### Introductory Statement (Dollars in Thousands)

	FY 1983	FY 1984	FY 1985
Total direct obligations	\$1,479,412	\$1,563,120	\$1,683,069
Unobligated balance transferred from other accounts	_	-15,700	-
Unobligated balance lapsing	1,408	-	-
Transfer from other accounts	-17,349	-	-
Transfer to other accounts	18,200	-	-
Supplemental now requested under existing legislation	-	-22,820	-
Appropriation	\$1,481,671	\$1,524,600	\$1,683,069

This appropriation provides the funds for the cost of all Marine Corps missions, functions, activities and facilities except for those costs related to: procurement of major items of equipment and ammunition, military personnel pay and allowances of the regular and the reserve establishments, military family housing, operation and maintenance of the Marine Corps Reserve, and those functions supported by Navy sponsored appropriations.

The funds contained in this appropriation are intended primarily for the support of the Fleet Marine Forces. The primary Marine Corps objective is to train and maintain the Fleet Marine Forces at a high level of combat readiness for service with the Fleet, ashore, or for such other duties as the President may direct.

OEMMC

#### 

The two Fleet Marine Forces supported by this appropriation are composed of Marine Amphibious Forces (Division/Aircraft Wing Team) including a combination of combat and service support organizations, and a variety of supporting units. Funds are also provided to support two landing force training commands, Marine detachments afloat, and the security forces assigned to Naval and other government activities ashore.

Shore facilities receiving support from this appropriation are: four major unit support bases; two recruit depots; ten air installations; two logistics bases; one Marine Corps Development and Education Command; and two landing force training commands. These facilities are being maintained at standards that will permit effective utilization, avoid major replacement costs, and allow operation and maintenance on a economical and effective basis.

The individual training of enlisted personnel from recruit training to the highest Marine Corps technical training and advanced training at schools of the other services and at civilian institutions as well as individual training of officers from basic to the highest level of training is supported by funds in this appropriation. Such schooling is designed to produce highly trained and disciplined officers and men for duty with the Fleet Marine Force, capable of leadership growth as well as effective performance.

This appropriation also supports the Marine Corps supply system. The principal objective of the supply system is to provide Marine activities/units with the proper material and equipment in the quantity, condition, time and place required.

Further, it supports other miscellaneous activities such as special training, first and second destination transportation of things, recruiting, equipment overhaul and repair, and miscellaneous individual expenses.

	O&MMC		

·		
Increased funding to provide a more comprehensive equipment maintenance program for the Fleet Marine Force (FMF) units through the acquisition of repair parts, tools, test equipment, and on-vehicle maintenance material.	+127	
Increase in the cost of tactical airlift to reflect a FY 1983 rate increase in MAC airlift cost for C-130 aircraft.	+1,473	
Increase in consumable supplies and equipment replacement due to net military end strength increase applied to operating force units (385 end strength x $$946$ ).	+364	
An increase in Unit Rotation Deployment resulting from a change in the mix of units being deployed.	+216	
A reevaluation of civilian workforce requirements results in a workyear adjustment.	+171	
Increased funding is required for the Marine Corps pro-rata share of the appropriated fund support for the Sanno Hotel, Tokyo, Japan.	+77	
Increase is required at the Marine Corps Air Station, Cherry Point, North Carolina to cover the cost of steam previously billed to the Naval Air Rework Facility (NARF). This requirement is the result of the installation of new steam meters which record actual steam utilization at a significantly lower rate than the engineering estimates previously utilized to determine useage.	+1,340	
Program Decreases		-13,194
Reduction in funding for the unit deployment program due to application of an expanded definition of "field duty" applied to unit deployment	-3 267	

8.

		rease in operation and maintenance of new equipment due to examination and recosting of requirements.	-8,687	
		uction in civilian salaries due to recomputation of the kyear to reflect 2,087 hours vice 2,080 hours.	-388	
		eign National Indirect Hire Pay Raise recosting from 6 percent 2 percent.	-852	
9.	FY	1984 Current Estimate		915,392
10.	Pro	gram Increases		
	a.	One time FY 1985 Costs		1,925
		Increase is required to upgrade and replace high frequency voice and teletype communications equipment at the Military Affiliated Radio Station (MARS) Marine Corps Base, Camp Lejeune, North Carolina. Increase will permit compliance with Naval Telecommunications Procedures (NTP-8).	+249	
		Provides for the replacement of telecommunications cable at Marine Corps Base, Camp Lejeune, North Carolina.	+680	
		Increase for cable plant upgrade required to support the expanding Marine Corps Data Network requirements for circuits within the interbase cable networks.	+996	
	b.	Program Growth in FY 1985		45,071
		Increase is necessary to provide essential telephone instrument installation/relocation and repair services and to sustain Military Affiliated Radio Station operations at Marine Corps Air Station, Kaneohe Bay, Hawaii in support of station telecommunica-		
		tion expansion.	+220	
		OKMMC		

11

. •

Increase is required for one additional civilian personnel workday.	+705
Increase is required at Marine Coprs Air Station, Beaufort, South Carolina, for expansion of current digital telephone system.  The greatest potential benefit to be derived from the expansion would be the relative ease with which data processing equipment will be brought on line locally utilizing existing telecommunica-	+80
tions lines.	+80
Increase is required to install and operate two Moving Target Simulators at Marine Corps Base, Camp Pendleton, CA and Marine Corps Air Station, Cherry Point, NC enabling Forward Area Air Defense (FAAD) gunners to conduct low cost training in a	
realistic, controlled environment.	+62
Increase is required for office supplies and equipment maintenance of Office Information Systems Equipment (word processing equipment).	+132
Increase is due to the conversion of military personnel to civilian personnel or contractor support for Commercial Activities (CA) functions. Once a cost comparison has been completed on the conversion, the military personnel will be returned to the Fleet Marine Forces (FMF), and either in-house civilians or contractor	
personnel will be hired.	+4,891
Maintenance, utilities and other support for new facilities resulting from completion of Military Construction projects and the Japanese Facilities Improvement Program.	+1,132
	, , , , ,
Increase in funding requirements for personnel support equipment is required to reduce the backlog of deficiencies of furniture and furnishings to outfit unaccompanied personnel	
quarters and office furniture for administrative offices.	+2,182
OCHMO	

0&MMC 12

•

Increase in variable support costs results from an increase in military end strengths applied to the operating forces (1,511 end strengths X \$992 per end strength).	+1,499
Increase of four civilian personnel end strengths is required for support of the Aviation Depot Level Repair Program due to the additional requirement to account for material previously purchased under the Appropriation Purchase Account which is now being purchased under the National Stock Account.	+50
Increased funding is required for the Marine Corps pro-rata share of the appropriated fund support for the Sanno Hotel, Tokyo, Japan.	+40
Increase is required for organic minor property, including labor saving devices, equipment for religious programs, club management equipment, warehouse operations equipment and morale, welfare and recreation program equipment, due to the continued growth in unserviceability of items on-hand which are beyond economical repair. Increased funding will result in the commands' ability to meet mission essential requirements for processing the present administrative and operational workloads.	+2,646
Increase provides for computer emplacement/site preparation in support of the implementation of the Department of Defense Transportation Operational Personal Property Standard System (TOPPS). The TOPPS System is an operational, multi-service system, which will standardize the DOD Personal Property Movement and Storage Program (PPMSP).	+442
Increase is required to perform a study to determine the scope of earthquake safety at affected Marine Corps Bases in accordance with the Earthquake Hazards Reduction Act, Public Law 95-124.	+249

0&MMC 13

Increase is required to perform Historical and Archeological studies that will determine if there are any sites or items of historical and/or archeological significance on Marine Corps lands and nominate specific findings for inclusion on the National Register. This requirement is in accordance with the National Historical Preservation Act and Executive Order 11593.

+200

Funding for computer emplacement/site preparation for implementation of the Department of Defense Logistics Marking System (LOGMARS).

+50

Increase is required to perform Facilities Engineering studies to determine the condition of certain real property facilities to enable orderly planning and programming of repair funds prior to breakdown and major disruptions of mission essential facilities.

+375

On 1 January 1984, the Government contributions for the medicare tax increased from 1.3 percent to 1.35 percent necessitating increased funding.

+75

Funding for an additional 19 civilian personnel internal review employees to expand efforts at identifying and controlling instances of fraud, waste and abuse.

+200

Increased funding is necessary to augment base operations general engineering support functions such as insect and rodent control, increased garbage and refuse collection fees, and increased janitorial contract requirements associated with increased square footage, replacement/procurement of breathing apparatus, fire hoses, adapters, fire extinguishers, fire fighting agents, fire rescue equipment, special tools, protective clothing and fire retardants. Also includes funding for various studies and surveys such as water quality, water pollution transmittal, and noise pollution.

+1,686

Increased funding for minor construction is necessary to construct new facilities and alter/improve existing facilities. Requirements are the result of new missions, introduction of new weapons and equipment, changes in facility utilization and modifications of older facilities to meet current standards.	+4.099
Increase in the unit deployment program resulting from variations in the scheduling of participating units.	+1,066
Increase will provide for stand-up of the first and second Maritime Prepositioning Ships (MPS) Brigade. The addition of the MPS Brigade to the existing Near Term Prepositioning Force Brigade more than doubles the afloat prepositioning forces. Increased funds are requested for routine maintenance and conduct of non-JCS sponsored exercises.	+9,272
A funding increase is required to reimburse enlisted Marines for billeting charges when they are housed in Navy unaccompanied enlisted personnel housing while on temporary additional duty (501,000 mandays $\times$ \$4.00 per manday).	+2,004
Funding supports the continuous procurement of initial issue expense items for Fleet Marine Force units in combat and training operations.	+9,348
Increase in automatic data processing hardware and related costs.	+1,482
Provides funding to support routine cyclic maintenance of the selected Marine Amphibious Brigade (MAB) equipment prepositioned in Norway.	+884

#### Industrial Fund Rates

a. One time FY 1984 Costs

To support announced transportation rate adjustments by the industrially funded Department of Defense carriers to be effective 1 October 1984. -1,639 Transfers from other Appropriations

#### 11. Program Decreases

Completion of purchases for equipment replacement, field fortification materials, equipment support and maintenance related to Lebanon and Grenada operations allows a reduction

in funding.

b. Annualization of FY 1984 Decreases

c. Program Decreases in FY 1985

Modernization of the Near Term Prepositioning Force equipment set in FY 1984, particularly upgraded artillery and associated equipment, allows a reduction in maintenance costs.

Savings realized as a result of implementation of recommendations contained in Naval Audit Service Report Numbers A10242, A41701 and T10552, dealing with mount-out stocks and supply operations.

Decrease reflects discontinuation of payment for Automatic Secure Voice Communications Network services, and assumption of these costs by the Naval Telecommunications Command.

932,153

Program Package: Land Forces

Budget Activity: 2 - General Purpose Forces

I. Narrative Description: This program package encompasses the ground portion of the Fleet Marine Forces and Includes those forces in the three Marine Divisions, three Force Service Support Groups, five Helicopter Groups and three Light Antiaircraft Missile Battalions. The Marine and Navy personnel included in this force structure approximate 90,000. The forces are located at installations on the East and West coasts of the United States, at bases in the Pacific Ocean area, and aboard amphibious ships of the United States Navy. The specific missions of the Fleet Marine Force are:

- a. To serve with the fleets in the seizure or defense of advance naval bases and in the conduct of such land operations as may be essential to the prosecution of a Naval campaign.
- b. To participate as directed by the Commandant of the Marine Corps in the development of doctrine, tactics, techniques, and equipment used by landing forces in amphibious operations.
- c. To train and equip Marine Forces for airborne operations as directed by the Commandant of the Marine Corps.
- d. To train the maximum number of personnel to meet requirements for expansion during time of war.
- e. To perform such other duties as may be directed.
- II. Description of Operations Financed: The operations financed under this program package include: training and routine operations, the maintenance and repair of organic ground equipment, consumable and other supplies, travel, per diem, emergency leave, automatic data processing, initial purchase, and replenishment/replacement of both unit and individual equipment. Approximately 34 percent of the financial resources associated with this unit are consumed in the organizational and intermediate maintenance program. Another 7 percent of the required resources are for logistic support to include consumable supplies. The other major financing requirement (35 percent of the total) is the annual cost of training exercises, administrative and routine operations. Training expenditures include the cost of tactical airlift of forces to training sites, the consumption of material during

training, and costs incurred in recovery operations incident to exercises. The acquisition and replacement of authorized equipment will consume approximately 24 percent of the funds associated with this program annually.

#### III. Financial Summary (Dollars in Thousands)

23,748

Increase will provide for stand-up of the first and second Maritime Prepositioning Ships (MPS) Brigade. The addition of the MPS Brigade to the existing Near Term Prepositioning Force Brigade more than doubles the afloat prepositioning forces. Increased funds are requested for routine maintenance and conduct of non-JCS sponsored exercises.

A funding increase is required to reimburse enlisted Marines for billeting charges when they are housed in Navy unaccompanied

	(501,000 mandays x \$4.00 per manday).	+2,004	
	Funding supports the continuous procurement of initial issue expense items for Fleet Marine Force units in combat and training operations.	+9,348	
	Increase in automatic data processing hardware and related costs.	+804	
	Provides funding to support routine cyclic maintenance of the selected Marine Amphibious Brigade (MAB) equipment prepositioned in Norway.	38 <b>4</b>	
	Increase in consumable supplies and equipment replacement due to net military end strength increase applied to operating force units $(1,490 \text{ end strength } X \$434)$ .	+647	
	Increase in the unit deployment program resulting from variations in the scheduling of participating units.	+789

Program Package: Naval Forces

Budget Activity: 2 - General Purpose Forces

- I. Narrative Description: This program package provides Marine forces for duty at sea and ashore for security aboard Naval vessels and Naval stations and provides forces from the Marine Air-Ground Team for participation in exercises as directed by the Joint Chiefs of Staff (JCS). The objectives of this program package are to:
  - a. Ensure that highly qualified Marines are assigned to Naval security forces.
  - b. Provide Marine security forces for duty aboard Naval vessels.
- c. Provide adequate materiel support for the unique requirements of Marine security forces.
- d. Maintain Marine Air and Ground Forces at a state of readiness capable of participating in exercises as directed by the JCS.
- e. Provide materiel support to Marine Forces and other Allied Forces participating in JCS exercises aboard or in the vicinity of Marine Corps installations.
- II. Description of Operations Financed: This program package finances supply support for Marine Corps peculiar-type items furnished Marine detachments afloat and security barracks located at Naval Stations and Naval Air Stations by Marine Corps supply sources. These items are authorized in the applicable Table of Equipment and Table of Organization. Items not available through the stock fund are procured through commercial sources when not furnished by the Navy or host activity. The functions of a Marine detachment aboard a Navy ship are: to provide a unit organized, trained and equipped for operations ashore as a part of the ship's landing force, as a part of a landing force of Marines from ships of the fleet or task force, or as an independent force for limited operations; to provide gun crews; and to provide internal security for the ship. It will permit the support of costs for planning, troop movements, and actual participation which are above and beyond normal operating costs or units involved in JCS directed/coordinated exercises. JCS directed exercises are joint and combined exercises specifically directed by the JCS to be conducted at a prescribed force level. JCS coordinated exercises are those exercises which require coordination by the

JCS because units or forces of more than one unified or specified command or agency are involved. The funds budgeted for these exercises are incremental costs and include fuel, supplies, spare parts, maintenance, etc.

Program Package: Tactical Air Forces

Budget Activity: 2 - General Purpose Forces

- I. Narrative Description: This program package contains the tactical air forces that participate as the air component of the Fleet Marine Forces in the seizure and defense of advance naval bases and for the conduct of such land operations as may be essential to the prosecution of the Naval campaign. Tactical air forces, components of Marine Corps aviation, are structured to provide a balanced task organization designed to provide fixed wing air support for Marine Corps ground forces. The concept of employment envisions formation of a Marine Air-Ground Task Force (MAGTF) specifically tailored to meet anticipated requirements of the assigned tactical objective, to include offensive air support, anti-air warfare, assault support, air reconnaissance/airborne electronic warfare, and command and control of aircraft and missiles. Inherent in the above functions are the tasks which include close air support, interdiction, air superiority and air control. To meet the requirements, the three Marine Aircraft Wings must enhance overall combat readiness to a level commensurate with directives from higher authority through:
  - a. Maximum participation in operational and training exercises and deployments.
  - b. A comprehensive material maintenance program.
- c. Acquisition and replacement of authorized items of equipment required to facilitate operational and training requirements.

A collateral function of these tactical air forces is to participate as an integral component of Naval aviation in the execution of other Navy functions as the fleet commanders may direct. Air component tasks include planning and employing air power to assist in seeking out and destroying enemy forces and support installations, gaining and maintaining air superiority, and preventing movement of enemy forces along routes of communication into and within the objective area.

II. <u>Description of Operations Financed</u>: Most of the dollars associated with Tactical Air Forces operations are budgeted and funded in appropriations other than Marine Corps appropriations. For example, Marine aircraft are procured in the Aircraft Procurement, Navy (APN); missiles and free falling ordnance are procured in Weapons Procurement, Navy

(WPN) or Other Procurement, Navy (OPN) appropriations. The fuel and maintenance for Marine aircraft flight operations are budgeted in the Operation and Maintenance, Navy (O&MN) appropriation. The Operation and Maintenance, Marine Corps (O&MMC) resources associated with this program package provide for the operations and administrative day-to-day activities of the tactical air forces. Such things as office supplies; consumables; training and travel of military personnel; maintenance of communication-electronics, engineer, motor transport; initial purchase; and replenishment/replacement of Marine Corps peculiar individual equipment are provided.

#### Civilian Personnel

There are no civilian personnel resources in this program package.

O&MMC

Program Package: Base Operations

Budget Activity: 2-General Purpose Forces

I. Narrative Description: This program package supports the base operations of Marine Corps Bases at Camp Lejeune, Camp Pendleton, Marine Corps Air Ground Combat Center, and Camp Butler; and Marine Corps Air Stations/Facilities Cherry Point, Beaufort, New River, El Toro, Tustin, Yuma, Kaneohe, Iwakuni, Futenma, and Camps Smith and Elmore.

Fleet Marine Forces ground and supporting units are based at Marine Corps Base, Camp Lejeune; Marine Corps Base, Camp Pendleton; Marine Corps Air Ground Combat Center, the Marine Corps Base on Ckinawa, and the Marine Corps Air Station, Kaneche. Marine Corps Air Stations/Facilities will provide base support for Marine Aircraft Wings and supporting units.

Base operations funding for these support installations is generally for costs of a recurring nature. The funds provided a station commander must be managed so that installation requirements for operation and maintenance are met in the most economical and effective manner. The installation commander is afforded flexibility in administration within material allowances, personnel ceilings, and broad policies established by the Commandant.

II. Description of Operations Financed: The operations financed include, in the administrative services category, such functions as installation financial and military/civilian manpower management, automatic data processing and related systems support, printing and reproduction services and installation safety and legal services.

The specific services category finances organic supply operations in support of the installations, including shop stores, self-service outlets, audiovisual services, vehicle operation and maintenance, maintenance of material, and laundry and dry cleaning services.

The community support services category provides for support of living facilities, food services, recreation areas, special services programs and common use facilities.

O&MMC

The facility services category largely makes up the remainder of the functions provided by this program package. The category consists of the maintenance and repair, minor construction, utilities operations, and other engineering support necessary to operate and maintain the buildings and related structures (including warehouses and storage areas), railroad trackage, roadways, utility plants and distribution systems and water and sewage treatment plants and distribution networks and activity fire protection and prevention services.

#### III. Financial Summary (Dollars in Thousands)

		FY 1983	FY 1984 Current Estimate	FY 1985 President's Budget	Change 84/85 Request
A.	Operation and Maintenance				
	Maintenance and Repair of Real     Property     Other Base Operations Support     Total	204,806 335,638 540,444	210,661 353,246 563,907	201,222 371,668 572,890	-9,439 +18,422 + 8,983

	2. Program Increases				
	a. One time FY 1985 Costs				-0-
	b. Program Growth in FY 1985				20,680

Increase is required to install and operate two Moving Target Simulators at Marine Corps Base Camp Pendleton, CA and Marine Corps Air Station, Cherry Point, NC enabling Forward Area Air Defense (FAAD) gunners to conduct low cost training in a realistic, controlled environment.

+62

O&MMC

Increase is required for office supplies and equipment maintenance of office information systems equipment (word processing equipment).	+132
Increase is due to the conversion of military personnel to civilian personnel or contractor support for Commercial Activities (CA) functions. Once a cost comparison has been completed on the conversion, the military personnel will be returned to the Fleet Marine Forces (FMF), and either in-house civilians or contractor personnel will be hired.	+4.891
in-house civilians or contractor personnel will be nited.	74,091
Increases required for maintenance, utilities and other support for new facilities resulting from completion of Military Construction projects and the Japanese Facilities	
Improvement Program.	+1,132
Increase in funding requirements for personnel support equipment is required to reduce the backlog of deficiencies of furniture and furnishings to outfit unaccompanied personnel quarters and office furniture for administrative offices.	+2,182
Increase in variable base support costs results from an increase in military end strengths applied to the operating forces (1,511 end strengths X \$523 per end strength).	+790
Increase of four civilian personnel end strengths is required for support of the Aviation Depot Level Repair Program due to the additional requirement to account for material previously purchased under the Appropriation Purchase Account which is now being purchased under the National Stock Account.	+50
Increased funding is required for the Marine Corps' pro-rata share of the appropriated fund support for the Sanno Hotel,	+40
Tokyo, Japan.	740

O&MMC

Funding for computer emplacement/site preparation for	
implementation of the Department of Defense Logistics	
Marking System (LOGMARS).	+50
Increase is required for organic minor property, including labor saving devices, equipment for religious programs, club management equipment, warehouse operations equipment and morale, welfare and recreation program equipment, due to the continued growth in unserviceability of items on-hand which are beyond	
economical repair. Increased funding will result in the commands'	
ability to meet mission essential requirements for processing the present administrative and operational workloads.	+2,646
Increase provides for computer emplacement/site preparation in support of the implementation of the Department of Defense Transportation Operational Personal Property Standard System	
(TOPPS). The TOPPS System is an operational, multi-service system, which will standardize the DOD Personal Property Movement and Storage	
Program (PPMSP).	+442
Increase in automatic data processing hardware and related costs.	+678
Increase is required to perform a study to determine the scope of earth- quake safety at affected Marine Corps Bases in accordance with the Earthquake Hazards Reduction Act, Public Law 95-124.	+249
and displace interest to the state of the st	
Increase is required to perform Historical and Archeological studies that will determine if there are any sites or items of historical and/or archeological significance on Marine Corps lands and nominate specific fundings for inclusion on the National Register. This requirement is in accordance with the National Historical Preservation Act	
and Executive Order !1593.	+200
Increase is required to perform facilities engineering studies to	
determine the condition of certain real property facilities to	
enable orderly planning and programming of repair funds prior to breakdown and major disruptions of mission essential facilitie	+375
	5.5

Increase is required for one additional civilian personnel workday.	+701
On 1 January 1984, the Government contributions for the medicare tax increased from 1.3 percent to 1.35 percent necessitating increased funding.	+75
Increased funding is necessary to augment base operations general engineering support functions such as insect and rodent control, increased garbage and refuse collection fees, and increased janitorial contract requirements associated with increased square footage, replacement/procurement of breathing apparatus, fire hoses, adapters, fire extinguishers, fire fighting agents, fire rescue equipment, special tools, protective clothing and fire retardants. Also includes funding for various studies and surveys such as water quality, water pollution	
transmittal, and noise pollution.	+1,686
Increased funding for minor construction is necessary to con- struct new facilities and alter/improve existing tacilities. Requirements are the result of new missions, introduction of new weapons and equipment, changes in facility utilization and mod-	
ifications of older facilities to meet current standards.	+4,099
Funding for an additional 19 civilian personnel internal review employees to expand efforts at identifying and controlling instances	
of fraud, waste and abuse.	+200
New FY 1985 Program

Program Package: Base Communications

Budget Activity: 2 - General Purpose Forces

I. Narrative Description: This program package operates and maintains all telecommunications facilities and ancillary communications equipment used to support the mission essential requirements of Marine Corps commands who are primarily engaged in providing support to the operating forces of the Marine Corps. This support is provided by six Marine Corps Bases/Camps and nine Marine Corps Air Stations/Facilities.

II. Description of Operations Financed: This program package funds for the operation and maintenance of base/camp telephone systems, record communications (data card, magnetic tape, teletype), radio facsimile equipment, long distance toll charges, the Military Affiliated Radio System (MARS) program and the administrative costs associated with message reproduction and distribution. Also provides for support of public address systems and emergency repair of base/camp telephone cables.

III. Financial Summary (Dollars in Thousands)

		FY 1983	FY 1984 Current Estimate	1985 President's Budget	Change FY 84/85 Request

	2. Program Increases				

O&MMC 48

نہ

a.	One time FY 1985 Costs		1,925
	Provides for the replacement of telecommunications cable at Marine Corps Base, Camp Lejeune, North Carolina.	+680	
	Increase for cable plant upgrade required to support the expanding Marine Corps Data Network requirements for circuits within the interbase cable networks.	+996	
	Increase is required to upgrade and replace high frequency voice and teletype communications equipment at the Military Affiliated Radio Station (MARS) Marine Corps Base, Camp Lejeune, North Carolina. Increase will permit compliance with Naval Telecommunications Procedures (NTP-8).	+249	
ъ.	Program Growth in FY 1985		357
	Increase in variable support costs results from an increase in military end strengths applied to the operating forces $(1,511 \text{ end strengths } x \$35 \text{ per end strength})$ .	+53	
	Increase is required at Marine Corps Air Station, Beaufort, South Carolina, for expansion of current digital telephone system. The greatest potential benefit to be derived from the expansion would be the relative ease with which data processing equipment will be brought on line locally utilizing existing telecommunications lines.	+80	
	Increase is necessary to provide essential telephone instrument installation/relocation and repair services and to sustain Military Affiliated Radio Station operations at Marine Corps Air Station, Kaneohe Bay,		
	Hawaii in support of station telecommunications expansion.	+220	

	Increase is required for one additional civilian personnel workday.	+4

4.	Proposed Suprlementals		4,002
	Civilian Pay Raise Lebanon/Grenada Health Benefits/Social Security Taxes	+2,816 +1,000 +186	
5.	Functional Program Transfers		89
	Transfer from the Foreign Currency Fluctuations, Defense Appropriation reflects revised yen/dollar ratio of 234.69 yen to one dollar vice the appropriated ratio of 276.7 yen to one dollar.	÷89	
6.	Price Growth		239
	Increase in utility costs reflects effects of public utility rate increases approved during FY1983.	+239	

7.	Program Increases		1,350
	Increased funding to support janitorial services and regional office administration in support of commissary operations required to overcome deficiencies in authorized appropriated fund support for commissary program expenses.	+700	
	Increase of 49 civilian billets required for implementation of the spare parts acquisition reforms directed by the Secretary of Defense.	+650	
8.	Program Decreases		-848
	Transfer to program package "Administration - Departmental" of the costs associated with the Marine Air Ground Task Force (MAGTF) Lift Model II. This adjustment is necessary to reflect funding in the proper program package resulting from a decision to develop the new system as a World Wide Military Command and Control System (WWMCCS) standard system.	-525	
	Reduction in civilian personnel salaries due to recomputation of the workyear to reflect 2087 hours vice 2080 hours.	-168	
	Recosting of civilian personnel salaries based on the latest available compensation data and re-evaluation of civilian work years.	-155	
9.	FY 1984 Current Estimate		338,783
10.	Program Increases		

0**&MM**C 55

а.	One time FY 1985 Costs		26
	Increase in funding required for maintenance and calibration of various meters and tools at the Marine Corps Logistics Base, Barstow, California.	+26	
b.	Program Growth in FY 1985		61,669
	Increased funding related to stand-up of the first and second Maritime Prepositioning Ships (MPS) Brigades. These funds are for receipt and preparation of supplies and equipment for shipment, dunnage, collateral materiel purchases and care-in-storage requirements, and contractor support of the second MPS maintenance team (+3,962); supplies and equipment for T/E allowance items, class IV engineer items, secondary reparables/spares (+4,201); and transportation costs of Marine Corps materiel and equipment (+8,156).	+16,319	
	Funding to provide for the full year contract costs for the first MPS maintenance team required to field and maintain the equipment embarked on MPS ships.	+1,449	
	Increased funding for contractual support, and training expenses required to continue development of the Marine Corps Standard Supply System (M3S). These support functions provide the critical components in implementing a life cycle system for M3S.	+5,913	
	Funding for procurement of items of the medical support package to be prepositioned with the Maritime Prepositioning Ships (MPS) Brigades. This includes such items as blood gas analyzers, flame photometers, medical and dental x-ray apparatuses, patient monitors, sterilizers and anesthesia machines.	+3,929	
	Additional funding required to support the increase in equipment being delivered to Marine Corps Logistics Base, Albany and availabl for shipment in support of the Land Prepositioning program.	+179	
	O&MMC		

Increase of 75 civilian billets to augment a variety of inventory control functions to meet the initial operational capability (IOC) of new weapon systems, to support Configuration Managment Program and Weapons System/Equipment Management (W/ESM) Program. +1,055 Increased funding for the full year costs of the 49 civilian end strengths approved in FY1984 for Spare Parts Management. +650 Funding for first destination charges in support of planned deliveries of new weapons systems and equipment. This +5,694 consists of: Commercial Utility Cargo Vehicle 1,025 vehicles +2,040 Howitzer, Medium Towed 155mm, 40 vehicles +136 LVT SLEP, 363 vehicles Logistics Vehicle System, 368 vehicles 5 ton Retrofit Truck, 416 vehicles +1,010 +1.534+434 Aircraft Fire and Rescue Vehicles, 54 vehicles +53 Runway Sweeper, 8 vehicles LVTP7A1, 226 vehicles Second Destination Transportation funding required for charges

Second Destination Transportation funding required for charges of Government Furnished Equipment/Materiel (GFE/GFM) from depots to contractor repair facilities and return. A movement of 2076 short tons CONUS line haul.

+261

Second Destination Transportation funding required to support Tactical Communications Center (+18 for 140 S/T); the Marine Corps Automatic Test Equipment (+2 for 17 S/T); and Mechanical Test Measurement and Diagnostic Equipment (+2 for 17 S/T); Digital Wide Band Transmission Center (+14 for 107 S/T).

+36

Increase is required to fund the Automatic Testing Support Unit (ATSU) portion of the Marine Corps Automatic Test Equipment System (MCATES) at the Marine Corps Logistics Base, Albany, Georgia to

OPERATION AND MAINTENANCE, MARINE CORPS	
support test program sets, configuration control of test program and technical assistance to Marine Corps automatic test equipment users.	+524
Increase provides for additional technical services and equipment required in FY 1985 due to new equipment being introduced to the field and the need for additional technical service engineers for existing Equipment.	+3,240
Increased funding required to maintain services for essential technical assistance and inspection visits for Fleet Marine Forces (FMF) and Reserve Units.	+29
Increase required to initiate support to refuze fragmentation hand grenades found to be extremely susceptible to moisture during a recent trend analysis conducted by Army Armament Materiel Readiness Command.	+108
Increased funding required for computer software implementation and data support in the functional areas of supply/maintenance and technical data publications within the Marine Corps cataloging program.	+15
Increase in funding to maintain the Joint Operation Planning System (JOPS) interface program. This program, developed and previously maintained by CINCLANT, is required to enable the Marine Corps to input Time Phased Force Deployment Data (TPFDD) into the JOPS via the present Marine Air Ground Task Force (MAGTF) Lift Model.	+5
Funding required for the Marine Corps pro-rata share of the cost to operate the Light Armored Vehicle (LAV) project management office in accordance with the LAV memorandum of agreement signed with the Army.	+613
Increased funding required for LVT7Al technical management support in the areas of engineering analysis of field reported problems, development and test of solutions and maintenance of LVT7Al technical data package.	+1,065

ОЕЙЙС

.

Funding for contractor maintenance and provisioning support for the Comm Jammer (AN/TLQ-17A), a joint Army/Marine Corps acquisition effort. Required to provide quick response to field identified equipment deficiencies.	+94
Increased funding required to cover costs of implementing the JCS mandated Joint Interoperability of Tactical Command and Control Systems (JINTACCS) message standards into the software of the Marine Air Ground Intelligence System (MAGIS) Imagery Interpertation Facility (IIF).	+93
Funding required for the life cycle/software maintenance and training facility costs for the Marine Air Ground Intelligence Systems (MAGIS) Intelligence Analysis Center (IAC).	+106
Increased funding for the repair of Secondary Depot Reparables (+2,401) and for major equipment (+8,561) to support requirements for depot maintenance for total force readiness.	+10,962
Increased funding required for the installations of equipment modification/alteration kits program for compliance with the FY 1985-1989 Defense Guidance which directs the elmination of backlogs of uninstalled modifications and alterations as soon as the weapons systems and equipment are available to receive them.	+4,134
Increase is due to the conversion of military personnel to civilian personnel or contractor support for Commercial Activities (CA) functions. Once a cost comparison has been completed on the conversion, the military personnel will be returned to the Fleet Marine Forces (FMF), and either in-	
house civilians or contractor personnel will be hired.	+566

Increase is required for personnel support equipment to reduce

additional funding for refuse site operations and industrial

Increased funding for minor construction is necessary to construct new facilities and alter/improve existing facilities. Requirements are the result of new missions, introduction of new weapons and equipment, changes in facility utilization, and modifications of older facilities to meet current standards.

(hazardous) waste removal.

the backlog of deficiencies of furniture and furnishings to outfit unaccompanied personnel quarters and office furniture for administrative offices. +18 Increase is required for organic minor property, including labor saving devices, equipment for religious programs, club management equipment, warehouse operations equipment and morale, welfare and recreation program equipment, due to the continued growth in unserviceability of items on hand which are beyond economical repair. Increased funding will result in the commands' ability to meet mission essential requirements for processing the present administrative and operational workloads. +264 Increase provides for computer emplacement/site preparation in support of the implementation of the Department of Defense Transportation Operational Personal Property Standard System (TOPPS). The TOPPS System is an operational, multi-service system, which will standardize the DOD Personal Property Movement and Storage Program (PPMSP). +160 Increase is required to perform a study to determine the scope of earthquake safety at affected Marine Corps Bases in accordance with the Earthquake Hazards Reduction Act, Public Law 95-124. +50 Increased funding is necessary to augment base operations general engineering support functions such as insect and rodent control, replacement/procurement of breathing apparatus, fire hoses, fire extinguishers and protective clothing. Also includes

#### Industrial Fund Rates

To support announced transportation rate adjustments by the industrially funded Department of Defense carriers to be effective 1 October 1984. -4,418

For reimbursable support services purchased from Industrially Funded Activities for anticipated prices to be effective 1 October 1984. +4,889

Net FY 1984 industrial fund price reductions were distributed as refunds to the customer accounts. For FY 1985, however, no refunds are to be expected +2,889

The FY 1985 Marine Corps Industrial Fund rates include a provision for anticipated FY 1985 civilian pay increases. A reduction in funding is displayed in this budget activity pending enactment of a pay raise supplemental appropriation.

Program Package: Supply Depot Operations

Budget Activity: 7 - Central Supply and Maintenance

I. Narrative Description: This program package provides the resources necessary to operate the supply and distribution system/work force that effectively and efficiently receives, stores, maintains and distributes those supplies, equipment, and other expendable materials required to meet the operational needs of the Marine Corps. Retention of a distribution system/work force which is adequate to meet contingencies as well as day-to-day demands requires the operation of two supply depots, one on the east coast located at Marine Corps Logistics Base, Albany, Georgia, and one on the west coast at the Marine Corps Logistics Base, Barstow, California.

The mission of the supply depots includes the following: the receipt, storage, care-in-storage, inventory, issue, preservation, packaging, packing and shipment of equipment and supplies; the processing, recording and control of materiel request and receipt documents; the scheduling of the movement of materiel including rate verification and the preparation and processing of bills of lading, and other transportation documents; and the assembly and disassembly of sets, kits, and chests, collateral materiel and end item components. Marine Corps Logistics Base, Albany, also provides inventory management and distribution of classified and unclassified Marine Corps publications as well as worldwide mail order uniform clothing support.

II. <u>Description of Operations Financed</u>: The operations financed under this program package include civilian personnel salaries; travel and training costs for civilian and military personnel; cost for materiel required for packing, preservation, and packaging; collateral materiel; end items components; items required to assemble sets, kits, and chests; and the services of Depot Maintenance Activity technicians required to inspect, maintain, preserve, and/or prepare for shipment complex tactical equipment.

Program Package: <u>Inventory Control Point</u>

Budget Activity: 7 - Central Supply and Maintenance

- I. Narrative Description: This program package provides the resources necessary to maintain a central inventory management system/work force that effectively procures and manages those supplies, equipment, and other expendable materiels required to meet the operational needs of the Marine Corps. The mission of the Inventory Control Point is to perform weapon systems/equipment support and secondary item management, including requirements determination for assigned materiel; provide the initial range and depth of repair parts, special tools, test equipment and publications required to support new equipment, exercise technical direction over the primary and specialized direct support stock control elements of the stores distribution system; and provide Logistics Management Systems maintenance and development, implementation, control and analysis of assigned Integrated Logistics System management procedures.
- II. <u>Description of Operations Financed</u>: This program package finances inventory control operations at the Marine Corps Logistics Base, Albany, Georgia. Operations financed include civilian personnel salaries, travel and training costs of civilian and military personnel, operating supplies and materiels and costs associated with Marine Corps stocklist publications provided to the operating forces. The Marine Corps has also included the funding for all O&MMC materiel purchases for the land and maritime prepositioning programs in this package.

Program Package: Transportation of Things

Budget Activity: 7 - Central Supply and Maintenance Activities

- I. Narrative Description: This program package funds the transportation of Marine Corpsowned material and supplies by the most economical mode that will meet in-transit time standards in support of the Department of Defense Uniform Material Movement and Issue Priority System. All resources in this program are utilized to reimburse industrially funded or commercial transportation carriers for transportation services.
- II. Description of Operations Financed: This program finances all costs related to first and second destination transportation of cargo to the operating forces overseas and within the Continental United States, as well as prepositioning of Marine Corps material and equipment at overseas locations. Categories of transportation are: (a) Military Sealift Command for ocean cargo; (b) inland transportation by commercial carriers for movement between CONUS installation and ports; (c) Military Airlift Command for movement of priority cargo in support of Fleet Marine Force units; and (d) Military Traffic Management Command and commercial sources for port handling of ocean cargo.

Program Package: Other Logistics Support

Budget Activity: 7 - Central Supply and Maintenance

- I. Narrative Description: This program package comprises those support functions which (1) are best managed and funded on a centralized basis and (2) consist of either (a) mandatory/unavoidable costs or (b) essential technical support to the Fleet Marine Forces. The major objectives of this program package are to:
- a. Provide technical support required by the operating torces on complex weapons and support equipment systems.
- b. Support Marine Corps-wide programs which cannot be managed effectively in a decentralized manner.
- II. <u>Description of Operations Financed</u>: This program package supports the Fleet Marine Forces and supporting installations in such areas as: (a) contract technical services; (b) task order services for product improvement; (c) ammunition and missile rework/renovation; and (d) printing and publication costs.
- III. Financial Summary (Dollars in Thousands)

Program Package: Commissary Stores Operations

Budget Activity: 7 - Central Supply and Maintenance

- I. Narrative Description: The mission of commissary stores is to provide authorized items for resale to authorized commissary store patrons at the lowest practicabale price in a facility designed and operated by the standards used in commercial food stores. The Marine Corps operates fourteen continental United States stores and one overseas commissary store.
- II. Description of Operations Financed: This program package finances all civilian personnel costs related to the operation and maintenance of commissary stores located at various Marine Corps bases and stations.

Program Package: Equipment Maintenance

Budget Activity: 7 - Central Supply and Maintenance

- I. Narrative Description: This program package funds the depot maintenance (major repair rebuild) of Marine Corps ground equipment (less Marine Corps Reserve equipment funded in the Operation and Maintenance, Marine Corps Reserve appropriation). Repair/rebuild is accomplished on a scheduled basis to maintain the materiel readiness of the equipment inventory necessary to support the operational needs of the Fleet Marine Forces. Items programmed for repair are screened to ensure that a valid stock requirement exists and that the repair or rebuild of the equipment is the most cost effective means of satisfying the requirement. This program is closely coordinated with the Procurement, Marine Corps appropriation to ensure that the combined repair/procurement program provides a balanced level of attainment of inventory objectives for major equipment. Thus, the specified items to be rebuilt, both principal end items and components, are determined by a process which utilizes cost-benefit considerations as a prime factor. The rebuild costs for each item are updated annually on the basis of current cost factors at the performing activities which are applicable. Also included are tunds for the installation of modification alteration kits into a variety of existing Marine Corps ground equipment. These kits either extend the equipment life, enhance its capability and/or improve its reliability and maintainability.
- II. Description of Operations Financed: Repair/rebuild actions and the installation of kits funded by this program package are performed by the following methods:
- a. A major portion is accomplished by the industrially fur ed depot maintenance activities at the Marine Corps Logistics Bases at Albany, Georgia and Barstow, California.
- b. Depot Maintenance Inter-Service Support Agreements are utilized where economically feasible and capacity exists.
- c. Commercial repair sources are also utilized, primarily for complex electronics items of low density (i.e., where the Marine Corps has only a small quantity of an item in its inventory) and when it is not economically feasible for the Depot Maintenance Activities

Program Package: Base Operations

Budget Activity: 7-Central Supply and Maintenance

- I. Narrative Description: This program package supports the base operations of Marine Corps Logistics Base, Albany, Georgia and Marine Corps Logistics Base, Barstow, California. At these Logistics Bases this program provides essential administrative and staff functions such as office services, motor transport operations, and support of real property, minor construction, and other engineering support.
- II. Description of Operations Financed: The operations financed include, in the administrative services category, such functions as installation financial and military/civilian manpower management, automatic data processing and related systems support, printing and reproduction services and installation safety and legal services.

The specific services category finances organic supply operations in support of the installations, including shop stores, self-service outlets, audiovisual services, transportation operation and maintenance, maintenance of materiel and laundry and dry cleaning services.

The community support services category provides for support of living facilities, food services, recreation areas, special services programs and common-use facilities.

The facility services category largely makes up the remainder of the functions provided by this program package. The category consists of the maintenance and repair, minor construction, utilities operations, and other engineering support necessary to operate and maintain the buildings and related structures (including warehouses and storage areas), railroad trackage, roadways, utilities plants and distribution systems, water and sewage treatment plants and distribution networks, and activity fire protection and prevention services.

Program Package: Base Communications

Budget Activity: 7 - Central Supply and Maintenance

- I. Narrative Description: This program package operates and maintains all telecommunications facilities and ancillary communications equipment used to support the mission essential requirements of Marine Corps commands who are primarily engaged in providing logistic support. This support is provided by the Marine Corps Logistics Base, Albany, Georgia, and the Marine Corps Logistics Base, Barstow, California.
- II. Description of Operations Financed: This program package finances the operation and maintenance of base telephone systems, record communications (data card, magnetic tape, teletype), radio and facsimile equipment, centrally managed leased lines, long distance toll charges, the Military Affiliated Radio System (MARS) program and the administrative costs associated with message reproduction and distribution. Also provides for support of public address systems, and emergency repair of base telephone cables.

	Increase for participation in the Veteran's Educational Assistance Program and the Educational Assistance Test Program.	+847	
	The field jacket was originally scheduled to become a part of the clothing bag in FY 1984. However, it was decided that the jacket would remain organizational clothing. This decision necessitates resumption of annual replacement costs.	+185	
	An increase in tuition costs over that budgeted is projected for Off-Duty Education to allow Marines to attend courses at the graduate, baccalaureate and vocational college level. This increase is due to additional enrollees plus increases in tuition costs.	+1,695	
	Funding provides for pro-rata share of costs for prisoners confined at the Army Disciplinary Command Fort Leavenworth, Kansas due to increased number of Marine prisoners.	+200	
	Increase to provide for the routine day to day operation of the MCJROTC on FY 1983 experience.	+119	
3.	Program Decreases		-1,228
	A planned decrease in recruit input from 49,552 to 48,258 will result in decreased variable recruit training support cost requirements.	-124	

OMMC

		Decrease reflects a delay in completion of Commercial Activities (CA) cost comparison studies.	-1,000	
		Reduction in civilian salaries due to recomputation of the workyear to reflect 2,087 hours vice 2,080 hours.	-104	
9.	FY	1984 Current Estimate		211,725
10.	Pro	gram Increases		
	a.	One time FY 1985 Costs		195
		Increase required for installation of Marine Corps Data Network trunks at Marine Corps Development and Education Command (MCDEC), Quantico, Virginia due to the major trend toward advanced computer systems which require links into telephone lines and systems.	+195	
	b.	Program Growth in FY 1985		30,814
		A planned increase in recruit input from 48,258 to 50,072 will result in increased variable recruit training support cost requirements.	+183	
		Procurement of repair parts, tools, and consumable supplies to enhance specialized skill training essential to impart Military Occupational Skills (MOS's) to Marine Corps military personnel.	+1,781	

OWMMC

Funding required for 5 additional civilian end strength in support at the Naval Training Center, Orlando, Florida.	+50
An increase of 53 civilian personnel is required for the Marine Corps Communications - Electronics School, including instructors and equipment maintenance personnel.	+730
An increase of 15 civilian personnel is required for various schools at Marine Corps Base, Camp Lejeune, NC to include education/training specialists and instructors.	+214
Funding provides for establishment of a written communication course for the Command and Staff College, maintenance of the Tactical Warfare Simulation Evaluation and Analysis System (TWSEAS) and software requirements for computer supported exercises.	+535
Increase of 16 civilian end strength to support the Amphibious Warfare School and to support the Tactical Warfare Simulation, Evaluation and Analysis System (TWSEAS).	+165
Increase in automatic data processing hardware and related costs.	+643
Increase is required to reimburse enlisted Marines for billeting charges when they are housed in Navy unaccompanied enlisted personnel housing while on temporary additional duty (TAD) (156,221) mandays times \$4.00 per manday).	+625
Increase reflects a realignment of funds to this Budget Activity from other program packages for centralization of the Civilian Long Term Training Program and eight civilian personnel trainee billets.	+1.303
F	, 505

OEMMC

Provides for increased transportation/per diem costs which are being experienced in connection with formal school training and to finance tuition and other support associated with formal training. Formal schools training varies from military occupational skills (MOS) training to courses in marksmanship, intelligence, leadership, etc. +2.531 Provides for increased participation in the Veteran's Educational Assistance Program and the Educational Assistance Test Program. +3,891 Provides for additional requirements in systems acquisition (factory) training to include travel and per diem for students and instructors and, in certain cases, tuition charges. +1,629 Provides for contractor support to assist the Marine Corps in developing individual training standards to comply with the Interservice Procedures for Instructional Systems Development published by the Interservice Training Review Organization (ITRO). +2,073 Funding for 4 additional civilian billets and course production and development costs at the Marine Corps Institute and revision of the Essential Subjects Test (EST) handbook. +787 Increase is required for continued support of the Basic Skills Education Program (BSEP) through FY 1985. This program provides for on-duty training in mathematics, reading, English, and English as a second language, to enhance the MOS performance of Marines. +512 Punding is required to meet increased participation in the Off-Duty Education Program. Tuition assistance enables service

OSMMC

members to attend high school classes and regionally accredited

post-secondary courses.

117

+1,672

,	
Increase in automated data processing hardware and related costs, due to transition of Automated Recruit Management System (ARMS) to Marine Corps owned equipment.	+37
Increase in applicant processing costs due to increased accession plan of 1,658 non-prior service regular enlisted applicants (\$67 X 1,658).	+111
Increase in funding to provide for essential repair and for building maintenance at the First Marine Corps District Headquarters in Garden City, Long Island, New York.	+200
Increase in funding for Centers of Influence (COI) Program due to authorized increase in participants.	+320
Increase in vehicle costs, because GSA directed that loaner vehicles will not be provided as temporary replacements for vehicles requiring maintenance. Additional funds are now required for commercial vehicles.	+511
Additional emphasis on the recruitment of minority officer candidates (+500), and targeted junior college (Community College Enlistment Program) students (\$+100) necessitate increased funding. The funding will be utilized in selected areas and media focused in the particular group of applicants.	+600
Increase is due to the conversion of military personnel to civilian personnel or contractor support for Commercial Activities (CA) functions. Once a cost comparison has been completed on the conversion, the military personnel will be returned to the Fleet Marine Force (FMF), and either in-house	
civilians or contractor personnel will be hired.	+3,184

06MMC 118

Increase is required for personnel support equipment to reduce the backlog of deficiencies of furniture and furnishings to outfit unaccompanied personnel quarters and office furniture for administrative offices. +610 Increase is required for maintenance of new terminal acquisitions in support of the Automated Recruit Management System (ARMS), and increased hardware maintenance costs for additional equipment to be installed at Marine Corps Central Design and Programming Activity, Quantico, Virginia, ir support of new on-line financial management, supply, and manpower management systems. +586 Funding for computer emplacement/site preparation in support of the implementation of the Department of Defense Logistics Marking System (LOGMARS). +44 Increase is required for organic minor property, including labor saving devices, equipment for religious programs, club management equipment, warehouse operations equipment and morale, welfare and recreation program equipment, due to the continued growth in unserviceability of items on-hand which are beyond economical repair. Increased funding will result in the commands' ability to meet mission essential requirements for processing the present administrative and operational workloads. +218 Increase provides for computer emplacement/site preparation in support of the implementation of the Department of Defense Transportation Operational Personal Property Standard System (TOPPS). The TOPPS System is an operational, multi-service system, which will standardize the DOD Personal Property Movement and Storage Program (PPMSP). +27 Increase is required to support various service contracts, rental of office equipment, replacement of supplies and equipment, and occupational clothing. +2,239 OEMMC

Increase is required to perform a study to determine the scope of earthquake safety at affected Marine Corps Bases in accordance with the Earthquake Hazards Reduction Act, Public Law 95-124.	+50
Increase is required for the Breckenridge Dam Study at the Marine Corps Development and Education Command, Quantico, Virginia. The dam is currently in need of major upgrade and repair and has been classified as a high risk dam by the Army Corps of Engineers.	+300
Increased funding is necessary to augment base operations general engineering support functions such as insect and rodent control and procurement/replacement of breathing apparatus. Also includes funding for a feasibility study for conversion/replacement of existing boilers, a feasibility study on alternate potable water sources, a feasibility study on water irrigation, a solar study for family housing and a water leakage survey to evaluate the condition of existing potable water distribution systems.	+184
On 1 January 1984 the Government contributions for the medicare tax increased from 1.3 percent to 1.35 percent necessitating increased funding.	+21
Increase is required for one additional civilian personnel workday.	+194
Increased funding for minor construction is necessary to construct new facilities and alter/improve existing facilities. Requirements are the result of new missions, introduction of weapons and equipment, changes in facilities to meet current standards.	+1,598
Increased funding for collateral equipment requirements resulting from an increase in Military Construction projects.  O&MMC	+366

Increase required to support tolls, installation charges, and monthly rentals associated with computer system requirements linked to existing telephone lines at Marine Corps Development and Education Command (MCDEC), Quantico, Viriginia.

O&MMC

Program Package: Recruit Training

Budget Activity: 8 - Training, Medical, and Other General Personnel Activities

- I. Narrative Description: The transition from civilian life to duties as a Marine occurs as a result of recruit training for new enlistees conducted at one of the two Marine Corps Recruit Depots, located at Parris Island, South Carolina and at San Diego, California. This intense period of training is designed to prepare the new Marine for assignment to units of the Fleet Marine Force, to major posts and stations, to duty at sea aboard vessels of the U.S. Navy, and to specialized skill training prior to assignment to a unit. During recruit training, the Marine is taught basic military skills, and develops confidence in himself and in members of his unit, while being closely supervised by specially skilled, highly trained and motivated professional Marines. The ultimate objective of this training is to produce a Marine that can assimilate well into a unit, and in time of emergency, sustain himself on the battlefield. Because many Marines graduating from recruit training are assigned to formal schools for specialized skill training in a military occupational specialty (MOS), identification of these Marines is an ancillary objective of recruit training.
- II. Description of Operations Financed: To attain the objectives of recruit training and produce the quality Marine ready for initial assignment, the two Marine Corps Recruit Depots must finance the various costs of this training. These costs include individual equipment requirements, the operation and maintenance of support equipment, administrative functions and routine supplies. Specific examples of recruit training costs financed by this program package include: replacement of organization and individual equipment, recruit accession and processing, uniform clothing alterations, marksmanship training and weapons qualitications, automatic data processing costs associated with recruit administration, garrison and field training support, transportation costs associated with training, civilian salaries, etc.

OSMMC

Program Package: Specialized Skill Training

Budget Activity: 8 - Training, Medical, and Other General Fersonnel Activities

- I. Narrative Description: Upon completion of Officer Acquisition Training or Recruit Training, the Marine is assigned to courses of instruction to acquire the requisite skills necessary to meet the minimum requirements of a military occupational speciality (MoS). In the case of the officer, this involves completion of the Basic School at the Marine Corps bevelopment and Education Command, Quantico, Virginia and the assignment to an MOS qualitying course such as the Infantry Officer Course or the Communications Officer School. The enristed Marine undergoes specialized skill training at Marine Corps installations or at schools of other services, depending on his designated MOS. The majority of specialized skill training is conducted at nine Marine Corps activities. Additional specialized skill training is provided at subsequent career points to qualify Marines for occupational specialities involving higher levels of proticiency or responsibilities and also to develop the functional skills required within specific job assignments. To ensure an adequate input of qualified personnel for assignment to Marine Corps commands, approximately 7,700 officer and 69,000 enlisted regular and reserve Marines participate in this category of training annually.
- II. <u>Description of Operations Financed</u>: The support rendered to this program package includes the direct support of specialized skill training at nine Marine Corps commands. Specific examples of costs financed under this program package include salaries of civilian personnel, training support equipment, audiovisual aids, computer-assisted training, administrative support, travel and per diem, etc.

Program Package: Professional Development

Budget Activity: 8 - Training, Medical, and Other General Personnel Activities

I. Narrative Description: This program package encompasses the training and education programs available to career Marines which enhance their overall professional development and quality them for increased command and staff responsibilities. Included in this category are programs for officers and staff non-commissioned officers (SNCO) available within the Marine Corps; at schools of other Services; and at civilian institutions. The Marine Corps bevelopment and Education Command, Quantico, Virginia is the field activity with primary responsibility for professional development education within the Marine Corps. The professional development education schools located at this installation are the Command and Staff College, Amphibious Warfare School, and Staff Non-Commissioned Officer Academy. The courses taught at the Command and Staff College and the Amphibious Warfare School are designed primarily for majors and captains, respectively. These courses emphasize the Marine Air-Ground team in amphibious operations to prepare the student for command and for staff assignments at the Division/Wing, Regiment/Group and Battalion/Squadron levels, as well as for assignment to departmental, joint or combined staffs. The overall objective of the instruction is to present the doctrine, tactics and techniques of amphibious warfare with a view toward potential employment and responsiveness of amphibious forces in support of a changing national strategy.

This program package also provides support to Marines undergoing professional development education at schools of other Services and at civilian institutions. With regard to the latter, the students study a variety of academic disciplines to qualify them for staff assignments that require expertise in technical or scientific areas.

II. Description of Operations Financed: The operation support rendered to this program package includes the direct requirements of the professional development education schools at the Marine Corps Development and Education Command; various costs of Marines assigned to civilian institutions; and administrative support for Marines attending other Service schools. Specific examples of tinancing in this program package include program materiels and supplies; professional books and literature; computer assisted instruction; travel and per diem; tuition, book and fee charges at civilian institutions; civilian salaries; administrative expenses to include materiel, supplies and maintenance of office machines and purchases of minor property.

Program Package: Officer Acquisition

Budget Activity: 8 - Training, Medical, and Other General Personnel Activities

- Narrative Description: Candidates for appointment as commissioned officers of the Marine Corps and Marine Corps Reserve undergo intense courses of instruction prior to actual commissioning. This program package includes four programs that input officer candidates for screening at the Officer Candidate School, Marine Corps Development and Education Command, (MCDEC), Quantico, Virginia, and a fifth, the Marine Enlisted Commissioning Education Program, which is conducted at civilian education institutions. The programs at MCDEC are the Platoon Leaders Class; Officers Candidate Course; Naval Reserve Officer Training Course (Marine Option); and the Enlisted Commissioning Program. The screening process involves instruction in leadership, basic military subjects, history and traditions, and physical conditioning. Because the program of instruction is presented at a central location, Marine Corps Development and Education Command, Quantico, Virginia, standard evaluation techniques are applied to all candidates.
- II. <u>Description of Operations Financed</u>: Approximately 2,600 officer candidates will be screened in FY 1985 under this program. To provide adequate support to this vital program, operation and maintenance funds are required for maintenance of individual and organizational equipment, maintenance and replacement of classroom minor property, training aids, printing and reproduction of individual training materiel and schedules, candidate processing and general administrative support, salaries of civilian personnel in direct support of this program, and travel and per diem.

Program Package: Flight Training

Budget Activity: 8 - Training, Medical, and Other General Personnel Activities

- I. Narrative Description: Marine Corps personnel assigned to duty under instruction prior to qualitication as Naval Aviators or Naval Flight Officers are trained either at U.S. Naval Air Station Pensacola, Florida or U.S. Naval Air Station, Corpus Christi, Texas. majority of flight training costs are incurred by the U.S. Navy. The Marine Corps provides limited operation and maintenance support for its personnel at these installations.
- Description of Operations Financed: The Marine Corps has small administrative detachments at these Naval Air Stations providing support to Marine students undergoing instructions. This program package provides for routine administrative services, maintenance of office machines and other minor property and for limited travel and per diem. The actual cost of "hands-on, hard skill" training is incurred by the Navy.

Program Package: Training Support

Budget Activity: 8 - Training, Medical, and Other General Personnel Activities

- I. Narrative Description: This program package includes operations of the Marine Corps Institute located at the Marine Barracks, 8th and I Streets, S.E., Washington D.C., support of the Extension School at Marine Corps Development and Educational Command, Quantico, Virginia; and the centrally managed support of formal schools training which provides for the post-recruit training of all Marines in a variety of skills and specialties. This post-recruit training varies from military occupational skill (MOS) training to short courses on leadership, management, and drug and alcohol abuse control. Training for Marine students takes place at both Marine Corps activities and other Services schools. Additionally, training is provided at civilian business or educational institutions. The mission of the Marine Corps Institute is to prepare and administer correspondence courses designed to increase the general and technical proficiency of Marines, and prepare, distribute, evaluate and support essential subjects training. The Extension School offers professional military education to an unlimited number of officer and senior enlisted personnel.
- II. Description of Operations Financed: This program package provides for costs associated with travel and per diem for those Marines attending Service and civilian schools away from their permanent duty stations. Also included are costs of training support equipment, audiovisual aids, computer-assisted training programs, and direct administrative support, minor training devices and factory training. These direct administrative costs include such items as the pay for civilian education specialists, printing and reproduction of course and test materials, text books, etc., in support of the Marine Corps Institute. Annually, the Marine Corps Institute provides approximately 200,000 Essential Subject Handbooks, 100,000 Essential Subject Proficiency Evaluation Tests, 400,000 answer sheets, and 5,000 Performance Oriented Training packages to company/battery/squadron size units. The Extension School administers 15,000 students in 50 courses. Of these, approximately 11,700 are active duty and 1,000 reservists. Of the total, nearly 2,300 are other service students.

Program Package: Recruiting

Budget Activity: 8 - Training, Medical, and Other General Personnel Activities

1. Narrative Description: To provide resources and support to the total torce procurement effort to enable enlisted and officer procurement personnel to achieve predetermined force levels in both quality and quantity accessions. The Marine Corps total force recruiting tasks individual recruiters to procure accessions for both the Regular and Reserve Forces. Officer procurement is the primary function of officer selection offices.

A major objective of the Marine Corps is to provide quality recruits (minimum 75% high school graduates) that will tacilitate reduced first term non-expiration of Active Service attrition and increase combat readiness of the Fleet Marine Force.

II. Description of Operations Financed: The operations tinanced under this program package include: expenses incurred in developing a proticient military recruiting force, the salaries of civilian personnel associated with recruiting, the purchase and maintenance of minor property, repair and maintenance of real property, personnel support and administrative supplies, communications, travel, per diem, leasing of recruiting vehicles, recruiter out-of-pocket expenses, and applicant processing costs.

Program Package: Advertising

Budget Activity: 8 - Training, Medical, and Other General Personnel Activities

- 1. Narrative Description: To provide advertising support for procurement and career planning efforts while generating 405,000 qualified nonprior service leads and maintaining target group awareness of Marine Corps opportunities at the 48-53% level of response. Additionally, advertising encompasses goals to facilitate and encourage face-to-tace contact between the potential applicant and the procurement force. The Marine Corps advertising program is structured to utilize all conventional media in delivering Marine Corps impressions, with direct mail and magazines used primarily as lead generating media.
- II. Description of Operations Financed: Marine Corps recruitment advertising includes: support for all officer, enlisted, Marine-option NROTC, retention and market analysis programs. Purchased with these funds are media (magazines, broadcast, outdoor, etc.), ptoduction (creative, photography, art work), and market analysis included in the advertising campaign.

Program Package: Off-Duty Education

Budget Activity: 8 - Training, Medical, and Other General Personnel Activities

- I. Narrative Description: The Marine Corps offers its personnel the opportunity to enhance their career through education programs. This program package includes the Basic Skills Education Program (BSEP), an on-duty program, which is designed to remedy deficiencies in reading, mathematics and the language arts. Other levels of education included in this program package are high school completion and college-level undergraduate and graduate courses.
- II. Description of Operations Financed: Resources associated with this program package finance 100% of the total cost of the BSEP and off-duty high school courses. The other programs described above are included in a grouping called "Voluntary Off-Duty Education". In accordance with the General Provisions of the Appropriation Act, the Marine Corps pays up to 75% of the charges of educational institutions for tuition of expenses of off-duty training of military personnel except with regard to such charges of educational institutions for enlisted personnel in the pay grade of E-5 or higher with less than 14 years of service, for which payment of 90 percent may be made.

Program Package: Marine Corps Junior Reserve Officer Training Corps (MCJROTC)

Budget Activity: 8 - Training, Medical, and Other General Personnel Activities

- I. Narrative Description: The enactment of Public Law 88-647, and codification in Section 20131, Title 10, United States Code, authorized the Service Secretaries to commission Junior Reserve Officer Training Corps units at secondary schools that meet established criteria. Under the authority of the section, a maximum of 1,200 units were authorized. Subsequently, Public Law 94-361 authorized a maximum of 1,600 units. Accordingly, the Secretary of the Navy has authorized the Commandant of the Marine Corps to establish 75 Marine Corps JROTC units throughout the United States by FY 1984. The mission of these units is to develop informed citizens, strengthen character by the teaching of discipline, develop an understanding of the military responsibility of each citizen, and promote an appreciation of and motivation for careers in the military.
- II. Description of Operations Financed: The primary expense associated with this program package is for the pro-rata share of the costs for military instructors who are responsible for the day-to-day operation of the Marine Corps JROTC units. Referred members employed as instructors are entitled to receive their referred or retainer pay and an additional amount of not more than the difference between their refired pay and the active duty pay and allowance which they would receive if ordered to active duty. One-half of that additional amount is paid to the institution concerned from appropriated funds which are budgeted in this program package. Also it provides for annual orientation visits by these units to Marine Corps installations, of administrative supplies, test, training aids, etc.

Program Package: Other Personnel Support

Budget Activity: 8 - Training, Medical and Other General Support

- I. Narrative Description: This program package primarily provides operation and maintenance support for Marine prisoners contined at the Army Disciplinary Command, Fort Leavenworth, Kansas, and for support of the Marine Band located at the Marine Barracks, 8th and I Streets, Washington, D.C.
- II. Description of Operations Financed: This program package provides funds for the reimbursement to the United States Army for personnel support costs incurred related to the continement and administration of Marine Corps prisoners. Marine prisoners represent about 10 percent of the prisoner population and the Marine Corps reimburses the Army to its pro rata share of the operating costs which include civilian salaries, meals, supplies and equipment, health and comfort items, medical/dental costs, etc. It turther provides support for the "President's Own," the Marine Banu, to include such items as: travel, replacing and upgrading of musical instruments, recording equipment, supplies and materials and printing services.

Transients - Includes active duty military personnel in the following categories:

- In travel, proceed, leave enroute or temporary enroute status, while on Permanent Change of Station (PCS) orders between duty stations.

O&MMC

- Awaiting transportation or enroute change of orders.

	FY 1983	FY 1984 Current Estimate	FY 1985 President's Budget
utticer	529	680	668
Enlisted	4,788	6,645	6,751
Total	5,317	7,325	7,419

Personnel Holding

Account - Includes active duty military personnel who are dropped from the assigned strength of an operational or training unit and attached to a "holding" or detention activity for medical nonavailability, disciplinary nonavailability and pre-separation nonavailability.

Otticer	15	18	18
Enlisted	734	879	892
Total	749	897	910

Force Structure

Deviation - The end strength displayed in the transient entry and Training and Education Program Packages is abnormally high on 30 September because of greater-than-average PCS moves underway and the seasonal high number of personnel in a training status. As a result, the actual manning of the force stucture is normally below the authorized strength. This undermanning is reflected in force structure deviation entry.

Program Package: Base Operations

Budget Activity: 8 - Training, Medical, and Other General Personnel Activities

- I. Narrative Description: This program package supports the training base operations of Marine Corps Recruit Depot, Parris Island, South Carolina, Marine Corps Recruit Depot, San Diego, California, Marine Corps Development and Education Command, Quantico, Virginia and the base operations functions of Marine Barracks, 8th and I Streets, S.E., Washington, D.C. Base operations funding is generally for costs of a recurring nature. The funds provided a station commander must be managed so that installation requirements for operation and maintenance are met in the most economical and effective manner. The installation commander is afforded flexibility in administration within materiel allowances, personnel ceilings, and broad policies established by the Commandant of the Marine Corps. During Fiscal Year 1984, all operations are planned to provide only essential facilities required for recruit, specialized and professional training. Levels of supply are within allowances prescribed by the Commandant.
- II. <u>Description of Operations Financed</u>: The operations financed include, in the administrative services category, such functions as installation financial and military/civilian manpower management, automatic data processing and related systems support, printing and reproduction services and installation safety and legal services.

The specific services category finances organic supply operations in support of the installations, including shop stores and self-service outlets, audiovisual services, vehicular operation and maintenance, maintenance of material, and laundry and dry cleaning services.

The community support services category provides for support of living facilities, food services, recreation areas, special services programs and common use facilities.

The facility services category largely makes up the remainder of the functions provided by this program package. The category consists of the maintenance and repair, minor construction, utilities operations, and other engineering support necessary to operate and maintain the buildings and related structures (including warehouses and storage areas), railroad trackage, roadways, utility plants and distribution systems, and water and sewage treatment plants and distribution networks, and activity fire protection services.

~

Increase is required for personnel support equipment to

reduce the backlog of deficiencies of furniture and furnishings to outfit unaccompanied personnel quarters and office furniture for administrative offices. +610 Increase is required for maintenance of new terminal acquisitions in support of the Automated Recruit Management System (ARMS), and increased hardware maintenance costs for additional equipment to be installed at Marine Corps Central Design and Programming Activity, Quantico, Virginia; in support of new on-line financial management, supply, and manpower +586 management systems. Increase is required for organic minor property, including labor saving devices, equipment for religious programs, club management equipment, warehouse operations equipment and morale, welfare and recreation program equipment, due to the continued growth in unserviceability of items on-hand which are beyond economical repair. Increased funding will result in the commands' ability to meet mission essential requirements for processing the present administrative and operational workloads. +218 Increase provides for computer emplacement/site preparation in support of the implementation of the Department of Defense Transportation Operational Personal Property Standard System (TOPPS). The TOPPS System is an operational, multi-service system, which will standardize the DOD Personal Property Movement and Storage Program (PPMSP). +27

+2.239

O&MMC

170

Increase is required to support various service contracts, rental of office equipment, replacement of supplies and equipment, and occupational clothing.

Increase is required to perform a study to determine the scope of earthquake safety at affected Marine Corps Bases in accordance with the Earthquake Hazards Reduction Act, Public Law 95-124.

+50

Increase is required for the Breckenridge Dam Study at the Marine Corps Development and Education Command, Quantico, Virginia. The dam is currently in need of major upgrade and repair and has been classified as a high risk dam by the Army Corps of Engineers.

+300

Increased funding is necessary to augment base operations general engineering support functions such as insect and rodent control and procurement/replacement of breathing apparatus. Also includes funding for a feasibility study for conversion/ replacement of existing boilers, a feasibility study on alternate potable water sources, a feasibility study on water irrigation, a solar study for family housing and a water leakage survey to evaluate the condition of existing potable water distribution systems.

+184

On 1 January 1984 the Government contributions for the medicare tax will increase from 1.3 percent to 1.35 percent necessitating increased funding.

+20

Increase is required for one additional civilian personnel workday.

+191

Increased funding for minor construction is necessary to construct new facilities and alter/improve existing facilities. Requirements are the result of new missions, introduction of new weapons and equipment, changes in facility utilization, and modifications of older facilities to meet current standards.

#### b. Program Growth in FY 1985 9,698 Increase is due to the conversion of military personnel o civilian personnel or contractor support for Commercial Activities (CA) functions. Once a cost comparison has been completed on the conversion, the military personnel will be returned to the Fleet Marine Forces (FMF), and either in-house civilians or contractor personnel will be hired. +155 Increase provides for computer emplacement/site preparation in support of the implementation of the Department of Defense Transportation Operational Personal Property Standard System (TOPPS). The TOPPS system is an operational, multi-service system which will standardize the DOD Personal Property Movement and Storage Program (PPMSP). +17 Increase is required for one additional civilian personnel workday. +1 Increase in maintenance of real property funding. +141 Increase required for leasing new lines in support of word processing equipment acquisitions and relocating telecommunication equipment to support Headquarters, Marine Corps staff agency automated programs. +64 Increase required for relocation of telephones due to the on-going Marine Corps Finance Center renovation projects. +14

O&MMC

Increase required for additional telecommunications services due to the opening of the new Bachelor Enlisted Quarters (BEQ) at Headquarters Battalion, Henderson Hall, Arlington, Virginia.	+29
Increase required at Marine Corps Finance Center, Kansas City for increased maintenance cost of communications electronics equipment and costs of a Card Reader Unit (CRU).	+34
Increase required for system implementation and reimbursement to the Navy for timesharing costs for the Navy Civilian Personnel Data System (NCPDS).	+377
Increase required for supplies and equipment requirements to include purchase or rental of office machines, furniture and furnishings, and repair and maintenace services.	+299
Increase required to provide contractor support for post implementation review, system modification/enhancements, and program maintenance for the first year of operation for the Standard Accounting and Budgeting Reports System (SABRS).	+447
Increase required for programming and implementation of the Deployed Pay Subsystem to the Real Time Financial Management and Manpower Information System (REAL FAMMIS).	+88
Increase required for additional cost of maintenance and operation for additional terminals and printers to be installed at HQMC in support of new on-line automated information systems.	+119
and a made and a specific spec	*119

O&MMC 185

Increase required for increased maintenance, expendable supplies, and purchase of expansion equipment associated with the added areas of responsibility at the Marine Corps	
Finance Center.	+157
Increase of 36 civilian personnel billets for the Unit Level Circuit Switch Program.	+328
Increase required for 68 additional civilian personnel billets in FY 1985 for the continuation of the civilian/military conversion program at the Marine Corps Finance Center, Kansas City, Missouri.	+1,067
On 1 January 1984, the Government contributions for the medicare tax increased from 1.3 percent to 1.35 percent necessitating increased funding.	+17
Increase of 62 civilian billets required for a variety of functions to include financial management/system operations, safety programs, capacity management, communications management and systems analysis and testing functions for the Reserve Management Pay System (REMMPS).	+879
Increased funding in support of contractural effort for the Miniaturization/Automation of Personnel Records (MAPR) program.	+1,637
Increased funding is required to continue Automatic Data Processing (ADP) user requirements data, communications and equipment studies.	+804

O&MMC

Increase required for additional operating costs (equipment maintenance, supplies and software) associated with added equipment and increased operating tempo required to implement the Real Time Finance and Manpower Management Information System (REAL FAMMIS) and the Reserve Manpower Management and Pay System (REMMPS) at Marine Corps Central Design and Programming Activity (MCCDPA), Kansas City.

+193

Increase required for additional contract costs at Marine Corps Finance Center, Kansas City, Missouri for services provided by General Services Administration Department of Health and Human Services (GSA-DHHS) public health unit, to purchase equipment and supplies, for rental of a word processor for the Management Assistance Office, and for CMC authorized tuition in support of IBM Series I (multi-Terminals) and training.

+93

Increase required for service maintenance on a second laser printer at Marine Corps Finance Center, Kansas City, Missouri.

+53

Increase in civilian billets for continued installation and implementation support for the data Base Management System (DBMS) (2 billets) and the Real Time and Manpower Management Information System (REAL FAMMIS) (11 billets).

+167

Funding to support analysis and documentation of the cost and methodology required to convert all Marine Corps applications software written in non-standard languages to standard high level languages. Included are the costs of

O&MMC

required changes to operating systems software to achieve application software conversion. Analysis and documentation are required to ensure that the lowest total overall costs calculation for future equipment procurements is based on accurate software conversion data, as required by Federal Procurement Regulation 1-4.1109-13.

+299

Increase for contractor support is required for the Unit Level Circuit Switch.

+352

Increase required for installation support and maintenance of new terminals at New Orleans Fourth Division-Wing Team, Camp Leieune Second Marine Division and Fleet Marine Forces Europe (FMFEUR) for Marine Corps' participation in the World-Wide Military Command and Control System (WWMCCS).

+112

Increased funding red red for system design of the Marine Corps Air Ground Ta proce (MAGTF) Lift Model II designed to replace the curiet model. Specifically, these funds will provide for development of system specifications, program specifications, data base specifications and associated deliverables. The new model is required to respond to JCS requirements and the needs of the Marine Corps in determining accurate lift requirements and to provide an automated interface with the Worldwide Military Command and Control System (WWMCCS).

Program Package: Departmental Administration

Budget Activity: 9 - Administration and Associated Activities

- I. <u>Narrative Description</u>: The Commandant of the Marine Corps commands the Marine Corps and is directly responsible to the Secretary of the Navy for the administration, discipline, internal organization, training requirements, efficiency, and readiness of the Marine Corps; for the operation of its materiel support system and for the total performance of the Marine Corps. The departmental organization is primarily concerned with the development of long range plans, policies, programs, and requirements in all specific Marine Corps matters for which the Commandant is directly responsible to the Secretary of the Navy.
- II. Description of Operations Financed: The cost of operations financed by this program package includes civilian personnel salaries, expenses of travel for military and civilian personnel, provides for Marine Corps representatives to attend public functions as speakers and guests of honor; purchase, maintenance and rental of office equipment, and supplies.
- III. Financial Summary: (Dollars in Thousands)

  - b. Program Growth in FY 1985 1,934

Increase required for supplies and equipment requirements to include purchase or rental of officer machines, furniture and furnishings, and repair and maintenance services.

+67

Increase required for installation support and maintenance of new terminals at New Orleans (4th Division Wing Team), Camp Legeune (2nd Marine Division), and Fleet Marine Forces Europe (FMFEUR) for Marine Corps' participation in the World-Wide Military Command and Control System (WWMCCS).

+112

Increased funding required for system design of the Marine Corps Air Ground Task Force (MAGTF) Lift Model II designed to replace the current model. Specifically, these funds will provide for development of system specifications, program specifications and associated deliverables. The new model is required to respond to JCS requirements and the needs of the Marine Corps in determining accurate lift requirements and to provide an automated interface with the Worldwide Military Command and Control System (WWMCCS).

#### IV. Performance Criteria and Evaluation:

Headquarters Marine Corps - Departmental - Performs the following functions which are non-quantifiable:

Formulate strategic plans and policies, develop doctrine, training and education programs for present and future requirements.

Provide legislative assistance and policy guidance for the Commandant and his staff. Provide legal counsel to the Commandant and his staff on matters of military law, civil law and utilization of appropriated funds.

Develop Marine Corps uniform requirements.

Determine manpower requirements to include planning, budgeting, policies and programs, and personnel research.

Develop logistic policy and programs to include procurement and repair of all material assets.

Formulate contingency plans and review policy issues.

Formulate policies related to equipping, manning, organizing and supporting aviation units and installations.

Monitor and influence operational readiness of all commands and activities of the Marine Corps and develop policy relative to the employment of Marine Corps forces. Direct, coordinate and supervise activities in the fields of research, development, test, evaluation and studies.

Determine intelligence and cryptological requirements.

Program Package: Non-Departmental Administration (Staff Management Activity)

Budget Activity: 9 - Administration and Associated Activities

I. Narrative Description: Headquarters, U. S. Marine Corps Non-Departmental (Staff Management Activity) assists the Commandant of the Marine Corps in all specific Marine Corps matters for which he is directly responsible to the Secretary of the Navy. Specifically, the Functional Management Directorate is responsible to the Commandant for ensuring that policies and programs are executed efficiently and effectively on a Marine Corps-wide basis. Activities within this program package direct, coordinate, and supervise Marine Corps activities in the execution of policies and programs dealing with manpower, intelligence, logistics, aviation, financial management, telecommunications, data automation, reserve affairs, and operational readiness matters.

II. Description of Operations Financed: The cost of operations financed by this program package includes civilian personnel salaries, automatic data processing, printing and reproduction, expense of travel for military and civilian personnel, purchase, maintenance and rental of office equipment, and supplies.

Program Package: Other Administration

Budget Activity: 9 - Administration and Associated Activities

- I. Narrative Description: The primary activities included in this program package encompass the Marine Corps Personnel and Support Activity (MCPASA) and the Marine Corps Finance Center (MCFC). Functions performed by MCPASA primarily support the entire Marine Corps such as Marine Corps-wide personnel detailing, assignment, promotion, separation and retirement, performance reporting, recruiting, education and training, and record maintenance and services. The MCFC is structured to provide sustained disbursing services for all active duty, reserve, retired and survivor annuitants. Inherent in this service is the requisite automatic data processing functions associated with disbursing. Other activities included are Marine Corps History and Museums, Public Affairs, the Marine Security Guard Battalion (State Department), the military personnel assigned to Helicopter Squadron One located at Marine Corps Air Facility, Quantico, Virginia for operation and maintenance of helicopters for White House support.
- II. <u>Description of Operations Financed</u>: This program finances the administration of missions, functions, and worldwide operations of the Marine Corps. Cost of operations includes civilian personnel salaries, automatic data processing, printing and reproduction, expense of travel for military and civilian personnel, maintenance of office equipment, and supplies. Further, it provides for personnel type services on a Marine Corps-wide basis and miscellaneous support not provided elsewhere for items such as medals, ribbons and awards, international sports competition, library books, initial issue athletic/recreational equipment, miscellaneous temporary additional cuty, postal requirements, and beginning in FY 1984, reimbursement to the Department of Labor for employee compensation costs.

Program Package: Base Operations

Budget Activity: 9 - Administration and Associated Activities

- I. Narrative Description: This program package finances base operations type support of Headquarters Battalion, Headquarters, U.S. Marine Corps and air facility operations of the Marine Corps Development and Education Command, Quantico, Virignia, which provides for the administrative support of the military personnel assigned to Headquarters, U.S. Marine Corps and Helicopter Squadron One (White House support), respectively.
- II. <u>Description of Operations Financed</u>: The operations financed include, in the administrative services category, such functions as installation financial and military/civilian manpower management, printing and reproduction services and installation safety and legal services.

The specific services category finances organic supply operations in support of the installation, including vehicle operation and maintenance.

The community support services category provides for support of living facilities, food services, recreation areas, special services programs and common-use facilities.

The facility services category largely makes up the remainder of the functions provided by this program package. The category consists of the maintenance and repair, minor construction, utilities operations, and other engineering support necessary to operate and maintain the buildings and related structures and roadways.
