PREFACE

This list was compiled in the Special Projects Branch, Technical Information Center, U. S. Army Engineer Waterways Experiment Station (WES), as a convenient reference tool for Technical Information Center personnel and Library users.

The list was compiled by Paul A. Taccarino and Alfrieda S. Clark. Copy preparation support was provided by Gloria J. Naylor and Bettie B. Ransome.

Mr. Al Sherlock was Chief of the Technical Information Center during the compilation and publication of this list. COL Allen F. Grum, USA, was Director of WES, and Dr. Robert W. Whalin was Technical Director.

EXPLANATORY NOTES

The bibliographic information comprising this periodicals holdings list is presented alphabetically in three columns. The first column consists of titles and frequencies of issue; the second column gives holdings information; and the third column lists the library call numbers.

The title entered is the complete title, e.g.,

AMERICAN ASSOCIATION OF PETROLEUM GEOLOGISTS. BULLETIN.; not AAPG BULLETIN.

In cases in which a journal is often referred to by an abbreviation, a "see" reference to the full title is used, e.g.,

AAPG BULLETIN. See AMERICAN ASSOCIATION OF PETROLEUM GEOLOGISTS. BULLETIN.

When a journal has undergone a title change it is noted in the entry, e.g.,

APPLIED ECOLOGY ABSTRACTS. Currently called ECOLOGY ABSTRACTS.
ECOLOGY ABSTRACTS. Formerly called APPLIED ECOLOGY ABSTRACTS.

Frequency of issue is given in parentheses at the end of each title as follows: A = annually; B = bimonthly; BA = biennially; BW = biweekly; fortn = fortnightly; I = irregularly; M = monthly; Q = quarterly; S = semiannually; SA = semiannually; and W = weekly, e.g.,

ACOUSTICAL SOCIETY OF AMERICA. JOURNAL. (M)

WES periodicals holdings are indicated by volume numbers and dates, e.g.,

NEW ZEALAND ENGINEERING. (M) v.1, 1946-

For a title that is currently being taken and has inclusive holdings, only the first volume taken and the date (year only) of the publication are given, e.g.,

OCEANS. (B) v.1, 1969-

For a title that is no longer published or no longer taken, the beginning and ending volumes as well as the beginning and ending dates of publication are included, e.g.,

PEDOLOGIE. (3/yr) v.1, 1951-v.23, 1973.

Additional holdings information is expressed by the following symbols:

- v A v indicates volume number.
 - A dash between volumes indicates inclusive or complete holdings, or continuing receipt of the periodical.
 - * An asterisk preceding holdings indicates incomplete holdings.
 - , A comma separates dates from volumes.
 - ; A semicolon separates volumes and indicates incomplete volumes, lacking volumes, or change in form (hard copy or microform).
- Microform holdings are indicated: MC = microcard, MF = microfilm, MFC = microfilm cartridge, and MFI = microfiche.

The call number of periodical is a unique number used to represent the subject area of a journal. The Library of Congress system of classification for call numbers is used in the WES Library. The call number for each title is included as part of the entry, e.g.,

CEMENT AND CONCRETE RESEARCH. (B) v.1, 1971- TA434.C385
