PREFACE

COMMUNICATIVE SKILLS: A SELECTED BIBLIOGRAPHY, now in its fourth edition, includes notable publications that were added to the US Army War College Library collection since the third edition was published in June 1989, as well as most of the citations from the previous editions.

Like the original bibliographies, this version is presented as an invitation for you to enjoy the wealth of materials readily available in our library that will help you improve your communicative skills. It includes references for books, periodical articles, video and sound recordings--not about communication in general--but for readings that will specifically aid you in learning to effectively express your ideas.

The bibliography is subdivided into nine communicative skills so that you can concentrate on the area you would most like to strengthen. However, we urge you to take full advantage of the entire bibliography since many of the readings will be valuable in developing more than one skill.

For your convenience, we have added AWC library call numbers at the end of each book entry (keep in mind that call numbers will vary from library to library).

For additional information, please contact the Public Services Branch, US Army War College Library, at AV 242-3660 or Commercial (717) 245-3660.
