COMMENT OR RECOMMENDED CHANGE:

Change category "CMOS Management" to "CMOS General". Description items, such as "Presentation Materials, Generic, Draft, not for release" and "Quarterly Data Accession List" do not appear to fit the intent of this category.

RATIONALE:

Provide the Development Contractor with the latitude of placing non-managerial and non-increment-specific items in a less restrictive and more all-encompassing category.

COMMENT OR RECOMMENDED CHANGE:

A number of line items have omissions of information. Based on preceding and succeeding entries, appears this data should be available.

RATIONALE:

Provide a more complete product for potential users. If omissions (blanks) are necessary, so state in an introduction or an appropriate key for the user.

COMMENT OR RECOMMENDED CHANGE:

Line items dated on or after 6 Oct do not have entries in the "Rights" column.

RATIONALE:

Types of information on or after this date indicate a need for these entries. Additionally, the DID requires a "Rights" classification for each line item.

COMMENT OR RECOMMENDED CHANGE:

Listing of working copies in the "Description" column is redundant and need not be mentioned in this document.

RATIONALE:

A working copy is normally less complete, less meaningful, and, thereby, of lesser value to a reviewing official. Completed product is a more appropriate means of satisfying DID requirements.
