PREFACE

U.S. Army Air Forces Victory Credits, World War II, is a follow-on to Project Ace, started in May 1959 to compile a preliminary list of fighter aces. Published in January 1962 as USAF Historical Study No. 73, this compilation was titled A Preliminary List of U.S. Air Force Aces, 1917-1953. Subsequently, the USAF Historical Division,* Aerospace Studies Institute, published USAF Credits for the Destruction of Enemy Aircraft, Korean War in June 1963, and as the Historical Research Division,* Aerospace Studies Institute, published U.S. Air Service Victory Gredits, World War I in June 1969. In March 1974, the Albert F. Simpson Historical Research Center published U.S. Air Force Combat Victory Credits, Southeast Asia.

Since the establishment of Project Ace in 1959, research has continued on the victory credits of World War II. Civilian contract historian Wesley P. Newton, Jr., under the supervision of Dr. Maurer Maurer, then Chief of the Historical Studies Branch, completed the first phase of this research, which resulted in the publication of the preliminary list of aces.

Civilian contract historian Calvin F. Senning, who did most of the primary research on the Eighth, Ninth, and Tenth Air Forces under the supervision of Dr. Maurer, began the second phase of the project, to record <u>all</u> fighter victory_credits of World War II. Since 1968, five reserve officers, assigned as historians to; the Historical Research Center under the mobilization augmented concept, have accomplished all the work. The normal reserve tour for each of them consists of 1 day a month and 12 days of active duty a year.

.*Colonel Benjamin B. Williams, USAFR, joined the project in 1967, and has monitored the work of the other reservists who have been involved in the primary research over the past 10 years. He did the basic research for the Fifth, Thirteenth, and Ninth (in Africa) Air Forces, First Tactical Air Force (Provisional), and the Iceland Base Command. He also completed the inquiry begun by Senning on the Eighth, Ninth (Europe), and Tenth Air Forces.

Lieutenant Colonel Forrest B. Dowdy, USAFR, researched the Seventh, Eleventh, and Fourteenth Air Forces; and Colonel Alfred W. Goldthwaite, USAFR, worked on the latter stages of this portion of the project. This section includes the Twentieth Air Force credits earned by the VII Fighter Command in 1945.

^{*}Forerunner of the Albert F. Simpson Historical Research Center.

Lieutenant Colonel Leigh Maier, USAFR (now retired), started the investigation into the Twelfth and Fifteenth Air Forces in the Mediterranean area. Major Donald B. Dodd, USAFR, completed that work, including the most difficult determinations which had to be made for these two air forces.

Since 1972, Mr. James N. Eastman, Jr., Chief of the Research Branch, AFSHRC, has had general supervision over the project.

Keypunching of the data cards was done by Earline Gober and Ann Hines. Master Sergeant Thaddeus E. Bugay, USAF, assisted in editing the printouts, and Carolyn Smith and Sherry Hassett provided typing services.

The Albert F. Simpson Historical Research Center is grateful for assistance provided by the National Personnel Records Center in St. Louis, Missouri. The Data Automation Center of Air University processed the research data for the Historical Research Center.

APPENDIX I	681

INTRODUCTION

World War II was the only truly worldwide conflict in which air-power played a significant role; where Norld War I, Korea, and Vietnam were limited geographically in application of U.S. airpower, it was not. This presented researchers into the victory credits of the war with some special problems. There was never a single list of official victory credits for World War II, and, in fact, there were no uniform rules governing the award of credits in the various theaters and air forces.

Researchers for this project followed carefully prepared guidelines set forth by the USAF Historical Division as "Instructions for Study No. 85, Criteria for Determining Victory Credits."

The nature of aerial combat makes it very difficult to determine whether or not an enemy aircraft was in fact destroyed. The word of the claimant alone never has been accepted as sufficient evidence to establish a victory credit. Some kind of confirmation such as the witness of a fellow pilot on the mission, gun camera film, or a witness on the ground who observed the action generally has been necessary to establish a credit. Some competent authority, in turn, must recognize such confirmation before a victory receives official sanction.²

Furthermore, for the Army Air Forces to record a claim for the destruction of an enemy aircraft as a credit, the flyer had to be a member of the Army Air Forces or an allied flyer assigned or attached to an Army Air Forces unit engaged in air-to-air combat during the period 7 December 1941 to 14 August 1945. Victory credits earned by Americans who were members of, or Army Air Forces personnel serving with, allied units are not included here as those victories rightly belong to the units with which the victory was achieved.³

Individual fighter pilots in single-seat fighter aircraft earned almost all of the verified victory credits of World War II. However, this study also includes night fighter credits in which each member of the two- or three-man night fighter crew received one victory for each enemy plane destroyed. Though this distorts the actual number of enemy aircraft destroyed, the procedure is the same as that used for

A copy of these instructions is appended.

²A Preliminary List of U.S. Air Force Aces, 1917-1953, USAF Historical Study No. 73 (January 1962, p. 41).

³See Appendix 1.

World War I and Vietnam victory credits when a two-place fighter was involved.

An aircraft was deemed as destroyed if it were a heavier-than-air craft, manned and which one might expect to be armed, 4 that, as a result of air-to-air action, crashed into the ground or water, disintegrated in the air, or was abandoned by its pilot. Credit also was given for intentional ramming of an enemy aircraft or for maneuvering in such a way as to cause the enemy plane to crash. 5

Victory credits in this study were awarded if some official documentation such as a general order of a main issuing agency or the report of a victory credit board accepted the claim and ruled favorably upon it, and if no higher authority later revoked or rejected the credit. (Revocation was made by amendments to general orders or amended credit board reports.) Credit has been awarded by the Historical Research Branch (or its predecessor, the Historical Studies Branch) using the authority assigned to the Albert F. Simpson Historical Research Center by HQ USAF in 1962. Throughout this study the researcher applied the criteria to resolve doubtful cases in favor of the claimant.

One of the difficulties of the project was determining the primary authority for the award of victory credits. In different theaters and in the various air forces within theaters, the systems for authenticating victory credits varied substantially.

The European Theater of Operations (ETO) encompassed the Eighth Air Force, the Ninth Air Force after 16 October 1943, the Iceland Base Command, and the First Tactical Air Force (Provisional). The VIII Fighter Command in September 1945, in a document entitled "Eighth Air Force Final Report of Assessed Fighter Claims Against Enemy Aircraft," tabulated the victory credits of the Eighth Air Force. This study corrects the errors in the "Final Assessed Fighter Claims" by detailed research of squadrons and group claims, by correcting misspelled names, and by eliminating the

⁴The German Ju 52, for example, was most frequently an armed transport plane.

⁶2d Ind (B/L, Research Studies Institute, through AU, to HQ USAF, "Victory Credits," 7 Aug 1962), HQ USAF to AU, 16 Aug 1962.

^{7&}lt;sub>Ibid.</sub>

confusion caused by credits having been entered under variant name forms.⁸

Victory credits of the Ninth Air Force in the ETO were derived for the most part from the victory credit board reports of the IX Fighter, IX Tactical Air, XIX Tactical Air, and the XXIX Tactical Air Commands. A few Ninth Air Force credits were issued in general orders awarding decorations after the war in Europe had ended and after the work of the victory credit boards ceased.

The four and one-half credits that the fighter pilots of the Iceland Base Command won, with one exception, were published in the general orders of U.S. Army Forces, Iceland, which awarded Silver Stars and gave essential details of the action. The one exception was a credit given by research in the "Iceland Base Command War Diary" which reported the damaging of a German Ju 88 by machinegun fire and from contact with the attacking P-39's propeller. Seventeen days later, an American search party came upon the crashed German plane. General orders never awarded this victory credit but the encounter report and the finding of the wreckage confirm the destruction of this aircraft. The odd half credit in Iceland relates to the first German plane (an FW 200 "Courier") destroyed by Army Air Forces pilots in American planes in the ETO. A pilot stationed in Iceland and a pilot from an Eighth Air Force fighter squadron staging through Iceland on its way to England shared this victory credit. As a result, half the credit was recorded by the Eighth Air Force and half by the Iceland Base Command.

Awarding of victory credits to members of the First Tactical Air Force (Provisional) required special attention because of the unusual nature of the formation and operation of this provisional organization. The First Tactical Air Force (Rrovisional) was formed in October 1944 from units of the Ninth and Twelfth Air Forces to support the ground armies in Northern France after the forces which invaded Normandy and Southern France linked up in the fall of 1944.

When the provisional air force organized, Ninth and Twelfth Air Forces dropped recordkeeping for the units taken from them? Hence, no record of victories exists for these groups in either the Ninth or

⁸A detailed analysis and critical evaluation, prepared by the USAF Historical Division in October 1960, is available in the files of Project Ace in the AFSHRC.

⁹Ninth Air Force victory credit boards were established in conformance with par 2f(2), HQ Ninth Air Force Memorandum Number 55-8, 29 Mar 1944, and for IX Tactical Air Command by par 3, SO 114, HQ_IX Fighter Command, 31 Dec 1943.

Twelfth Air Forces. The main issuing agency for victories in the First Tactical Air Force (Provisional) became the XII Tactical Air Command which had entered the ETO from the MTO in the invasion of Southern France. A few victory credits were given on general orders of the First Tactical Air Force (Provisional), but in every case they record multiple victories and the award of a Silver Star or Distinguished Flying Cross. Other credits for this provisional air force were issued on orders of United States Strategic Air Forces in Europe, Ninth Air Force (after the war in Europe ended), and XIX Tactical Air Command, as well as by the XII Tactical Air Command Combat Claims and the 64th Fighter Wing Claims boards. The absence of a definite main issuing agency for the First Tactical Air Force (Provisional) made these determinations especially difficult.

Most of the victory credits in the Mediterranean area--which includes the Middle East, North Africa, the islands of the Mediterranean, and the southern portion of the European continent--were recorded as incidental parts of award citations in the general orders of the Twelfth and Fifteenth Air Forces and their predecessors. Headquarters of the Ninth Air Force (while it operated in the Middle East and North Africa) issued some credits in the theater. Also validating credits were: IX Fighter Command; XII Fighter Command (later the XII Tactical Air Command); XII Bomber Command; XII Air Support Command; the 5th, 42d, and 47th Bombardment Wings; United States Army Forces in the Middle East (USAFIME); United States Army Middle East Air Force (USAMEAF); Northwest African Air Forces; Northwest African Coastal Air Force; Northwest African Strategic Air Force; Army Air Forces, North African Theater (AAF-NATO); North African Theater of Operations, U.S. Army; Army Air Forces, Mediterranean Theater of Operations (AAF-MTO); and Mediterranean Theater of Operations, U.S. Army.

Fifth and Thirteenth Air Forces in the Southwest Pacific issued victory credits in general orders of their respective headquarters. Prior to the formation of these numbered air forces, credits in the theater appeared as incidental parts of citations for Air Medals, DFCs, Silver Stars, and Distinguished Service Crosses in the general orders of United States Army Forces in the South Pacific Area (USAFISPA) and United States Army Forces in the Far East (USAFFE). Both the Fifth and Thirteenth adopted policies of giving only whole credits. The only fractional credits in the Fifth Air Force were awarded to six Filipino fighter pilots who together destroyed one Japanese plane. Thirteenth Air Force, like Fifth, awarded no fractional credits in general orders; but the XIII Fighter Command maintained a list of victories which included fractions. Often, when a determination could not be made to award a victory to one or another pilot involved in the action, neither pilot received credit. These victories have been included in this study as credits shared equally by all involved pilots whenever primary research into the mission supported the findings of the XIII Fighter Command tabulation.

In the Central and Western Pacific, the Seventh, Eighth (Pacific), and Twentieth Air Forces and the VII Fighter Command, all of which operated there, awarded victory credits in general orders. All of these were incidental to citations for medals and clusters except that Seventh Air Force frequently gave specific victory credits in its general orders. Other headquarters which issued a few victory credits for this theater were the United States Army Strategic Air Forces; Army Air Forces, Pacific Ocean Areas; Tenth Army; and United States Army Forces, Pacific.

Victory credits in the Aleutians Theater were issued in general orders of Headquarters, Alaska Defense Command; XI Fighter Command; Field Headquarters, Eleventh Air Force; and Headquarters, Eleventh Air Force—which sometimes cited victory credits only, and sometimes cited the victory as an incidental part of an award citation.

In the China-Burma-India (CBI) Theater where the Tenth and Fourteenth Air Forces operated, these air forces recorded victory credits in their general orders, which appear as incidental parts of citations for Air Medals, DFCs, or Silver Stars. Other main issuing agencies for victory credits in this theater were Army Air Forces, India-Burma Theater; Army Air Forces, China Theater; China Air Task Force; and United States Army Forces, CBI.

For this project, victory credits (whole or fractional) for each individual were recorded on data cards developed by the Historical Research Center. Each card included the name, serial number, service, unit of assignment, theater of operations, credit (whole or fractional), and the date of the action. The source of the authority for the award of the credit--Victory Credit Board Report, general order, unit history, operations report or any other source--is recorded on each data card. In the remarks section of each card are recorded additional notations pertaining to the type of enemy aircraft destroyed (if known), the type of U.S. or allied aircraft involved in the mission (if easily available), any decoration awarded the pilot, and any other pertinent information that would support the victory credit. The researcher made note of any difficulties surrounding the victory itself or problems relating to in-complete portions of the data card. Basic data were keypunched and resulted in a computer printout. Each printout then was edited against the data cards and later against previous printouts. On occasion, documents have come to light which have resulted in the addition or deletion of victory credits. The present list was made from all known documents available in the historical document collection of the Historical Research Center, Maxwell AFB, Alabama, and researchers also checked many of the records against the individuals' files in the National Personnel Records Center, St. Louis, Missouri.

The list is as complete as available source documents can make it, but historical researchers never make categorical claims that a

work is error free, since there is always the chance that additional evidence may come to light. Persons who possess documents that might alter scores are encouraged to forward copies of such material to the Albert F. Simpson Historical Research Center/HOR, Maxwell AFB, Alabama 36112. All documents should be submitted in a form that may be retained by the Center for evaluation in relationship to the materials available. Any reappraisal thus initiated will be done in accordance with the criteria adopted for the entire project.

Some specific facts are necessary to the user's full understanding of the lists. On 15 May 1942, the Army Air Forces redesignated all "Pursuit" units as "Fighter" units. This was a worldwide change. Many of the combat units in the Fifth and Seventh Air Forces had received victory credits under the "Pursuit" designation. To prevent confusion in this study, all of the combat units which were Pursuit Squadrons or Pursuit Groups have been listed as "Fighter" squadrons or groups.

None of the Chinese Air Force flyers who served with the Chinese-American Composite Wing (CACW) in the Fourteenth Air Force were awarded victory credits on Army Air Forces general orders. Their victory credits were recorded, however, in the Fourteenth Air Force "Monthly Roster of Victories" and are included herein.

Although the Iceland Base Command was under European Theater of Operations (ETO), its credits (four and one-half total) are identified with the theater designator "ICE" to set them apart from the other ETO credits.

The compilers made no attempt to separate the theaters "Central" and "Western" Pacific which were the sole areas of the Seventh Air Force, or to divide the activities of the Fifth and Thirteenth Air Forces between the "South" and "Southwest" Pacific Areas. Therefore, all Seventh Air Force and VII Fighter Command (which in 1945 was a part of Twentieth Air Force) credits designate the theater with "CP" for Central Pacific, and all Fifth and Thirteenth Air Force credits carry the designation "SWP" for Southwest Pacific area.

APPENDIX I

APPENDIX I

CRITERIA FOR DETERMINING VICTORY CREDITS

- 1. The victory credits to be recorded in Study No. 85 are for destruction of enemy aircraft by the United States, or by allied pilots serving with the United States, in air-to-air combat during the period from 7 December 1941 through 2 September 1945. Each credit will meet the following tests:
 - a. The person credited was, at the time of the victory,
 - (1) A member of:
 - (a) The U.S. Army Air Forces/(AAF).
 - (b) Other U.S. military service (e.g., Navy).
 - (c) Or a military branch of an allied nation (e.g., RAF).
- (2) Assigned or attached to and serving with an AAF unit at the time of the action in which the victory was gained. (This excludes (a) AAF members attached to other U.S. or allied forces, and (b) persons who at the time were not members of the AAF but who previously or subsequently were members.)
- (3) Piloting an aircraft (fighter or night fighter) during the action in which the victory was gained. (Most of the men credited with victories were fighter pilots; however, all members of crew on a night fighter will be given full and equal credit.)
- (4) Personally responsible for the destruction of the enemy plane, or shared that responsibility with one or more other pilots. (Such a pilot can share a credit with one or more pilots of other planes, but he will share a credit with a member of his own crew--e.g., the gunner of a P-70.)
 - b. The aircraft destroyed was:
- (1) Being operated by the enemy. (There is no credit for destroying a friendly or neutral craft.)
- (2) A heavier-than-air craft. (This excludes all lighter-than-air craft.)
- (3) Manned and armed at the beginning of the action which resulted in its destruction. (This excludes all unmanned aerial

vehicles (e.g., buzz bombs) and aircraft abandoned in flight prior to the action resulting in their destruction.)

- c. Destruction of the enemy aircraft was:
- (1) The result of aerial (air-to-air) action. (This excludes aircraft destroyed on the ground.)
 - (2) Accomplished by means of:
- (a) Gun(s), cannon, or rocket(s) fired by the person credited.
- (b) Ramming by the person credited. (This requires deliberate action on the part of the person credited. There is no credit if the enemy's plane was destroyed as a result of enemy ramming or as a result of an accidental mid-air collision of an enemy plane and an AAF plane. If it is impossible to determine whether a collision was a deliberate action (i.e., ramming) by the person credited or was accidental, such collision will be presumed to have been deliberate.)
- (c) Maneuvering, by the pilot credited, in such a way as to cause the enemy plane to crash or be destroyed in some other manner, such as collision with another enemy plane.
 - d. The credit has been awarded or recorded by:
- (1) Competent military authority by means of some official documentation, and there is no evidence that this credit was rejected or revoked by the awarding or higher authority. (For example, a credit certified by the operations officer of a fighter group is not to be recorded in Study No. 85 if some higher authority, such as the victory credit board or headquarters of a superior organization which normally confirmed such credits did not confirm this particular one.)
- (2) Or by Chief, Historical Studies Branch (later Historical Research Branch), acting in accordance with authority assigned to the USAF Historical Division by 2d Ind (B/L, Research Studies Institute, through AU, to HQ USAF, "Victory Credits," 7 Aug 1962), HQ USAF to AU, 16 Aug 1962.
- 2. The criteria of paragraphs la, lb, and lc above will be given strict application in determining credits, but paragraph ld will be applied so that doubtful cases will be resolved in favor of a person or unit claiming a credit. In such doubtful case, the researcher will record a credit if:

- a. There is strong evidence that a credit has been officially awarded and has not been rejected or revoked by the awarding or superior authority.
- b. Or there is solid evidence of a victory for which a credit has not been previously awarded, or, having been awarded, has been rejected or revoked by authority superior to that which made the award. In each such case:
- (1) The researcher will submit a brief, documented summary of his findings to the Branch Chief, using a separate $8 \times 10-1/2$ sheet for each such statement.
- (2) The Branch Chief will record his decision on the researcher's statement and return the statement to the researcher for preservation in a special file.
- (3) If the Branch Chief awards a credit in such a case, the researcher will prepare Form 0-605, noting on the form: Awarded by ASI-HS (later AFSHRC/HOR). Include date of Branch Chief's decision.
- 3. In some cases, a name is followed by one, or two, asterisks. This method was used to keep the computer from intermixing credits for two different pilots having the same first and last names and middle initials, where we could not easily locate the individual's middle name.
- 4. In one case, Robert W. Inglis, on the night fighter list, was KIA the same day that he achieved his only victory. We were unable to verify his complete serial number. A dash (-) indicates the numbers we could not locate.
