Preface

With the end of the Cold War, there has been a significant increase in peacekeeping missions around the globe. The purpose of this bibliography is to provide a starting place for research on peacekeeping's expanding role in world affairs.

Now in its third revised edition, this selected bibliography has been tailored to include primarily those materials published since 1992, with special emphasis on books, documents, and periodical articles added to the U.S. Army War College Library's collection during 1995. For earlier citations, researchers should consult the first edition (January 1994) which covers publications dated 1980 through 1993 and the second edition (January 1995) which covers 1990 through 1994.

All materials referenced in this bibliography are readily available in the USAWC Library. For your convenience, we have added our call numbers at the end of each book entry. Please keep in mind that call numbers vary from library to library.

This bibliography is also available electronically. USAWC faculty, staff, and students with access to the USAWC's Local Area Network will find it on the Library's Bulletin Board. Internet users can reach it through our Library's home page (URL: <http://carlisle-www.army.mil/library/>).
