War Casualty Lists and Statistics

Summary

This report is written in response to numerous requests for war casualty statistics and lists of war dead. It provides tables, compiled by sources at the Department of Defense, indicating the number of casualties among American military personnel serving in principal wars and combat actions.

Wars covered include the Revolutionary War, the War of 1812, the Mexican War, the Civil War, the Spanish-American War, World War I, World War II, the Korean War, the Vietnam Conflict, and the Persian Gulf War. Military operations covered include the Iranian Hostage Rescue Mission, Lebanon Peacekeeping, Urgent Fury in Grenada, Just Cause in Panama, Desert Shield and Desert Storm, Restore Hope in Somalia, Uphold Democracy in Haiti, and the ongoing Operation Enduring Freedom and Operation Iraqi Freedom.

For the more recent conflicts, starting with the Korean War, more detailed information on types of casualties, and when available, demographics have been included. This report also cites sources of published lists of military personnel killed in principal wars and combat actions. This report will be updated as events warrant.

War Casualty Lists and Statistics

Introduction

This report is written in response to numerous requests for war casualty statistics and lists of war dead. It provides tables, compiled by sources at the Department of Defense, indicating the number of fatalities and numbers of wounded among American military personnel serving in principal wars and combat actions from the Revolutionary War to the current Operation Iraqi Freedom and Operation Enduring Freedom (operations in Afghanistan and related conflicts).

A review of the composite data reveals the following.

- During the period between the Revolutionary War and the Persian Gulf War, it was the Civil War that produced the most American fatalities, when Union statistics and Confederate estimates are taken into account.
- World War II was the first war in which there were more battle deaths than deaths from other causes such as accidents, disease, and infections.
- With a total of 382 in-theater deaths, 147 of which were battle deaths, the Persian Gulf War was the least costly in terms of fatalities (see **Table 1**).
- The ongoing Operation Iraqi Freedom to date has produced more than four times the number of in-theater deaths than the Persian Gulf War (which lasted seven months).

The casualty statistics for wars long ended are updated periodically, sometimes yearly. This almost always reflects the identification of remains of persons previously listed as missing in action and those persons' reclassification as dead. Other reasons, much rarer, include the discovery of errors in casualty records for individuals or categories of people.

Historical Background and Notes from DOD:

- a. Data prior to World War I are based on incomplete records in many cases. Casualty data are confined to dead and wounded and, therefore, exclude personnel captured or missing in action who were subsequently returned to military control.
- b. Marine Corps data for World War II, the Spanish-American War, and prior wars represent the number of individuals wounded, whereas all other data in this column represent the total number (incidence) of wounds.
- c. Not known, but estimates range from 184,000 to 250,000.
- d. As reported by the Commissioner of Pensions in the annual report for the FY1903.
- e. Authoritative statistics for the Confederate forces are not available. Estimates of the number who served range from 600,000 to 1,500,000. The final report of the Provost Marshal General, 1863-1866, indicated 133,821 Confederate deaths (74,524 battle and 59,297 other) based upon incomplete returns. In addition, an estimated 26,000 to 31,000 Confederate personnel died in Union prisons.
- f. Number serving covers the period April 21 to August 13, 1898, while dead and wounded data are for the period May 1, to August 31, 1898. Active hostilities ceased on August 13, 1898, but ratifications of the Treaty of Peace were not exchanged between the United States and Spain until April 11, 1899.
- g. Includes air service. Battle deaths and wounds not mortal include casualties suffered by American forces in northern Russia to August 25, 1919, and in Siberia to April 1, 1920. Other deaths cover the period April 1, 1917, to December 31, 1918.

- h. Data are for the period December 1, 1941, through December 31, 1946, when hostilities were officially terminated by Presidential Proclamation, but a few battle deaths or wounds not mortal were incurred after the Japanese acceptance of the Allied peace terms on August 14, 1945. Number serving from December 1, 1941, through August 31, 1945, were: Total 14,903,213; Army 10,420,000; Navy 3,883,520; and Marine Corps 599,693.
- i. Includes Army air forces.
- j. Battle deaths and wounds not mortal include casualties incurred in October 1941 due to hostile action.
- k. Worldwide military deaths during the Korean War totaled 54,246. In-theater casualty records are updated annually.
- l. Number serving covers the period August 5, 1964, (“Vietnam era” begins) through January 27, 1973 (date of cease-fire). Deaths include the period November 1, 1955, (commencement date for the Military Assistance Advisory Group) through May 15, 1975, (date last American servicemember left Southeast Asia). Wounds not mortal exclude 150,332 persons not requiring hospital care. Casualty records are updated annually, including current deaths that are directly attributed to combat in the Vietnam Conflict.
- m. Coast Guard numbers are included with Navy. Report does not include one POW (Speicher). Casualty records are updated annually.

Any casualty date in the detailed records after the end date represents a Servicemember who was wounded during the period and subsequently died as a result of those wounds or a Servicemember who was in a missing status during a part of the war period and later declared dead.
- b. Estimated figures includes Coast Guard. Report does not include one POW (Speicher).

Tables 9-11 provide statistics on casualties during Operation Enduring Freedom (OEF), which began on October 7, 2001, and is ongoing. Table 9 provides statistics on total casualties broken down by casualty type. Tables 10 and 11 provide statistics on deaths and casualties, respectively, broken down by demographics. Inclusive dates are October 7, 2001, to present. Casualties include servicemember deaths in or around Afghanistan, Republic of the Philippines, Southwest Asia, and other locations. However, virtually all OEF casualties have been incurred in Afghanistan. These statistics may be revised as circumstances are investigated and as all records are processed through the U.S. military system. Daily casualty summaries are available at DOD’s website at [<http://www.defenselink.mil/news/>]; click on “OIF/OEF Casualty Update.”

Additional Sources of Statistics

The Department of Defense Directorate of Information, Operations, and Reports (DIOR) provides detailed historical tables as well as annual statistics on active duty military deaths at [<http://web1.whs.osd.mil/mmid/casualty/castop.htm>].

The National Archives and Records Administration (NARA) has published statistics derived from its Southeast Asia Combat Area Casualties Current File. This includes tables on Vietnam casualty data by branch of service, race, religion, state, and other categories at [http://www.archives.gov/research_room/research_topics/vietnam_war_casualty_lists/statistics.html].

The Women in Military Service to America Memorial (WIMSA) presents casualty data on women in principal wars as researched by its historian's office at [<http://www.womensmemorial.org/historyandcollections/history/lrnmreqacasualty.html>].

Selected Sources of Published Lists of Names of War Dead

The Congressional Research Service also receives requests for lists of the names of war dead, often for use on memorials, tributes, or for other ceremonial purposes. This report cites the following sources of published lists of U.S. military personnel killed in principal wars and combat actions.

World War II

Army casualty lists for World War II are published in *World War II Honor List of the Dead and Missing* (U.S. War Department, 1946).

Navy casualty lists are published in *State Summary of War Casualties* (U.S. Navy Department, 1946).

Korean War and Vietnam War

The National Archives has made state-level casualty lists from the Korean War and the Vietnam War available online at [http://www.archives.gov/research_room/research_topics/korea_and_vietnam_casualties.html].

Operation Enduring Freedom

The DIOR website lists the names of individuals killed in Operation Enduring Freedom at [http://web1.whs.osd.mil/mmid/casualty/oef_list_of_names.pdf].

Operation Iraqi Freedom

The DIOR website lists the names of individuals killed in Operation Iraqi Freedom at [http://web1.whs.osd.mil/mmid/casualty/oif_list_of_names.pdf].

Wars Prior to World War II

Lists of casualties that are not available from a central source may be obtained on a state level from each state's Adjutant General's office. The Adjutant General of each state is the military commander of the state's national board. The following is a list of these offices.
