REVIEW AND APPROVAL STATEMENT

USAFETAC/DS-94/037, *Station Climatic Summaries—China, the Former USSR, and Mongolia*, February 1994, is approved for public release. There is no objection to unlimited distribution of this document to the public at large, or by the Defense Technical Information Center (DTIC) to the National Technical Information Service (NTIS).

REPORT DOCUMENTATION PAGE

2. Report Date: February 1994
3. Report Type: Data Summary
4. Title: Station Climatic Summaries—China, the Former USSR, and Mongolia
7. Performing Organization Name and Address: USAF Environmental Technical Applications Center (USAFETAC), Bldg 859 Buchanan St, Scott Air Force Base IL 62225-5116.
8. Performing Organization Report Number: USAFETAC/DS-94/037
11. Supplementary Notes: Supersedes USAFETAC/DS-90/037, August 1990, (AD-A229298).
12. Distribution/Availability Statement: Approved for public release; distribution is unlimited.

13. Abstract: A collection of summarized monthly and annual climatic data for specific locations in China, the former Union of Soviet Socialist Republics (USSR), and Mongolia. The last entry in this collection is February 1992. Summarized climatological elements are: percent frequency of occurrence of ceiling and visibility; means, extremes and number of days with specified values of temperature, precipitation, and snowfall; means of relative humidity, vapor pressure, dew point, pressure altitude, and cloud cover; prevailing wind direction, with mean and extreme speeds; and number of days with thunderstorms and fog.

18. Subject Terms: CLIMATOLOGY, CLIMATE, WEATHER, METEOROLOGY, METEOROLOGICAL PHENOMENA, SUMMARIES, CHINA, USSR, UNION OF SOVIET SOCIALIST REPUBLICS, AZERBAIJAN, ARMENIA, BELARUS, ESTONIA, GEORGIA, KAZAKHSTAN, KYGYSTAN, LATVIA, LITHUANIA, MOLDOVA, RUSSIA, UKRAINE, TAJIKISTAN, TURKMENISTAN, UZBEKISTAN, MONGOLIA, ceiling, visibility, precipitation, surface wind, temperature, relative humidity, dew point, cloud cover, vapor pressure, pressure altitude, thunderstorm, snowfall.

15. Number of Pages: 570
17. Security Classification of Report: UNCLASSIFIED
18. Security Classification of this Page: UNCLASSIFIED
19. Security Classification of Abstract: UNCLASSIFIED
20. Limitation of Abstract: UL

Standard Form 298

STATION CLIMATIC SUMMARIES

The "Station Climatic Summary" series is assembled and published by the USAF Environmental Technical Applications Center (USAFETAC). The series comprises regional collections of short climatological data summaries for specific stations worldwide. Formats have evolved over the years and as the collections grow larger there is more variety in the way the data is presented. For example, a typical dataset for a given station might include the "AWS Climatic Brief" and an addendum. An "Operational Climatic Data Summary" (or OCDS) might constitute another dataset for certain stations. A two-page "OCDS Supplement" may supplement an AWS Climatic Brief. There may be combinations of all of these. The two main data types are described below:

AWS Climatic Brief: A computer-prepared summary of monthly and annual climatic data for an individual station. If there are shortfalls or limitations in the station's database, the brief will be labeled as "limited," with the reasons included in remarks. Some older briefs are accompanied by an "Addendum." USAFETAC's Operating Location A at Asheville, NC, creates a new climatic brief whenever it prepares a new Surface Observations Climatic Summary (SOCS--formerly RUSSWO, Revised Uniform Summary of Surface Observations) or updates an existing one. A new SOCS is prepared whenever an initial 5-year period of record becomes available. Existing SOCS/RUSSWOs are updated whenever 5 additional years of data are added to the original database. For a brief period in 1988, AWS Climatic Briefs were produced manually, using data provided by OL-A. These products spanned the breach between the older AWS Climatic Brief and the fully automated version now being produced as a part of each SOCS.

Operational Climatic Data Summary: A four-page typewritten summary of monthly and annual climatic data prepared by USAFETAC/DOC when the creation of a standard climatic brief is impractical because of lack of data (period of record too short for SOCS creation, no "summary of day" data available) or to answer a short-notice request. DOC normally uses the latest 10-year period of record (hourly data), more if available. These data are supplemented from other sources such as earlier periods of record, data from contemporary and/or earlier stations, and published data from other sources. All sources are given in the legend. A two-page "Operational Climatic Data Summary Supplement" may follow either of the two preceding data types. OCDSs are not routinely updated.

Which Product to Use? Normally, only one of the two products described above is prepared for a given station; however, when a station has both an "AWS Climatic Brief" and an "Operational Climatic Data Summary," users should decide (from data source and POR) which is the better product for a particular application.

Data Included. The datasets described above normally include monthly and annual climatic data for at least the following elements: Temperature (means and extremes, daily and monthly); relative humidity, vapor pressure, and dew point; pressure altitude, surface winds, precipitation, and mean cloud cover; thunderstorm and fog occurrence (mean number of days); and flying weather by ceiling and visibility categories.

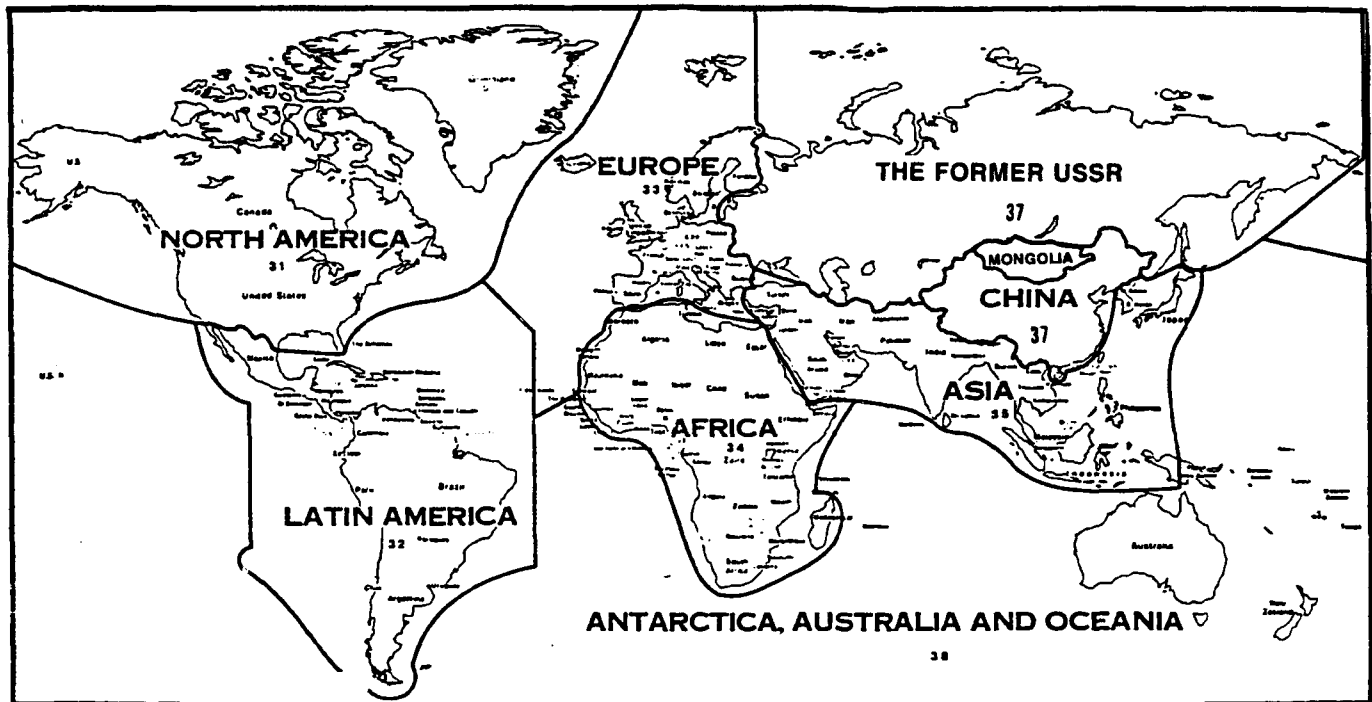

Questions or Comments? Contact USAFETAC/DOC, Scott AFB, IL 62225-5116, DSN 576-3158.

Regional collections of climatic summaries are published as "data summaries"--numbered as below--for each of the seven major geographical areas listed and shown on the map. Each collection is revised when and as required. When a revision is issued, the "DS" end number remains the same (i.e., North America is 031, Europe is 033, and so on); only the year of issue changes. The map shows regional boundaries that correspond to the numbers assigned each volume.

USAFETAC/DS-XX/031 North America
Volume 1 Contiguous United States
Volume 2 Alaska, Canada, and Greenland
 USAFETAC/DS-XX/032 Latin America
Volume 1 Mexico and Central America
Volume 2 Caribbean Islands and West Indies
Volume 3 South America

USAFETAC/DS-XX/033 Europe
 USAFETAC/DS-XX/034 Africa
 USAFETAC/DS-XX/035 Asia
 USAFETAC/DS-XX/037 China, the Former USSR, and Mongolia
 USAFETAC/DS-XX/038 Antarctica, Australia, and Oceania

*USAFETAC/DS-XX/036, China, was merged with USAFETAC/DS-XX/037 in 1990.
