SECOND ANNUAL REPORT OF ACCOMPLISHMENTS

UNDER THE AIRPORT IMPROVEMENT PROGRAM

AUTHORIZED BY THE AIRPORT AND AIRWAY IMPROVEMENT ACT OF 1982

AS AMENDED BY THE CONTINUING APPROPRIATIONS ACT,

AND THE SURFACE TRANSPORTATION ASSISTANCE ACT

(PUBLIC LAW 97-248, ENACTED SEPTEMBER 3, 1982)

(PUBLIC LAW 97-276, ENACTED OCTOBER 2, 1982)

(PUBLIC LAW 97-424, ENACTED JANUARY 6, 1983)

FISCAL YEAR ENDING SEPTEMBER 30, 1983

A-1

DEPARTMENT OF TRANSPORTATION  
Federal Aviation Administration

THE SECRETARY OF TRANSPORTATION  
WASHINGTON, D.C. 20590

MAY 1 1984

The Honorable George Bush  
President of the Senate  
Washington, D. C. 20510

Dear Mr. President:

I am pleased to transmit to you the Second Annual Report of  
Accomplishments under the Airport Improvement Program as  
required by Section 521 of the Airport and Airway Improvement  
Act of 1982.

Sincerely,

  
Elizabeth H. Dole

Enclosure

THE SECRETARY OF TRANSPORTATION  
WASHINGTON, D.C. 20590

MAY 1 1984

The Honorable Thomas P. O'Neill, Jr.  
Speaker of the House of  
Representatives  
Washington, D. C. 20515

Dear Mr. Speaker:

I am pleased to transmit to you the Second Annual Report of  
Accomplishments under the Airport Improvement Program as  
required by Section 521 of the Airport and Airway Improvement  
Act of 1982.

Sincerely,

A handwritten signature in cursive script, reading "Elizabeth H. Dole", is written over the typed name. The signature is fluid and elegant, with a large initial "E".

Elizabeth H. Dole

Enclosure

SECOND ANNUAL REPORT OF ACCOMPLISHMENTS UNDER THE

AIRPORT IMPROVEMENT PROGRAM

Section 521 of the Airport and Airway Improvement Act of 1982 (Public Law 97-248) requires that the Secretary of Transportation submit an annual report to Congress describing the accomplishments of the airport grant program. This report covers activities for the fiscal year ending September 30, 1983.

BACKGROUND

To promote the development of a system of airports to meet the Nation's needs, the Federal Government embarked on a grants-in-aid program shortly after the end of World War II. This early program, the Federal-aid Airport Program (FAAP), was brought into existence with the passage of the Federal Airport Act of 1946 and drew its funding from the general fund of the treasury.

In 1970, a more comprehensive program was established with the passage of the Airport and Airway Development Act of 1970. The Act provided for airport planning under the Planning Grant Program (PGP) and for airport development under the Airport Development Aid Program (ADAP). These programs were funded from a new Airport and Airway Trust Fund, into which were deposited revenues from several aviation user taxes on such items as airline fares, air freight, and aviation gasoline. The Act, after several amendments and a one-year extension, expired on September 30, 1981.

The current grant program, known as the Airport Improvement Program (AIP), was created by the Airport and Airway Improvement Act of 1982 (Title V of the Tax Equity and Fiscal Responsibility Act of 1982, Public Law 97-248, September 3, 1982). It provides assistance under a single program for airport planning and development through funding from the Airport and Airway Trust Fund. The 1982 Act also authorizes funds for noise compatibility planning and to carry out noise compatibility programs as set forth in the Aviation Safety and Noise Abatement Act of 1979 (P.L. 96-193).

The Act, in addition, also requires the Secretary of Transportation to publish, by September 1984 and every two years thereafter, a report on the status of the new National Plan of Integrated Airport Systems (NPIAS). The NPIAS will emphasize system planning and development to meet current and future airport needs; it will include development considered necessary to provide a safe, efficient, and integrated airport system, meeting the needs of civil aviation, national defense, and the Postal Service. An airport must be included in this plan in order to be eligible to receive a grant under the AIP.

The Airport and Airway Improvement Act has been amended twice. The Continuing Appropriations Act (Public Law 97-276, October 2, 1982) added a section providing authority to issue discretionary grants in lieu of unused apportioned funds under certain circumstances, and the Surface Transportation Assistance Act (Public Law 97-424, January 6, 1983) increased the annual authorizations for the AIP for fiscal years 1983-1985.

#### POLICY

In formulating the Airport and Airway Improvement Act, the Congress included a "Declaration of Policy" section which states that:

- The safe operation of the airport and airway system will continue to be the highest aviation priority;
- The continuation of airport and airway improvement programs and more effective management and utilization of the Nation's airports are required to meet the current and projected growth of aviation and the requirements of interstate commerce, the Postal Service and the national defense;
- The Act should be administered in a manner to provide adequate navigation aids and airport facilities, including reliever airports and reliever heliports, for points where scheduled commercial air service is provided;
- The Act should be administered in a manner consistent with a comprehensive airspace system plan to maximize the use of safety facilities, with highest priority for commercial service airports, including but not limited to, the goal of installing, operating, and maintaining, to the extent possible under available funds and given other safety needs, a precision approach system and a full approach light system for each primary runway, grooving, or friction treatment of all primary and secondary runways, a nonprecision instrument approach for all secondary runways, runway end identifier lights on all runways that do not have an approach light system, electronic or visual vertical guidance on all runways, runway edge lighting and marking, and radar approach coverage for all airport terminal areas; (Note: The Facilities and Equipment Appropriation provides funding for items meeting published establishment criteria that are not included in airport development grants.)
- The Act should be administered in a manner consistent with the Federal Aviation Act of 1958 with due regard for the goals expressed therein of fostering competition, preventing unfair competition in air transportation, maintaining essential air transportation and preventing unjust and discriminatory practices;
- Special emphasis should be given to reliever airports and their development;

- Aviation facilities should be constructed and operated with due regard to minimizing current and projected noise impacts on nearby communities;
- The Federal administrative requirements placed upon airport sponsors can be reduced and simplified through the use of a single project application to cover all airport improvement projects to be undertaken in a particular year; and
- It is in the national interest to develop in metropolitan areas an integrated system of airports designed to provide expeditious access and maximum safety.

#### THE AIRPORT IMPROVEMENT PROGRAM

The Airport and Airway Improvement Act of 1982 authorizes the Secretary of Transportation to make grants for airport planning and development under the Airport Improvement Program (AIP).

#### Annual Authorization

Authorization levels for the program are as follows:

\$ 450,000,000	for fiscal year 1982
\$ 800,000,000	for fiscal year 1983 *
\$ 993,500,000	for fiscal year 1984 *
\$ 987,000,000	for fiscal year 1985 *
\$1,017,000,000	for fiscal year 1986
\$1,017,200,000	for fiscal year 1987

\* The annual authorizations include \$200 million for each of the fiscal years 1983 and 1984 and \$75 million for FY 1985 as authorized in the Surface Transportation Assistance Act of 1982 (Public Law 97-424, January 6, 1983).

#### Airport Categories

The airport funding categories consist of Commercial Service, Primary, Reliever and General Aviation Airports.

A commercial<sup>1</sup> service airport is a public airport which enplanes 2,500 or more passengers annually and receives scheduled passenger service.

A primary airport is a commercial service airport which enplanes .01 percent or more of the total number of passengers enplaned annually at all airports. For the fiscal year 1983 program, .01 percent was equal to 29,284 passengers.

A reliever airport is one that has the function of relieving congestion at a commercial service airport and providing more general aviation access to the overall community.

General aviation airports, although not specifically defined in the 1982 Act, comprise the largest single group of airports in the U.S. airport system; these are the airports that remain after exclusion of the commercial service and primary airport categories.

The definition of airports as any area of land or sea used for landing and takeoff of aircraft allows inclusion, within the above four categories of airports, of special types of facilities such as seaplane bases or heliports.

#### Distribution of Funds

Not more than 50 percent of the annual authorization may be provided to primary airports. These funds are apportioned for use by each airport sponsor based on the following formula:

\$6.00 for each of the first 50,000 enplaned passengers  
\$4.00 for each of the next 50,000 enplaned passengers  
\$2.00 for each of the next 400,000 enplaned passengers  
\$.50 for each passenger in excess of 500,000 enplaned passengers

Additionally, the apportionment for each primary airport is to be increased as follows for fiscal years 1984-1987:

1984	-	10%
1985	-	20%
1986	-	25%
1987	-	30%

Except for cases where appropriations actions may require adjustments, no primary airport receives less than \$200,000 nor more than \$12,500,000 per year. This money remains available for the sponsor's use for the fiscal year in which it is authorized and the two fiscal years immediately following.

A total of 12 percent of the annual authorization is for use within the States and Insular Areas. The 50 states, the District of Columbia and Puerto Rico qualify for 99 percent of the 12% annual authorization for general aviation airport projects, while in the insular areas (Guam, American Samoa, the Government of the Northern Mariana Islands, the Trust Territory of the Pacific Islands, and the Virgin Islands), all airports other than primary airports qualify for 1 percent of the 12 percent. Funds apportioned to the States and Insular Areas remain available for the fiscal year in which authorized and the two fiscal years immediately following.

Additionally, Alaskan airports receive at least as much money as they were apportioned in fiscal year 1980 under the previous legislation. This amounted to \$12.5 million additional for Alaskan airports in fiscal year 1983.

The remaining funds are defined as discretionary, but a sizable portion of these must be used to achieve specified funding minimums. A minimum of 10 percent of all funds is for reliever airports, 5.5 percent is for non-primary commercial service airports, 8 percent is reserved for planning and implementing noise compatibility programs under the Aviation Safety and Noise Abatement Act of 1979, and 1 percent is for the preparation of integrated airport system plans.

#### Rate of Participation

Federal participation at all except the busiest commercial service airports is 90 percent of the total project cost. Primary airports whose total annual enplanements are 0.25 percent or more of the total number of passengers enplaned annually at all commercial service airports (737,350 or more enplanements in FY 1983) receive Federal participation at a rate of 75 percent. There are upward adjustments in states containing high percentages of public lands. Grants for Integrated Airport System Planning are funded at a 90 percent level. Development and land acquisition conducted in accordance with the Aviation Safety and Noise Abatement Act is funded at an 80 percent level. For eligible areas of terminal buildings at commercial service airports, the Federal share may not exceed 50 percent.

#### Environmental Considerations

The Federal Aviation Administration (FAA) considers and weighs environmental factors in evaluating proposed Federal actions relating to airports. FAA Airports Program procedures identify types of actions which require an environmental assessment and consultation process. This process provides the FAA, other agencies, and members of the public with an understanding of the potential environmental impacts of a proposed action. Section 102(2)(C) of the National Environmental Policy Act of 1969 (NEPA) requires an environmental impact statement when an action would produce a significant impact on the environment; otherwise, a finding of no significant impact is prepared. Other laws have particular requirements relative to specialized concerns such as air quality, water quality, public recreational lands, historic and archeological sites, endangered species, coastal zones, wetlands, and floodplains.

Initial review of proposed Federal airport actions identifies the extent of environmental study and coordination required. If an action is not in a category requiring environmental assessment and does not have the potential, either individually or through cumulative effects, of significantly affecting the environment, it is categorically excluded from environmental processing. As experience has been gained in the environmental field, FAA procedures have categorically excluded more and more projects from environmental processing. In fiscal year 1982, FAA's releases of airport property for other uses were added to the categorical exclusion list.

### Civil Rights Requirements

Provision of assistance under the Airport and Airway Improvement Act of 1982 requires an airport sponsor to satisfy certain civil rights requirements. During Fiscal year 1983, FAA Regional Airport Divisions conducted 1148 compliance inspections under Title VI of the Civil Rights Act of 1964. Regional Civil Rights Staffs also reviewed 22 airport facilities and completed 14 desk audits of applications for assistance. All reviews found the sponsors in compliance or resulted in voluntary compliance.

Civil Rights Staffs approved 508 Minority Business Enterprise (MBE) programs and annual updates required by regulations of the Office of the Secretary of Transportation (OST) 49 CFR Part 23. Eighty-eight reviews were made of sponsors following program approval, 26 of which were on-site. One hundred ninety-nine notices of noncompliance were issued for deficient programs or for failure to carry out the terms of an approved program. Compliance by voluntary means was achieved in all but one case, which is under negotiation. An FAA investigation resulted in the decertification as an MBE of a firm which participated on several Department of Transportation projects.

Seven complaints were filed under the MBE regulation, 2 were filed under Section 504 of the Rehabilitation Act of 1973, 3 were filed under Title VI, and 4 under the Section 30 regulation. (Section 30 refers to a section of the Airport and Airway Development Act, which has been retained in its entirety as Section 520 of the Airport and Airway Improvement Act.) In no case did the OST issue a finding of discrimination to an airport sponsor. One case of apparent noncompliance with the MBE regulation is under review within the Department.

### Fiscal Year 1983 Planning and Development Activity

The airport grant obligation limitation established in the Fiscal Year 1983 Department of Transportation and Related Agencies Appropriations Act was \$600 million. Also available was a balance of \$54.5 million of unrequested sponsor and state apportioned funds carried over from Fiscal Year 1982 and \$150 million added under Emergency Jobs Bill legislation bringing the total available funds for grants to \$804.5 million. Funds recovered from adjustments to prior year projects were also available.

In FY 1983 obligations amounted to \$805.8 million of which \$736 million was for 1,082 new grant agreements; \$11.0 million for increases in existing grant agreements; and \$58.8 million for multi-year grant amendments. This was an all time high for Federal aid to airports in terms of numbers of grants issued and dollars obligated.

The new grants included 326 for a total of \$394,957,200 for primary airports, 159 for \$81,845,343 for other commercial service airports, 138 for \$100,193,353 for reliever airports, 421 for \$155,227,713 for general aviation airports, and 38 for \$3,772,714 for integrated airport system planning. Included in these grants by airport categories are grants totalling \$5,025,932 to conduct master plan studies at 92 locations.

A total of \$59,567,637 for 46 grants was issued for projects to achieve noise compatibility. Of this total, 23 grants for \$53,651,049 were for the purchase of noise impacted land adjacent to airports; 14 grants totalling \$1,393,588 were for studies to evaluate and develop noise compatibility programs, 6 grants totalling \$3,433,000 were for soundproofing of residences and schools, and 3 other projects totalling \$1,150,000 were for other efforts to reduce noise.

This was the first year that private airport owners received funds for airport planning and development. A total of \$1,711,709 was obligated for 3 grants which include 2 grants totalling \$69,374 for airport master planning and 1 grant for \$1,642,335 for development.

Charts on the following pages show the FY 1983 and prior years authorizations and appropriations limitations. Listings of FY 1983 funding by state and location are shown in Tables I and II, respectively. Computer generated work descriptions are used in Table II. A complete listing of these descriptions is provided at the end of the table.

CHART I

LEGISLATIVE DISTRIBUTION OF AIRPORT IMPROVEMENT PROGRAM

\$750 MILLION FISCAL YEAR 1983 APPROPRIATION LIMITATION

	<u>FY 1983 Appropriation Limitation</u> (Dollars in Millions)		
	<u>Basic AIP</u> <u>Program</u>	<u>Jobs Bill</u>	<u>Total</u>
<u>TOTAL APPROPRIATION LIMITATION</u>	600.0	150.0	750.0
<u>Primary Airports</u> Apportionment (maximum of 50% of Basic)	300.0	-	300.0
<u>General Aviation Airports</u> (State Area/Population Formula) (12% of Basic)	72.0	-	72.0
<u>Reliever Airports</u> (Minimum of 10% of Basic)	60.0	-	60.0
<u>Non Primary Commercial Service</u> (Minimum of 5.5% of Basic)	33.0	-	33.0
<u>Noise Compatibility Projects</u> (Minimum of 8% of Basic)	48.0	-	48.0
<u>Integrated Airport System Planning</u> (Minimum of 1% of Basic)	6.0	-	6.0
<u>Alaskan Airports Provision</u>	12.5	-	12.5
<u>States Based on Unemployment</u> Apportioned to States Based on Number of Individuals Unemployed (33 1/3% of Jobs Funds)		50.0	50.0
<u>Long-Term Unemployment</u> Apportioned to 23 States Based on Number of long-term unemployed (16 2/3% of Jobs Funds)		25.0	25.0
<u>Discretionary Funds</u> Balance of Basic and Jobs Funds	68.5	75.0	143.5

CHART II

AIRPORT IMPROVEMENT PROGRAM

AUTHORIZED BY THE AIRPORT AND AIRWAY IMPROVEMENT ACT OF 1982, AS AMENDED  
GRANT FUNDING AUTHORIZATIONS, APPROPRIATION LIMITATIONS, AND OBLIGATIONS

(Dollars in millions)

<u>FISCAL YEAR</u>	<u>AUTHORIZATIONS</u>	<u>APPROPRIATIONS ACT OBLIGATION LIMITATION</u>	<u>GROSS <sup>1/</sup> OBLIGATIONS</u>	<u>NUMBER OF NEW PROJECTS</u>
1982	\$ 450.0	\$450.0	\$412.5 <sup>2/</sup>	651 <sup>2/</sup>
1983	\$ 800.0 <sup>3/</sup>	\$804.5 <sup>4/</sup>	\$805.8 <sup>5/</sup>	1082
1984	\$ 993.5 <sup>3/</sup>			
1985	\$ 987.0 <sup>3/</sup>			
1986	\$1017.0			
1987	\$1017.2			

- <sup>1/</sup> Gross obligations include current year funds plus reobligations of funds recovered from adjustments to prior year projects.
- <sup>2/</sup> Includes Airport Development Aid Program (ADAP) entitlements that were authorized to be continued under the Airport Improvement Program (AIP). FY 1982 data do not include a FY 1982 ADAP grant to Reno, Nevada (Cannon International), for \$5.1 million funded with FY 1982 monies authorized prior to approval of the AIP.
- <sup>3/</sup> Shows increases of \$200 million each in FY 1983 and 1984 and \$75 million in FY 1985 authorized by the Surface Transportation Assistance Act of 1982 (STAA) (Public Law 97-424).
- <sup>4/</sup> Includes the basic authorization of \$600 million and \$150 million of the \$200 million authorized by the STAA and appropriated under the Emergency Jobs Bill (Public Law 98-8), and \$54.5 million of unrequested entitlements carried over from prior years.
- <sup>5/</sup> Includes \$736 million for new grant agreements, \$11.0 million for increases to existing agreements, and \$58.8 million for amendments to multi-year grants.

Work descriptions in Table II are limited to those listed below. Additional details, if needed, may be obtained from project data at FAA field offices.

WORK DESCRIPTIONS

APRONS

Apron Construction  
Apron Improvements  
Apron Expansion  
Miscellaneous Apron Improvements

BUILDINGS

Building Construction  
Building Improvements  
Miscellaneous Building Improvements

LAND

Land for Development  
Land for Approaches  
Land for Noise Control  
Relocation Assistance  
Relocation Assistance for Noise  
Compatibility  
Miscellaneous Airport Land

LIGHTING

High Intensity Runway Lighting  
Medium Intensity Runway Lighting  
Runway Centerline Lighting  
Rehabilitate Runway Lighting  
Rehabilitate Taxiway Lighting  
Lighting for Noise Compatibility  
Miscellaneous Lighting Improvements

MISCELLANEOUS

Miscellaneous Airport Improvements

NAVAIDS

Instrument Approach Aid  
Partial Instrument Approach Aid  
Visual Approach Aid  
NAVAIDS for Noise Compatibility  
Miscellaneous NAVAIDS Improvements

OTHER NOISE COMPATIBILITY

Noise Barrier  
Landscaping to Reduce Noise  
Noise Suppressing Equipment  
Soundproofing  
Miscellaneous Noise Control Measures

PLANNING

Master Planning  
State System Planning  
Metropolitan System Planning  
Regional System Planning  
Noise Compatibility Planning  
Miscellaneous Planning

ROADWAYS

Access Way Construction  
Access Way Improvements  
Service Road Construction  
Service Road Improvements  
Miscellaneous Roadway Improvements

RUNWAYS

Runway Construction  
Runway Improvements  
Runway Extension  
Runway Grooving  
Runway Friction Treatment  
Runway Seal Coat  
Runway Development for Noise  
Compatibility  
Miscellaneous Runway Improvements

SAFETY

Crash/Fire/Rescue Vehicle  
Safety Related Building  
Mitigate Obstructions  
Miscellaneous Safety Improvements

SECURITY

Security Improvements

TAXIWAYS

Taxiway Construction  
Taxiway Improvements  
Taxiway Extension  
Taxiway Development for Noise  
Compatibility  
Miscellaneous Taxiway Improvements

TERMINAL DEVELOPMENT

Terminal Building Construction  
Terminal Building Improvements  
Terminal Building Expansion  
Terminal Building Bond Retirement  
Miscellaneous Terminal Building  
Improvements

WEATHER EQUIPMENT
