SECTION 2

INTRODUCTORY STATEMENT

The Military Personnel Appropriation, Air Force, provides financial resources to compensate active military personnel required to support the approved force structure. The Appropriation also includes funds for retired pay accrual, unemployment compensation and social security benefits for widows and orphans of military personnel. These entitlements were approved by Congress and enacted via Public Law.

The tables in Sections 1 through 5 contain budget data for Pay and Allowances of Officers, Enlisted and Cadets, Subsistence of Enlisted Personnel, Permanent Change of Station Travel, and Other requirements of the military personnel program. Retired pay accrual is reflected in pay and allowances of Officers and Enlisted personnel as appropriate. Unemployment compensation and social security benefits are under Other Military Personnel costs. The budget activity structure and detailed justification demonstrate how the military personnel program is managed and controlled. It displays the inventory of officers, enlisted personnel and cadets and shows the associated workyears. This management overview encompasses a wide range of personnel actions that involve requirements dealing with grade structure, promotions, gains and losses, flight status, basic allowance for subsistence, permanent change of station travel and other related personnel issues and requirements.

Given fewer resources, we continue to maintain an adequate end strength to fulfill national security objectives. The Air Force absorbed a reduction of 21,800 in programmed military end strength from 508,600 to 486,800 between the FY 91 and the FY 1992 column of the FY 1992/1993 President's Budget. While most of the reduction is attributable to force structure draw down, Congressionally approved base closures, fewer support organizations, and management improvements, we continue to bring our military end strength to its lowest level in more than 40 years. These reductions reflect force structure and program changes as well as Defense Management Report initiatives, consolidating DoD Accounting and Finance Operations, ADP and Design Center Operations, Numbered Air Force Headquarters, and other activities.

Further end strength cuts mandate continuing FY 1991's voluntary reductions and restrictive personnel policies into FY 1992. These measures include constraints on officer and enlisted accessions at historically low levels, lower high-year tenure policies for many enlisted grades, tightened reenlistment controls for first-term airmen, continuing the officer early-out program, and waiving some time-in-grade and time-in-commissioned service requirements for officer retirements. Further reductions will compel us to make broad, nonprogrammatic cuts using Selective Early Retirement Boards and date of separation rollbacks.

FISCAL YEAR 1990

The Fiscal Year 1990 column, FY 1992/1993 President's Budget, reflects the total Congressional appropriation of \$20,047 (with an end strength of 539,262 with related workyears of 552,356).

FISCAL YEAR 1991

The Fiscal Year 1991 column, Fiscal Year 1992/1993 Budget, reflects the following actions.

- (a) **Fiscal Year 1991 End Strength and Associated Workyears.** The current FY 1991 position reflects an end strength of 508,558 and 525,174 workyears. Congress authorized end strength of 510,000, of which not more than 95,027 may be Officers. In order to avoid involuntary separation of 1,633 officers, the Air Force requested and was granted end strength waiver authority by DEPSE/DEF on March 8, 1991. FY 91 officer end strength is expected to be 96,660.
- (b) **Fiscal Year 1991 Funding Level.** The FY 1991 funding request is \$20,015 million. Reimbursements for FY 1991 are estimated to be \$181.3 million. Fiscal Year 1991 also includes a reprogramming request for \$228.9 million which will be submitted by OSD.
- (c) **Retired Pay Accrual.** The normal cost percentage for FY 1991 is 43.3 percent of basic pay.
- (d) **Pay Raise.** The current FY 1991 estimate reflects the impact of the 1 January 1991 4.1% pay raise of \$529.8 million with the annualization of the FY 1990 3.6% pay raise.
- (e) **Inflation.** The economic assumption for inflation between FY 1990 and FY 1991 is 4.4%.
- (f) **Subsistence-In-Kind.** Subsistence-In-Kind items for active military personnel have been transferred from Military Personnel to Operations and Maintenance. This impacts both direct and reimbursable funding.

- (g) **Variable Housing Allowance.** The Variable Housing Allowances (VHA) reflect full funding of these requirements with a VHA rate increase of 7.2%
- (h) **Additional Separation Pay.** New legislation authorizes separation pay for the enlisted force and removes the \$30,000 officer ceiling.

FISCAL YEAR 1992

The Fiscal Year 1992 column, FY 1992/1993 President's Budget reflects the following actions:

- (a) **Fiscal Year 1992 End Strength and Associated Workyears.** The FY 1992 end strength is 486,800 with 500,762 workyears.
- (b) **Fiscal Year 1992 Funding Level.** The FY 1992 funding level is \$18,906 million. Reimbursements for FY 1992 are \$1,213 million. A significant increase in reimbursements is caused by Stock Fund and Industrial Fund personnel now being funded on a reimbursable basis.
- (c) **Retired Pay Accrual.** The normal cost percentage is 42.7% of basic pay.
- (d) **Pay Raise.** The projected FY 1992 pay raise is 4.2% of \$246.8 million with the annualization of the FY 1991 4.1 percent pay raise.
- (e) **Inflation.** The economic assumption for inflation for FY 1992 is 4.1%.
- (f) **Variable Housing Allowance.** The FY 1992 Variable Housing Allowance is estimated to be a 4.1% increase.
- (g) **Defense Management Report.** The Defense Management Report initiatives reflect a direct reduction of \$45,504, with a \$24,900 increase in Reimbursements net reduction of \$10,604 in Total Obligation Authority. The end strength reduction for these DMR initiatives is 357. In FY 1992, the Air Force submitted Defense Management Report Decisions which reduced end strength by 4,346 and \$122.0 million.

FISCAL YEAR 1993

The Fiscal Year 1993 column, FY 1992/1993 President's Budget, reflects the following actions:

- (a) **Fiscal Year 1993 End Strength and Associated Workyears.** The FY 1993 end strength is projected to be 498,100 with workyears of 474,994.
- (b) **Fiscal Year 1993 Funding Level.** The FY 1993 request is \$18,739 million. Reimbursements are estimated to be \$1,255 million, reflecting the transfer of Stock Fund and Industrial Fund personnel to a reimbursable basis.
- (c) **Retired Pay Accrual.** The normal cost percentage for FY 1993 is 42.2% of basic pay.
- (d) **Pay Raise.** The FY 1993 pay raise is projected to be 4.7% of \$602.1 million with the annualization of the FY 1992 4.2% pay raise.
- (e) **Inflation.** The economic assumption for inflation between FY 1992 and FY 1993 is 3.7%.
- (f) **Variable Housing Allowance.** The Variable Housing Allowance is the same as estimated inflation rates for FY 1993, which is 3.7 percent.
- (g) **Defense Management Report.** The Defense Management Report initiatives reflect a savings of \$80,534 in Direct funding, an increase of \$61,600 in reimbursables, with a net reduction of \$18,934 in total obligation authority. The end strength reduction of 385 reflects these DMR initiative savings. In FY 1993, the Air Force Defense Management Report Decisions reduced end strength by 5,331 and \$195.9 million.

¹ May Not Add Due to Rounding

² Reserve/Guard in Support of Desert Shield Included in Aug 90/Sep 90 End Strength

³ Actuals through December

⁴ FY 91 National Defense Authorization Act set the Air Force officer strength ceiling at 95,027 as reflected above. Air Force requested waiver authority to exceed the ceiling by 1,633 to a void involuntary separations. Waiver was approved by DEPSECDEF March 8, 1991. Air Force officer and enlisted end strength (excluding DESERT SHIELD/STORM carryover) are expected to be 96,660 and 407,564 respectively.

FY 1993		

PROJECT: Basic Pay Officers

PART I - PURPOSE AND SCOPE

Funds provide basic compensation for officers on active duty according to grade and length of service under provisions of 37 U.S.C. 201, 203 and 205.

PART II - JUSTIFICATION OF FUNDS REQUESTED

The officer program reflects significant end strength decreases from FY 90 to FY 93 based on Congressional reductions in FY 91, Defense Management Review and force structure changes. The FY 1990 program of 102,216 workyears is based on a beginning strength of 103,697 and an end strength of 100,045. The FY 1991 program of 98,894 workyears is based on a beginning strength of 100,045 and ending strength of 96,660. The FY 1992 program of 95,318 workyears is based on a beginning strength of 96,660 and end strength of 92,020. The FY 1993 program of 89,266 workyears is based on a beginning strength of 92,020 and end strength of 86,594. Costs are determined on the basis of grade distribution and projected longevity. The average rates used are derived from the latest longevity experience adjusted by planned gains and losses for each respective year.

The magnitude of the FY 92 reduction cannot be accomplished without RIF. The accession program has been cut to the minimum acceptable level. In addition, we have programmed another SERB in FY 92, selecting the maximum allowable number of officers (30% per grade/competitive category).

The FY 93 program shows the first impact due to the officer-enlisted ratio. As in FY 92, SERB and RIF are programmed. It should be noted that the large number of involuntary losses driven by the ratio significantly increases severance pay requirements. Basing end strength targets on an arbitrary ratio will increase officer undermanning in the field until force structure changes are identified.

PROJECT: Retired Pay Accrual - Officers

FY 1990	Actual	\$1,516,116
FY 1991	Estimate	1,512,876
FY 1992	Estimate	1,507,037
FY 1993	Estimate	\$1,476,639

PART I - PURPOSE AND SCOPE

Funds provide for the Department of Defense's contribution to its Military Retirement Fund, in accordance with P.L. 98-94, Section 925(a)(1), Title 10 USC, as amended.

PART II - JUSTIFICATION OF FUNDS REQUESTED

The budgetary estimates are derived as a product of:

(a) An accrual percentage of 43.9% for FY 1990, and 43.3% for FY 1991, 42.7% and 42.2% for FY 1992 and FY 1993 respectively.

(b) The total amount of basic pay expected to be paid during the fiscal year to officer members of the armed forces.

The computation of fund requirements is shown in the following table:

FY 1990 Actual		FY 1991 Estimate		FY 1992 Estimate		FY 1993 Estimate	
Workyear	Average Rate	Workyear	Average Rate	Workyear	Average Rate	Workyear	Average Rate

	\$1,516,116	\$1,512,876	\$1,507,037				\$1,476,639

(In Thousands of Dollars)

FY 1990	Actual	\$236,394
FY 1991	Estimate	261,984
FY 1992	Estimate	246,388
FY 1993	Estimate	\$243,368

PROJECT: Incentive Pay for Hazardous Duty

PART I - PURPOSE AND SCOPE

The purpose of Incentive Pay for Hazardous Duty is to help the Air Force attract and retain officer volunteers in duties requiring more than normal exposure to hazardous duties in peacetime.

Funds provide payment to officers under provisions of 37 U.S.C. 301 as follows:

- (1) **Aviation Career Incentive Pay (ACIP)** - Paid to regular and reserve officers who hold, or are in training leading to an aeronautical rating or designation, and who engage and remain in aviation service on a career basis. It is paid in fixed monthly amounts ranging from \$125 to \$650. Effective FY 1990 the ACIP rates were modified for certain years of aviation service as a result of the Aviation Career Improvement Act of 1989.
- (2) **Aviator Continuation Pay (ACP)** - The ACP Program is a financial incentive to complement non-monetary initiatives to improve pilot retention.
- (3) **Non-crew member - involves frequent and regular participation in aerial flights.** Paid as an incentive for the performances of hazardous duty required by orders. It is paid to non-rated crew members and noncrew members (e.g. gunnery instructors, aerial photo personnel, flight nurse) only when performing such duties in fixed monthly amounts of \$110.
- (4) **Air Weapons Controller** - It has been difficult in recent years to retain members in Airborne Warning and Control System (AWACS) duties. As a result the rates for this duty have been increased and range from \$125 to \$350 per month.
- (5) **Parachute Jumping** - Duties involving parachute jumping from an aircraft in aerial flight and performing the specified minimum jumps. Payable at \$110 per month. Members who perform duty involving parachute jumping at a high altitude with a low opening (HALO) as an essential part of duty, are entitled to pay at the monthly rate of \$165.
- (6) **Experimental Stress** - An unusually high level of physiological or other stress; specifically (a) duty inside a high (hyperbaric) or low pressure (altitude) chamber, (b) duty as a human acceleration/deceleration test subject, and (c) duty as a human test subject in thermal stress experiments. It is paid under specified conditions in a monthly amount of \$110.
- (7) **Demolition** - Explosive demolition as a primary duty including training for such duty. It is paid under specified conditions at a monthly rate of \$110.
- (8) **Toxic Fuel Handlers** - Duties in which personnel may be exposed to toxic fuels and propellants. This pay was initiated as a result of a number of casualties among personnel who work with hypergolic fuel, specifically, hydrazine and nitrogen tetroxide. It is paid at a monthly rate of \$110.
- (9) **Live/Hazardous Biological Organisms** - Duty involving laboratory work utilizing live dangerous viruses or bacteria. Paid at the monthly rate of \$110.

PART II - JUSTIFICATION OF FUNDS REQUESTED

Incentive duty pay is computed on the basis of the average number of officers in each category of aviation service/commission service who are eligible for payment. Other incentive duty pay is computed at the statutory rate per man-year. Workyear decreases reflect the projected reduction in force.

PROJECT: Special Pay of Officers

PART I - PURPOSE AND SCOPE

Funds provide for:

- (1) Special pay for Health Professionals on active duty as physicians, dentists, veterinarians, and optometrists under provisions of 37 U.S.C. 302, 302a, 302b and 303, as amended by the National Defense Act in fiscal years 1990 and 1991 section 702.
 - a. **Medical Variable Special** - A monthly pay authorized for all physicians based on years of creditable service. The total annual pay ranges from \$7,000 to \$12,000 except for O-7s and above who receive \$1,000 per year and interns who receive \$1,200 per year.
 - b. **Medical Board Certified** - A monthly payment which varies with length of creditable service paid to physicians who become certified or recertified as having successfully met specified post-graduate education, training and experience requirements. The total annual pay ranges from \$2,500 to \$6,000 depending on years of service.
 - c. **Medical Additional Special** - A lump sum annual payment for physicians not in internship for initial residency training who execute an agreement to remain on active duty for at least one year. Officers will receive \$15,000 per year.
 - d. **Medical Incentive Special** - Paid to qualified physicians in critical specialties who execute an agreement to remain on active duty for at least one year. Amount of pay is based on most critically-short wartime specialties and years of experience.
 - e. **Medical Officer Retention Bonus (MORB)** - Starting 1 January 1989, to be paid over a multiyear period to Medical Corps officers, below the grade of O-7, with at least eight years creditable service who will have completed any active duty service commitment for medical education or training before October 1, 1991 and who are fully qualified in a designated specialty. MORB contracts will be payable in equal annual installments. P.L. 101-189 extended the MORB for one more year.
 - f. **Multi-Year Special Pay** - A new pay authorized for FY 91 by P.L. 101-510 to be used in conjunction with existing Incentive Special Pay authority to enhance physician force management.
 - g. **Dental Variable Special** - A monthly pay authorized for all dentists based on years of creditable service. A total annual pay ranges from \$1,200 to \$6,000 except for O-7s and above who receive \$1,000 per year.
 - h. **Dental Board Certified** - A monthly payment which varies with length of creditable service paid to dentists who become certified or the equivalency as having successfully met specified post-graduate education training, and experience requirements. The total annual pay ranges from \$2,000 - \$4,000 depending upon years of service.
 - i. **Dental Additional Special** - A lump sum annual payment for dentists not in internship or residency training who execute an agreement to remain on active duty for at least one year. Payments are \$6,000, \$8,000 or \$10,000.
 - j. **Dental Save Pay** - 37 U.S.C. 302b, as amended a "Save Pay" provision which entitled dentists to an annual amount of special pay not less than the amount they were entitled to as of September 30, 1985 under the previous dental continuation pay and special pay.
 - k. **Nurse Anesthetist Incentive Pay** - The FY 1990 Authorization Act authorizes an Incentive Special Pay (ISP) up to \$6,000 to all Certified Registered Nurse Anesthetists.
 - l. **Nurse Accession Bonus** - An accession bonus of up to \$5,000 has been authorized by the FY 1990 Authorization Act.
 - m. **Optometrists and Veterinarians** - Receive a special pay amount of \$100 per month.

(2) Personal money allowances for certain general officers under provisions of 37 U.S.C. 414(g). The allowance is payable while an officer is serving in the grade of O-9 or above at annual rates of \$300 and \$2,200 for O-9s and O-10, respectively. Entitlement may also be based upon specific duty assignments as follows: (1) Chairman of the Joint Chiefs of Staff and Chief of Staff of the Air Force payable at \$4,000 per year in place of any other personal money allowance authorized and (2) Senior member of the Military Staff Committee of the United Nations payable at \$2,200 per year in addition to the other personal money allowance authorized.

(3) Pararescue Diving Duty. The purpose of the special pay is to alleviate a critical manning shortage. This duty involves underwater rescue missions, recovery of space vehicles, detection and treatment of decompression sickness, and infiltration/exfiltration for land rescue in a combat environment. It is paid at the rate of \$150 per month.

(4) Hostile Fire Duty. Paid to members who serve in designated areas subject to specific dangers. Paid at the rate of \$110 per month.

(5) Foreign Language Proficiency Pay (Linguist). 37 U.S.C. 316 authorizes this special pay to all officers who are proficient in a second language and DOD has a critical need for that language. The pay shall not exceed \$100 a month.

PART II - JUSTIFICATION OF FUNDS REQUESTED

Variable Special Pay is based on cost factors derived from statutory rates and the average number of physicians and dentists programmed per years of creditable service. Board Certified Pay and Special Incentive Pay are based on the estimated number of physicians and dentists who qualify to receive these special pays multiplied by the statutory rates. Physicians Incentive Special Pay (ISP) reflects the release of the 6% budget limitation and the lifting of the \$8,000 individual payment cap for critically needed war time specialties as result of P.L. 100-180. The ISP and MORB rate decreases in FY 1991 are based on the projected specialities needed. Additional Special Pay is estimated from the expected number of physicians who will agree to remain on active duty for at least one additional year, times the applicable rate based on longevity. The Medical Officer Retention Bonus (MORB) expires 30 September 1990. Eligible officers who signed up for the MORE are paid over a multi-year period, currently expiring in FY 1993. Special pay for dentists is based on longevity of programmed dentists times the applicable rates. Special pay for veterinarians and optometrists is computed by multiplying the statutory rates by the number of people programmed in each specialty.

Further details on these increases and decreases may be found on the Schedule of Increases and Decreases for the officer program.

Details of the computation are shown in the following tables.

PROJECT: Basic Allowance for Quarters - Officers

PART I - PURPOSE AND SCOPE

Funds provide payment of basic allowance for quarters authorized under provisions of 37 U.S.C. 403, to officers with or without dependents, partial payments to bachelors in government quarters and to officers occupying inadequate quarters under provisions of 10 U.S.C. 2830.

PART II - JUSTIFICATION OF FUNDS REQUESTED

Basic allowance for quarters (BAQ) is determined by multiplying the number of eligible personnel by the statutory rates, by pay grade. The total requirement considers the projected number of spousor manyears and the projected number of these manyears that will reside in government housing. For inadequate housing, the rate is payable is the with-dependant rate less the current experienced average rate charge of the fair rental value of the housing unit. (Pay raise adjustments: FY 1990 3.6%, FY 1991 4.1%(Average), FY 1992 4.2%, FY 1993 4.7%)

Dollar amounts associated with the above adjustments to BAQ program costs are summarized in the Schedule of Increases and Decreases.

The computation of fund requirements is provided by the following tables:

(Amount in Thousands of Dollars)

PROJECT: Variable Housing Allowance - Officers

PAKI I - PURPOSE AND SCOPE

Funds provide for payment of variable housing allowance (VHA) authorized under provisions of 37 U.S.C. Section 403a. VHA is based on pay grade, whether member has dependents, and duty assignment in high cost housing areas in the Continental United States, Alaska and Hawaii. A member with dependents who is assigned to an unaccompanied tour of duty outside the U.S. is entitled to a VHA while serving such a tour of duty for any period during which the member's dependents reside in an area of the U.S. which would qualify the member to receive a VHA if assigned to duty in that area.

PAKI II - JUSTIFICATION OF FUNDS REQUESTED

The Joint Federal Travel Regulation (JFTR), 1 January 1987, authorizes VHA to partially offset high cost housing in designated areas. VHA is authorized to assist members entitled to a basic allowance for quarters (BAQ) to defray housing costs when: (a) Government quarters are not assigned or occupied jointly by the member and dependent(s), and (b) the member is assigned to a permanent duty station (PDS) in the United States which is a high housing cost area. For VHA purposes, high housing cost areas are those locations where the median monthly cost of housing for members in the same grade exceeds 80 percent of the median monthly cost of housing for members in same grade throughout the Continental United States (CONUS).

The VHA costs reflect the planned 4.4% rate increase effective 1 January 1991, 4.1% increase effective 1 January 1992, and 3.7% effective 1 January 1993, as well as new survey rate increases effective 1 January 1991.

Dollar impacts associated with these changes are summarized in the Schedule of Increases and Decreases.

The computation of requirements is provided in the following table:

(Amount in Thousands of Dollars)

PROJECT: Basic Allowance For Subsistence

FY 1990	Actual	\$151,216
FY 1991	Estimate	151,592
FY 1992	Estimate	152,208
FY 1993	Estimate	\$149,068

PART I - PURPOSE AND SCOPE

Funds provide monthly subsistence allowance as authorized by 37 USC 402.

PART II - JUSTIFICATION OF FUNDS REQUESTED

Basic allowance for subsistence costs are computed by multiplying the statutory rate by the programmed officer workyears. The increase in FY 1991 over FY 1990 is a direct result of the 4.1% pay raise effective 1 January 1991 and annualization of the 3.6% FY 1990 pay raise. Increases in FY 1992 over the previous year are driven by the 4.2% pay raise programmed and annualization of 1 January 1991 pay raise. The increase in FY 1993 is a result of the 4.7% pay raise effective 1 January 1993 and annualization of the 1992 pay raise. Workyears are reduced to reflect the drawdown in force structure.

Details of the computation are provided in the following table:

	FY 1990 Actual		FY 1991 Estimate		FY 1992 Estimate		FY 1993 Estimate	
	Workyears	Statutory Rate	Workyears	Statutory Rate	Workyears	Statutory Rate	Workyears	Statutory Rate
Officers	102,216	1,479.38	98,894	1,532.87	95,318	1,596.84	89,266	1,669.93
		Amount		Amount		Amount		Amount
		151,216		151,592		152,208		149,068
Total		151,216		151,592		152,208		149,068

(In Thousands of Dollars)

PROJECT: Station Allowances, Overseas

	FY 1990	Actual	
	FY 1991	Estimate	\$ 93,675
	FY 1992	Estimate	112,190
	FY 1993	Estimate	110,249
			\$109,161

PART I - PURPOSE AND SCOPE

Funds provide payment of a per diem allowance to officers on duty outside the continental United States. The station allowance considers all elements of the cost of living, including quarters, subsistence and other necessary incidental expenses as prescribed by Joint Travel Regulations and authorized under the provisions of 37 U.S.C. 405.

PART II - JUSTIFICATION OF FUNDS REQUESTED

This allowance is authorized for the purpose of defraying the average excess costs experienced by service members. An Overseas Housing Allowance (OHA) consists of the difference between the Basic Allowance for Quarters (BAQ) and the applicable housing costs in the overseas area where members are stationed. As BAQ increases, as a result of the pay raise, the margin between BAQ and overseas housing costs are reduced. Since this margin serves as the basis for the housing allowance, the allowance decreases. The numbers of personnel entitled to an overseas station allowance are based on historical data adjusted for known changes of each type of allowance.

The workyears for COLA and Housing Allowances are based on FY 1990 experience adjusted to reflect the decreases in authorized overseas strengths in FYs 1991, 1992 and 1993, respectively. The rates reflect the foreign rates as of December 1990. COLA rates are adjusted upwards and housing rates are decreased to reflect the 1 January 1991 pay raise and the programmed pay raises for FY 1992 and FY 1993. As the value of the dollar against foreign currencies decreases, general officers are qualifying to receive OHA. The general officer rates for FY 1991, FY 1992 and FY 1993 reflect a full years OHA.

In FY91 a new overseas allowance is authorized. Moving In Housing Allowance (MIHA) is intended to offset initial costs such as rent deposits, electrical current transformers, and other overseas unique initial housing costs. There is no historical data prior to FY91.

Temporary Lodging Allowances (TLA) rates are increased for cost growth of 4.4% in FY 1991, 4.1% in FY 1992, and 3.7% in FY 1993.

PROJECT: Uniform Allowances - Officers

FY 1990	Actual	
FY 1991	Estimate	\$ 2,112
FY 1992	Estimate	2,240
FY 1993	Estimate	2,149
	Estimate	\$ 1,851

PART I: PURPOSE AND SCOPE

Funds provide an initial clothing allowance to officers upon commissioning and an additional allowance for purchase of required uniforms. Authorization for this allowance is under the provisions of 37 U.S.C. 415 and 416. Congress in the FY 1988-1989 National Defense Authorization Act authorized the payment of Civilian Clothing Allowance for Air Force Officers. Officers assigned at locations outside the United States who are required to wear civilian clothing in the performance of their duties and/or a TDY mission are entitled to receive this allowance.

PART II: JUSTIFICATION OF FUNDS REQUESTED

Uniform allowances are determined by applying statutory rates to the programmed number of eligible officers. Starting January 1, 1985 the initial clothing allowances paid to all personnel commissioned or appointed as officers in the Regular or Reserve component is \$200, regardless of source of commission or previous enlisted status. Increases/decreases in number of payments result from higher or lower accessions programmed.

PROJECT: Family Separation Allowances - Officers

PART I - PURPOSE AND SCOPE

Funds provide family separation allowance (FSA) payments, under the provision of 37 U.S.C. 427, to officers with dependents to compensate for added expenses incurred because of forced separation from dependents when:

- (1) Travel of dependents to overseas duty station is not authorized and the member maintains two homes, one in CONUS for his family and one overseas and / or
- (2) When a member with dependents makes a permanent change of station or is on temporary duty travel for thirty days or more either in CONUS or overseas and the travel of dependents to his duty station is not authorized and dependents do not reside at or near the duty station.

PART II - JUSTIFICATION OF FUNDS REQUESTED

Allowances for family separation payments are determined by multiplying the number of personnel eligible for each type of family separation allowance by the applicable statutory rate.

Details of the cost computation are provided in the following tables:

(Amount in Thousands of Dollars)

	FY 1990 Actual		FY 1991 Estimate		FY 1992 Estimate		FY 1993 Estimate

PROJECT: Separation Payments

PART I - PURPOSE AND SCOPE

Funds provide:

- (1) Lump sum terminal leave payments to officers for unused accrued leave at time of discharge, or death under provisions of 10 U.S.C. 701, and 37 U.S.C. 501.
- (2) Severance pay to officers who are involuntarily discharged or released from active duty, including severance pay to officers not eligible for retirement under any provision of law on the date of elimination by promotion list passover, under provisions of 10 U.S.C. 637(a); disability severance pay paid to a member separated from the service for a physical disability under provisions of 10 U.S.C. 1212.

PART II - JUSTIFICATION OF FUNDS REQUESTED

Separation payments are determined by multiplying the projected number of eligibles for each applicable separation payment at rates based on past experience and adjusted for pay raises. For leave accumulated prior to September 1, 1976, and retained throughout the career, payments include basic pay, basic allowance for subsistence and basic allowance for quarters. For leave accumulated after September 1, 1976, to include the lowering to the September 1, 1976 leave balance, the rate payable is basic pay only. Leave payments will not exceed the career total of 60 days. Severance pay for promotion passovers is 10% of the product of (a) years of active service, and (b) 12 times the monthly basic pay to which the member was entitled at the time of discharge or release from active duty. FY 1991 legislation removed the \$30,000 cap on the formula.

A member separated for a physical disability is entitled to severance pay. To compute this pay the number of active years of service, (a maximum of 12 years) is multiplied by the sum of two months of basic pay at the grade in which the member is serving at the time of the disability. In the case of disability found during an examination for promotion, the severance pay is based on the grade to which member would have been promoted.

Detailed cost computations are provided in the following table:

(Amount in Thousands of Dollars)

PROJECT: Social Security Tax - Employer's Contribution

PART I - PURPOSE AND SCOPE

Funds represent the Air Force contribution (as an employer) as required by the Federal Insurance Contribution Act (FICA) under provisions of 26 U.S.C. 3101, 3111.

PART II - JUSTIFICATION OF FUNDS REQUESTED

Social Security costs are based on the percentage rate set by law on a member's salary for a calendar year. P.L. 98-21, "Social Security Amendment of 1983," dated 20 April 1983 establishes the tax rate while the maximum taxable income is determined by the Social Security Administration. Effective January 1, 1990, the tax rate was 7.65% on \$1,300 taxable income. In 1991 the taxable income ceiling increases to \$3,400. The taxable income ceiling for FY 92 and 93 is \$5,500 and \$7,900, respectively. The FICA computations are based on base pay and the percentage rate set by law for a given calendar year. The increase in requirements is the result of the 1 January 1990 tax rate and the increase in maximum wages taxed. The overall 3.6% pay raise in FY 1990 and the programmed 4.1%, 4.2% and 4.7% pay raises in FY 1991, FY 1992, and FY 1993, respectively, have an impact in the Social Security requirements.

Funding for FY 1990, FY 1991, FY 1992 and FY 1993 includes employer's contribution to Social Security for which military members receive wage credit but no social security tax (i.e., quarters and subsistence allowances.) The decision was made to transfer this requirement to the Military Personnel Appropriation from the Department of Human Services.

Details of the computations are shown below:

	FY 1990 Actual			FY 1991 Estimate			FY 1992 Estimate			FY 1993 Estimate

FY 1992	Estimate	6,506,120
FY 1993	Estimate	\$6,499,638

PROJECT: Basic Pay of Enlisted

PAKI I - PURPOSE AND SCOPE

Funds provide basic compensation to enlisted personnel on active duty, including length of service increments, under provision of 37 U.S.C. 201, 203 and 205.

PAKI II - JUSTIFICATION OF FUNDS REQUESTED

The FY 1990 began with a strength of 462,831 and ended with a strength of 430,818 with 445,587 workyears. Due to fiscal constraints the AF implemented two early release programs, one which allowed airmen who were scheduled to be separated during the February to September 90 timeframe to separate as early as January 90, and the second one allowed anyone regardless of scheduled separation to separate beginning in March 90. Use of these programs allowed the AF to stay within the dollars appropriated by Congress, but it caused the enlisted strength to be approximately 9,465 under the targeted end strength.

FY 1991 beginning strength will be 430,818 and ending with 407,564 using 421,936 workyears. Included in the FY 1991 program is the implementation of revised high year tenure points. E-4 high year of tenure (HYT) will be set at 10 years of service, E-6 HYT will be reduced from 23 years to 20 years, E-7 reduced from 26 to 24 years and E-8 reduced from 28 years to 26 years of service. Also during FY 1991 additional reenlistment controls will be implemented. These actions, as well as reducing accession levels to the lowest in history (30,000), will reduce enlisted seniority and meet the lower end strength target.

FY 1992 beginning strength will be 407,564 and ending with 390,480 using 401,143 workyears. Continuation of HYT changes and reenlistment controls implemented in FY 1991 and reduced accessions will allow the AF to meet the reduced FY 1992 end strength.

FY 1993 beginning strength will be 390,480 and ending with 367,306 using 381,481 workyears. In order to meet this lowered end strength the AF will continue the historically low accession level (30,000), additional controls on reenlistments, and implement date of separation rollback of approximately 4,000 airmen whose normal separation dates would be in FY 1994.

PART I - PURPOSE AND SCOPE

PROJECT: Retired Pay Accrual - Enlisted

FY 1990	Actual	\$2,880,296
FY 1991	Estimate	2,822,466
FY 1992	Estimate	2,779,823
FY 1993	Estimate	\$2,743,472

Funds provide for the Department of Defense's contribution to its Military Retirement Fund, under provisions of 10 U.S.C. 1466. Retired pay accrual amounts will be a specified percent of basic pay.

PART II - JUSTIFICATION OF FUNDS REQUESTED

The budget estimates are derived as a product of

(a) An accrual percentage of 43.9% for FY 1990, 43.3% for FY 1991, 42.7% for FY 1992 and 42.2% for FY 1993, (b) The total amount of basic pay expected to be paid during the fiscal year to enlisted members of the armed forces (Note: Base Pay adjusted for pay raises).

The computation of fund requirements is shown in the following table:

FY 1990 Actual			FY 1991 Estimate			FY 1992 Estimate			FY 1993 Estimate

(In Thousands of Dollars)

FY 1990	Actual	\$26,931
FY 1991	Estimate	26,864
FY 1992	Estimate	26,864
FY 1993	Estimate	\$26,864

PROJECT: Incentive Pay for Hazardous Duty

PART I - PURPOSE AND SCOPE

The purpose of incentive pay for hazardous duty is to help the Air Force attract and retain enlisted volunteers in duties requiring more than normal exposure to hazardous duties in peacetime.

Funds provide pay to enlisted personnel, under provisions of 37 U.S.C. 301, for the following types of duty:

- (1) Crew member - A member who is required by competent orders to participate frequently and regularly in aerial flights. Minimum monthly flight requirements must be attained in order to qualify for this pay.
- (2) Non-crew member - Involves frequent and regular participation in aerial flights. Enlisted personnel non-crew members are classified as "operational support flyers". They are required to perform critical inflight duties (such as maintenance) that cannot be performed by an assigned crew member.
- (3) Parachute jumping - Incentive pay for hazardous duty to induce volunteer enlisted personnel to enter into an 1 remain in duty involving parachute jumping from an aircraft in aerial flight.
- (4) Demolition - Explosive demolition as a primary duty including training for such duty. Paid to members who demolish, by the use of explosives, underwater objects, obstacles or explosives, or who recover and render harmless, by disarming or demolition, explosives which have failed to function as intended or which become a potential hazard.
- (5) Experimental stress - Duties involving an unusually high level of physiological or other stress, specifically (a) duty inside a high (hyperbaric) or low pressure (altitude) chamber, (b) duty as a human test subject in thermal stress experiments, and (c) duty as human acceleration/deceleration test subject.
- (6) Toxic fuel handler - Duties in which personnel may be exposed to toxic fuels and propellants. This pay was initiated as a result of a number of casualties among personnel who work with hypergolic fuel, specifically, hydrazine and nitrogen tetroxide.
- (7) Live/Hazardous biological organisms - Duties in which members may be exposed to toxic pesticides or to various hazardous viruses and biological organisms.
- (8) Other hazardous duty required by order and authorized under the provisions of 37 U.S.C. 301.

PART II - JUSTIFICATION OF FUNDS REQUESTED

Incentive duty pay is computed on the basis of the average number of enlisted personnel in each pay grade who are eligible for payment. Average pay rates for flying duty crew members are those prescribed by law, based on average years of service by pay grade. All other hazardous duty pay is computed at the statutory rate per manyear.

The computation of fund requirements is provided in the following tables:

(Amount in Thousands of Dollars)

PROJECT: Special Pay of Enlisted

PART I - PURPOSE AND SCOPE

Funds provide special pay to enlisted personnel for sea duty or duty outside the contiguous 48 states and the District of Columbia at places designated by the Secretary of Defense under the provisions of 37 U.S.C. 305 and 305e; for duty subject to hostile fire under the provisions of 37 USC 310; and for special pay for enlisted members extending duty at designated locations overseas under the provisions of 37 U.S.C. 314.

- (1) Duty at certain places - Payment to certain enlisted personnel for purposes of morale and in recognition of the greater than normal hardship experienced at designated locations outside the 48 contiguous states and the District of Columbia. Payment is based on grade with rates ranging from \$8 to \$22.50 per month.
- (2) Overseas duty extension pay - Purpose is to induce enlisted personnel in certain specified "critical skill" classifications to extend their tours for the convenience of the government. Some military specialties are imbalanced in that there are many more positions overseas than in the United States. This results in members being reassigned overseas after less than two years in the U. S. This is a career irritant that has resulted in many voluntary separations from the service. A financial incentive for extending tours of duty overseas helps alleviate these problems as well as conserve PCS funds.
- (3) Diving duty pay - Authorized for enlisted members of the Air Force under the provisions of 37 U.S.C. 304. The specific amount to be paid is determined by the Secretary of the Air Force. Although the maximum amount authorized by law is \$300/month for enlisted personnel, the amounts paid by the Air Force are \$150 or \$100 per month based on divers' skill levels, responsibility, hazard, and need for the incentive. Air Force enlisted members engaged in diving duties fall into two career fields, pararescue and diving duty basic. Pararescue divers conduct day/night underwater rescue operations; recover space vehicles; detect and treat decompression sickness; diving accidents/injuries; infiltrate and exfiltrate for land rescue in combat environment and; deploy to sea via parachute, helicopter, surface or subsurface vessel. Combat control team members, who receive the diving duty-basic scuba pay, conduct infiltration and exfiltration to establish and manage air landing/off-load areas ashore. They enter water from surface vessel, parachute or helicopter drop.
- (4) Hostile Fire Pay - Paid to members who serve in designated areas subject to specific dangers. Paid at the rate of \$110 per month.
- (5) Foreign Language Proficiency Pay - Authorized in 37 U.S.C. 316 for enlisted members who have been certified as proficient in a foreign language identified by the Secretary of Defense and who is (a) qualified in a military specialty requiring such proficiency; (b) received training to develop such proficiency; (c) assigned to military duties requiring such a proficiency; or (d) is proficient in a language for which DoD has a critical need. The pay shall not exceed \$100 a month.

PART II - JUSTIFICATION OF FUNDS REQUESTED

Amounts are computed by applying statutory rates to the average numbers of personnel programmed to be eligible.

Details of the computation are shown in the following table:

(Amount in Thousands of Dollars)

Grade	FY 1990 Actual		FY 1991 Estimate		FY 1992 Estimate		FY 1993 Estimate

PROJECT: Special Duty Assignment Pay

PART I - PURPOSE AND SCOPE

Special duty assignment pay is authorized by U.S.C. 307 as an incentive to induce enlisted members to qualify for and serve in duties which are extremely difficult, or duties which involve an unusual degree of responsibility. As of this submission, the Air Force has limited such designations to only 14 specific duties.

PART II - JUSTIFICATION OF FUNDS REQUESTED

Special duty assignment pay is currently authorized for recruiters, basic military training instructors, human intelligence debriefers, combat controllers, pararescue personnel, tactical air command and control personnel, parachuting instructors, members of two joint operational commands, members of two special governmental agencies, and a classified Air Force project. These are demanding and arduous duties for which the pay is clearly justified. The Air Force conducts reviews of the duties, requiring periodic justification, with changes as may be indicated by the reviews. This program is dynamic, i.e. duties may be added or deleted during the year. The changes shown over the 90/91/92 years reflect both the addition of duties in FY 90, and the reduction in numbers of personnel in some other authorized duties.

PROJECT: Selective Reenlistment Bonus

PART I. PURPOSE AND SCOPE

A Selective Reenlistment Bonus is authorized by U.S.C. 308 as an incentive to attract additional reenlistments in critical military specialties which are characterized by retention levels insufficient to sustain the career force at an adequate level. It is available for application to problem reenlistment points from 21 months to 14 years of active service. The bonus amount is the lesser of \$45,000, or the product of up to ten months of basic pay to which the member was entitled at the time of discharge or release, times the number of years of additional obligated service (not to exceed six years). The Air Force has chosen to place a ceiling of \$30,000 on the bonus and has capped the basic pay multiple at three. The FY 1988 DoD Authorization Act changed the SRB pay methodology. Effective 1 October 1987, SRBs must be paid in a lump sum amount upon reenlistment or in installments with a minimum of 50% in the initial installment. The Air Force has elected to pay SRBs under the installment program paying 50% up front, and the remainder in equal annual payments. Accelerated payments are installment payments made in advance of the normal anniversary dates when enlisted members can document unique and unusual hardships not common to their contemporaries.

PART II. JUSTIFICATION OF FUNDS REQUESTED

Selective reenlistment bonus requirements are based on retention trends, current and projected manning levels, and year group shortages in critical skills. Bonuses are successful in both attracting reenlistments of members currently serving in the designated skills, and in attracting members serving in other skills to reenlist for service in the designated skills. To ensure the most prudent and effective expenditure of funds, the Air Force performs a top to bottom review of all skills twice each year.

While the overall drawdown of the force is a contributing factor to the lower totals for FY 92, we note that the need for the bonus is not directly tied to overall strength levels, but rather to needs in specific skills. Thus, no matter how large or rapid the drawdown, there will always be some specific skills with insufficient retention and a need for the bonus. We will also experience small year groups entering the reenlistment window in FYs 92-94, and will need to continue bonuses that might otherwise be reduced/eliminated, in order to attain necessary reenlistments to sustain the force.

The Air Force has and will continue to focus management initiatives to balance overage and shortage skills. For shortage skills, the Air Force continually evaluates the SRB program and offers bonuses where appropriate. Other initiatives to fill shortage skills include: increased promotion opportunity to members in chronic critical shortage skills; retaining NCOs from overage skills into shortage skills; returning previously qualified specialists to shortage skills; and permitting selected numbers of members in shortage skills to remain on active duty beyond their high year of tenure. The following actions are aimed at reducing overage skills, voluntary and involuntary retraining out of overage skills, and screening/selecting personnel in overage skills for service in shortage skills in which previously qualified.

PROJECT: Enlistment Bonus

\$311
791
1,303
\$1,468

PART I - PURPOSE AND SCOPE

An enlistment bonus is authorized by 37 U.S.C. 308a as an incentive to induce individuals to enlist for a period of at least four years in specific, critical military skills which are characterized by an inadequate number of enlistments to meet accession objectives. The maximum bonus authorized by law is \$12,000; however the Air Force currently pays a maximum of \$4,000 and requires recipients to enlist for a six year term. The Air Force pays the bonus to only two skills.

PART II - JUSTIFICATION OF FUNDS REQUESTED

An enlistment bonus is currently paid to cypto-linguists, and explosive ordinance disposal personnel. It is paid upon completion of technical training, and therefore not only helps to attract enlistments, but also reduces training attrition. Funds are requested based on the number of enlistees required and programmed to enter the designated specialties.

Growth in the program between FY 1991 and FY 1992 is due to the way enlistment bonuses are paid. Since the bonus is paid after completion of training and arrival at first duty assignment, for skills with a long training pipeline, current year funding pays for enlistment bonuses that were contracted for in prior FY's. Thus, in FY 92 an increased number of cypto linguists (average 22 month training period) who entered school in FY's 89 and 90 become eligible for payment of their bonuses. Also, an increase in the bonus amount for Cypto Linguists from \$2,000 to \$4,000 in FY 1990 appears for the first time in FY 1992 payments.

PROJECT: Basic Allowance for Quarters - Enlisted					\$901,043	894,910
						874,100
						\$853,163

PART I - PURPOSE AND SCOPE

Funds requested provide payment of basic allowances for quarters authorized under provisions of 37 U.S.C. Section 403, with or without dependents, and to enlisted personnel occupying inadequate family housing under the provisions of 10 U.S.C. 2830.

PART II - JUSTIFICATION OF FUNDS REQUESTED

Basic allowance for quarters (BAQ) is determined by multiplying the number of eligible enlisted personnel by the statutory rates, by pay grade. The total requirement considers the projected number of sponsor manyears and the projected number of these manyears that will reside in government housing. For inadequate housing the rate payable is the with-dependent rate less the current experienced average rate charge of the fair rental value of the housing unit. (Pay raise adjustments: FY 1990 3.6%, FY 1991 4.1% (Average), FY 1992 4.2%, FY 1993 4.7%).

Dollar amounts associated with the above adjustments to BAQ program costs are summarized in the Schedule of Increases and Decreases.

The computation of fund requirements is provided by the following tables:

}

PROJECT: Variable Housing Allowance - Enlisted

PART I - PURPOSE AND SCOPE

Funds required provide payment of Variable Housing Allowance (VHA) authorized under provisions of 37 U.S.C. 403a. A member entitled to BAO under 37 U.S.C., Section 403 is entitled to a VHA under this subsection whenever assigned to duty in an area of the U.S. (including Alaska or Hawaii) which is considered a high cost housing area. A member with dependents who is assigned to an unaccompanied tour of duty outside the U.S. is entitled to a VHA while serving such a tour of duty for any period during which the member's dependents reside in an area of the U.S. which would qualify the member to receive a VHA payment if assigned to duty in that area.

PART II - JUSTIFICATION OF FUNDS REQUESTED

A projection of eligible personnel was developed from a relationship between actual VHA payments and actual BAO payments at both the full with dependent rate and the full without dependent rate, adjusted for approved inflation.

Variable housing allowances are developed by multiplying the number of eligible personnel by the average rate for each grade. A projection of eligible personnel is developed from the sum of personnel receiving a basic allowance for quarters at the full with-dependent rate and those receiving a basic allowance for quarters, at the full without-dependent rate. The entitlement includes a housing cost growth of 4.4% in FY91, 4.1% in FY 92 and 3.7% in FY 93. The FY 1991 Authorization Act states limitation on total amount of VHA program cost does not apply for FY 91. By the removal of Section 403a(d), it is mandatory to use the 80% factor in computing the VHA formula.

Dollar impacts associated with these changes are summarized in the Schedule of Increases and Decreases

The computation of requirements is provided by the following table(s):

(Amount in Thousands of Dollars)

PROJECT: Station Allowances Overseas

PART I - PURPOSE AND SCOPE

Funds requested provide payment of a per diem allowance to enlisted personnel on duty outside the continental United States. The station allowances consider all elements of the cost of living, including quarters, subsistence and other necessary incidental expenses as prescribed by Joint Travel Regulations and authorized under the provisions of 37 U.S.C. 403 and 405.

PART II - JUSTIFICATION OF FUNDS REQUESTED

This allowance is authorized for the purpose of defraying the average excess costs experienced by service members. An Overseas Housing Allowance (OHA) consists of the difference between the Basic Allowance for Quarters (BAQ) and the applicable housing costs in the overseas area where members are stationed. As BAQ increases, as a result of the pay raise, the margin between BAQ and overseas housing costs are reduced. Since this margin serves as the basis for the housing allowance, the allowance decreases. The numbers of personnel entitled to an overseas station allowance are based on historical data adjusted for known changes of each type of allowance. The rates reflect the foreign rates as of December 1990.

PROJECT: Clothing Allowances

PART I - PURPOSE AND SCOPE

Funds provide payment to enlisted personnel for prescribed clothing, authorized by the Secretary of Defense under the provisions of U.S.C. 418. Included are:

- (1) Initial clothing allowance upon enlistment and civilian clothing allowance when authorized.
- (2) Basic replacement allowance payable to a member upon completion of six months active duty for the remainder of the first three years of continuous service and the standard replacement allowance payable to a member upon completion of 36 months of active duty through the remainder of continuous active duty. Both basic and standard replacement allowances are cash payments. Effective October 1, 1985, all replacement allowances are paid annually.
- (3) Supplemental clothing allowances for personnel assigned to special organizations or details where the nature of duties require additional items of individual uniform clothing.

PART II - JUSTIFICATION OF FUNDS REQUESTED

Initial clothing allowances are based on programmed numbers by type of accession. The rates prescribed by the Secretary of Defense were used each Fiscal Year. The type of clothing maintenance allowance paid is determined by the average longevity of the enlisted force. Civilian initial allowances and supplemental clothing allowances are based on FY 1989 experience.

Details of the cost computation are provided in the following tables.

(Amount in Thousands of Dollars)

PROJECT: Family Separation Allowances - Enlisted

PART I - PURPOSE AND SCOPE

Funds provide Family Separation Allowance (FSA) payments, under the provisions of 37 U.S.C. 427, to enlisted personnel with dependents to compensate for added expenses incurred because of forced separation from dependents when:

- (1) Travel of dependents to overseas duty station is not authorized and the member is required to maintain two homes, one in CONUS for his family and one overseas and/or
- (2) When a member with dependents makes a permanent change of station or is on temporary duty travel for thirty days or more either in CONUS or overseas, and the travel of dependents to his duty station is not authorized and dependents do not reside at or near the duty station.

PART II - JUSTIFICATION OF FUNDS REQUESTED

Allowances for family separation payments are determined by multiplying the number of personnel eligible for each type of family separation allowance by the applicable statutory rate.

Details of the cost computation are provided in the following tables:

PROJECT: Separation Payments - Enlisted

PART I - PURPOSE AND SCOPE

Funds provide payment to enlisted personnel for:

- (1) Lump sum terminal leave payments for unused accrued leave at time of discharge, reenlistment or death under provisions of 37 U.S.C. 501; and
- (2) Severance pay to members separated for physical disability under provisions of 10 U.S.C. 1212; and
- (3) Donations for discharge under certain conditions under the provisions of 10 U.S.C. 1048.
- (4) Separation Pay for discharge under provisions of 10 U.S.C. 1174 as amended.

PART II - JUSTIFICATION OF FUNDS REQUESTED

Lump Sum Terminal Leave (LSTL) is accrued leave paid to a member upon retirement or separation. Members reenlisting on their date of separation have the option to receive pay for all or a portion of their accrued leave. The total requirement for separation payments is determined by multiplying the projected number of payments by the estimated average cost per payment. For leave accumulated prior to September 1976 and retained throughout a member's career, payments include basic pay, \$1.25 per day quarters allowance to members in pay grade E-5 through E-9 with dependents, and \$ 70 per day to all members for subsistence. For leave accumulated after September 1, 1976, to include lowering of the leave balance earned as of September 1, 1976, the rate payable is basic pay only. Leave payments will not exceed a career total of 60 days. Severance pay for disability is computed at two months basic pay at the grade held at time of discharge multiplied by the number of years active service, but not more than twelve. In addition, Title 10, Section 1174 of the United States Code was amended to authorize payment of separation pay to Enlisted members who are discharged involuntarily or denied reenlistment who have completed six or more, but less than 20 years, of active service immediately before that discharge. Enlisted separation pay is calculated as follows: 12 x months Base pay x years Service x 10%.

Details of the cost computation are provided in the following table:

(Amount in Thousands of Dollars)

PROJECT: Social Security Tax - Employer's Contribution

\$621,543
 \$97,026
 \$88,828
 \$88,532

PAKT I - PURPOSE AND SCOPE

Funds represent the Air Force contribution (as an employer) as required by the Federal Insurance Contribution Act (FICA) under provision of 26 U.S.C. 3101 and 3111.

PAKT II - JUSTIFICATION OF FUNDS REQUESTED

Social Security costs are based on the percentage rate set by law on a member's salary for a calendar year. P.L. 98-21 "Social Security Amendment of 1983" dated 20 April 1983 establishes the tax rate while the maximum taxable income is determined by the Social Security Administration. Effective January 1, 1990, the tax rate was 7.65% on \$1,300 taxable income. In 1991, the taxable income ceiling increases to \$3,400. The taxable income ceiling for FY 92 and 93 is \$5,500 and \$7,900, respectively. The FICA computations are based on base pay and the percentage rate set by law for a given calendar year. The increase in requirements is the result of the full year impact of the 1 January 1990 tax rate and the increase in maximum wages taxed. The overall 3.6% pay raise in FY 1990 and the programmed 4.1%, 4.2% and 4.7% pay raises in FY 1991, FY 1992, and FY 1993, respectively, have an impact in the Social Security requirements.

Funding for FY 1990, FY 1991, FY 1992, and FY 1993 includes employer's contribution to Social Security for which military members receive wage credit but no social security tax (i.e., quarters and subsistence allowances). The decision was made to transfer this requirement to the Military Personnel Appropriation from the Department of Human Services.

Details of the computations are shown below:

PROJECT: Academy Cadets

FY 1990	Actual	\$ 36,055
FY 1991	Estimate	37,049
FY 1992	Estimate	37,923
FY 1993	Estimate	\$ 39,093

PART I - PURPOSE AND SCOPE

The funds requested are (a) for basic pay, commuted rations allowance, and employer's share of FICA tax for cadets appointed to the United States Air Force Academy, under the provisions of 37 USC 201, 203, and 422 and the Federal Insurance Contributions Act; and (b) for the difference between the value of the commuted ration allowance and the cost of operational rations.

PART II - JUSTIFICATION OF FUNDS REQUESTED

Requirements are determined by applying statutory rates to the projected workyears. The FY 1991 program is based on a beginning strength of 4,370 and end strength of 4,334. FY 1992 program is based on a beginning strength of 4,334 and end strength of 4,300. The FY 1993 program is based on a beginning strength of 4,300 and an end strength of 4,200. The operational rations program funds required in specialized summer programs: basic cadet training field exercises, survival training for upper classes and the cadet flying program. Since 1981, daily cadet rations have been held at \$3.80. The FY 1992 and FY 1993 cadet ration rates are increased by the Military Personnel non pay inflation rate of 4.1% and 3.7% respectively. No pay raise was authorized for the Cadets in FY 1991. The programmed 4.2% and 4.7% pay raises in FY 1992 and FY 1993 respectively, have been included in the requirements.

PROJECT: Basic Allowance for Subsistence

PAKT I - PURPOSE AND SCOPE

Funds provide for the payment of subsistence allowances to active duty enlisted personnel under the provisions of 37 U.S.C. 402. Included are allowances when (1) individual is authorized to mess separately; (2) individual is in leave status; (3) Rations-In-Kind are not available; (4) individual is assigned under emergency conditions where government messing facilities are not available; and (5) augmentation of subsistence allowance for meals taken separately is authorized (P.L. 253-84Th. Congress).

PAKT II - JUSTIFICATION OF FUNDS REQUESTED

The requirement is based on the average number of enlisted personnel entitled to receive several types of allowances. Distribution of personnel in the various categories is developed on the basis of actual experience which indicates that approximately 86% of enlisted personnel draw basic allowance for subsistence (BAS) in lieu of subsisting in Air Force dining halls.

BAS rates are predicated on the same percentage increase as the pay raise for military personnel. An overall 4.1% pay raise, effective 1 January 1991, has been included in the FY 1991 rates making Authorized to Mess Separately and Leave Rations daily rate \$6.15 and Rations-In-Kind not available \$6.94. FY 1992 and FY 1993 pay raise amounts are 4.2% and 4.7% respectively and are effective 1 January each year.

PROJECT: Subsistence-in-Kind

PART I - PURPOSE AND SCOPE

Funds provide for subsistence-in-kind furnished active duty enlisted personnel when they do not receive an allowance for subsistence. Funds requested also include (1) special rations; (2) operational rations; (3) augmentation rations; (4) testing of new food items; and (5) the payment for meals furnished under contract at commercial facilities where the payment of the commuted ration would create an individual hardship or the costs of establishment of a government mess facility are prohibitive.

PART II - JUSTIFICATION OF FUNDS REQUESTED

The SIK program transferred from Military Personnel Appropriation to Operation and Maintenance Appropriation in FY 1991.

The requirement is based on the number of rations to be furnished enlisted personnel entitled to be subsisted at government expense. The total average enlisted strength is based on the USAF military personnel program, and the distribution of personnel by category is projected based upon actual experience.

The daily ration rates for FY 1990 are \$3.94 CONUS and \$4.37 Overseas.

Details of the fund computations are provided on the following tables:

The Air Force initiated Defense Management Report Decisions increased the FY 1992 Permanent Change of Station budget activity by \$.7 million to accommodate the moves necessitated by these force structure changes.

PURPOSE AND SCOPE

For expenses incident to permanent change of station travel of military personnel either individually or as part of organized units. PCS travel costs include mileage; monetary allowance in lieu of transportation; transportation by common carrier (rail, bus, air or water, including Military Airlift Command (MAC) and Military Sealift Command (MSC)); per diem allowances; actual and necessary expenses and cost of subsistence while in a travel status; issue of meal tickets in lieu of subsistence; travel of dependents and transportation of baggage and household goods, port handling charges for household goods; baggage and privately owned vehicles passing through CONUS Military Traffic Management Command (MTMC) terminals; payments authorized for transportation of dependents and personal and household effects of deceased military personnel; costs of contract packing, crating, handling and temporary storage of household goods; costs of nontemporary storage of household goods; cost of trailer allowances; travel incident to organizational movements on permanent change of station whether for training or non-training purposes; expenses incident to PCS movement of any military group traveling under one order from the same point of origin to the same destination; minor supplies and services incident to troop or organizational PCS movements; expenses and allowances incident to separation travel, discharge or release. Also included is all authorized temporary duty (TDY) travel directly related to and an integral part of PCS movements of individuals or organizational units. Excludes TDY travel other than that directly related to and an integral part of PCS movements. All authorized PCS travel expenses provided for under this budget program account are charged to the same subprogram account cited in the PCS travel order of the military member. The only exception is the cost of contract commercial storage of household goods on a nontemporary basis. The term "CONUS" (Continental United States) applies to the contiguous 48 states.

POLICY AND/OR PRICE CHANGES

1. Policy Change:

In FY 1988 and FY 1989 the Air Force took extreme measures to reduce operational and rotational PCS move requirements to help offset a funding shortfall in other areas in the Military Personnel Appropriation. During these years we maintained a CONUS Manning floor of 85%—No CONUS to CONUS operational move will be made until the gaining unit Manning drops below 85 percent; and a 90% Overseas Manning floor—No CONUS to Overseas rotational move will be made until the unit Manning drops below 90 percent. These were established as temporary measures as they create Manning gaps and skill level imbalances.

In FY 1990, the Air Force faced serious shortfalls within the MPA. The impact adversely affected readiness levels, increased separation moves, decreased operational/rotational moves, and a further reduction of Manning floors to 80% CONUS, 85% long Overseas and 90% short Overseas. Compounding the problem were the new entitlements of double dislocation allowance and equitable per diem for enlisted members which were authorized but not funded by Congress. The solution involved an early release offer, up to a two-month involuntary extension of all members Overseas serving a tour of greater than 18 months, and an overall realignment of the PCS program. Some of this impact was overcome by a late infusion of funds when the reprogramming was approved. However, the turbulence in the FY 1990 program compounded by accelerated force structure changes requires increased funding in FY 1991.

Starting in FY 1991 through the outyears, the Air Force is posturing itself for significant manpower reductions. In line with the Congressional direction and the Secretary of Defense's plan for the future, we are reviewing our needs for forces through the mid-1990's and in light of declining defense budgets, we continue to identify locations ... where we can reduce our forces. As we draw down the overall size of the force, it is essential that we correspondingly reduce the installations where the force is based, both in the United States and Overseas... Due to the dynamics of this process, while many appropriations may see an immediate savings, there will be increased PCS moves and associated upfront cost before any savings will be realized. In addition, there is the added cost to change the tour lengths as a result of increased turbulence in foreign countries where our military personnel are based. Therefore, we are requesting a \$104M reprogramming in FY 1991 to pay for the additive must pay bills. If left unfunded, these actions coupled with a continuation of prior year shortfalls will seriously jeopardize the Air Force's ability to meet global commitments, provide equitable treatment for our people, and to correct both skill and Manning level imbalances. Into the latter 1990's there will be a decrease of both moves and cost as our end strength stabilizes.

2. Price Changes:

FY 1991, FY 1992, and FY 1993 industrial fund and inflation rate adjustments are included. The industrial fund's fuel price increase due to Desert Shield is reflected in the FY 1991 column of the PCS account, with a corresponding negative entry to highlight the amount and balance to OSD guidance.

FY 1990, FY 1991, FY 1992 and FY 1993 pay raise amounts are 7.0%, 4.1%, 4.2% and 4.7%, respectively and are effective 1 January each year. These impact on the dislocation allowance which is equal to 2 months of BAO.

(Amount in Thousands of Dollars)

PROJECT: Accession Travel

PART I - PURPOSE AND SCOPE

Funds provide for the following:

Officers - Covers PCS movements of (1) officers appointed to a commissioned grade from civil life, military academies, Reserve, ROTC, and National Guard officers called or recalled to extended active duty from home or point where orders were received to first permanent duty station or training school, of twenty weeks or more duration and (2) officers appointed or recalled from enlisted status from station where they served as enlisted to new permanent duty station or training school of twenty weeks or more duration. (Includes officers appointed from enlisted status upon graduation from Officer Training School).

Enlisted - Covers PCS movements of (1) enlistees, reenlistees and prior service personnel from recruiting station or place of enlistment to first permanent duty station or training school of twenty weeks or more duration and (2) recalled enlisted reservists from home to first permanent duty station or training school of twenty weeks or more duration.

Cadets - Covers PCS movements of (1) individuals selected as Air Force Academy Cadets upon entry into the Academy and (2) individuals who travel to the academies but fail to pass the entrance physical examinations and are required to return home.

PART II - JUSTIFICATION OF FUNDS REQUESTED

The estimates for accession travel cover PCS movements of members entering on active duty. The PCS requirements for accession travel are based upon officer, enlisted and cadet gains as reflected in the Air Force personnel programs. These gains are required to meet planned Air Force manpower levels. This category of move results primarily from approved end strengths and separation/retirements from the Air Force; consequently, adjustments in accession travel can only be accommodated via adjustments in officer, enlisted or cadet strengths. Officer accessions include Academy Graduates, Air Force Reserve Officer Training Corps (ROTC), Medical Officers, Judge Advocate General Officers, Chaplains, Reserve Officers and Officer Training School (OTS) graduates. Enlisted accessions include prior and nonprior service personnel, recalled reserves, USAF Preparatory School, and Officer Training School (OTS).

Changes between FY 1990/1991/1992/1993 reflect the changes in accessions associated with end strength adjustments contained in the appropriation.

Pay raise and inflation factors are described under "Price Changes" at the beginning of the Permanent Change of Station detail section.

Average rates are based upon statistical data, ratios and percentages derived from actual accession PCS move costs during a given accounting period. The number of accession moves (officer, enlisted and cadet) times the appropriate rates for each element of expense (e.g., military member, dependents, household goods, etc.) results in the estimated funding required.

The number of moves and the associated fiscal year requirements are shown in the tables on the following pages (dollars do not include funding for nontemporary storage; members are not entitled to temporary lodging expenses). The above fiscal year total dollars include nontemporary storage.

PROJECT: Training Travel

FY 1990	Actual	\$40,364
FY 1991	Estimate	55,525
FY 1992	Estimate	46,078
FY 1993	Estimate	\$47,787

PART I - PURPOSE AND SCOPE

Funds provide for the CONUS PCS movements of:

- (1) officers and enlisted personnel from previous permanent duty stations to formal service or civilian schools, including technical schools, flying training schools, factory training, and other approved courses of instruction, of 20 weeks duration or more; and (2) officer and enlisted school graduates and eliminees from school to their next permanent CONUS duty station (excludes Academy graduates, OTS graduates, flying training graduates, ROTC graduates and others chargeable as accession travel); and (3) enlisted personnel ordered to training leading to a commission.

PART II - JUSTIFICATION OF FUNDS REQUESTED

The estimates for training travel cover PCS requirements for officer and enlisted personnel engaged in Air Force and outside agency training programs. The PCS requirements for training travel are the direct result of Air Force training programs covering technical training, career training and flying training. These types of training are required to maintain the skill level and educational requirements necessary to fulfill the Air Force mission. Adjustments in training travel are directly responsive to training programs which generate the move requirements. This category of travel contains basic and advanced technical training, retraining, professional military education (e.g., Air War, National War and Industrial Colleges, Medical Training, Air Force Institute of Technology) and undergraduate pilot and navigator training.

The FY 1990 thru 1991 increases are a result of additional training required due to force structure changes, as well as an adjustment in the move count based on language in the regulation. The decrease from FY91-FY92 and continuation is the result of a decision which constrained enlisted technical training to the FY90 requirement. Without additional training, skill imbalances will worsen.

Pay raise, inflation factors are described under "Price Changes" at the beginning of the Permanent Change of Station detail section.

Average rates are based upon statistical data, ratios, and percentages extracted from actual PCS training move costs. The number of officer and enlisted training moves times the average rate for each element of expense (e.g., military member, dependent, household goods, etc.) results in the estimated funding required.

The number of moves and fiscal year requirements are shown on the following pages (dollars do not include funding for nontemporary storage or temporary lodging expenses). The above fiscal year dollars include nontemporary storage.

PROJECT: Operational Travel Between Duty Stations

PART I - PURPOSE AND SCOPE

Funds provide for the PCS movements of:

- (1) officers and enlisted personnel to and from permanent duty stations located within the United States; (2) officers and enlisted personnel to and from permanent duty stations located within an overseas area when no transoceanic travel is involved; and (3) dependents, household goods, personal effects, trailer allowances and privately owned vehicles of officers and enlisted personnel who are interned (including hospitalized or imprisoned), missing, or captured when no transoceanic travel is involved.

PART II - JUSTIFICATION OF FUNDS REQUESTED

The estimate for operational travel cover PCS requirements for operational reassignment of officer and enlisted personnel between both duty stations (1) within the CONUS and (2) within overseas areas when no transoceanic travel is involved. Operational moves are predicated upon the approved Air Force force structure and are necessary to support skill leveling among units, to fill new/unprogrammed requirements, and to accommodate valid humanitarian assignments. The estimates include actions taken by the Air Force to limit operational reassignments and reduce costs to the minimum necessary to carry out the Air Force mission (manning floor, minimum CONUS tour lengths, do-it-yourself move program, maximum use of low-cost moves).

Air Force operational PCS funding has been suppressed since FY 1986, causing the Air Force to adopt numerous alternatives to reduce expenditures. The most significant of these has been the lowering of the CONUS manning floor. This means no operational PCS will be initiated until manning at the gaining unit falls below the specified level. Also, the number of maximum tours have been significantly reduced/converted to minimum tours. While these alternatives were intended to be of a short-term nature, they have become institutionalized due to continued reduced budget authority. This has resulted in serious manning and skill level imbalances that adversely affect mission readiness. FY 91/92/93 will face additional strains on operational travel due to mandated force structure actions, e.g., Defense Management Review, and force structure driven by strength reductions (by regulation these moves include unit moves that will not involve the movement of equipment). Since the operational move category includes overseas moves when no transoceanic travel is involved, as we draw down our overseas strengths we will experience increases in our overseas operational moves. To minimize the costs of these moves, the Air Force will maximize the use of intra-theatre consecutive overseas tours and continuation of tours. In addition, as we close bases overseas fewer members that are in a must move status (i.e., training schools, controlled tours) will be assigned to overseas areas, thus increasing our CONUS operational moves. All of these actions have increased operational requirements by 40%. The cumulative effect of this action necessitates additional resources to restore mission responsiveness to the Air Force PCS program. Without such funding, the manning and skill imbalances will only be exacerbated.

Pay raise, inflation factors and manning floors are described under "Price Changes" and "Policy Changes" respectively, at the beginning of the permanent change of station detail section.

Average rates are based upon statistical data, ratios and percentages derived from actual PCS operational move costs. The number of officer and enlisted moves and associated numbers for each element of expense (e.g., military member, dependent, household goods, etc.) times the average rate results in estimated funding required.

The number of moves and associated fiscal year requirements are shown on the following page (dollars do not include funding for nontemporary storage and temporary lodging expenses). The above fiscal year total dollars include nontemporary storage but do not include dollars for temporary lodging expenses.

PROJECT: Rotational Travel to and from Overseas

PART I : PURPOSE AND SCOPE

Funds to provide for the PCS movements of:

- (1) officers and enlisted personnel from permanent duty stations in CONUS, or training of 20 weeks or more duration, to permanent duty stations overseas; (2) officers and enlisted personnel from permanent duty stations overseas to permanent duty stations in CONUS, or training of 20 weeks or more duration; (3) officers and enlisted personnel from permanent duty stations in one overseas area to permanent duty stations in another overseas area when transoceanic travel is involved; and (4) dependents, household goods, personal effects, trailer allowances and privately owned vehicles of officers and enlisted personnel who are interned (including hospitalized or imprisoned) missing or captured when transoceanic travel is involved.

PART II : JUSTIFICATION OF FUNDS REQUESTED

Air Force rotational PCS funding has been suppressed since FY 1986, causing the Air Force to adopt numerous alternatives to reduce expenditures. The most significant of these actions has been the lowering of the overseas manning allocation caps for long and short tour areas. This means that the overseas commands will receive allocations to bring them up to specified levels. These plus several other actions were intended as short-term alternatives (e.g., infusion of Technical Training Graduates, Overseas Tour Extension Incentive Program, Throwbacks, Assignment Keep, etc.); however, continued reduced budget authority has forced these programs to become institutionalized. The FY 1990 budget shortfall resulted in a 2-month involuntary extension of 13,500 overseas personnel. The lowered manning levels, coupled with inexperience, has raised concerns for mission readiness, safety, increased training requirements, decreased morale, and optimum resource utilization. FY 1991/1992/1993 will face an additional strain on rotational travel due to mandated force structure actions, e.g., Defense Management Review, Base Closures and force structures driven by strength reductions. These actions have increased rotational requirements by approximately 15%. This percentage is the net of actual additional moves offset by reduced moves when we stop the pipeline to send people to these bases. To further aggravate the PCS budget, world turbulence has increased PCS requirements as we change tour lengths and accommodate all personnel in some areas within the confines of the base. The cumulative effect of these actions necessitate the injection of resources reflected in this budget to restore mission responsiveness in the Air Force PCS program. Without such funding, the lower manning and inexperience will only be exacerbated. Pay raise, inflation factors and manning floors are described under "Price Changes" and "Policy Changes" at the beginning of the permanent change of station detail section.

Average rates are based upon statistical data, ratios and percentages derived from actual PCS rotational move costs. The number of officer and enlisted moves and associated numbers for each element of expense (e.g., military member, dependent, household goods, etc.) times the average rate result in estimated funding required. The number of moves and associated fiscal year requirements are shown on the following page (dollars do not include funding for nontemporary storage or temporary lodging expenses). The above fiscal year dollars include nontemporary storage, but do not include dollars for temporary lodging expenses.

PROJECT: Separation Travel

PART I - PURPOSE AND SCOPE

Funds provide for the PCS movements of:

- (1) officers and enlisted personnel upon release or separation from the Air Force from last permanent duty station to home of record or point of entry into the service or to home of selection when authorized by law; (2) dependents, household goods, trailer allowances and personal effects of officers and enlisted personnel who are deceased; and (3) eliminated Air Force Academy cadets to home of record or point of entry into the service.

PART II - JUSTIFICATION OF FUNDS REQUESTED

The estimates for separation travel cover general separations and retirements from the Air Force. The PCS requirements for separation travel are based upon officer, enlisted and cadet losses as reflected in the Air Force personnel programs. Separation travel covers disability separations, honorable separations, enlisted personnel on expiration term of service and normal early releases, retirements, etc.

Total estimated separation moves increased as a result of normal separations as well as increased force management actions required to meet reduced force structure contained in this budget. The increase in separation travel in FY93 is due to management action to meet lower end strength. Pay raise and inflation factors are explained in the "Price Changes" section at the beginning of the Permanent Change of Station detail section.

Average rates are based upon statistical data, ratios, and percentages derived from actual officer, enlisted and cadet separation PCS move costs. The number of separation moves (officer, enlisted and cadets) and associated numbers for each element of expense (e.g., military member, dependents, household goods, etc.) times the appropriate rate for each category results in the estimated funding required.

The number of moves and fiscal year requirements are shown on the following pages (dollars do not include funding for nontemporary storage; members are not entitled to temporary lodging expenses. The above fiscal year dollars include nontemporary storage.

PROJECT: Travel of Organized Units

PART I - PURPOSE AND SCOPE

Funds provide for the CONUS or overseas movement of:

- (1) officer and enlisted personnel directed to move as members of an organized unit movement; and (2) officer and enlisted replacements directed to move as part of the unit move.

PART II - JUSTIFICATION OF FUNDS REQUESTED

The estimates for organized unit travel include requirements for relocation of Air Force units from both the CONUS and overseas in accordance with published Air Force programs. These moves are required as a result of changes in force reductions, force positioning and the requirement to maintain strategic and tactical integrity of units.

The Air Force estimate of organized unit move requirements is based on the most comprehensive/factual planning data available, on the DoD regulation definition of a unit move, and on historical Program Change Request data. Anticipated moves are tracked throughout the operating and budget years since mission requirements dictate changes to the initial schedule.

Estimated unit moves will increase dramatically in the beginning to mid-1990s. The decrease in unit moves in FY1992 results from the regulation definition of a unit move. Although we have units moving slightly below the levels in FY1991 and FY1993, the units are not moving all of the equipment currently assigned to them. By regulation direction, we can not call these unit moves. The estimated number of moves required include mandated force structure and drawdown actions e.g., Defense Management Reviews, base closures, and force structure related to end strength reductions. Without the appropriate funds, these moves will have to be made using existing Operational and Rotational funds, jeopardizing our ability to maintain mission readiness. Pay raise and inflation factors are described under "Price Changes" at the beginning of the Permanent Change of Station detail section.

The average rates are based upon statistical data, ratios and percentages derived from actual PCS organized unit move costs. The number of officer and enlisted organized unit moves and associated numbers for each element of expense (e.g., military member, dependents, household goods, etc.) times the average rates results in the estimated fund requirements. The number of moves and fiscal year requirements are shown on the following pages (dollars do not include funding for nontemporary storage or temporary lodging expenses). The above fiscal year total dollars include nontemporary storage, but do not include dollars for temporary lodging expenses.

PROJECT: Unemployment Benefits Paid to Ex-Service Members

PART I - PURPOSE AND SCOPE

Funds are for payments of unemployment benefits to ex-service members who are discharged or released under honorable conditions as prescribed in Paragraph (1) of Section 8521(a) of Title 5, United States Code. Generally, eligibility is defined as active service in the Armed Forces where upon the individual was discharged under honorable conditions (and if an officer, did not resign for the good of the service); and had completed his first full term of active service; or was discharged before completing his first term under an early release program, because of hardship, for medical reasons, or for personality disorders or inaptitude (but only if the service was continuous for 365 days or more).

Prior to FY84 the Department of Labor (DOL) budgeted and paid the individual states for the Federal Government's share of applicable unemployment compensation for ex-servicemen. Beginning in FY 1984 (October 1, 1983), the Department of Defense (DoD) was required to budget for the costs of regular and extended unemployment benefits. Funds appropriated for paying these benefits are deposited by DoD into a Treasury account entitled "Federal Employees Compensation Account."

PART II - JUSTIFICATION OF FUNDS REQUESTED

Cost estimates are based on Department of Labor and Department of Defense historical experience.

FY 1990 Actual		FY 1991 Estimate		FY 1992 Estimate		FY 1993 Estimate

PROJECT: Survivor Benefits

FY 1990	Actual	\$11,004
FY 1991	Estimate	11,200
FY 1992	Estimate	11,400
FY 1993	Estimate	\$11,600

PART I - PURPOSE AND SCOPE

Funds are requested to provide for payments of restored social security benefits to widows and orphans of Military Personnel, Air Force. These benefits were withdrawn under Public Law 97-35 which terminated the "mother's" benefits when the last child in custody of the surviving spouse reached age 16, rather than 18, and affected the "school child" by either eliminating benefit payments or by requiring a reduction in benefits. Section 156 of Public Law 97-377 modified by section 943 of the DoD Authorization Act, FY 1984, P.L. 98-54, 97 Stat, 614, restored these social security benefits to survivors of military members and directed the Department of Defense to budget for this requirement.

PART II - JUSTIFICATION OF FUNDS REQUESTED

Cost estimates are based on factors furnished by the Veterans Administration.

PROJECT: Adoption Reimbursement Program

FY 1990 Actual	\$1,000
FY 1991 Estimate	2,000
FY 1992 Estimate	0
FY 1993 Estimate	\$ 0

PART I - PURPOSE AND SCOPE

The National Defense Authorization Act for fiscal years 1988 and 1989 (Public Law 100-180), section 638, instructed the Secretary of Defense to establish a program under which members of the Armed Forces may be reimbursed for qualifying child adoption expenses. Program terminates after FY 1991.

PART II - JUSTIFICATION OF FUNDS REQUESTED

Funds payments of adoption expenses incurred by active duty members in the adoption of a child under 18 years of age. Expenses include, public and private agency fees; placement fees; legal fees; medical expenses for the child, the biological mother, and the adopting parents; temporary foster care; transportation expenses; and other expenses approved by OSD (FM&P).
