THIS DOCUMENT IS BEST QUALITY AVAILABLE. THE COPY FURNISHED TO DTIC CONTAINED A SIGNIFICANT NUMBER OF PAGES WHICH DO NOT REPRODUCE LEGIBLY.

FOREWORD

This list is issued under the authority of DoD Instruction 7750.7, "DoD Forms Management Program," May 31, 1990, and supersedes DoD 7750.7-L, "Listing of Approved Department of Defense (DD) Forms," dated July 1, 1995. Its purpose is to identify all approved Department of Defense (DD) forms.

NOTE: After this January 31, 1996 edition, this publication will no longer be distributed in this printed format. A numerical list of approved Department of Defense (DD) Forms is available on the World Wide Web (WWW), under DefenseLINK, Publications. For more information see page xi, OSD Forms Repository and World Wide Web (WWW).

DoD 7750.7-L is divided into the following parts:

Part I, Listing of Current Department of Defense (DD) Forms by Form Number, is a numerical listing of currently approved DD forms and the following related management data: form number, edition date, form title, prescribing issuance, using agencies, office symbol of the sponsor of the form, disposition of existing stock as a result of the latest revision of the form, whether the sponsor of the form allows electronic generation of the form, whether the form is prescribed or adopted for use, whether the form is available on the OSD Electronic Forms Repository, and whether the form has mandatory printing specifications. Only those forms with an edition date of July 31, 1990, or newer, contain all data management entries.

Part II, Listing of Current Department of Defense (DD) Forms by Sponsoring Component, is a listing of DD forms grouped to show all forms sponsored by a specific Component.

Part III, Alphabetical Listing of Current Department of Defense (DD) Forms, is a listing of DD Forms grouped alphabetically by form title.

Part IV, Index of DoD Major Subject Groups, is a listing of functional (numerical) codes assigned to the major functional subject groups as designated in DoD 5025.1-I, "Department of Defense Directives System."

Part V, Index of Subject Numbers by Department of Defense (DD) Form Number, is a listing of DD forms grouped by major functional subject groups.

Part VI, Department of Defense (DD) Forms Associated with Active Reports, is a listing of those DD forms currently assigned an active Office of Management and Budget (OMB) Control Number, DoD Internal Report Control Symbol (RCS), or Interagency Report Control Number (IRCN). This part assembles the forms and reports into a single, consolidated listing which reflects the current OMB Control Number, RCS, or IRCN and expiration date assigned to the report. At all times, several of these forms may be under revision to display the latest OMB Control Number and expiration date.

Part VII, Department of Defense (DD) Forms Associated with Expired Reports, contains a listing of DD forms associated with those reports listed in Part VI which have expired.

Part VIII, Department of Defense (DD) Forms Cancelled in the Last Two Years, is a numerical listing of DD forms cancelled within the past two years.

This listing is effective immediately and is mandatory for use by all DoD Components. Heads of DoD Components may issue a supplementary list only when necessary to provide for unique forms within their respective Component.

Please forward recommended changes or corrections to this listing through the appropriate DoD Component Forms Management Officer listed on pages xiii through xxi to:

EXPLANATION OF SUFFIXES, ACRONYMS, AND ABBREVIATIONS

Suffixes Used in the "Form Number" Column

Numeric suffixes added to the DD form number show the form series:

- 1 First in a series of related forms; for example,
DD Form XXXX-1, XXXX-2
- /1 First in a series of pages associated with a form; for example,
DD Form XXXX/1, XXXX/2

Other suffixes added to the DD form number indicate the following:

C	Continuation Sheet
EG	Electronically Generated
INST	(Forms Completion) Instructions
S	Supplemental
TEST	Form
WS	Worksheet
(ACT)	Active - Military Service on Active Duty
(RES)	Reserve - Military Service in Reserve Status
(RET)	Retired - Retired from Military Service

Note: The few forms having suffixes that do not conform to the above will be phased out as the forms are revised or discontinued.

DEFINITIONS OF DEPARTMENTAL FORMS

1. DoD (DD) Component Form. A form approved by the Washington Headquarters Services (WHS), Directorate for Information Operations and Reports (DIOR), for use by two or more DoD Components. The form may be hardcopy, electronic, or other media. The use of the form is either prescribed or adopted.
 - a. Prescribed DD Form. Requires mandatory use by all DoD Components to whom the subject matter applies. Its use is prescribed by a DoD issuance; i.e., DoD Directive, DoD Instruction, DoD Manual, and changes thereto, or other prescribing documents such as a DoD Memorandum, a Public Law, or a Military Standard.
 - b. Adopted DD Form. The use of this form is optional by DoD Components. Normally, a form in this category is initiated by a DoD Component in conjunction with one or more other DoD Components. Its use is prescribed by a DoD Component Regulation, Manual, or Instruction from each of the respective services who use the form.
2. DoD Component Form. A form approved by a DoD Component for general use only within that Component. This includes:
 - a. Component Form. A form approved by the DoD Component Forms Management Officer for use by two or more of the DoD Component's commands.
 - b. Command Form. A form originated by a subordinate level of a DoD Component, which is prescribed by regulatory publication for use by more than one organization in the command.
 - c. Installation Form. A form approved by the head of a DoD Component installation, which is prescribed by regulatory publication for use by more than one organization on the installation.
 - d. Office Form. A form approved for use only within one office of a headquarters, command, or installation. It does not have to be prescribed by regulatory publication.

3. Electronic Form. A prescribed or adopted form whose image is stored in magnetic, optical, video, or other type of file and can be retrieved electronically to print the form and/or to produce an image of the form on a computer screen. This form is not available in a blank state, and is not available from the forms distribution centers. To obtain a copy of an electronic form, the requester must submit a letter and forward a blank floppy diskette to the DoD Component who sponsors the form.
4. Local Reproduction Authorized (LRA) Form. A prescribed or adopted, low usage form; i.e., 100,000 copies annually used by a DoD Component, which is normally most cost-effective to centrally print and distribute to the using forms distribution centers. The image, size, and/or design of the form may not be altered during the reproduction process.
5. Stocked and Issued Form (S&I). A prescribed or adopted form that is mandated for use by one or more DoD Component offices. The DoD Component whose office symbol appears with the title of the form; i.e., SD Form 7777, "Listing of Forms Managers (S&I by WHS/DIOR)," is the office who stocks and issues the form. The forms distribution centers may not requisition or stock this form.
6. Stocked and Used Form (S&U). A prescribed or adopted form that is mandated for use by one or more (normally only one or two) DoD Component offices. The DoD Components whose office symbols appear with the title of the form; i.e., SD Form 7778, "Listing of Points of Contact (S&U by WHS/DIOR and OASD(FM&P))," are the only offices who use the form. The forms distribution centers may not requisition or stock this form.
7. Test Form. Tested for use in one or more DoD Component offices for a period not to exceed one year. The form is prescribed by a DoD Component memorandum pending approval of an Administrative Instruction. The sponsor of the form or the forms distribution centers distribute the stock only to those DoD Component offices whom the sponsor designates to perform the test.

ABBREVIATIONS USED IN THE COLUMN HEADINGS

Disposition:

A "U" (Use) entered in this column means to use all of the existing stock of a revised form before you use the form that replaces it. You may neither use the stock nor reprint a form that has been obsoleted.

An "S" (Salvage) entered in this column means to dispose of all existing stock of a revised or obsoleted form when you receive the copies of the form that replace it.

Electronic Form:

Data entries in this column are the result of a DoD-wide Electronic Forms Initiative which was completed during mid-1992. Entries for forms' processing actions completed since that timeframe were extracted from the DD Form 67, "Form Processing Action Request," which was used during processing.

A "Y" (Yes) entered in this column indicates that the Office of Primary Responsibility (OPR) of the form has approved the form for electronic generation. The electronic version of the form must replicate exactly the contents (wording), format (layout), and sequence (arrangement) of the existing approved form. The OPR must approve any alteration to the content, format, or sequence.

An "N" (No) entered in this column indicates that the OPR of the form has not approved the form for electronic generation. The requesting office shall submit a formal request, through the DIOR, WHS, for subsequent forwarding to the OPR for evaluation. The DoD Component FMOs are listed on pages xiii through xxi.

An "S" (With Stipulations) entered in this column indicates that the OPR of the form will consider approving the form for electronic generation with specific stipulations or conditions. Procedures to obtain approval to electronically generate this form are the same as those forms having "N" entered in this column.

No entry in this column indicates the OPR of the form has not responded to the DIOR, WHS, inquiry regarding whether or not the form may be electronically generated. If you wish to electronically generate this form, follow the procedures above for those forms having an "N" entered in this column.

Pres or Adopt (Prescribed or Adopted):

A "P" (Prescribed) entered in this column indicates a form is prescribed for mandatory use by all DoD Components to whom the form applies. Its use is prescribed by a DoD issuance; i.e., DoD Directive, DoD Instruction, DoD Manual, and changes thereto, or other prescribing documents, such as a DoD memorandum, a Public Law, or a Military Standard.

An "A" (Adopted) entered in this column indicates the use of this form is optional by DoD Components. Normally, a form in this category is initiated by a DoD Component in conjunction with one or more other DoD Components. Its use is prescribed by a DoD Component Regulation, Manual, or Instruction from each of the respective services who use the form.

OSD Forms Repos (Repository) and World Wide Web (WWW):

A "Y" (Yes) entered in this column indicates that the form is available on the OSD Electronic Forms Repository and the WWW. The Repository is available to any DoD Component Organization that has access to the internet or a modem and has Procomm Plus communication software. The internet and Procomm Plus instructions for accessing the Electronic Forms Repository and the instructions for downloading the form files to your local server or microcomputer can be obtained from your DoD Component FMO. The DIOR "Home Page" is connected through the DefenseLINK on the WWW. This connection enables users with a WWW Browser to download electronic forms to their local computer or network with just a click of the mouse on the form number.

An "N" (No) entered in this column indicates that the form is not available on the OSD Electronic Forms Repository or the WWW. The requesting office shall submit a format

request through the DIOR, WHS, for subsequent forwarding to the OPR for evaluation. The DoD Component FMOs are listed on pages xiii through xxi.

Mand Print (Mandatory Printing Specifications):

A "Y" (Yes) in this column indicates the form has mandatory printing specifications and must be printed exactly as those specifications stipulate. Any printing or construction deviation requires a written request for a waiver, through the DIOR, WHS, to the DoD Component Office to procure approval to deviate from the mandatory printing specifications.

An "N" (No) in this column indicates the form may be printed in any construction the using Component requires.

Controlled or Safeguard immediately following the title of the form.

If "Controlled" is entered immediately after the title of the form, it indicates that the unauthorized use of the form could jeopardize DoD security or result in fraudulent financial gain or claims against the Government. Most controlled forms are printed with serial numbers so each form can be accounted for during printing, shipping, issuing, etc. Prenumbering a form does not always make it a controlled form; the form may be numbered to control an item; such as, baggage, dry cleaning, etc.

If "Safeguard" is entered after the title of the form, it indicates that the requester and the user of the form are responsible for ensuring the form contains the required markings and that the security guidelines of DoD 5200.1-R, "Information Security Program Regulation," are complied with during the life cycle of the form.
