FOREWORD

This bibliography covers selected books and periodical articles on the subject of jungle warfare. The book section is composed of mostly non-copyrighted documents which have been collected by the Morris Swett Library.

This number is arranged in two parts as noted above. An arbitrarily devised acronym has been devised to aid in the cause of brevity when identifying particular periodical articles. Inclusion of an item, or omission, does not imply USAFAS indorsement or sanction of the compiler's point-of-view nor does it guarantee accuracy of content. Comment and criticism concerning this list is solicited.
