

Award Number: W81XWH-12-2-0018

TITLE: NRC/AMRMC Resident Research Associateship Program

PRINCIPAL INVESTIGATOR: Howard Gamble

CONTRACTING ORGANIZATION: NATIONAL ACADEMY OF SCIENCES
Washington, DC 20001

REPORT DATE: April 2017

TYPE OF REPORT: Annual

PREPARED FOR: U.S. Army Medical Research and Materiel Command
Fort Detrick, Maryland 21702-5012

DISTRIBUTION STATEMENT: Approved for Public Release;
Distribution Unlimited

The views, opinions and/or findings contained in this report are those of the author(s) and should not be construed as an official Department of the Army position, policy or decision unless so designated by other documentation.

REPORT DOCUMENTATION PAGE*Form Approved*
OMB No. 0704-0188

Public reporting burden for this collection of information is estimated to average 1 hour per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing this collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to Department of Defense, Washington Headquarters Services, Directorate for Information Operations and Reports (0704-0188), 1215 Jefferson Davis Highway, Suite 1204, Arlington, VA 22202-4302. Respondents should be aware that notwithstanding any other provision of law, no person shall be subject to any penalty for failing to comply with a collection of information if it does not display a currently valid OMB control number. **PLEASE DO NOT RETURN YOUR FORM TO THE ABOVE ADDRESS.**

1. REPORT DATE April 2017		2. REPORT TYPE Annual		3. DATES COVERED 15 Mar 2016 - 14 Mar 2017	
4. TITLE AND SUBTITLE NRC/AMRMC Resident Research Associateship Program				5a. CONTRACT NUMBER	
				5b. GRANT NUMBER W81XWH-12-2-0018	
				5c. PROGRAM ELEMENT NUMBER	
6. AUTHOR(S) Howard Gamble Email: RGamble@nas.edu				5d. PROJECT NUMBER	
				5e. TASK NUMBER	
				5f. WORK UNIT NUMBER	
7. PERFORMING ORGANIZATION NAME(S) AND ADDRESS(ES) National Academy of Sciences 500 5 th Street, N.W. Washington, DC 20001				8. PERFORMING ORGANIZATION REPORT NUMBER	
9. SPONSORING / MONITORING AGENCY NAME(S) AND ADDRESS(ES) U.S. Army Medical Research and Materiel Command Fort Detrick, Maryland 21702-5012				10. SPONSOR/MONITOR'S ACRONYM(S)	
				11. SPONSOR/MONITOR'S REPORT NUMBER(S)	
12. DISTRIBUTION / AVAILABILITY STATEMENT Approved for Public Release; Distribution Unlimited					
13. SUPPLEMENTARY NOTES This same report is submitted for contracts W81XWH-12-2-0010; W81XWH-12-2-0015; W81XWH-12-2-003; and W81XWH-12-2-0033					
14. ABSTRACT During this reporting period, the NRC promoted research opportunities at AMRMC institutes through a broad outreach plan. A total of 12 applications were received during the period and of these, 10 were reviewed by NRC panels. 8 awards were offered and all 8 were accepted. A total of 13 Associates ended their tenure during the reporting period and of these 9 submitted a final report. The productivity of these Associates is listed in the technical report.

The National Academies of
SCIENCES • ENGINEERING • MEDICINE
RESEARCH ASSOCIATESHIP PROGRAM
with
U.S. Army Medical Research Institute of Infectious Diseases
U.S. Army Medical Research & Materiel Command

Annual Contract Technical Report

Contract No. W81XWH-12-2-0018
Contract Period: 03/15/2012-02/28/2018
Report Period: 05/01/2016-04/30/2017

During the reporting period, the National Academies of Sciences, Engineering, and Medicine (the Academies) NRC conducted the following activities in support of the subject contract:

Outreach and Promotion

The promotional schedule to advertise the NRC Research Associateship Programs included the following: 1) attendance at meetings of major scientific and engineering professional societies; 2) advertising in programs and career centers for these and other professional society meetings; 3) direct mailing and emailing of announcements and program materials to presidents, graduate deans, and heads of appropriate science and engineering departments and minority-affairs offices of all academic degree-granting institutions in the United States; 4) posting announcements on internet job sites, electronic newsletters and professional society websites; 5) print advertising in high profile publications (e.g., Science magazine, the Chronicle of Higher Education); and, 6) maintaining a presence on social media sites such as Facebook.

The Academies attended a number of minority focused events in which we maintained exhibit booths, participated in workshops and advertised in meeting literature, newsletters and websites or submitted materials for distribution. In addition, ads were placed in a variety of minority publications (e.g., Affirmative Action, Black Collegian).

In advertising the Research Opportunities available to prospective applicants, the Academies maintained an up-to-date listing of all active Research Advisers, current Adviser contact information and details of each Research Opportunity.

Processing and Review of Applications

Applications to the Research Associateship Programs were submitted via a web-based application system. Each application cycle opened two months prior to the application deadline. Academies staff provided support to prospective applicants including providing application instructions, technical support and additional information as requested.

A summary of applications for the reporting period is shown in Table 1.

For each applicant, the Academies received and processed an application form, a research proposal, transcripts, a statement of previous and current research, and confidential reference reports. An application file check was made prior to the review and each applicant was notified if required documents were missing.

The Academies convened panels in five broad discipline areas for the competitive review of applications in the NRC Research Associateship Programs. Results of the review were made available to Laboratory Program Representatives immediately following the conclusion of the each review.

A summary of the outcome of the review of applications for the reporting period is shown in Table 1.

Administration of Awards

The Academies made awards to applicants based on sponsor authorization. A summary of awards authorized and the acceptance or declination by the applicant during the current reporting period is shown in Table 1.

For NRC Research Associates beginning or continuing tenure, the Academies provided the administrative functions described in the contract Statement of Work. These functions included stipend payments,

management of a major medical benefits insurance program, and reimbursement for relocation and travel to professional meetings.

A summary of NRC Research Associates on tenure during the reporting period is shown in Table 2.

Outcomes Reporting

All NRC Research Associates who completed tenure were required to submit a final report that described the outcome of their Research Associateship award. Final reports received by the Academies during the current reporting period are attached to this technical report.

The activities of NRC Research Associates submitting final reports during this reporting period, including publications, presentations and patents, as well as an assessment of their experience in the program, are summarized in Table 3. Specific accomplishments of NRC Research Associates completing tenure during the reporting period are summarized in individual Final Reports (attached).

Table 3: Activities of NRC Research Associates who completed tenure during the reporting period

- 13 Associates ended tenure during the report period
- 35 months was the average tenure length
- 66 months was the longest
- 8 months was the shortest
- 12 submitted final reports

In the final reports, Associates indicated the following scholarly activity while on tenure.

- 62 Articles published in refereed journals
- 16 Articles other (Proceedings, Book Chapters, other)
- 41 Domestic presentations
- 15 International presentations
- 0 Patent applications
- 9 Awards

After ending their tenure, Associates indicated their future plans as follows:

- 0 Permanent position at the NRC host agency
- 8 Contract or temporary position at the NRC host agency
- 1 Research/administrative position with another U.S. government agency
- 0 Research/administrative position with foreign government agency
- 0 Research/teaching at US college/university
- 0 Research/teaching position at a foreign college or university
- 0 Research/administrative position in private industry in the U.S.
- 0 Research/administrative position in private industry outside of the U.S.
- 1 Research/administrative position with a non-profit
- 0 Self-employed/consulting
- 0 Postdoctoral Research
- 1 Other
- 1 No information provided

In their final reports, Associates were asked to evaluate certain aspects of their experiences on a scale of 1 (low) to 10 (high). The average rating for each item follows:

- 9.8 Short-term value (lab)-Development of knowledge, skills, and research productivity at lab
- 9.7 Long-term value (career)-How your Research Associateship affected your career to date
- 9.7 Laboratory Support-Equipment, funding, orientation, safety & health training, etc.
- 9.4 Adviser Mentoring-Quality of mentoring from the Research Adviser
- 9.5 LPR Support-Quality of administrative support from the LPR
- 9.9 NRC Support-Quality of administrative support from the NRC

Associates Final Reports, including Research Accomplishments and Scholarly Productivity, follow.

NRC RESEARCH ASSOCIATESHIP PROGRAM ASSOICATE FINAL REPORT

Associate: Bixler, Sandra Lynn
Program: AMRMC - U.S. Army Medical Research & Materiel Command
U.S. Army Medical Research Institute of Infectious Diseases
US Army Medical Research Insti Infec Diseases
Fort Detrick, MD 21702-5011
Opportunity: B7689/Animal Modeling and Therapeutic Development for Category A Agents
Adviser: Goff, Arthur James
Research Proposal: Characterizing the Dynamics, Phenotype, and Functionality of Immune Responses to Filovirus Infection
Tenure Dates: 08/18/2014-11/25/2016

RESEARCH ACCOMPLISHMENTS

My postdoctoral research has focused on immune responses to filovirus infection using the nonhuman primate model. My research has identified a novel potential mechanism for the unusual pathology observed following vaccination and subsequent aerosol challenge with filoviruses. My work with the aerosol challenge model has also led to a focus on mucosal routes of exposure to filoviruses and the unique immune responses generated from these routes. I conducted several animal model studies aimed at developing a low-dose mucosal exposure model in primates that would more accurately reflect the filovirus disease course observed in humans. This included the development of two intranasal exposure models which are being implemented in the testing and evaluation of medical countermeasures.

SCHOLARLY PRODUCTIVITY

FINAL REPORT

1) Associate Last or Family Name Cohen	First Name Courtney	M.I. A
2) FORWARDING Address (to which your tax statement will be mailed) Residence or Institution USAMRIID Street City, State Zip	FORWARDING Phone(s) and E-Mail (if known) Home Phone: Alt. Phone: Preferred E-mail: courtney.a.cohen.ctr@mail.mil	
3) Today's Date July 28, 2016	Dates of Tenure from August 1, 2014 to July 31, 2016	
4) Host Agency AMRMC (e.g., AFRL)	Laboratory or Center USAMRIID (e.g., Wright Patterson AFB)	Division / Directorate / Department Virology (e.g., High-Speed Propulsion)
5) Name of Laboratory Adviser (and USMA Mentor, if applicable) Dr. Pamela Glass		

6) *TITLE OF RESEARCH PROPOSAL*

Determining the Correlates of Protection Following Alphavirus Infection in NHP

7) *SUMMARY OF RESEARCH DURING TENURE* Itemize significant findings in concise form, utilizing key concepts/words.

- 1) **The trivalent replicon particle vaccine induces a polyfunctional, memory T cell response against VEEV, EEEV and WEEV in mice**
- 2) **Vaccine-induced T cell-specific epitopes within viral glycoproteins E1 and E2 were identified for VEEV, EEEV, and WEEV**
- 3) **Vaccine-induced T cell-specific epitopes occur within regions of homology between heterologous viruses**
- 4) **Subcutaneous vaccination results in vaccine-induced changes in the CNS.**
- 5) **(USMA Davies Fellow: please add summary of teaching, including classes taught.)**
n/a

8) *RESEARCH IN PROGRESS* Describe in no more than 100 words.

Vaccine-induced T cell responses project is wrapping up, manuscript is in progress. Additional vaccine-induced responses will continue to be evaluated if collaboration continues. Upcoming NHP study will be utilized to provide a kinetic evaluation of immune cell infiltration in the brain following aerosol infection.

9) *PUBLICATIONS AND PAPERS RESULTING FROM NRC ASSOCIATESHIP RESEARCH*

Provide complete citations: author(s), title, full name of journal, volume number, page number(s), and year of publication.

- a) Publications in peer-reviewed journals
- b) Books, book chapters, other publications
- c) Manuscripts in preparation, manuscripts submitted
Cohen, C.A., Prugar, L., Glass, P.M. Cell-mediated responses and T cell-specific epitopes to a replicon particle vaccine in mice. In preparation for Vaccine, December 2016.

10) *PATENT OR COPYRIGHT APPLICATIONS RESULTING FROM NRC ASSOCIATESHIP RESEARCH*

Provide titles, inventors, and dates of applications.

11) *PRESENTATIONS AT SCIENTIFIC MEETINGS OR CONFERENCES*

Provide complete references: author(s), title, abstract/proceeding citation, meeting name and location.

International

ASV Annual Meeting, London Ontario July 2015 (Oral Presentation)

Domestic

ASV Annual Meeting, Blacksburg VA. June 2016 (Oral Presentation)

- 5)

18) *APPRAISAL OF NRC RESEARCH ASSOCIATESHIP PROGRAM*

On a scale of 1 – 10 (poor - excellent), please rate the following:

SHORT TERM VALUE

7 Development of knowledge, skills, and research productivity
Comments

LONG TERM VALUE

10 How the NRC Research Associateship award affected your career to date
Comments

LAB SUPPORT

10 Quality of support from the Laboratory--equipment, funding, orientation, safety and health guidelines, etc.
Comments

ADVISER/MENTOR SUPPORT

10 Quality of mentoring from the Laboratory Adviser (USMA Mentor, if applicable)

Comments

LPR SUPPORT

7 Quality of administrative support from the Laboratory Program Representative (LPR)

Comments

NRC RESEARCH ASSOCIATESHIP PROGRAMS SUPPORT

10 Quality of administrative support. Please assess the support you received from the Fellowships Office (e.g., moving company, insurance, Omega, payroll, Program Coordinator, travel, etc.)

Comments

18) *PLEASE PROVIDE ANY SUGGESTIONS FOR PROGRAM IMPROVEMENT.*

Due to the funding atmosphere at RIID and the length of the application process, it is common for the agreed-upon project to have evaporated by the time a postdoc is able to begin tenure. If this were communicated up front to the applicants, it may lessen frustrations.

Please do NOT scan to PDF. Send the Final Report as MSWord document via e-mail to your Program Coordinator

*No handwritten signature required;
but you may upload a scanned
signature file below:*

6) *TITLE OF RESEARCH PROPOSAL*

Improvement of Viral Diagnostic Capabilities Through Evaluation of Sample Processing Methods

7) *SUMMARY OF RESEARCH DURING TENURE* Itemize significant findings in concise form, utilizing key concepts/words.

- 1) **Refined a Next Generation Sequencing Pipeline for single nucleotide polymorphisms (SNPs)**
- 2) **Designed and evaluated a panel of sequence capture probes for virus identification in a multiplex format**
- 3) **Managed the design and comprehensive testing of cell-based assays to measure in vitro cellular responses to infection**
- 4)
- 5)

(USMA Davies Fellow: please add summary of teaching, including classes taught.)

8) *RESEARCH IN PROGRESS* Describe in no more than 100 words.

Our viral diagnostic capabilities rely on being able to recognize viral genetic variations. We need to have clear resolution on the single nucleotide polymorphisms (SNPs) present in a viral population, or quasispecies. Unfortunately, adding to the complexity of RNA virus populations are biases or variants introduced by the handful of laboratory processes performed on the sample. Understanding the effects of different sample manipulations is imperative when extracting a consensus sequence for the design of diagnostic assays. My research focuses on evaluating sample processing methods and determining which are best for determining the true variants in a sample.

9) *PUBLICATIONS AND PAPERS RESULTING FROM NRC ASSOCIATESHIP RESEARCH*

SHORT TERM VALUE

9 Development of knowledge, skills, and research productivity
Comments

LONG TERM VALUE

9 How the NRC Research Associateship award affected your career to date
Comments

I believe that having this award helped me acquire a permanent government position.

LAB SUPPORT

8 Quality of support from the Laboratory--equipment, funding, orientation, safety and health guidelines, etc.

Comments

Wonderful laboratory, have everything we need. Unfortunately, getting in equipment, software or computers takes between 3 months to a year.

ADVISER/MENTOR SUPPORT

10 Quality of mentoring from the Laboratory Adviser (USMA Mentor, if applicable)

Comments

Wonderful mentor. Very supportive and open to new ideas regarding research.

LPR SUPPORT

10 Quality of administrative support from the Laboratory Program Representative (LPR)

Comments

Laboratory program representative was always responsive when we needed him.

NRC RESEARCH ASSOCIATESHIP PROGRAMS SUPPORT

9 Quality of administrative support. Please assess the support you received from the Fellowships Office (e.g., moving company, insurance, Omega, payroll, Program Coordinator, travel, etc.)

Comments

18) *PLEASE PROVIDE ANY SUGGESTIONS FOR PROGRAM IMPROVEMENT.*

I previously worked for a non-profit and we had taxes taken out of our paychecks. Having this service would be extremely helpful and appreciated.

Please do NOT scan to PDF. Send the Final Report as MSWord document via e-mail to your Program Coordinator

NRC RESEARCH ASSOCIATESHIP PROGRAM ASSOICATE FINAL REPORT

Associate: Shoemaker, Charles Jason
Program: AMRMC - U.S. Army Medical Research & Materiel Command
U.S. Army Medical Research Institute of Infectious Diseases
US Army Medical Research Insti Infec Diseases
Fort Detrick, MD 21702-5011
Opportunity: B3460/Molecular Virology and Vaccine Development
Adviser: Schmaljohn, Connie
Research Proposal: A Nucleic Acid Vaccine Approach for In Vivo Generation of Filovirus Virus-Like Particles
Tenure Dates: 02/03/2014-02/02/2017

RESEARCH ACCOMPLISHMENTS

The most important scientific contributions I have made to date have concerned Crimean-Congo Hemorrhagic Fever Virus (CCHFV) research. This has involved developing diagnostic tools for evaluating humoral responses in animals infected by CCHFV or vaccinated with CCHFV glycoprotein antigen. These studies have relied primarily on utilization of a CCHFV VLP system to act as both a BSL-2 surrogate in neutralization assays, as well as serving as a capture antigen in various immunoassays (e.g. ELISA).

SCHOLARLY PRODUCTIVITY

ARTICLES - PEER REVIEWED

Garrison, A., Shoemaker CJ, et al. (co-first author)., 2017, Crimean-Congo hemorrhagic fever virus DNA vaccine protects against lethal challenge in two mouse models. Manuscript in preparation.
Golden, J, Shoemaker CJ, et al. (second author)., 2017, Characterizing the role IFN-I plays in the control of Crimean-Congo hemorrhagic fever in mice. Manuscript in preparation.,
Altamura, L., Shoemaker CJ, et al. (second author)., 2017, Development of a CCHFV Glycoprotein DNA Vaccine. Manuscript in preparation.,
Tran EE, Nelson EA, Bonagiri P, Simmons JA, Shoemaker CJ, Schmaljohn CS, Kobinger GP, Zeitlin L, Subramaniam S, White JM., 2016, Mapping of Ebolavirus Neutralization by Monoclonal Antibodies in the ZMapp Cocktail Using Cryo-Electron Tomography and Studies of Cellular Entry. , J Virol. 2016 Jun 8.pii: JVI.00406-16.

NRC Research Associateship Programs

FINAL REPORT

1) Associate Last or Family Name	First Name	M.I.
Zeng	Xiankun	
2) FORWARDING Address (to which your tax statement will be mailed)		FORWARDING Phone(s) and E-Mail (if known)
Residence or Institution USAMRIID		Home Phone:
Street		Alt. Phone:
City, State Zip		Preferred E-mail:
3) Today's Date		Dates of Tenure
July 28, 2016		from May 4, 2015
		to July 31, 2016
4) Host Agency	Laboratory or Center	Division / Directorate / Department
AMRMC	USAMRIID	Pathology
(e.g., AFRL)	(e.g., Wright Patterson AFB)	(e.g., High-Speed Propulsion)
5) Name of Laboratory Adviser (and USMA Mentor, if applicable)		
Dr. Mei Sun		

6) *TITLE OF RESEARCH PROPOSAL*

Correlative Special Stains under Light and Scanning Electron

7) *SUMMARY OF RESEARCH DURING TENURE* Itemize significant findings in concise form, utilizing key concepts/words.

- 1) **Developed motorized in situ hybridization (MISH) technology to detect infectious agents (ongoing)**
 - 2) **Developed a method to detect Ebola virus replication by fluorescence in situ hybridization (manuscript in preparation)**
 - 3) **Identification of persistent Ebola infection in non-human primate (manuscript in preparation)**
 - 4)
 - 5)
- (USMA Davies Fellow: please add summary of teaching, including classes taught.)

8) *RESEARCH IN PROGRESS* Describe in no more than 100 words.

I have successfully developed Crispr/Cas9 mediated MISH method to detect DNA target in FFPE tissue. What I am going to do is to apply this method to detect emergent bacteria agents such as Burkholderia pseudomallei in cultured cells, blood, and FFPE tissue.

9) *PUBLICATIONS AND PAPERS RESULTING FROM NRC ASSOCIATESHIP RESEARCH*

Provide complete citations: author(s), title, full name of journal, volume number, page number(s), and year of publication.

a) Publications in peer-reviewed journals

None

b) Books, book chapters, other publications

None

c) Manuscripts in preparation, manuscripts submitted

1. Zeng X*, Schellhase C, Blancett C, Honnold S, Sun M. 2016 Detection of Ebola virus replication by fluorescence in situ hybridization (in preparation, * correspondence).

2. Zeng X*, Blancett C, Koistinen K, Schellhase C, Bearss J, Chance T, Honnold S, Sun M. 2016. Persistent Ebola infection in non-human primate (in preparation, * correspondence)

10) *PATENT OR COPYRIGHT APPLICATIONS RESULTING FROM NRC ASSOCIATESHIP RESEARCH*

Provide titles, inventors, and dates of applications.

None

11) *PRESENTATIONS AT SCIENTIFIC MEETINGS OR CONFERENCES*

Provide complete references: author(s), title, abstract/proceeding citation, meeting name and location.

International

None

Domestic

None

12) *SEMINARS OR LECTURES DELIVERED AT UNIVERSITIES AND/OR INSTITUTES* Include dates, names and locations of seminars.

10/6/201, Molecular Detection of Infectious Agents, USAMRIID

13) *PROFESSIONAL AWARDS RECEIVED DURING TENURE*

None

14) *POST-TENURE POSITION / JOB TITLE*

Molecular Scientist

15) *NAME AND ADDRESS OF POST-TENURE POSITION / JOB ORGANIZATION*

16) *POST-TENURE POSITION STATUS / CATEGORY* Please indicate only one.

- | | |
|---|---|
| <input type="checkbox"/> Permanent position at the host agency | <input type="checkbox"/> Research/administration position in private industry in the U.S. |
| <input type="checkbox"/> Contract or temporary position at the host Agency
Abbreviate Host Laboratory/Center _____ | <input type="checkbox"/> Research/administration position in private industry outside of the U.S. |
| <input checked="" type="checkbox"/> Research/Administrative position with another U.S.-government agency | <input type="checkbox"/> Research/administration position with a non profit |
| <input type="checkbox"/> Research/Administrative position with a foreign-government agency | <input type="checkbox"/> Self-employed/consulting |
| <input type="checkbox"/> Research/teaching position at a U.S. college or university | <input type="checkbox"/> Postdoctoral research |
| <input type="checkbox"/> Research/teaching position at a foreign college or university | <input type="checkbox"/> Other (Please specify, possible) _____ |
| | <input type="checkbox"/> No information provided |

17) (For J-1 visa holders only) *SUMMARY OF CULTURAL AND EDUCATIONAL EXCHANGE DURING TENURE* Itemize experiences that your laboratory (LPR and/or Adviser) has offered to you that facilitated your learning about American culture. Also itemize what you have done to share your culture with your colleagues and the community.

- 1)
- 2)
- 3)
- 4)
- 5)

18) *APPRAISAL OF NRC RESEARCH ASSOCIATESHIP PROGRAM*

On a scale of 1 – 10 (poor - excellent), please rate the following:

SHORT TERM VALUE

10 Development of knowledge, skills, and research productivity
Comments

LONG TERM VALUE

10 How the NRC Research Associateship award affected your career to date
Comments

LAB SUPPORT

10 Quality of support from the Laboratory--equipment, funding, orientation, safety and health guidelines, etc.
Comments

ADVISER/MENTOR SUPPORT

10 Quality of mentoring from the Laboratory Adviser (USMA Mentor, if applicable)
Comments

LPR SUPPORT

10 Quality of administrative support from the Laboratory Program Representative (LPR)
Comments

NRC RESEARCH ASSOCIATESHIP PROGRAMS SUPPORT

10 Quality of administrative support. Please assess the support you received from the Fellowships Office (e.g., moving company, insurance, Omega, payroll, Program Coordinator, travel, etc.)
Comments

18) PLEASE PROVIDE ANY SUGGESTIONS FOR PROGRAM IMPROVEMENT.

Please do NOT scan to PDF. Send the Final Report as MSWord document via e-mail to your Program Coordinator
