The arrangement of these data elements allows easy establishment of command relationships. All units are listed in numerical order. Consequently, by alternating between the "Unit" and "Next Higher Headquarters" columns, the complete chain of command can be traced.

Circular 210-2 was intended originally to meet administrative needs in mail and distribution. Its publication schedule was erratic and on a "as needs" basis as changes in the command structure dictated. As the build-up of forces proceeded, frequency of publication increased; then followed a brief levelling-off period; and, finally a rapid draw-down. Unfortunately, piecemeal retirement of records from the field, interim staging in various overseas records holding facilities, fragmentation of administrative reference libraries, and combat losses prevented the creation of a complete historical file of this publication during the war years in the combat theater.

An exhaustive search was made of the Vietnam War Collection of retired records held by the Washington National Records Center for this publication by Archivists of the Records Management Division, The Adjutant General Center, Department of the Army, in late 1978 and early 1979. This search located 30 of the 41 known editions of USARV Circular 210-2.

This compilation of United States Army combat units which served in the War of Vietnam is not complete. It is intended only to be a preliminary list based on publications in use in the combat zones during the war. It should be used only as a point of departure for the military historians who, in time, will compile the complete official friendly order of battle. Since that will be some years in the future, this compilation is issued to fill the interim research need.

UNITED STATES ARMY COMBAT UNITS OF THE WAR IN THE
REPUBLIC OF VIETNAM, 1966-1973

A Preliminary List

Compile by: John Henry Hatcher, PhD

Foreword

On 19 January 1966, The Adjutant General of the United States Army in Vietnam published the first issuance of the US Army in Vietnam Circular 210-2, INSTALLATIONS: Station List. From that date until 15 January 1973, more than 40 editions of this circular were issued. In simple columnar form, it listed all United States Army units operating in the Republic of Vietnam as of the publication date. Other elements of data included the operating unit's geographical location by local province, district or town, the next higher command and the APO number.

The arrangement of these data elements allows for quick and easy tracing of command relationships. All units are listed in numerical order regardless of size or command level. Consequently, by alternating between the "Unit" and "Next Higher Headquarters" columns, the complete chain of command can be traced. This is a basic requirement for effective research in military history. This compilation has already become an essential tool for document retrieval operations in the Vietnam War Collections held by the Washington National Records Center. In many cases where particular documentation could not be located in the retired records of a given unit, it was often found in the retired records of the next higher headquarters.

Circular 210-2 was intended originally to meet administrative needs in mail and distribution operations. Its publication schedule was erratic and on a "as needs" basis as changes in the command structure of United States Army units in the Republic of Vietnam dictated. As the build-up of forces proceeded, frequency of publication increased; then followed a brief levelling-off period; and, finally a rapid draw-down. Unfortunately, piecemeal retirement of records from the field, interim staging in various overseas records holding facilities, fragmentation of administrative reference libraries, and combat losses prevented the creation of a complete historical file of every issuance of this publication during the war years in the combat theater.

An exhaustive search was made of the Vietnam War Collection of retired records held by the Washington National Records Center for this publication by Archivists of the Records Management Division, The Adjutant General Center, Department of the Army, in late 1978 and early 1979. This search located 30 of the 41 known editions of USARV Circular 210-2. Twenty-nine of these (listed by date below) have been arranged in chronological order and re-issued in this compilation as a preliminary list of United States Army Combat Units of the War in Vietnam. The single copy which was located for the edition of 2 May 1970 was of such poor quality that it could not be reproduced. From the supersession notices appearing in various editions, 11 have been identified which are known to be missing. There may be more in cases where two or more consecutive issuances were not located.

This compilation of United States Army Combat units which served in the War in Vietnam is not complete. It is intended to be only a preliminary list based on publications in use in the combat zones during the war. It should be used only as a point of departure for the military historians who, in time, will compile the complete and official friendly order of battle. Since that will be some years in the future, this compilation is intended only to fill the interim research need.

Similarly from 5 July 1966 until 1 February 1970, the US Army 1st Logistical Command published a periodic command station list in the Republic of Vietnam. In a somewhat parallel format to USARV Circular 210-2, this station list was limited to the logistical

organization of the United States Army in Vietnam. Additional elements of Date of Arrival in Vietnam, OPCON (Under operational control of), ADCOM (Under administrative control of), Unit Identification Code (UIC), and Command of Assignment were included in this listing. Five variations of this list were published in each edition. Section I listed all units in numerical order. Section II listed all units by command and branch. Section III listed Unit Identification Codes of all units in alphabetical order by UIC/MRIC (Morning Report Identifier Code). Section IV was classified CONFIDENTIAL and was given limited distribution under separate cover. It listed all units in numerical order showing TOE and TD Number, authorized strength, and geographical location. Late in the build-up, a Section V was added which listed units by geographical location in alphabetical sequence. For the purposes of this compilation, only one section of each 1st Logistical Command station list which was located has been reproduced for inclusion in this re-issue. In all cases this has been the listing of units in numerical sequence which parallels the order used for USARV Circular 210-2.

As with the case of USARV Circular 210-2 and for generally the same reasons, only 15 of 23 known editions of this list were located. Those editions included in this compilation are as follows:

15 Aug 1966	20 Oct 1967	1 Feb 1969
20 Oct 1966	6 Feb 1968	22 May 1969
20 Jan 1967	14 Feb 1968	13 Aug 1969
20 Apr 1967	1 Aug 1968	15 Nov 1969
20 Jul 1967	1 Nov 1968	1 Feb 1970

1st Logistical Command Station Lists identified by internal evidence but not located nor included in this compilation include the following:

5 Jul 1966	20 Dec 1966	20 May 1967	6 Mar 1968
20 Sep 1966	20 Mar 1967	20 Sep 1967	1 Jul 1968

The organizational and command data contained in the 1st Logistical Command Station Lists in some respects duplicates the same data contained in USARV Circular 210-2. However, the additional data the 1st Logistical Command Station Lists provide on logistical organization of the United States Army in Vietnam give them unique research and archival value. For those considerations, a compilation of the known and located 1st Logistical Command Station Lists has been included in this document as Appendix A. Again, the same caveat is sounded for this compilation as for that of USARV Circular 210-2. It is neither complete nor conclusive. It's intended use is only that of a point of departure for the military historians and logisticians who will investigate this aspect of the War in Vietnam in depth.

DEPARTMENT OF THE ARMY
HEADQUARTERS, 1ST LOGISTICAL COMMAND
APO US Forces 96307

AVCA AG-PM

15 August 1966

SUBJECT: 1st Logistical Command Station List (Sections I, II and III)

TO: See Distribution

1. GENERAL. Attached is a station list of the 1st Logistical Command. The list contains four sections. Section I is a listing of all units in numerical order. Section II is a listing of all units by command and branch. Section III is a listing of Unit Identification Codes of all units in alphabetical order by UIC/MRIC. Section IV is classified CONFIDENTIAL and has been given a limited distribution under a separate cover. Section IV contains a listing of all units in numerical order showing TOE and TD number, authorized strength and geographical location.

2. UNIT IDENTIFICATION AND MORNING REPORT IDENTIFIER CODES. The UIC shown for each unit in this station list consists of a six character block. The Morning Report Identifier Code is one character which is added to the UIC.

a. Morning Reports. The applicable seven character UIC/MRIC will be typed in Item 9 on all morning reports.

b. The Army Equipment Records System. The applicable seven character UIC/MRIC will be used in TAERS by deleting the last letter and substituting the letter "R" as the seventh character. For example the UIC used for TAERS for the 25th Transportation Detachment would be WCPAAR. All TAERS data forwarded to this headquarters, US Army, Ryukyus Islands and US Army, Pacific only. It will not be used or included in data forwarded to Department of the Army agencies in the form of listings, DA 2400 series forms, or key punched cards.

3. OPERATIONAL CONTROL AND ADMINISTRATIVE CONTROL UIC. The OPCON/ADCON as listed in Section I will be reported in the Record of Events Section of the unit Morning Report.

4. Major geographic area command codes are as follows:

<u>CODE</u>	<u>MAJOR COMMAND</u>
1	USARV
2	1 LG Cnd B
3	USA Spt Cnd Cam Ranh Bay
4	USA Spt Cnd Qui Nhon
5	USA Spt Cnd Saigon

DEPARTMENT OF THE ARMY
HEADQUARTERS, 1ST LOGISTICAL COMMAND
APO US Forces 96307

AVCA AG-PM

20 October 1966

SUBJECT: 1st Logistical Command Station List (Section I, II and III)

TO: See Distribution

1. GENERAL. Attached is a station list of the 1st Logistical Command. The list contains four sections. Section I is a listing of all units in numerical order. Section II is a listing of all units by command and branch. Section III is a listing of Unit Identification Codes of all units in alphabetical order by UIC/MRIC. Section IV is classified CONFIDENTIAL and has been given a limited distribution under a separate cover. Section IV contains a listing of all units in numerical order showing TOE and TD number, authorized strength and geographical location.

2. UNIT IDENTIFICATION AND MORNING REPORT IDENTIFIER CODES. The UIC shown for each unit in the station list consists of a six character block. The Morning Report Identifier Code is one character which is added to the UIC.

a. Morning Reports. The applicable seven character UIC/MRIC will be typed in Item 9 on all morning reports.

b. The Army Equipment Records System. The applicable seven character UIC/MRIC will be used in TAERS by deleting the last letter and substituting the letter "R" as the seventh character. For example the UIC used for TAERS for the 25th Transportation Detachment would be WCPAAR. All TAERS data forwarded to this headquarters, US Army, Ryukus Island and US Army, Pacific only. It will not be used or included in data forwarded to Department of the Army agencies in the form of listings, DA 2400 series form, or key punched cards.

3. OPERATIONAL CONTROL AND ADMINISTRATIVE CONTROL UIC. The OPCON/ADCON as listed in Section I will be reported in the Record of Events Section of the unit Morning Report.

4. Major geographic area command codes are as follows:

<u>CODE</u>	<u>MAJOR COMMAND</u>
1	USARV
2	1 Log Comd G
3	USA Spt Comd Cam Ranh Bay
4	USA Spt Comd Qui Nhon
5	USA Spt Comd Saigon
6	4th Trans Comd

DEPARTMENT OF THE ARMY
HEADQUARTERS 1ST LOGISTICAL COMMAND
APO 96307

AVCA AG-PM

20 July 1967

SUBJECT: 1st Logistical Command Station List (Sections I, II, and III)

TO: See Distribution

1. GENERAL. Attached is a station list of the 1st Logistical Command. The list contains four sections. Section I is a listing of all units in numerical order. Section II is a listing of all units by command and branch. Section III is a listing of Unit Identification Codes of all units in alphabetical order by UIC/MRIC. Section IV is classified CONFIDENTIAL and has been given a limited distribution under a separate cover. Section IV contains a listing of all units in numerical order showing TOE and TD number, authorized strength and geographical location.

2. UNIT IDENTIFICATION AND MORNING REPORT IDENTIFIER CODES. The UIC shown for each unit in the station list consists of a six character block. The Morning Report Identifier Code is one character which is added to the UIC.

a. Morning Reports. The applicable seven character UIC/MRIC will be typed in Item 9 on all morning reports.

b. The Army Equipment Records System. The applicable seven character UIC/MRIC will be used in TAERS by deleting the last letter and substituting the letter "R" as the seventh character. For example the UIC used for TAERS for the 25th Transportation Detachment would be the UIC WCPAAR. All TAERS data forwarded to this headquarters, US Army, Ryukyus Island and US Army, Pacific will contain the seven character UIC. The seventh character is for use in this command, US Army, Ryukyus Island, and US Army, Pacific only. It will not be used or included in data forwarded to Department of the Army agencies in the form of listings, DA 2400 series forms, or key punched cards.

3. OPERATIONAL CONTROL AND ADMINISTRATIVE CONTROL UIC. The OPCON/AICON as listed in Section I will be reported in the Records of Events Section of the unit Morning Report.

4. Major geographic area command codes are as follows:

- | CODE | MAJOR COMMAND |
|------|---------------------------|
| 1 | USARV |
| 2 | 1st Log Comd |
| 3 | USA Spt Comd Can Ranh Bay |
| 4 | USA Spt Comd Qui Nhon |

DEPARTMENT OF THE ARMY
HEADQUARTERS 1ST LOGISTICAL COMMAND
APO 96307

AVCA AG-PM

20 October 1967

SUBJECT: 1st Logistical Command Station List (Sections I, II, and III)

TO: See Distribution

1. GENERAL. Attached is a station list of the 1st Logistical Command. The list contains four sections. Section I is a listing of all units in numerical order. Section II is a listing of all units by command and branch. Section III is a listing of Unit Identification Codes of all units in alphabetical order by UIC/MRIC. Section IV is classified CONFIDENTIAL and has been given a limited distribution under a separate cover. Section IV contains a listing of all units in numerical order showing TOE and TD number, authorized strength and geographical location.

2. UNIT IDENTIFICATION AND MORNING REPORT IDENTIFIER CODES. The UIC shown for each unit in the station list consists of a six character block. The Morning Report Identifier Code is one character which is added to the UIC.

a. Morning Reports. The applicable seven character UIC/MRIC will be typed in Item 9 on all morning reports.

b. The Army Equipment Records System. The applicable seven character UIC/MRIC will be used in TAERS by deleting the last letter and substituting the letter "R" as the seventh character. For example the UIC used for TAERS for the 25th Transportation Detachment would be the UIC WCPAAR. All TAERS data forwarded to this headquarters, US Army, Ryukyus Island and US Army, Pacific will contain the seven character UIC. The seventh character is for use in this command, US Army, Ryukyus Island, and US Army, Pacific only. It will not be used or included in data forwarded to Department of the Army agencies in the form of listings, DA 2400 series forms, or key punched cards.

3. OPERATIONAL CONTROL AND ADMINISTRATIVE CONTROL UIC. The OPCON/ADCON as listed in Section I will be reported in the Records of Events Section of the unit Morning Report.

4. Major geographic area command codes are as follows:

CODE	MAJOR COMMAND
1	USARV
2	1st Log Cmd C
3	USA Spt Cmd Cam Ranh Bay
4	USA Spt Cmd Qui Nhon
5	USA Spt Cmd Saigon

AVCA GO-P

6 February 1968

SUBJECT: 1st Logistical Command Station List (Sections I and II)

TO: See Distribution

PRECEDING PAGE NOT FILMED
BLANK

1. GENERAL. Attached is a station list of the 1st Logistical Command. The list contains two sections. Section I is a listing of all units in numerical order. Section II is a list of Unit Identification Codes of all units in alphabetical order by UIC/MRIC. Sections III and IV are classified CONFIDENTIAL and have been given a limited distribution under a separate cover. Section III contains a listing of all units arranged in command and control sequence, showing TOE/TD number, authorized strength and geographical location. Section IV contains a listing of all units in numerical order showing TOE and TD number, authorized strength and geographical location.

2. UNIT IDENTIFICATION AND MORNING REPORT IDENTIFIER CODES. The UIC shown for each unit in the station list consists of a six character block. The morning Report Identifier Code is one character which is added to the UIC.

a. Morning Reports. The applicable seven character UIC/MRIC will be typed in Item 9 on all morning reports.

b. The Army Equipment Records System. The applicable seven character UIC/MRIC will be used in TAERS by deleting the last letter and substituting the letter "R" as the seventh character. For example the UIC used for TAERS for the 25th Transportation Detachment would be the UIC WCPAAR. All TAERS data forwarded to this headquarters, US Army Ryukyus Island and US Army Pacific will contain the seven character UIC. The seventh character is for use in this command, US Army Ryukyus Island, and US Army Pacific only. It will not be used or included in data forwarded to Department of the Army agencies in the form of listings, DA 2400 series forms, or key punched cards.

3. OPERATIONAL CONTROL AND ADMINISTRATIVE CONTROL UIC. The OPCON/ADCON as listed in Section I will be reported in the Records of Events Section of the unit Morning Report.

4. Major geographical area command codes are as follows:

COCE	MAJOR COMMAND	1132
1	USARV	
2	1st Log Comd C	
3	USA Spt Comd Cam Ranh Bay	
4	USA Spt Comd Qui Nhon	PROTECTIVE MARKING EXCLUDED

DEPARTMENT OF THE ARMY
HEADQUARTERS, 1ST LOGISTICAL COMMAND
APO San Francisco 96384

AVCA GO-P

14 April 1968

SUBJECT: 1st Logistical Command Station List (Sections I, II, III, and IV)

SEE DISTRIBUTION

1. GENERAL. Attached 1st Logistical Command Station List contains four sections:

a. Section I - List of units by branch, shows general order authorized strength and location.

b. Section II - List of units by command and control sequence. Contains provisional and attached units, therefore totals do not reflect authorized strengths.

c. Section III - List of units by numerical sequence.

d. Section IV - List of units by UIC/MRIC alphabetical sequence.

2. UNIT IDENTIFICATION AND MORNING REPORT IDENTIFIER CODES. The UIC shown for each unit in the station list consists of a six character block. The Morning Report Identifier Code is one character which is added to the UIC.

a. Morning Reports. Type applicable seven character UIC/MRIC in Item 9 on all morning reports.

b. Logistics Reporting. Use applicable eight character UIC for logistics reporting by substituting the correct command code for logistics reporting as the seventh and eighth characters. For example, the UIC used for logistics reporting for the 182d Ordnance Detachment would be WDASTOAG. The seventh and eighth characters are for use in this command, US Army Vietnam and US Army Pacific only. The command codes for logistics reporting are:

<u>CODE</u>	<u>COMMAND</u>
AG	HQ 1st Log Comd
BL	USASUPCOM Saigon
EJ	USASUPCOM Cam Ranh Bay
BK	USASUPCOM Qui Nhon
BI	USASUPCOM Da Nang (PROV)

APO SAN FRANCISCO 96384

AVCA GO-P

1 August 1968

SUBJECT: 1st Logistical Command Station List

SEE DISTRIBUTION

1. (U) GENERAL. Attached 1st Logistical Command Station List contains six sections:

- a. Section I - List of units by branch. Shows general order authorized strength and location.
- b. Section II - List of units by command and control sequence. Contains provisional and attached units, therefore totals do not reflect authorized strengths.
- c. Section III - List of units by numerical sequence.
- d. Section IV - List of units by UIC showing ADCON OPCON.
- e. Section V - List of units by geographic location in alphabetical sequence. Contains provisional and attached units, therefore totals do not reflect authorized strengths.
- f. Section VI - List of incoming units showing expected date of arrival and support command to which assigned.

2. (U) LOGISTICS REPORTING. Use applicable eight character UIC for logistics reporting by adding the applicable command code for logistics reporting as the seventh and eighth character. For example, the UIC used for logistics reporting for the 182d Ordnance Detachment would be WDASAAAG. The seventh and eighth characters are for use in this command, US Army Vietnam and US Army Pacific only. The command codes for logistics reporting are:

<u>CODE</u>	<u>COMMAND</u>
AF	Hq 1st Log Comd
BL	USASUPCOM Saigon
BJ	USASUPCOM Cam Ranh Bay
BK	USASUPCOM Qui Nhon
BI	USASUPCOM Da Nang (PROV)

DEPARTMENT OF THE ARMY
HEADQUARTERS, 1ST LOGISTICAL COMMAND
APO SAN FRANCISCO 96384

AVCA GO-P

1 November 1968

SUBJECT: 1st Logistical Command Station List

SEE DISTRIBUTION

1. (U) GENERAL. Attached 1st Logistical Command Station List contains six sections:

a. Section I - List of units by branch. Shows authorized strength and location.

b. Section II - List of units by command and control sequence. Contains provisional and attached units, therefore totals do not reflect authorized strengths.

c. Section III - List of units in numerical sequence showing ADCON/OFCON.

d. Section IV - List of units by UIC.

e. Section V - List of units by geographic location in alphabetical sequence. Contains provisional and attached units, therefore totals do not reflect authorized strengths.

f. Section VI - List of incoming units showing expected date of arrival and support command to which assigned.

2. (U) LOGISTICS REPORTING. Use applicable eight character UIC for logistics reporting by adding the applicable command code for logistics reporting as the seventh and eighth character. For example, the UIC used for logistics reporting for the 182d Ordnance Detachment would be WDASAAAG. The seventh and eighth characters are for use in this command, US Army Vietnam and US Army Pacific only. The command codes for logistics reporting are:

<u>CODE</u>	<u>COMMAND</u>
AG	HQ 1st Log Comd
BL	USASUPCOM Saigon
BJ	USASUPCOM Cam Ranh Bay
BK	USASUPCOM Qui Nhon
BI	USASUPCOM Da Nang (PROV)

1 February 1969

SUBJECT: 1st Logistical Command Station List (U)

SEE DISTRIBUTION

1. (U) GENERAL. Attached 1st Logistical Command Station List contains six sections:

a. Section I - List of units by branch. Shows authorized strength and location.

b. Section II - List of units by command and control sequence. Contains provisional and attached units, therefore totals do not reflect authorized strengths.

c. Section III - List of units in numerical sequence showing ADCOM/OPCON.

d. Section IV - List of units by UIC.

e. Section V - List of units by geographic location in alphabetical sequence. Contains provisional and attached units, therefore totals do not reflect authorized strengths.

f. Section VI - List of incoming units showing expected date of arrival and support command to which assigned.

2. (U) LOGISTICS REPORTING. Use applicable eight character UIC for logistics reporting by adding the applicable command code for logistics reporting as the seventh and eighth character. For example, the UIC used for logistics reporting for the 182d Ordnance Detachment would be WDASAAAG. The seventh and eighth characters are for use in this command, US Army Vietnam and US Army Pacific only. The command codes for logistics reporting are:

CODE

HEADQUARTERS, 1ST LOGISTICAL COMMAND
APO 96384

AVGA GO-FD

22 May 1969

SUBJECT: 1st Logistical Command Station List (U)

SEE DISTRIBUTION

1. GENERAL. Attached 1st Logistical Command Station List contains five sections:

a. Section I - List of units by branch. Shows authorized strength and location.

b. Section II - List of units by command and control sequence. Contains provisional and attached units, therefore totals do not reflect authorized strengths.

c. Section III - List of units in numerical sequence showing ADGON/OPGON.

d. Section IV - List of units by UIC.

e. Section V - List of units by geographic location in alphabetical sequence. Contains provisional and attached units, therefore totals do not reflect authorized strengths.

2. LOGISTICS REPORTING. Use applicable eight character UIC for logistics reporting by adding the applicable command code for logistics reporting as the seventh and eighth character. For example the UIC used for logistics reporting for the 182d Ordnance Detachment would be WDASAAAG. The seventh and eighth characters are for use in this command, US Army Vietnam and US Army Vietnam and US Army Pacific only. The command codes for logistics reporting are:

HEADQUARTERS, 1ST LOGISTICAL COMMAND
APC 96384

AVCA GO-FD

13 Aug 1969

SUBJECT: 1st Logistical Command Station List (U)

SEE DISTRIBUTION

1. GENERAL. Attached 1st Logistical Command Station List contains five sections:

a. Section I - List of units by branch. Shows authorized strength and location.

b. Section II - List of units by command and control sequence. Contain provisional and attached units, therefore totals do not reflect authorized strengths.

c. Section III - List of units in numerical sequence showing ADCON/COCCN.

d. Section IV - List of units by UIC.

e. Section V - List of units by geographic location in alphabetical sequence. Contains provisional and attached units, therefore totals do not reflect authorized strengths.

2. LOGISTICS REPORTING. Use applicable eight character UIC for logistics reporting by adding the applicable command code for logistics reporting as the seventh and eighth character. For example the UIC used for logistics reporting for the 182d Ordnance Detachment would be WDASSAAAG. The seventh and eighth characters are for use in this command, US Army Vietnam and US Army Pacific only. The command codes for logistics reporting are:

CODE
AG
BL
BJ
BK
DE

DEPARTMENT OF THE ARMY
HEADQUARTERS, 1ST LOGISTICAL COMMAND
APO 96384

AVCA GO-FD

15 November 1969

SUBJECT: 1st Logistical Command Station List (U)

SEE DISTRIBUTION

1. GENERAL. Attached 1st Logistical Command Station List contains five sections:

a. Section I - List of units by branch. Shows authorized strength and location.

b. Section II - List of units by command and control sequence. Contains provisional and attached units, therefore totals do not reflect authorized strengths.

c. Section III - List of units in numerical sequence showing ADCON/OPCON.

d. Section IV - List of units by UIC.

e. Section V - List of units by geographic location in alphabetical sequence. Contains provisional and attached units, therefore totals do not reflect authorized strengths.

2. LOGISTICS REPORTING. Use applicable eight character UIC for logistics reporting by adding the applicable command code for logistics reporting as the seventh and eighth character. For example the UIC used for logistics reporting for the 182d Ordnance Detachment would be WDASSAAAG. The seventh and eighth characters are for use in this command, US Army Vietnam and US Army Pacific only. The command codes for logistics reporting are:

<u>CODE</u>	<u>COMMAND</u>
AG	HQ 1st Log Comd
BL	USASUPCOM Saigon
BJ	USASUPCOM Cam Ranh Bay
BK	USASUPCOM Qui Nhon
DE	USASUPCOM Da Nang

1 FEBRUARY 70

DEPARTMENT OF THE ARMY
HEADQUARTERS, 1ST LOGISTICAL COMMAND
APO 96384

AVCA GO-FD

1 February 1970

SUBJECT: 1st Logistical Command Station List (U)

SEE DISTRIBUTION

1. GENERAL. Attached 1st Logistical Command Station List contains five sections:

a. Section I - List of units by branch. Shows authorized strength and location.

b. Section II - List of units by command and control sequence. Contains provisional and attached units, therefore totals do not reflect authorized strengths.

c. Section III - List of units in numerical sequence showing ADCON/OPCON.

d. Section IV - List of units by UIC.

e. Section V - List of units by geographic location in alphabetical sequence. Contains provisional and attached units, therefore totals do not reflect authorized strengths.

2. LOGISTICS REPORTING. Use applicable eight character UIC for logistics reporting by adding the applicable command code for logistics reporting as the seventh and eight character. For example the UIC used for logistics reporting for the 1E2d Ordnance Detachment would be WDASSAAAG. The seventh and eight characters are for use in this command, US Army Vietnam and US Army Pacific only. The command codes for logistics reporting are:

CODE	COMMAND
AG	HQ 1st Log Comd
BL	USASUPCOM Saigon
BJ	USASUPCOM Cam Ranh Bay
BK	USASUPCOM Qui Nhon
DE	USASUPCOM Da Nang
