OPERATION AND MAINTENANCE, NAVY

(\$ In Millions)

<u>FY 1993 Actual</u>	<u>Price Growth</u>	<u>Program Growth</u>	<u>FY 1994 Estimate</u>	<u>Price Growth</u>	<u>Program Growth</u>	<u>FY 1995 Estimate</u>
21,248.0	859.1	-2,069.9	20,037.2	1,364.6	-174.6	21,227.2

The Operation and Maintenance, Navy (O&M,N) appropriation finances the day-to-day costs of operating and training naval forces, including fuel, supplies, and maintenance costs of ships, Navy and Marine Corps aircraft, other related weapons systems, and the support establishment ashore for naval forces.

The FY 1994 estimate of \$20,037.2 million includes price growth of \$859.1 million. This price increase primarily results from fuel rate changes, Defense Business Operations Fund (DBOF) materials and supplies price changes, increased payments to the Defense Finance and Accounting Service (DFAS), and other purchases inflation. The program reduction of \$2,069.9 million includes net transfers in of \$560.3 million and program decreases of \$2,630.2 million. Significant transfers include major repair projects and minor construction from the Real Property Maintenance, Defense appropriation, nuclear alterations from the Other Procurement, Navy appropriation, and Aircraft rework for the EA-6 and T-45 aircraft from the Aircraft Procurement, Navy appropriation. Program decreases result from a decline in both naval forces and aviation forces and their support structure, base closure savings, a cyclical decline in depot maintenance, and a reduction in Desert Storm/Desert Shield funding from FY 1993.

The FY 1995 estimate of \$21,227.2 million includes price growth of \$1,364.6 million. This price increase primarily results from Defense Business Operations Fund (DBOF) materials and supplies price changes, increased payments to the Defense Finance and Accounting Service (DFAS), annualized cost of the FY 1994 locality pay increase, and other purchases inflation. The program reduction of \$174.6 million includes net transfers in of \$463.3

million and program decreases of \$637.9 million. Significant transfers include Fleet Modernization Support from the Other Procurement, Navy appropriation and OPTEMPO funding for Counter-Narcotics from the Drug Interdiction, Defense account. Major program increases include \$45.3 million for aircraft depot maintenance due to an aging aircraft inventory, \$357.5 million for selected ship maintenance availabilities, and in particular the complex overhaul of the USS Eisenhower. Major program decreases reflect \$677.7 million for ship and aviation force downsizing, \$174.4 million for management initiatives to restructure and streamline the maintenance infrastructure, and \$86.9 million Base Closure III savings. It should be noted that the FY 1995 decrease is understated by \$166.1 million due to absorption in FY 1994 of the locality pay increase and unbudgeted separation incentive payments. This shortfall will be redressed during FY 1994 in a formal reprogramming request to reinstate the required program baseline. Significant changes by budget activity are as follows:

	<u>FY 1993</u>	<u>FY 1994</u>	<u>FY 1995</u>
Budget Activity 1: <u>Operating Forces</u>	14,522.7	13,819.6	14,749.2

The Operating Forces budget activity funds the Navy's air operations, ship operations combat operations/support, and weapons support. Included in each of these programs are depot maintenance costs and the costs associated with operating Navy shore bases to support these missions.

The FY 1994 estimate of \$13,819.6 million includes price growth of \$547.4 million and a program decline of \$1,250.5 million. This program decrease is due to force structure reductions, base closures and realignments, less ship depot maintenance, and a decrease of Operation Desert Shield/Storm funding in FY 1994.

The FY 1995 budget request of \$14,749.2 million provides \$4,632.7 million for Air Operations, \$7,032.7 million for Ship Operations, \$1,573.2 million for Combat Operations/Support, and \$1,510.6 million for Weapons Support. Price growth increases by \$1,113.0 million and programs decrease by \$183.4 million, principally reflecting continued force drawdown and base closures.

Air Operations

<u>FY 1993</u>	<u>FY 1994</u>	<u>FY 1995</u>
4,284.5	4,217.6	4,632.7

The FY 1994 request decreases \$66.9 million from the FY 1993 budget. This includes \$142.1 million in price growth and \$209.0 million in program reductions. Program decreases are driven by the reconfiguration of the carrier air wing allowing for a reduced number of strike aircraft and manpower. Two A-6, two F-14, and two P-3C squadrons will be decommissioned. These changes allow for reduced training levels. Also reflected is a decrease associated with lower maintenance required at bases planned for closure. The program decreases are offset by several program increases for mission critical work to support aircraft transitioning to out-of-production status and to maintain an aging inventory, the transfer of funding for repair projects from Real Property Maintenance, Defense (RPM,D) back to O&MN, an increased emphasis on Quality of Life initiatives for bachelor quarters improvements and increases in Morale, Welfare, and Recreation (MWR) efforts. Full funding is provided for environmental compliance.

The FY 1995 request increases \$415.1 million from the FY 1994 baseline. This includes \$487.6 million in price growth and \$72.5 million in program decreases. Program decreases reflect the decommissioning of a carrier air wing and three A-6 squadrons, force structure reduction of Maritime Patrol Aircraft to 13 active squadrons, a crew reduction on the P-3 and crew seat ratio reductions for both the S-3 and F/A-18 aircraft. FY 1995 funding also decreases as a result of a functional transfer of Tactical Software Support to the Logistics Operations and Technical Support activity group in Budget Activity 4. Support areas are reduced commensurate with forces. The program reduction decreases are partially offset by several program increases including training increases that reflect the requirement for pilots and naval flight officers associated with the change in composition of the carrier air wing to undergo new and refresher training in more multi-role fighter attack aircraft. Real property maintenance funding also increases to reduce the critical backlog of maintenance and repair projects.

	<u>FY 1993</u>	<u>FY 1994</u>	<u>FY 1995</u>
Ship Operations	6,816.0	6,399.9	7,032.7

The FY 1994 request decreases by \$416.1 million from FY 1993. This includes \$327.4 million in price growth and \$743.5 million in program decreases. The program declines consistent with the drop in battle force ships in FY 1994, which affects all activities funded within this mission area, and a change in the number and mix of ship maintenance availabilities. Decreased O&M,N costs also result from the cessation of the Department of Energy's nuclear fuel reprocessing program. The decline in funding is partially offset by increases in per diem rates as the combat stores ships (AFS Class) transfers to the Military Sealift Command, and funding for the Nuclear Alterations Program transfers from the Other Procurement, Navy appropriation. The transfer of major repair and minor construction projects from RPM,D, Quality-of-Life increases in the NWR and BQ programs, and full funding of environmental compliance also contribute to offset the decline.

The FY 1995 request increases by \$632.8 million from FY 1994. The net increase is comprised of price growth of \$479.2 million and program increases of \$153.6 million. Increases result from a greater number of ship overhauls, including the complex overhaul of the nuclear aircraft carrier USS Eisenhower. The increase is offset by program declines consistent with the drop of 14 active and reserve ships from the Battle Force Ships inventory in FY 1995, which affects all activities funded within this mission area.

	<u>FY 1993</u>	<u>FY 1994</u>	<u>FY 1995</u>
Combat Operations/Support	1,653.0	1,686.1	1,573.3

The FY 1994 request increases by \$33.1 million from FY 1993. This includes \$47.9 million in program decreases and \$81.0 million in price growth. Program increases support the operation of ten additional landing craft air cushion (LCAC) vehicles, an expanded mission of the U.S. Atlantic Command (USACOM) for joint raining, peace keeping, and expanded post-Desert Storm missions for the Naval Central Command (NAVCENT) in Southwest Asia to establish a major U.S. military presence. These increases are more than offset by completion of Desert Storm efforts and the deactivation of two ocean surveillance (TAGOS) ships.

The FY 1995 request decreases by \$112.8 million from FY 1994. This includes \$157.6 million in net program decreases and price increases of \$44.8 million. Program increases support the operation of ten additional LCAC vehicles and additional equipment maintenance for aircraft structural, safety and support deficiencies to offset the aging force. These increases are offset by decreases in space systems and surveillance, combat communications, warfare tactics, and meteorology and oceanography. These decreases reflect the placement of SOSUS in a standby mode, the reduction of two TAGOS ships in full operating status, a reduction in commercial communications satellite lease costs, fewer anticipated inspections in support of the Open Skies Treaty and termination of aircraft leases for TACAMO training.

	<u>FY 1993</u>	<u>FY 1994</u>	<u>FY 1995</u>
Weapons Support	1,769.2	1,516.1	1,510.6

The FY 1994 request of \$1,516.1 million declines by \$253.1 million from FY 1993. This includes \$250.0 million in program decreases and a \$3.1 million decrease in price growth. Program decreases are primarily in weapons maintenance and TRIDENT C4/D5 programs.

The FY 1995 request declines by \$5.5 million from FY 1994. This decrease includes \$106.9 million in program decreases partially offset by \$101.4 million in price growth. Program decreases in weapons maintenance and TRIDENT C4/D5 programs reflect implementation of a new maintenance concept consolidating depot and intermediate level activities and their support structures into regional hubs.

	<u>FY 1993</u>	<u>FY 1994</u>	<u>FY 1995</u>
Budget Activity 2: Mobilization	927.1	1,409.0	1,372.7

This budget activity maintains forces for rapid response to unforeseen contingencies throughout the world. This includes fast sealift ships, maritime prepositioning ships, hospital ships and aviation maintenance ships. Each of the three Maritime Prepositioning Ship Squadrons will support a Marine Expeditionary Brigade for 30 days. The remaining ships support cargo/hospital operations for many different types and sizes of military operations. This budget activity also includes funds for the inactivation of existing naval assets including ships, aircraft, and weapons and the costs associated with

maintaining selected assets for future mobilization. The third role of this budget activity is to provide the funding needed to maintain Industrial, Coast Guard and Medical peacetime capabilities at the minimal levels required to support the operating forces during periods of conflict or crisis situations.

The FY 1994 program of \$1,409.0 million includes a price increase of \$185.7 million and program increases totaling \$296.2 million. Program increases are primarily due to accelerated decommissionings and inactivations. Price increases are due to a combination of increased per diem rates for the sealift ships and increased man-day costs at the Naval Shipyards.

The FY 1995 program of \$1,372.7 million includes a price increase of \$44.7 million and net program reductions of \$81.0 million. The net program reduction is the result of reduced ship inactivations offset slightly by an increase to maintain Mobilization Costs (Underutilized Plant Capacity) of the Naval Weapons Stations and the Naval Shipyards separate from their rate structure. The price increase is the net result of a decrease in the per diem rates of the prepositioning ships that was more than offset by an increase in the man-day rates at the Naval Shipyards.

	<u>FY 1993</u>	<u>FY 1994</u>	<u>FY 1995</u>
Budget Activity 3: <u>Training and Recruiting</u>	1,499.4	1,591.1	1,630.5

This budget activity funds all centrally managed or directed individual training required to meet Navy standards. This includes accession training, basic skills and undergraduate flight training and professional military education. Other programs funded in this budget activity are Navy recruiting and advertising, off-duty voluntary education, civilian centralized training programs, the Junior Navy Reserve Officer Training Corps (NJROTC) and associated base operating support. The FY 1994 request increases \$91.7 million from FY 1993. This includes price growth of \$42.8 million and program growth of \$48.9 million. The FY 1995 request increases \$39.4 from FY 1994. This includes price growth of \$61.3 million and net program reductions of \$21.9 million.

Accession training supports the U.S. Naval Academy and associated preparatory school, the Naval Officer Candidate School, the Broadened Opportunity for Officer Selection and

Training (BOOST) program, and Recruit Training and associated base operations support. Naval Reserve Officer Training programs are established on the campuses of 57 colleges and universities. Increases in FY 1994 and FY 1995 are largely attributable to the funding of long-term renovations of Bancroft Hall at the Naval Academy and Quality-of-Life programs.

Basic skills and advanced training programs provide both technical training required by enlisted personnel, officers and selected civilians to assume initial and follow-on assignments and also graduate and professional education required for managerial and command positions. FY 1994 and FY 1995 program increases are largely attributable to base operations and Quality-of-Life initiatives. Most FY 1995 programs with the exception of base support, continue to decline in real terms, reflecting the lower number of military personnel, reduced force structure, closure of Naval training centers, and efficiencies anticipated from a recently concluded zero-based training and education review. DBOF rate increases and other purchases inflation account for the net increase over the FY 1994 level.

Recruiting and other training and education programs include recruiting and advertising activities, voluntary education programs, the centralized civilian intern program and the NJROTC. FY 1994 funding increases support Recruiting and Advertising, the Navy Campus Network, and the Program for Afloat College Education and Tuition Assistance. FY 1995 funding decreases for Recruiting and Advertising as a result of the elimination of one recruiting area and other management efficiencies. This reduction is partially offset by an increase for additional Junior ROTC units reflecting additional emphasis on youth citizenship.

Budget Activity 4: Administration and	<u>FY 1993</u>	<u>FY 1994</u>	<u>FY 1995</u>
<u>Servicewide Activities</u>	4,298.8	3,217.6	3,474.8

The Administration and Servicewide Support budget activity funds shore based activities required for the effective operation of the Department of the Navy. The general services provided include administration and personnel support, engineering and acquisition support, security and investigative support, humanitarian and civic support, centralized transportation, communications services, and base operating support.

The FY 1994 program of \$3,217.6 includes price growth of \$83.2 million and program decreases of \$1,164.4 million. Significant decreases include a management initiative to reduce the support establishment consistent with force structure reductions, infrastructure consolidation, declining service-wide transportation, and reduced requirements for cryptologic and intelligence programs.

The FY 1995 program of \$3,474.8 million includes price growth of \$145.4 million and program growth of \$111.8 million. Increases are associated with an increase in real property maintenance, enhancements to military personnel management systems, and the realignment of aircraft and software maintenance functions from Budget Activity 1. These increases are offset by reductions for subsistence-in-kind and service-wide transportation, the discontinuation of several cooperative programs, and reduced payments to the Department of Justice in anticipation of a reduced level of effort for the litigation of the A-12 claim.

Description of Operations Financed:

The Operation and Maintenance, Marine Corps appropriation provides the funding for Marine Corps missions, functions, activities, and facilities except for those requirements related to: procurement of major items of equipment and ammunition, military personnel, military family housing, operations and maintenance of the Marine Corps Reserve, and those functions supported by Navy sponsored appropriations.

The funds contained in this appropriation are intended primarily for the support of the Fleet Marine Forces which consist of 174,000 active military and 14,057 civilian personnel in FY 1995. The primary Marine Corps objective is to train and maintain the Fleet Marine Forces at a high level of combat readiness for service with the fleet, ashore, or for such other duties as the President may direct.

The two Fleet Marine Forces supported by this appropriation are composed of Marine Expeditionary Forces (Division/Wing/Service Support Group Task Organizations), including a combination of combat and combat service support organizations and a variety of supporting units. Funds are also provided to support two landing force training commands, Marine detachments afloat, the security forces assigned to naval and other government activities ashore, maritime prepositioning ships, and Norway prepositioning.

Shore facilities receiving funding support from this appropriation are: three major units support bases; two recruit depots; eleven air installations; two logistics bases; one Marine Corps Combat Development Command; one Marine Corps Systems Command; one Marine Corps Air-Ground Combat Center; and two landing forces training commands.

These facilities are being maintained at standards that will permit effective utilization, avoid major replacement costs, and allow operation and maintenance on an economical and effective basis.

The individual training of enlisted personnel and officers from basic training to the highest Marine Corps technical training and the advanced training at schools of the other Services and at civilian institutions is supported by funds in this appropriations. Such schooling is designed to produce highly trained and disciplined officers and enlisted personnel for duty with the Fleet Marine Corps, capable of leadership growth as well as effective performance.

This appropriation also supports the Marine Corps supply system. the principal objective of the supply system is to provide Marine activities/units with the proper material and equipment in the quantity, condition, time, and place required. Further, it supports other miscellaneous activities such as special training, second destination transportation of things, recruiting, equipment overhaul and repair, and miscellaneous expenses.

All available audit savings have been incorporated into the following budget estimates. Also, included are Defense Management Review Initiatives in the areas of Defense Information Systems Agency (DISA), the Defense Business Operations Fund (DBOP) and Defense Finance and Accounting Service (DFAS) consolidation.

	<u>FY 93</u>	<u>FY 94</u>	<u>FY 95</u>
Budget Activity 1: Operating Forces			
	1,459.3	1,312.3	1,343.8

This budget activity provides funds for Marine Corps expeditionary forces that constitute the Marine Air Ground Team and Marine security forces at naval installations and aboard naval vessels. Also funded is depot maintenance of group equipment, life cycle support of weapons systems, and training and exercises for the Maritime Prepositioning. Significant Budget Activity 1 changes include the reduction of the Depot Maintenance Backlog (\$40.0 million), full year effect of Civilian Locality Pay (\$7.1 million), Foreign Currency adjustment (\$11.7 million), transfer of OPTEMPO resources from the Counter Drug appropriation (\$4.3 million) and Quality of Life (Morale, Welfare and Recreation) issues (\$8.2 million).

Budget Activity 3: Training and Education	265.9	274.6	281.4
--	-------	-------	-------

Budget Activity 3 provides funding for recruiting and advertising, recruit training and Officer Candidate School, special skills training required for a Military Occupational Specialty (MOS), flight training, and civilian education and training. Budget Activity 3 increases include Non-Purchase Inflation (\$4.0

million), full year effect of Civilian Locality Pay (\$2.2 million) and Quality of Life (Morale, Welfare and Recreation) issues (\$1.5 million).

Budget Activity 4: Administration and Service-wide Activities 243.6 270.8 293.2

This Budget Activity funds Headquarters Marine Corps civilian personnel salaries and support, second destination transportation costs of cargo, some logistics support, subsistence-in-kind (SIK), and other miscellaneous costs. Budget Activity 4 highlights include an increase for Defense Finance and Accounting Service reimbursement (\$11.8 million), full year effect of Civilian Locality Pay (\$2.1 million) and Quality of Life (Morale, Welfare and Recreation; Child Care; Family Support) issues (\$6.4 million).

Reconciliation of Increases and Decreases

	<u>\$ in 000</u>
1. FY 1994 Current Estimate	\$1,857,699
2. Pricing Adjustments	78,329
A. Annualization of FY 1994 Locality Pay	
1) Classified	(3,366)
2) Wage Board	1,900
B. FY 1995 Direct Pay Raise	1,466
1) Classified	(5,062)
2) Wage Board	2,940
C. Defense Business Operating Fund (DBOF)	2,122
1) Supplies, Material, and Equipment	(8,414)
2) Fuel	12,278
D. Other Defense Business Operating Fund	-3,864
E. Foreign National Indirect Hire	(27,122)
F. Foreign Currency	(325)
G. Other Pricing	(11,700)
H. FY 1994 Fuel Credit Adjustment	(20,278)
3. Functional Transfers	(2,062)
A. Transfers In	
1) Inter-Appropriation	(4,300)
a) Transfer Drug OPTEMPO funding from Drug Interdiction and Counterdrug Activities, Defense	4,300
B. Transfers Out	(-192)
1) Inter-Appropriation	
a) Transfer funds to the Defense Health Program for Naval Hospital Camp Pendleton fire protection	-192
	4,108

4. Program Increases

A. Annualization of FY 1994 Increases

1) Operating Forces

B. One Time FY 1995 Increases

1) Operating Forces

2) Administration and Servicewide Support

C. Other Program Increases in FY 1995

1) Congress authorized locality pay increase for federal employees nationwide (average increase 3.8 percent).

Because no additional funding was appropriated, the current estimate for FY 1994 was decreased to temporarily offset this price growth. This causes perceived growth from FY 1994 to FY 1995. A reprogramming request will be provided to Congress and, once approved, funding will be restored in FY 1994 and the perceived growth for FY 1994 to FY 1995 will be eliminated.
