SUBCONTRACTING PROGRAM

4TH QUARTER FISCAL YEAR 1979
(JULY - SEPTEMBER 1979)

This report presents a summary of the information submitted by Defense contractors required to assume an affirmative obligation and submit reports with respect to subcontracting with small business and disadvantaged business in accordance with Defense Acquisition Regulation (DAR) clause 7-104.45. Submission of data is accomplished quarterly on DD Form 1140-1 as directed by the instructions contained therein. An average of 650 companies report each quarter.

The report is divided into four sections; one each for the Army, Navy, Air Force and the Defense Logistics Agency. In turn, each section displays the Company name and location and data for four time periods. These periods show a comparison between the current quarter and the comparable quarter of the previous fiscal year and between the current year-to-date and the prior year-to-date. A summary by services for various categories is featured at the back of the publication. The basis for separating companies into one of the four sections noted above is determined by the Service/Agency having responsibility for contract administration. Information is received both on a company-wide basis and by different divisions or plants, depending upon how a company chooses to report.

The codes appearing in the report are explained on the following page.
