INTRODUCTION

This volume of the TM(ADC)820 Series contains the official SAGE Unique-to-Site environmental data and equipment assignments which are to be used in adapting the Model 9 computer programs and in Simplex Data Distribution Unit terminal assignments for the Sioux City Air Defense Sector. Certain adaptation data such as facility locations, characteristics, and other related data which apply to all sectors, is presented in volumes 3 through 7 of this TM series. The reader is referred to Volume ϕ of this series for a detailed list of contents of all volumes.

SAGE Unique-to-site Equipment Review (USER) Committee signatures appear on page 5 of this document, with initials indicating approval, concurrence or review, as appropriate.

ADCM 55-32 currently defines adaptation data as being of two categories: 1) ADC Controlled Data; and 2) Field Controlled Data. A portion of this document is ADC Controlled Data and therefore constitutes a reason for the ADC Foreword page and NORAD Preface page authorizing the use of this data. However, since this document also contains Field Controlled Data, e.g.: "Times-2" display data; Manual Input data; etc, it is noted here that the aforementioned military preface and foreword page do not in any way usurp the position of the Division and Sector Commanders as delegated in ADCM 55-32, but instead reflect recognition of data forwarded by those Commanders to SDC.

Discrepancies noticed in any part of this document by SDC on-site programming teams should be forwarded to the authors utilizing current established procedures. Revisions to this document will be published as data changes occur or when practical. Changes to previous data will be indicated by use of a " \blacktriangleright " next to the data change.

SERIES CONTENTS

VOLUME	ϕ	Series Description
VOLUME	1	Adaptation I/O Limits and Drum Channel Requirements
VOLUME	2	Sector Environment Summaries
VOLUME	3	Sector and Region Positional Data
VOLUME	4	Radar Adaptation Data
VOLUME	5	Voice and Data-Link Communications Adaptation Data
VOLUME	6	Airbase and BOMARC Squadron Adaptation Data
VOLUME	7	ADA Site Adaptation Data
VOLUME	10	Unified Adaptation Guide for Region and Sector Data
VOLUME	250 through 351	SAGE Unique-to-Site Environmental Data and Equipment Assignments

LIST OF EFFECTIVE PAGES

This page is a reference of changes to this volume and contains a complete index of all effective pages.

The SAGE Unique-to-Site Equipment Review (USER) Committee signatures appearing on this page only apply to the following sections:

- | | |
|-------------|---|
| Section 2.4 | IRI drum channel assignments |
| Section 6.2 | Lateral-Tell input channel assignments |
| Section 6.3 | Ground-to-ground data link output assignments |
| Section 6.4 | Ground-to-air data link output assignments |
| Section 6.5 | Teletype output assignments |

All other sections of this document need not be reviewed by the USER Committee. This page will only be reissued when changes to the above mentioned sections are made.

INDEX PAGE

SECTION A - SECTOR AND REGION ENVIRONMENTAL DATA FOR SIOUX CITY RCC/DC

1.0 SECTOR POSITIONAL DATA

- 1.1 REGION BOUNDARIES
 - 1.1.1 MODE I BOUNDARY - SIOUX CITY ADS
