Final Report
NOTICE

This document is disseminated under the sponsorship of the U.S. Department of Transportation in the interest of information exchange. The United States Government assumes no liability for the contents thereof.

This publication and all Office of Aerospace Medicine technical reports are available in full-text from the Civil Aerospace Medical Institute’s publications Web site:

www.faa.gov/library/reports/medical/oamtechreports/index.cfm
The 3rd edition of the *Index of International Publications in Aerospace Medicine* is a comprehensive listing of international publications in clinical aerospace medicine, operational aerospace medicine, aerospace physiology, environmental medicine/physiology, diving medicine/physiology, aerospace human factors, as well as other topics directly or indirectly related to aerospace medicine. The Index is divided into six major sections: I) Open Publications in General Aerospace Medicine, II) Government Publications in General Aerospace Medicine, III) Publications in Other Topics Related to Aerospace Medicine and Aerospace Human Factors IV) Proceedings From Scientific Meetings in Aerospace Medicine and Psychology, V) Journals, Newsletters, and Bulletins in Aerospace Medicine and Aerospace Human Factors, and VI) On-line Databases Containing Bibliographic, Regulatory, and Safety Information in Aerospace Medicine and Related Disciplines.
**INDEX OF INTERNATIONAL PUBLICATIONS IN AEROSPACE MEDICINE**

**FOREWORD**

This manuscript contains a comprehensive listing of international publications in Clinical Aerospace Medicine, Operational Aerospace Medicine, Aerospace Physiology, Environmental Medicine/Physiology, Diving Medicine/Physiology, Aerospace Human Factors, as well as other important topics directly or indirectly-related to aerospace medicine. This bibliographic guide is divided into six major sections: I) Open Publications in General Aerospace Medicine, II) Government Publications in General Aerospace Medicine, III) Publications in other Topics related to Aerospace Medicine and Aerospace Human Factors, IV) Proceedings From Scientific Meetings, Conferences, and Symposiums in Aerospace Medicine and Psychology, and V) Journals, Newsletters, and Bulletins in Aerospace Medicine and Aerospace Human Factors, and VI) Online Computerized Databases Containing Bibliographic Information in Aerospace Medicine and Related Disciplines.

With respect to the type of publications included in this bibliographic guide, our primary objective was to provide the reader with detailed information about “books.” Books were selected because they offer a comprehensive coverage of a general area of interest, and they represent excellent tools for structured learning and consultation. On the other hand, article citations from periodical publications (journals, bulletins, and newsletters) were kept to a minimum because their coverage is usually limited to specific issues. Articles are very useful to colleagues who have an adequate understanding of a given general discipline and wish to keep up with the latest developments in the various areas that confirm such a discipline. However, the inclusion of thousands of individual article and technical report citations was beyond the scope of this bibliographic guide. For those colleagues interested in periodical publications, our guide includes a section containing general information on journals, bulletins, and newsletters in Aerospace Medicine and Aerospace Human Factors, indicating which are currently being published on a regular basis and which have been discontinued. Citations to technical reports are included in the numerous indices, bibliographies, serial publications, and online databases that are listed throughout the guide.

We believe this guide will be useful as a primary source of consultation for bibliographic information, especially to those colleagues who are in their formative years and to those who do not have easy access to computer-aided literature search systems.

The guide is not intended to be an all-inclusive listing of every publication in aerospace medicine available worldwide. Obviously, there are other publications that we are not aware of due to limitations in our literature search methodologies. Therefore, we take this opportunity to encourage readers to let us know of any publication (old or recent) not listed in this guide that should be included.

Finally, it is important to establish that this bibliographic guide does not constitute a recommendation or an endorsement of any of the publications listed herein. The merits and limitations of each publication should be judged by the reader, keeping in mind that some of these publications should be evaluated as historical documents and not as up-to-date consultation sources.
# Contents

I) **Open Publications in General Aerospace Medicine** ........................................... 1

II) **Government Publications in General Aerospace Medicine** .......................... 6

III) **Publications in Other Topics Related to Aerospace Medicine** ...................... 8
    Aerospace Medical Certification and Standards .......................................... 8
    Operational Aerospace Medicine ............................................................. 9
    Aeromedical Care and Air Ambulances .................................................... 12
    Aerospace Medicine for Flight Crews ...................................................... 13
    Medical Aspects of Aviation Safety and Accidents ...................................... 14
    Aviation and Environmental Physiology ................................................... 18
    Space Physiology, Medicine, and Human Factors ....................................... 24
    Diving Physiology and Medicine ............................................................. 33
    Aerospace Human Factors and Psychology ................................................. 37
    General Human Factors and Psychology .................................................. 43
    Aerospace Medicine History ..................................................................... 49

IV) **Proceedings From Scientific Meetings in Aerospace Medicine and Psychology** .... 51

V) **Journals, Newsletters, and Bulletins in Aerospace Medicine and Aerospace Human Factors** ................................................................. 55

INDEX OF INTERNATIONAL PUBLICATIONS IN AEROSPACE MEDICINE

I) OPEN PUBLICATIONS IN GENERAL AEROSPACE MEDICINE

Box A. Tratado de Medicina Aeronáutica y Aviación. Ceuta, Spain: Impresora Rosaura, 1936.

Chang HY. Hang K’ung Hsin Hsüeh Kuan Ping Chi Ch’u Lin Ch’uang. Pei-ching, China: Jen Min Chün I Ch’u Pan She, 1991.

Ching LP. Hang K’ung i Hsüeh Kai Shu. Taipeh, Taiwan: Chêng Chung Shu Chü, 1955.

Covas Coro R. Medicina Aeronáutica: Conferencias de Medicina Aplicada a la Aviación. La Habana, Cuba: Rodriguez, 1949.

Covas Coro RC. Medicina Aeronáutica: Lecciones de Medicina Aplicada a la Aviación. La Habana, Cuba: Universidad de la Habana, 1953.

Sundgren NE. Luftfartsmedicin; Referat och Utdrag. Stockholm, Sweden: Flygvapnet, 1941.

Tsai C, Feng KC. Hang K’ung Yü K’ung Chien I Hsüeh Chi Ch’u. Pei-ching, China: Kuo Fang Kung Yeh Ch’u Pan She, 1979.

Wang TH. Chung I Yü Hang Ping Hsüeh. His-an, China: Shen-his K’o Hsüeh Chi Shu Ch’u Pan She, 1996.

II) GOVERNMENT PUBLICATIONS IN GENERAL AEROSPACE MEDICINE

Jones GM. DRB Aviation Medical Research Unit Reports. Ottawa, Canada: Defense Research Board, 1971.

Robinette JC. Bibliography on Aeromedical Research with Abstracts. Dayton, OH, USA: USAF Aerospace Medical Research Laboratory, Wright-Patterson Air Force Base, Wright Air Development Division, 1960.

School of Aviation Medicine. Manual of Medical Research Laboratory. Randolph Field, TX, USA: War Department Air Service, 1918.

III) PUBLICATIONS IN OTHER TOPICS RELATED TO AEROSPACE MEDICINE

Aerospace Medical Certification and Standards

Lovelace Foundation for Medical Education and Research. Seminar for Aviation Medical Examiners. Albuquerque, NM, USA: Lovelace Foundation, 1962.

Sutherland GA. The Examination of Aviation Candidates. Lancet, 1918, II:803.

Operational Aerospace Medicine

Aerospace Medical Association, Committee on Aviation Toxicology. Aviation Toxicology. New York, NY, USA: Blakiston Co., 1953.

Henderson VE. Air Crew in their Element: Hints for the Maintenance of Fitness and Confidence. Toronto, Canada: University of Toronto Press, 1942.

Aeromedical Care and Air Ambulances

Aerospace Medicine for Flight Crews

**Medical Aspects of Aviation Safety and Accidents**

Reals WJ. Medical Investigation of Aviation Accidents. Chicago, IL, USA: College of American Pathologists, 1968.

Stevens PJ. Fatal Civil Aircraft Accidents - Their Medical and Pathological Investigation. Baltimore, MD, USA: Williams & Wilkins Co., 1970.

Thorndike RL. The Human Factor in Accidents, with Special Reference to Aircraft Accidents. Randolph Field, TX, USA: USAF School of Aviation Medicine, 1951.

Boothby WM. Respiratory Physiology in Aviation. San Antonio, TX, USA: USAF School of Aviation Medicine, Randolph Field, 1954.

Ch’iu WY. Kao Hsing Neng Chan Chi G li Hun mi Chih Wei Hsien Yü Fang Fan. T’aipei Shib, Taiwan: I Hsüan t’u Shu Ch’u Pan She, 1997.

Coriolis G. Traite de Mechanique des Corps Solides et du Calcul de l’effet des Machines. Paris, France: 1846 (German by C.H. Schnuse, Braunschweig. 1946.)

Jedeka LW. Physiological Considerations in Aviation. Burbank, CA, USA: Lockheed Aircraft Corporation, 1942.

Teichner WH. The Psychophysiology of Thermal Regulation. Amherst, MA, USA: University of Massachusetts, 1963.

**Space Physiology, Medicine, and Human Factors**

Haber H. Man in Space. Indianapolis, IN, USA: Bobbs-Merrill, 1953.

Helvey W. Biomedical and Human Factors Requirements for a Manned Earth Orbiting Station. Farmindale, NY, USA: Republic Aviation Corporation, 1964.

Jenkins M. Human-Rating Requirements. Houston, TX, USA: Lyndon B. Johnson Space Center, 1998.

Johnson PC, Mason JA. Medical Operations and Life Sciences Activities on Space Station. Houston, TX, USA: National Aeronautics and Space Administration, 1982.

Taylor ER. Physical and Physiological Data for Bioastronautics. Randolph AFB, TX, USA: USAF School of Aviation Medicine, 1958.

Thompson AB. Physiological and Psychological Considerations for Manned Space Flight. Dallas, TX, USA: Chance Vought Aircraft Inc., 1959.

Wang T. Chung i Yu Hang Ping Hsueh. Hsi-an, China: Shen-hsi K'o Hsueh Chi Shu Ch'u Pan She, 1996.

Diving Physiology and Medicine

Molfino F, Zannini D. L’Uomo e il Mondo Sommerso; Medicina Subacquea. Torino, Italy: Minerva Medica, 1964.

Aerospace Human Factors and Psychology

Cheston TS, Winter DL. Human Factors of Outer Space Production. USA: American Association for the Advancement of Science, 1980.

de Meo E. Psicologia e Psicopatologia, Nozioni Applicate alla Medicina Aeronautica. Torino, Italy: I.T.E.R., 1940.

Mortimer RG, Hanson JS. Aviation Safety Research: Literature Review of Sources of Aviation Accident and Incident Data and Selected Factors Contributing to Accidents. Champaign, IL, USA: University of Illinois, 1993.

Rose RM, Jenkins CD. Air Traffic Controller Health Change Study: A Prospective Investigation of Physical, Psychological and Work-Related Changes. Boston, MA, USA: Boston University School of Medicine, 1978.

Strollo M. Psicologia Generale e Applicata all’Aeronautica. Firenze, Italy: Scuola de Guerra Aerea, 1959.

Transport Canada, System Safety Directorate. Crew Resource Management. Ottawa, Canada:

**General Human Factors and Psychology**

Herlitzka A. L’Opera del Medico per il Progresso dell’Aviazione. International Air Congress (Rome), 1927; 4:568-581.

Lauschner EA. The Beginnings of Aviation Medicine in Germany. Aviation, Space, and Environmental Medicine, 1984; 55(5):355-357.

Munn NL. An Historical Introduction to Aviation Psychology. Washington, DC, USA: Civil Aeronautics Administration, 1942.

Smith G. Canadian Aviation Medicine, 1939-1945. University of Western Ontario, Canada: 1996.

IV) PROCEEDINGS FROM SCIENTIFIC MEETINGS IN AEROSPACE MEDICINE AND PSYCHOLOGY

VI Congresso Internazionale e XII Europeo de Medicina Aeronautica e Spaziale. Rome, Italy: 1964.

Grigor’ev AI. Organizm i Okruzhaiushchaia Sreda: Adaptatsiia k Ekstremal’nym Usloviiam: Rossiiskaia Konferentsiia s Mezhdunarodnym Uchastiem: Materialy Konferentsii, 3-5,

Lamb LE. The First International Symposium on Cardiology in Aviation. USAF School of Aviation Medicine, Brooks AFB - USAF Aerospace Medical Center, San Antonio, Texas, USA. 1959.

National Aeronautics and Space Administration. 
Twelfth Man in Space Symposium: The 
Future of Humans in Space, June 8-13, 1997, 

National Aeronautics and Space Administration - 
Universities Space Research Association - Baylor 
College of Medicine - International Academy 
of Astronautics. Physiologic Adaptation of 
Man in Space: 7th International Man in Space 
Symposium. Houston, TX, USA, 1986.

National Luchtvaartgeneeskundig Centrum. Premier 
Congress European de Medicine Aeronautique. 
Soesterberg, Netherlands. 1957.

National Research Council – Panel on Underwater 
Swimmers. Proceedings of the Underwater 
Physiology Symposium. Washington, DC, 
USA: National Academy of Sciences, 1955- 
1971.

North Atlantic Treaty Organization – Advisory 
Group for Aerospace Research and 
Development – Aerospace Medical Panel 
Symposium. Aeromedical Support Issues 
in Contingency Operations. Rotterdam, 
Netherlands, 1997.

North Atlantic Treaty Organization – Advisory 
Group for Aerospace Research and 
Development – Aerospace Medical Panel 
Symposium. Aircraft Accidents: Trends in 
Aerospace Medicine Investigation Techniques. 
Cesme, Turkey, 1992.

North Atlantic Treaty Organization – Advisory 
Group for Aerospace Research and 
Development – Aerospace Medical Panel 
Symposium. The Clinical Basis for Aeromedical 
Decision Making. Palma de Mallorca, Spain, 
1994.

North Atlantic Treaty Organization – Advisory 
Group for Aerospace Research and 
Development – Aerospace Medical Panel 
Symposium. Neurological Limitations of 
Aircraft Operations: Human Performance 

North Atlantic Treaty Organization – Advisory 
Group for Aerospace Research and 
Development – Aerospace Medical Panel 
Symposium. Selection and Training Advances in 
Aviation. Prague, Czech Republic, 1996.

North Atlantic Treaty Organization – Advisory 
Group for Aerospace Research and 
Development – Aerospace Medical Panel 
Symposium. Situation Awareness: 
Limitations and Enhancement in the Aviation 

North Atlantic Treaty Organization – Research and 
Technology Organization - Human Factors 
and Medicine Panel Workshop. Aeromedical 
Aspects of Aircrew Training. San Diego, CA, 
USA, 1998.

North Atlantic Treaty Organization – Research and 
Technology Organization – Human Factors and 
Medicine Panel Workshop. Models for Aircrew 
Safety Assessment: Uses, Limitations and 
Requirements. Wright-Patterson Air Force Base, 
OH, USA, 1999.

North Atlantic Treaty Organization – Research and 
Technology Organization – Human Factors and 
Medicine Panel. Current Aeromedical Issues in 
Rotary Wing Operations. San Diego, CA, USA, 
1998.

North Atlantic Treaty Organization – Research and 
Technology Organization – Human Factors and 
Medicine Panel. Pathological Aspects and 
Associated Biodynamics in Aircraft Accident
