MEMORANDUM FOR SGVT
ATTN: LT COL SHANA HANSEN

FROM: 59 MDW/SGVU

SUBJECT: Professional Presentation Approval

1. Your paper, entitled **Pediatric Home Sleep Studies: A Prospective Study** presented at **Pediatric Academic Societies Meeting, Baltimore, MD 30 Apr – 3 May 2016** with MDWI 41-108, and has been assigned local file #16120.

2. Pertinent biographic information (name of author(s), title, etc.) has been entered into our computer file. Please advise us (by phone or mail) that your presentation was given. At that time, we will need the date (month, day and year) along with the location of your presentation. It is important to update this information so that we can provide quality support for you, your department, and the Medical Center commander. This information is used to document the scholarly activities of our professional staff and students, which is an essential component of Wilford Hall Ambulatory Surgical Center (WHASC) internship and residency programs.

3. Please know that if you are a Graduate Health Sciences Education student and your department has told you they cannot fund your publication, the 59th Clinical Research Division may pay for your basic journal publishing charges (to include costs for tables and black and white photos). We cannot pay for reprints. If you are 59 MDW staff member, we can forward your request for funds to the designated wing POC.

4. Congratulations, and thank you for your efforts and time. Your contributions are vital to the medical mission. We look forward to assisting you in your future publication/presentation efforts.

LINDA STEEL-GOODWIN, Col, USAF, BSC
Director, Clinical Investigations & Research Support

INTRODUCTION: Obstructive sleep apnea (OSA) affects 1-5% of pediatric patients. Untreated pediatric OSA is associated with neurocognitive impairment, behavioral problems, and cardiopulmonary dysfunction. Clinical diagnosis lacks sensitivity and specificity. Laboratory polysomnography is expensive, not always available, and is inconvenient for patients. Therefore, 90% of children undergo adenotonsillectomy without confirmatory diagnostic testing. Ambulatory sleep monitoring for OSA may alleviate these issues.

OBJECTIVES: Our study investigates a commercially available ambulatory monitor for the diagnosis of pediatric OSA. Feasibility and validity of the device in the pediatric population was compared to laboratory polysomnography.

METHODS: A prospective, case-controlled study was conducted in children, ages 2-17. Subjects meeting inclusion criteria completed in-lab polysomnography simultaneously with ambulatory monitoring. Caregivers attempted home studies on two subsequent nights to compare the diagnostic capability between the home monitor and the in-lab study.

RESULTS: Forty-five patients were enrolled. Thirty-three subjects completed simultaneous laboratory polysomnogram with portable monitoring. Twenty patients completed the home studies, with 16 completing 2 nights of monitoring. Using a logistic model, no difference was found making in the diagnosis of OSA between polysomnography and the portable monitor. There were no statistically significant differences for apnea hypopnea index (p=0.493) or lowest oxygen saturation (p=0.477) between the two testing modalities.

CONCLUSION: This pilot study demonstrated that portable monitoring compares favorably to in-lab polysomnography for the diagnosis of pediatric sleep apnea. Larger prospective studies are needed prior to wider adoption, yet home studies have the potential to provide wider access with lower costs for the evaluation of pediatric sleep apnea.

MEMORANDUM FOR 59 MCHE
ATTN: LT Col Hansen

FROM: 502 ISG/JA (1Lt Heather Slawson)

SUBJECT: Ethics Review for Poster Approval Request

1. BLUF: A request for a legal review of a poster presentation titled “Pediatric Home Sleep Studies: A Prospective Study” was submitted by LT Col Shana Hansen. LT Col Hansen and her co-authors plan to present this research at the Pediatric Academic Societies Meeting in Baltimore, MD on 30 April – 3 May 2016. The abstract included the required disclaimer. The disclaimer must also be included on the poster that will be displayed for presentation. A Public Affairs review will be required if it has not already been obtained. There are no conflicts of interest issues with the poster presentation.

2. FACTS: An abstract titled “Pediatric Home Sleep Studies: A Prospective Study” was submitted for poster presentation. The authors plan to present this research at the Pediatric Academic Societies Meeting in Baltimore, MD on 30 April – 3 May 2016.

3. LAWS AND REGULATIONS: DoD 5500.07-R, Joint Ethics Regulation (JER), section 3-305 lays out rules governing “Teaching, Speaking and Writing.” If the presentation will “deal in significant part with any ongoing or announced policy, program or operation” of the Air Force, the presenter is required to include a disclaimer that states the “views presented are those of the speaker or author and do not necessarily represent the views of DoD or its Components.”

4. ANALYSIS: Although the presentation does not “deal in significant part with any ongoing or announced policy, program or operation” of the Air Force, the presenters’ affiliation and/or ranks will be included in the abstract and on the poster presentation. Additionally, the research and information to be discussed in the presentation was obtained as part of their military medical practice. The authors included the required disclaimer. Although the disclaimer language included on the abstract is not verbatim from the JER, it is appropriate and clearly captures the intent of the language used in the JER. In addition to being on the abstract, the disclaimer must also be included on the poster. A Public Affairs review will be needed if it has not already been obtained. There are no apparent conflicts of interest that would prohibit presentation of this research at this conference.
5. CONCLUSION: The abstract presented for review included the disclaimer required by the JER. The disclaimer must also be included on the poster. If you have any questions, please call Lt Heather Slawson at 671-5728.

HEATHER M. SLAWSON, LT, USAF
Assistant Staff Judge Advocate

I concur.

MARK E. COON, MAJOR, USAF
Acting Chief, Civil Law
