## Executive Summary

This report presents the totals of government payments, number of services, average payment per service, number of treatment episodes, average payment per episode, and average number of services per episode for each of fourteen categories of Outpatient Nonavailability Statement (ONAS) procedures. Procedures are grouped by inpatient and ambulatory professional services performed within Army billable medical treatment facility catchment areas during each quarter of Fiscal Year (FY) 1991, annual FY 1991, and the first quarter of FY 1992. Total Government Payment (TGP) for ONAS procedures in a catchment area ranged from a low of \$75,922 averaging \$186 per service and \$457 per episode, to a high of \$1.3 million with averages of \$326 per service and \$385 per episode. TGP for ONAS procedures for FY 1991 was \$32.9 million, averaging \$301 per service and \$369 per episode.

Government payment for each ONAS procedure, grouped by billable medical treatment facility catchment area and type of professional service, was estimated by aggregating within each group the sum of the total amount allowed for the service, the total amount allowed for the claims, and the total government payments for the claims. After summing by grouping, each section's amount allowed for services was then divided by its amount allowed for claims and this ratio was multiplied by the group's sum of government payments for the claims, thus obtaining the total government payment for the group. The corresponding number of services was similarly aggregated. Number of episodes was computed by further refining the sort on claims to include a patient identification number and the care begin date. All claims for a unique patient/date level were counted as being one episode. Transactions having no government payment, no patient cost, and no total amount allowed were deleted prior to summation, as well as those where the fiscal intermediary denied the claim. FY 1991 and first quarter of FY 1992 data were used to provide the most current data corresponding to the facilities' budgets.

Appendix A collapses all billable medical treatment facility catchment areas into summaries for the four quarters of FY 1991, annual FY 1991, and the first quarter of FY 1992 by type of professional service and ONAS procedure. Appendix B covers annual FY 1991 alone, subdivided by each billable medical treatment facility catchment area, type of professional service, and ONAS procedure, followed by a summary combining all referenced catchment areas for the fiscal year.

This report is a Gateway baseline report and will be run quarterly.

DEPARTMENT OF THE ARMY  
U.S. ARMY HEALTH CARE STUDIES AND CLINICAL INVESTIGATION ACTIVITY  
FORT SAM HOUSTON, TEXAS 78234-6000

HSN-T (310-1j)

27 Mar 1992

MEMORANDUM FOR Administrator, Defense Technical Information Center, Cameron  
Station, Alexandria, VA 22304-6145

SUBJECT: Transmittal of Health Care Studies and Clinical Investigation  
Activity's (HCSCIA's) Reports

1. Enclosed is one copy of the report entitled, Outpatient  
Nonavailability Statement Procedures...Fiscal Year 1992 (F 92-003). This  
report was sent to DTIC 27 Feb 1992. Since then the author has added an  
Errata section to apply the information provided. Please include this  
errata in the copy of RP 92-003 deposited at DTIC. Thank you for your  
assistance.

2. Point of contact (POC) is Mrs. Beverly Rakowitz, DSN 471-  
0047/0081 or Commercial (512) 221-0047/0081. Alternate POC is  
Dr. A. David Mangeldorff, DSN 471-0671/2511 or Commercial (512)  
221-0671/2511.

ERRATA

TO

REPORT #RP 92-003

AD 13162183

Errata is included to assist in clarifying the "Total Government Payment" (TGP) dollar amounts presented in Report #RP 92-003 by showing these values in relation to "Amount Billed for the Service by the Provider" (ABS) and "Amount Allowed for the Service by the Fiscal Intermediary (FI)" (AAS).

Attached, for all catchment areas when combined and for a sample of three individual catchment areas, are ONAS procedure tables which correlate to the corresponding Fiscal Year (FY) 1991 tables in #RP 92-003. The first table (pp. 1-2), entitled AMOUNTS BILLED...SUMMARY, lists TGP for each category of procedures, followed by the amount billed by providers for the same services (ABS), the percent of TGP to ABS, the number of services involved, the average amount billed per service, the corresponding number of episodes, and the average amount billed per episode. What the government paid for services rendered within an ONAS procedure category over all catchment areas for FY 1991 ranged from only 43.6% to 78.0% of what was actually billed by the provider for the same services. Similarly, the table entitled AMOUNTS ALLOWED...SUMMARY (pp. 9-10), has the same columns as the first table but with ABS replaced by the amount allowed by the FI for the service (AAS). Again, the government paid from only 59.4% to 95.8% of the amount allowed when examining all catchment areas as a whole. Similar results can be seen when examining the attached tables AMOUNTS BILLED (pp. 3-8) and AMOUNTS ALLOWED (pp. 11-16) for three separate catchment areas. The differences between what the government actually paid and what was either billed or allowed was a result of disallowed charges, patient co-pays and deductibles, and coordination of benefits (other health insurance payments) which designated CHAMPUS as second payer. These "adjustments" to billed and allowed charges as demonstrated above are substantial.

Each ONAS procedure record in FY 1991 data was extracted from CHAMPUS data based upon its having a voucher payment date in FY 1991. Therefore, amounts in these tables may reflect an unstable condition due to part of a claim payment being paid outside the time interval (i.e., FY 1990 and/or FY 1992). Whenever possible, obvious unstable conditions were marked with an asterisk (\*). In addition, some of the tables attached to this Errata show TGP as being 100% or more of ABS and/or AAS (see Letterman AMC). These circumstances usually occurred where total government payments were based on negotiated rates through the CHAMPUS Reform Initiative (CRI) which is mandatory in the states of California and Hawaii. These occurrences were marked with double asterisks (\*\*) on the tables.

MEMORANDUM FOR Defense Technical Information Center, ATTN: DTIC-  
OCC, Catalog Branch, Building 5, Cameron Station,  
Alexandria, VA 22304-6145

SUBJECT: Release of Limited Reports in DTIC

1. Enclosed is a list of reports submitted by Health Care Studies and Clinical Investigation. At the time of submission we requested these documents be limited to DOD agencies only. This limitation no longer applies. Please remove the limitation on all the listed reports (enclosed). These reports should now be "Unlimited, Available for Public Use."

2. By lifting the limitation on this reports, will they now be provided to National Technical Information Service? This agency would like these documents placed with NTIS for a wider audience.

3. Point of contact is Beverly Rakowitz DSN 471-0047/9610 or commercial 210-221-0047/9610. Mailing address is Directorate of Health Care Studies and Analyses, Cdr, AMEDDC&S, ATTN: HSHN-R, 1608 Stanley Road, Fort Sam Houston, TX 78234-6125.
