OFFICE OF INSTITUTIONAL RESEARCH - FACT BOOK

NAVAL POSTGRADUATE SCHOOL OVERVIEW

The Naval Postgraduate School (NPS) holds the status of a Carnegie Doctoral/Research University – Intensive, and has been called a national treasure by many, most recently in 2003 by former President George H.W. Bush. NPS earns this title by providing unique professional military-relevant graduate education that meets the highest academic standards while responding to the dynamic educational and research needs of the Department of Defense (DoD), other federal agencies, and our international allies.

NPS students learn, as they will operate in the future, in a multi-disciplinary, joint, international and inter-agency environment. Of the nearly 1,500 students enrolled in degree programs, over half are military officers from the Navy and Marine Corps and the others are military officers and civilians from all U.S. services and other federal agencies. There are also about 300 students from 60 other nations studying side-by-side with U.S. officers. These students are the world's military leaders of tomorrow and have been selected to study in fields such as Space Operations, Civil-Military Relations, Information Warfare, Modeling and Simulation, Total Ship Design, Computer Science, Financial Management and Homeland Security. There are an additional 800 students enrolled in degree and certificate programs around the world. These programs demonstrate NPS's ability to respond quickly and agilely to emerging needs of our national security, bringing the intellectual capital of a highly respected faculty to bear upon new challenges. NPS's outreach efforts also span the globe with mobile education teams that take education to other nations.

NPS develops new educational programs, explores different delivery methods and modifies its existing programs to meet the emerging requirements of the services. In addition to its main campus, NPS reaches out to numerous off-campus locations and fleet concentration areas including Washington, DC, Norfolk, Virginia, San Diego, California and Annapolis, Maryland. NPS also offers executive education programs for U.S. and international students that prepare leaders to operate in our complex world.

The Naval Postgraduate School was established as the Postgraduate Division of the U.S. Naval Academy in 1909. In 1949, as part of a Department of Defense reorganization, Congress authorized the move of NPS from Annapolis, Maryland, to Monterey, California. In 1951, NPS officially opened its doors in Monterey.

In 1959, Arleigh Burke, WWII Hero and former Chief of Naval Operations (CNO), praised the nation for having the foresight to establish NPS. His words remain true today, reinforcing the need for education of our militaries and those who support them. "The naval leaders of fifty years ago showed great perspective and foresight in seeing the need for advanced technical and scientific knowledge among naval officers. They recognized that ships and naval weapons were becoming more complex, that their proper employment at sea would require officers who were familiar not only with the age-old profession of the sea, but who could use effectively the complex weapons of the years to come."

NPS is comprised of four graduate schools, a Center for Executive Education, three institutes and many research centers. Since its beginning as a naval engineering school, NPS has maintained a reputation for excellence in contributing to the technological advancement of the Naval Armed Forces through advanced education and research.

OFFICE OF INSTITUTIONAL RESEARCH - FACT BOOK

NAVAL POSTGRADUATE SCHOOL MISSION

The NPS Mission is to provide relevant and unique advanced education and research programs in order to increase the combat effectiveness of U.S. and Allied armed forces and enhance the security of the United States.

The NPS Vision is to be the world leader in naval and defense related graduate education and supporting research, and to prepare the intellectual leaders of tomorrow's forces. The strategy begins with the Naval Services and extends to the other U.S. Armed Services, other nations and to the defense community at large. NPS is dedicated to providing relevant, quality graduation education and supporting research, enabling all Navy and Marine Corps officers easy access to the education, information and support services they want and need, anytime, anywhere.

The strategy to achieve the NPS vision is built upon institutional focus on academic excellence; relevance and uniqueness of NPS program offerings, teaching and research; global and community outreach; lifelong learning; information and technological superiority and a world class campus.

Joint Vision 2010 and 2020 recognize high quality people, innovative leadership and the right organizational structure are needed to prepare warriors for the challenges of the future battlespace. To develop the ideas introduced in Joint Vision 2010 and 2020 for network centric operations, the United States needs a high percentage of military officers and defense civilians with an understanding of systems engineering and integration, and who possess a postgraduate level education in science, technology and management.

The Naval Postgraduate School is responding to the challenges of Joint Vision 2010 and 2020 by aligning its education and supporting research programs with three major goals:

- Academic programs and research that are nationally recognized and support the current and future operations of the Navy and Marine Corps, our sister services and our allies;
- Institutes that focus on the integration of teaching and research in direct support of the four pillars of Joint Vision 2010 and 2020 and their enabling technologies; and
- Executive and continuing education programs that support continuous intellectual innovation and growth throughout an officer's career.

OFFICE OF INSTITUTIONAL RESEARCH - FACT BOOK

PROGRAMS

The Four Academic Schools

The four Academic Schools - the Graduate School of Business and Public Policy (GSBPP), the Graduate School of Engineering and Applied Sciences (GSEAS), the Graduate School of Operation and Information Sciences (GSOIS), and the School of International Graduate Studies (SIGS) - were created in the first half of Academic Year 2001, and did not exist as formal entities before that time. Each school was created as a collective grouping of academic departments and their curricula were used to categorize prior year data and reflect historic trends in terms of the current four Academic schools.

The Three Research Institutes

Three Research Institutes, The Modeling Virtual Environments and Simulation (MOVES) Institute, The Wayne E. Meyer Institute of Systems Engineering, and the Cebrowski Institute for Information Innovation and Superiority, provide the Navy and Department of Defense a specialized research venue for top priority projects with a uniquely military perspective.

Program List

NPS offers a continuum of learning opportunities, including graduate degrees and certificates both on campus and in several non-resident and distributed (distance) learning environments. NPS offers many continuous learning opportunities including several types of non-degree advanced, professional education programs and executive education. Mobile education teams span the globe bringing NPS education to many different nations.

Accreditation

As an institution, NPS is accredited by the Senior College Commission of the Western Association of Schools and Colleges (WASC). That accreditation was reaffirmed in 1999 and will be reviewed again in 2009-2010. The accreditation process is one of peer review which requires an institution to define itself through an institutional mission statement, and then uses an array of criteria to determine if the institution is able to fulfill its mission successfully. Apart from institutional accreditation, the Graduate School of Engineering and Applied Science's Electrical, Mechanical and Astronautical Engineering degree programs are reviewed and accredited by the Accreditation Board for Engineering and Technology (ABET). The Graduate School of Business and Public Policy is reviewed and accredited by the Association to Advance Collegiate Schools of Business (AACSB). Under the Graduate School of Business and Public Policy, the NPS Masters in Business Administration program is accredited by the National Association of Schools of Public Affairs and Administration (NASPAA).

OFFICE OF INSTITUTIONAL RESEARCH - FACT BOOK

Relevance and Uniqueness

NPS programs are aligned with the rapidly changing needs of the national security. Opportunities for faculty development are available in areas important to the Naval services. An outstanding military faculty brings strong academic credentials and real-world operational expertise into the classroom and the programs. The NPS environment fosters, supports and encourages interdisciplinary activities. The graduate institutes ensure the academic tools learned in the schools are applied to current military challenges and requirements.

Innovative Programs

NPS offers a variety of innovative programs that enable students to challenge themselves. These programs include executive education, graduate certificate programs, continuing education and joint programs with other institutions. NPS faculty, both civilian and military, form one of the critical cornerstones of advanced DoD research.

Definitions

Average on Board

The Naval Postgraduate School works on a modified quarterly school year - every three months, new courses are started, students graduate and new students arrive. In addition, the summer is a full quarter. These factors combine with traditional military transfers occurring at two peak times during the year to create widely varied numbers of students on board (i.e., enrolled) from one quarter to the next. Therefore, the most representative formula for calculating the flow of students through the university is not a snapshot of any single quarter's enrollment statistics, but rather an average of all four quarters. The Average On Board (AOB) student count is calculated based on the total number of students attending classes in pursuit of a degree, for both resident and distributed learning for the entire Academic Year (October to September) divided by four.

Enrollments

Enrollment information is a snapshot from the first quarter in the Academic Year, beginning October 1.

Distributed (or Distance) Learning

Non-traditional delivery methods that expand learning beyond the traditional classroom: online web-based technologies, short courses, outreach programs and video-tele-education.

OFFICE OF INSTITUTIONAL RESEARCH - FACT BOOK

DEGREE OFFERINGS

<u>Master of Arts</u>		<u>Doctor of Philosophy</u>
National Security Affairs	Mechanical Engineering	Astronautical Engineering
Security Studies (Civil-Military Relations)	Leadership and Human Resource Development	Applied Mathematics
Security Studies (Security Building in Post Conflict Environments)	Management (Business Administration)	Applied Physics
Security Studies (Defense Decision-Making and Planning)	Materials Science and Engineering	Computer Science
Security Studies (Homeland Security and Defense)	Mechanical Engineering	Electrical Engineering
	Meteorology	Engineering Acoustics
<u>Master of Business Administration (MBA)</u>	Meteorology and Physical Oceanography	Information Science
<u>Executive MBA</u>	Modeling Virtual Environments and Simulation	Mechanical Engineering
<u>Master of Science</u>	Operations Research	Meteorology
Applied Mathematics	Physical Oceanography	Modeling Virtual Environments and Simulation
Applied Physics	Physics	Operations Research
Applied Science (Operations Research)	Product Development	Physical Oceanography
Astronautical Engineering	Program Management	Physics
Computer Science	Software Engineering	Software Engineering
Combat Systems Technology	Space Systems Operations	
Contract Management	Systems Engineering	
Defense Analysis	Systems Engineering & Analysis	
Electrical Engineering	Systems Engineering Management	
Engineering Acoustics	Systems Integration	
Engineering Science	Systems Technology	<u>Doctor of Engineering</u>
Information Systems and Operations	<u>Engineering</u>	Astronautical Engineering
Information Technology Management	Astronautical Engineering	Computer Science
International Resource Planning and Management	Electrical Engineering	Engineering Acoustics
Leadership and Human Resource Development	Mechanical Engineering	Mechanical Engineering

OFFICE OF INSTITUTIONAL RESEARCH - FACT BOOK

HISTORICAL TIMELINE

- **1909** Founded at the U.S. The Naval Academy to provide the Fleet with a focused Engineering Program
- **1919** The Navy resumes its support for advanced education. The Postgraduate Department of the Naval Academy is re-designated as the Naval Postgraduate School. The first head of NPS is Capt. Ernest King, who will later become Chief of Naval Operations during the turbulent years of World War II- the first students arrive six months after the Armistice is signed
- **1941** NPS student population nearly doubled with the outbreak of World War II and the need for advanced technical skills among officers
- **1945** The 79th Congress passes Public Law No. 250, authorizing the head of the Naval Postgraduate School to confer masters and doctorate degrees
- **1946** Congress passes P.L. No. 402, establishing the civilian position of academic dean at NPS
- **1947** 80th Congress passes P. L. No. 302 in July, an act “to authorize the Secretary of the Navy to establish a postgraduate school in Monterey, California”
- **1947** 80th Congress passes P.L. No. 303, which formally establishes the Naval Postgraduate School as a separate activity from the Naval Academy
- **1947** May 3, Navy announces Monterey as choice for postgraduate school location
- **1951** Dec 22, Naval Postgraduate School - Monterey commissioned
- **1951** Operations Research curriculum established
- **1955** NPS receives provisional accreditation from the Western Association of Schools and Colleges
- **1956** The first women student officers begin arriving in January
- **1956** May 31, Dedication of academic buildings: Bullard, Halligan, Herrmann, King, Root, and Spanagel Halls
- **1956** Management curriculum established
- **1968** Ingersoll Hall dedicated at NPS
- **1969** Nov 24, La Mesa Village formally dedicated, easing the housing crunch for students
- **1972** National Security curriculum and Anti-Submarine Warfare curricula established
- **1975** Dudley Knox Library dedicated
- **1992** Glasgow Hall dedicated- keynote speaker was Congressman Leon Panetta
- **1992** Groundbreaking for new engineering building.
- **1996** Information Warfare curriculum established
- **1999** Naval War College Joint Professional Military Education Course; Special Operations and Systems Engineering Integration curriculum established
- **2001** Four major Academic Schools established
- **2002** Designated as Center for Homeland Security Training
- **2003** Graduate degree in Homeland Defense announced
- **2003** Designated Department of Defense Information Operations Center of Excellence
- **2004** May, Designated as the only U.S. NATO Partnership for Peace (PfP) Education and Training Center by the Secretary of State
- **2004** July, Establishment of The Center for Stabilization & Reconstruction Studies (CSRS) to assist in winning the global war on terror
- **2004** Aug 27, Celebrated 50 Years in Computing featuring information technology pioneers from around the world
- **2004** Sept 3, Designated Information Operations Center of Excellence by Deputy Secretary of Defense

OFFICE OF INSTITUTIONAL RESEARCH - FACT BOOK

QUICK FACTS 2004

Students Average On Board

1,574 resident students (including 343 international students)

Distributed (Distance) Learning Programs

322 students participating in degree or certificate programs, also thousands of other students in short courses at NPS, in other U.S. locations, and other nations

Alumni

More than 45,000 alumni from all 50 states, the District of Columbia and more than 70 different nations

Faculty

240 Tenure and Tenure-Track

≈ 99% of NPS civilian faculty hold Ph.Ds

≈ 10% of NPS faculty are military bringing operational expertise

Staff

367 GS and Wage Grade staff members (includes both full and part-time)

328 full-time

37 part-time

2 job-share

Finances

Operating budget is \$356.2 million dollars including student salary

Facilities

NPS is composed of 322.25 acres of land with 114 buildings
(≈ 1.7 million square feet)

Accreditation

Western Association of Schools and Colleges (WASC)

Accreditation Board for Engineering and Technology (ABET)

The Association to Advance Collegiate Schools of Business (AACSB)

SHORT-TERM AND CERTIFICATE COURSE PROGRAMS GLOBAL OUTREACH -FY 2004

Mobile Education Teams (METs):

79 METs visited 46 foreign countries and instructed 2,710 international students

- Regional Security and Education Program (RSEP)
- Principles of Defense Acquisition Management
- International Negotiations
- Principles of Defense Procurement and Contracting
- National Assistance in Defense Capacity-Building
- Civil-Military Relations Pre-Survey
- Regional Civil-Military Relations and Continuing Education
- Civilian Control of the Armed Forces in a Democracy: Methods, Techniques and Application
- The Media and the Military
- Building Linkages Between the Legislature and the Military
- Domestic Support Operations
- Executive Program in Defense Decision-Making
- Intelligence and Democracy
- Defense Restructuring
- Implementing Strategic Planning: Developing Effective Defense Personnel Management Policies
- Defense Strategic Planning: Transforming Strategies for Defense Reform
- Implementing Strategic Planning: Developing Strategic Guidance
- Implementing Strategic Planning: The Operational Dimension
- Implementing Strategic Planning: The Development of National Tasks Lists
- Translating National Level Policy Into Defense Guidance: Approaches and Implementation
- Implementing Strategic Planning: Developing National Logistics Concepts
- EIPC Peace Support Operations
- Multinational Logistics
- Planning Peace Operations
- Security Building In Post-Conflict Environments
- Preparing for Peacekeeping Deployments: Negotiating Effective Support Agreement with International Organizations
- Preparing for Peacekeeping Deployments: Reviewing Inter-Ministerial Peacekeeping Roles and Missions
- Preparing for Peacekeeping Deployments: Reviewing Ministry of Defense and Defense HQ's Peacekeeping Roles and Missions
- Preparing for Peacekeeping Deployments: Adopting Task Lists and Standing Operating Procedures
- Civil-Military Responses to Terrorism – Regional
- Civil-Military Responses to Terrorism
- Civil-Military Cooperation (CIMIC) Support of Multinational and Interagency Relief and Reconstruction Operations
- Distinguished Visitor Orientation Tour (DVOT)

OFFICE OF INSTITUTIONAL RESEARCH - FACT BOOK

SHORT-TERM AND CERTIFICATE COURSE PROGRAMS GLOBAL OUTREACH FY 2004

On Campus Short Courses (1-3 weeks)

182 international students from **58** countries took instruction in:

- Enhanced International Peacekeeping Capabilities (EIPC)
- Civil-Military Responses to Terrorism – Global
- Planning Peace Operations
- Combating Terrorism
- Defense Restructuring
- Executive Program in Defense Decision Making
- International Defense Acquisition Management Course
- Intelligence and Democracy
- Distinguished Visitor Orientation Tour (DVOT)

ALUMNI

OFFICE OF INSTITUTIONAL RESEARCH - FACT BOOK

NPS ALUMNI IN THE UNITED STATES AS OF 2004

OFFICE OF INSTITUTIONAL RESEARCH - FACT BOOK

SELECTED DISTINGUISHED ALUMNI

ADM Stanley Arthur	Former Vice Chief of Naval Operations
ADM Arleigh Burke, USN (Ret.)	WWII hero and former CNO
VADM Phillip Balisle	Commander, Naval Sea Systems Command
VADM Arthur Cebrowski, USN (Ret.)	Father of network-centric warfare
CAPT Eugene Cernan USN (Ret.)	Astronaut, last man to walk on the Moon
RADM Patrick W. Dunne	President, Naval Postgraduate School
Gordon Eubanks	Former CEO, Symantec Corporation
GEN John Gordon USA	Deputy Assistant to the President for Counter-Terrorism
GEN Michael Hagee	Commandant of the Marine Corps
Pao Chuen Lui	Chief Defence Scientist, Singapore Ministry of Defence
ADM Moshe Marom	Vice Chief of Naval Operations, Israeli Navy
ADM Henry Mauz, USN (Ret.)	Former Commander in Chief of the Atlantic Fleet
RADM Wayne E. Meyer USN (Ret.)	Father of the Aegis system
ADM Michael Mullen	Current Vice Chief of Naval Operations
ADM Robert Natter	Former Commander in Chief of the Atlantic Fleet
ADM Hyman G. Rickover USN (Ret.)	Father of the nuclear Navy
CAPT James Roche USN (Ret.)	Current Secretary of the Air Force
Kevin Sharer	CEO, Amgen
RADM Kenneth Slaght	Commander, Space and Naval Warfare Systems Command
ADM James Watkins USN (Ret.)	Former CNO and Secretary of Energy
BGEN Thomas White USA (Ret.)	Former Secretary of the Army

OFFICE OF INSTITUTIONAL RESEARCH - FACT BOOK

CURRENT AND FUTURE NETWORK CONNECTIONS

OFFICE OF INSTITUTIONAL RESEARCH - FACT BOOK

INFORMATION TECHNOLOGY AND COMMUNICATIONS SERVICES PARTNERSHIPS

Monterey Peninsula DoDNet

Regional DoD consortium with physical infrastructure linking Fleet Numerical Meteorology and Oceanography Center, Naval Research Laboratory, Defense Language Institute, Defense Manpower Data Center, Naval Postgraduate School

Corporation for Education Network Initiatives in California (CENIC)

State research and education network (CalREN) links University of California campuses and system, California State University campuses and system, University of Southern California, Cal Tech, Stanford University and provides connectivity to other national high-speed networks such as LambdaRail and Internet2

Defense Research Engineering Network (DREN)

DoD's recognized research and engineering network. Robust, high-capacity, low-latency nation-wide network that provides connectivity between and among the HPCMP's geographically dispersed High Performance Computing (HPC) user sites, HPC Centers, and other networks.

Internet2

National high-speed, high capacity network. U.S. university-led consortium with partners in industry and government accelerating development of tomorrow's internet.

Navy Higher Education IT Consortium

Naval Postgraduate School, Naval War College, and Naval Academy CIOs working to develop higher education-based collaborations to maximize effectiveness of technology use at each of the three institutions.

LIBRARY PROFILE

OFFICE OF INSTITUTIONAL RESEARCH - FACT BOOK

KNOX LIBRARY QUICK FACTS 2004

- 📖 Circulation - 13% increase over 2003
- 📖 Items recalled for patrons – 32% increase over 2003
- 📖 Circulation of video/DVD materials – 79% increase over 2003 (a direct result of the new displays for these items)
- 📖 Circulation of faculty reserve material – 29% increase over 2003
- 📖 Requests received from NPS patrons – 27% increase over 2003
 - 52% of these requests are from students
 - 17% are filled with in-house resources
 - 36% are for books NPS does not own
 - 21% are photocopies of articles from journals not owned by NPS
 - 24% are first time requesters
- 📖 Average turnaround time on inter-library loan and document deliver requests
 - 41% within one week
 - 24% in under two days
- 📖 Students and faculty from National Security Affairs represent largest number of requestors

OFFICE OF INSTITUTIONAL RESEARCH - FACT BOOK

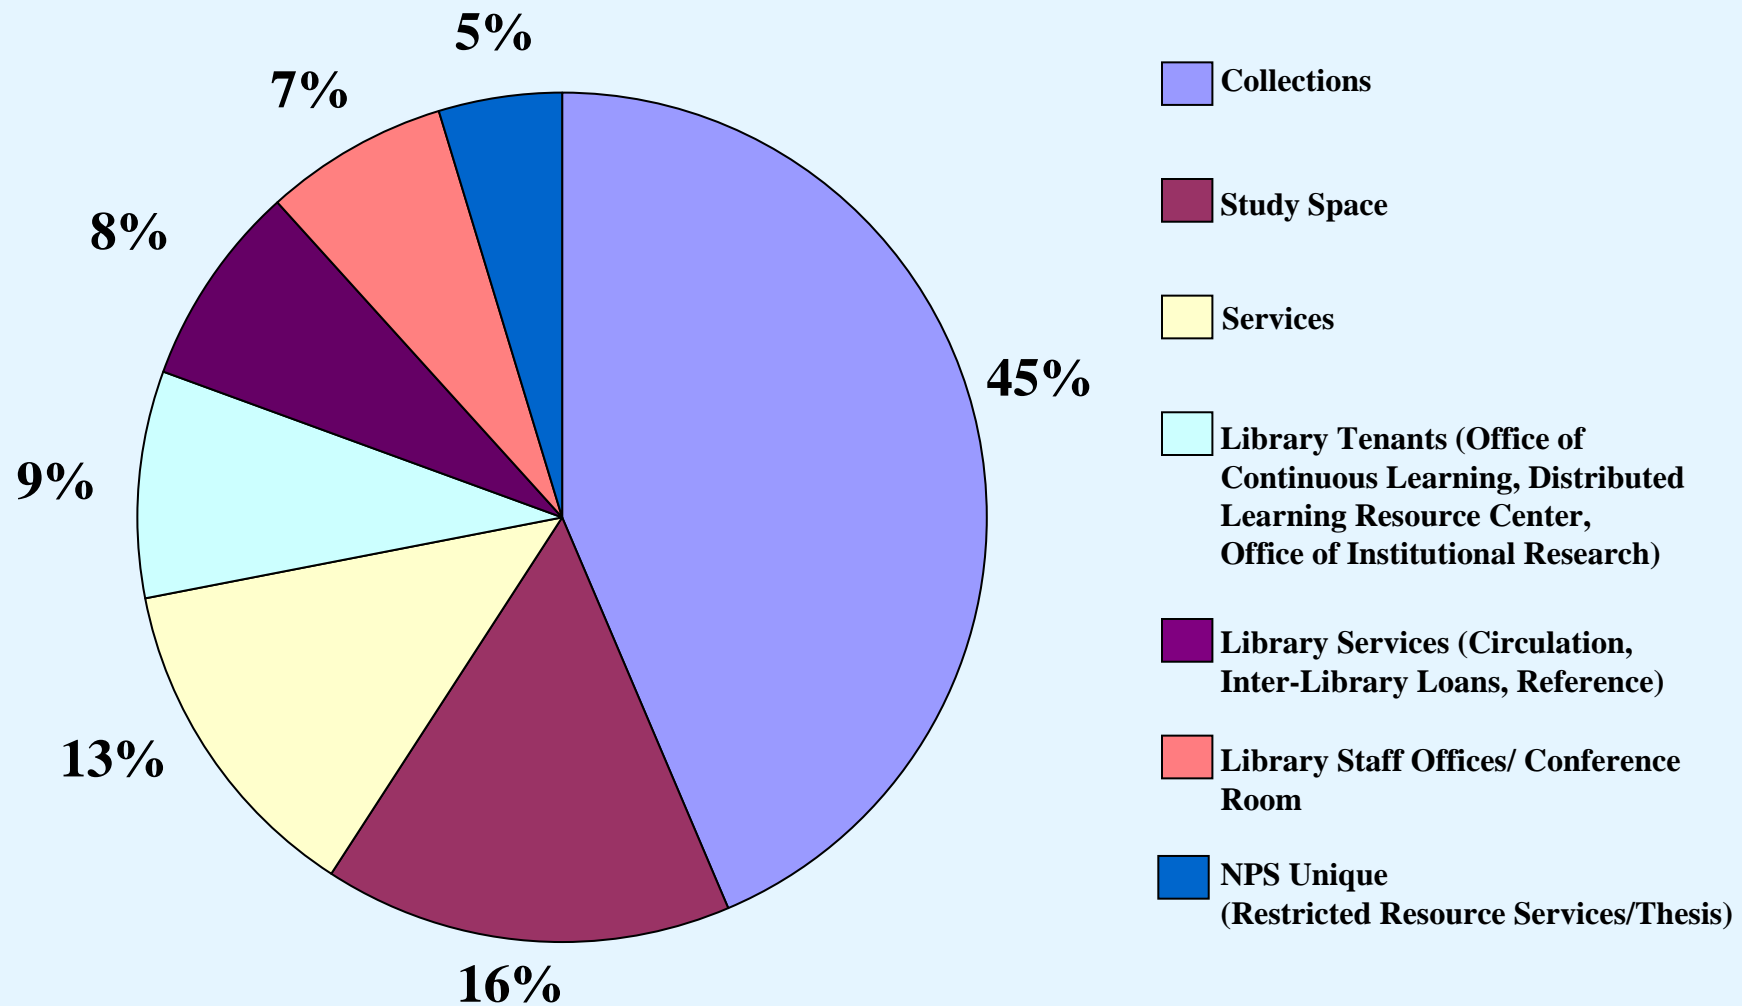

LIBRARY RESOURCE STATISTICS 2004

Number of Patrons	
Total per year	256,818
Average per day	714
Collections	
Physical Volumes (includes bound journals and all books)	599,484
Current Journal Subscriptions	836
Classified and Limited Distribution Technical Reports	46,413
Microfiche	821,270
Maps	4,285
CD's/DVD's	914
Circulation	
# Items Circulated	31,705
# Items Recalled by Patron	665
Library Transactions	
# Items borrowed for NPS Patrons	4,526

LIBRARY PARTNERSHIPS

MOBAC – Monterey Bay Area Consortium

CSUMB, UC Santa Cruz, MIIS, MPC, Hartnell College, Monterey Public Library, Carmel Public Library, Salinas Public Library, Watsonville Public Library

AMIGOS – Amigos Library Services, Inc.

A non-profit organization and one of the nation's largest library resource-sharing networks and a leader in providing IT to libraries. Membership consists of over 750 libraries and cultural institutions.

BCR – The Bibliographical Center for Research

A non-profit, multi-state library cooperative that has served the library community since its founding in 1935. Today it serves 1,065 voting-member libraries in 39 states and Canada.

CNL – Consortium of Naval Libraries

The Consortium of Naval Libraries (CNL), formed in 1997, has a vision to provide world-class information access and services to the Navy and be the Department of Defense leader in virtual library development. The CNL has grown from zero to sixty member libraries in just three years.

NRLA – National Research Library Alliance

To provide their research communities with a common core of scientific information, four federal libraries have formed a consortium called the National Research Library Alliance (NRLA). NRLA members are the NASA Goddard Space Flight Center Library, the Office of Information Services of the National Institute of Standards and Technology, the National Science Foundation Library, and the Ruth H. Hooker Research Library of the Naval Research Laboratory.

Homeland Security Defense

The Dudley Knox Library has received research funding to establish a Digital Library in support of the new Homeland Security curricula being developed and taught at the Naval Postgraduate School.

BUILDINGS & GROUNDS: PLANT REPLACEMENT VALUE TRENDS

Figures in \$Millions

Note: during FY04, Commander Navy Installations (CNI) became the real property landholder for all navy land. Eight small installations were added to NSA Monterey as a result. The traditional NPS Plant Replacement Value (PRV) is \$452M. With the additional sites added by CNI the total PRV is \$1.018 Billion.
