Panel 5 - Open Architecture, Open Business Models and Collaboration for Acquisition

Mr. Bill Johnson
Deputy Major Program Manager Future Combat Systems
Open Architecture (PEO-IWS 7DEP)
1. REPORT DATE  
**MAY 2007**

2. REPORT TYPE

3. DATES COVERED  
**00-00-2007 to 00-00-2007**

4. TITLE AND SUBTITLE  
Open Architecture, Open Business Models and Collaboration for Acquisition

5a. CONTRACT NUMBER

5b. GRANT NUMBER

5c. PROGRAM ELEMENT NUMBER

5d. PROJECT NUMBER

5e. TASK NUMBER

5f. WORK UNIT NUMBER

6. AUTHOR(S)

7. PERFORMING ORGANIZATION NAME(S) AND ADDRESS(ES)  
Naval Open Architecture, PEO-IWS, Washington Navy Yard, Washington, DC, 20350

8. PERFORMING ORGANIZATION REPORT NUMBER

9. SPONSORING/MONITORING AGENCY NAME(S) AND ADDRESS(ES)

10. SPONSOR/MONITOR’S ACRONYM(S)

11. SPONSOR/MONITOR’S REPORT NUMBER(S)

12. DISTRIBUTION/AVAILABILITY STATEMENT  
Approved for public release; distribution unlimited

13. SUPPLEMENTARY NOTES  
4th Annual Acquisition Research Symposium: Creating Synergy for Informed Change, May 16-17, 2007 in Monterey, CA

14. ABSTRACT

15. SUBJECT TERMS

16. SECURITY CLASSIFICATION OF:  
   a. REPORT  
   unclassified
   
   b. ABSTRACT  
   unclassified
   
   c. THIS PAGE  
   unclassified

17. LIMITATION OF ABSTRACT  
Same as Report (SAR)

18. NUMBER OF PAGES  
6

19a. NAME OF RESPONSIBLE PERSON

Standard Form 298 (Rev. 8-98)  
Prescribed by ANSI Std Z39-18
Welcome to panel 5, Open Architecture, Open Business Models and Collaboration for Acquisition

- Our discussant is Mr. Nick Guertin, Deputy Director, Open Architecture (PEO-IWS 7B)
- Our presenters today will discuss two related topics of great interest to the Navy
  - Both have to do with how we measure value in a business where we don’t generate revenue
  - Both will apply powerful analytic methods that can be used in very practical ways by those responsible for determining how best to invest resources to deliver capability to the warfighter
What do we mean by Naval Open Architecture?

Naval Open Architecture is the confluence of business and technical practices yielding modular, interoperable systems that adhere to open standards with published interfaces. OA delivers increased warfighting capabilities in a shorter time at reduced cost.
As new operational requirements emerge, we are shifting our acquisition model...

**PAST – MILSPEC MODEL**

**Business Model Attributes:**
- Platform Focused
- Owner controls evolution
- Cost emphasis
- Develop software
- Make custom hardware

**System Model Attributes:**
- Requirements driven
- Specification focus
- Rigid requirements
- Unique / monolithic architectures
- Stable design
- Ignore evolution
- Obsolescence
- Waterfall-style development

**Platform-focused model**

- Advanced Hawkeye
- DDG
- LCS
- CVN
...to a model that better aligns to capabilities across multiple platforms, families of systems, and system of systems.

**PRESENT – OA MODEL**

**Business Model Attributes:**
- Capability / Systems Focused
- Market controls evolution
- Total Ownership Cost emphasis
- License or Reuse software
- Leverage COTS or Reuse

**System Model Attributes:**
- Market driven
- Business plan focus
- Flexible requirements
- Modular open architectures
- Constant changes
- Design for tech refresh
- Early-managed obsolescence
- Spiral development

---

**Capability / System–Based vs. Platform–Based**

- **SIAP**
  - Advanced Hawkeye
  - DDG
  - LCS
  - CVN

- **NIFC-CA**
  - Advanced Hawkeye
  - DDG
  - LCS
  - CVN

- **Capability C**
  - Advanced Hawkeye
  - DDG
  - LCS

- **Capability D**
  - Advanced Hawkeye
  - DDG

**Multiple, Enterprise-wide Contracts**
This panel’s presentations discuss use of a key toolset to make the business part of the Naval OA equation come to fruition

- In the first presentation, *Open Architecture and Open Acquisition Business Models: Integrated Weapons Systems*, we will hear about a powerful management toolset to help the PM make, and refine, key decisions in an open business environment.
- In the second, *Measuring the Value Added of Collaborative and 3-D Scanning Tools in Acquisitions: Improving the SHIPMAIN Cost Estimation Process* we see how the application of collaborative tools and scanning technologies can be used to advantage in our modernization processes.
