## PREFACE

*Strategic Vision: A Selected Bibliography* was compiled to support the study of one of the U.S. Army War College's enduring themes. This list, like our earlier strategic vision bibliographies, focuses on the future and the vision required to create effective strategy. It contains some citations from the previous edition in addition to notable materials that were added to the collection since it was last published in 2008.

All items in this bibliography are available in the USAWC Library. For your convenience, at the end of the entries, we have added library call numbers, Internet addresses, or database links. Web sites were accessed during April 2011.

This bibliography and others, compiled by our research librarians, are available online through the Library's home page <http://www.carlisle.army.mil/library/bibliographies.htm>. For additional information, please contact the Research, Instruction, and Access Services Division, U.S. Army War College Library by sending an e-mail message to USAWC.LibraryR@us.army.mil, or by phoning DSN 242-4259 or Commercial (717) 245-4259.
