i

SECTION I - PART A

RESEARCH, DEVELOPMENT, TEST, AND EVALUATION CODES

K9.37

Note: Category "A" codes are to be used for R&D transactions only.

1

SECTION I - CODING FOR ITEM 10A OF DD FORM 350

(FEDERAL SUPPLY CLASS OR SERVICE CODE)

<u>GENERAL</u>. A four-digit code, as provided by this Section I, shall be entered in Item 10A of every procurement action reported on DD Form 350. Only one code number shall be entered. If more than one code is applicable, enter the code which describes the predominant product or service procured (see also DARS 21-116).

If the action is for research, development, test, or evaluation work (RDT&E), enter a code from Part A of this section. RDT&E is defined in DARS 4-101. Do <u>not</u> assign a RDT&E code to supplies or housekeeping services purchased in support of "inhouse" research or development work; such supplies are coded in accordance with Part C of Section I and the services in accordance with Part B. Procurement personnel responsible for coding RDT&E actions shall obtain sufficient information from requisitioning personnel to permit accurate classification in accordance with Part A.

If the action is for services other than RDT&E work, enter a code from Part B of Section 1, and if it is for supplies, enter a code from Part C.

8*632*7

20.65

PART A - RESEARCH, DEVELOPMENT, TEST, AND EVALUATION (RDT&E)

<u>PURPOSE</u>. The DD Form 350 codes in this part have been revised to coincide with the guidelines established by the Federal Procurement Data Center. Previous editions of this manual contained a separate section for each of the departments. Beginning with fiscal year 1979, Section IA is applicable to all DoD purchasing offices.

DESCRIPTION. The RDT&E code is composed of two alphabetical and two numeric digits. The first digit is always the letter "A" to identify RDT&E; the second digit is alphabetic "A to Z" to identify the major category; the third digit is numeric 0 to 9 to identify a subdivision of the major category; and the fourth digit will be numeric 1 to 6 to identify the type of RDT&E, and will be assigned by the contracting officer in accordance with DARS 4-101 as follows.

lst Two Positions of Program	Fourth Position of Item 10A Code on	DARS	recto
Element	DD Form 350	4-101	10,000
61	1. Research	(1)	
62	2. Exploratory Development	(2)	
63	3. Advanced Development	(3)	
64	4. Engineering Development	(4)	
All Other	5. Operational Systems Development	(5)	
65	6. Management & Support	(6)	

80.88*7*3.

1

When the program element number appears on the purchase document, the first two digits of this element number will determine the number to be used in the fourth position.

FOR ARMY, the third digit of Army budget activity codes beginning with 6 identifies the appropriate code for use in the fourth position. Code 5 will be entered in the fourth position for all Army budget activity codes beginning with other than 6.

D.

When completing this item, the precise service being purchased shall be coded. Example: A contract for research on noise pollution for aircraft shall be shown under environment (AH4*) for noise pollution, and not under aircraft.

To ensure that the contract is for RDT&E, check the appropriation symbol. (Do not include housekeeping supplies or services in support of in-house RDT&E even though a RDT&E appropriation symbol is cited.) The following symbols are currently applicable:

 $\{ g_i \}_{i \in [i], j \in [i]}$

ARMY	21X2040	AIR FORCE	57X3600	
NAVY	17X1319	DARPA	97X0400.13

SECTION I - PART B

OTHER SERVICES AND CONSTRUCTION

K95-4

. . . .

PART B - OTHER SERVICES AND CONSTRUCTION

All services, except RDT&E work, shall be coded in accordance with Part B. Each category is assigned a series of four-digit codes for specific types of services and construction. The code consists of a letter identifying one of the 19 categories listed below, and three numeric digits identifying a specific service within each category.

- F. Natural Resources Management
- G. Social Services
- H. Quality Control, Testing, & Inspection Service
- J. Maintenance, Repair, & Rebuilding of Equipment
- K. Modification of Equipment
- L. Technical Representative Services
- M. Operation of Government-Owned Facility
- N. Installation of Equipment
- P. Salvage Service
- Q. Medical Service
- R. Professional, Technical, & Management Services
- S. Utilities & Housekeeping Services
- T. Photographic, Mapping, Printing, & Publication Services
- U. Training Services

......

- V. Transportation & Travel
- W. Lease or Rental of Equipment
- X. Lease or Rental of Facilities
- Y. Construction of Structures & Facilities
- Z. Maintenance, Repair, or Alteration of Real Property

# DD CLAIMANT PROGRAM NUMBER

### SECTION III - CODING FOR ITEM 10C OF DD FORM 350

### (DD CLAIMANT PROGRAM NUMBER)

A DDCP number designates a grouping of supplies, construction, or other services. One of the following code numbers shall be entered in Item 10C of each DD Form 350 in accordance with definitions provided in this Section III.

### Code

### Program Title

143112141219

| A-IA | Airframes and Related Assemblies and Spares   |
|------|-----------------------------------------------|
| A-1B | Aircraft Engines and Related Spares and Parts |
| 1 10 |                                               |

- A-1C Other Aircraft Equipment and Supplies Not Included in A-1A and A-1B
- A-2 Missile and Space Systems
- A-3 Ships
- A-4A Combat Vehicles
- A-4B Non-Combat Vehicles
- A-5 Weapons
- A-6 Ammunition

A-7 Electronics and Communications Equipment

A-8A Petroleum

A-8B Other Fuels and Lubricants

- A-8C Separately Procured Containers and Handling Equipment
- A-9 Textiles, Clothing, and Equipage
- B-1 Building Supplies

B-2 Subsistence

B-3 Transportation Equipment (Railway)

B-9 Production Equipment

- C-2 Construction
- C-9A Construction Equipment

C-9B Medical and Dental Supplies and Equipment

C-9C Photographic Equipment and Supplies

C-9D Materials Handling Equipment

C-9E All Others Not Identifiable to Any Other Procurement Program

S-1 Services

The former Program C-3 (Maintenance, Repair, and Operating Supplies) has been discontinued. All items formerly shown under this Program are to be included in Program C-9E.

A procurement program selected on the basis of the use of the supplies or work purchased shall include all items pertaining to the following when planned use is known at the time of purchase:

- 1. Crating, packaging materials, and dunnage.
- 2. Conversion, maintenance, and repair, including:
  - a. Materials
  - b. Services (performed by contractors)
  - c. Operating supplies
  - d. Components and repair parts
- 3. Related training equipment and devices (including technical manuals and publications).
- 4. Related research and development and preproduction materials and equipment. An exception, however, is the construction of research and development facilities which are included in Program C-2.

When the planned use is now known--items pertaining to the supplies and services listed above shall be identified with Program C-9E or S-1, as appropriate.

### III - CLAIMANT PROGRAM CODE

### A-1 AIRCRAFT PROGRAM

This program consists of three subprograms: (a) Airframes and Related Assemblies and Spares; (b) Aircraft Engines and Related Spares and Spare Parts; and (c) Other Aircraft Equipment and Supplies not included in subprograms (c) and (b).

وتوجيعونهم إنتعاع

(a) Airframes and Related Assemblues and Spares.

| Includes<br>Complete aircraft (procured as such,<br>i.e.—helicopters, excluding GFE).                                                      | GFE tires and tubes                 |     |   |
|--------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------|-----|---|
| Airframe assemblies and spares, such<br>as tail assemblies, wing assemblies,<br>landing gears, etc.                                        | equipment.<br>Production facilities | C2. |   |
| Special jigs, dies, and fixtures to be used<br>only in the fabrication of a specific air<br>frame model (including variations<br>thereof). |                                     |     | / |
| Maintenance tools peculiar to the air-<br>craft.                                                                                           |                                     |     |   |
|                                                                                                                                            |                                     |     |   |

(b) Asscraft Engines and Related Sparse and Spars Parts.

| Includes                                                                                         | Excludes                                                                 | erclusions are included |  |
|--------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------|-------------------------|--|
| Aircraft engines and parts.<br>Assist takeoff other than droppable<br>units.                     | Aircraft engines incorporated in aircraft procured as complete aircraft. | <b>A-1a.</b>            |  |
| Aircraft jet engines and parts used,<br>without major modification, on guided                    | units only.                                                              | _                       |  |
| missiles.<br>Special jigs, dies, and fixtures to be used                                         | General purpose production equipment.                                    | B-9.                    |  |

----

This program consists of two subprograms: (a) Combat Vehicles and (b) Noncombat Vehicles.

(a) Combat schicles.

| Includes<br>Tanks.                                                                       | Encludes<br>Weapons                                                     | Program in which<br>exclusions are included<br>A-5. |
|------------------------------------------------------------------------------------------|-------------------------------------------------------------------------|-----------------------------------------------------|
| Self-propelled gun motor carriages.                                                      | Fire control equipment                                                  | A-5.                                                |
| Other combat vehicles.<br>Combat vehicle parts.<br>Modification, whether done in private | GFE electronic equipment, e.g.,<br>communication, fire control,<br>etc. | <b>A−7</b> .                                        |
| or in Government production facili-<br>ties.                                             | such as LVT's                                                           |                                                     |
| Special jigs, dies, and fixtures which can                                               | Production facilities                                                   | C-2.                                                |
| be used only in producing a specific combat vehicle model.                               | General purpose production equipment.                                   | B-9.                                                |

#### A-4 TANK-AUTOMOTIVE PROGRAM-Continued

### (b) Noncombal vehicles.

#### Includes

Trucks, ambulances, passenger cars, buses, motorcycles, and other motorised vehicles, including wheeled amphibious vehicles (except vehicles identifiable to the construction equipment portion of the Miscellaneous Equipment Program C-9).

Power-driven trucks, decontaminating. Bicycles.

Trailers and semitrailers.

- Repair, maintenance, and other special purpose noncombat vehicles.
- Prime, Contractor-furnished repair, rebuild, production and service equipment procured as a part of and mounted on noncombat vehicles.
- Other accessories and parts readily identifiable for noncombat vehicle use, such as tires, spark plugs, batteries, etc.
- Modification whether done in private or in Government production facilities (kits).

Truck tractors.

Special jigs, dies and fixtures which can be used only in producing a specific noncombat vehicle model, including inspection gages.

#### Includes

Small arms, automatic weapons, mortars, artillery, guns, rocket and grenade launchers, and pyrotechnic projectors, including those mounted on vehicles, ships, and aircraft.

Flame throwers.

Smoke generators (land).

Torpedo tubes.

Harbor protection nets.

Depth charge projectors.

- Wholly optical, electrical, or mechanical fire control equipment, including binoculars, bomb sights, other optical equipment, stop watches and fire control mounts.
- Nonelectronic portions of electronic fire control equipment if separately procured and if procurement and requirement data are separately maintained.
- Special jigs, dies, and fixtures which can be used only in producing specific types of weapons, including inspection gages.
- Deperming and degaussing equipment (Range Station).

### A-7 ELECTRONICS AND COMMUNICATION EQUIPMENT PROGRAM

#### Includes

Electromagnetic radiating and nonradiating equipment, except that radiating in the visible spectrum, including: Radio equipment including uses for telegraph, telephone, teletype, facsimile, television and IFF signals. Radar equipment.

Electronic and electro-mechanical computers.

- Radiation aids to aircraft control and P navigation, including control of N guided missiles.
- Radiation aids to fire control bombing, Si armament, and related electromechanical types (not otherwise covered).
- Radiation countermeasures, including electronic deception and electronic jamming.

Radiac.

Infrared.

Meteorological.

Sonar equipment.

- Magnetic amplifier and detection equipment.
- Equipment used for transmission or reception of intelligence by wires, cables, or coaxial cable, including recorders, reproducers, telegraph, telephone, teletype, facsimile, television, interphone, public address, and telemetering.

| Excludes                                                                                                                                                                          | Program in which<br>exclusions are included |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------|
| X-ray apparatus                                                                                                                                                                   | C-9.                                        |
|                                                                                                                                                                                   | A-9 and C-9.                                |

|---|---------|--|
|   |         |  |

Excludes

Program in which exclusions are included

- in mhich

angegere:

'etf

- Equipment which is used for the detection of noise and interference in the radio frequency spectrum.
- Radiation and reradiation equipment related to the preceding items.
- Equipment which is ancillary to the preceding items such as antennas, connectors, dynamotors, headsets, microphones, radomes, servoamplifiers, test equipment, wave-guides, cooling, heating and pressurising equipment.

#### VT fuzes.

erite.

- Guided bombs, such as Tarson and Razon.
- Special jigs, dies, and fixtures which can be used only in producing specific types of electronics and communication equipment, including inspection gages.
- Electronic fire control equipment such as MK 56, MK 63, T33, MK 101,

MK 102, etc. Sniperscope.

#### A-8 FUELS AND LUBRICANTS PROGRAM

This program consists of three subprograms: (a) Petroleum Products; (b) Other Fuels and Lubricants; (c) Separately Procured Containers.

(a) Petroleum.

| Includes            | Excludes                       | exclusions are included |
|---------------------|--------------------------------|-------------------------|
| Residual fuel oils. | Other fuels and lubricants     | <b>A-8</b> b.           |
| Lubricating oils.   | Separately procured containers |                         |
| Aviation gasolines. | for petroleum and petroleum    | L .                     |
| Motor gasolines.    | products.                      |                         |
| Kerosene.           | Petroleum handling equipment.  | A-8c.                   |
| Distillate fuels.   |                                |                         |

Fog oil.

Greases.

Jet fuels.

Asphalts and road oils.

Liquefied petroleum gas.

Insulating transformer oils.

Solvents and naphthas.

- Containers, when provided by the supplier, in which petroleum products are delivered to the Government.
- Chemicals which are used directly in the production of petroleum and petroleum products as well as chemicals used in the processing of petroleum and petroleum products which will be consumed or converted into byproducts in the course of processing.

## A-8 FUELS AND LUBRICANTS PROGRAM-Continued

(b) Other Fuels and Lubricants.

| Includes          | Rectudes     | Program in which<br>exclusions are included |
|-------------------|--------------|---------------------------------------------|
| Coal and coke.    | Fuel for ATO |                                             |
| Manufactured gas. |              |                                             |
| Natural gas.      |              |                                             |

Other nonpetroleum fuel and lubricants. Containers, when provided by the suppliers, in which other fuels and lubricants are delivered to the Government.

(c) Separately Procured Containers and Handling Equipment.

| Includes                                                                                                                                                                                                                                       | Recludes   | Program in which<br>exclusions are included |        |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------|---------------------------------------------|--------|
| Separately procured containers spe-<br>cifically intended for use with petro-<br>leum and petroleum products noted<br>in A-8a such as can, inflammable<br>liquid, steel 5-gallon and drum<br>inflammable liquid, steel, 16-gage,<br>55-gallon. | Fuel cells | <b>A-1</b> .                                |        |
| Drum cleaning machines, portable<br>petroleum pumps, skid tanks, and<br>petroleum dispensing nozzles.                                                                                                                                          |            |                                             | ، دېنې |

### III - CLAIMANT PROGRAM CUDE

### C-2 DEPARTMENT OF DEFENSE CONSTRUCTION PROGRAM - Continued

#### Includes

### Excludes

Program in which exclusions are included

Training, operational, housing and support facilities or any other facilities necessary for the military forces. Installed equipment organic to the facility will be; included.

Construction of military nonindustrial facilities financed under Public Works Appropriations (MCA, PW-N, and ACEP-AF).

- Construction of military nonindustrial facilities financed from appropriations other than Public Works Appropriations.
- Military housing projects constructed under Title VIII of the National Housing Act.
- Air and Army National Guard facilities to be constructed partially or
- entirely from Federal funds. Building equipment such as elevators, fire protection systems, electrical power systems, or other equipment organic to a facility, and installation materials therefor.

Land and departmental overhead services. Construction equipment and machinery. Facilities constructed entirely from State funds and for which the title will be vested in the State.

C-9a

### C-9 MISCELLANEOUS PROGRAM

This program consists of five subprograms: (a) Construction Equipment; (b) Medical and Dental Supplies and Equipment; (c) Photographic Equipment and Supplies; (d) Material Handling Equipment; (e) All Others not Identifiable to any Other Procurement Program.

(a) Construction Equipment.

| (a) Construction Equipment.                                                                   |                                                                                         | Program in which                            |
|-----------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------|---------------------------------------------|
| Includes                                                                                      | Excludes                                                                                | exclusions are included                     |
| Power shovels, mobile cranes, bull-                                                           | Dump trucks                                                                             |                                             |
| dozers, concrete mixers, ditching ma-<br>chines, road and airfield construction,              | Engineering, drafting and map-<br>ping instruments.                                     | C-9e.                                       |
| and maintenance machinery earth-<br>moving trailers, and similar construc-<br>tion equipment. | Generator sets                                                                          | C-9e or other<br>applicable<br>program.     |
