**ISEF Scholarship Award Program
Grant No. N00014-97-1-1007**

1997 Annual Report

In 1997, the Academy of Applied Science, Concord, New Hampshire, began administration of the Navy sponsored International Science & Engineering Fair (ISEF) Scholarship Award Program under a grant with the Office of Naval Research, Arlington, Virginia. A total \$106,500.00 was awarded for the first period of this grant, or the period 1 August 1997 through 30 June 1998.

Administration. To meet the requirements of the grant and successful completion of this project, the Academy of Applied Science performed the following.

- Communicated with student recipients of the Navy sponsored ISEF Scholarship Award Program to verify eligibility and compliance with the terms of the scholarship agreement.
- Established a working relationship with nationwide, postsecondary institutions to facilitate an efficient and collaborative system of information exchange and financial accounting.
- Processed timely payment of fifty-four individual scholarship awards and distributed payment to the appropriate Financial Aid Office or Bursar's Office.
- Maintained financial records and prepared financial reports.

Scholarship awards under the Navy sponsored ISEF Scholarship Award Program were processed efficiently and were received in a timely manner by the individual recipient's university of enrollment. This efficient and timely processing was due to the coordinated efforts among the staff of the Academy of Applied Science; Mrs. Barbara Thurman, Project Officer, Office of Naval Research (ONR); Charlotte Luedeke, Contracting Officer, ONR; and the ONR Regional Office Boston. Many thanks go to these individuals at ONR for their support in this year of transition.

The Academy's experience in administering youth science activities, requiring interaction with both postsecondary institutions and high school students, further assured a successful transition. Many student recipients had worked previously with the Academy and expressed confidence in our administrative experience. For the universities, this transition required the establishment of

new working relationships and communications to introduce the Academy and its role in the Navy sponsored ISEF Scholarship Award Program. Again, the Academy's experience with the university community assured the successful coordination of the scholarship program on behalf of the Navy.

Final payments - The Navy sponsored ISEF Scholarship Award Program. The Academy of Applied Science processed total payments in the amount of \$106,500.00 for fifty-four individual scholarship awards. A complete listing of the student recipients, university of enrollment, and scholarship amount is at Attachment 1.

Unexpended Funds and Earned Interest. The total funding of \$106,500.00 was expended. No interest was earned by grant funds.

Conclusions. The Academy of Applied Science enjoyed working on this project and working with an outstanding, talented group of young people. The objectives of the Navy sponsored ISEF Scholarship Award Program -- to encourage the future pool of trained scientists and engineers -- are in keeping with the mission and goals of the Academy of Applied Science and its youth science programs.

U. S. Navy International Science Fair Awards Grant # N00014-97-1-1007

First name	Last name	College	Paid Out 1997
Kristi	Alger	College of William & Mary	\$2,000
Karl	Anderson	New Mexico State University	\$2,000
Leah	Barron	Washington University	\$2,000
Naomi	Bates	Princeton University	\$2,000
