented below with matched job inventory tasks and occupational survey data.

STS items are listed below the dotted line, followed by a listing of matched tasks. Pertinent survey data are printed to the right of each task. This printout is extremely useful during utilization and training workshops (UKTWs) to validate STS content and in determining appropriate training codes for STS items. In addition, tasks which were not matched to any STS item are listed in a "Tasks Not Referenced" section at the end of the printout. These un referenced tasks should be carefully reviewed to identify new areas which may warrant inclusion in the STS.

For assistance in interpretation of this printout, contact AFOMS/OAE, Lt Ocampo, at DSN 487-6811, Ext 3019.

POI E3ABR3C131 003, Radio Communications Systems, dated February 2002, is presented below with matched job inventory tasks and occupational survey data.

POI behavioral learning objectives are listed below the dotted line, followed by a listing of matched tasks which are taught in the basic resident training course. Pertinent survey data are displayed to the right of each task. Behavioral learning objectives should be reviewed using the percent performing data, as well as the task difficulty for each task (see Course Training Decision Logic Table in AETCI 36-2601, Attachment 1). Behavioral learning objectives which are not supported by the criteria listed in AETCI 36-2601 should be considered for deletion from the course.

Tasks which were not matched to a POI behavioral learning objective are listed in a "Tasks Not Referenced" section at the end of the printout. These unreferenced tasks should be carefully reviewed to identify tasks which may warrant inclusion in formal training programs.

For assistance in interpretation of this printout, contact AFOMS/OAE, Lt Ocampo, at DSN 487-6811, Ext 3019.

0063	III.1.b. Identify basic facts concerning communications regulatory agencies. STS: 5.10, 5.1.12, 7.3.1, 7.3.2, 7.3.3, 7.3.4 Meas: W		(2.5)	
0064	III.1.c. Identify basic facts associated with Command and Control (C2) agencies. STS: 5.11.1, 5.11.2, 5.11.3 Meas: W		(4.5)	
0065	III.2. Networks		4	
0066	III.2.a. Identify basic facts concerning network fundamentals. STS: 12.1 Meas: W		(1)	
0067	III.2.b. Identify basic facts concerning types of networks. STS: 7.6, 12.2.1, 12.2.2, 12.2.3 Meas: W		(3)	
0068	III.3. Missions		21.5	
0069	III.3.a. Identify basic facts about fixed communications missions. STS: 9.1.1, 9.1.3, 9.1.9, 14.1.1, 14.2.1, 14.2.2, 14.2.3, 14.3, 14.4, 14.5.1, 14.5.2, 14.5.3, 14.6, 14.7, 14.9 Meas: W		(6.5)	

D T Y	Task Title	1ST JOB	1ST ENL	TSK DIF
0070	III.3.b. Identify basic facts about satellite communications missions. STS: 9.1.5, 11.3 Meas: W			(7)
0071	III.3.c. Identify basic facts dealing with tactical communications missions. STS: 9.1.6, 9.1.7, 9.1.8, 9.1.11, 9.1.12 Meas: W			(6)
0072	III.3.d. Identify basic facts concerning Air Expeditionary Force (AEF). STS: 1.5 Meas: W			(2)
0073	IV. Air/Ground/Air Operations			
0074	IV.1. Air/Ground/Air Operations			107
0075	IV.1.a. Using a radio procedures trainer perform Air/Ground/Air Operations with a minimum of 70 percent accuracy. STS: 6.3.5.1, 6.3.5.2, 6.3.5.3, 6.3.5.4, 6.3.5.5, 6.3.5.7, 6.3.5.9, 6.3.5.10, 7.1.1, 7.1.2, 7.3.5, 7.3.6, 7.3.7, 7.3.8, 7.3.9, 7.5.1, 7.5.2, 7.5.3, 7.5.4, 7.5.5, 7.5.6, 7.5.7, 7.5.8, 7.7.2, 7.7.3, 11.1, 11.4.1, 11.4.2, 11.5 Meas: PC			
A 25	Set up phone patch equipment	12	13	5.09
A 32	Verify or load equipment presets	34	37	4.65
B 36	Configure ancillary equipment for operations	1	4	4.63
B 39	Configure consoles for clear voice operations	11	15	4.36
B 40	Configure consoles for switchboard dial code operations	0	4	5.00
B 42	Configure consoles or terminals for phone patch operations	12	12	4.96

D T Y	Task Title	1ST JOB	1ST ENL	TSK DIF
B 58	Configure transportable switchboard or telephone equipment for phone patch, secure voice data, or switchboard dial code operations	4	10	5.90
C 70	Perform operational checks of ancillary equipment	8	8	3.29
C 71	Perform operational checks of radio systems	24	29	3.54
D 75	Authenticate message traffic using transmission authentication systems	35	26	4.58
D 76	Authenticate stations using challenge-and-reply systems	34	28	4.39
D 77	Broadcast radio transmissions	30	27	3.91
D 80	Conduct data or voice transmissions using universal coordinated time (UCT)	14	13	3.74
D 81	Conduct data transmission using phonetic alphabet	27	31	3.52
D 82	Conduct data transmission using prosigns	22	24	3.87
D 83	Conduct data transmission using prowords	22	23	3.79
D 85	Conduct phone patches automatically or manually	20	22	3.74
D 95	Impose or lift radio silence	11	10	3.90
D 99	Perform hand printing techniques	18	15	2.76
D 100	Perform microphone techniques in radio communications	19	15	2.48
D 101	Perform radio checks	42	44	2.59
D 102	Perform signal testing in radio communications	19	20	2.84
D 106	Prepare messages using Emergency Action Message (EAM) format	14	14	4.65
D 107	Prepare messages using Fortrot format	12	11	4.59
D 108	Prevent false distress signals	7	8	4.16
D 110	Receive and relay aircraft emergencies	24	23	5.48
D 113	Receive and relay position reports	24	21	3.91
D 114	Receive, transmit, or relay broadcasts	24	20	3.87
D 115	Receive, transmit, or relay messages	34	33	3.99
E 131	Identify receiver, transceiver, or transmitter malfunctions	8	14	4.95
F 150	Review air tasking documents	14	15	5.31
H 192	Perform manual key loading procedures	28	30	5.65
H 193	Perform message processing procedures	15	18	5.39
I 212	Destroy classified or COMSEC materials or documents	62	73	4.99
I 213	Establish or maintain accountability records for classified or COMSEC materials or documents	57	60	5.57
I 214	Extract call-signs	18	22	4.11
I 222	Maintain security or COMSEC forms for safes, containers, or rooms	47	52	4.78
I 226	Monitor frequencies for interference among users	9	10	4.30
I 227	Perform two-person integrity (TPI) procedures for top secret materials	28	32	5.12
I 232	Research marking or processing classified materials directives	4	6	5.46
I 239	Store classified or COMSEC materials or documents, other than at deployed locations	38	46	4.91

Radio Communications Systems
 Reported AFSC(s): 3C1X1

----- Variable/Group Distributions -----

The percent of reported group members who use, maintain or operate various types of equipment are presented under the column headings for the appropriate group. This percent using, maintaining, or operating equipment may be valuable in determining the relevancy of training and testing on or about these types of equipment.

Reports on the following groups were requested:

- gp0007: All Active Duty Airmen with DAFSC 3C1X1 (n = 411)
- gp0023: All DAFSC 3C1X1 AD Amn with 1-48 Mos TAFMS (n = 216)
- gp0024: All DAFSC 3C1X1 AD Amn with 49-96 Mos TAFMS (n = 53)
- gp0025: All DAFSC 3C1X1 AD Amn with 97+ Mos TAFMS (n = 142)
- gp0008: All Active Duty Airmen with DAFSC 3C131 (n = 107)
- gp0009: All Active Duty Airmen with DAFSC 3C151 (n = 239)
- gp0010: All Active Duty Airmen with DAFSC 3C171 (n = 63)

Radio Communications Systems
 Reported AFSC(s): 3C1X1

----- Variable/Group Distributions -----

The percent of reported group members who use, maintain or operate various types of equipment are presented under the column headings for the appropriate group. This percent using, maintaining, or operating equipment may be valuable in determining the relevancy of training and testing on or about these types of equipment.

Reports on the following groups were requested:

gp0007: All Active Duty Airmen with DAFSC 3C1X1	(n = 411)
gp0023: All DAFSC 3C1X1 AD Ann with 1-48 Mos TAFMS	(n = 216)
gp0044: All DAFSC 3C1X1 AD Ann in USAFE with 1-48 Mos TAFMS	(n = 4)

AFSC 3C1X1 task difficulty ratings are presented below in descending order, along with the percent members performing for various career ladder groups. Also presented are first-term training emphasis ratings.

Each of the 30 experienced NCOs that completed task difficulty disks rated each job inventory task on a nine-point scale from (1) extremely low difficulty to (9) extremely high difficulty. Difficulty was defined as the length of time it takes an average individual to learn to do the task. These NCOs were selected from a wide variety of commands and locations. To make these data easier to use, ratings were adjusted so that an average task difficulty equaled 5.00 and a standard deviation of 1.00. Thus, tasks rated below 4.00 are relatively easy, while tasks rated higher than 6.00 are fairly difficult.
