FOREWORD

This Supplement to DoD 4000.25-7-M, Military Standard Billing System (MILSBILLS), is issued under the authority of DoD Directive 4140.1, Materiel Management Policy. The Supplement publishes fund codes established for use in MILSBILLS; prescribes uniform procedures for converting these fund codes to treasury account symbols and billed DoD activity address codes; publishes period of availability data for account symbols used in the interfund billing system, and identifies "H" series DoD Activity Address Codes (DoDAACs) authorized to receive interfund bills.

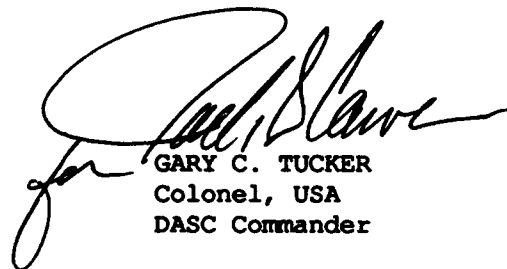

The provisions of this Supplement are effective immediately and are mandatory for use by the Office of the Secretary of Defense, the Military Departments, the Organization of the Joint Chiefs of Staff, the Defense Agencies, and Defense Organizations (hereafter referred to collectively as the DoD Components) and, by agreement, the General Services Administration.

Send recommended changes to this Supplement to your focal point. Focal points are identified in Chapter 1.

DoD Components may obtain copies of this Supplement through their publication channels. Other Federal Agencies and the public may obtain copies from:

Defense Logistics Agency Administrative Support Center

CHAPTER 1

GENERAL INFORMATION

A. AUTHORITY

DoD Directive 4140.1 (reference (a)) and DoD Instruction 7420.12 (reference (b)).

B. PURPOSE

The purpose of this Supplement is to publish information needed, within the Department of Defense and participating Agencies, to convert DoD fund codes to appropriation accounts. These accounts are used to report disbursements processed under interfund billing procedures as prescribed by DoD 4000.25-7-M (reference (c)). In addition, when, through other coding, the fund code is used to designate an office to be billed, this Supplement provides the appropriate fund code to DoDAAC (billed office) conversion. This Supplement also identifies those "H" series DoD Activity Address Codes which are authorized to request interfund billing.

C. APPLICABILITY AND SCOPE

The provisions of this Supplement apply to the Office of the Secretary of Defense, the Military Departments, the Defense Agencies, the Organization of the Joint Chiefs of Staff; the Unified and Specified Commands, Defense Organizations (hereafter referred to collectively as the DoD Components) and, by agreement, to the General Services Administration and other organizations using Defense Logistics Management Standards.

D. POLICY

The procedures contained in this Supplement will be uniformly implemented within and between all DoD Components. Priority will be given to the development and implementation of DLSS procedures prior to separate development and implementation of internal procedures. Requests for deviations or waivers will be considered when it can be demonstrated that the system in question cannot provide a workable method or

procedure. Deviation or waivers should not be requested solely to accommodate existing internal procedures or organizational environments.

E. NUMBERING SYSTEM

1. Each chapter is divided into sections and, where necessary, into paragraphs and subparagraphs. Sections are indicated by capital letters, paragraphs by numbers. Subdivisions of paragraphs are indicated by lower case letters, numbers in parentheses and brackets, and lower case letters in parentheses and brackets as follows:

Chapter 1

SECTION A

Paragraph 1.

Subparagraph a.

Subparagraph (1).

Subparagraph (a).

Subparagraph [1].

Subparagraph [a].

2. Appendices are identified by alphabetic and numerics to indicate an alphabetic group, e.g., A1, A2, B1, B2.

3. Pages are numbered in a separate series for each chapter and appendix. Pages of a chapter are numbered in sequence with Arabic numerals beginning with 1. Each page number of a chapter is preceded by the number of the chapter. The page numbering system of the appendices indicates the number of the appendix, i.e., B1-, B2-, etc., followed by the page number of the appendix.

F. DISTRIBUTION OF THE SUPPLEMENT

1. DoD Components desiring copies of this publication will provide the Defense Logistics Agency with an open rider requisition using SF 1, Printing and Binding Requisition, and bulk distribution lists to cover all printed changes to this Supplement. The SF 1 will be sent to:

Defense Logistics Agency Administrative Support Center

ATTN: DASC-PM

Cameron Station

Alexandria, Virginia 22304-6100

2. The Defense Logistics Agency will distribute this Supplement and formal changes to DoD Components and participating organizations as indicated in their open rider requisition. Further distribution is accomplished within each organization based upon that organization's internal distribution procedures. Individuals and organizations desiring copies of this publication will contact their local publications distribution office.

CHAPTER 2

CHANGES

A. PROPOSED CHANGES

1. Activities proposing to change this Supplement will forward the request to their focal point as designated in chapter 1.

2. If the focal point concurs with the proposed change, the representative will, depending on the nature of the change, forward changes to DAASC or the MILSBILLS Administrator. Changes affecting the codes listed in the A, B, or D series appendices will be forwarded to the DAASC. All other changes will be forwarded to the DoD MILSBILLS Administrator.

3. The DoD MILSBILLS Administrator will normally publish all change requests to this Supplement without staffing. However, when a standard procedure or policy is potentially involved, the change will require formal staffing as prescribed by reference (c) and, therefore, the following minimum information must accompany the change:

a. A narrative description of the basic concept underlying the proposed change.

b. A narrative description of the rationale for the proposed change.

c. Known or potential interface with or impact on other DLSS or non-DLSS logistics or financial system.

d. Operational statement identifying known or potential advantages and disadvantages resulting from the proposed revision.

e. Proposed wording changes for the Supplement and other affected DoD publications.

4. Changes to the A series appendices, forwarded to the DAASC, which will add fund symbols for accounts not listed in the C series appendices will be reported to the DoD MILSBILLS Administrator and will include the number of years the fund account is available for obligation

and in the case of transfer accounts, will identify the transferring departmental index. All fund account symbols must either be valid, as determined by reference (d), or provide specific account symbol conversion instructions for reporting the account to Treasury. Fund account symbols and suffix/limit codes for OSD (97) appropriations must be consistent with those prescribed by reference (e). Fund code deletions which eliminate the need for a fund symbol in the C series appendices will also be reported to the administrator.

B. FUND CODE PROCEDURES

1. The DAASC can only accept fund code changes from the Service or Agency focal points identified in chapter 1. Activities must forward fund code related changes to their designated MILSBILLS focal point representative. The focal point representative will review and forward the changes to the DAASC in the DI Code FCA and FCB record format. The records may be forwarded via AUTODIN, data pattern message, or diskette.

2. All submissions will include a text header record (DI Code FCT) as the first record and will be forwarded to the DAASC using COMM RI Code RUEOZZA, Line Mode Format "TC," and CIC IFHA. Submissions by message will be formatted as described in the sample fund code change message, appendix E-4. Diskette submissions must be ASCII formatted using 5 1/4" (360KB or 1.2MB) or 3 1/2" (720KB or 1.44MB), IBM compatible, and in the prescribed 80 character record format. See appendix E for the record formats.

3. Once each month, the DAASC will forward a fund code interim change message to offices identified by their Service or Agency MILSBILLS Focal Point representative. The following offices have been identified by their representative to receive the fund code change message.

4. At the end of each calendar quarter the DAASC will provide a cumulative change to the DoD MILSBILLS Administrator for publication as a formal change. Upon request, usually at the end of a fiscal year, the DAASC will provide the Administrator with replacement pages in support of a reissuance of the Supplement. Formal changes and reissuances will be distributed through normal publications channels.

C. EFFECTIVE DATES

1. Routine fund code related changes will be effective the first day of a month and must be forwarded to DAASC no later than 2 workdays

before the 15th of the month preceeding the desired effective month. The DAASC will not hold or warehouse changes, therefore, requested effective dates are understood to mean "no later than." For example, changes received on 11 Jan. will be effective on 1 Feb., even if the requested date were 1 Mar. Changes received on 18 Jan. will be effective 1 Mar., even if the requested effective date were 1 Feb.

2. Other changes; that is, changes requiring staffing, will be effective as determined by the DoD MILSBILLS Administrator or the staffing process, as appropriate.

D. PUBLICATION OF CHANGES

1. Formal changes to Supplement 1 will be published as needed. Formal changes will be numbered consecutively and, with the exception of code changes; that is, changes to A, B, and D appendices, will be issued as page replacements. Current changes will be indicated by marginal lines. Changes affecting the codes identified in A, B, and D series appendices will be published on a cumulative basis. Current changes to codes will be identified by marginal asterisks.

2. Interim changes for other than appendix A, B, or D code changes will be published only for changes which are needed to publish emergency or other changes when there is insufficient time to publish a formal change. All interim changes will be incorporated in a formal change without undue delay. Interim changes will be numbered consecutively and will indicate the formal change in which it will be incorporated. For example, the second interim change to be incorporated in change 3 will be numbered "IC 3-2." The MILSBILLS Administrator will forward interim changes to Service or Agency MILSBILLS Focal Point representatives.

3. Interim changes for appendices A, B, and D code changes will be published by DAASC each month, including those months when there are no changes. These changes will be numbered by use of the calendar year and the month the change is effective. For example, the second (February) interim change in 1994 to the Supplement will be identified as "9402."

APPENDIX A

FUND CODE TO APPROPRIATION TABLES INTRODUCTION

1. These appendices list fund code to appropriation conversions prescribed for use in the interfund billing system. The appendices also identify those fund codes which require billing under noninterfund procedures. The appropriation conversion for any given fund code is dependent upon the service code of the billed office and the signal code.

2. Billed DoDAACs beginning with C, E, G, HG, HX, L, Q, U, or Z are billed under noninterfund procedures. Accordingly, fund codes for bills citing these fund codes are not translated to appropriations. See DoD 4000.25-7-M (reference (c)) for more complete information on fund codes and their use.

3. Fund codes shown for other Defense Agencies (billed Service code is "H") are reserved for the use of, or authorized to be used by specific Components. Unauthorized use of these codes by other DoD Components should be reported to your focal point representative or the DoD MILSBILLS Administrator.

4. Activities will assign the year for annual funds from the FY of the document number when "#" is shown as the appropriation year in the Fund Code to Appropriation Tables and from the FY of the billing date when "*" is shown as the appropriation year in the tables. For example, if the requisition document number is WXY0012259C001; that is, the requisition date is 15 Sep 92 and the billing date is 15 Oct 92, the year assigned for the annual account would be "3" if an "*" were shown as the year and a "2" if a "#" were shown.

APPENDIX B

FUND CODE TO BILLED DODAAC TABLES INTRODUCTION

1. These appendices list those fund codes which, in conjunction with signal code C or L, designate a billed office DoDAAC. An underscore substituted for the second position of the fund code denotes any letter or numeral considered acceptable. Whenever signal code C or L is cited and (a) the fund code is not prescribed by these appendices and (b) the requisition, excess report, or other document was not rejected, the billed office will be assigned as prescribed in DoD 4000.25-7-M for invalid billed offices.

2. Fund codes serving this purpose are converted to billed office DoDAACs based upon the service code of the requisitioner. The clear-text addresses shown are as prescribed by reference (f) for billings. The meanings of the abbreviations and acronyms reflected in the clear-text addresses can be found in reference (g).

3. Requests for changes to these codes will be processed as prescribed in chapter 2.

APPENDIX C

APPROPRIATION ACCOUNT SYMBOLS INTRODUCTION

1. The C series appendices list the years of availability for obligation and the associated departmental reporting requirements for those fund accounts identified in the A series appendices. There is a separate appendix for each departmental index.

2. The years of availability for obligation may be used to determine whether the fund account designated in a requisition or excess report has lapsed, and, correspondingly, whether interfund charges or credits to the account should be reported to the Treasury as applicable to the successor M account. Accounts lapse in the second fiscal year following the final year of availability, and may not be reported to the Treasury Department. Central accounts offices, in preparing their departmental Statement of Interfund Transactions, will convert the symbols of lapsed accounts, reflected in the interfund bills reported each month, to the symbol of the associated M account and convert all invalid account symbols to the clearing account, F3885 - "Undistributed Intragovernmental Payments."

3. The following examples (assume 1983 is the current fiscal year) illustrate the use of the period of availability:

APPENDIX D

INTERFUND BILLING FOR SERVICE CODE H REQUISITIONERS INTRODUCTION

1. This appendix lists those DoD Components using "H" series DoDAACs who desire the option of using the interfund billing system.

2. When Other DoD Activity ("H" series DoDAAC) requisitions are routed by the DAASC, the DAASC will compare the requisitioner's DoDAAC to those on this list. If this "H" series DoDAAC is not on the list and the fund code is not "XP," the DAASC will change the fund code to "XP" thus ensuring billing under noninterfund procedures. Requisitioners whose DoDAACs are included on the list may use "XP" or any other fund code. Those whose DoDAACs are not on the list should always use "XP" fund code.

3. Other DoD Activities who desire to add or delete their "H" Series DoDAAC from the list should forward their request to:
