PREFACE

Ethics: A Selected Bibliography, now in its third revised edition, was compiled to support the study of ethics, one of the "enduring themes" of the U.S. Army War College's curriculum. Like the earlier bibliographies, this list covers some the fundamentals of moral philosophy, as well as a broad range of contemporary ethical issues.

In general, it contains books, documents, and videos published during the past ten years, and periodical articles from the last five. All materials are readily available in the USAWC Library's collection.

For additional information, please contact the compiler, Virginia Shope, Research and Information Services Branch, U.S. Army War College Library, DSN 242-3660 or Commercial (717) 245-3660.

I shall be telling this with a sigh...
Somewhere ages and ages hence:
Two roads diverged in a wood, and I--
I took the one less traveled by,
And that has made all the difference.

--Robert Frost
