**ABSTRACT**
The breakdown is three different panels each discussing a specific topical area and how each has produced challenges and opportunities to the United States: (1) Our first panel will address evolving threats in nuclear, cyber and space arenas. (2) Our second panel will dive into the role of intelligence sharing in combating dynamic threats, and rebalancing the ops tempo of all three force components (Active, Guard, and Reserve). (3) Our third panel will seek to look at the environment affecting the warfighter, and how it affects force readiness; these topics will include gender roles in combat positions, veteran post-combat trauma mental care and the retention crisis.

**SUBJECT TERMS**
INTRODUCTION

This Special Bibliography Series, Number 123, "Identity Crisis: The Military’s Evolving Role in 21st Century Conflict" was developed by the McDermott Library’s Social Sciences Bibliographer and Reference Librarian, Frances K. Scott, in support of the 61st Academy Assembly to be held at the United States Air Force Academy, 15-16 October 2019.

Most items cited in the bibliography are included in the McDermott Library’s collections, including on-line databases. This year’s topic encompasses three components.

The breakdown is three different panels each discussing a specific topical area and how each has produced challenges and opportunities to the United States:

1. Our first panel will address evolving threats in nuclear, cyber and space arenas.

2. Our second panel will dive into the role of intelligence sharing in combatting dynamic threats, and rebalancing the ops tempo of all three force components (Active, Guard, and Reserve).

3. Our third panel will seek to look at the environment affecting the warfighter, and how it affects force readiness; these topics will include gender roles in combat positions, veteran post-combat trauma mental care and the retention crisis.

If you are a participant in this year’s Academy Assembly (the Academy’s oldest continuing annual event), we welcome you to your United States Air Force Academy. Hopefully your stay in the Colorado Springs area will be rewarding and this year’s topic intellectually challenging.

WEBSITES

The Congressional Research Service developed "a series of short primers to provide Members of Congress an overview of key aspects of the Department of Defense and how Congress exercises authority over it." The defense primer series, several of which have been recently updated, can be found here <https://fas.org/sgp/crs/natsec/primer.html>.
