LIST OF TRANSLATIONS

1965 :

Foreign Literature Relating
to the Geophysical Sciences.

translated by the

American Meteorological Society

These translations were sponsored and supported
by the Air Force Cambridge Research Laboratories, Office
of Aerospace Research, United States Air Force, L. G. Hanscom
Field, Bedford, Massachusetts, under contract AF 19(628)-3880.

AMERICAN METEOROLOGICAL SOCIETY
TRANSLATION SERVICE

Staff

David H. Kraus	Technical Supervisor
Stuart W. Kellogg	Translator
William J. Grimes	Translator
George E. Brady, Jr.	Translator
Rita Ducharme	Secretary
Janet Franz	Typist

Part-time translators are employed as needed.

The translations cited are complete, with figures, equations, and literature cited. Many of the items listed have been made available to the public. These are marked +. Some have received limited distribution for various reasons and are not available to the public at large, but may be examined at the American Meteorological Society quarters in Boston. Translations marked + may be obtained from

SLA Translation Center
The John Crerar Library
35 West 33rd Street
Chicago, Illinois 60616

Department of Defense agencies and their contractors may obtain these translations from the Defense Documentation Center (DDC).

The List of Translations is divided alphabetically by language, and the items are numbered chronologically by date of translation under each language heading. The symbol T, for translation, precedes each entry, followed by the letter symbol of the language of the original, e. g., G for German, and the number assigned to the translation. The letter C following the language symbol indicates that the item is a collection of articles, e. g., T-JC-1.

Seven languages are represented: French, German, Japanese, Lithuanian, Polish, Russian, and Ukrainian. An author index is included.
