## MEDICAL

### DEFINITIONS

#### ACTIVE DUTY MILITARY PERSONNEL

Consists of all military personnel who are on extended active duty. Excluded are military personnel who are on short tours of duty.

#### ADMISSION RATES

Include all patients admitted to a hospital, infirmary, dispensary, or quarters and who are on an "Excused-from-duty status" (i. e., not returned to duty before midnight of the date of admission). A patient admitted from a duty status to a medical facility is only counted once toward the admission rate. Patients admitted by transfer from another medical facility are not included.

#### ADMISSIONS TO HOSPITALS AND INFIRMARIES

Include all patients excused from duty for treatment and/or observation, and patients transferred to the reporting medical facility from another medical facility.

#### AVERAGE OCCUPIED BEDS

Represents the average daily number of patients occupying beds in hospitals and infirmaries during a four or five week reporting period.

#### AVERAGE STRENGTH SERVED

Includes not only those U. S. active duty military personnel for whom a base holds sick call, but also those U. S. active duty military personnel reporting elsewhere (Dispensaries) for sick call but attached to the base for in-patient care.

#### COMPLETE PHYSICAL EXAMINATIONS

Include only routine physical examinations performed in accordance with USAF directives and recorded on the report of medical examinations (Standard Form 88); physical inspections of food handlers or barbers are not included nor are examinations for personnel reporting sick.

#### FULL TIME EQUIVALENT PERSONNEL

Are total assigned and attached personnel converted into actual full-time strength; for example, 10 individuals employed on a full-time basis and 4 individuals employed on a half-time basis, are considered to be 12 full-time equivalents.

#### NONEFFECTIVE RATES

A measure of the number of men per thousand average strength who are noneffective due to medical causes on an average day during the specified period.

$$\text{The basic equation for the noneffective rate is:}$$
$$\frac{\text{days lost} \times 1000}{\text{average strength} \times \text{days in period}} = \text{noneffective rate}$$

#### OPERATING BEDS

Those medical treatment facility beds which are currently set up and in all respect ready for the care of patients, and with which the facility is staffed and equipped to operate. Bassinets and dispensary beds are not included.

#### OUTPATIENT TREATMENTS

An outpatient who presents himself for medical advice or treatment at a medical facility, is counted as one outpatient treatment each time he reports to anyone of the clinic or departments; consequently, more than one treatment may be reported for each visit.

#### OUTPATIENT VISITS

A visit is counted for each patient (not excused from duty) who on a given day presents himself for either medical advice or treatment. On any given day, only one visit is counted regardless of the number of times the patient is seen; when the patient is seen on multiple days, one visit is counted for each day. Patients reporting for prescribed examinations and immunizations are not counted as a visit.

#### SPECIFIED PERIODIC EXAMINATIONS OR TESTS

Are those examinations or tests administered to personnel, military or civilian, exposed to industrial-type hazards. Also includes examinations of food handlers, barbers, etc.

- Class 4 On Delivery at Purchase
- Class 5 Any receipt except Purchase

TABLE 9 - USAF VETERINARY FOOD INSPECTION SERVICE INCIDENT TO SURVEILLANCE - FY 1952

(This table reflects the pounds of food of animal origin inspected as issued or otherwise disposed of and the percent rejected from 1 July 1951 through 30 June 1952. Although all Air Force owned subsistence items are reinspected many times as received, stored, shipped, and issued, each pound is included but once in this table. Subsistence is disposed of in one of two ways: i.e., by rejection and salvage incident to surveillance inspection or by issue or sale.)

## MORALE

This area of the publication was organized as such under the title of Morale for the FY 1951 "USAF Statistical Digest." The Study of OSI "Caseload Activities on Special Investigations" appeared for the first time in the FY 1951 publication. Tables on offenses, as reported by the Provost Marshal, have been running since 1947 but prior to FY 1951 this information was reported under Military Personnel.

### OFFICE OF SPECIAL INVESTIGATIONS

The Office of Special Investigations, Headquarters, USAF, is an activity of The Inspector General, USAF, and an instrumentality of the Chief of Staff, USAF. The mission of the office is to provide a centrally directed criminal, counter-intelligence, and special investigative service to all Air Force activities. The Director of Special Investigations is charged with the operational and administrative control of all Office of Special Investigations activities within the continental limits of the United States. An Office of Special Investigations activity functions within each overseas command but the operational control thereof is the responsibility of the overseas commander concerned. ( For that reason no overseas summaries were included in the table. ) Overseas commands, initiating cases which require Air Force investigative action in the Zone of Interior, direct all requests for Personnel Security Investigations authorized under the provisions of AFR 205-6 to the 4th OSI District Office, Bolling Air Force Base, Washington 25, D. C. All other requests are referred to the Director of Special Investigations, Hq. USAF, Washington 25, D. C.

The administrative and operational structure of the Office of Special Investigations within the Continental limits of the United States during FY 1951 consisted of the Office of Special Investigations, Washington 25, D. C.; the 1005th IG Special Investigations Group, Bolling Air Force Base, Washington 25, D. C.; and 25 districts, numbered one to twenty-five inclusive. Each district was commanded by an officer of the district headquarters designated the District Commander. Within the various districts, detachments existed under the command of a military person designated the Detachment Commander. The area of jurisdiction for each of the twenty-five districts may be found in AFR 124-6, dated 14 Dec 1949. The map on the following page indicates districts and district headquarters.

The Office of Special Investigations initiates investigation of matters which come within its investigative responsibility under the following circumstances:

- (1) Upon the direction of the Director of Special Investigations or higher authority.
- (2) Upon receipt of a request from any Air Force commander responsible for the security, discipline and law enforcement of a command or installation, or from higher authority.
- (3) Upon receipt of information indicating a reasonable need for investigation of matters clearly within the investigative jurisdiction of the Office of Special Investigations with the commander indicated above concurring. When an appropriate commander requests that a matter which comes within the investigative jurisdiction and responsibility of the Office of Special Investigations, not be investigated, the District Office will comply with the request but will fully advise the Director of Special Investigations of the circumstances. All reports of assigned investigations are given the appropriate security classifications.

Summaries have been compiled for the period, 1 August 1948 through 30 June 1952, covering the period since the inception of the Office of Special Investigations. For the convenience of the recipients statistics have been set up for both the calendar 1951 and fiscal year 1952. "Pending Investigations" as of 30 June 1952 are also shown.

The following definitions arranged in alphabetical order will clarify the breaks shown in the table - "Special Investigations Conducted by the Office of Special Investigations in Continental US":

### DEFINITIONS

#### AUXILIARY OFFICE OF INVESTIGATIONS - (short terminology - "Auxiliary")

#### CLASSIFICATION

#### COUNTER-INTELLIGENCE INVESTIGATIONS

#### GENERAL INVESTIGATIONS

Investigations conducted to determine facts and circumstances pertaining to alleged major violations of the Articles of the Uniform Code of Military Justice, Federal Statutes and/or other applicable directives, by USAF personnel, excluding incidents of a counter-intelligence or procurement nature.

#### INVESTIGATIONS CLOSED

OFFICE OF SPECIAL INVESTIGATIONS - CONTINUED

INVESTIGATIONS PENDING

OFFICE OF ORIGIN INVESTIGATIONS - (short terminology - "Origin")

The loyalty and security program within the executive department established the requirement for such investigations, and they are governed by law, OSD directives and Air Force policies.

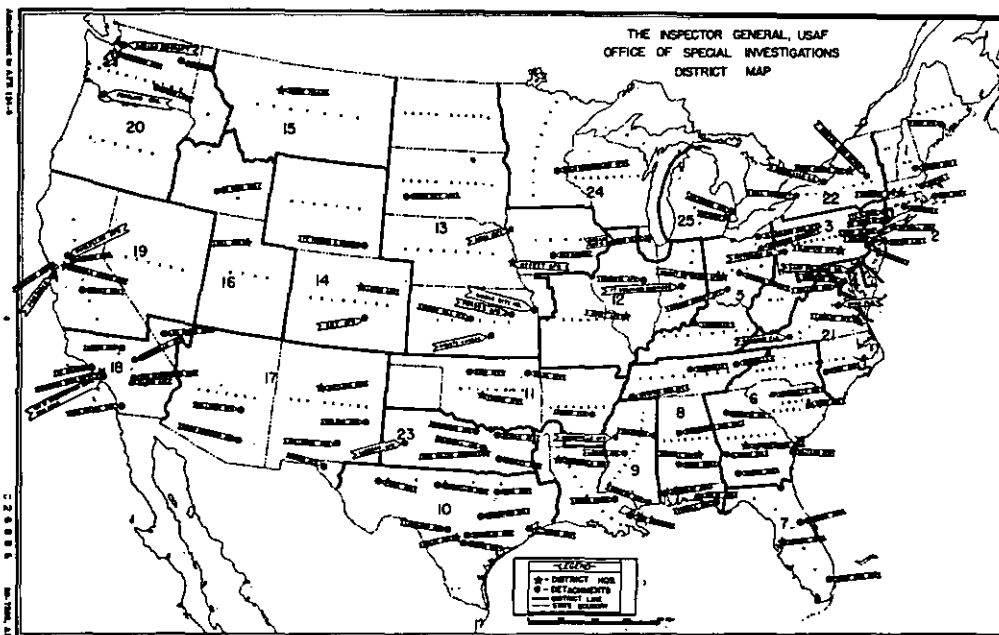

PROCUREMENT INVESTIGATIONS

Investigations conducted to determine facts surrounding incidents of alleged breaches of the public trust and violations of law in connection with Air Force procurement, disposal, nonappropriated funds, commissary, and pay and allowance matters.

SECURITY

Safeguarding military information - This regulation prescribes policies and procedures for the safeguarding of military information which requires protection and to achieve uniformity in the grading and assignment of classification. Ref: AFR 205-1.

The Inspector General, USAF, Office of Special Investigations District Map, under AFR 124-6 dated: 14 Dec 1949 and printed below is still in effect.

AIR PROVOST MARSHAL

Provost Marshal Statistics is a collection of selected data concerning corrections, security violations, and delinquencies, charged to W/W Military Personnel on duty. The statistics reported in this section of the tables are derived from AF Form 511, Report of Air Provost Marshal Activities. The fiscal year tables covered in this publication are divided into two parts "July 1951 through April 1952" and "May and June 1952" because of changes in reporting methods. The first ten months offense rates for the fiscal year were based on the strength charged to the commanding general or assigned strength reported by the command at the end of the month; while May 1952 and June 1952 offenses were charged to the daily average strength. The daily average strength was obtained by dividing the average number of personnel physically present on the installations of a command during the reporting month by the number of days in the reporting month (See AFR 171-11.) In most cases certain month offenses were charged to the strength of the corresponding month but in a few cases various months strength were substituted. August (1951) strength was substituted for May (1952) for Air Materiel Command and June (1951) for May (1952) in the report for Military Air Transport.

The following definitions affect this portion of the Morale Reports:

DEFINITIONS

(FY 1947 through April 1952 rates are based on the number of AWOL cases and Man-Days Lost against the average command strength chargeable to the Commanding General as of the end of the month. May and June (1952) rates are based on daily strengths as defined in the introduction of this area. A few civilians are included in FY 1947 data, but so few that they make no significant difference in the rates.)

A unit of the Air Force Reserve organized on the same T/O&E or T/D as its parent Regular Air Force Unit. A Corollary Unit is activated at each location where the personnel of the Regular Air Force Unit can be duplicated with similar reservists.

##### HONORARY AIR RESERVE

All Air Force Reserve personnel whose service has been honorable and who have, prior to reaching the statutory age for retirement, completed 20 years of satisfactory Federal service on active or inactive status or combination thereof in any component or components of the armed services, or who have reached the statutory age for retirement, and who have applied for and received transfer thereto compose the Honorary Air Reserve.

##### INACTIVE AIR RESERVE

This type of enrollment is a tentative enrollment which will not become absolute unless and until the proper authority determines that the student concerned is fully qualified for formal enrollment in the advanced course of the Air Force ROTC.

### ENROLLED STUDENTS

This group included both conditionally and formally enrolled students.

### FORMAL ENROLLMENT

This type of enrollment is an absolute advanced enrollment where a condition does not exist that would question a student's qualification for enrollment. Such enrollment entitled the student concerned to receive all benefits, financial and otherwise, provided by law and regulations. (Tables in this publication are based on this type of enrollment).

## EXPLORERS

Air Force cooperation with Explorer program has been provided since the program was initiated in 1941, when General Arnold offered the Director of Senior Scouting, Boy Scouts of America, the support and cooperation of the USAF. The mission of this program is to assist in the general development of youth in the fundamental principles of citizenship, patriotism, and leadership while incidentally providing an opportunity for the explorers to learn aviation essentials and to obtain a better understanding of their age and its significance. Flight activities are of a routine training nature, not involving special hazards and without additional expense to the government. The activities of the USAF include some flight transportation and aircraft orientation as well as entertainment of all explorers (Air, Sea, and Navy and Rover Army) at the air bases or encampments as planned in cooperation with the Army and the Navy. The Explorer program is conducted in conjunction with other activities of the Boy Scouts of America.

EXPLORER MEMBERSHIP includes boys of 14 years of age and over; Cub Scouts, include boys 8 through 10 years, and Boy Scouts, boys 11 through 13 years.

Exploring provides activities in four areas: Indoor, Outdoor, Services and Social. It gives the young man the opportunity to plan the use of his leisure time wisely and to develop himself in the sense of security and self reliance which make for a happy, well-adjusted, law abiding citizen.

INDOOR ACTIVITIES range from industrial tours and discussion groups to hobby colleges. Vocational conferences and exploration help the young man to face the future rather than to fear it.

OUTDOOR ACTIVITIES are of the vigorous physical cross country types that take the Explorer into diversified areas such as caves, mountain areas, sea cruises, etc.

SERVICE ACTIVITIES include projects which help the Explorer's home, the Explorer's church or synagogue, and the Explorer's community.

SOCIAL ACTIVITIES afford the Explorer an opportunity to meet people, to get along with them, to express his opinion in front of groups, to defend his thoughts in debates and round table discussions. He learns to listen and evaluate; he learns good manners.

All tables reported in FY 1952 publication of the "USAF Statistical Digest" are based on the Forty Second and Forty Third Annual Reports of the Boy Scouts of America to Congress.

TABLE 51 - CAP - HIGH SCHOOL AVIATION EDUCATION PROGRAM - 1949 (FALL) THROUGH 1952 (SPRING)

The Coordinated CAP-High School Aviation Education Program is an aviation education plan which may be described as general education in regard to aviation.

The course, as a one-year program for high school instruction, is taught by regular members of the school faculty. (It is also designed as a two-year course for use at CAP squadron level with CAP and Air Force Reserve personnel serving as instructors.) Any student is eligible to participate in the high school course of instruction, and CAP membership, though desirable, is not necessary.

The data below reflects a 116 percent increase in the number of High Schools offering CAP aviation education with an increase of 97 percent in the number of students for the Fall Semester 1950 over Fall Semester 1949. The increase had reached 153 percent for the Number of Schools and 138 percent for the Number of Students by the Fall Semester 1951.
