DTIC QUALITY INFIELD A

#### PREFACE

#### CHANGES IN THIS ISSUE OF VOLUME I OF THE DOD PROCUREMENT CODING MANUAL

1. <u>SECTION I, PART A.</u> This Part of Section I has been revised to include FY 1969 Programs for Research, Development, Test and Evaluation Contracts.

2. <u>SECTION I, PART C.</u> This Part of Section I has been revised to coincide with the September 1967 edition of Cataloging Handbook H 2-1, "Federal Supply Classification Groups and Classes." New codes or changes in title are indicated by an asterisk (\*).

3. <u>SECTION II</u>. This Section also has been revised to include major systems or equipment for FY 1969.

#### NOTE TO USERS OF THIS MANUAL

This Manual has been developed for use by Army, Navy, Air Force, Defense Supply Agency and other Department of Defense personnel, who are responsible for preparing, coding, editing, or machine processing the Individual Procurement Action Report, DD Form 350, prescribed by Section XXI of the Armed Services Procurement Regulation.

All suggestions and inquiries concerning this Manual shall be referred to the Office of the Assistant Secretary of Defense (Comptroller), ATTN: Directorate for Statistical Services, through one of the following, as appropriate:

Army - Deputy Chief of Staff for Logistics; Data Processing Center, Attn: Procurement Statistics Office, Washington, D. C. 20310 DOD PROCUREMENT CODING MANUAL

#### VOL. I - COMMODITIES & SERVICES CONTENTS (CONT'D)

Navy - Chief of Naval Material; Attn: MAT 0243, Washington, D. C. 20360

Air Force - Logistics Command Data Center; Attn: MCPA, Wright Patterson AFB, Ohio 45433

Defense Supply Agency - Executive Director, Procurement and Production, Cameron Station, ATTN: DSAH-PAR, Alexandria, Virginia 22314

1947 1949 194

#### SECTION I - CODING FOR ITEM 10A OF DD FORM 350 (Federal Supply Class or Service Code)

General. A 4-digit code, as provided by this Section I, shall be entered in Item 10A of every procurement action reported on DD Form 350. Only one code number shall be entered. If more than one code is applicable, enter the code which describes the predominant product or service procured (See also ASPR 21-116.)

If the action is for research, development, test or evaluation work (RDTE), enter a code from Part A of this Section. RDTE is defined in ASPR 4-101. Do not assign a RDTE code to supplies or housekeeping services purchased in support of "in-house" research or development work; such supplies are coded in accordance with Part C of Section I and the services in accordance with Part B. Procurement personnel responsible for coding RDTE actions shall obtain sufficient information from requisitioning personnel to permit accurate classification in accordance with Part A.

If the action is for services other than RDTE work, enter a code from Part B of Section I, and if it is for supplies, enter a code from Part C.

#### PART A - RESEARCH, DEVELOPMENT, TEST AND EVALUATION (RDTE)

Purpose. The DD Form 350 codes in this Part A have been developed to coincide with the RDTE Program Elements in the Department of Defense Programming System. In the case of the Army and Navy, these codes also coincide with Departmental Budget Program Activity Codes (BPAC), while for Air Force they are related to the first two digits of the BPAC. Accordingly, it will be possible to analyze procurement figures in terms of DOD Programs and broad Budget Activities.

Description. The DD Form 350 code consists of four digits as indicated in the following example:

	$\underline{A} \underline{1} \underline{A} \underline{1}$
RDTE	_
Budget Activity (Military Sciences)	
Program Element (General Physics)	
RDTE Category (Research)	

The first digit is always the letter "A" which identifies a RDTE contract. the second digit is numeric from 1 to 9 and identifies the following eight budget activities and a miscellaneous category.

- 1. Military Sciences
- 5. Ships and Small Craft
- 2. Aircraft 6. Ordnance and Combat Vehicles
- 3. Missiles 7. Other Equipment

4. Military Astronautics 8. Program-wide Management and Support

The third digit is a letter or number identifying the specific RDTE element. The fourth digit is numeric from 1 to 6 and identifies the categories of RDTE defined in ASPR 4-101. The title of each code is the Program Element description which has been abbreviated for machine processing to fit within 28 digits.

Selection of Appropriate Code. Each Department or Navy Bureau shall use only that subdivision of Part A designated for it, i.e., Part A(1) for Army, Part A(2)(a) for Naval Air and Ordnance Systems Commands, Part A(2)(b) for all other Navy Activities including Special Projects Office, and Part (A)(3) for Air Force. It will be noted that separate codes are provided in each of these subdivisions for reporting contracts placed for ARPA and NASA. An "All Other" code also is provided for contracts which have not been assigned a specific Budget Activity or Program Element code, or which bear a security classification prohibiting unclassified disclosure of the program element title in combination with other DD Form 350 items.

To determine the appropriate DD Form 350 code, check the contract or purchase request for:

1. The appropriation symbol to insure that the contract is for RDTE. (Do not include housekeeping supplies or services in support of in-house RDTE even though a RDTE appropriation symbol is cited.) The following symbols are currently applicable.

Army	21X2040	Air Force	57X3600
Navy	17X1319	ARPA	97x0400.13

NASA 80X0108

2. The Budget Program Activity Code (BPAC), Subhead Number, Budget Project Number or Program Element Number (PEN) as appropriate. Part A is arranged numerically according to this number which appears in the first column of each subdivision. The corresponding DD Form 350 code for Item 10A appears in the last column of each subdivision of Part A.

a. <u>Army.</u> BPAC numbers are defined in AR 37-100. Only the first four digits of the eight-digit number is used in this Part A.

b. Navy. Subhead numbers are defined in NavCompt Manual, Volume II. Activities other than Naval Air and Ordnance Systems Commands also require a Budget Project Number (BPN) which is assigned by ONR letter. In the fund citation this BPN is written as the first two digits of a five-digit Control Number. geores inse

c. <u>Air Force</u>. Program Element Numbers are prescribed for use in funding and programming by AFSC Regulation 170-1B.

3. Specific Type of Research where the same BPAC, Subhead/Project or PEN has been assigned to more than one DD Form 350 category. This applies only to Army BPAC 5011, Naval Air or Ordnance Supply System Subhead 9X01, other Navy Activity Subhead XXX1 Project 24, and Air Force PEN 6 11 02 F.

When a specific BPAC, Subhead/Project Number of PEN is not given, as in the case of ARPA, NASA or "All Other," it will be necessary to determine from the description of the RDTE the appropriate DD Form 350 code to assign. In this connection, requisitioning personnel shall furnish sufficient information to permit accurate coding.

#### PART B - OTHER SERVICES AND CONSTRUCTION

All services except RDTE work shall be coded in accordance with Part B. Each category is assigned a series of 4-digit codes for specific types of services and construction. The code consists of a letter identifying one of the 14 categories listed below, and 3 numeric digits identifying a specific service within each category.

- J. Maintenance and/or Repair of Equipment
- K. Modification, Alteration and/or Rebuild of Equipment
- L. Technical Representative Services
- M. Operation and/or Maintenance of Government-Owned Facility
- N. Installation of Equipment
- P. Salvage Services
- Q. Medical Services
- R. Architect, Engineer, Expert, and/or Consultant Services
- S. Housekeeping Services
- T. Photographic, Printing, and Publication Services
- U. Training Services
- V. Transportation Services
- W. Lease or Rental, except Transportation Equipment
- Y. Construction
- Z. Maintenance, Repair and Alteration of Real Property

#### PART C - SUPPLIES AND EQUIPMENT

All supply and equipment items will be coded in accordance with this part. Except for the Ships Category (FS Group 19), the classifications used are those contained in the H-2 series of cataloging handbooks, covering the Federal Supply Classification system, and personnel should refer to these handbooks for a complete description of the codes. In the case of ships, a more detailed code is provided herein than is shown in the H-2 handbooks.

#### SECTION I, PART A (2)(a), NAVY RDTE CODES (Air & Ordnance Commands)

This section of the Navy RDTE code is arranged numerically according to the last two digits of the subhead number. A "7" in the first digit identifies the Naval Ordnance Systems Command, and a "9" identifies the Naval Air Systems Command. The second digit identifies the fiscal year, 6 for FY 1966, 7 for FY 1967, 8 for FY 1968 and 9 for FY 1969. An "X" in this position means that the same number was used for the same program title in each of the fiscal years 1968 and 1969. <u>edesesses</u>

## SECTION II - CODING FOR ITEM 10B OF DD FORM 350 (System or Equipment)

<u>Purpose.</u> The DD Form 350 codes in this Section II have been developed to complement the data in the Material Annex (Weapons Dictionary) of the DOD Programming System, and to facilitate analysis of DOD procurement by major weapon system, equipment or item. Only production items are covered by this coding system; RDTE work is excluded since it is covered by Section I, Part A of this manual.

<u>Description and Use</u>. The DD Form 350 code, consisting of three alphabetical digits, is shown in the first column of Section II. The first digit identifies one of the following major categories of equipment:

A.	AITCIAL	Ľ.	Weapons
в.	Aircraft Engines	F.	Ammunition

- C. Missiles & Rockets G. Electronics
- D. Vehicles H. Other Equipment
  - S. Ships

The second digit identifies a subdivision of the major category, e.g., Fighter Aircraft, and the third digit identifies the specific item, e.g., F-111.

Normally each system or equipment code shall include all subsystems, components, repair parts, modifications, repairs and related supplies and services (other than RDTE and construction) which are procured specifically for the system or equipment. Exceptions to this rule are those instances where a specific equipment item or a major component has been assigned a separate code, e.g., J-52 Turbojet Aircraft Engines. If a procurement is for components, parts, or services covering more than one system or equipment, but 75% or more of the dollar amount is allocable to a single system or equipment, the code of that system or equipment shall be assigned. Otherwise, multi-system procurements shall not be assigned a specific code.

Each Department shall use only that part of Section II designated for it, e.g., Part A for Army, Part B for Navy, and Part C for Air Force. The arrangement of systems or equipment by major category is as follows:

1. Aircraft by design number within each basic mission symbol, e.g., A-4, A-5, A-6, F-4.

2. Aircraft Engines by design number within type of engine.

3. Missiles and Rockets by design number.

(Note: If an aircraft, missile or rocket reported on DD Form 350 does not have a mission symbol or letter prefix listed in the Manual but agrees as to design number, the code applicable to that design number shall be assigned. For example, an RB-52 Aircraft would be assigned the code for B-52. The series symbol for an item is not used; e.g., F-lll is used rather than F-lllA or F-lllB.)

4. <u>Air Force Electronics and Communications</u> numerically by system number.

5. All Other Categories alphabetically by key word or words and by size or caliber.

If a system or equipment code is not applicable to a DD Form 350 transaction, or if the system or equipment bears a security classification prohibiting unclassified disclosure of the code title in combination with other DD Form 350 items, the code "000" (three zeros) shall be assigned.

SECTION II, PART C, AIR FORCE SYSTEM OR EQUIPMENT CODE (CONTINUED)

# SECTION III - CODING FOR ITEM LOC OF DD FORM 350 (DD CLAIMANT PROGRAM NUMBER)

A DDCP number designates a grouping of supplies, construction or other services. One of the following code numbers shall be entered in Item 10C of each DD Form 350 in accordance with definitions provided in this Section III.

Code	Program Title
A-lA A-lB A-lC	Airframes and Related Assemblies and Spares Aircraft Engines and Related Spares and Parts Other Aircraft Equipment and Supplies Not Included in A-1A and A-1B
A-2	Missile and Space Systems
A-3	Ships
A-4A A-4B A-5 A-6 A-7	Combat Vehicles Non-Combat Vehicles Weapons Ammunition Electronics and Communications Equipment
A-8A A-8B A-8C A-9 B-1	Petroleum Other Fuels and Lubricants Separately Procured Containers and Handling Equipment Textiles, Clothing and Equipage Building Supplies
B-2 B-3 B-9 C-2	Subsistence Transportation Equipment (Railway) Production Equipment Construction
C-9A C-9B C-9C C-9D C-9E	Construction Equipment Medical and Dental Supplies and Equipment Photographic Equipment and Supplies Materials Handling Equipment All Others Not Identifiable to Any Other Procurement Program

S-1 Services

The former Program C-3 (Maintenance, Repair and Operating Supplies) has been discontinued. All items formerly shown under this Program are to be included in Program C9E. A procurement program selected on the basis of the use of the supplies or work purchased, shall include all items pertaining to the following when planned use is known at the time of purchase:

1. Crating, packaging materials, and dunnage

2. Conversion, maintenance, and repair, including:

- a. Materials
- b. Services (performed by contractors)
- c. Operating supplies
- d. Components and repair parts

3. Related training equipment and devices (including technical manuals and publications)

4. Related research and development and preproduction materials and equipment. An exception, however, is the construction of research and development facilities which are included in program C-2.

When the planned use is not known -- items pertaining to the supplies and services listed above shall be identified with program C9E, or S1, as appropriate. بحجر والمعادية والمحاور والمح

## A-1 AIRCRAFT PROGRAM

This program consists of three subprograms: (a) Airframes and Related Assemblies and Spares; (b) Aircraft Engines and Related Spares and Spare Parts; and (c) Other Aircraft Equipment and Supplies not included in subprograms (a) and (b).

(a) Airframes and Related Assemblies and Spares.

Includes	Excludes	Program in which exclusions are included
Complete aircraft (procured as such,	GFE tires and tubes	<b>A</b> -1 <i>c</i> .
i.e.—helicopters, excluding GFE). Airframe assemblies and spares, such	General purpose production equipment.	B-9.
as tail assemblies, wing assemblies, landing gears, etc.	Production facilities	<b>C-2.</b>

Special jigs, dies, and fixtures to be used only in the fabrication of a specific air frame model (including variations

thereof).

Maintenance tools peculiar to the aircraft.

(b) Aircraft Engines and Related Spares and Spare Parts.

Includes	Excludes	Program in which exclusions are included	
Aircraft engines and parts.	Aircraft engines incorporated in	A-1s.	
Assist takeoff other than droppable units.	aircraft procured as complete aircraft.		the state of the s
Aircraft jet engines and parts used, without major modification, on guided	Assist takeoff (ATO), droppable units only.	<b>A-6.</b>	
missiles. Special jigs, dies, and fixtures to be used	General purpose production equipment.		
only in the fabrication of a specific model of aircraft engine, including inspection gages.	Production facilities	- C-2.	

Maintenance tools peculiar to the engine.

(c) Other Aircraft Equipment and Supplies Not Included in Subprograms (a) and (b).

Includes	Excludes	Program in which exclusions are included
Aircraft instruments and parts (except electronic equipment for communica-	GFE electronics and communi- cations equipment.	A-7.
tion, fire control, and radar). Elec-	GFE weapons	A5.
trical equipment, such as, generators, inverters, starters, alternators, etc.	GFE fire control, bomb sights, and related electromechanical devices.	-
Aircraft propellers and hubs	Aircraft weapons	<b>A-5</b> .
Mobile training units	Photographic equipment	C-9.
Flight simulators Ground handling equipment peculiar to a specific model of aircraft. Other accessories and parts readily identifiable for aircraft use, such as	Airborne accessories not an oper- ational part of the aircraft, such as life rafts, oxygen masks, parachutes, fire ex- tinguishers, eto.	
gun turrets, bomb racks and releases, rocket launchers, fuel tanks, drop- pable aircraft tanks, tires and tubes, control wires, servo and other control mechanisms, etc.	Organizational equipment, such as general ground or deck han- dlingequipment, ships, hangar, and airfield equipment.	

	ANT PROGRAM CODE	
Includes	SPACE SYSTEMS PROGRAM Excludes	Program in which exclusions are included
Missiles and space systems All missile and space systems parts and related equipment procured from prime Contractors	GFE aircraft jet engine without major modific on missiles or space	ation,
except items excluded. CFE electronic equipment for missiles and space systems. Booster cases for missiles. Ground handling and launching equipment peculiar to a specific model of missile or space system.	Fuels GFE electronic equipmen	
Target drones. Special jigs, dies, and fixtures which can be used only in produc- ing specific types of missiles and space systems, including in- spection gages.		
A-3 SH	IPS PROGRAM	
Includes	Excludes e	Program in which Iclusions are included
Construction of vessels of all types. Total cost of services, civilian labor, and ship parts used in conversion, repair, overhaul, and modernization, whether done by private Contractors or in Gov- ernment shipyards. Ship parts (except those excluded).	Guns, rocket launchers, torpedo tubes, depth charge projectors, and other weapons. Fire control equipment. GFE electronic equipment, e.g., communications, fire control,	A-5.
<ul> <li>Ship parts (except those excluded).</li> <li>Ship armor not procured with, or as a part of, weapons.</li> <li>Aircraft catapults and arresting gear.</li> <li>Assault boats.</li> <li>Floating cranes, floating drydocks, and bridge erection boats.</li> <li>Production equipment procured as a part of and mounted on floating equipment.</li> <li>Tracked amphibious vehicles, such as LVT's.</li> </ul>	radar, etc. Ship equipage and housekeeping supplies, such as brooms, soap, paint, grease, light bulbs, mess and galley utensils, cleaning rags; office supplies, clothing and other personnel items; rec- reation equipment and sup- plies, and similar types of items which are not usually produced as ship parts.	Generally, A-9 or C-9.
Shipborne deperming and degaussing equipment.	Pontoons (including propelling units).	B-1.
Special jigs, dies, and fixtures, which can be used only in specific shipbuilding operations, including inspection gages.	Fabric or rubber life rafts GFE production equipment	A-9. B-9.
	TOMOTIVE PROGRAM	
This program consists of two subprevents of two subprevents (a) Combat vehicles.	ograms: (a) Combat Vehicles and	(b) Noncombat
Includes	Excludes	Program in which relusions are included

## A-4 TANK-AUTOMOTIVE PROGRAM—Continued

(b) Noncombat vehicles.

Includes

Trucks, ambulances, passenger cars, buses, motorcycles, and other motorized vehicles, including wheeled amphibious vehicles (except vehicles identifiable to the construction equipment portion of the Miscellaneous Equipment Program C-9).

Power-driven trucks, decontaminating. Bicycles.

Trailers and semitrailers.

- Repair, maintenance, and other special purpose noncombat vehicles.
- Prime, Contractor-furnished repair, rebuild, production and service equipment procured as a part of and mounted on noncombat vehicles.
- Other accessories and parts readily identifiable for noncombat vehicle use, such as tires, spark plugs, batteries, etc.
- Modification whether done in private or in Government production facilities (kits).

Truck tractors.

Special jigs, dies and fixtures which can be used only in producing a specific noncombat vehicle model, including inspection gages.

Weapons	A-5.
GFE electronic equipment, e.g., communication, fire control, radar, etc.	A-7.
Fire control equipment	A-5.
Warehouse, airfield, and indus-	
trial tractors.	
GFE repair, production, and service equipment mounted on	C-9.

Excludes

noncombat vehicles.

#### A-5 WEAPONS PROGRAM

### Includes

Small arms, automatic weapons, mortars, artillery, guns, rocket and grenade launchers, and pyrotechnic projectors, including those mounted on vehicles, ships, and aircraft.

Flame throwers.

Smoke generators (land).

Torpedo tubes.

Harbor protection nets.

Depth charge projectors.

- Wholly optical, electrical, or mechanical fire control equipment, including binoculars, bomb sights, other optical equipment, stop watches and fire control mounts.
- Nonelectronic portions of electronic fire control equipment if separately procured and if procurement and requirement data are separately maintained.
- Special jigs, dies, and fixtures which can be used only in producing specific types of weapons, including inspection gages.
- Deperming and degaussing equipment (Range Station).

Excludes exclusions are included

Paravanes..... A-3. Shipborne deperming and de-'A−3. gaussing equipment.

Rocket launchers readily iden-A-1 or A-2. tifiable for aircraft use and launching equipment peculiar to a specific model of guided missile.

Electronic fire control equipment A-7. such as MK56, MK63, T33, MK101, MK102, etc.

## A-6 AMMUNITION PROGRAM

Includes Ammunition, rockets, bombs, mines, grenades, torpedoes, depth charges,		Program in which exclusions are included A-8.
demolition material, and pyrotech-	VT Fuzes	A-7.
nics.	Booster cases for guided missiles_	A-2.
ATO units (droppable units only) and fuel for ATO units.	Nondroppable propulsion devices installed in aircraft.	A-1.
Rocket and guided missile fuel.	Droppable aircraft tanks	A-1c.
Machine gun links.		<i>t</i>
Ammunition parts.		
Chemicals used in hombs flame throw		

- chemicals used in bombs, flame throwers, smoke generators, and ammunition.
- Special jigs, dies, and fixtures which are used in producing a specific type of ammunition, including inspection gages.

### A-7 ELECTRONICS AND COMMUNICATION EQUIPMENT PROGRAM

Excludes

### Includes

- Electromagnetic radiating and nonradiating equipment, except that radiating in the visible spectrum, including: Radio equipment including uses for telegraph, telephone, teletype, facsimile, television and IFF signals. Radar equipment.
- Electronic and electro-mechanical computers.
- Radiation aids to aircraft control and navigation, including control of guided missiles.
- Radiation aids to fire control bombing, armament, and related electromechanical types (not otherwise covered).
- Radiation countermeasures, including electronic deception and electronic jamming.

Radiac.

Infrared.

Meteorological.

Sonar equipment.

- Magnetic amplifier and detection equipment.
- Equipment used for transmission or reception of intelligence by wires, cables, or coaxial cable, including recorders, reproducers, telegraph, telephone, teletype, facsimile, television, interphone, public address, and telemetering.

X-ray apparatus	C-9.

## A-7 ELECTRONICS AND COMMUNICATION EQUIPMENT PROGRAM-Con.

#### Includes

## Equipment which is used for the detection of noise and interference in the radio frequency spectrum.

- Radiation and reradiation equipment related to the preceding items.
- Equipment which is ancillary to the preceding items such as antennas, connectors, dynamotors, headsets, microphones, radomes, servoamplifiers, test equipment, wave-guides, cooling, heating and pressurizing equipment.

VT fuzes.

- Guided bombs, such as Tarzon and Razon.
- Special jigs, dies, and fixtures which can be used only in producing specific types of electronics and communication equipment, including inspection gages.
- Electronic fire control equipment such as MK 56, MK 63, T33, MK 101,

icals used in the processing of petroleum and petroleum products which will be consumed or converted into byproducts in the course of processing.

MK 102, etc. Sniperscope.

projects.	Bridge erection boats	A-3.

Prefabricated buildings

- Construction supplies including telephone poles, piling, railway track and ties, lumber, cement, bricks, hardware, millwork, etc.
- Heating, refrigerating, plumbing, and lighting fixtures and other electrical equipment to be incorporated as an integral part of structures.

Pontoon and pontoon propelling units. Insulated wire and cable, except communication wire.

## **B-2 SUBSISTENCE PROGRAM**

## Includes

- All food and beverage products for human use, including operational type rations.
- Materials used for care and preservation of subsistence supplies.
- Drums, cans, and other containers and packaging materials, required for the delivery of food and beverage products.
- Chemicals which are used directly in the production of food and food products as well as chemicals used in the processing of food and food products which will be consumed or converted into byproducts in the course of

## C-2 DEPARTMENT OF DEFENSE CONSTRUCTION PROGRAM

This program consists of all construction, alteration, rehabilitation, or conversion of military industrial and nonindustrial installations, facilities, or portions thereof. It comprises all of the above facilities financed in whole or in part from appropriated funds. All machinery and equipment (except production equipment) organic to the facility and installed as part of the construction project for the facility will be included. Also includes ground improvement and installation of utilities.

operated facilities

come Government-owned, including both Government-operated and contractor-

Includes	Excludes	Program in which exclusions are included

#### C-2 DEPARTMENT OF DEFENSE CONSTRUCTION PROGRAM - Continued

### Includes

.\*

- Training, operational, housing and support facilities or any other facilities necessary for the military forces. Installed equipment organic to the facility will be included.
- Construction of military nonindustrial facilities financed under Public Works Appropriations (MCA, PW-N, and ACEP-AF).
- Construction of military nonindustrial facilities financed from appropriations other than Public Works Appropriations.
- Military housing projects constructed under Title VIII of the National Housing Act.
- Air and Army National Guard facilities to be constructed partially or entirely from Federal funds.
- Building equipment such as elevators, fire protection systems, electrical power systems, or other equipment organic to a facility, and installation materials therefor.

Land and departmental overhead services. Construction equipment and machinery. Facilities constructed entirely from State funds and for which the title will be vested in the State.
