FOREWORD

Educational and Other Nonprofit Institutions Receiving DoD Prime Awards of Contracts, Grants, and Agreements for Research, Development, Test, and Evaluation is published annually. This report provides information on Department of Defense prime awards of contracts, grants, and agreements to educational and other nonprofit institutions for research, development, test, and evaluation (RDT&E). The awards are further categorized by type of RDT&E funding and displayed within two major RDT&E budget categories: (1) Technology Base and (2) Development. This information is shown in three tables, organized by awards to:

1. U.S. Educational and Other Nonprofit Institutions Receiving DoD Prime Awards of Contracts, Grants, and Agreements for Technology Base;
2. U.S. Educational and Other Nonprofit Institutions Receiving DoD Prime Awards of Contracts, Grants, and Agreements for Development; and
3. U.S. Federal, State, and Local Government Agencies Receiving DoD Prime Awards of Contracts, Grants, and Agreements for RDT&E.

INTRODUCTION

This report presents information on Department of Defense (DoD) prime awards of contracts, grants, and agreements for research, development, test, and evaluation (RDT&E) made to educational and other nonprofit institutions, including Federal, state, and local government agencies, during fiscal year (FY) 1994. Only those awards of contracts over \$25,000 and all grants and agreements made to *educational and other nonprofit* institutions are included. The information is displayed in the two major RDT&E budget categories of 1) Technology Base and 2) Development in order to differentiate between the types on institutions that receive each type of funding. Discussion on the differences in the two major categories follows:

1. TECHNOLOGY BASE

- a. Comprised of two RDT&E budget categories: (1) 6.1 Basic Research; and (2) 6.2 Exploratory Development.
- b. Analogous to "research," including basic and applied.
- c. Technology Base funding is generally for programs performed by the academic parts of universities and colleges.

2. DEVELOPMENT

- a. Comprised of four of the six RDT&E budget categories: (1) 6.3 Advanced Development; (2) 6.4 Engineering Development; (3) 6.5 Management and Support; and (4) Operational System Development (sometimes known as "6.6").
- b. Programs involve engineering design of specific military systems, subsystems, or processes; construction and testing of prototypes; and other kinds of work.
- c. Development funding awarded to institutions of higher education is generally for programs performed by large laboratories administered by or affiliated with institutions of higher education, but organizationally separate and qualitatively distinct from academic parts of the universities.

The DoD RDT&E information is presented in three tables, each of which (1) lists recipients alphabetically; (2) gives the net value of all awards; and (3) identifies the location where the work was to be performed.

This report on DoD awards for RDT&E includes only those awards made to nonprofit, educational, and government institutions. Excluded are awards to commercial entities.

The locations shown in the tables are those reported as where the work was to be performed. Normally, this is a facility of the institution awarded the contract, grant, or agreement. However, if the work was scheduled to be performed at a Defense facility, such as an Air Force base, the location shown may be that of the Defense facility rather than the institution.

DATA RELATING TO COMPANIES IN THIS PUBLICATION ARE SUBJECT TO THE ACCURACY OF THE FEDERAL PROCUREMENT DATA SYSTEM CONTRACTOR ESTABLISHMENT CODE AND ITS ABILITY TO DESCRIBE RELATIONSHIPS OF COMPANIES.

HIGHLIGHTS

The following tables show the number of U.S. institutions receiving prime awards for all research and development categories and the net value of the awards, by type of institution, for FY 1994 and FY 1993. In both categories, the other nonprofit break-out includes awards to Federal, state, and local government agencies.
