INTRODUCTION

This *Special Bibliography Series*, Number 124, "[National Security and American Polarization: The Competition for Truth](#)" was developed by the McDermott Library's Social Sciences Bibliographer and Reference Librarian, Frances K. Scott, in support of the 62nd Academy Assembly to be held at the United States Air Force Academy, 13-14 October 2020.

Most items cited in the bibliography are included in the McDermott Library collections, including on-line databases. This year's topic encompasses 10 components.

The breakdown is one Round Table discussing a specific topic and how each has produced challenges and opportunities to the United States

To Deceive or Mislead Information Crisis	Fake News: The American Drug of Choice
New Tech and Its Impact on Democracy	Civ-Mil Expertise on the Battlefield of Truth
Two Houses on the Hill: Polarization Paradox of National Security	When Truth Hurts: Dissolving Democracy's Foundations
Elections: Opportunities and Responsibilities	Non-Partisan Bureaucracy
Exporting and Importing Truth	Death of Expertise

If you are a participant in this year's Academy Assembly (the Academy's oldest continuing annual event), we welcome you to your United States Air Force Academy. Hopefully your stay in the Colorado Springs area will be rewarding and this year's topic intellectually challenging.
