MEMORANDUM FOR SAF/PA

FROM: SAF/FMCE

SUBJECT: Public Release Approval Request

1. The attached material, described below, is forwarded for security and policy review in accordance with AFI 35-101, Chapter 15:

TITLE: USAF Summaries for 1945-2005  
(Please include page count)

AUTHOR/ORGANIZATION: SAF/FMCE

PRESENTATION TO: *General Public*

DATE: *As soon as "Approved" for Public Release*

LOCATION: *DTIC Public Database*

PUBLICATION IN: *N/A*

SUBMITTAL DEADLINE: *N/A*

REQUEST REPLY BY: *23 Feb 2011*

**DEPARTMENT OF THE AIR FORCE  
SAF/PA  
CLEARED THIS INFORMATION**

**FEB 23 2011**

**FOR PUBLIC RELEASE**

2. SAF/FMC has no objection to public release of this document upon approval from SAF/PA.

3. (This line is for any comments or recommendation you may have in reference to the document you are submitting for review; if prior coordination has been performed, please list POC and phone number.) Please list one addition POC other than submitter.

MEMORANDUM FOR AF/HO

EVJ  
KAS-2005

FROM: SAF/PA (Security and Policy Review)

SUBJECT: Public Release Coordination (PAIRS 2011-0034)--USAF Summaries for ~~1976-1985~~ - FOR PUBLIC  
RELEASE SUSPENSE: 28 Jan 2011

The purpose of the memo is to obtain subject matter expert coordination for public release of the attached document and has been sent concurrently to each addressee. This memo replaces the Public Affairs Information Release System (PAIRS) form and should be protected as "For Official Use Only". Please review and respond in the 1st indorsement with one of the provided dispositions. If you have any questions, concerns, or comments feel free to contact me at 703-697-3222/3994. FAX 703-693-9452.

REPLY TO  
ATTN OF: ACMC

SUBJECT: Declassification of Statistical Digest (Your ltr, 25 Aug 78)

TO: AF/CVAH(S)

All editions of the USAF Statistical Digest for the years 1945 thru 1963 are UNCLASSIFIED IAW Executive Order 11652 and downgrading instructions in AFR 205-1. Statistical Digests from 1964 thru 1977 are CLASSIFIED IAW instructions on the individual pages. Additional security information can be obtained from the office of primary responsibility.

*Form Approved*  
*OMB No. 0704-0188*

Public reporting burden for the collection of information is estimated to average 1 hour per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Washington Headquarters Services, Directorate for Information Operations and Reports, 1215 Jefferson Davis Highway, Suite 1204, Arlington VA 22202-4302. Respondents should be aware that notwithstanding any other provision of law, no person shall be subject to a penalty for failing to comply with a collection of information if it does not display a currently valid OMB control number.

1. Official Statistical Yearbook. "The United States Air Force Statistical Digest" prepared, published, and distributed by Headquarters USAF (Directorate of Statistical Services, Office of Comptroller) is hereby designated as the official Air Force Statistical yearbook for the presentation of summary statistics on all phases of Air Force activity, strength, and operations.

2. Distribution. A limited distribution of this digest will be made as determined by Headquarters USAF.

BY ORDER OF THE SECRETARY OF THE AIR FORCE:

HOYT S. VANDENBERG  
Chief of Staff, United States Air Force

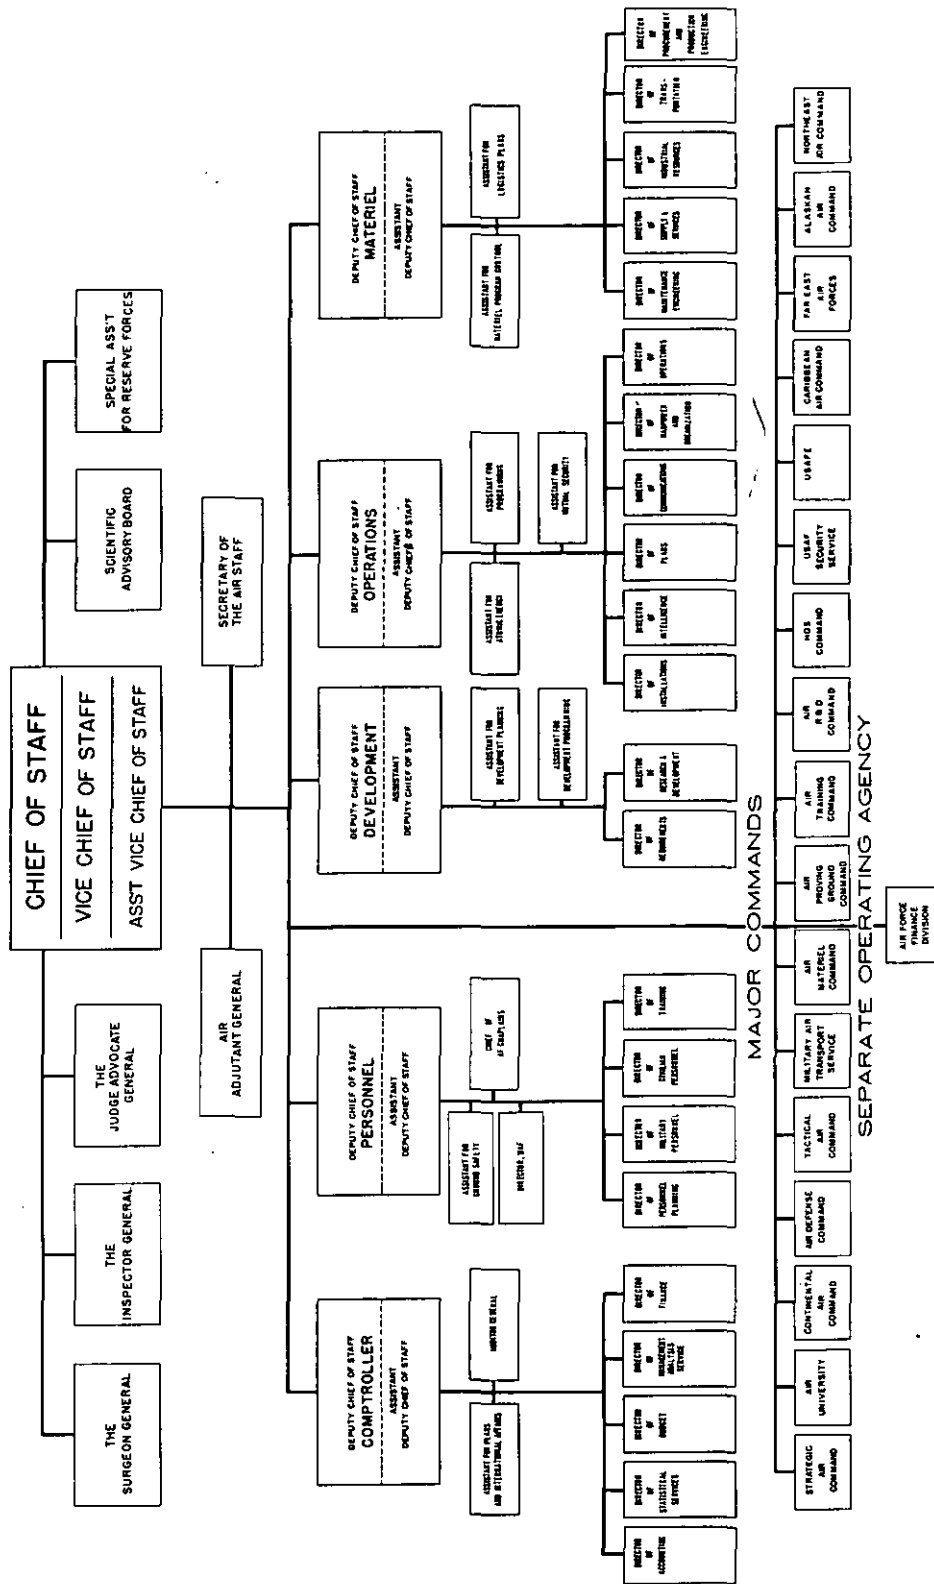

OFFICIAL:

L. L. JUDGE  
Colonel, USAF  
Air Adjutant General

DISTRIBUTION:

B

HEADQUARTERS—UNITED STATES AIR FORCE

## FOREWORD

The "USAF Statistical Digest", (Short Title USAFSD-52) summarizes in one document the volume of statistical data collected and published by various offices in Headquarters, United States Air Force and certain major commands. It is to be used as the official basic reference document for the period and areas covered.

The Fiscal Year 1952 edition is the seventh edition of the series. Original editions - Army Air Forces Statistical Digest (World War II) and supplement Number 1, 1945 were followed by AAF Statistical Digest, 1946 and USAF Statistical Digest 1947. The 1946 and 1947 editions made Air Force Statistics available in summarized form available as far back as possible, with the exception of Combat Operations. This data is found only in the 1945 edition. The 1948 issue was the first strictly annual publication. The present issue, and the 1949, 1950, and 1951 editions are organized on a Fiscal Year basis.

Immediately following this introductory statement is the Glossary, containing terms and definitions appropriate to all data included in this issue. Definitions appropriate to only one area will be found in an introductory statement preceding Part in question.

Sources of the majority of the data are the published and unpublished records of the Directorate of Statistical Services. The balance of the data was furnished by other agencies as noted in source reference data.

Correspondence relative to the content of this document as well as recommendation for new material for inclusion should be addressed to Director of Statistical Services, Headquarters United States Air Force, Washington 25, D. C.

## GLOSSARY

### ACCIDENT AIRCRAFT

An event, involving one or more military aircraft, that occurs while the aircraft is engaged in any phase of aerial flight including takeoff and landing runs, taxiing, or while the aircraft is on the ground and power plant is in operation (except maintenance operation - servicing, repair, etc) and which results in death or injury to persons or damage to the aircraft.

### MAJOR AIRCRAFT ACCIDENT

An accident which results in death or major injury to persons or major damage to the aircraft. Major injury is that which will probably require hospitalization for a period of five or more days or results in unconsciousness, fractures (except simple finger or toe fractures), lacerations of muscles, or which cause hemorrhages, internal lesions and burns involving more than five percent of body surface, or involving less than five percent if to the second or third degrees. Major damage includes damage to such parts of the aircraft as landing gear, wings, fuselage, stabilizers and power plant to the extent that the part must undergo major repair or be replaced.

### MINOR AIRCRAFT ACCIDENTS

An accident which results in minor injury to persons or minor damage to the aircraft. Minor injury is less severe than major injury as defined above and requires that military personnel be reported on the daily sick report as sick in quarters or hospital, or in the case of civilian personnel, loss of regular working time beyond the work-day on which the accident occurred. Minor damage is such damage as to make the aircraft unsafe for flight but not damage so great as to be classified major damage as defined above.

### FATAL AIRCRAFT ACCIDENTS

An aircraft accident involving fatal injury to personnel.

### FATALITIES (Aircraft Accidents)

Fatalities which are the result of an aircraft accident.

### AIRCRAFT

The term aircraft and all type, model and series designations including prefixes are synonymous with the terminology of heavier-than-air-aircraft as used in AF Regulation 65-60, dated 9 May 1949, unless otherwise specifically noted.

### AIRCRAFT ACCEPTANCE

The status of previously shop-assembled aircraft which have been fully inspected by constituted USAF or Navy production authorities and the title, responsibility and accountability for which has been assumed by the contracting agencies or recipients.

### AIRCRAFT - ADMINISTRATIVE

Aircraft provided to certain headquarters organizations and other Air Force activities for the accomplishment of such missions as staff administration, courier service, emergency maintenance, and emergency delivery of supplies and equipment.

### AIRCRAFT - COMMAND SUPPORT

Additional aircraft assigned to a command to enable it to maintain the basic aircraft inventory of its organizations at authorized strength.

### AIRCRAFT - COMBAT CREW TRAINING

Aircraft assigned to Combat Crew Training schools for crew training.

### AIRCRAFT - FLYING AND TECHNICAL TRAINING

Aircraft assigned to the Air Training Command for its flying training and technical training, except for training in Combat Crew Training Schools.

### AIRCRAFT - MINIMUM INDIVIDUAL TRAINING

Aircraft assigned for the purpose of enabling those pilots to perform minimum annual requirements who are unable to obtain minimum individual flying training on other aircraft.

### AIRCRAFT - PROJECT

Aircraft on project to be assigned to fill a USAF requirement in an active category.

### AIRCRAFT - SERVICE TEST AND EXPERIMENTAL

Includes those aircraft, other than "X" prefixed aircraft, which have been procured or modified for service test purposes ("Y" Models) and also those standard production type aircraft which are reported as being used for experimental purposes.

### AIRCRAFT - SPECIAL MISSION

Aircraft assigned to special units and activities of the special missions assigned thereto, such as local rescue, local tow target (not tow target units) and special air missions.

### AIRCRAFT - TEST

Aircraft assigned to recognized testing agencies for test and/or evaluation of the aircraft, its equipment, and/or the adaptability of a particular usage of aircraft equipment or other equipment (except for "X" Models and aircraft on bailment contract for test).

### AIRCRAFT - TEST SUPPORT

Aircraft assigned to recognized testing agencies to support the test or evaluation project but which are not the subject or vehicle for such tests (except for "X" Models and aircraft on bailment contract for test support).

### AIRCRAFT - TRANSPORT

Aircraft assigned to Military Air Transport Service for the direct accomplishment of transport activities (USAF only).

### AIRCRAFT - UNIT TRAINING

Aircraft assigned as unit equipment for the direct accomplishment of the mission of tactical units bombardment, air refueling, fighter, strategic and tactical reconnaissance, troop carrier, assault transport, rescue, liaison, helicopter, tow target, strategic support, and geodetic control units.

### AIRCRAFT - UNIT SUPPORT

Aircraft assigned to each of the tactical units listed above for support of the primary mission.

### AIRCRAFT - INVENTORY

Active - The active inventory reflects the number aircraft provided for tactical, training and transport units, minimum individual training, administrative purposes, special missions, test purposes, command support and active projects.

Inactive - The inactive inventory reflects the number of aircraft in storage, undergoing modification, on loan or bailment (except those bailed for maintenance), flyable inactive, on inactive and non-USAF projects, accepted but not delivered, excess to command, recommended reclamation, excess to the USAF, and all "X" Model aircraft.

GLOSSARY (Continued)

First Line - Aircraft having characteristics and performance enabling them to perform critical and essential Air Force missions, the nature of which requires that the aircraft be maintained militarily modern.

Second Line - Aircraft whose characteristics and performance entail a military handicap and make them suitable to perform those missions which require first-line aircraft, and which have been formally evaluated and declared second-line.

AIR DEFENSE COMMAND

Established 21 March 1946; subordinate to Continental Air Command, 1 December 1948; discontinued 1 July 1940; re-established 1 January 1951 as a major air command.

AIR FORCE FINANCE DIVISION

Established, 1 January 1951 organized as a separate operating agency, and given the responsibilities and procedural functions of a major command.

AIRFRAME

The assembled principal structural components of an aircraft. It includes hull or fuselage, wings, stabilizers, vertical fins, control surface, landing gear nacelles, and (lighter-than-air) envelopes.

AIRFRAME WEIGHT

Unit weights are derived by deducting the following items from the empty weight: engine (dry weight), propellers, wheels, auxiliary power plant, turbo-supercharger, radio, radar, starter battery, generator, turrets and power-operated gun mounts.

AIR MATERIEL COMMAND

AAF Materiel and Services established, 17 July 1944; redesignated AAF Air Technical Service Command, 31 August 1944; redesignated Air Technical Service Command, 1 July 1945; redesignated Air Materiel Command, 9 March 1946.

AIR PICTORIAL SERVICE

Established, 1 April 1951 organized as a separate operating agency and given the responsibilities and procedural functions of a major command. Redesignated Hq Air Photographic and Charting Service, effective 16 April 1952, assigned to MATS.

AIR PROVING GROUND

AAF School of Applied Tactics, established 27 October 1942; redesignated AAF Tactical Center, 28 October 1943; redesignated AAF Center, effective 1 June 1945; redesignated AAF Proving Ground Command, 26 February 1946; redesignated Air Proving Ground Command, 10 July 1946; redesignated Air Proving Ground and assigned AMC, 20 January 1948; relieved from AMC and designated major Air Command, 1 June 1948.

AIR TRAINING COMMAND

Army Air Forces Training Command established 7 July 1943; redesignated Air Training Command, 1 July 1946.

AIR UNIVERSITY

AAF School of Applied Tactics established, 1 November 1943; redesignated Army Air Forces School, 1 July 1945; redesignated Air University, 12 March 1946.

ALASKAN AIR COMMAND

Activated Alaska Air Forces, 15 January 1942 redesignated 11th Air Force, 5 February 1942; redesignated Alaskan Air Command, 18 December 1945.

BAILMENT AIRCRAFT

Aircraft assigned to other than a Department of the Air Force activity under bailment contract. Bailment aircraft include the following categories: Bailment for test; for maintenance; for modification and bailment for other purposes. (See Table I AFL 150-10).

CARIBBEAN AIR COMMAND

Panama Canal Air Force, activated, 20 November 1940; redesignated Caribbean Air Force, 5 August 1941; redesignated Sixth Air Force, 5 February 1942; redesignated Caribbean Air Command, 31 July 1946. At the same time took over the functions of Antilles Air Command which was activated 25 August 1946.

CASUALTY ASSISTANCE (CHAPLAINS)

Any assistance rendered to the next of kin of military personnel on matters pertaining to their personal affairs. Chaplains will assist and advise dependents of military personnel (excluding legal assistance) in connection with, but not limited to the following:

1. Dependent's pensions
2. Family allowance of casualty dependents
3. Personal effects
4. Arrears in pay
5. Burial/memorial flag
6. Settlement of government life insurance
7. Burial allowance (See AF Reg 165-5, Mar 49)

CLASSIFICATION OF AIRCRAFT

The classification of aircraft is in accordance with AFR 65-60, dated 9 May 1949, Aeronautical Board Memorandum, dated 21 October 1947, and the latest AF Technical Orders. The type classification is generally based upon the basic type designator or the prefix preceding the basic type designator of each aircraft model.

Basic Type Designator

Aircraft are assigned a basic type designator in accordance with the function for which they are basically designed. The basic type designator consists of one letter as follows:

|               |                                  |   |
|---------------|----------------------------------|---|
| A . . . . .   | Amphibious                       | " |
| *B . . . . .  | Bomber                           |   |
| *C . . . . .  | Cargo                            |   |
| *F . . . . .  | Fighter                          |   |
| *G . . . . .  | Glider                           |   |
| H . . . . .   | Rotary Wing (Helicopter)         |   |
| *L . . . . .  | Liaison                          |   |
| *Q . . . . .  | Target Acft and Drones           |   |
| *R . . . . .  | Reconnaissance                   |   |
| *S . . . . .  | Search & Rescue                  |   |
| *T . . . . .  | Trainer                          |   |
| **X . . . . . | Special Research or Experimental |   |

- \* To be used as prefix symbols as required.
- \*\* To be used as a classification symbol as required.

Prefix Symbols. When an aircraft is modified to perform a function other than its basically designed function, the basic type designator will be prefixed by the appropriate auxiliary symbol. The prefix symbols listed below are used only when an aircraft is so modified that its originally intended usage is no longer applicable.

Prefix "B" is used to designate aircraft modified to function as bomber type aircraft.

CLASSIFICATION OF AIRCRAFT (Prefix Symbols)  
(Continued)

Prefix "C" is used to designate aircraft specifically modified for cargo use.

Prefix "D" is used to designate those aircraft which are modified to function as director aircraft in conjunction with remotely controlled aircraft or guided missiles.

Prefix "K" is used to designate all aircraft modified as "in flight" refueling tankers.

Prefix "L" is used to designate aircraft modified for liaison missions.

Prefix "M" is used to designate aircraft modified for use as missiles.

Prefix "Q" is used to designate aircraft modified through the inclusion of special electronic equipment for use as targets or drones.

Prefix "R" is used to designate aircraft which have been so modified as to make them suitable for photo or electronics reconnaissance missions.

Prefix "S" is used to designate aircraft modified through the inclusion of special search electronic equipment, life rafts, etc.

Prefix "T" is used to designate those aircraft which have had equipment removed to make them more suitable for training purposes through the inclusion of special training equipment.

Prefix "V" is used to designate aircraft which are modified as staff administrative transports.

Prefix "W" is used to designate those basic aircraft which have been so modified as to make them suitable for weather reconnaissance missions.

Classification Symbols - Aircraft may have any one of the following classification symbols where applicable:

Classification "E" is used to designate aircraft on special tests or experimental projects.

Classification "X" is used to designate experimental aircraft and indicates that the item being developed has not progressed to the stage where engineering tests indicate that the item is sufficiently satisfactory to warrant service tests.

Classification "Y" is used to designate aircraft which have the required military characteristics and are of a quantity produced to develop the potentialities of the model. This classification indicates the item has been developed beyond the experimental stage, but is now ready for classification as an adopted item.

Classification "Z" is used to designate aircraft which are considered by the Chief of Staff, USAF, to be obsolete.

CLASS OI Z AIRCRAFT

Complete aircraft used for ground instructional purposes.

COMBAT AIRPLANE

All bomber, tanker, fighter, reconnaissance, and search and rescue type airplanes.

CONTINENTAL AIR COMMAND

Established, 1 December 1948, Tactical Air Command and Air Defense Command, formerly Major Air Commands, were redesignated operational air commands and assigned to Continental Air Command on the same date. Tactical Air Command was reestablished a major air command, 1 December 1950 and Air Defense Command was reestablished a major air command, 1 January 1951.

FAR EAST AIR FORCES

Activated at Brisbane, Australia, 3 August 1944; redesignated Pacific Air Command, USAF, 6 December 1945; beginning, July 1945 it included Fifth and Thirtieth Air Forces and Seventh Air Force and Air Forces in Middle Pacific; redesignated Far East Air Forces, 1 January 1947.

GENERAL PURPOSE VEHICLE

A vehicle designed to be used for movement of personnel, supplies, ammunition or equipment, or for towing artillery carriages, trailers and semi-trailers and used without modification of body or chassis to satisfy general automotive transport needs.

HEADQUARTERS COMMAND, USAF

Bolling Field Command, established 15 December 1946; redesignated Headquarters Command, USAF, effective, 17 March 1948.

IN COMMISSION - AIRCRAFT

Aircraft which are capable of normal flight operations without additional repair or maintenance. This does not necessarily indicate that the aircraft is capable of performing a specific mission such as combat, photo, etc., but merely that the aircraft is flyable and that the AF Form 1 does not bear a red cross. Weather, runway conditions, shortage of operating personnel, or other factors not relating to the aircraft itself will not cause an aircraft to be reported out of commission.

MAJOR AIR COMMANDS

That portion of US Air Force command structure which includes appropriate headquarters and subordinate units and is immediately subordinate administratively to Headquarters US Air Force. By definition, this excludes US Air Force "exempted activities", which are units not subordinate to any of the major commands. (For history of each command listed below see specific command in alphabetical order):

Continental

1. Air Defense Command
2. Air Force Finance Division
3. Air Materiel Command
4. Air Pictorial Service
5. Air Proving Ground
6. Air Research and Development Command  
(See Research & Development)
7. Air Training Command
8. Air University
9. Continental Air Command
10. Headquarters Command
11. Military Air Transport Service
12. Special Weapons Command
13. Strategic Air Command
14. Tactical Air Command
15. USAF Security Service

Overseas

1. Alaskan Air Command
2. Caribbean Air Command
3. Far East Air Forces
4. Headquarters Command, USAF
5. Military Air Transport Service
6. Northeast Air Command
7. Strategic Air Command
8. U. S. Air Forces in Europe

## GLOSSARY (Continued)

### MILITARY AIR TRANSPORT SERVICE (MATS)

MATS was established from a consolidation of Air Transport Command and Naval Air Transport Service, effective 1 June 1948. Hq, Air Photographic and Charting Service, formerly Air Pictorial Service, assigned to MATS, effective 16 April 1952.

### NEXT OF KIN

The person most closely related to the person who has become a casualty and is the person entitled by law to make disposition of remains (AFR 30-11). Complete definition found on page 592 "Military Personnel" definitions.

### NORTHEAST AIR COMMAND

Newfoundland Base Command, redesignated Northeast Air Command and designated as a major air command, 1 October 1950.

### ON HAND - AIRCRAFT

Aircraft physically possessed by an organization for the accomplishment of its mission or when the organization is performing a service for the activity to which the aircraft is assigned.

### RESEARCH AND DEVELOPMENT COMMAND

Research and Development Command established, effective, 23 January 1950. Redesignated Air Research and Development Command, 16 September 1950. Air Engineering Development Division and Long Range Proving Ground Division assigned to ARDC on 1 May 1951 and 14 May 1951, respectively. Air Force Special Weapons Center, formerly Special Weapons Command assigned to ARDC on 1 April 1952.

### SPECIAL WEAPONS COMMAND

Established as a major command Kirtland Air Force Base, New Mexico at Albuquerque, effective 1 December 1940. Redesignated Air Force Special Weapons Center and assigned to ARDC, 1 April 1952.

### STRATEGIC AIR COMMAND

Established 21 March 1946.

### TACTICAL AIR COMMAND

Established 21 March 1946; became subordinate to Continental Air Command, 1 December 1948; regained status as a major air command, 1 December 1950.

### UNIT, USAF

A military activity having an organization prescribed by the Department of the Air Force. Under organization, units are identified as follows:

1. Table of Organization (T/O) Unit - A constituted military force activated in accordance with one of several types of tables, the most used being (T/O&E) Table of Organization and Equipment. This T/O&E is a Department of the Air Force publication which prescribes the personnel structure and equipment for multiple type units which have a fixed mission and workload.

2. Table of Organization and Equipment, Special (T/O&E-S). A (T/O) unit of a specialized nature activated in accordance with (T/O&E-S). A Department of the Air Force publication which prescribes the personnel structure and equipment for units of a specialized nature, the mission and workload requirement of which are fixed.

3. Table of Distribution (T/D) Unit - A designated military unit organized from non-T/O personnel, authorized by a Personnel Allotment Voucher, and in accordance with a Table of Distribution. A T/D is a major air command document which indicates the sectional distribution within a T/D unit of the military and civilian personnel authorized.

4. Provisional Unit - A unit organized with personnel from one or more T/O and/or T/D units.

### US AIR FORCES IN EUROPE

Eighth Air Force, activated, 28 January 1942; redesignated, USSTAF in Europe, 22 February 1944; redesignated USAF in Europe, 7 August 1945. Third Air Division assigned to USAFE, 21 January 1951.

### USAF SECURITY SERVICE

USAF Security Service established 20 October 1948.

# **FEAF - Korea Summary**

## **Part I**

~~CONFIDENTIAL~~

FEAF AND KOREA

CASUALTY

Any person who is dead (from any cause) or whose services are lost to his unit for 24 hours or more because of involuntary absence (missing), capture, internment, or wounds, or injuries requiring admission to a medical treatment facility. Any person undergoing treatment for wounds or injuries as of 2400 local time, is considered as having been lost to his unit for 24 hours or longer. Mental disorders psychoneurotic cases, colds and other diseases (not causing death) are not included as casualties. Casualties are divided into "battle" and "nonbattle" categories.

CASUALTY, BATTLE

A person in a theater of operations who becomes a casualty as defined herein, as a result of an outside force or agent of the enemy, in the face of the enemy, or as a result of going to or returning from a combat mission; provided that the incident is directly related to enemy action. Where evidence is not readily available that the casualty was due to nonbattle factors, the person is counted as a battle casualty.

DEATHS

Includes those persons killed outright (or dying before reaching a medical treatment facility): those wounded or injured persons who subsequently died of their wounds or injuries (after being admitted to a medical treatment facility): those persons reported as missing who were either subsequently conclusively determined to have been killed, or who, having been in a missing status for a year or more, were presumed to be no longer living; whether or not these incidents occurred "in action" or under "battle" or "nonbattle" conditions.

IN ACTION

A person is "in action" when going to or returning from a combat mission, if in contact with a force, element or agent of the enemy; when directly engaging the enemy; when participating in a combat mission strike against the enemy (if in contact with a force, element, or agent of the enemy); when in contact with a force, element, or agent of the enemy while engaged in firefighting; search and rescue or ground activities in connection with a combat mission; or while under attack by a force, element or agent of the enemy.

MISSING

Any person is missing who is involuntarily absent or who fails to return from a scheduled flight or mission, and who is not known to be dead, AWOL, in a hospital, in confinement, on leave, or in any other absent category.

PRISONERS OF WAR

Persons, previously listed as missing, who are verified by the International Red Cross, State Department, or other international organization as being in the hands of the enemy.

RETURNS TO MILITARY CONTROL

Persons, previously reported as missing, who have returned to military control from a missing status.

WOUNDED OR INJURED

Persons suffering physical harm or damage from causes other than disease, whether or not the harm or damage was caused by force or violence; was accompanied by external bleeding; resulted in the tearing, piercing, laceration or breaking of the skin or mucous membrane; or happened under "battle" or "nonbattle" conditions. Includes all persons reported as wounded or injured, but who later returned to duty, were evacuated to U. S., or were separated; excludes those persons reported as wounded or injured who subsequently die of their wounds or injuries.

KOREAN AIR ACTIVITY

This part of the Statistical Digest presents the outstanding aspects of the second year of the Korean War. In the beginning of Fiscal Year 1952, there were beliefs that the truce talks which had started would result in an end of hostilities.

By mid-August, the enemy increased both its ground and striking forces, resulting in extremely high activity by December. By the end of the Fiscal Year 1952, the truce talks continued, both both sides were stalemated.

Although committed USAP forces remained unchanged for the period, a phasing out of F-51, F-80 and F-82 aircraft occurred. They were replaced by F-84, F-86 and F-94 aircraft. Bomber, Reconnaissance and Cargo strength remained relatively stable throughout the year.

From August 1951 through 30 June 1952, a round the clock offensive was conducted by USAF planes against the enemy. This program was designed to create and maintain maximum unserviceability of the enemy's rail networks as well as harass and destroy his vehicle traffic. USAF planes flew 87,552 sorties during the interdiction program. The cost to the USAF, during Operation Strangle in Fiscal Year 1952, was 330 aircraft lost and 451 aircrew casualties.

Overall aircraft losses by committed units decreased by 13% in Fiscal Year 1952. Losses from ground fire resulted in 68% of those aircraft lost.

Subject matter covered in general in this part of the Statistical Digest are:

1. Organization.
2. Crews and Crew Personnel.
3. Personnel.
4. Casualties.
5. Aircraft and Crews Committed.
6. Sorties.
7. Aircraft Losses.
8. Flying Hours and Fuel Consumption.
9. Ammunition Expenditures.
10. Engines Removed from Aircraft.
11. Military Air Transport Service Operations.
12. Combat Cargo.
13. Health.
14. Morale.

| June                                    | 2     | 2      | 2   | -          | -       | -     | -              | -                                 | -     | -                           | -                            | -           | -                         | -    | -        |

a/ Total casualties consist of "total deaths," persons "wounded, but who returned to duty, etc.," persons "missing, but returned to duty," "prisoners of war," "prisoners of war returned to military control", and "net missing during period."

b/ Represents all persons ever reported (for periods specified) under the respective categories (dead, wounded, and missing).

c/ Columns (4) and (10), and (5) and (7) are duplicated in order to show source and eventual disposition of certain sub-categories and to add to totals - columns (2) and (6); however, duplication of figures is not reflected in "total" column (1).

d/ Figures shown in column (12) are also included in column (8), but only column (8) is included in column (1) - "total".

| June . . .                  | 2         | -         | -        | -          | -       | 1              | -                                 | 1        | 1                           | -                            | -           | -        | -                         | 1         |

a/ Total casualties consist of "total deaths," persons "wounded, but who returned to duty, etc.," persons "missing, but returned to duty," "prisoners of war," "prisoners of war returned to military control", and "net missing during period".

b/ Represents all persons ever reported (for periods specified) under the respective categories (dead, wounded, and missing).

c/ Columns (4) and (10), and (5) and (7) are duplicated in order to show source and eventual disposition of certain sub-categories and to add to totals--columns (2) and (6); however, duplication of figures is not reflected in "total", column (1).

d/ Figures shown in column (12) are also included in column (8), but only column (8) is included in column (1) - "total".

| Undetermined . .                                   | 105   | -      | -   | -          | -   | 100     | -              | 100                               | 5       | -                           | 6                            | -           | -        | -                         | e/o |

a/ Total casualties consist of "total deaths," persons "wounded, but who returned to duty, etc.," persons "missing, but returned to duty," "prisoners of war," "prisoners of war returned to military control", and "net missing during period".

b/ Represents all persons ever reported (for periods specified) under the respective categories (dead, wounded, and missing).

c/ Columns (4) and (10), and (5) and (7) are duplicated in order to show source and eventual disposition of certain sub-categories and to add to totals--columns (2) and (6); however, duplication of figures is not reflected in "total", column (1).

d/ Figures shown in column (12) are also included in column (8), but only column (8) is included in column (1) - "total".

e/ When adding to sum of net missing or to total for "Undetermined", deduct one. Adjustment is necessary due to return to military control of an individual reported missing in previous fiscal year.

**TABLE 44 - MILITARY AIR TRANSPORT SERVICE ACTIVITY IN THE AIR EVACUATION OF KOREAN WAR CASUALTIES (BODIES ONLY) - FY 1952**

(Data below include both battle and non-battle casualties and represent net individuals evacuated from Japan to Hickam Field and not the number of times individuals were moved from location to location enroute. These data may not agree with other tables because of cut-off date.)

| Evacuations by Date   | Total         | Mental       |               |              | Disease      |                 | Wounded       |                 | Injured      |                 |

TABLE 44 - MILITARY AIR TRANSPORT SERVICE ACTIVITY IN THE AIR EVACUATION  
OF KOREAN WAR CASUALTIES (BODIES ONLY) - FY 1952 - CONTINUED

(Data below include both battle and non-battle casualties and represent net individuals evacuated from Japan to Hickam Field and not the number of times individuals were moved from location to location enroute. These data may not agree with other tables because of cut-off date.)

| Evacuations By Date               | Total | Mental |               |      | Disease |                 | Wounded |                 | Injured |                 |
|-----------------------------------|-------|--------|---------------|------|---------|-----------------|---------|-----------------|---------|-----------------|

## **Combat & Airlift Units**

## **Part II**

PART II - COMBAT UNITS AND CREWS

Definitions affecting this issue are:

ASSIGNED CREWS

Organized combat crews fully manned in accordance with the combat position requirements of the possessed aircraft.

COMBAT UNITS

A classification of military force having an organization prescribed by the Department of the Air Force, the primary mission of which is one or more of the following:

1. Destruction of enemy forces, resources, and/or installations, for example, bombardment and fighter units, and Troop Carrier Units which have a mission of providing airlift for Combat elements.
2. Furnishing operational assistance to combat elements, for example, reconnaissance, troop carrier, and separate squadrons.

A combat unit is said to be combat ready when it is manned, equipped and fully prepared to perform its combat mission. The present concept for Combat Units from FY 1952 on will be Major Forces.

COMBAT MISSION

The combat mission of an organization is the specific combat task assigned or, if no specific combat task is assigned the task ordinarily performed by that type of organizations under combat conditions. In the latter case, the mission may be limited by the weapon in the possession of a unit. For example, a unit authorized jet fighters but actually possessing F-51's will consider as its mission the type of operation ordinarily performed by F-51's.

SEPARATE SQUADRONS

Separate squadrons as shown in the following tables are those squadrons consisting of designated types other than those comprising a Combat Group or Wing structure and having a mission of furnishing operational assistance to combat elements.

1/ Includes Reserve and National Guard units called to extensive Active Duty with the Regular Air Force.

2/ Information on Reserve Units not available for year 1948.

a/ Major Air Commands include Separate Operating Agency.

b/ Sub Commands include Air Forces, Defense Forces, Aviation Engineering Force, Far East Logistical Force, Task Force, Services, Areas, and Base Commands.

c/ Includes Combat and Non-Combat Units.

TABLE 2 COMBAT AND AIRLIFT WINGS AND SQUADRONS BY TYPE, WORLDWIDE ✓ - FY 1952

Statistics on the number of Combat and Airlift Wings and Squadrons (including Flying Supporting Units) presented in the following tables include only those units which were actually activated and/or organized prior to or on the dates shown, and for which inactivation or discontinuance orders had not been actually accomplished by the dates shown. The units are listed by the number of wing headquarters (with certain exceptions) and squadrons of Bomber, Fighter, Reconnaissance as the Combat types and the Troop Carrier as the Airlift type. The Flying Supporting units are MATS Air Transport Squadrons, Air Refueling Squadrons, Medium and Separate Squadrons, i.e., Air Rescue, Air Resupply, Liaison - Helicopter, Strategic Reconnaissance Medium Weather, Strategic Support, Two Target and Pilotless Bomber Light Squadrons. The exception in concept of a Wing referred to above are those squadrons which have no wing headquarters but are considered as equivalent of a wing on the basis of three squadrons comprising one wing and are so included in these tables. Figures within parentheses represent the number of squadrons of the type corresponding to the wing. Activated units presented in these tables are defined in AFR 20-38, 17 November 1950.

Units located within the continental limits of the United States are shown within their respective assigned commands. Units located outside the continental limits of the United States are shown in major commands in which they are located.

TABLE 5 NUMBER OF ACTIVATED USAF COMBAT WINGS AND AIRLIFT UNITS CLASSIFIED BY TYPES OF AIRCRAFT POSSESSED 10 JUL 51 - 30 JUN 52

Combat and Airlift Wings are indicated by the open figures. Figures within the parentheses represent the number of squadrons of the type corresponding to the Wing. Airlift Support Squadrons are indicated by open figures.

a/ Includes Supporting (Flying) Units.  
b/ P - PEACE, W - WAR, T - TENTATIVE.  
c/ Plus 1 Navigator per 4 Crews.  
d/ Plus 1 Aircraft Observer per 4 Crews.

TABLE 7 - COMBAT READINESS OF COMBAT UNITS - FISCAL YEAR 1952

Readiness is based on the Commanding Officers Overall Index representing the combat capability of the unit. Indexes are based on the percentages shown below.

| <u>Index</u> | <u>Percentage</u> | <u>Index</u> | <u>Percentage</u> | <u>Index</u> | <u>Percentage</u> |
|--------------|-------------------|--------------|-------------------|--------------|-------------------|
| 10           | 100 - 96          | 6            | 65 - 56           | 2            | 25 - 16           |
| 9            | 95 - 86           | 5            | 55 - 46           | 1            | 15 - 1            |
| 8            | 85 - 76           | 4            | 45 - 36           | 0            | 0 - 0             |
| 7            | 75 - 66           | 3            | 35 - 26           |              |                   |

## FLIGHT OPERATIONS

Aircraft flight operations data included in this section are based on statistics submitted on AF Form 110A, in accordance with AFR 65-110 as revised. The 110A report is compiled on a physical possession basis with the various activity categories determined by the assigned purposes of the status of the aircraft rather than actual use.

The tables provide summary data covering flight operations on "Operating Active", "Other Active", and "Inactive" USAF aircraft and include aircraft utilization, flying hours, fuel consumption, etc., during the Fiscal Year 1952. The data are segregated into the following types of activity: Administrative, Minimum Individual Training, Unit Training, Unit Support, Flying and Technical Training, Mutual Defense Assistance Program, Combat Crew Training, MATS Transport, MATS Air Evacuation, Test (except "X" models), Test Support, Special Missions, Command Support, Project, En Route, and Inactive. These various categories of USAF operations are defined as follows:

- a. Administrative: Aircraft assigned for administrative or staff work as outlined in AFL 150-10A, Table III, Part B, 14 January 1952. (AD)
- b. Minimum Individual Training: Aircraft assigned for the primary purpose of providing minimum individual training as outlined in AFL 150-10, Table V, 27 September 1951. (CI)
- c. Primary Tactical Unit: Aircraft assigned as primary unit equipment for the direct accomplishment of the tactical unit operations in accordance with appropriate authorizations as shown in AFL 150-10A, Table II, Part A, 14 January 1952. (CC)
- d. Unit Support: Aircraft which are authorized and assigned as tactical unit support aircraft, as indicated in Table II, Part B of AFL 150-10A, 14 January 1952. (CP)
- e. Flying and Technical Training: Aircraft assigned for the flying and technical training activities of the Air Training Command, as outlined in AFL 150-10, Table IV, 27 September 1951. (CU)
- f. MDAP Aircraft Temporarily Diverted to USAF: Those aircraft programmed for foreign countries under the Mutual Defense Assistance Program for which delivery to the ultimate recipient foreign countries has been deferred in order to divert temporarily those aircraft to the Air Force. (CX)
- g. Combat Crew Training: Aircraft authorized and assigned specifically to combat crew training. (TC)
- h. MATS Transport: Aircraft assigned to MATS for transport and related uses (Divisions and Base Commands only), in accordance with Table II, Part C of AFL 10A, 14 January 1952. (CT)
- i. MATS Air Evacuations: Aircraft assigned for the accomplishment of air evacuation operations within MATS, in accordance with appropriate authorizations as shown in AFL 150-10A, 14 January 1952. (CE)
- j. Test: Aircraft assigned for testing, research and development (except "X" models and aircraft on bailment contract for test), as authorized in AFL 150-10A, Table I, 14 January 1952. (EX)
- k. Test Support: Aircraft assigned to support organized tests of aircraft and allied equipment, authorized in AFL 150-10A, Table I, 14 January 1952. (Except aircraft on bailment contract for test support). (ES)
- l. Special Mission: Aircraft assigned as special mission aircraft in accordance with Table III, Part A, of AFL 150-10A, 14 January 1952, and such other special missions as required to support the primary missions of the USAF. (CM)
- m. Operating Active: The total of the above categories - (AD, CI, CC, CP, CU, CX, TC, CT, CE, EX, ES, and CM).
- n. Other Active (Command Support and En route): Aircraft of one command undergoing organizational or field maintenance in a unit of a different major air command, aircraft undergoing depot maintenance, and aircraft in an en route status. (RF, RT, NR)
- o. Other Active (Project): Aircraft on project established to effect assignment or reassignment of USAF aircraft to fulfill active requirements as ordered by the Aircraft Distribution Office of Headquarters Air Materiel Command. (PA)
- p. Inactive: Storage aircraft, aircraft on a project to be assigned to an inactive category or a non-USAF activity, flyable inactive aircraft, aircraft undergoing modification; aircraft on loan, "X" model aircraft, aircraft declared excess to the Department of the Air Force requirements, aircraft reported to the Aircraft Distribution Office as excess to the requirements of an Air Force or command, new production, and aircraft recommended for reclamation. (SS, SC, SI, PI, FN, FI, RM, AL, all "X" models, XF, XS, XG, NP, RS, SO, and XJ).

## FLYING SAFETY

This section of the "USAF Statistical Digest" presents data on aircraft accidents which occurred in the USAF and Air National Guard during FY 52 and, in some presentations, prior years. USAF command and aircraft type and model totals include flying time and accidents of the Air Force Reserve, Air National Guard, and Navy units operating under the jurisdiction of Military Air Transport Service, unless otherwise specifically stated.

USAF flying hour totals presented in this section, therefore, will not agree with USAF totals appearing in the "Flight Operations" area of this publication, inasmuch as the civilian and Navy components are excluded from the latter.

All rates, presented herein, have been computed on the basis of the number of accidents occurring per 100,000 hours of flying time.

Dollar losses, presented herein, represent the investment cost of airplanes destroyed, plus the average cost of labor, materiel, and indirect expenses required to repair airplanes sustaining substantial damage as the result of accidents. Dollar losses do not include the cost of lives lost, injuries, property damage, search and rescue, minor aircraft damage, or other losses resulting from aircraft accidents.

TABLE 1 - USAF AND ANG AIRCRAFT ACCIDENTS, RATE AND DOLLAR LOSS - BY COMMAND

(Rates are expressed in accidents per 100,000 flying hours)

a/ More than one fatality may occur as the result of any one fatal accident  
 b/ Fatalities include all persons killed and/or missing as the result of major accidents  
 c/ Aircraft destroyed includes missing aircraft  
 d/ Flying Hours include 91,303 hours flown by Navy for MATS during FY 1952; 84,876 hours during FY 1951 and 27,791 hours during FY 1950. This Navy flying time is reflected in all C-45, C-47/53, C-54 and C-118 totals.  
 e/ Includes all other types of Aircraft.

TABLE 6 - USAF AND ANG MAJOR ACCIDENTS AND DOLLAR LOSS BY PRIMARY CAUSE FACTORS OF ACCIDENTS

Since multi-plane accidents are analyzed statistically as single accidents and are tabulated by responsible aircraft, the dollar losses shown may include losses in models other than the model listed in the line total. The line totals indicate accident dollar loss for which each model was responsible.

TABLE 7 - USAF AND ANG MAJOR ACCIDENTS AND DOLLAR LOSS BY PRIMARY CAUSE FACTORS OF ACCIDENTS - FY 1951

Since multi-plane accidents are analyzed statistically as single accidents and are tabulated by responsible aircraft, the dollar losses shown may include losses in models other than the model listed in the line total. The line totals indicate accident dollar loss for which each model was responsible.

<sup>a/</sup> Overseas Accidents were not reported during war years.

<sup>b/</sup> Accident data for the Air National Guard are included since 1947. This tabulation may, therefore, not necessarily agree with data published in prior years which excluded the ANG.

a/ More than one fatality may occur as the result of any one fatal accident

b/ Fatalities include all persons killed and/or missing as the result of major accidents

c/ Aircraft destroyed includes missing aircraft

GROUND SAFETY

Ground Accident statistics were approved and directed by AF Regulation No. 32-1, dated, 24 August 1948. (See Paragraph 4a(6). In establishing the reporting system, standardized cost factors and definitions have been approved. The present standard accidents costs for injuries and fatalities were established by AF Letter 32-40, dated, 2 January 1952. The present cost figures give a more complete coverage of the different types of injuries. These costs were preceded by those established under AFL No. 32-40, 24 June 1948, and AFL No. 32-40, 27 September 1950, and were in effect through the first half of the fiscal year covered in these tables.

A comparison is made below:

| Injury                      | Jul through Dec 1950 |          | Jan through Dec 1951 |           |           | Jan through Jun 1952 |           |
|-----------------------------|----------------------|----------|----------------------|-----------|-----------|----------------------|-----------|
|                             | Military             | Civilian | Military             |           | Civilian  | Military             | Civilian  |
|                             |                      |          | Officer              | Airman    |           |                      |           |
| Non-Disabling . . . . .     | \$ 4.25              | \$ 4.25  | \$ 6.00              | \$ 6.00   | \$ 6.00   | \$ 7.00              | \$ 7.00   |
| Temporary Total . . . . .   | 441.00               | 119.00   | 32.00/Day            | 23.00/Day | 17.00/Day | 30.00/Day            | 14.00/Day |
| Permanent Partial . . . . . | 441.00               | 119.00   | 37,000.00            | 37,000.00 | 8,500.00  | 43,000.00            | 10,500.00 |
| Permanent Total . . . . .   | 441.00               | 119.00   | 57,000.00            | 57,000.00 | 70,000.00 | 63,500.00            | 70,000.00 |
| Fatal . . . . .             | 19,565.00            | 9,955.00 | 26,500.00            | 26,500.00 | 20,000.00 | 31,500.00            | 25,000.00 |

These changes must be taken into consideration in making cost comparisons between various tables. Quarterly estimates can be made by dividing the total by 4, as the quarterly experience was approximately equal. Frequency rates were computed according to the following formulas:

- a. Civilian Injury Rate =  $\frac{\text{Number of Civilian disabling and fatal injuries} \times 1,000,000}{\text{Total hours of civilian employment}}$
- b. Military Injury Rate (On Duty) =  $\frac{\text{Number of Military disabling and fatal injuries "On Duty"} \times 100,000}{\text{Total Military Man-days of exposure} \times 1/3}$
- c. Military Injury Rate (Off Duty) =  $\frac{\text{Number of Military disabling and fatal injuries "Off Duty"} \times 100,000}{\text{Total Military Man-days of exposure} \times 2/3}$
- d. USAF Motor Vehicle Accident Rate =  $\frac{\text{Number of USAF Motor Vehicle Accidents} \times 100,000}{\text{Total USAF Motor Vehicle Mileage}}$

Cost Per Capita was computed by the following formula per month or per annum:

$$\frac{\text{Cost of Injuries} + \text{Cost of Fatalities} + \text{Cost of Property Damage}}{\text{Total Command Strength (Average Military and Average Civilian)}}$$

The strength figures employed were based on exposure (man-days for military and man-hours for civilians) as reported by the Major Air Commands.

A 20 per cent reduction, Worldwide, in the Military injury rate was realized for calendar year 1951 over calendar year 1950 with a 2.5 reduction in the Civilian injury rate for the same period. Motor vehicle accidents, the area in which the majority of ground accidents cost have occurred, was reduced 50 per cent during the calendar year.

The National Safety Council honored the Air Force for the second consecutive and the fourth time in 8 years by presenting its highest award, the Award of Honor, for an average of 5.2 per cent reduction in the overall ground accident rate.

The "USAF Statistical Digest" reports accidents and accident rates on a fiscal year basis. The following reductions and increase were noted for fiscal year 1952 over fiscal year 1951 :

- Military Accident rates - Continental US - 1.32 per cent decrease
- Military Accident rates - Overseas - .81 per cent decrease
- Civilian Accident rates - Continental US - .74 per cent decrease
- Civilian Accident rates - Overseas - .06 per cent increase

The following definitions were used in developing the tables in this section of the book:

**DISABLING INJURY** - An injury which results in death, permanent total, permanent partial injury, or an injury, which in the opinion of competent medical authority makes it impossible for the injured to return to work or duty at any time during the next calendar day following date of injury.

**USAF MOTOR VEHICLE ACCIDENT** - An incident involving the operation of an Air Force motor vehicle which results in either disabling or non-disabling injury to Air Force personnel and/or non-USAF persons and/or damage aggregating \$25.00 or more to Air Force motor vehicles, or to other vehicles or property without regard to ownership.

**USAF PROPERTY DAMAGE ACCIDENT** - An incident resulting from AF Ground operations wherein AF property is accidentally damaged in amount of \$25.00 or more.

## **Aircraft And Materiel**

## **Part V**

## AIRCRAFT - MATERIEL

The tables included in this section provide summary data pertaining to the procurement, production, inventory, status, deployment and disposition of USAF aircraft, and similar information and other major items of materiel in the USAF during the Fiscal Year 1952.

In addition to information reflecting the status of aircraft procurement and production, the data contain the following information by type and model of aircraft: Total aircraft on hand, active and inactive aircraft on hand, estimated aircraft on hand, aircraft in and out of commission, aircraft in storage, aircraft excess to all military requirements, aircraft production gains and losses to the aircraft inventory, and a summary of active and inactive aircraft by functional assignment distribution.

The classification of aircraft herein is in accordance with AF Regulation 65-60, dated 9 May 1949, and changes A and B, Aeronautical Board Memorandum, dated 21 October 1947, and the latest AF Technical Orders and other authorizations. The type classification is generally based upon the basic type designator of each aircraft model. A prefix is assigned an aircraft model when the aircraft is modified to perform a function (indicated by the prefix) other than its basically designed purpose. The classification into FIRST and SECOND-LINE categories is in accordance with HOI 150-9, dated 25 September 1950 and as specified in Table VIII, AFL 150-10, dated 27 September 1951, as amended by AFL 150-10A, dated 14 January 1952.

**DEFINITIONS:** The following definitions apply to the terms herein -

**AIRCRAFT:** The term aircraft and all type, model and series designations including prefixes are synonymous with the terminology of heavier-than-air aircraft as shown in AF Regulation 65-60, dated 9 May 1949. All aircraft which have been delivered to the USAF and USAF Reserve Forces and which are currently in the accountable inventory are included, except Class OI2 aircraft which are shown separately.

**AIRPLANES:** All aircraft except aerial target type aircraft and gliders.

**POSSESSION:** All aircraft inventory data reflected herein, except as otherwise specifically noted, are compiled on the basis of possession. An aircraft is possessed by an organization when that organization is physically using the aircraft in the accomplishment of its mission, or when the possessing organization is performing a service for the activity to which the aircraft is assigned, even though it may not be assigned to the organization.

**ACTIVE AIRCRAFT INVENTORY:** The number of aircraft provided for an organization in the accomplishment of its mission - command support aircraft, administrative aircraft, test aircraft (excluding those test aircraft on bailment and X-prefixed models), aircraft assigned for minimum individual training, active project aircraft and Air Force Reserve aircraft possessed by an Air Force activity.

**INACTIVE AIRCRAFT INVENTORY:** The sum of storage aircraft, flyable inactive aircraft, aircraft undergoing modification, aircraft on loan, bailment aircraft (except those bailed for maintenance), X-model aircraft, aircraft declared excess to the Department of the Air Force requirements, aircraft excess to the requirements of a command, aircraft recommended for reclamation, aircraft on project for assignment to a non-USAF activity, unassigned new production aircraft, and inactive project aircraft.

**FIRST and SECOND-LINE AIRCRAFT:** The classification of aircraft into first and second-line categories is in accordance with the provisions of HOI 150-9, and the first-line life specified in Table VIII of AFL 150-10, dated 2 February 1953.

**ACCEPTANCE:** The status of previously shop-assembled aircraft which have been fully inspected by constituted USAF or Navy production authorities and the title to which has been assumed by the contracting agencies but which have not been delivered to the recipients of the aircraft.

**IN COMMISSION:** In commission means that an aircraft, without additional repair or maintenance, is safe and capable of normal flight operations. This does not necessarily indicate that the aircraft is capable of performing a specific mission such as combat, photo, etc., but merely that the aircraft is flyable and that the Form 1A and the Form 41B do not bear a red cross. Weather, runway conditions, shortages of operation personnel, or other factors not relating to the aircraft itself will not cause an aircraft to be reported "out of commission".

**A O C P:** "Aircraft Out of Commission Awaiting Parts" are those aircraft not flyable as indicated by a red cross on Form 1A and Form 41B, solely due to lack of parts. Aircraft will not be reported as awaiting parts unless the required parts have been requisitioned from the normal supply source at the station where the aircraft is located and notification has been received from the normal supply source that the parts are not available. This category does not include those aircraft awaiting parts required for the performance of modifications defined in AF Regulation 65-60.

**AIRFRAME WEIGHT:** The weight of the assembled principal structural components of an airplane. It includes hull or fuselage, wings, stabilizers, vertical fins, control surfaces, landing gear, and nacelles.

\*\*\*\*\*

**GUIDED MISSILES:** The Guided Missiles table shows complete production data for the Fiscal Year 1952. All contracts, including those that have been completed and those currently in production are reflected in this report. The data also include the quarterly cumulative total on contract and the quarterly cumulative deliveries. The data were obtained from the latest procurement schedule - Air Materiel Command and Navy. The target drones shown in this report are used for training purposes only.

**COMBAT MUNITIONS:** This Fiscal Year 1952 report covers combat munitions peculiar to the United States Air Force located in air depots outside Continental U.S. The data presented herein is based upon reports prepared and submitted to Headquarters USAF by each major air command overseas. It reflects for each overseas major command the number by designated type of combat munitions reported on hand at the end of each quarter.

TABLE 1 - U.S. MILITARY AIRPLANE PRODUCTION BY RECIPIENT DURING FISCAL YEAR 1952

- \*a/ Includes Tanker, Reconnaissance, Search and Rescue, Special Research, and Communication.
- b/ Includes 2 AFR airplanes which were in the possession of the USAF as of 30 September 1951 but does not include 47 airplanes for which the age is unavailable due to being formerly possessed by civilian components prior to transfer to USAF. Fifty-six airplanes earmarked for MDAF are included.
- c/ Includes 1 AFR which was in possession of the USAF as of 31 December 1951 and 307 airplanes earmarked for MDAF. Does not include 57 airplanes for which the age is unavailable due to being formerly possessed by civilian components prior to transfer to USAF.
- d/ Does not include 214 airplanes earmarked for MDAF and 10 airplanes for which the age is unavailable due to being formerly possessed by civilian components prior to transfer to USAF.
- e/ Includes 68 AFR airplanes - excludes 162 airplanes on project for MDAF, and 13 airplanes for which no age is available.

a/ Includes gains and losses due to reallocation of USAF aircraft from and to other than USAF agencies (such as U.S. Army and U.S. Navy) and miscellaneous inventory adjustments within the USAF inventory.

SOURCE: Materiel Statistics Division, Directorate of Statistical Services, DCS/C.

TABLE 18 - USAF AIRCRAFT LOSSES BY CAUSE OF LOSS - F.Y. 1952

Includes USAF, AFR, ANG and CAP. Basic model includes all Prefixed Versions. Adjustments have been made in this table for those aircraft which were reported "lost" for any of the indicated causes and subsequently regained.
