# Instructions for Preparation of Exhibit Fund-1 Summary of Price, Program, and Other Changes

This exhibit reflects the total operating costs (including reimbursements for non-Fund activity groups) to accomplish the work load represented by all measured and unmeasured outputs. Measured outputs are those for which total costs for the output are estimated on the basis of the average total cost per unit. Unmeasured outputs are those remaining outputs that are expressed only in terms of total program costs. The operating budget will show depreciation for all capital benefiting the activity group. Both the Summary Exhibit (Fund-1) and the Detail Exhibit (Fund-1a), which reflect the costs incurred to support sales activity, are required for all activity groups except for Supply Management activity groups. For Supply Management Activity groups, all entries on this form are obligations except for depreciation.

### Definitions of Fund-1a Categories - Cost Details of Price, Program, and Other Changes (Operating Budget)

<u>General</u>. The Fund-1 and Fund-1a Exhibits reflect the total costs (expenses) of supporting the applicable activity group for each fiscal years PY, CY, BY1, and BY2. All activity groups will report the amortized capital costs of the activity for the capital investments benefiting the activity group. All entries on this form are costs except for Supply Management activity groups. For Supply Management activity groups, all entries on this form are obligations except for the costs of depreciation. Round data to the nearest tenth of a million (e.g., show \$10.4 million, not \$10 million).

<u>Military Personnel Compensation</u> - The elements of cost to be included in the calculation of Military Personnel composite enlisted and officer rates can be found in chapter 26 of the DoD Accounting Manual.

<u>Civilian Personnel Compensation</u> - The elements of cost now include VERA and RIF costs as well as the costs to offset the short-term costs of buyouts.

112 - 15 percent of the final basic pay of each employee who takes a buyout and voluntary early retirement under the Civil Service Retirement System (CSRS).

<u>Material, Equipment, & Supplies</u> - These elements support the internal material, equipment, and supply costs associated with operation of the associated supply activity. Distinguish between expenses associated with material purchased from Fund businesses and that purchased from non-Fund businesses.

413 - For equipment purchases of less than \$100,000 per item. Equipment costing more than \$100,000 per item will be capitalized and depreciated under element 801.

### Other Purchases

941 - The amount entered for Technical Drawings will agree with the amount for this element in supporting budget justification materials.

942 - The amount entered for Forgings and Castings will agree with the amount for this element in supporting budget justification materials.

<u>War Reserve Material Sales</u> - Enter the amount for this element of expense supported by budget justification materials and included in operating budget totals.

Other pertinent information is explained below:

Exhibits are required to show changes from the prior year to the current year, the current year to the BY1, and from the BY1 to the BY2.

Elements of expense for which there are no costs should be excluded from the data submitted (rather than included with an amount of zero).

Page 6 of 7

Exhibit Fund-1a Details of Price and Program Changes - Costs

- Elements of expense 601-699 should be used for purchases from Working Capital Fund Activity Groups other than supply operations to support the internal operations of the activity group. Purchases by supply operations from depot maintenance businesses should be included in category 600. Purchases from the supply operations business to support the internal operations of the business should be reported in category 400.

Lines 601-676 and 680-689 should include purchases made at stabilized rates. Cost reimbursable purchases should be included in line 699.

- Purchases of engineering services, other than those shown on lines 931-934 should be included on line 969, Other Engineering Services and Support.

FY BY2 Estimate:

This exhibit will explain the changes in the operating budget (expenses) from one fiscal year to the next at a meaningful level of detail, relating program changes to changes in the level of work load (Unit Cost outputs) to the maximum extent possible. A Fund-2 exhibit for each Fund activity group is required. Of particular interest are the strategies and plans to improve activity group productivity and quality. Accordingly, the cost impacts of productivity initiatives (Defense Management Reviews (DMR) and other) should be separately identified on this schedule. Each activity group should include a paragraph outlining major productivity improvement plans and associated resources including but not limited to capital investment, education and training initiatives, process improvement, consolidation and streamlining, work force motivation, and incentives.

Provide a narrative explanation for changes. Round data to the nearest <u>tenth</u> of a million (e.g., show \$ 10.4 million, not \$ 10 million).

For changes in cost due to productivity initiatives, list the detailed initiatives and amounts for each. Distinguish the cost reductions associated with individual DMR's from other productivity initiatives.

# Instruction for the Preparation of Exhibit Fund-3 Labor and Unit Cost Breakdown

This exhibit combines the requirements of Fund-6 exhibit (Derivation of Unit Costs). Accordingly, the Fund 6 exhibit will no longer be required. The Fund-3 exhibit stratifies, by fiscal year, the total activity group costs in the operating budget by Direct, Indirect, and General and Administrative (G&A) categories, which respond differently to changes in work load. In addition it displays total workload in terms of direct labor hours or other measure and the applicable unit cost. For the G&A category, only the personnel carried in and paid for by the activity group should be reflected in the personnel strength numbers. This includes personnel paid from the activity group payroll such as assigned security guards and personnel working in the office of the activity group director. However, this does not include the personnel assigned to a G&A activity that provides base operations support to the activity group unless they are carried in the end strength of the business activity.

List those elements of cost, including purchased services and base operations, which will be distributed as General and Administrative Overhead Costs to measured and unmeasured outputs. Where appropriate, also include headquarters costs. Separately identify categories that are significant cost drivers; summarize less significant cost drivers in the "other" category. Examples of General and Administrative Costs include *but are not limited to*:

ADP Support Telecommunications Installation Services *Travel/Training* Equipment Maintenance Civilian Personnel Office Comptroller/Accounting and Finance Real Property Maintenance Utilities Headquarters Support Internal Supply or Inventory Management Other

Total

Note: Significant differences between years should be explained.

\* Includes higher headquarters operating expenses above the activity level command elements -- usually at the major command, systems command or other comparable organizational levels (see definition on Fund 25 exhibit).

This exhibit specifies, by fiscal year, the operating budget by the costs and outputs associated with each activity group. Total costs on this exhibit will add to the operating budget total. Enter the total capital budget amount (authority) as the last item in the table. Exhibit Fund-5 corresponds to the funding document that will be issued for those activity groups that have a limited number of outputs. Exhibit Fund-5a should be used for activity groups with multiple outputs, which includes most of the activity groups that were formerly Industrial Fund activities.

### Instructions for Completing the Fund-7a, Summary of Sources of Revenue

Separate fiscal year exhibits are required for the prior year, current year, and budget year.

Revenue from carry-in orders at the beginning of the fiscal year must equal the carry-out balance at year-end for the previous fiscal year. New customer orders should be priced at the rate used in the Components' customer account request (see guidance on setting rates). Carry-out orders should be priced based on the pricing guidance. Because carry-out orders cannot be billed until accomplished, the sum of the revenue derived from carry-in orders, new orders planned for execution in this fiscal year., and the other column should equal total revenue from orders for the fiscal year. Other revenue includes pass-through, direct funding, and cost reimbursable orders that are not subject to stabilized rates.

Direct labor hours (DLHs) for carry-in work include only carry-in (balance on hand beginning of the year) anticipated to be executed during the program year. For multiyear projects, that portion of carry-in programmed for execution in future years should be added to carry-out work load. Show new customer order received from each appropriation, agency, or fund, as applicable. Any new customer orders not programmed for execution during the programmed fiscal year should be included in the carry-out category.

Revenue amounts must agree with the applicable Revenue and Expense Exhibits (Fund-11) and with Summary of Price and Program Changes Exhibits (OP-32, R-32, and P-32). (See pricing and customer account guidance in the DoD Financial Management Regulation and in the budget guidance.)

The prior year stabilized rate is the DoD composite revenue rate set in the prior year(s) budget(s). If carry-in from more than one year is involved, provide the weighted average based on the number of DLHs and the rate applicable for each year. If all carry-in was at the same rate, then only one entry is required at the top of the column. If the business has established sub-composite rates (that make up the DoD stabilized rate) such as a rate by major commodity or product (engines, airframes, components, etc.), these sub-composite rates may be used in the "Prior Year Stabilized Rate" column if grouped by customer or appropriation.

The column "New Orders Accepted but not Worked" will reflect carry-out orders.

Funded carry-in showing excess of three months in FY PY - FY BY2+1 should be explained in a narrative footnote to this exhibit.

The formula for determining carryover as it applies to the 3-month carry over rule for organic operations and  $4\frac{1}{2}$  months for Air Force Contract Depot Maintenance is:

Gross Unfilled Orders at end of prior FY

- + New Orders for Current FY
- Revenue for Current FY
- Work in Process for Current FY

= Gross Orders carried over to Next FY

- Non-Supply Intra-DWCF Orders
- Non-Supply Inter-DWCF Orders
- FMS Orders
- BRAC Orders
- Non-DoD Orders
- Direct Contract Obligations

= Adjusted Orders Carried-over to Next FY

Months of Carryover = Adjusted Orders Carried-over to Next FY divided by (Current Year Revenue divided by 12)

| 12. Adjustment for prior year gains or losses necessary to achieve an end-of-year AOR of zero for the budget year:<br>Step 12 is calculated as follows:                                                                                                                                                                                                                                                                                                                                                                                                                               | +/- \$xxx,xxx,xxx                                    |                                                                                   |
| <ul> <li>(a) Take the previous year end-of-year AOR and add to that any new surcharges required.</li> <li>(b) The resulting dollar value (from "a" above) is then multiplied by the following ratio: (Line 5 DLHs + Line 8 DLHs) / Line 5 DLHs</li> </ul>                                                                                                                                                                                                                                                                                                                             |                                                      |                                                                                   |
| The resulting dollar value, either positive (if your AOR is negative) or negative (if your AOR is positive), is then used as an adjustment to program cost in Item 12. The adjustment for capital surcharges is positive. This will ensure that all prior year gains or losses planned to be recouped or distributed will be accomplished during the budget year for which rates are being set. If an activity proposes to recover an operating loss over more than one fiscal year, the total operating loss and the amount carried to the next fiscal year for which are being bet. |                                                      |                                                                                   |

Notes:

(1) The cost per trained flight crew includes all organic airlift costs including estimated overhead for Base Operations and AMC Headquarters).

(2) Provide estimated costs for airlift missions required solely for purposes of meeting customer demand such as disaster relief (e.g., Provide Hope, Provide Comfort, etc.).

(3) Estimated Base Operations costs incurred in support of tenants. Base Operations costs in support of the AMC missions should be included in the total cost of the missions supported.

# Instructions for the Fund-9a Exhibit Capital Investment Summary

<u>General</u> - Each line item shown on the Fund-9a Exhibit represents the summary data associated with an individual capital investment reported on the Fund-9b Exhibit (Capital Investment Justification). The line number assigned to the item from the Fund-9b Exhibit will be cross-referenced in the first column of the Fund-9a. In addition, the ADPE and Telecommunications equipment and software development Fund-9b Exhibit line number assigned should also be used for cross-referencing within the Information Technology Exhibits as outlined in Chapter 18 of this regulation. Use the approved Defense Working Capital Funds activity group name.

1. All individual projects with a cost of \$1,000,000 or more will be separately justified on Fund-9b Exhibit.

2. All projects with a cost of \$500,000 to \$999,999.99 may be included together on one line. However, each project making up the total of this line item will be listed separately on the Fund 9b exhibit showing project name, location where the project will be used and the dollar amount by fiscal year.

3. All project with a cost between \$100,000 and \$499,999.99 may be included on one line. Listing of individual projects in this category is not required. However, sufficient back-up data should be maintained to identify these projects, if requested. Provide the number of projects included in the total for each fiscal year.

4. Section 090103, <u>Policy</u>, provides specific guidelines in deciding whether or not to include an item in the capital budget, and the necessary pre- and post-investment analysis required to substantiate a capital budget request. Specific rules regarding depreciation of Capital Assets are found the in paragraphs 090103B(1)-(8) and Volume 4 Chapter 6.

5. Definitions for these capital budget categories are provided below:

A. <u>Equipment, other than ADPE and Telecommunications Resources</u>, costing \$100,000 or more will be capitalized and depreciated. Equipment will be categorized by the primary reason justifying the purchase: Replacement, Productivity, New Mission, or Environmental Compliance.

(1) Replacement Equipment should be systematically analyzed and alternatives considered to meet the replacement requirement in the most cost-effective manner supported by an economic analysis. The level of effort devoted to this analysis should be related to the dollar value of the proposed investment and should employ traditional capital investment evaluation techniques such as net present value and internal rate of return analysis. In the situation where a new piece of equipment being considered significantly exceeds the capability of existing equipment, the repair versus purchase decision should be justified in the category "Productivity Equipment."

(2) Productivity Equipment consists of equipment that significantly exceeds the efficiency or capability of existing equipment and should be supported by an economic analysis comparing the net present values of alternatives considered by the decision maker. Productivity equipment reduces the cost of operations of the business activity, thereby reducing cost per unit of output, or results in a product or service improvement that reduces the customer's cost of use.

(3) New Mission Equipment is equipment needed to support an increase in work load or a new mission that cannot be adequately accomplished with the existing equipment. Purchase decisions should be supported, where applicable, with a thorough and systematic analysis of the alternatives available to satisfy the requirement in the most cost-effective manner.

(4) Environmental Compliance Equipment is equipment needed to correct or forestall a condition in violation of local, state or federal statutes and regulations. Rather than an economic analysis, a description of the possible violation ought to be included and how the particular item of equipment will remedy the situation. B. <u>ADPE and Telecommunications Equipment</u> having a system unit or life cycle cost of \$100,000 or more will be capitalized and depreciated.

(1) ADPE and telecommunications resources consist of computer hardware, operating system software (including utility and communications software) and telecommunications equipment as defined in OMB Circular A-11.

(2) ADPE costs will be displayed in four parts: (1) Computer Hardware (Production), (2) Computer Software (Operating System), (3) Telecommunications, and (4) Other Computer and Telecommunications Support Equipment. The last category includes investments such as uninterrupted power sources and air conditioning that must be purchased to support computer and telecommunications resources.

C. <u>Software Development/Modernization</u> with a system unit or life cycle cost of \$100,000 or more will be capitalized and depreciated. Internally developed software and externally developed Software will be listed separately.

(1) Software development includes the actual development and acquisition of the information system as defined in OMB circular A-11. This category does not include software developed for a customer for use in a weapon system.

(2) Software development/modernization will be budgeted by project. A project is defined as any change, modernization, or improvement to a system or subsystem that by itself will provide an economic benefit or improvement in a business process. This must include all changes or improvements needed to interface or integrate with other ancillary systems. A project has a start and stop date, a specific amount of funds, and results in a usable end product. The full scope of a software development project may consist of efforts in any or all of the following four phases:

- (a) planning and system design;
- (b) system development including software modification and conversion;
- (c) deployment, including environmental and operational test and installation; and
- (d) management and technical support.

(3) Costs to be included in a software development project include the total labor and non-labor costs such as: (a) all direct cost for civilian and military personnel; (b) contractor labor; (c) supplies; (d) travel; (e) processing support for testing; (f) indirect costs; and (g) general and administrative costs (e.g., base operations support, higher headquarters, and depreciation for central design activity-owned assets). Software development/modernization projects will exclude ADPE and maintenance/operations costs. These will be identified separately in the ADPE and telecommunications section of the Fund-9a and Fund-9b.

D. <u>Minor Construction</u> projects financed by the activity group and costing from \$100,000 to \$500,000 will be capitalized and depreciated. Minor Construction projects costing up to \$1,000,000 may be financed by the DWCF if the project is required to correct a deficiency that is life-threatening, health threatening, or safety threatening. Where appropriate, minor construction decisions should be supported by an economic analysis.

### E. <u>Column Entries</u>

(1) <u>Item Description</u>. Enter the category - Equipment \$1.0 million or more, Minor Construction, etc., and the proper nomenclature, or descriptive title, of the item to be procured or service to be purchased.

(2) Quantity. As applicable, enter the quantity of items procured/estimated to be procured during, as FY PY, FY CY, FY BY1, and FY BY2. The quantity shown in this exhibit should reflect all program changes through the date of preparation of the exhibit regardless of whether such changes have been previously reported.

(3) <u>Cost</u>. Enter the estimated total cost of the applicable quantities procured/estimated to be procured during FY PY, FY CY, FY BY1, and FY BY2, as applicable. This amount should reflect all costs associated with program changes through the date of preparation of the exhibit regardless of whether such changes have been previously reported. Costs will be expressed in millions of dollars, to the nearest tenth (i.e., \$2.6 million).

### Instructions for the Preparation of Exhibit Fund-9b Capital Investment Justification

### I. General

A. The purpose of this exhibit is to provide detailed cost data and narrative justification in support of each line item listed on the Fund-9a. Separately justify each capital investment which costs \$1,000,000 or more. It is important that the Fund-9b be complete and accurate as it is the primary justification for activity group's capital purchases.

B. Separate Fund-9b exhibits will be submitted for each line item on the Fund-9a where there is an entry in either the current year or budget year(s) columns.

- (1) Line items over \$1,000,000 are justified separately.
- (2) Line items for projects costing between \$500,000 and \$999,999.99, list each project making up the line item total separately. Show project name, location where it will be installed, fiscal year and amount of project.
- (3) For projects costing between \$100,000 and \$499,999.99, indicate the number of projects making up the total for each fiscal year.

### II. Headings

A. For "Budget Estimate Submission," insert "FY XX OSD/OMB submission" (XX is used for illustration purposes only. Insert the applicable fiscal year in lieu of XX.)

B. Identify the applicable Component/Activity group for the proposed capital investment. Use the approved Defense Working Capital Fund Activity Group name. Identify the activity that will benefit from the capital item, if possible. Specific activities need not be identified for Equipment, ADPE, and telecommunications resources, Software Development, and Minor Construction Purchases costing under \$500,000 each.

C. For each item (e.g., five new forklifts), indicate the item description contained in Exhibit Fund-9a.

D. Line Item No. & Item Description. Enter a line item identification number to cross-reference the corresponding entry on the Fund-9a along with a description of the investment.

### III. Column Entries

A <u>Element of Cost</u>. Purchases of equipment and systems often require more than one procurement action to complete the program or, if only one contract is involved, there may be several cost elements such as the end item itself, publications, installation, minor construction support, etc. **Each of these elements should be shown separately** in the "Elements of Cost" section with related costs shown separately under the total cost sections. Quantity and unit cost should be shown for these elements when appropriate.

B. Quantity. The quantity related to any cost element should be stated in units. Cost columns will be totaled.

C. <u>Per Unit Cost</u>. Enter the actual or estimated unit cost, when appropriate, for each element listed. Express unit costs in thousands of dollars, to the nearest tenth (i.e., \$20.1 thousand). Unit costs should be expressed in terms of "then year" costs.

D. <u>Total Costs</u>. Enter the total cost of each building block entry taking into consideration quantity to be procured/estimated to be procured and unit costs.

# IV. Narrative Justification

A. Provide complete narrative description for each applicable item. This narrative justification should include sufficient information to serve as the sole justification for funding the item. The narrative description should include, but not be limited to:

1. The nature, purpose, and intended use of the item.

2. Indicate whether a pre-investment economic analysis was performed.

3. Indicate the dollar value of estimated savings/cost avoidance after the equipment is installed or the project is complete and the fiscal year when the savings/cost avoidance should begin. If no savings/cost avoidance should result from the purchase, an explanation must be provided to indicate why.

4. Provide a clear, concise statement relating planned procurement to the total objective for the applicable item/program. For example, the total objective for a type of supply management equipment might be 40 units at an estimated cost of \$300,000 each for a total cost of \$12.0 million. Ten units have been procured in prior years, 15 units are included in the budget year, leaving 15 units to be procured in subsequent years. If the items are to be used/installed at more than one Activity, a list of the applicable Activities that are to receive the equipment/system should be provided.

A separate page will be submitted for each category of Capital Purchases as well as a summary page. The categories are Equipment-Non-ADPE, Equipment-ADPE and Telecommunications, Minor Construction, and Software Development. (PY-X should go back to, and include, FY 1992. Although the sample exhibit reflects program year obligations of 100% of CY, PY, and PY-X program authority, <u>that need not be the case</u>; CY, PY, and PY-X program year obligations should reflect your <u>best estimates</u>.

The percentages used above are for display purposes only. The actual amounts used will vary by activity group.

# **Explanation**

This exhibit should list each output and the computed change in customer price from the previous year. The components of price contributing to changes in customer prices should be explained. All Fund customer rates for FY CY will be those reflected in the President's budget. FY BY1 and FY BY2 price changes should be based on cost reflected in this submission to achieve an accumulated operating result (AOR) of zero in both FY BY1 and FY BY2.

### Instructions for the Preparation of Exhibit Fund-11 Source of Revenue

This Exhibit will identify the customers of each activity group at the level of detail indicated. Appropriated fund customers should be identified at the appropriation level. Be specific as to the source of funding. Entries such as OSD or Army are not acceptable on this Exhibit. Lack of specificity will indicate that the funding source is unknown and may not be considered as a legitimate source of funding. The identification will be on the basis of funded orders so that activity group activity may be linked to the appropriations for goods and services.

For line 1.a (Orders from DoD Components), show the amounts by appropriation (e.g., Army National Guard Operation and Maintenance, Army RDT&E, etc.) for orders accepted within the submitting Service/Component. For orders accepted from other Components, show the appropriation detail for significant customers.

For line 1.b (Orders from Other Fund Activity groups), show the orders accepted from other Defense Business Operations Fund Activity groups. Be specific as to the activity group.

Total New Orders on Line 1 must match data provided in the OP-32, R-32, and P-32 exhibits.

For line 2, display the carry-in orders from prior fiscal years. For the Supply Management activity groups, carry-in orders represent back orders.

For line 3, add the sum of lines 1 and 2.

Line 4 should equal orders from line 3 that will not be sold in the current year. For the Supply Management activity groups, funded carry-over represents backorders.

Line 5 will equal total gross sales shown on the Revenue and Expense Statement.

Components will submit summary Fund-11 exhibits for activity groups (such as Navy Research and Development) that have subdivisions and will submit a summary Fund 11 at the Component level.

Criteria: These measures should identify the critical characteristics of the product or service from the <u>customer's</u> <u>perspective</u> for activity groups. Each activity group should use the performance effectiveness measures submitted in the March 1, 1993, Milestone II Report to Congress and those measures mandated for use in financial statements by the Chief Financial Officers Act. Each performance effectiveness measure should: (1) describe the final product as it is received by the customer, (2) be a discrete straightforward indicator, (3) be critical to the outcome goals, (4) be controllable by the business activity manager, (5) be distinguishable from work process measures, and (6) be automated to the maximum extent possible. Measures of sub-processes or internal operations should not be used unless they have a major predictable impact on the final output characteristics. Timeliness measures are typically expressed as average days it takes for a customer to receive a product or service or as the percentage goods or services provided within prescribed time frames. Quality measures gauge conformance to objective use requirements and are typically expressed as the number of defects in the product as reported by the customer or number of customer complaints reported. Customer satisfaction is a measure of conformance to customer expectations. Customer satisfaction is best measured directly with customer surveys.

Note: For Supply Management, expense estimates should be consistent with estimated surcharge elements included in Exhibit SM-5a except for the current year. Current year should reflect current estimates and should not necessarily be identical to the previous budget submissions as required for the SM-5a.

### Instructions for Statement of Revenue and Expenses Keyed to Statement Footnotes

A. For supply management activity groups, the line should reflect **Gross** sales at standard. Credit returns should be displayed in the Refunds/Discounts line.

B. Capital Surcharge represents the increase in prices (and projected revenue) due to surcharging the capital budget requirement to provide sufficient cash to support the capital budget. This line should be left blank if a capital surcharge is not included in price (also see note F).

C. Other income is to include passthroughs.

D. Cost of material sold from inventory includes the value of material sold from inventory and the cost of repair. Both wholesale and retail costs should be included. The cost of material sold from inventory will be computed differently for wholesale and retail divisions. For wholesale divisions, the surcharge shall be subtracted from the sale and the inflation added. For consumable items, the intent is to reflect anticipated sales at latest acquisition price plus inflation. For repairable items, the computation becomes more complex. Sales for repairable items shall be split between sales at standard and sales at exchange price. For sales at standard, the surcharge is removed from the sales and inflation is added similar to consumable items. For sales at exchange price, the cost of material sold reflects the sales at repair cost including rate changes for the appropriate year. For retail divisions, the cost of material sold from inventory is the obligations recorded during the fiscal year.

E. Depreciation expenses reflect actual or estimated depreciation of all assets defined by the capital program.

F. This represents the "gross" result from operations, prior to adjustments.

G. Capital Surcharge reservation here should offset capital surcharge in revenue. This line is left blank when there is no capital surcharge revenue.

H. This represents any appropriations realized to offset current period expenses (e.g., Passthroughs, appropriations to cover underutilized plant capacity). Appropriations for war reserve material do not offset current period expenses, do not affect NOR, and should therefore be reported as an adjustment below NOR.

### I. This includes

- (1) Transfers to correct for prior period over- or under-pricing;
- (2) Other approved transfers for collections from customers for which an expense has not been recorded;
- (3) Other collections (that are not transferred out, but placed in some sort of reserve) from customers for which an expense has not been recorded; or,
- (4) Unfunded expenses resulting from a policy change, which must be deleted prior to determining NOR.

J. The Net Operating Result (NOR) is the net result from <u>operations</u>. Only NOR will be carried into AOR in the Government Equity portion of the balance sheet. We are using NOR as a performance indicator of how activity groups perform in relation to the standard established.

For the supply management activity groups, expenses shall be recorded as obligations, except for depreciation and cost of material sold from inventory.

Page 2 of 3

Additional line entries are required for supply management activity groups. For each element in the surcharge applying to material such as condemnations or inventory maintenance, a separate line should be added reflecting the obligations for these items.

<u>Supply Management Exhibits Fund 14A</u>. Only Supply Management Activity Groups will submit this exhibit. These exhibits have been prepared to refine the concept of a financial management (rather than fiduciary) net operating result in supply management. Its chief features are a simpler definition of material costs, an increased emphasis and more detail on "other than material" costs, and specific information on the impact of sales volume changes on financial results. The purpose of these modifications are to help focus attention on elements of supply operation that are subject to more direct management control. Supply Management Activity Groups will submit this form in the OSD budget submission in lieu of the current Fund 14 exhibit. The regular Fund 14 is still required for uniform displays of operating results in the President's budget.

Exhibit Fund-15 Fuel Data Page 1 of 2 Instructions for the Preparation of Exhibit Fund-15 Fuel Data

Prepare Fund-15 for prior year actual, current year, and budget year(s). The Defense Stock Fund will prepare the exhibit for those stocks procured by DFSC only. Prepare exhibit for each division which procures fuel and a consolidated exhibit. Instructions for preparation of Fund-15, Fuel Data: The purpose of Fund-15, Fuel Data, is to provide a reconciliation between the supply management, the Defense Logistics Agency, and the customer budgets.

- 1. Barrels. Use 42 gallons per barrel. Show barrels in nearest tenth of million barrels.
- 2. Cost Per Barrel. Use cost in dollars and cents per barrel.
- 3. Extended Price. Multiply number of barrels by cost per barrel. Use dollars in millions and tenths of a million.
- 4. Product. List by product.
- 5. Stabilized Price. Show current approved stabilized price.

 $\underline{3}$ / The workyears shown will be calculated bases on the prior three years average fill rate. The fill rate is calculated by dividing actual on board by the authorized amount for each grade. Reimbursement will be calculated based upon the workyears multiplied by the civilian equivalency rate for each grade.

### CIVILIAN PERSONNEL COSTS Fund-21 Exhibit Instructions

Separate Fund-21 exhibits must be prepared for PY, CY, BY1, BY2 for each Military Department in total and for each appropriation/fund in which civilian personnel are funded. Exhibit Fund-21 is a modified OP-8 Exhibit. A modified OP-8 Exhibit can be submitted in lieu of the Fund-21 Exhibit.

Rate data on the Fund-21 exhibit should be shown parenthetically. To calculate the required rate data, use the formulas displayed on the Fund-21 Exhibit. Show the average salary for Basic Compensation, overall salary for Total Compensation, and FTE cost for Compensation and Benefits. Show the other rate data, as a percentage in decimals to five places, for total variables and benefits.

Full-time equivalent end strength (FTE) vice end strength authorizations will be displayed for all beginning and ending end strengths. FTE end strength is the actual or estimated number of employees on board as of 30 September. The beginning FTE end strength <u>must</u> agree with previous FY's September 30 FTE end strength.

Display end strength for disadvantaged employment. Display disadvantaged employment for all years. The approved FTE employment estimates will include persons appointed under the Workers Trainee Opportunity Program, Federal Cooperative Education Program, and the Federal Junior Fellowship Program, as well as certain other programs that in the past were referred to as "Ceiling Exempt

In accordance with the Federal Employees Part-Time Career Employment Act of 1978 (Public Law 95-437), only part-time <u>permanent</u> employees are counted on a full time equivalent basis, i.e., an individual working 30 hours a week becomes .75 of an end strength. There is no adjustment for other part-time or intermittent employees - these employees would be counted on an individual basis not on a fractional basis.

Consult either DoDI 7330.18 or the Office of Personnel Management's Federal Personnel Manual (FPM) for definitions of full-time employees with permanent appointments (FTP). FTP (Full-Time Permanent), according to OMB Circular A-11, is the number of full-time employees with permanent appointments that are on board, or planned to be on board, as of the end of each fiscal year displayed. Such entries will <u>exclude</u> anticipated vacancies. Do <u>not</u> display FTP for Indirect Hire Foreign Nationals. Consult the DoDI or FPM to determine if your Foreign National Direct Hire employees are considered FTP employees.

Do <u>not</u> include overtime workyears in FTE totals. The FTEs on the Fund-21 exhibit are straight-time FTEs only. Where applicable, the BA-3 exhibit supporting the President's budget must agree with the FTE on the automated computer reports printed from the "Budget Review System" (BRS) and with the personnel summary data included in the program and financing schedules (galleys) for the printed budget. (See OMB Circular A-11.)

For the <u>PY</u> supporting the FY BY President's budget request, the end strength data must agree with the SF-113A, Monthly Report of Federal Civilian Employment, provided to OPM to report military functions employment levels as of 30 September.

Page 2 of 3 Exhibit Fund-21 Civilian Personnel Costs by Activity group -Direct hire FTE end strength data on the Fund-21 exhibit must agree with data provided on the

30 September <u>supplement</u> to the SF-113A report. This supplement is entitled, Report of Part-Time Permanent Employees on a Fractional Basis.

-Indirect hire end strength data must agree with the Indirect Hire supplement to the 30 September SF-113A report.

-The FTP end strength data must agree with data provided on line 30, Full-Time with Permanent Appointments, of the 30 September SF-113A.

Civilian Personnel Direct Funding (#7) will be total Civilian Personnel (#5) less reimbursable funding (#6). Provide end strength, FTE, and funding reimbursable data for all of the columns. Appropriations/funds (e.g., Defense Business Operations Fund, etc.) that are not funded with budget authority show all of the data as reimbursable so that "0" will be displayed in every column on the "Civilian Personnel Direct Funding" (#7) line.

Show civilian personnel data in hours, FTEs, workyears, or end strength, as requested. Exclude military personnel from all data.

Compute FTEs by dividing the applicable total number of hours by the number of hours in a work year.

Show the percent of total FTEs which are direct labor, production overhead, general & administrative, and the sum of production overhead plus general and administrative FTEs.

Show the number of hours per FTE used to convert hours to FTEs for each fiscal year.

Show total end strength levels.

FTE utilization rates are calculated by dividing the total number of FTEs by the quotient of:

 $\frac{E/S \text{ Begin year} + E/S \text{ End Year}}{2}$

Exhibit Fund-29 Civilian Personnel Execution Performance Quarterly Analysis

### Unutilized and Underutilized Plant Capacity (UPC)

Component: \_\_\_\_

DATE:

ACTIVITY GROUP:\_\_\_\_ PART I.

The purpose of this exhibit is to display plant capacity indices and mobilization funding requirements for WCF industrial activities. Unutilized (Reserve) or Underutilized Plant Capacity costs are not to be included in the DWCF rate structure. Unutilized capacity associated with the ability to provide capability in excess of any known or projected requirement is not a mobilization requirement and is not funded with UPC funds. This exhibit applies to all activities of industrial activity groups whether or not that activity group has an activity (or activities) where their respective Service is identifying UPC funding in the corresponding Service Operation and Maintenance (O&M) budget submission. Thus, at a minimum, the capacity-related indices for items numbered one through three will be completed for each industrial activity.

Notes:

- (1) The Total Capacity Index is calculated in accordance with the instructions in Chapter Three of DoD 4151.18-H (Depot Maintenance Capacity and Utilization Measurement Handbook). This index represents the amount of work load, expressed in actual Direct Labor Hours (DLHs) that an activity can effectively utilize annually on a single shift 40-hour week basis, while producing the product mix that the activity is designed to accommodate.
- (2) The Utilized Capacity Index is expressed in DLHs and represents the amount of DLHs required by the activity to execute funded work load requirements. The associated percentage is that portion of the Utilized Capacity Index to the Total Capacity Index.
- (3) The Reserve Capacity Index is expressed in DLHs and represents capacity that is not utilized but is being retained for sound reasons of military mobilization and surge necessity. The associated percentage is that portion of the Reserve Capacity Index to the Total Capacity Index.
- (4) The Funded UPC is determined by applying the following general rule: Any month during which mobilization facilities are not used, or if utilized only 20 percent or less of available work days, the pro-rata support costs for those facilities will be included in the UPC funding. Mobilization program expenses related to UPC may include both maintenance and labor costs related to the program. The amount reported is funded in the respective Service O&M budget submission.
- (5) Total Funded UPC is the Activity Group cumulative amount.
- (6) In Part II, items reported in the cost element Other should be fully identified. This could include items of a military-unique nature and, if so, should be sufficiently described.

#### **CHAPTER 10**

### PUBLIC ENTERPRISE, MANAGEMENT, AND TRUST FUNDS

### 1001 GENERAL

#### 100101 Purpose

A. This chapter highlights the policies and justification procedures underlying budget formulation and congressional justification. The provisions of Volume 11B "Reimbursable Operations, Policy and Procedures – Working Capital Funds (WCF)," of the DoDFMR, and of Chapter 9, sections 090103 (with the exception of sub-paragraphs D.8., E, and K) and 090104 of this volume apply to the Pentagon Reservation Maintenance Revolving Fund. The provisions of Volume 11B and paragraphs 090103 (without any exception) and 090104 of this volume also apply to the Buildings Maintenance Fund.

B. The following accounts are covered:

#### Section

1002

Public Enterprise Funds

- National Defense Stockpile Transaction Fund
- Pentagon Reservation Maintenance Revolving Fund
- National Defense Sealift Fund
- Buildings Maintenance Fund

#### Management Funds

- Conventional Ammunition Working Capital Fund (Ceases operating as a revolving fund at the end of FY 1998. Will process existing orders on hand through Revolving Fund Accounts until complete.)

#### Trust Funds

- National Security Education Trust Fund
- Surcharge Collections, Sales of Commissary Stores, Defense (see Section 010603 for listing of all current trust fund accounts)

#### 100102 Background

A. <u>Public Enterprise Funds</u> are expenditure accounts authorized by Congress to be credited with collections, primarily from the public, that are generated by, and earmarked to finance, a continuing cycle of business-type operations.

B. <u>Trust Funds</u>. The following definitions apply to trust fund accounts.

1. <u>Trust fund receipt account</u>. Trust fund receipt accounts are credited with receipts generated by the terms of a trust agreement or statute. At the point of collection, these receipts are available for transfer to a trust fund expenditure account or are not available for transfer depending upon the terms of the trust agreement or statutory authority.

2. <u>Trust fund expenditure account</u>. Trust fund expenditure accounts are established to record amounts appropriated or otherwise made available by transfer from a trust fund receipt account to be obligated and expended in carrying out the specific purposes or programs in accordance with the terms of the trust agreement or statute. Funds transferred or appropriated to a trust fund expenditure account are normally available for obligation and expenditure within the limits imposed by the trust agreement or authorizing statute.

3. <u>Trust revolving fund account</u>. A trust revolving fund is a single account that is authorized to be credited with receipts and incur obligations and expenditures in support of a continuing cycle of business-type

operations in accordance with the provisions of the trust agreement or statute. Trust revolving fund receipts are available for obligation and expenditure without further action by Congress.

4. <u>Unavailable collections.</u> Are either (1) unappropriated receipts or receipts that are precluded from obligation because of a provision of law, such as a benefit formula or limitation on obligations in PY, CY, or BY1/BY2, or (2) collections unavailable for obligation because of limitations on obligations in PY, CY, or BY1/BY2. Section 36.6 of OMB Circular A-11 provides instructions on MAX Schedule N on unavailable collections for trust funds and O&M special funds which Federal agencies must include in their annual budget submission to OMB.

#### 100103 General

A. In general, DoD trust funds authorized to incur obligations and expend receipts have been exempted from apportionment by OMB. However, the Surcharge Collections, Sales of Commissary Stores, Defense trust revolving fund, and the National Security Education Trust Fund are subject to apportionment by OMB. However, each trust fund must be viewed as a unique fund in light of any special provisions in the trust agreement or the enabling legislation.

B. Trust funds have been assigned account symbols between 8000 and 8999. Within this range trust revolving funds have been assigned symbols between 8400 and 8499. Some trust funds used by DoD are:

- Surcharge Collections, Sales of Commissary Stores, Defense
- National Security Education Trust Fund

C. The Conventional Ammunition Working Capital Fund ceases operations as a Revolving Fund at the end of FY 1998. This activity will become a direct funded activity under the cognizance of the Single Manager for Conventional Ammunition. The SMCA will provide budget data for this revised organization.

#### **100104 Submission Requirements**

General guidance with regard to submission requirements is presented in the DoD Financial Management Regulation (DOD 7000.14-R), Chapter 1. Chapter 10 covers specific back-up material requirements for the above areas.

#### **100105** Preparation of Material

General guidance with regard to format and preparation of material is presented in the DoD Financial Management Regulation (DOD 7000.14-R), Chapter 1. Chapter 10 provides additional specific guidance with regard to the back-up material required for Public Enterprise, Management Fund and Trust Fund accounts.

The DoD Financial Management Regulation (DOD 7000.14-R), Chapter 1 provides funding policies to be adhered to include those that impact other appropriations/accounts. Chapter 9 provides guidance related to Defense Working Capital Funds accounts. Certain exhibits required by this chapter are found in Section 0904 of Chapter 9.

### 1002 BUDGET ESTIMATES SUBMISSION

#### 100201 Purpose

A. This section highlights the policies and justification procedures underlying budget formulation for Public Enterprise, Management Fund, and Trust Fund accounts.

#### 100202 Submission Requirements

A. Public Enterprise Funds.

1. The Defense Working Capital Funds (Fund) schedules referenced here are in the DoD Financial Management Regulation (DOD 7000.14-R), Chapter 9. The O&M type exhibits (PB, OP) are found in Volume 2A, Chapter 3 and Volume 2B, Chapter 19. Fund budget-type exhibits as noted below should be submitted for the OSD/OMB budget review.

- National Defense Stockpile Transaction Fund Exhibits Fund-1, 1a, 2, 4, 11, 14, 17, 21, & 23.
- Pentagon Reservation Maintenance Revolving Fund Exhibits Fund-1, 1a, 2, 3, 7, 9a, 9b, 11, 12, 14, & 23. OP-8 & 9. PB-22.
- Building Maintenance Fund Exhibits Fund-1, 1a, 2, 3, 7, 9a, 9b, 11, 12, 14, & 23. OP-8 & 9. PB-22.
- National Defense Sealift Fund (NDSF) Exhibits Fund-1a, 2, 11, & 12.

2. The instructions and formats for the preparation of the NDSF required procurement and RDT&E exhibits are included in the DoD Financial Management Regulation (DoD 7000.14-R), Chapters 4 and 5, respectively.

#### Procurement/Ship Acquisition:

- Budget Item Justification Sheet (P-40)
- Weapon System Cost Analysis (P-5)
- Analysis of Ship Cost Estimates (P-8a/8b)
- Advance Procurement Analysis (P-10/10a)
- Ship Production Schedule (P-27)
- Ship Outfitting Costs (P-29)
- Ship Post Delivery Estimates (P-30)

#### National Defense Features (NDF):

- Budget Item Justification Sheet (P-40)

### RDT&E:

- Budget Item Justification Sheet (R-2)
- Program Element/Project Cost Breakdown (R-3)

3. Additional data required by OMB Circular A-11 will be submitted in the fall in accordance with annual DoD Comptroller budget guidance.

### **DoD Financial Management Regulation**

B. <u>Management and Trust Funds</u> - For Trust Funds, Trust Revolving Funds and other Management Funds, program and financing, and object classification schedules will be submitted for each account. The budget authority for each trust fund account must agree with the amounts reported against the applicable receipt accounts as required by DoD accounting guidance related to offsetting receipts. The receipt accounts are published in Treasury's Federal Account Symbols and Titles. For the Defense Commissary Agency, a footnote to the program and financing schedule will show the value of the obligations for renovation/construction of commissaries included in total obligations of the trust revolving fund.

C. Special Budget Exhibits - Unique data pertaining to a particular fund are required as follows:

National Defense Stockpile

- Stockpile Financial Status Report (SP-1)

Pentagon Reservation Maintenance Revolving Fund

- Cost of Services (PR-1)
- Summary Statement (PR-2)

Buildings Maintenance Fund

- Cost of Services (PR-1)
- Summary Statement (PR-2)

Surcharge Collections, Sales of Commissary Stores, Defense

- Summary (CT-1)
- Facility Programs Justification (CT-2)

National Defense Sealift Fund (NDSF)

Ready Reserve Force (RRF):

- Budget Item Justification Sheet (RRF-1)
- Ship Composition Funding Requirements (RRF-2)
- Ship Readiness Operational Status (ROS) Composition (RRF-3)

D. Budget exhibits will be submitted in accordance with the schedule published annually in DoD Comptroller budget guidance. Formats and instructions for preparation of the Special Exhibits are provided Section 1004.

E. All NDSF related budget justification materials should be submitted directly to the Director for Investment, room 4B917. In addition to the DWCF schedules, procurement, and RDT&E exhibits referenced in paragraph 100202.A above, the special exhibits identified above must be included in the NDSF justification budget backup book for both the OSD and Congressional submissions. The backup book should include a table of contents, a computer generated FYDP funding report identifying each business area, and each business area/section should be tabbed.

### 1003 CONGRESSIONAL JUSTIFICATION/PRESENTATION

#### 100301 Purpose

This chapter provides the policies and procedures to guide the development of budget justification and supporting narrative to be submitted by Components to the DoD Comptroller in development of congressional justification material.

### CHAPTER 11

### **OFFSETTING RECEIPTS**

1101 GENERAL

### 110101 Purpose

This chapter prescribes budget justification requirements for offsetting receipts consistent with the provisions of OMB Circular No. A-11.

### 1102 BUDGET ESTIMATES SUBMISSION

### **110201** General Instructions

A. Each Military Department will include offsetting receipts in their annual September initial budget submission. See Volume 2A, Chapter 1, for general guidance on submission requirements. DoD receipt account structures are reported in the Budget Structure Listing of the Comptroller Information System which is available on the SIPRNET home page of the OUSD (Comptroller).

B. Each Military Department will also submit actual data on receipts in millions of dollars for the prior year and estimated receipts for the current year, biennial budget years 1 and 2, and the outyears. These estimates will include the impact of all known proposed legislation. A copy of the receipts listing in the form of a spreadsheet as of the end of the prior fiscal year will be provided to the Military Departments by OUSD(C). The Military Departments will update these listings (legible, hand-written markup is acceptable) and return them to the Directorate for Program and Financial Control, Office of the Deputy Comptroller (Program/Budget), Room 3B872 for review and, ultimately, input to OMB. Submittal due date will be established by OSD based on certification to the Treasury of actual execution data for the prior fiscal year.

C. If a DoD component proposes legislation which would impact DoD offsetting receipts and such impact is not included in the estimates submitted by the Military Departments, then the DoD component proposing the legislation will submit to OUSD(C) P/B the impact of the proposed legislation for each Treasury receipt account affected.

D. Amounts reported should include all collections credited to the component's receipt accounts, including "F" (clearing) accounts if applicable (e.g., receipt account 3875), and should exclude collections credited to receipt accounts of other DoD components. Receipts will be reported on the basis of collections credited to receipt accounts during the year, plus or minus any adjustments during the year. Amounts for the prior year will agree with receipts reported to Treasury on the Treasury Combined Statement. Only zero (0) estimates are permitted in the current year, biennial years 1 and 2, and the outyears for "F" accounts; and trust fund accounts), the amount of estimated collections will be equal to the related estimates of appropriations (budget authority).

E. New entries will be titled in accordance with Treasury's Federal Account Symbols and Titles. Include the 2-digit Treasury agency prefix for each account, but do not include the "F" in clearing-account codes. Enter in the appropriate columns the type of receipt and applicable function and the amounts for each account involved. Proposed legislation will be identified by the addition after the Treasury receipt account symbol of the letter "L" for new legislation.

F. Where the Treasury Department has assigned decimal suffixes to the symbol (e.g., 21-8927.1, etc.), amounts will be reported separately for each suffix.

# Financial Management Regulation

G. Each receipt account will be identified as to governmental, proprietary, intragovernmental, Federal intrafund, trust intrafund, inter-fund transactions, etc., as specified in OMB Circular A-11.

H. Receipts data is required for DoD-Military as well as DoD-Civil accounts.

# 110202 Special Instructions - Receipt account 3041, Recoveries under the Foreign Military Sales Program

Additional detail is required for this account, subdivided into the following categories for PY, CY, BY, BY+1, and the outyears:

- Nonrecurring RDT&E and production costs and royalty fee collections;
- 2. Sale of principal/major items from stock which do not require replacement;
- 3. Sale of excess stock fund and procurement secondary items from stock;
- 4. Charges for the use of DoD assets (including asset use charges or contractor rental payments); and
- 5. Charges for unfunded civilian retirement costs.

# CHAPTER 12 DEFENSE HEALTH PROGRAM

### 1201 GENERAL

### 120101 Purpose

A. This chapter provides instructions applicable to budget formulation and congressional justification for the Defense Health Program.

B. The following appropriations are covered as subsections of the Defense Health Program appropriation:

- Operation and Maintenance
- Procurement
- Research, Development, Test and Evaluation

### 120102 Submission Requirements

General guidance with regard to submission requirements is presented in Chapter 1. Chapter 12 covers specific backup material requirements for the above accounts. The ASD(HA) should also consult all of the other chapters of this regulation for exhibit requirements that are not specifically addressed in this chapter including Chapter 19 - Special Analyses. The ASD(HA) is also responsible for providing data to update the Budget Review System (BRS) and the Future Years Defense Program (FYDP) automated systems for the Defense Health Program appropriation. The Military Components must *reconcile all DHP personnel data with, and* submit *all* proposed military and civilian medical *personnel* changes to the BRS and FYDP through Health Affairs -- TRICARE Management Activity (Resource Management).

### **120103** Preparation of Material

General guidance with regard to format and preparation of material is presented in Chapter 1. Chapter 12 provides additional specific guidance with regard to the back-up material required for the Defense Health Program.

### 120104 References

Chapter 3 provides guidance related to Operation and Maintenance costs, Chapter 4 provides guidance and formats related to Procurement appropriations, and Chapter 5 provides guidance and formats related to Research, Development, Test and Evaluation appropriations.

## **1202 BUDGET ESTIMATES SUBMISSION**

### 120201 Purpose

This Section provides guidance for preparation and submission of budget estimates for the Defense Health Program. The budget estimates consist of all operation and maintenance, procurement, *and research, development, test and evaluation* resources that support the medical activities that were consolidated into the Defense Health Program.

# 120202 Submission Requirements

A. The Assistant Secretary of Defense (Health Affairs) is responsible for submitting all exhibits required for the operation and maintenance, procurement, and research, development, test and evaluation appropriations as specified in Chapters 3, 4, and 5 respectively. The Assistant Secretary of Defense (Health Affairs) is also responsible for submitting exhibit requirements specified in the other chapters of this regulation including Chapter 19 – Special Analyses.

B. In addition, the Cost of Medical Activities Exhibit (PB-11, PB-11A, PB-11B) will be prepared and submitted to the Office of the USD (Comptroller). Formats for these exhibits are provided at the end of this Chapter. Two copies of each exhibit should be provided to Office of the USD(C) P/B Operations and Personnel Directorate, Room 3D868, the Pentagon.

# 1203 CONGRESSIONAL JUSTIFICATION/PRESENTATION

### 120301 Purpose

A. This Section presents the exhibit requirements for submission to Congress. Examples of budget exhibits can be found in Section 1204.

## 120302 Submission Requirements

A. The Assistant Secretary of Defense (Health Affairs) is responsible for submitting all exhibits required for the operation and maintenance, procurement, *and research, development, test and evaluation* appropriations as specified in Chapters 3, 4, and 5 respectively. The Assistant Secretary of Defense (Health Affairs) is also responsible for submitting exhibit requirements specified in the other chapters of this regulation including Chapter 19 – Special Analyses.

B. In addition, the cost of Medical Activities Exhibit (PB-11, PB-11A, PB-11B) will be prepared and submitted to the Office of the Under Secretary of Defense (Comptroller) (USD(C)). Formats for these exhibits are provided at the end of this Chapter. Two copies of each exhibit are provided at the end of this Chapter. Two copies of each exhibit are provided at the end of this Chapter. Two copies of each exhibit are provided at the end of this Chapter. Two copies of each exhibit are provided at the end of this Chapter. Two copies of each exhibit are provided at the end of the OUSD (C), Program/Budget, Operations and Personnel Directorate, Room 3D868, the Pentagon.

C. Two Copies of the PBA-9 (Medical Programs Exhibit for the O&M Overview) will be due to the OUSD(C), Program/Budget, Operations and Personnel Directorate at the time that the President's budget exhibits are due. The required format for the PBA-9 is provided at Chapter 3, Section 0304.

D. The OP-5 exhibit and other supporting exhibits will be prepared for each of the following activities. Meaningful performance criteria should be displayed for each activity.

- In-House Care
- Private Sector Care
- Consolidated Health Support
- Information Management
- Management Activities
- Education and Training
- Base Operations/Communications

### CHAPTER 13

**★**June 2000

## **DEFENSE ENVIRONMENTAL RESTORATION**

# 1301 GENERAL

# 130101 Purpose

A. This chapter provides instructions applicable to budget formulation and congressional justification for the Defense Environmental Restoration Program. The National program to manage hazardous wastes and cleanup old hazardous wastes extends to the Department of Defense. The Congress is interested in assuring that the DoD Program is complying with all the requirements levied by the Resource Conservation and Recovery Act (RCRA), the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), and the Superfund Amendments and Reauthorization Act (SARA) legislation. This Chapter provides the funding data necessary to respond to congressional concerns.

B. The appropriations that finance the Defense Environmental Restoration Program include the following subsections:

- Operation and Maintenance
- Procurement
- Research, Development, Test, and Evaluation (RDT&E)
- Military Construction

## 130102 Submission Requirements

General guidance with regard to submission requirements is presented in Chapter 1. Chapter 13 covers specific backup material requirements for the Defense Environmental Restoration Program. The Deputy Under Secretary of Defense, Environmental Security (DUSD(ES)) of the USD(A&T) is responsible for all submission requirements for this program.

### **130103** Preparation of Material

General guidance with regard to format and preparation of material is presented in Chapter 1. Chapter 13 provides additional specific guidance with regard to the back-up material required for the Defense Environmental Restoration Program.

### 130104 References

Chapter 1 provides general funding policies, Chapter 3 provides specific policies related to Operation and Maintenance costs, Chapter 4 provides specific policies related to Procurement appropriations, Chapter 5 provides specific policies related to RDT&E funding, and Chapter 6 provides specific policies related to Military Construction appropriations.

## 130105 Definitions

A. <u>Installation Restoration Program (IRP)</u>. This subelement is a comprehensive program to identify, investigate, and cleanup contamination from hazardous substances and wastes resulting from past DoD activities on active installations and formerly-used DoD lands. This includes requirements incident to remedial action, both on-installation and off-installation (e.g., provision of permanent alternate potable water supplies to communities affected by groundwater contamination that resulted from DoD activity). Actions under this element may include:

## **DoD Financial Management Regulation**

Investigations to identify, confirm and quantify contamination; feasibility studies; remedial 1. action plans and designs; and remedial or removal actions.

> Research, development and technology demonstrations necessary to conduct cleanups. 2.

3. Expenses associated with cooperative multi-party cleanup plans and activities.

4. Remedial actions to protect or restore natural resources damaged by contamination from past hazardous waste disposal activities.

5. Cleanup of low-level radioactive waste sites which meet the criteria of the CERCLA, as amended.

> 6. Remedial action construction costs.

7. Remedial action operations costs.

8. Costs of long-term monitoring.

9. Immediate actions necessary to address health and safety concerns such as providing alternate water supplies or treatment of contaminated drinking water, when the hazard results from a release from DoD property.

10. CERCLA assessments necessary prior to excessing real property assets.

11. Proportion of RCRA permit preparation associated with solid waste management units which would meet the definition of a past disposal site under CERCLA, as amended.

12. Management expenses associated with IRP, including civilian salaries.

Building Demolition and Debris Removal Program (BD/DR). This subelement applies to both B. active installations and formerly-used DoD lands. The purpose of this subelement is to plan and execute a comprehensive program to demolish and remove unsafe buildings and structures. Expenses incident to complete restoration, such as restoration of natural resources are included if such expenses are clearly and directly related to the demolition and debris removal. Demolition that is required as part of a new construction project is excluded. Actions under this element may include:

installations.

1. The demolition of buildings or the removal of debris that constitute a safety hazard on active

2. The demolition of buildings or the removal of debris which constitute a safety hazard on lands formerly-used by the Department of Defense, provided such lands were transferred to state or local governments or native corporations.

C. Other Hazardous Waste (OHW). This subelement captures DoD clearance and cleanup requirements for Unexploded Ordnance (UXO) at closed, transferring, and transferred (CTT) ranges. All DoD Components participating in the Environmental Restoration Program, including FUDS, shall program and budget for Unexploded Ordnance (UXO) cleanup at CTT ranges in the United States and its territories using the OHW subelement. OHW does not include cleanup of active and inactive ranges at active installations. Transferred range requirements (typically FUDS) are already in the ER, FUDS account. Transferring range requirements (typically base realignment and closure (BRAC) ranges) are in the BRAC account and funding will transfer to the appropriate Environmental Restoration account upon expiration of the BRAC account. Clearance and cleanup requirements at closed ranges are new requirements that should be budgeted in the appropriate Environmental Restoration account.

## 1302 BUDGET ESTIMATES SUBMISSION

### 130201 Purpose

This Section provides guidance for preparation and submission of budget estimates for the Defense Environmental Restoration Program. The budget estimates consist of all operation and maintenance, procurement, RDT&E, and Military Construction resources that support the Defense Environmental Restoration Program. The Components should consult all of the other Chapters for exhibit requirements that are not specifically addressed in this Chapter 19, Other Special Analyses.

## 130202 Submission Requirements

A. Based on the Department's decision to devolve the centralized Environmental Restoration, Defense (ER,D) appropriation, the *Military Departments and applicable Defense Agencies shall incorporate separate narrative justification material for their respective programs* and the Environmental Restoration Exhibits (ENV 30a-30e) in their Budget Estimates Submission. The DUSD (Environmental Security) is responsible for consolidating the Defense Agency budget submissions and for preparing the ENV 30a-30e exhibits for the Formerly-Used Defense Sites (FUDS). The diskette of installation level detail required by the DUSD(ES) should be forwarded together with the Components' justification material to the OUSD (C) P/B Operations and Personnel Directorate, Room 3D868, Pentagon.

B. The Components and DUSD(ES) are also responsible for providing data to update the Budget Review System (BRS) and the Future Year Defense Plan (FYDP) automated systems for the various Environmental Restoration appropriations as identified in Chapter 1 and for updating the OP-32 exhibit (Summary of Price and Program Change) identified in Chapter 3.

C. In addition to submitting the above items, the DUSD(ES) is responsible for establishing policy for the Defense Environmental Restoration Program.

# 1303 CONGRESSIONAL JUSTIFICATION/PRESENTATION

### 130301 Purpose

### 130302 Submission Requirements

A. Based on the Department's decision to devolve the centralized Environmental Restoration, Defense (ER,D) appropriation, the *Military Departments and applicable Defense Agencies shall incorporate separate narrative justification material for their respective programs* and Environmental Restoration Exhibits (ENV 30a-30c) in their O&M justification books, Volume II. Environmental Restoration Exhibits (ENV 30d-e) should be submitted separately to the DUSD (Environmental Security). The DUSD (Environmental Security) is responsible for consolidating the congressional justification material for the Defense Agencies and for preparing the ENV 30a-30e exhibits for the Formerly-Used Defense Sites (FUDS).

B. The diskette of installation level detail required by the DUSD(ES) should be forwarded together with the Components' justification material to the OUSD (Comptroller) P/B Operations and Personnel Directorate, Room 3D868, Pentagon. Copy requirements are identified in Chapter 1.

C. The Components and DUSD(ES) are also responsible for providing data to update the Future Year Defense Plan (FYDP) automated systems for the various Environmental Restoration appropriations as identified in Chapter 1 and for updating the OP-32 exhibit (Summary of Price and Program Change) identified in Chapter 3.

D. Examples of budget exhibits can be found in Section 1304.

### 1304 DEFENSE ENVIRONMENTAL RESTORATION PROGRAM SUBMISSION FORMATS

### 130401 Purpose

The formats provided on the following pages reflect guidance presented in previous sections of this chapter. Unless modified in a submission budget call, these formats should be adhered to. Formats should be titled as "Budget Estimates" for the fall budget estimate submission and as "President's Budget" for the final budget submission due *to OSD* the following *January*.

### **CHAPTER 14**

**★**June 2000

### **DRUG INTERDICTION AND COUNTER-DRUG ACTIVITIES**

### 1401 GENERAL

### 140101 Purpose

A. This chapter provides instructions applicable to budget formulation and congressional justification for Drug Interdiction and Counter-drug Activities.

B. The following accounts are covered as subsections of the Drug Interdiction and Counter-drug Activities, Defense appropriation:

- Military Personnel
- Operation and Maintenance
- Procurement
- Research, Development, Test, and Evaluation (RDT&E)
- Military Construction

### 140102 Submission Requirements

General guidance with regard to submission requirements is presented in Chapter 1. Chapter 14 covers specific backup material requirements for the Drug Interdiction and Counter-drug Activities program. The Coordinator for Drug Enforcement Policy and Support (CDEP&S) in OASD(SO/LIC) is responsible for all submission requirements for this program. The Components are responsible for providing all needed input to CDEP&S consistent with the submission requirements and due dates established by CDEP&S.

### 140103 Preparation of Material

General guidance with regard to format and preparation of material is presented in Chapter 1. Chapter 14 provides additional specific guidance with regard to the back-up materials required for the Drug Interdiction and Counter-drug Activities program.

### 140104 References

Chapter 1 provides general funding policies. Chapter 2 provides specific policies and formats for the Military Personnel appropriations. Chapter 3 provides specific policies and formats related to Operation and Maintenance costs. Chapter 4 provides specific policies and formats related to Procurement appropriations. Chapter 5 provides specific policies and formats related to RDT&E funding. Chapter 6 provides specific policies and formats related to Military Construction appropriations. Chapter 16 provides specific instructions applicable to budget formulation, implementation, and congressional justification for intelligence program aggregations, and is applicable to the Defense Intelligence Counterdrug Program (DICP) of the Joint Military Intelligence Program (JDMIP) aggregation.

### 1402 BUDGET ESTIMATES SUBMISSION

### 140201 Purpose

This Section provides guidance for preparation and submission of budget estimates for the Drug Interdiction and Counter-drug Activities program. The budget estimates consist of all military personnel, operation and maintenance, procurement, RDT&E, and Military Construction resources that support the Drug Interdiction and Counter-drug Activities Program.

### 140202 Submission Requirements

A. The Coordinator for Drug Enforcement Policy and Support (CDEP&S) is responsible for submitting all exhibits required supporting military personnel, operation and maintenance, procurement, RDT&E, and Military Construction requirements as specified in this Chapter to the OUSD(C) Operations and Personnel Directorate, Room 3D868 for the OSD budget submission. This includes the various exhibits for the Drug Interdiction and Counter-drug Activities program found in Section 1404, as well as other exhibits identified below but contained in Chapters 2 through 6 and the Program and Financing (P&F) Schedule requirements identified in Chapter 1. The CDEP&S is also responsible for providing data to update the Budget Review System (BRS) and the Future Years Defense Plan (FYDP) automated systems for the Drug Interdiction and Counter-drug Activities appropriation as identified in Chapter 1. The CDEP&S should check all of the chapters of this regulation for exhibit requirements, especially Chapter 19 – Special Analyses.

B. The DoD counternarcotics program will be financed in a central transfer appropriation (CTA). However, the OSD submission will reflect the actual or planned distribution of counternarcotics funds by appropriation. The following exhibits are required for the OSD submission. In addition, the CDEP&S will provide the OUSD(C) Operations and Personnel Directorate with copies of procurement and RDT&E budget exhibits for programs funded in the prior year in the Military Departments' budget that were financed with CTA funds.

### 1403 CONGRESSIONAL JUSTIFICATION/PRESENTATION

### 140301 Purpose

This Section presents the exhibit requirements for submission to Congress.

### 140302 Submission Requirements

The Coordinator for Drug Enforcement Policy and Support (CDEP&S) is required to include the following exhibits in the justification book(s) to Congress. Copy requirements are identified in Chapter 1. Examples of budget exhibits can be found in Section 1404 or as identified below:

- PB-43 Drug Interdiction and Counter-drug Activities by Appropriation by Goal (Chapter 14)
- PB-44 Drug Interdiction and Counter-drug Appropriation Summary (Chapter 14)

Reconciliation of Increases and Decreases: (See Attachment 1 for the OP-5 exhibit in Chapter 3 for format and level of detail required) ä

Accompanying narrative explanations should fully justify the program. Such justification should clearly explain why increases are required or decreases occur. Instructions:

\* Provide a separate exhibit for each National (ONDCP) counterdrug goal by appropriation that has or will receive funds from the central drug transfer account.

# IV. Performance Criteria and Evaluation:

Performance criteria should be established for each functionally area, and approval obtained from OUSD(Comptroller) prior to the budget submission. If possible, performance criteria should relate measures of effectiveness established for the counter drug program. PB-43 Appropriation by Goal (Page 1 of 2)

### CHAPTER 15

**★**June 2000

### **OVERSEAS COST REPORT**

### 1501 GENERAL

### 150101 Purpose

A. This chapter provides instructions applicable to congressional justification material for the Overseas Cost Report which consists of the OP-53 Exhibit (Overseas Funding) and the OP-53A (Basing Costs).

B. The following appropriations and accounts are covered in the scope of the subsections of the Overseas Cost Report:

### Section 150301

- Military Personnel appropriations (including Reserves and National Guard)
- Operation and Maintenance appropriations
- Family Housing Construction and Family Housing Operations appropriations
- Military Construction appropriations

### 150102 Submission Requirements

Chapter 1 provides the general guidance about submission requirements for justification material. Chapter 15 covers specific material requirements for the Overseas Cost Report.

### **150103** Preparation of Material

Chapter 1 stipulates the general guidance concerning format and preparation of material. Chapter 15 provides additional specific guidance with regard to the material required for the Overseas Cost Report.

### 150104 References

Chapter 1 provides general funding policies, Chapter 2 provides specific policies related to Military Personnel appropriations, Chapter 3 provides specific policies related to Operation and Maintenance costs, and Chapter 6 provides specific policies and formats related to Military Construction and Family Housing appropriations.

### 1502 BUDGET ESTIMATES SUBMISSION

### 150201 General

At this time there is no budget estimate submission requirement.

### 1503 CONGRESSIONAL JUSTIFICATION/PRESENTATION

### 150301 Purpose

This Section presents the exhibit requirement for submission to Congress and formats for the Overseas Cost report. Section 8125 of the FY 1989 DoD Appropriations Act (P.L. 100-463) as codified in 10 U.S.C. Section 113, requires that the Department of Defense separately identify the amounts necessary for payment of all personnel, operations, maintenance, facilities, and support costs for all DoD overseas military units and the costs of supporting all dependents who accompany DoD personnel outside the United States.

### 150302 Submission Requirements

A. The Overseas Cost Report consists of the OP-53 exhibit (Overseas Funding) and the OP-53A exhibit (Basing Costs). Chapter 1 contains general guidance on congressional justification material. The exhibits will include a biennial budget year 2 (FY BY2) column or section as shown in Section 1504 for all submissions in support of a biennial budget. Alternate year budget submissions will exclude the FY BY2 column or section.

B. The OP-53 addresses <u>all</u> funding and personnel resources related to overseas activities as defined below. The OP-53A displays basing costs.

C. Provide these exhibits to OUSD(C) P/B, Operations and Personnel Directorate, Room 3D868, the Pentagon.

D. The Military Departments will report <u>all</u> military personnel permanently assigned overseas and associated costs to include those assigned to Defense Agencies. Input must be identified to those countries listed later in this Chapter. <u>Therefore, the Defense Agencies should not report data citing military personnel appropriations or line items.</u>

### 150303 Definitions

The following definitions pertain to the costs to be included in Military Department and Defense Agency input:

A. Overseas costs will include amounts only from the following appropriations: military personnel; operation and maintenance; family housing operation and maintenance; family housing construction; and military construction.

B. Overseas amounts include the appropriated support of all DoD activities located outside the United States that are being performed on a permanent basis.

C. Overseas amounts also include the cost of transporting personnel, material, and equipment to and from permanent overseas locations. The overseas amounts do not include incremental costs associated with contingency operations.

D. The United States includes all 50 states, the District of Columbia, the Commonwealth of Puerto Rico, and the territories and possessions of the United States.

E. Military and civilian personnel amounts will be based on the number of personnel assigned to permanent duty ashore outside the United States. Accordingly, personnel on temporary duty outside the United States are not included in the overseas amounts. Because personnel assigned to the deployed fleet are excluded from overseas troop strengths, amounts for deployed steaming days are not included.

### **DoD Financial Management Regulation**

F. Generally, funding for DoD activities in the United States in support of overseas activities is excluded. For example, overseas amounts exclude the funding of depot maintenance performed in the United States on components/aircraft used by an overseas unit. Similarly, flight/specialized training that is conducted in the United States would be excluded.

G. Basing costs include overseas Defense funding in the following areas:

- (1) Family Housing Operations and Construction (All)
- (2) Military Construction (All)
- (3) Base Operating Support (All)
- (4) Real Property Management (All)
- (5) Base Communications (All)
- (6) Real Estate Management (All)
- (7) Environmental Activities (All)

### 1504 OVERSEAS COST REPORT SUBMISSION FORMATS

### 150401 Purpose

The formats provided on the following pages reflect guidance presented in previous sections of this chapter. Unless modified in a submission budget call, these formats should be adhered to.

1/ Funding data <u>must</u> be rounded to nearest tenth of a million. Because data from the "by country section" of this exhibit is consolidated, the totals included on the summary exhibit must equal the total of individual country exhibits when added together in tenth of millions.

 $\underline{2}$ / All OP-53 appropriation exhibits should be grouped together in the submission.

 $\underline{3}$ / Exclude this column for non-biennial budget submissions.

**Description of Operations Financed:** For each appropriation, provide an explanation of the operations/activities financed with the funding identified. The description should include an identification of major organizations and installations.

**Narrative Explanation of Changes:** For each appropriation, identify significant changes in programs to include functional transfers and force level changes between the CY and the BY1 and between the BY1 and the BY2.

1/For funding data, round data to nearest tenth of a million; rounded data must add to the rounded total.

2/ Provide funding and strength data by country by categories shown. For the Active components, funding categories equate to budget activities. For the Guard and Reserve Components, the above funding break should also be used to categorize military personnel costs. Applicable countries are listed on page 1 of exhibit OP-53. Excludes funding and end strength for personnel in country in a temporary duty or field duty status.

**Description of Operations Financed:** For each appropriation, provide an explanation of the operations/activities financed with the funding identified. The description should include an identification of major organizations and installations.

**Narrative Explanation of Changes:** For each appropriation, identify significant changes in programs to include functional transfers and force level changes between the CY and the BY1 and between the BY1 and the BY2.

1/ For funding data, round data to nearest tenth of a million; rounded data must add to the rounded total.

 $\underline{2}$ / Provide funding and strength data by country by categories shown above. Funding categories equate to budget activities. The Navy and Marine Corps resources for Family Housing operations should be treated as one appropriation. Applicable countries are listed on page 1 of exhibit OP-53.

Volume 2B, Chapter 16

## **CHAPTER 16**

INTELLIGENCE PROGRAM/ACTIVITIES

## **★**June 2000

## 1601 GENERAL

## 160101 Purpose

A. This chapter provides instructions applicable to budget formulation, implementation, and congressional justification for Intelligence Program Aggregations.

- B. The following Program Aggregations are covered in this Chapter:
  - National Foreign Intelligence Program (NFIP) Defense elements
  - Joint Military Intelligence Program (JMIP)
  - Tactical Intelligence and Related Activities (TIARA)

## 160102 Submission Requirements

General guidance with regard to submission requirements is presented in Chapter 1. Chapter 16 covers specific material requirements for the NFIP, JMIP and TIARA.

## 160103 Preparation of Material

General guidance with regard to format and preparation of material is presented in Chapter 1. Chapter 16 provides additional specific guidance with regard to the material required for the Intelligence Program Aggregations.

## 160104 References

The Office of the Director for Program Analysis and Evaluation maintains a listing of program elements (PEs) in the Future Years Defense Program (FYDP) making up certain intelligence programs. For details, please contact the POC for the FYDP Structure Management (FSM) system. The FSM system and its Web site are described in FMR Volume 2A, Section 010702.

## 160105 Definitions and Classification

General guidance with regard to classification of budget material is presented in Chapter 1. Chapter 16 provides additional specific guidance with regard to the material required for the Intelligence Program Aggregations.

## A. National Foreign Intelligence Program (NFIP).

The NFIP provides integrated intelligence that covers broad aspects of national policy and national security. The portion of the NFIP contained in the DoD Budget contributes substantially to meeting Defense intelligence requirements, but also contains programs/activities in support of elements of the US Government outside the DoD.

## B. Joint Military Intelligence Program (JMIP).

The JMIP funds joint, defense-wide activities and programs that provide intelligence information and support to multiple Defense components.

## C. Tactical Intelligence and Related Activities (TIARA).

TIARA encompasses those programs/activities outside the NFIP and JMIP that: 1) respond to operational commanders' tasking for time sensitive information on foreign entities; 2) respond to national intelligence community tasking of systems whose primary mission is support to operating forces; 3) train personnel for intelligence duties; 4) provide an intelligence reserve; or 5) are devoted to research and development of intelligence or related capabilities. Specifically excluded are *programs that* are so closely integrated with a weapon system that their primary function is to provide immediate-use targeting data. TIARA programs/activities are funded as part of normal Service budget development, and as a result are often embedded in larger force structure or weapon system budget lines.

## D. Intelligence Project and Project Code (PC)

1. The TIARA and JMIP Congressional Justification Books (CJBs) present program justifications for specific intelligence programs. Resources associated with each of the programs justified in the CJBs for TIARA and JMIP are maintained in the  $C^3$ ISR database by intelligence project with an associated project code. Components will provide data to OASD( $C^3$ I) at the Intelligence Project level of detail to maintain and update the  $C^3$ ISR database. Further guidance is in section 1605 and 1606.

guidance.

2. OASD(C<sup>3</sup>I) will distribute list of current Intelligence Project Codes with supplemental CJB

3. All requests to start, change, or terminate a project must be submitted to the OASD(C<sup>3</sup>I) Resource Management Office, Room 3D228 with appropriate justification.

*E.* <u>Classification</u>. Classification of US Intelligence budget information is determined by the Director of Central Intelligence (DCI) pursuant to Executive Order 12958, Section 1.5(c), Executive Order 12333, Section 1.5(g), and the DCI's authorities under the National Security Act of 1947.

1. NFIP Budget Resource Information in FYDP shall be classified as shown below unless other specific NFIP program guidance in effect requires higher classification.

a. Information which, standing alone or in aggregate, reveals any Program Element total of the funding or manpower requirements of any program in the NFIP will be classified SECRET.

b. Information that permits the disclosure of any Program Element total or the funding or manpower requirements of any program in the NFIP, for example, through a subtractive process, will be classified SECRET.

c. Information which, standing alone or in aggregate, reveals overall DoD Component funding or manpower levels of the NFIP or its programs will be classified SECRET.

d. However, as an exception to this guidance, budget information for NFIP family housing program elements in Major Program 8 for the National Security Agency and the Defense Intelligence Agency shall be maintained and presented as unclassified.

e. Whenever NFIP funding and manpower resource detail is combined with other unclassified programs in such a way as to effectively mask the NFIP resource Program Element total, such combined resource Program Element total may be treated as unclassified.

*e.* Requests for clarification of the foregoing classification guidance should be forwarded to OASD(C<sup>3</sup>I). Questions of application will be coordinated with the Intelligence Community Management Staff and responses will be disseminated to all interested DoD components.

- 2. Joint Military Intelligence Program information
  - a. Total funding for JMIP is SECRET.

b. Total funding for JMIP sub-programs and Program Elements may be classified or unclassified according to content, unless disclosure of such a total would allow derivation of classified totals.

- 3. Tactical Intelligence and Related Activities.
  - a. Total funding of this program aggregation is SECRET.

b. Individual Program Elements and line items may be classified or unclassified according to content, unless disclosure of such a total would allow derivation of classified totals.

## 1602 BUDGET ESTIMATES SUBMISSION

### 160201 Purpose

This Section provides guidance for presentation of annual budget estimates for the JMIP, TIARA, and Defense elements of the NFIP.

## 160202 NFIP Submission Requirements

A. The NFIP manpower and resource levels submitted in the budget for the Military Departments and Defense Agencies shall be identical to the manpower and resource levels included in BES FYDP and should be identified as Budget Subactivities 330-336 as shown in section 160202 C. Any PBDs other than 330 through 339 affecting elements of the NFIP must be coordinated with the Director for Construction. The Director for Construction will ensure that the Director for Central Intelligence Community Management Staff has an opportunity to review and provide comments on such PBDs. The approved resource levels will include all pay raises, inflation, and any other fact-of-life or miscellaneous adjustments.

B. When developing NFIP Military personnel cost estimates for the budget submission, the Components will apply the most current pay and PCS rates for military personnel consistent with DoD policy for manpower pricing. If applying the correct pricing causes the program to differ from fiscal guidance for that program, an undistributed wedge, either plus or minus, will be identified against program element 0305180D.

C. Data submitted by each Military Department and Defense Agency to OSD will be assembled and submitted in separate packages as follows:

- 1. Consolidated Cryptologic Program (CCP) BSA 330
- 2. General Defense Intelligence Program (GDIP) BSA 331
- 3. National Reconnaissance Program (NRP) BSA 333
- 4. Special Activities, Navy (SA/N) BSA 332
- 5. National, Selected, Federal Activities (NSFA) BSA 334
- 6. Foreign Counterintelligence Program (FCIP) BSA 335
- 7. National Imagery and Mapping Agency Program (NIMAP) BSA 336

D. Copies of NFIP budget materials prescribed by the Director of Central Intelligence (DCI) will be delivered by each Program Manager to the Under Secretary of Defense (Comptroller) (Program/Budget), Directorate for Construction, Room 3D841, Pentagon, concurrent with submission to the DCI. Copies should also be provided to the Director, Program Analysis and Evaluation, and the Assistant Secretary of Defense, Command and Control, Communications and Intelligence ASD (C<sup>3</sup>I). For the Consolidated Cryptologic Program, two copies should also be made available for OSD use at NSA Fort Meade. Copy requirements are identified in Section 010301.

### 160203 JMIP Submission Requirements

JMIP Programs/Activities are contained in budget materials developed in accordance with guidance contained in Chapters 1 through 7. Chapter 16 includes additional specific guidance with regard to the material required.

## **DoD Financial Management Regulation**

A. In order to maintain the C<sup>3</sup>ISR data base, each Military Department and Defense Agency contributing to the JMIP will *provide an automated submission of* BES data to the OASD(C<sup>3</sup>I) in intelligence project code (PC) detail simultaneously with their BES input to USD(C). Sections 1605 and 1606 provide specific data requirements and submission formats. In accordance with Section 1605, the OASD(C<sup>3</sup>I) will maintain this data and make it available to other elements of OSD/JCS as required.

B. Data submitted by each Component to OSD in support of JMIP program estimates will include all manpower and resource requirements consistent with the FYDP *and associated annexes*. *Data* will be assembled and submitted in separate packages as follows:

- 1. Defense Airborne Reconnaissance Program (DARP)
- 2. Defense Cryptologic Program (DCP)
- 3. Defense Imagery and Mapping Program (DIMAP)
- 4. Defense Intelligence Special Technology Program (DISTP)
- 5. Defense Intelligence Counterdrug Program (DICP)
- 6. Defense Intelligence Tactical Program (DITP)
- 7. Defense Space Reconnaissance Program (DSRP)
- 8. Defense Joint Counterintelligence Program (DJCIP)

C. Copies of supplementary JMIP budget materials will be delivered to the OASD(C<sup>3</sup>I/Resource Management Office, Room 3 D228, Pentagon and the Directorate for Construction, USD(Comptroller) (Program/Budget), Room 3D841, Pentagon.

## 160204 TIARA Submission Requirements

TIARA Programs/Activities are contained in Budget materials developed in accordance with guidance contained in Chapters 1 through 7. *Chapter 16 includes additional specific guidance with regard to the material required.* 

A. In order to maintain the  $C^3$ ISR database, each Military Department contributing to the TIARA program aggregation will provide an automated submission of BES data to the OASD( $C^3$ I) in intelligence project code (PC) detail simultaneously with their BES input to USD(C). Sections 1605 and 1606 provide specific data requirements and submission formats. In accordance with Section 1605, the OASD( $C^3$ I) will maintain this data and make it available to other elements of OSD/JCS as required.

B. Data submitted by each Component to OSD in support of TIARA program estimates will include all manpower and resource requirements consistent with the FYDP and associated annexes. Data will be assembled and submitted in separate packages as follows:

- 1. Army
- 2. Navy
- 3. Air Force
- 4. Marine Corps
- 5. SOCOM

C. Copies of supplementary TIARA budget materials will be delivered to the  $OASD(C^3I/Resource$ Management Office Room 3D228, Pentagon and the Directorate for Construction, USD(Comptroller) (Program/Budget), Room 3D841, Pentagon.

## 1603 CONGRESSIONAL JUSTIFICATION/PRESENTATION

### 160301 Purpose

This Section provides guidance for the organization of justification material for the National Foreign Intelligence Program, Joint Military Intelligence Program, and Tactical Intelligence and Related Activities. Services and Agencies must ensure that the final CJB/CBJB submission agrees with the supporting justification material that is submitted to the Congress.

## 160302 Organization of Justification Books

A. <u>National Foreign Intelligence Program (NFIP)</u>. Congressional Budget Justification Books will be prepared in accordance with instructions issued by the Director of Central Intelligence. Generally, justification material for the defense elements of the NFIP will be organized as follows:

"Consolidated Cryptologic Program"

"General Defense Intelligence Program"

"National Reconnaissance Program"

"Special Activities, Navy"

"National, Selected, Federal Activities"

"Foreign Counterintelligence Program"

"National Imagery and Mapping Agency Program"

B. <u>Joint Military Intelligence Program (JMIP)</u>. The Congressional Justification Book for JMIP will be prepared in accordance with supplemental instructions issued by the Assistant Secretary of Defense (C<sup>3</sup>I). It will consist of sections on each of the major sub-programs (Defense Cryptologic Program, Defense General Intelligence and Applications Program (Defense Airborne Reconnaissance Program, Defense Intelligence Counterdrug Program, Defense Intelligence Special Technologies Program, Defense Intelligence Tactical Program, and Defense Space Reconnaissance Program), Defense Imagery and Mapping Program, and Defense Joint Counterintelligence Program).

C. <u>Tactical Intelligence and Related Activities (TIARA)</u>. Congressional Justification Books for TIARA will be prepared in accordance with supplemental instructions issued by the Assistant Secretary of Defense (C<sup>3</sup>I). It will consist of separate chapters for each TIARA component, such as Army TIARA, Navy TIARA, Air Force TIARA, Marine Corps TIARA, and SOCOM TIARA.

D. A summary Volume of TIARA and JMIP will be prepared by  $OASD(C^{3}I)$ . Services and Agencies will provide input on major changes to their programs, which will be incorporated, into the Resource Summary.

E. Format and detailed instructions for Congressional Justification Book submissions are contained in Section 160602. Additional guidance and supplemental instructions will be issued by the Assistant Secretary of Defense (C<sup>3</sup>I).

## 160303 Classification and Submission of Justification Books

A. <u>Classification</u>. The justification books for Intelligence Program Aggregations will be prepared at *the appropriate* level of classification necessary to fully explain and justify the budget.

## **DoD Financial Management Regulation**

B. <u>Justification Book Preparation and Summarization</u>. Justification book preparation assignments for the Defense portions of the National Foreign Intelligence Program (NFIP) are as follows:

1. Consolidated Cryptologic Program – National Security Agency (NSA) with Department of the Army, Department of the Navy, and Department of the Air Force.

2. General Defense Intelligence Program (GDIP) – Defense Intelligence Agency (DIA) with Department of the Army, Department of the Navy, and Department of the Air Force.

3. National Reconnaissance Program – National Reconnaissance Organization (NRO)

4. Navy Special Activities – Navy

5. National, Selected, Federal Activities (NSFA) -- NSFA

6. Foreign Counterintelligence Program (FCIP) - OASD(C<sup>3</sup>I), with Army, Navy, Air Force, DTRA, DIA, and DSS.

7. National Imagery and Mapping Program - NIMA with Army, Navy, Marine Corps, and Air

C. Printing of Copies.

Force

1. <u>NFIP</u>. Number of copies required, printing specifications, distribution, and delivery of Justification books will be as specified by the Director of Central Intelligence.

2. <u>JMIP</u>. Number of copies required and printing specifications for Justification books will be in accordance with supplemental instructions issued by the Assistant Secretary of Defense ( $C^{3}I$ ).

3. <u>Tactical Intelligence and Related Activities</u>. Number of copies required and printing specifications for Justification books will be in accordance with supplemental instructions issued by the Assistant Secretary of Defense (C<sup>3</sup>I).

## 160304 Relationship of Intelligence Congressional Justification Books with Military Department and Defense Agency Justification Books

A. The NFIP justification books are developed in accordance with the direction and responsibilities assigned to the DCI by E.O. 12333.

B. TIARA and JMIP justification books are supplements to the material contained in Defense appropriation justification documents. They display budget information in a programmatic context and at a classification level that facilitates congressional oversight. The Services and Agencies will submit applicable exhibits required by other chapters in the FMR for TIARA and JMIP. The Components will also submit any exhibits required by OMB Circular A-11, Preparation and Submission of Budget Estimates.

C. A cross reference listing of R-1, P-1, C-1 line items will be incorporated into the NFIP, JMIP, and TIARA justification books to facilitate cross-referencing to the Defense appropriations.

D. Services and Defense Agencies identified in Sections 160203 and 160204 will provide an electronic file of Budget Line Items as required to maintain *the* Automated C<sup>3</sup>ISR data base to the OASD(C<sup>3</sup>I) to support development of the TIARA and JMIP Congressional Justification Books. This data should be submitted as soon as possible after the completion of Program Budget Decisions, but not later than submission of the President's Budget

FYDP update. Sections 1605 and 1606 provide specific data requirements and submission formats. The  $OASD(C^{3}I)$  will maintain this data and provide it to other elements of OSD/JCS as required.

E. To ensure consistency between the TIARA and JMIP justification book and Military Department and Defense Agency justification material, an advance copy of Component generated related budget exhibits (*RDT&E Descriptive Summaries and Procurement back up books* should be provided to the Office of the ASD(C<sup>3</sup>I) Resource Management Directorate, *Room 3D228, Pentagon* at the same time advance copies are provided to the OUSD(Comptroller) for review.

## 1604 APPEAL PROCESS ON CONGRESSIONAL ACTIONS

## 160401 Purpose

This Section provides specific guidance for preparation of classified appeals to congressional committees on intelligence programs.

## 160402 Classified Appeals.

A. Actions of Congressional committees documented in classified annexes relating to NFIP, JMIP or TIARA (such as by the Intelligence Committees) to reports or classified letters may be addressed in Classified Appeals prepared by the  $OASD(C^{3}I)$  and coordinated with the Community Management Staff of the Director of Central Intelligence. Classified Appeals may also supplement actions included in the overall Defense Appeal where security considerations have dictated a less than complete justification. Classified Appeals will be prepared at *the appropriate* level of classification necessary to fully explain and justify the action.

B. The Classified Appeal may be in the form of a letter, or in the form of an appeals package consisting of multiple items. In the latter case, appeal input will be submitted in the general format of PB-39-A1 or A2.

C. Classified Appeals will be completely consistent with the Secretary of Defense's policy direction as articulated by the USD(Comptroller). All such appeals will be coordinated with the Comptroller prior to release.

## **1605 AUTOMATION REQUIREMENTS**

## 160501 Purpose

This Section provides specific automation requirements guidance for submission of intelligence resources to OASD(C<sup>3</sup>I).

## 160502 Automated Command, Control, Communications, Intelligence, Surveillance and Reconnaissance (C<sup>3</sup>ISR) Database

A. Purpose and Objectives. The C<sup>3</sup>ISR database is the only complete, automated source of resource data for Command, Control, Communications, Intelligence and related activities for use by the Office of the Secretary of Defense and the Joint Staff. For a variety of reasons, the FYDP structure (and to a lesser extent Budget structure) is not capable of identifying fully C<sup>3</sup>ISR costs. As a result, the OASD(C<sup>3</sup>I) maintains a hybrid database that integrates both budget and program resource detail organized by program/project/activity and functional categories, among other things. Included are budget lines and Program Elements dedicated to C<sup>3</sup>ISR, as well as portions of similar data elements dedicated to other activities but which also include C<sup>3</sup>ISR funding. The C<sup>3</sup>ISR database is essential to the preparation of the Intelligence Justification Books required by Section 0104. It facilitates functional analyses for OSD and the Joint staff, and is fully compatible with the NFIP resource database used by the Director of Central Intelligence.

B. Applicability. The provisions of this section apply to the Office of the Secretary of Defense (OSD), the Military Departments, and the Defense Agencies (hereafter referred to as Components) that fund Command, Control, Communications, Intelligence and related activities.

C. Reporting Requirements. Updates are required coincident with submission of the (1) Program Objective Memorandum, (2) Budget Estimate Submission, and (3) President's Budget.

D. Related Databases. Data in the C<sup>3</sup>ISR database is fully consistent with data contained in the FYDP, R&D and Procurement Annexes, and Biennial Budget databases, and is electronically matched to relevant data in these databases prior to use.

E. Instructions –  $C^3$ ISR Data Update.

1. General. An electronic file of budget line items, sorted by *Intelligence Project Code*, Appropriation and Program Element will be submitted by Components to  $OASD(C^{3}I)$  via on line electronic data transfer or floppy disk as appropriate. Since this is an iterative process, each update will consist of *those Project Codes*, budget lines and Program Elements included in the previous update, plus any new data identified by either OASD(C<sup>3</sup>I) or Component as appropriate.

2. Technical. Data will be formatted as ASCII, tab delimited files (or if this is impracticable in a spreadsheet) and consist of the following elements:

a. Dollars: Intelligence Project Code (addressed in section 160105), Project Title, Resource Identification Code (RIC), RIC title, Component, budget activity; line item code (R&D project number or procurement line identification number) and title; Program Element and title, PY; CY; BY1 (and BY2 when appropriate); BY+1; BY+2; BY+3; and BY+4. (For President's Budget update only: provide R-1, P-1 and C-1 numbers for all RDT&E, Procurement and Construction resources. As stated in section 160304 (paragraph C), CJB includes cross-reference listing for which this data is required.)

b. Manpower: Intelligence Project Code (addressed in section 160105), Project Title, RIC, RIC title, ;; Component, Program Element and title; PY; CY; BY1 (and BY2 when appropriate); BY+1; BY+2; BY+3; and

BY+4. Manpower reported should be consistent with FYDP data: report military manpower by end strength, civilians by full time equivalents (FTE).

3. Changes: New data elements or changed titles/labels for data elements (e.g. line items, Program Elements, etc.) should be *identified* as part of the Update.

# Instructions for the TIARA/JMIP Congressional Justification Book (CJB)

# I. TIARA and JMIP CJB Organization.

OASD(C<sup>3</sup>I) will organize the chapters in each book as follows:

Program Justification - Description Table of Contents Introduction Foreword

- Program Change Summary
- Performance Characteristics
  - Management Oversight
    - Milestones/Schedule
- Contract Information
  - Program Funding
- Program Highlights **Resource Exhibits**

## II. Data Input Authority.

OASD(C<sup>3</sup>I) with appropriate justification. Service/JMIP representatives will address all substantive technical and resource issues with their OASD(C<sup>3</sup>I) Focal OASD(C<sup>3</sup>I) exercises final authority over all data input activity. All requests to start, change, or terminate a project must be submitted to the Points.

## III. Program Format Explanation.

TIARA or JMIP focal point or principal congressional witness must sign the Foreword. The Service, Agency, or program manager must provide a copy of this A. Foreword. The Foreword consists of a brief statement describing the goal(s) of the Service's, Agency's, or program manager's TIARA or JMIP activities. It also describes the objectives of the CJB submission, its organization, and its relationship to other books and program justifications. The senior signature in black ink on plain bond paper so that OASD(C<sup>3</sup>I) can scan it into the publishing system.

B. <u>Table of Contents</u>. OASD(C<sup>3</sup>I) will generate the Table of Contents. It will reflect the various sections, the appropriate page numbers, and individual projects. Instructions for the TIARA/JMIP Congressional Justification Book (CJB)

program. It should emphasize compliance with top level guidance documents (such as Joint Intelligence Guidance and the US Intelligence Strategic Plan) and avoid organizational and management 'boilerplate.' Program managers should orient the Introduction to the program and focus on the value added of their C. Introduction. The Introduction is a narrative that addresses trends, direction, accomplishments, and contributions of each TIARA or JMIP management activities.

## D. Program Justification.

1. Expiring programs require a Program Justification if funds were appropriated for the current year . Congress requires an explanation of how funds provided are being used (or not used). If current year funding is small, (less than \$1.0 million) program resources may be combined (and justified) with a programs with funding only in the prior year (for example, programs for which Congress eliminated funding). However, resources for these projects will be related program. Otherwise, provide a complete, but abbreviated version of the prior year's Program Justification. Do not submit justification narratives for included in the CJB Summary Resource Exhibits.

separate justification. Ongoing operational or production programs thoroughly explained in previous years need less justification. Instead, emphasize identifying 2. Distinguish between ongoing operational programs and those in development or early acquisition (i.e., prior to IOC), since each requires the program utility in relation to funds expended and the value of continued operation or production.

time and within cost must also be documented. This category includes new starts, pure technology projects, or systems in development that have not reached MS 3. Programs in development and early acquisition are more vulnerable to go/no go decisions. The requirements importance and urgency as well as the uniqueness and value of the capabilities being acquired must be highlighted. The ability of its acquisition management structure to bring the project in on III or equivalent status. As a result, include supplemental data for all development or production programs undergoing significant change. 4. Program Justifications will consist of the following elements: Description, Performance Characteristics, Management Oversight, Milestone or Customer Product, Contractor Information, Program Funding/Budget Track, and Program Highlights:

relationships to elements supported, and any other appropriate information. Begin descriptive bullets with action verbs, such as: "provides, performs, consists, or intended target(s), its role and mission, and its value to the operational commander. Descriptions should cover overall types of work performed, unit locations a. Description: Use bullet statements in headline-style prose that thoroughly describe the project/program/system, its employment, its maintains."

b. Program Change Summary: Address any realignment, transfer, program termination, reprogramming, congressional action, etc which caused major changes in funding in ALL appropriations from last year's congressional justification book submission consistent with the Volume 2 guidance for each appropriation title. This is to include those changes identified in the Program Change Summary of the RDT&E R-2 exhibit.

capacity, response time, target accuracy, resolution, limitations, type of data collected or processed, timeliness, as applicable. For non-system categories of effort, c. Performance Characteristics: Describe performance characteristics for system categories, such as: detection range, frequency coverage, such as force structure, other staff and training support, address the work performed at operational and tactical levels. d. Management Oversight: Enter bullets listing management points of contact by office (Functional, Acquisition, Service Staff, Program Management, Program Executive Office, Service/OSD sponsor, and operational command, as applicable) and location.) Do not include office symbols, individuals' names, or phone numbers.

series or equivalent for system categories. Note that milestones apply to all DoD system acquisition regardless of the acquisition category (ACAT). Organize the d. Milestones/Schedules: Use this module for systems only. Enter bullets for major milestones as described in the DoD Directive 5000 information in tabular format, with milestone abbreviation at the left and the date at the right, designated by fiscal quarter (e.g., 1QFY00). See appendix B for Defense acquisition Milestone Abbreviations. If Milestones/Schedules is not applicable, the project must have an entry for Customer Products. Program Highlights should not duplicate Milestones. 5. Customer Products: Use this module for non-system categories of effort such as force structure and other staff and training support. Describe specific equipment operated or products developed and for what customers. 6. List prime and major subcontractors' names and locations (city and state) under bullets titled 'Prime' and 'Subs' for system categories and 'Not applicable' for non-system categories.

7. Program Funding/Budget Track: As specified in Sections 0104 and 1603, a draft of the fiscal data (and any supporting budget documentation that are available such as RDT&E Descriptive Summaries and procurement exhibits) is required at the time of the Service/Agency/Program Manager submission, and final fiscal data when the President's Budget is locked. With the final fiscal data, provide a cross-reference for each RDT&E and Procurement budget line and its assigned R-1, P-1, or C-1 line item number.

The C4ISR Resource System (CRS) will produce and display a summary of all resources for each project. In accordance with FMR requirements (Section 1605), Service/Agency/Program Manager representatives are responsible for providing detailed resources for each Fiscal Year of the FDYP to update the C4ISR Resource System database for each Intelligence Project. For each TIARA or JMIP program (composite listing maintained by OASD(C<sup>3</sup>I) and distributed to OUSD(C) and DoD Components), provide data for all resource categories to include portions of budget lines if applicable ы. (partials):

- RDT&E

- Procurement (to include spares and programmed depot maintenance)

- 0&M

- Civilian, Military Active Component, Guard, and Reserve Pay

- Manpower

- Military Construction

- Defense Working Capital Fund

Provide resource footnotes for projects with related funding found in more than one CJB, such as JMIP, TIARA, or Information Technology (IT) Exhibits (e.g., "Refer to Shipboard Cryptologic Systems in the Department of Navy Chapter of the TIARA CJB for related resources."). b. Resource Display will reflect prior year, current year, budget year and remaining FYDP aggregated. Data provided for CRS should contain data for each individual year. The resources displayed in the CJB are at P-1/R-1 level of detail, however CRS is maintained at a lower level of detail.

## 8. Program Highlights:

As directed in Section 1603, intelligence program/activities congressional justification book data must agree with Component information provided to Congress in appropriation justification material.

includes only a portion of the resources described in a particular RDTE project or Procurement Budget Line Item, extract and/or modify the applicable highlights a. <u>Investment</u>: To ensure consistency, program highlights for RDT&E, and Procurement must duplicate the applicable highlights provided and cost data but ensure consistency and accuracy. (It is essential that Components provide advance copies of Investment Justification materials which support in the RDT&E Descriptive Summaries (R-2 and R-3) and Procurement back up books (P-5 cost information). In those cases where an intelligence project TIARA and JMIP programs to OASD(C<sup>3</sup>I) so that the consistency of program highlights can be verified. Reference section 160304E.)

b. Operations: For Operation & Maintenance and Military Personnel appropriations, thoroughly describe by fiscal year, service and appropriation, the activities and plans for the funds requested in the prior year, current year, and budget years. The following guidance must be followed:

- 1. Key narratives to resource levels shown, not to a desired program.
- 2. Do not repeat milestones; describe how funds will be used to achieve milestones.
- 3. Use past tense for prior and current year highlights; use future tense for budget years and beyond.

## CHAPTER 17

**June 2000** 

## **CONTINGENCY OPERATIONS**

## 1701 GENERAL

### 170101 Purpose

This chapter provides instructions applicable to budget formulation and congressional justification for contingency operations. The information provided for contingency operations, as reflected in this chapter, meets the requirements of section 8110 of P.L. 106-79, the DoD Appropriations Act, 2000. It requires the Department to include the same type of budget justification material for contingency operations as is provided for other DoD activities.

## 170102 Submission Requirements

A. This chapter addresses the requirement to budget for new and ongoing contingency operations costs. This information will be used to justify resource requirements for directed contingency operations – specifically the justification of the incremental costs for supporting a designated operation. These incremental costs will become the basis for any funding requests forwarded to the Congress through the normal appropriations process or through emergency supplemental appropriation requests during the year of execution, if warranted. A more detailed discussion of Contingency Operations, as well as the methodology to be used to determine related "incremental costs," is provided in Chapter 23, "Contingency Operations," of Volume 12 of the DoD Financial Management Regulation (DoD 7000.14-R).

B. In order to ensure that the funding being requested is defensible and realistic and that the submitted data and justification material complies with congressional requirements, each Component is required to submit the contingency operations budget exhibits using the formats included in section 1703 of this chapter. These exhibits provide detailed cost estimates and must be completed for <u>each</u> contingency operation. In addition, using the same formats, each Component must submit a Summary Exhibit for <u>each</u> region (e.g., Bosnia, Kosovo,) and a Total Summary Exhibit that consolidates all of the Component's incremental requirements for contingency operations. Each Component will include in its submission the incremental costs for contingency operations for all intelligence-related activities (i.e., TIARA, JMIP, etc.) <u>except</u> for the incremental costs for National Foreign Intelligence Programs (NFIP). The Community Management Staff (CMS) will be responsible for preparing and submitting the required exhibits to report the incremental costs for contingency operations.

C. The required exhibits are to be provided in both hard copy and electronic copy via diskette or e-mail (using Microsoft word for the OP-5 exhibits and Excel spreadsheets for the CONOPS-1 exhibits) to the Operations and Personnel Directorate, Pentagon, Room 3D868. Specific e-mail addresses can be obtained by calling (703) 697-9317, x13.

D. General guidance with regard to submission requirements is presented in Chapter 1. Chapter 17 covers specific backup material required for the overseas contingency operations. The Components should also consult all of the other chapters for exhibit requirements that are not specifically addressed in this chapter including Chapter 19 – Other Special Analysis.

## 170103 Preparation of Material

General guidance with regard to format and preparation of material is presented in Chapter 1. Section 1703 provides the justification material formats.

## 170104 References

Chapter 23, "Contingency Operations," of Volume 12 of <u>the DoD Financial Management Regulation</u> (DoD 7000.14-R).

## 1702 BUDGET ESTIMATES SUBMISSION & CONGRESSIONAL JUSTIFICATION/ PRESENTATION

## 170201 Purpose

This Section provides guidance for preparation and submission of budget estimates for Contingency Operations. The budget estimates will separately identify the incremental costs for operation and maintenance, military personnel, and other applicable (e. g., procurement) resources required to support specified contingency operations. For the President's Budget request submitted to the Congress, all approved contingency operations incremental cost requirements will be reflected in the Overseas Contingency Operations Transfer Fund (OCOTF), and the level of detail provided must address the congressional concerns for adequate visibility and justification of requirements.

## 170202 Submission Requirements

A. Each applicable Component is responsible for submitting the Contingency Operations exhibits covering the operation and maintenance, military personnel, and other applicable (e. g., procurement) incremental costs for <u>each</u> specified contingency operation, a "Summary" exhibit for each region (e.g., Bosnia, Kosovo) and a "Total Summary", exhibit" that consolidates all the Component's incremental requirements for contingency operations. The formats for these exhibits are provided at section 170302. Hard copy and electronic versions of each exhibit must be provided to Office of the USD(C) P/B Operations and Personnel Directorate, Room 3D868 in the Pentagon. Electronic formats will be provided in Microsoft Word for the OP-5 exhibit and in Microsoft Excel for the CONOPS-1 exhibit.

B. These exhibits will be prepared and submitted to the Office of the Under Secretary of Defense (Comptroller) (USD(C)) in accordance with the schedule defined in the annual budget guidance memorandum published by the USD(C) for the fall budget estimates submission (BES) and for the President's Budget (PB) submission. Each exhibit will be prepared separately for the BES and the congressional justification/presentation process.

## Financial Management Regulation

## 1703 CONTINGENCY OPERATIONS SUBMISSION FORMATS

## 170301 Purpose

The formats provided on the following pages reflect the guidance presented in sections 1701 and 1702 of this chapter. Unless modified by the OUSD(C) in a budget guidance memorandum, the formats must be followed.

## CHAPTER 18

**June 2000** 

## INFORMATION TECHNOLOGY & NATIONAL SECURITY SYSTEMS

01801 GENERAL

## 180101 PURPOSE

1. This chapter provides instructions applicable to supporting budgetary material and congressional justification for Information Technology (IT) and National Security systems (NSS) and programs.

2. These instructions apply to the Office of the Secretary of Defense (OSD), the Military Departments (including their National Guard and reserve components), the Joint Staff, Unified Commands, the Inspector General DoD, the Defense Agencies, the DoD Field Activities, the Joint Service Schools, the Defense Health Program, and the Court of Military Appeals. All DoD appropriation accounts and funds are encompassed with the exception of non-appropriated funds (NAF).

3. All Defense Components that have any resource obligations supporting Information Technology (IT)/National Security Systems (NSS) in any fiscal year will report an Information Technology/National Security System Overview and data to prepare the IT/NSS inputs to OMB exhibits, budget analyses, and Congressional displays. Military Departments will prepare separate overviews, as will DISA, DLA, DFAS, DHRA, OSD and WHS. Other Defense Agencies and Activities will provide information that will be incorporated into a comprehensive Defense Wide overview. All Components with resource obligations for major initiatives and special interest initiatives/acquisitions as designated by the ASD(C3I) or other milestone decision authority (MDA) will report information to support Part I of the Capital Investment Exhibit, referred to as the IT(300b). Components that serve as the executive or principal funding agent in the major systems and initiatives/acquisitions will report all sections of the IT(300b).

### 180102 Submission Requirements

General guidance for submission requirements is presented in Chapter 1. However, this chapter covers specific distribution instructions for the Information Technology and National Security systems and Programs. All applicable exhibits and automated data base updates/formats will be submitted for both the OSD Budget Estimates Submission (BES) and the congressional justification submission or President's Budget (PB). Chapter 18 covers IT submissions, as in the past, and incorporates Command & Control (C2), Communications and related programs, Combat ID, Information Assurance (including Information Systems Security), meteorological and navigation systems/programs. National Foreign Intelligence Programs are submitted via separate mechanisms.

## 180103 PREPARATION OF MATERIAL

The Office of the Assistant Secretary of Defense for Command, Control, Communications and Intelligence (C31) prepares General guidance with regard to the preparation of budget and justification material is presented in Chapter 1 of the FMR, including those depicted in Section 010505, Automated C<sup>3</sup>ISR Requirements. This section covers specified formats and material reporting requirements for the Information Technology/National Security systems and intelligence justification materials as described in Chapter 16 of Volume 2 of the FMR. The Director, Information Assurance, OASD (C31) and the National Security Agency (NSA), OASD(C31) prepare a single Defense Information System Security Program (ISSP) Congressional Justification Book. The Defense Information Assurance efforts of DoD. The DIAP staff prepares this additional IA information using the IT/NSS CJB and data submissions.

## 180105 Definitions

Chapter 1 provides policies and definitions regarding the application of expenses and investment criteria for budgetary purposes. The Office of Management and Budget Circular A-11 uses the term Information Technology (IT) Resources to describe a category of resources covered by the Public Law 104-106 (Clinger-Cohen Act of 1996). The Clinger-Cohen Act also defines National Security Systems (NSS). Information Technology/Defense Information Infrastructure, Information Assurance, and Global Information Grid definitions are maintained at <a href="http://www.c3i.osd.mil/org/pe/rmd/infotech/index.html">http://www.c3i.osd.mil/org/pe/rmd/infotech/index.html</a> web page.

The Chief Information Officer (CIO) uses the terms Global Information Grid (GIG). The GIG supports all DoD missions with information technology for national security systems, joint operations, Joint Task Force, Combined Task Force commands, and DoD Business operations that offer the most effective and efficient information handling capabilities available, consistent with National Military Strategy, operational requirements and best value enterprise level business practices. The GIG is based on a common, or enterprise level, communications and computing architecture to provide a full range of information services at all major security classifications. All applications shall be planned, designed, and implemented to use common GIG assets. Commercial Off-the-Shelf applications shall be in compliance with the GIG Architecture. Based on the GIG construct, communications and computing infrastructure capabilities will be separated from the global mission applications and the information assurance and related technical activities in the presentation of systems, programs and initiatives throughout the acquisition process and in the development/presentation of the IT/NSS exhibits:

## 1. Budget Initiative Number (BIN)- see Initiative Number. BIN is a term used by the Information Technology Registration System directed by FY 2000 Appropriation Act, Section 8120.

2. Communications and Computing Infrastructure (C&CI). Reportable category of C&CI provides the information processing (computing) and transport services (communications) and infrastructure management services used by functional applications. These DoD common services are communications applications such as voice, data transfer (including electronic commerce and business interfaces), video teleconferencing, and messaging. Within the C&CI category, there is a further division by operational areas and designated special interest programs.

- 3. Communications. Communications capabilities elements include fixed plant, sustaining base infrastructure in the US and selected overseas locations; long haul transmissions via Defense-owned or leased terrestrial facilities; deployable transmissions via satellite or other radio systems; and mobile, tactical transmission systems that allow war fighters to exchange information while on the move wherever they might be located.
- 4. Command and Control (C<sup>2</sup>). The facilities, systems, manpower essential to a commander for planning, directing, coordinating and controlling operations of assigned forces. C<sup>2</sup> capabilities cover the National Command Authority, through the joint/tactical operations echelon and down to front line tactical elements.
- 5. Computing Infrastructure. Program Function/Area of Communications and Computing Infrastructure (C&CI). Automated information processing operations reported in this section generally perform one or more of the following functions: processing associated with agency-approved automated information systems; time-sharing services; centralized office automation; records management services; or network management support. Staff associated with the operations here includes computer operators, computer system programmers, telecommunications specialists, helpdesk personnel, and administrative support personnel.
- 6. Current Services (CS). Current Services represents the cost of operations at a current capability and performance level of the application, infrastructure program and/or initiative when the budget is submitted. That is, what the cost would be if nothing changes from the baseline other than fact-of-life reductions, termination's or replacement systems becoming operational. Current Services include: (1) Those personnel whose duties relate to the general management and operations of information technology, *including certain overhead costs associated with PM offices* (2) maintenance of existing application, infrastructure program or initiative, (3) corrective software maintenance which includes all efforts to diagnose and correct actual errors (i.e., processing or performance errors) in a system (4) maintenance of existing voice and data communications capabilities, (5) replacement of broken IT equipment needed to continue operations at the current service level, and (6) all other related costs not identified as Development/Modernization.
- 7. Data Administration. Program Area of Related Technical Activities. Activities reported in this area include: Data sharing and data standardization. Component data administration programs are defined in the Data Administration Strategic Plans.
- 8. Development/Modernization (Dev/Mod). Any change or modification to an existing IS, program, and/or initiative that results in improved capability or performance of the baseline activity. Improved capability or performance achieved, as a by-product of the replacement of broken IT equipment to continue operations at the current service levels is not categorized as Development/Modernization. Development/Modernization includes: (1) program costs for new applications and infrastructure capabilities that are planned or under development; (2) any change or modification to an existing applications and infrastructure capabilities which is intended to result in improved capability or performance of the activity. These changes include (a) all modifications to existing operational software (other than corrective software maintenance); (b) acquiring technologically newer IT equipment to replace outdated IT equipment regardless of the age of the equipment or its commercial availability; and (c) expansion of existing capabilities to new users; (3) changes mandated by Congress or the Office of the Secretary of Defense; (4) personnel directly involved with Development/Modernization activities.
- 9. Financial Management Systems: Applications or portions of applications that are necessary to process or support financial management activities. These collect, process, maintain, transmit, report data about financial events or supporting financial planning or budgeting activities. Systems may also accumulate or report cost information and support the preparation of financial transactions or financial statements. Systems track financial events and provide financial information significant to the financial management of the agency. OMB requires reporting of financial systems that obligate/cost more than \$.500M in any fiscal year and further designates them a major system for purposes of related reporting requirements, such as the IT 300b.
- 10. Global/Functional Area Applications (G/FAA). Also referred to as Global Applications. Reportable category of functional area applications, are associated with all DoD mission areas—C2, Intelligence and combat

support, combat service support areas, and the DoD business areas. They rely upon the network, Computing and Communication management services including information processing, common services, and transport capabilities of the Communications and Computing Infrastructure. Related technical activities provide the architectures, standards, interoperability, and information assurance that these systems require to operate effectively as part of the Defense Information Infrastructure. Although an application/system may serve more than one function, it is generally classified according to its predominate function across the department. Within the Functional Application category, there is a further division into Functional Areas that equate to principal staff functions and activities.

- 11. Information Assurance (IA). As of the FY 2002 Budget, this is a major reportable category of the GIG/IT/DII; it is no longer presented as a part of the Communications and Computing Infrastructure. Efforts include all efforts that protect and defend information and information systems by ensuring their availability, integrity, authentication, confidentiality, and non-repudiation. These efforts include providing for the restoration of information systems by incorporating protection, detection, and reaction capabilities. As such IA is broader in scope than information systems security and reflects the realities of assuring the timely availability of accurate information and the reliable operation of DoD information systems in increasingly globally inter networked information environments. For Major systems, Components must report the percentage of resources supporting IA activities.
- 12. Information System (IS). A combination of elements that will function together to produce the capabilities required to fulfill a mission need, including functional user, computer hardware and computer software, data and/or telecommunications links, personnel, procedures that are designed, built, operated, and maintained to perform the functions such as collecting, recording, processing, storing, retrieving, transmitting, and displaying information. To execute information systems, DoD must support both the software application, the supporting communications and computing infrastructure and the necessary architectures and information security activities.
- 13. Information Technology Resources. The Information Technology (IT) Resources that must be reported under this chapter are defined by OMB Circular A-11 and described by Clinger-Cohen Act of 1996, P.L.104-106. In particular, Information Technology means any equipment or interconnected system or subsystem of equipment that is used in the automatic acquisition, storage, manipulation, management, movement, control, display, switching, interchange, transmission, or reception of data or information. It includes computers, ancillary equipment, software, firmware and similar procedures, services, and related resources whether performed by inhouse, by contractor, by other intra-agency, or intergovernmental agency resources/personnel. Both system and non-system IT resources including base level units (communications, engineering, maintenance, and installation) and management staffs at all levels are included in IT reporting.
- 14. Initiative Number (IN). (Also referred to as the Resource Identification Number for IT Initiatives or Budget Initiative Number (BIN). A four to eight digit initiative number is assigned to initiatives, programs and systems that are reported in the IT budget. To register a new initiative or program not previously reported in the IT exhibits and not yet assigned a number, components access the on line registration capability of the Information Technology Budget application at <u>http://www.c3i.osd.mil/org/pe/rmd/infotech/index.html</u>. Initiative numbers are associated with the name, functional area/C&CI category; system grouping;; and other pertinent management information. The current and archived lists of IN's is maintained on the C3I WEB page.
- 15. Life-Cycle Cost (LCC). The total cost to the government for an IS, *weapon system*, program and/or initiative over its full life. It includes the cost of requirements analyses, design, development, training, acquisition and/or lease, operations, support and, where applicable, disposal. It encompasses both contract and in-house costs, all cost categories and all related appropriations/funds. The costs may be broken down into useable increments describing the costs associated with delivering a certain capability or segment of an IT activity.
- 16. Major Category. An application, infrastructure program, initiative or information system is categorized as major if: (1) has anticipated or actual program costs, computed in FY 2000 constant dollars, in excess of \$120 million; or (2) has estimated program costs, computed in FY 2000 constant dollars, in excess of \$30 million

dollars in any single year; or (3) has estimated life-cycle costs, computed in FY 2000 constant dollars, in excess of \$360 million; or (4) is designated by the DoD milestone decision authority (MDA) based on special interest assessments. All systems, programs, acquisitions and initiatives designated major will be reported. Regardless of actual investment by an individual submitting activity, all funding for major category IT activities will be reported by all Components in the Major category in the IT exhibit. All Components with resource obligations for major initiatives and special interest initiatives/acquisitions as designated by the ASD(C3I) or other milestone decision authority (MDA) will report information to support Part I of the Capital Investment Exhibit, referred to as the IT/NSS(300b). Components that serve as the executive or principal funding agent in the major systems and initiatives/acquisitions will report all sections of the IT/NSS(300b). All financial systems are categorized as major initiatives by OMB.

- 17. National Security Systems (NSS). Any telecommunications or information system operated by the United States Government, the function, operation, or use of which--involves intelligence activities; involves cryptologic activities related to national security; involves command and control of military forces; involves equipment that is an integral part of a weapon or weapons system; or is critical to the direct fulfillment of military or intelligence missions (but does not include a system that is to be used for routine administrative and business applications (including payroll, finance, logistics, and personnel management applications).
- 18. Significant Category (Formerly referred to as Non-Major Category) For the purposes of IT budget reporting a significant initiative is one that does not meet the criteria for a major system yet has a total of \$2 million (to include both Development/Modernization and Current Services) obligations (costs) in any Fiscal Year across the Future Years Defense Program (FYDP). Per OMB guidance, financial systems are categorized significant at the \$.500 Million level, significantly lower than other functional applications or infrastructure programs. A submitting component may have to request an initiative be designated significant even if funding is below these thresholds in order to comply with 70% visibility guidance from OMB.
- 19. Obligations/Cost. For the purpose of IT budget reporting, obligations are the amount an agency has committed to spend on information technology in a given fiscal year. For the DWCF, cost applies wherever "obligations" is used in this guidance.
- 20. Office Automation. (also referred to as "Desktop Processing") Facilities that support file servers, or desktop computers, and that support administrative processing (i.e. word processing, spreadsheets, etc) rather than application processing, should be reported as Office Automation (listed as a separate function).
- **21. Other Category.** (Also referred to as Small or "All Other") For those "Development/Modernization" and/or "Current Services" costs/obligations as well as initiatives not designated in the major and non-major categories. "Other" category initiatives are aligned by the applicable GIG/IT/DII Reporting Structure-functional/mission area (see Section 180106).
- 22. Program Cost (also referred to as Initiative Cost). The total of all expenditures, in any appropriation and fund, directly related to the IS, program, or initiative definition, design, development, and deployment, and incurred from the beginning of the "Concept Exploration" phase through deployment at each separate site. For incremental and evolutionary program strategies, program cost includes all funded increments. Program cost is further defined in DoD 5000 documents.
- 23. Related Technical Activities (RTAs). Related Technical Activities service the global/functional applications, C&CI and IA. While these activities do not directly provide functional applications, data processing, or connectivity, they are required to ensure that the infrastructure functions as an integrated whole and meets DoD mission requirements. RTAs include spectrum management, development of architectures, facilitation of interoperability, and technical integration activities. RTAs could be considered as "overhead" services that are necessary to the GIG/DII. See Section 180106 for GIG/IT/DII Structure Table. Within the RTA category there is a further division into limited Program Areas.

### **DoD Financial Management Regulation**

- 24. Special Interest Communications Programs. Program Area of the IT/DII Communications and Computing Infrastructure (C&CI) division. Programs of special interest that should be reported here are Electronic Commerce/Electronic Data Interchange, Distance Learning Systems. The resource category "Other" may not be used with this program area.
- 25. Technical Activities. Program Area of Related Technical activities. This refers to activities that deal with testing, engineering, architectures and inter-operability.

### 180106 Reporting Structure

All information technology resources will be associated with at least one Information Technology/Defense Information Infrastructure (IT/DII) Reporting categories. Initiatives are also reported by appropriation details and by major, significant, and other categories. The Information Technology Management Application records these business rules. Initiatives that cross more than one functional area, C&CI, RTA, or IA area may need to be broken down by those areas and registered in the Master Initiative (BIN) List maintained by OASD(C3I). For the most part, the reporting area is based on the preponderance of the mission concept. During the Program Review FY02-07, OASD(C3I) will conduct analyses that further refine and categorize the activities below, these changes will be applied in appropriate guidance and call letters.

### Information Technology/Defense Information Infrastructure (IT/DII) Reporting Structure

Information Assurance Activities are subdivided into Defense in Depth Categories and activities.

• Numbered or Lettered levels indicate the minimum reporting level in the IT-1 or NSS Annex.

### 1802 BUDGET ESTIMATES SUBMISSION

### 180201 Purpose

This section provides guidance for preparation and submission of budget estimates for the Information Technology and National Security Systems and Program resources to the OASD(C3I)/OSD and for the preliminary updates to Office of Management and Budget resource exhibits in September and January. Resources reported in the IT/NSS submission will be consistent with and tracked to other primary appropriation justification and FYDP submissions. Supplemental guidance will be issued, if required, to update reporting requirements directed by Chief Information Officer (CIO), congressional or Office of Management and Budget (OMB) A-11 guidance. Timelines for updates will be provided through the Information Technology Budget Web page maintained at <u>http://www.c3i.osd.mil/org/pe/rmd/infotech/index.html</u> and as designated in the budget call memo. Technical requirements and templates are recorded at the Web page and through the application.

### **180202** Submission Requirements

A. The following exhibits, for which specified formats and detailed submission formats are provided in Section 180402, are required. Automated submission is required.

| IT/NSS OV           | IT/NSS Investment Portfolio Assessment                                                                                                                                                                           |

B. Distribution of the OSD budget estimates material will be made in accordance with the guidance contained in Chapter 1, primarily electronic. *Separate* instructions will be provided for the automated submission of the exhibits identified above.

C. IT/NSS OV, Information Technology Investment Portfolio Assessment Overview is prepared by the Military Departments, Defense Agencies and Activities. Remaining components will provide input that will be incorporated into an integrated Defense Wide overview. Specific requirements are discussed in Section 180402. The overview will provide justification of the component's IT/NSS Investment portfolio and priorities. Information provided must be consistent with overall budget justification materials prepared by the Component. A special Information Assurance Section or Annex will be required to assist in preparations for the ISSP and DIAP IA justification materials provided separately to Congress, and must be consistent with ISSP justification and financial reporting. Requirements for this annex will be refined during the Program Review FY 02-07 cycle.

D. IT-1, Information Technology/National Security System Resources by Functional or Program Area/Mission and Category, resources are reported using the GIG/ IT/DII Reporting Structure that is divided into three primary divisions or resource areas: Global or Functional Area Applications (Global/Func Appl); Communications and Computing Infrastructure (C&CI); Related Technical Activities (RTAs) and Information Assurance (IA).. Functional Area Applications are further divided into Functional Areas. For C&CI RTA, and IA, these are grouped into Program Functional Activities. Exhibit IT/NSS-1 must be prepared using these categorization requirements *and by budget line item* /appropriation/fund source and submitted electronically using the IT Budget automation. This electronic submission is based on the IT master system list that identifies and groups the separate systems, program, or initiatives by primary functional/mission areas as identified on the page *at* 

### **DoD Financial Management Regulation**

<u>http://www.c3i.osd.mil/org/pe/rmd/infotech/index.html</u>. IT/NSS-1 will record the appropriate initiative number and title registered in the IT budget automation master tables. Software and additional guidance are at the OASD(C3I) designated Information Technology Budget Web page *at* <u>http://www.c3i.osd.mil/org/pe/rmd/infotech/index.html</u> and as discussed in budget call memorandum.

E. IT-300b, Capital Investment Exhibit, requirements are defined in OMB's A-11, part 3, Capital Asset Plan and Justification. Section 1804, IT Program Submission formats, addresses the DoD requirements for this reporting. Software and additional guidance are at the OASD(C3I) designated Information Technology Budget Web page *at* <u>http://www.c3i.osd.mil/org/pe/rmd/infotech/index.html</u> and as discussed in budget call memorandum.

F. Additional reporting requirements will be identified in the call memorandum, as necessary. Additional management and supporting data may be designated by the Chief Information Officer (CIO) to support detailed justification requirements.

- G. The following IT resources are generally exempted from IT reporting:
- Acquired by a Federal Contractor which are incidental to the performance of a Federal Contract;
- Programs, Projects, and activities embedded in non-C2/Comm weapon system or embedded in Service force structure <u>and, therefore, are not readily identifiable in the budget</u>. Final definition resides with OASD(C3I) to determine the reporting of C3 activities. C2 and Communications systems will be reported to Congress in a separate NSS annex, and also recorded in the C3ISR Resource Data Base.
- Highly sensitive and special access programs and whose resources are specifically exempted from budget reporting by the ASD(C31) and other OSD authorities. In general, these resources are reviewed through the separate or Intelligence budget processes.

### 180203 Arrangement of Backup Exhibits

Exhibits will be assembled by the application in the sequence shown in Section 180202, as applicable. Submissions will include appropriate summary and exhibit indices (e.g. Exhibits IT-1 and IT-300b).

### 1803 CONGRESSIONAL JUSTIFICATION/PRESENTATION

### 180301 Purpose

This section provides guidance for the organization of justification material for the Information Technology *and National Security systems and programs* submitted in support of the President's budget. The Department will submit a final, consolidated report to OMB and Congress.

### **180302** Justification Book Preparation

Justification Books will be prepared in the same manner as specified in Section 1802. In addition, the justification books submitted to Congress are to be unclassified or declassified.

### **180303 Submission Requirements**

Submission requirements are as specified in Section 180202 except as noted below:

A. For President's Budget Congressional Justification Materials: Intelligence IT resources funded via NFIP and special access programs continue to be exempted from IT/NSS Congressional Justification books. C2 and Communications systems will be separated and displayed in a National Security Systems Annex.

B. Advance transmissions are required to be reviewed and approved by the Office of the Assistant Secretary of Defense (Command, Control, Communications, and Intelligence) (OASD(C3I)) prior to the DoD Component's official submission and production.

### 180304 Input for Summary Information Technology Justification Books

A. General. All exhibit data shall be submitted in automated form. The OASD(C3I) is responsible for providing the DoD Information Technology summary tables of the IT and NSS data in accordance with prior congressional direction and Section 1804 of this Chapter. The Information Technology Management Application will generate the President's Budget reporting package once the IT Overview and 300b documents have been sent electronically to the OASD(C3I) Director of Resource Management: The package will then include correct headers, a cover page, a table of contents, overview and appendices; IT-1 Index, report and NSS annex and appendix and the Capital Investment reports. These will generate a single, integrated submission in Microsoft Word format that they may be used for internal coordination. To accomplish this requirement, electronic formats will be used by the Defense Components to generate their submission. The OASD(C3I) will maintain the electronically submitted IT/NSS Budget database. Other specific guidance for the IT budget materials will be provided as required.

B. Distribution of the final justification material in hardcopy and CD ROM will be made to Congress, the Office of Management and Budget (OMB). CD ROM will be provided to the Government Accounting Office (GAO) and the DoD Inspector General.

- OASD(C3I) will provide draft versions for OMB review. Submissions will then be sent to Congressional committees. Services will send the draft versions through final Security Review IAW Comptroller instructions and provide a copy of the appropriate release form to OASD(C3I) Director of Resource Management.
- OASD(C3I) will consolidate the electronic submissions from the Defense Components to prepare integrated and individual portfolio overviews, summary information and graphics. After OMB review, OASD(C3I) will distribute to OMB, Congress (House National Security Appropriations Subcommittee (2 copies), Senate Defense Appropriations Subcommittee (2 copies), House National Security Committee (2 copies), Senate Armed Services Committee (2 copies).

### **DoD Financial Management Regulation**

• Once the justification books have been released to the Congress and the OMB, the data will be available on the C3I web page and via CD ROM distribution made in accordance with the format, table and media guidance (Justification Material Supporting the President's Budget Request) in Volume 2, Chapter 1.

### 1804 INFORMATION TECHNOLOGY PROGRAM SUBMISSION FORMATS

### 180401 Purpose

Electronic formats and submission requirements are provided through the OASD(C3I) designated Information Technology Budget Web page *at* <u>http://www.c3i.osd.mil/org/pe/rmd/infotech/index.html</u> and they reflect guidance presented in previous sections of this chapter. Unless modified in a subsequent budget call, Components should use the formats in this chapter. Components will not use embedded or linked spreadsheets in word documents, unless the source spreadsheets are provided along with the Word documents. Each document should be a separate entity, the application will integrate the documents as required.

### (Name of DoD Component) Information Technology Portfolio Assessment and Overview (Appropriate Submission Heading)

1. <u>Purpose</u>. Provide a justification of each Component's Information Technology/National Security Systems resources.

2. <u>Submission</u>. An Information Technology Portfolio Assessment Overview (IT PAO) is required from all Defense Components who have any IT/NSS obligations/costs in any single PY, CY, BY-1, and/or BY-2 for information technology activities. The information will be submitted electronically as indicated in technical guidance on the C3I web page. Hard copy and electronic data views will be *landscape oriented*. Submission Heading will follow the terminology required in the budget call memorandum. Additional reporting and formatting requirements will be identified in the call memorandum, as necessary.

Entries. IT PAO- also referred to as the IT OV or overview. This entry provides a narrative of the 3. component's information technology investment portfolio. Electronic formats, previous submissions are available on the Information Technology Budget Web at <u>http://www.c3i.osd.mil/org/pe/rmd/infotech/index.html</u>. The MILDEPS and selected Defense components listed in Section 180101 (2) will provide standalone overviews. Military Department and selected Defense Agencies and Activities (DISA, DLA, DFAS, DHRA, OSD and WHS) will submit separate overviews, Other agencies and activities will submit abbreviated overview information that will be included in an overall Defense Wide Overview. Remaining components will provide input that will be incorporated into a Defense Wide discussion. Components will provide justification of the IT/NSS investment portfolio in support of the DoD IT strategic plan and Joint Vision 2020 context; description of the investment in and the use of IT/NSS supporting your Component's mission; and address the priorities of the portfolio as well as the prioritization process. A discussion of the projected and actual accomplishments of major and significant investments and/or acquisition activities by functional/mission areas (include mission performance measures) will including any terminations, new starts, consolidations, and functional transfers. For each Major Initiative the Executive Agent or principal funding activity will include a summary discussing any milestone, budget, reprogramming, or acquisition decision or change from the last budget submission.

Components will summarize increases, decreases in current resources (by appropriation/fund) from the prior baseline budget submitted to Congress and justify the changes without references to internal documents or unique terminology. The baseline will also identify, in simple table format, the previous submission's appropriated funds by fiscal year, the current submission's appropriated funds, the total difference and a brief explanatory audit trail of the differences (e.g. transfers to and from the component, major changes in funding, congressional reductions, system increases, decreases, or terminations) within and between Fiscal Years. A similar section should be included for other than appropriated fund resources (Defense Working Capital Fund, other industrial funds, or resources from other Federal Agencies). Component's IT activities need to provide information to clearly describe funding changes from the prior year baseline and prior submission baselines, including any changes within the fiscal years. Administrative changes such as additions of initiatives related to the IT-1 or the IT-300b exhibit section (e.g., deleting major IS's from reporting) will be explained in the management section. All acronyms must be completely identified. The management section will also identify any system, program or initiative additions, consolidations, deletions, and name modifications from the prior year congressional justification baseline. All information documented in the IT Overview must be consistent with other justification materials submitted to Comptroller and Congress. The information must be internally consistent within the supporting exhibits (IT OV, IT-1 and IT(300b). If the component has not provided complete budget tracking information within the electronic application, an Appendix A will have to be provided.

<u>A special Information Assurance Section or Annex will be required to assist in preparations for the ISSP and</u> <u>DIAP IA justification materials provided separately to Congress, and must be consistent with ISSP justification and</u> <u>financial reporting. Requirements for this annex will be refined during the Program Review FY 02-07 cycle.</u>

(Name of DoD Component) Information Technology Resources and National Security Systems Annex (Appropriate Submission Heading)

1. <u>Purpose</u>. To collect and display appropriation/budget line item detail information. These data are used to prepare electronic submissions to review component's IT resource portfolio, update OMB budget displays, and generate Congressional displays for each Component's Information Technology/National Security Systems resources.

2. <u>Submission</u>. Every component that obligates funds for information technology activities, including information services and IT infrastructure must submit this information through the Information technology management application. Technical requirements are available on the Information Technology Budget Web at <u>http://www.c3i.osd.mil/org/pe/rmd/infotech/index.html</u>. The information will only be submitted electronically through the Information Technology Management Application (ITMA). Additional reporting and formatting requirements may be identified in the call memorandum and on the web page, as necessary.

3. <u>Entries</u> IT/NSS-1 Resources by GIG/IT/DII Category Exhibit (IT-1) Data are collected in the ITMA for Prior Years, Current Year, Budget Year(s); and Program Years. These data generate the detailed IT-1, Information Technology/National Security System Resources by Functional or Program Area/Mission and Category, resources are reported using the GIG/ IT/DII Reporting Structure. This structure is discussed in Section 180106. Exhibit IT-1 must be prepared using the system categorization requirements (major, significant, and other) as well as by current services/development and modernization, and by budget line item /appropriation/fund source. As identified on the page at <u>http://www.c3i.osd.mil/org/pe/rmd/infotech/index.html</u>, IT-1 will record the appropriate initiative number and title registered in the IT budget automation master tables.

The core of the submission is the Budget Identification Number (BIN) that categorized and assigned to the GIG/IT/DII structure. Current and archived initiatives can be viewed on the ITMA web page. Since the electronic submission is based on the IT master list, maintenance of this list is very critical. Components need to review their initiatives and recommend improvements including new initiatives, consolidations, and retirement of initiatives. Initiatives are used by multiple components and changes are subject to that consideration. OASD(C3I) is the final arbitrator of entries on this master initiative list. Components are responsible for crosswalking the BIN information to the IT registration data base, required by Section 8121, FY 2000 Defense Appropriation Act. Registration requirements for ITMA are discussed on the C3I web page.

For FY 2002 Budget -- National Security Systems (NSS) for C3 and related activities may be entered into the ITMA application, or provided by separate electronic format, must contain the level of detail required in the ITMA, including Budget Line item level of detail and FYDP codes. The Resource Management Office, ODASD(P&E) OASD(C3I) will work with affected components to transition or incorporate this requirement into the required ITMA/C3ISR databases.

Software and additional guidance is provided through the OASD(C3I) designated Information Technology Budget Web page at <u>http://www.c3i.osd.mil/org/pe/rmd/infotech/index.html</u> and as discussed in budget call memorandum.

Note: the electronic format includes FYDP/ budget line item requirements. Military Departments and Defense Agencies/Activities will either update this information through the IT Management Application, or provide a detailed crosswalk appendix discussed in this document.

Justification and the Capital Programming Guide. Financial terms are consistent with this FMR, specifically this Chapter. Program information needs to be consistent Preparation of OMB A-11, 300b Report---Updated instructions are maintained on the C31 Web Page, and are based on changes to the A-11, Part 3, Capital Investment with requirements from the DoD 5000 series and the Acquisition Deskbook. Purpose. This report provides detailed project information on major DoD IT/NSS System/Initiative investments and provides results-oriented information for that investment. This reporting requirement is described on the C3I web page. Descriptive information will be compatible with the Master Initiative list maintained on the C3I Web page

identified in the Master Initiative Table found on the C3I web page. Any component that obligates funds for a major system fills out relevant descriptive information and Submission. The exhibit is required for each major DoD IT/NSS initiative/program reported in the Exhibit IT-1. Current major DoD/IT initiative/program can be Part 1 of this exhibit. The Executive Agent or the principal funding agent will fill out all descriptive information, both Part 1 and Part 2.

# 3. Entries. For each major DoD/IT initiative/program, the following guidance is applicable:

Capital Investment Exhibit (A11, Part 3, 300b report) (Appropriate Submission Heading) (Name of DoD Component) Department of Defense

> Provide Requested Justification Materials: Part II: Justification

# A. Description/Performance Characteristics:

- Section E. Investment Description. 1.
- Statement of how this project helps the agency meet the agency/DoD mission; long term strategic goals and objectives (DPG, Mission goals and/or IT strategic plan). This should be beyond the Mission Element Needs or requirements described above. નં
  - Describe the pre milestone O/ Planning activities that lead up to this decision. Business Process Reengineering, Migration plan; other approaches. ÷.
- Basis for selecting the project, including demonstration that the investment is required for inherently government function; demonstrate that the work processes have been redesigned to reduce costs and improve effectiveness. 4.

# B. Program Management/Management Oversight:

- A. Identify the process owner (business activity, military mission), executive agent, program manager, and contracting office that manages this project if not, how is this project managed?
  - Does this project use Integrated Project Teams approach? If not, how is the project/initiative accomplishments monitored; how are resources reviewed. ä

### **Contract Information:** ن

- Identify major contract names; prime contractor and City, State, if awarded. <u>.</u>
  - Identify the type of contract and why it was chosen.
- Identify whether the contract is performance-based and summarize the performance goals in the contract. ય મ

# D. Architecture and Infrastructure Standards:

- Does this system meet current Government wide, DoD and Agency interoperability requirements? Describe current compliance levels, target levels, and date target will be accomplished. (Map to agency's technology vision.) .-i
  - Infrastructure Strategy: ä
- Are HW requirements included in this funding? If not, how? *ω*, 4
- Transport (Communications and Computing) requirements are met by what means?

### Capital Investment Exhibit (A11, Part 3, 300b report) (Appropriate Submission Heading) (Name of DoD Component) Department of Defense

- What are the interdependencies with other acquisitions (such as base level infrastructure requirements.
- Is this system based on COTS, mix of COTS and custom, or custom only. Provide justification for custom components . v

### E. Program Highlights:

- Succinctly address program highlights for the prior year, budget year and program years land 2.
- Specifically address acquisition milestones scheduled in the budget period and the completion of all Section 8121 requirements. 7 F

# F. Financial Basis for Selecting the Project:

Provide the Analysis of Full Life-Cycle costs (estimates of total cost of ownership. Include current rebaselining information and basis for rebaselining).

Has this system been rebaselined since initial program establishment. If so, when and why.

- Has this system had milestone slippages since the last president's budget.
- Cost Goals of current approved milestone/phase: Have their been changes (10% from last submission) since the last President's Budget submission?
  - What was the basis of the dollar change and how did this impact the milestone/phase/increment objectives?
- Variance from last submission (identify which submission): If there has been a 10% change, discuss variance in G. below.
- Describe how the CIO/CFO and MDA/IPT will be/has been informed of this variance. (Include when and by what means).
  - If there has been a 10% change in the FYDP program, or in any fiscal year, describe and justify the variance.

- If the cost variance is caused by contract price/quantity changes, describe.
- assess will help the agency meet its overall mission, strategic goals, and annual performance plan. Summarize the in house and contract work goals here. Describe goal accomplishments. \* \*
- F. Corrective actions:
- Identify and discuss corrective actions that have been or will be taken if the current cost or schedule estimates have a negative varieance.
  - Identify the effect the actions will have on cost, schedule and performance.
- Include barriers or risks to meeting funding/cost goals. Describe methods to reduce risk.

- Since the current approved position, is there a change to the estimate. Describe reason and impact. What process will be used/was used to notify the CIO/CFO and MDA/IPT of this change? (When and by what means?)
  - Variance from schedule from last submission (identify which submission). Justify variance.
- Describe Corrective Actions. Include barriers or risks to meeting schedule goals. Describe methods to reduce risks.

Performance Goals:

Summarize the performance goals of the acquisition as stated by the current requirement. Discuss both mission and system performance goals. Identify accomplishments to date; describe mission and system performance goals against the milestone schedule, or other schedule.

### CHAPTER 19

**★**June 2000

### **OTHER SPECIAL ANALYSES**

### 1901 GENERAL

### 190101 Purpose

A. This chapter provides instructions applicable to budget formulation and congressional back-up justification for various special interest areas not covered in preceding chapters.

B. The exhibit requirements cover resources crossing DoD appropriations and are generally functional

in nature.

C. Areas covered in this chapter are as follows:

### Section

- 1902 Combating Terrorism
- 1903 Major Range and Test Facility Base
- 1904 Test and Evaluation Funding
- 1905 Financial Management Activities
- 1906 Government Performance and Results Act (GPRA)
- 1908 Federal Credit Programs
- 1909 Other Special Analyses
- 1910 Classifications and Definitions Special Programs Major Force Program 3
- 1911 Overseas Military Banking Program

### 190102 Submission Requirements

Unless indicated in individual sections of this chapter and submission distribution in Chapter 1, exhibits are required for both the Budget Estimates Submission and for the Congressional Justification/Presentation submission. General guidance with regard to submission requirements is presented in Chapter 1.

### 190103 Preparation of Material

General guidance with regard to format and preparation of material is presented in Chapter 1. Chapter 19 provides additional specific guidance with regard to the material required for these special exhibits.

### 190104 References

Chapter 1 provides general funding policies, Chapter 3 provides specific policies related to Operation and Maintenance costs, Chapter 4 provides specific policies related to Procurement appropriations, Chapter 5 provides specific policies related to RDT&E, Chapter 6 provides specific policies related to Military Construction appropriations, and Chapter 9 provides specific policies related to the Defense Business Operations Fund. Certain requirements are also addressed in OMB Circular No. A-11

### **1902 COMBATING TERRORISM**

### 190201 Purpose

A. This chapter provides instructions applicable to budget formulation for the DoD Combating Terrorism (CbT) funding requirements included in the DoD Components' budget requests. These instructions apply to all Components and all DoD appropriations.

B. The data collected through this reporting process will be used to comply with congressional and OMB reporting requirements. In addition, CbT funding levels will be reviewed by the Assistant Secretary of Defense for Special Operations/Low Intensity Conflict (ASD SO/LIC) in his/her role as principal advisor to the Secretary on CbT activities. Information on Antiterrorism (AT) resource levels is required by the Chairman of the Joint Chiefs of Staff to review annually the adequacy of AT resources proposed by the Components and to determine if any changes are required to meet AT requirement.

### 190202 Submission Requirements

A. Submission of exhibits is required for the Budget Estimates Submission and an update (using an abbreviated exhibit format) is required for the President's budget submission. Each Component will complete the CbT-1 Exhibit, Combating Terrorism Resources, and the CbT-2 Exhibit, Combating Terrorism Narrative Description, for the Budget Estimates Submission and for the President's budget submission. The President's budget submission exhibits will be presented in a consolidated congressional justification book which will be prepared by OASD(SO/LIC). Specific instructions for completing these exhibits are included in Section 191202.

B. The ASD(C3I) will validate tactical counterintelligence resources identified by the Components and advise the OUSD(C) P/B Operations and Personnel Directorate that reported resources are accurate. Additionally, the ASD(C3I) will prepare a separate CbT-1 and CbT-2 Exhibits to report DoD Joint Military Intelligence Program (JMIP) resources.

C. Copy requirements are identified in Chapter 1. In addition, one copy (each) of the CbT-1 and CbT-2 Exhibits will be provided to the OUSD(C) P/B Operations and Personnel, Room 3D868, and to the OASD(SO/LIC) Combating Terrorism Policy and Support (CTP&S), Room 2B535. The ASD(C3I) will provide copies of their respective exhibits to the OUSD(C) P/B Operations and Personnel Directorate in Room 3D868 and to OASD SO/LIC (CTP&S) Room 2B535.

### 190203 Special Instructions

A. The OASD (SO/LIC) will actively participate in the review of all budget submissions for combating terrorism activities and will offer recommendations to ensure approved CbT policies are reflected in the budget. The OASD(SO/LIC) will consolidate and provide to the Congress a single budget justification book detailing the Department's CbT efforts and associated funding requests.

B. The OASD(SO/LIC), Joint Staff Deputy Director for Combating Terrorism (J-34), and ASD(C<sup>3</sup>I) will participate with representatives of the OUSD(C), ODPA&E, and OMB in the review of all budget submissions for combating terrorism to ensure that the DoD combating terrorism and force protection programs are funded adequately.

C. The CbT-1 and CbT-2 exhibits in Section 191202 are used to identify the Department's combating terrorism resources, dollars and personnel. They consist of tabular and narrative data as outlined below. These exhibits will report only those resources (including civilian and military pay) associated with DoD's Combating Terrorism Program. Combating terrorism within DoD includes 1) antiterrorism (defensive measures taken to reduce vulnerability to terrorist acts), 2) counterterrorism (offensive measures taken to prevent, deter, and respond to terrorism), 3) terrorism consequence management (preparation for and response to the consequences of a terrorist incident/event), and 4) intelligence support (collection and dissemination of terrorism-related information) taken to

oppose terrorism throughout the entire threat spectrum, to include terrorist use of WMD and/or high explosives. The four functional categories are described below:

### 1. ANTITERRORISM

- a. <u>Physical Security Equipment</u> Any item, device, or system that is used primarily for the protection of assets, personnel, information, or facilities to include alarms, sensors, protective lighting and their control systems, military working dogs, and the assessment of the reliability, accuracy, timeliness and effectiveness of those systems, such as (but not limited to): exterior surveillance and/or intrusion detection systems; lighting systems; access controls and alarms systems; residential security equipment; equipment for executive protection, to include added doors, increased ballistic protection at offices/residences, personal body armor, individual protective equipment, and armored vehicles; and detection devices.
- b. <u>Physical Security Site Improvements</u> Any facility improvements (using O&M or MILCON funding) or new construction whose purpose is to protect DoD assets, personnel, or information to include walls, fences, barricades, or other fabricated or natural impediments to restrict, limit, delay or deny entry into a Defense installation or facility, such as (but not limited to): installation perimeter barriers, vehicle barriers, mylar/fragment retention film, and interior barriers; safe havens; evacuation facilities; and surveillance platforms.
- c. <u>Physical Security Management and Planning</u> Personnel who manage physical security programs, resources, and assets such as, but not limited to, headquarters staff.
- d. <u>Security Forces/Technicians</u> All personnel and operating costs associated with protective forces whose primary or supporting mission is to safeguard assets, personnel or information. Included, but not limited to, are costs for: salaries, overtime, benefits, materials, supplies, travel, support equipment, facilities, training, communications equipment, and management, for the personnel engaged in the following activities such as (but not limited to): dedicated response forces and security forces; locksmiths; perimeter, installation or facility access control; inspection and maintenance of barriers and security system components; antiterrorism training for security forces; and antiterrorism awareness programs and training.
- e. <u>Law Enforcement</u> All personnel and operating costs associated with law enforcement to include, but not limited to, salaries, overtime, benefits, material and supplies, equipment and facilities, vehicles, helicopters, training, communications equipment, and management, such as (but not limited to): protective service details, including advance work; response forces; and military police.
- f. <u>Security and Investigative Matters Category</u> Includes Defense criminal investigative resources, conduct of vulnerability assessments (periodic high level reviews and physical security assessments), security and intelligence activities, and any cross-discipline security functions which do not easily fit into other security categories such as (but not limited to): terrorism investigations; executive antiterrorism training; surveillance and countersurveillance teams; protective service details including advance work; route surveys; and antiterrorism awareness programs and training.
- g. <u>RDT&E</u> Includes any RDT&E resources expended in the area of antiterrorism. Activities included (but not limited to) are Defense Threat Reduction Agency, Counterterrorism Technical Support Program (CTTS), and the Physical Security Equipment Action Group (PSEAG).

### 2. COUNTERTERRORISM

Offensive measures taken to prevent, deter, and respond to terrorism. The sensitive and compartmental programs of counterterrorism (CT) will be reported separately in the appropriate classified program submissions.

- a. Special Operations Command Activities
- Research Development Test and Evaluation (example, CTTS)

### 3. TERRORISM CONSEQUENCE MANAGEMENT

The DoD preparedness and response for mitigating the consequences of a terrorist incident including the use of a weapon of mass destruction. The DoD terrorism consequence management activities are designed to support the lead federal agency and include measures to alleviate damage, loss of life, hardship or suffering caused by the incident; protect public health and safety; and restore emergency essential government services. For clarity, descriptions of the subcategories are as follows:

a. <u>Domestic Preparedness Program (DPP)</u> - Exercises and related exercise funding in support of the Department of Justice lead DPP program.

### b. Terrorism Consequence Management Response

(1) Special Response Units. (Report only those funds needed in support of consequence management, not the total cost of the response unit costs.)

(a) Chemical/Biological Rapid Response Team (CB-RRT). Coordinates and manages the DoD technical capabilities necessary to respond to a chemical/biological (CB) terrorist incident. Serves a critical role in the overall DoD response plan in support of the lead federal agency and civil authorities in the event of a CB terrorist incident. The CB-RRT is composed of military personnel and DoD civilians, who provide technical assistance to federal, state and local officials in the response to, and mitigation of, incidents involving Weapons of Mass Destruction (WMD) which contain (or are suspected to contain) chemical or biological materials (or related hazardous materials). Assistance includes detection, neutralization, containment, dismantlement and disposal. As directed, the supported commander-in-chief (CINC), Joint Special Operations Task Force (JSOTF), Joint Task Force for Civil Support (JTF-CS), or Response Task Force (RTF), exercises operational control (OPCON) over CB-RRT.

(b) Military Support Detachment – Weapons of Mass Destruction (WMD) Civil Support Teams. Under the command and control of a state governor, assists the local incident commander to assess the situation and provide initial identity of suspected agents, advise on hazard mitigation, and facilitate requests for assistance for additional military support elements in the affected area. The teams are highly specialized WMD response units that consist of 22 full-time Title 32 status Air National Guard and Army National Guard personnel, who commit to a 3-year stabilized tour due to the critical special training and mission requirements. The teams are divided into seven elements – command, operations, survey (contamination), medical, logistics, communications (links to federal, state, and local agencies), and administration. There are 14 different specialties represented on each WMD Civil Support Team. The WMD Civil Support Teams were previously named Rapid Assessment and Initial Detection (RAID) Teams. (c) US Air Force Radiological Assessment Team (AFRAT). A rapidly deployable team with the manpower and equipment necessary to respond to accidents or incidents involving radioactive materials. The team can provide in-depth technical assistance in identifying the immediate health risks associated with radiological threats. Located at Brooks Air Force Base, Texas, AFRAT can deploy within 72 hours, depending on the situation.

(d) US Army 52<sup>nd</sup> Ordnance Group (EOD). Provides military explosive ordnance disposal (EOD)/bomb squad units to defeat or mitigate the hazards from conventional, nuclear, or chemical military munitions and weapons of mass destruction (WMD) throughout CONUS as requested by local, state, or federal law enforcement or military authorities. Three EOD companies located at San Diego, California; San Antonio, Texas; and Andrews Air Force Base, Washington, DC; have been designated to receive specific training on chemical and nuclear WMD. These companies possess unique counter booby trap equipment and are trained to operate specialized equipment (provided by the Department of Energy (DOE)) used for diagnostics and to render safe/mitigate a WMD nuclear initiation. Similar equipment is also used with the technical escort units (TEU) for chemical/biological WMD scenarios.

(e) US Army Technical Escort Unit (TEU). Provides worldwide, no-notice capability to conduct field sampling, identification and verification, monitoring, recovery, decontamination, escort, and mitigation of hazards associated with chemical and biological materials in compliance with international, federal, state, and local laws.

(f) US Marine Corps Chemical/Biological Incident Response Force (CBIRF). Tailored as a highly trained, rapid response force capable of providing consequence management for terrorist initiated chemical and biological attacks, in order to mitigate the effects of multiple/mass casualty incidents. These skills include threat identification, casualty extraction, personnel decontamination, and medical triage/treatment/stabilization. The CBIRF also maintains an information "reach-back" capability to a cadre of CB subject matter and disaster response experts for consulting purposes.

(g) US Navy Environmental and Preventive Medicine Unit (NEPMU), Chemical, Biological, Radiological, Environmental Defense Response (CBRED) Team. Teams are task organized for each incident and can provide doctors, industrial hygienists, environmental health officers, microbiologists, preventive medical technicians, among other related professionals. Teams are on alert for rapid response and are available to advise the Chemical/Biological Rapid Response Team (CB-RRT), local public health authorities, and to augment other CB-RRT medical assets.

(h) US Army Medical Research Institute of Chemical Defense (USAMRICD), Medical Chemical Biological Advisory Team (MCBAT). Provides the primary source of medical information dealing with the management of chemical warfare agent casualties for the federal government. The MCBAT assists the WMD incident commander by identifying the medical implications to military and/or civilian operations, and advising on the initial and long-term management of chemical casualties at the incident site. As necessitated, the MCBAT supervises the collection of biological samples (bodily fluids) for subsequent verification of chemical agent exposure that can be used to facilitate confirmation, diagnosis and treatment. Experts on the team are from USAMRICD and the US Army Medical Research Institute of Infectious Diseases

(i) US Army and US Navy Radiological Control (RADCON) Teams. Provide radiological monitoring support and advice to the Response Task Force. Located at Fort Monmouth, New Jersey, and Norfolk, Virginia, respectively, the teams are capable of deploying within several hours.

(j) US Army Radiological Advisory Medical Team (RAMT). Specially trained in radiological health matters, this team can provide assistance and guidance to the on-scene Response Task Force and local medical authorities. The RAMT is located at Walter Reed Army Medical Center, Washington, D.C.

(k) US Army Response Task Forces (RTF). Deploy in support of the lead federal agency providing operational control over all committed DoD elements (less Joint Special Operations Forces teams) to coordinate military support of crisis and consequence management operations. The RTF commander could establish a fully functional 24-hour command and control operations center in the vicinity of the incident within 24 hours of notification. The RTF-East is located at First Army HQs, Fort Gillem, Georgia; and RTF-West is located at Fifth Army HQs, Fort Sam Houston, Texas.

(1) Defense Threat Reduction Agency, Defense Nuclear Advisory Team (DNAT). Provides unique nuclear related technical assistance to the Response Task Force or the lead federal agency. Teams are comprised of health physicists, radiation physicians, legal advisors, and other related professionals and can deploy within 4 hours.

(m) Joint Task Force for Civil Support (JTF-CS). Responsible for the planning and execution of military assistance to civil authorities for consequence management of WMD incidents within the US, its territories, and possessions. The JTF-CS is a standing joint task force headquarters element, with an operational focus, but no assigned forces. The JTF-CS will respond to a WMD incident, in support of the lead federal agency, when authorized by appropriate authorities through the Joint Operations Planning and Execution System. The JTF-CS will participate in consequence management, as a follow-on force behind local first responders and state assets. In special circumstances, the JTF-CS may send an advance element.

- (2) Installation Preparedness Installation Preparedness involves the planning and training necessary to identify and mitigate vulnerabilities to WMD events using Joint Staff tools (e.g., the Installation Planning Template and its WMD Annex). Department of Defense (DoD) installations are owned and operated by the Services and are similar to cities, towns, and civilian communities. The DoD installations are often open, contain schools, medical facilities, and shopping malls.
- (3) Research Development Test and Evaluation. (Report only those funds that have consequence management applicability, not total costs.)

(a) US Army Edgewood Chemical and Biological Forensic Analytical Center Modular Onsite Laboratory. Provides on-site laboratory capability to analyze chemical surety materials, foreign chemical warfare agents, and other hazardous industrial chemicals. The lab is comprised of a series of transportable modules, which contain analytical instruments, and all supporting equipment such as electrical generators for short-term power requirements. The laboratory is accompanied by up to five personnel, to include chemists and sampling technicians, and can be deployed within 4 hours of notification.

(b) US Army Medical Research Institute of Infectious Diseases (USAMRIID). Conducts research to develop strategies, products, procedures, and training programs for medical defense against biological warfare threats and infectious diseases. Develops vaccines, drugs, diagnostic tests, and medical management procedures to protect military personnel against biological attack or endemic infectious diseases. Provides medical and scientific experts and technical guidance to commanders and senior leaders on the prevention and treatment of hazardous diseases and management of biological casualties. Serves as the DoD reference center for identification of biological agents. Primary capabilities provided are technical expertise, extensive laboratory

facilities, and the Aeromedical Isolation Team (AIT). The latter is a rapid response unit that can deploy to any area of the world to transport and provide patient care under high containment of contagious and dangerous diseases. The team possesses limited capability, equipment, and staff, which is not feasible for use in a mass casualty situation. Currently, there are no personnel assigned directly to the AIT; upon deployment, they would be comprised of two elements, each capable of transporting one patient.

(c) US Navy Medical Research Institute (NMRI). Provides a transportable biological field lab, capable of rapid identification of biological warfare agents. The field lab can be packaged into six to seven boxes, totaling 350 to 400 pounds. With a team of two operators, the lab can be ready to deploy within 4 hours.

c. <u>Research Development Test and Evaluation</u> – Defense agency RDT&E support to DoD Terrorism Consequence Management efforts.

### 4. INTELLIGENCE SUPPORT TO COMBATING TERRORISM

Collection, analysis, and dissemination of all-source intelligence on terrorist groups and activities intended to protect, deter, preempt, or counter the terrorist threat to US personnel, forces, critical infrastructures, and interests.

- a. <u>Counterintelligence (CI)</u> Includes personnel and funding associated with Tactical Intelligence and Related Activities (TIARA). These activities include terrorism investigations, surveillance and countersurveillance teams, terrorism analysis and production, force protection source operations, threat assessments, terrorism collection, route surveys, and intelligence staff support to deployed forces. Only those counterintelligence resources directly supporting force protection/combating terrorism activities are to be reported in this resource summary. Army and Marine Corps tactical CI resources and Army Security and Intelligence Activities CI resources will be reported by the Army and Marine Corps.
- b. <u>Research Development Test and Evaluation</u>. For example, counterterrorism Technical Support Program.
- D. Entries for CbT-1 Exhibit

1. <u>General</u>: DoD Components should prepare a separate summary for each applicable appropriation. Each summary will report resources (funding and personnel) by the combating terrorism functional categories described above.

2. <u>Appropriation Summary</u>: For each appropriation (O&M, Military Personnel and Military Construction) report budget authority by appropriation, budget activity, and applicable subactivity group level/program line item/project. Procurement, and RDT&E appropriations, report the total combating terrorism budget authority funds by budget activity and by program element. For DWCF accounts, report obligation authority at the Working Capital Fund business area.

3. Financial Summary Section:

a. Military Personnel. Report resources by CbT functional category and subcategory at the appropriation budget activity level.

b. Operation and Maintenance. Report resources by CbT functional category and CBT subcategory, budget activity, and subactivity group level (O-1 line).

### **DoD Financial Management Regulation**

c. Procurement. Report resources by functional category, budget activity, and program element (PE) (P1 line item).

d. RDT&E. Report resources by CbT functional category and CbT subcategory, and program element ((PE)/R-1 line item).

e. Military Construction. Report resources by CbT functional category and subcategory, State/Country, and project title.

f. Defense Working Capital Fund. Report resources by CbT category and subcategory by working capital fund business area level.

### 4. Personnel Summary Section:

a. For each applicable appropriation, report civilian personnel full-time equivalents (FTEs) and military (active and reserve component) end strength by CbT functional category and subcategory. If an appropriation does not finance any personnel resources, enter "None" on the Personnel Summary line as follows:

b. The following generic Military Occupational Series (MOS) and civilian job series should be reported as full-time Combating Terrorism assets -- even if these persons spend only a portion of their time on combating terrorism activities. Additionally, personnel not in these MOS's and/or job series who are assigned permanently or detailed to force protection offices and who spend at least 51% of their time directly supporting combating terrorism activities should be reported on this exhibit:

- (1) Military Career Fields/Occupational Series: Military Police, Law Enforcement Specialist and Security, Master at Arms, Security Forces, Criminal Investigator, Interrogator, Interpreter/Translator, Counterintelligence Officer, and Office of Special Investigations. Appropriate subspecialities/subfunctions/skills are to be captured in these career fields/occupational series, in support of combating terrorism, with the exception of military working dogs in counterdrug missions.
- (2) The following civilian Job Series are to be reported if responsibilities relate to CbT efforts: Physical Security Manager (GS-0080), Civilian Police (GS-0083), Security Guard (GS-0085), and those personnel in the Security Clerical and Assistance (GS-0086) series, and all associated wage grade positions who are in direct support of the previously aforementioned series.
- (3) Personnel data associated with classified combating terrorism programs will be reported as follows: Army and Marine Corps tactical counterintelligence resources and all Army Security and Intelligence Activities counterintelligence resources will be reported in the CbT exhibits by the applicable Components.

### 1903 MAJOR RANGE AND TEST FACILITY BASE

### 190301 Purpose

A. This Chapter provides instructions applicable to budget formulation for the DoD Major Range and Test Facility Base (MRTFB) funding requirements included in the DoD Components' budget requests. The exhibit formats submitted in support of the Budget Estimates Submission (BES) will be the same as those submitted to the Director, Test, Systems Engineering, and Evaluation, USD(AT&L) (DTSE&E) in support of the POM estimates.

B. These instructions apply to the major ranges and test facility activities included in the MRTFB:

### ARMY:

Yuma Proving Ground (YPG) White Sands Missile Range (WSMR) Kwajalein Missile Range (KMR) Dugway Proving Ground (DPG) Aberdeen Test Center (ATC) High Energy Laser Systems Test Facility (HELSTF)

### NAVY:

Naval Air Warfare Center-Aircraft Division (NAWCAD) Atlantic Undersea T&E Center (AUTEC) Naval Air Warfare Center-Weapons Division (NAWCWD) Atlantic Fleet Weapons Training Facility (AFWTF)

### AIR FORCE:

Eastern Space & Missile Center (ESMC) Western Space & Missile Center (WSMC) Arnold Engineering Development Center (AEDC) Air Force Development Test Center (AFDTC) Air Force Flight Test Center (AFFTC) 46th Test Group, Holloman AFB NM Air Warfare Center Range, Nellis AFB (AWC))

### DEFENSE INFORMATION SERVICES AGENCY

Joint Test Interpretability Center (JTIC)

C. The DTSE&E is charged with administering OSD responsibilities for the MRTFB. Modifications to these instructions, requests for deviations from their provisions, or requirements for their clarification or applicability should be directed to and coordinated with DTSE&E and OUSD(C) Program/Budget.

D. Budget estimates will be developed in accordance with guidance contained in Chapter 1 and the various chapters for appropriations and accounts.

E. It is extremely important that the data reported in the MRTFB exhibits be consistent with the funding included in the Component's Research, Development, Test & Evaluation (RDT&E) Exhibit R-1 project listing and in the Descriptive Summary as well as other budget submission material.

### 190302 Submission Requirements

Copies of the following exhibits will be submitted in support of the <u>Budget Estimates Submission only</u> for each major range and test facility. Copy requirements are identified in Chapter 1. Exhibit formats are provided in Section 1912.

- A. Exhibit MRTFB-1, (Activity Title) Financial Summary.
- B. Exhibit MRTFB-2 Set, (Activity Title) Financial Details.
- C. Exhibit MRTFB-3 Set, (Activity Title) Improvement and Modernization Analysis.

### 190303 Preparation of Material

Budget estimate data submitted by each DoD Component for the MRTFB will be assembled separately and identified by a cover sheet specifically entitled "Major Range and Test Facility Base (Army/Navy/Air Force/DISA) Program Budget Estimate."

### 190304 Special Instructions

The DTSE&E will participate with representatives of the OUSD(C), DOT&E, and OMB in the review of all budget submissions for the major ranges and test facilities to insure that:

A. Excess capability is not being unnecessarily maintained in the MRTFB.

B. Unnecessary duplication does not exist among DoD Component assets.

C. Test facility capability needed in the future is being planned and supported.

D. All new major test facilities are thoroughly coordinated prior to their approval to reflect the needs of all DoD components.

### **1904 TEST AND EVALUATION FUNDING**

### 190401 Purpose

A. This Chapter provides instructions applicable to budget formulation for the Test and Evaluation Budget Estimate, T&E-1, as shown in Section 1912, needed for review and analysis of Test and Evaluation (T&E) funding requirements included in the DoD Components' requests. The instructions contained here specify the requirements for budget submission.

B. The USD(A&T) Director, Test, Systems Engineering, and Evaluation (DTSE&E) and the Director, Operational Test and Evaluation (DOT&E), are charged with oversight of the DoD T&E resources and funding of T&E by each major DoD program. Modifications to these instructions, requests for deviations from their provisions, or requirement for their clarification or applicability should be directed to and coordinated with USD(A&T), DTSE&E, DOT&E and OUSD(C) Program/Budget.

### 190402 Submission Requirements

A. Each DoD Component will, for the <u>Budget Estimate Submission only</u>, complete an Exhibit T&E-1, Test and Evaluation, (provided in Section 1912) for (1) each Major Defense Acquisition Program (MDAP) listed in Table C-1 of the latest Program Objective Memorandum (POM) Preparation Instructions (PPI), (2) each non-MDAP Special Interest Program listed in Table C-2 of the PPI, and (3) for additional programs currently under test oversight that are listed in the section, "Test and Evaluation Planning Information" in Tab C, "Modernization and Investment" in the latest PPI.

B. Copy requirements are identified in Chapter 1. In addition, 2 copies of the T&E-1 Exhibit will be provided to DTSE&E, Room 3E1060, to DOT&E, Room 3E333, and to OUSD(C) P/B Investment, Room 4B915. Specific instructions for completion of the T&E-1 Exhibit are included in Section 1912.

### 190403 Preparation of Material

Data submitted by each DoD component in support of estimates for all weapons systems will be assembled separately and identified by a cover sheet specifically entitled "Test and Evaluation (Army, Navy, Air Force, Defense Agencies) Budget Estimate."

### 190404 Special Instructions

The USD(A&T) will participate with representatives of OUSD(C), DOT&E, DUSD(Environmental Security), ASD(Economic Security), and OMB in the review of all budget submissions for T&E to ensure that:

A. Resources required for the test and evaluation of the MDAP and Special Interest Programs, as identified in the Test and Evaluation Master Plan (TEMP), are adequately funded.

B. Unwarranted test capability is not being maintained at private industry facilities.

C. Unwarranted duplication does not exist among DoD Component assets and private industry.

D. Test facilities and capabilities required are adequately funded and supported.

E. All new major test facilities are approved by the Defense Test and Evaluation Steering Group to ensure they are warranted and meet the needs of all DoD components.

### 1905 FINANCIAL MANAGEMENT ACTIVITIES

### 190501 Financial Management Activities

A. This Section provides guidance for presenting budget estimates related to Financial Management Activities. It is designed to fulfill the requirements of Section 52, Information on Financial Management, of OMB Circular A-11.

B. Information on resources (budget authority and full-time equivalent (FTE) employment data) for financial management activities is required for oversight and review of component resources devoted to these activities and to ensure that their use is in accordance with the government-wide 5-year financial management plan prepared by OMB as required by the Chief Financial Officers Act of 1990.

C. Submission of the exhibit 52, Report on Resources for Financial Management Activities, is required for the <u>Budget Estimates Submission and an update is required for the President's budget submission</u> (Congressional Justification/ Presentation.) This exhibit should meet the definitions/descriptions contained in Section 52 of OMB Circular A-11.

D. Copies are to be provided directly to the Office of the USD(Comptroller), Office of the Deputy Chief Financial Officer (ODCFO), rm. 3E843 (Commercial (703)604-6350; DSN 664-6350).

### **1906 GOVERNMENT PERFORMANCE AND RESULTS ACT (GPRA)**

### 190601 **Purpose**

The purpose of this section is to establish basic guidance for incorporation of GPRA requirements into the budget review process and budget presentation to the Congress.

### 190602 Submission Requirements

The Government Performance and Results Act (GPRA) requires the Department to submit a strategic plan (updated at least once every *four* years), an annual performance plan, and a performance report that corresponds to each performance plan. DoD has prepared corporate level goals, to be validated/updated annually, which will appear in the Defense Planning Guidance (DPG). During the POM/Program Review an assessment of how well the Department is meeting the goals will be conducted and, performance measures that indicate progress towards meeting the corporate level goals will be validated. Additional guidance will be published by the Office of the Under Secretary of Defense (Comptroller), Director for Program Analysis and Evaluation.

The Quadrennial Defense Review (QDR) is the GPRA strategic plan. The Department uses the QDR as its starting point for the Planning, Programming and Budgeting System (PPBS). QDR/GPRA plans, objectives and measures are integrated in the PPBS, appear in the DPG, and are evaluated during the Program Review. During the Budget Review the Department ensures that performance objectives can be achieved within the resources that are allocated. Although corporate level performance measures are included in the GPRA Performance Plan, Components are encouraged to include performance measures, as applicable, in budget justification material. .

### 1908 FEDERAL CREDIT PROGRAMS

### 190801 Purpose

This Section provides guidance for presentation of annual budget estimates for Federal credit programs. Credit programs in the Department of Defense consist of direct loans and guaranteed loans.

### 190802 Submission Requirements

A. Military Departments and Defense Agencies, as appropriate, will submit to OSD in support of Federal credit programs all materials required by, and in the format specified in, OMB Circular No. A-11, Section 85. Copies of appropriate exhibits will be submitted in support of the Budget Estimates Submission only.

B. Definitions: The following definitions apply to the credit account structure. Agencies should refer to OMB Circular A-34 and A-11 for a more detailed explanation of terminology and budget instructions.

1. <u>A direct loan</u> is a disbursement of funds by the Government to a non-Federal borrower under a contract that requires repayment of such funds with or without interest. The term includes the purchase of, or participation in, a loan made by a non-Federal lender. It also includes the sale of a Government asset on credit terms of more than 90 days duration.

2. <u>A direct loan obligation</u> is a legal or binding agreement by a Federal agency to make a direct loan when specified conditions are fulfilled by the borrower.

3. <u>A loan guarantee</u> is any guarantee, insurance, or other pledge with respect to the payment of all or part of the principal or interest on any debt obligation of a non-Federal borrower to a non-Federal lender, but does not include the insurance of deposits, shares, or other withdrawal accounts in financial institutions.

4. <u>A loan guarantee commitment</u> is a legally binding agreement by a Federal agency to make a loan guarantee when specified conditions are fulfilled by the borrower, the lender, or any other party to the guarantee agreement.

5. <u>Financing Account</u> is the non-budget account or accounts associated with each credit program account for post-1991 direct loans or loan guarantees. It holds balances, receives the subsidy cost payment from the credit program account, and includes all other cash flows to and from the Government. Separate financing accounts are required for direct loans and loan guarantees.

6. <u>Modifications</u> are any Government action that alters the estimated subsidy cost, compared to the estimate contained in the most recent budget submitted to Congress, of an outstanding direct loan (or direct loan obligation) or an outstanding loan guarantee (or loan guarantee commitment). Actions permitted within the terms of an existing contract are the only exception. Modifications to pre-1992 direct loans and loan guarantees are included in this definition, as well as modifications to post-1991 direct loans and loan guarantees. For pre-1992 direct loans and loan guarantees, the loan asset or guarantee liability will be transferred from the liquidating account to the appropriate financing account. A one-time adjusting payment will be made between the liquidating and financing accounts. The subsequent cash flows will be recorded in the financing account.

7. <u>Program Account</u> is the budget account into which an appropriation to cover the subsidy cost of a direct loan or loan guarantee program is made and from which such cost is disbursed to the financing account. Usually, a separate amount for administrative expenses is also appropriated to the program account. Each program account is associated with one or two financing accounts, depending on whether the program account makes both direct loans and loan guarantees. The program account pays subsidies to the financing account for post-1991 direct loans and loan guarantees, for modifications, and for reestimates. These subsidy payments are counted in calculating budget outlays and the deficit. 8. <u>Subsidy</u> is the estimated long-term cost to the Government of a direct loan or loan guarantee, calculated on a net present value basis, excluding administrative costs. In net present value terms, it is the portion of the direct loan disbursement that the Government does not expect to recover, or the portion of expected payments for loan guarantees that will not be offset by collections. The subsidy may be for post-1991 direct loan obligations or loan guarantee commitments, for reestimates of post-1991 loans or guarantees, or for modifications of any direct loans or loan guarantees.

9. <u>Reestimates</u> are the recalculation of the subsidy cost of each risk category within the cohort of direct loans or guaranteed loans. Reestimates must be made at the beginning of each fiscal year following the year in which the initial disbursement was made and as long as the loans are outstanding, unless a different plan is approved by OMB.

10. <u>Cohort</u> - Direct loans obligated or loan guarantees committed by a program in the same year, even if disbursements occur in subsequent years or the loans are modified. Modified pre-1992 direct loans will constitute a single cohort; modified pre-1992 loan guarantees will constitute a single cohort. For loans subsidized by no-year or multi-year appropriations, the cohort may be defined by the year of appropriation or the year of obligation. The Program and Financial Control Directorate of OUSD(C) P/B will contact OMB for proper determination.

C. Materials required by this Section will be provided for credit programs for the DoD Family Housing Improvement program, the Army ARMS Initiative Program, the Defense Export Loan Guarantee Program, and for any additional programs involved in direct loans or guaranteed loans.

D. Copies of these materials are required as part of the September submission in the quantities identified in Chapter 1.

## **1909 OTHER SPECIAL INTEREST AREAS**

## 190901 Purpose

This Chapter prescribes instructions for the preparation and submission of budget justification backup data for special areas in which the Congress or OMB has expressed interest. Most of these requirements affect more than a single appropriation.

## 190902 Submission Requirements

- A. Data in the exhibit formats provided in Section 1912 are required for the following program areas:
- PB-14 Functional Transfers
- PB-15 Advisory and Assistance Services
- PB-16 Legislative Proposals
- PB-17 Employee Relocation Expenses
- PB-18 Foreign Currency Exchange Data
- PB-19 Contract Reporting by Appropriation
- PB-22 Major Department of Defense Headquarters Activities
- PB-23 Acquisition and Technology Work Force manpower
- PB-24 Professional Military Education
- PB-25 Host Nation Support
- PB-28 Funds Budgeted for Environmental Quality (Non-ER, Army, Navy, AF or Defense-wide)
- PB-28A Funds Budgeted for Environmental Security Technology
- PB-41 Administrative Motor Vehicle Operation
- PB-42 Competitive and Strategic Sourcing (Formerly Competition and Privatization)
- PB-50 Child Development, School Age Care (SAC), Family Centers, and Family Advocacy Programs
- PB-52A Aeronautics Budget
- PB-52B Space Budget
- PB-53 Budgeted Military and Civilian Pay Raise Amounts
- PB-54 Civilian Personnel Hiring Plan
- PB-55 International Military Headquarters
- PB-56 International Travel

B. Definitions are to be identical to those most recently used in furnishing data to the Congress.

C. All exhibits are required for the Budget Estimates Submission and the congressional justification/presentation submission. Copies of exhibits are required with the submissions in the quantities identified in Chapter 1.

## 1910 CLASSIFICATIONS AND DEFINITIONS – COMMAND, CONTROL, COMMUNICATIONS, AND INTELLIGENCE PROGRAMS

## 191001 Purpose

The Office of the Director for Program Analysis and Evaluation maintains a listing of program elements (PEs) in the Future Years Defense Program (FYDP) making up C<sup>3</sup>I programs. For details, please contact the POC for the FYDP Structure Management (FSM) system. The FSM system and its Web site are described in FMR Volume 2A, Section 010702.

## 1911 OVERSEAS MILITARY BANKING PROGRAM (OMBP)

### 191101 Purpose

This section specifies guidance for the preparation and submission of budget estimates for the funding of the contract(s) with a financial institution(s) to operate the Overseas Military Banking Program (OMBP). It identifies the budgeting requirements necessary to fund the OMBP contract(s) awarded and maintained by the Defense Finance and Accounting Service (DFAS) for the three participating Military Departments. The budget estimates for the contract(s) consists of Operation and Maintenance, Procurement and other resources that support the OMBP.

## 191102 Submission Requirements

A. Each of the three sponsoring Military Departments shall budget for OMBP contract costs applicable to that Department. The sponsoring Military Departments shall transfer funding to the Washington Headquarters Services upon receipt of their appropriation for the fiscal year. The Military Departments shall submit required budget estimates in the format specified as the "Overseas Military Banking Program (OMBP)" (Exhibit OMBP-01), and as modified by OUSD (Comptroller) annual guidance.

B. Submissions shall be consistent with any additional guidance provided by the Office of the Deputy Chief Financial Officer.

C. Exhibits shall be prepared and submitted by each Military Department. Exhibits shall be prepared to show prior year, current year, and budget years (20BY1 and 20BY2) in the format specified as "Overseas Military Banking Program (OMBP)" (Exhibit OMBP-01).

D. An original and five copies of each Military Department's OMBP submission are required as part of the Budget Estimates submission and for the congressional Justification/Presentation (President's budget) submission.

E. Copies are to be provided directly to the Defense Finance and Accounting Service (DFAS), Code – HQ/F, 1931 Jefferson Davis Hwy, Arlington, VA, 22240-5291. Call (703)607-5109 for questions concerning the drop-off of material. For questions concerning the exhibit requirements, call (614) 693-4339.

## 1912 OTHER SPECIAL ANALYSES SUBMISSION FORMATS

## 191201 Purpose

## INSTRUCTIONS EXHIBIT MRTFB-1, MAJOR RANGE TEST FACILITY BASE

The MRTFB-1 is the basic, central exhibit for the Major Range Test Facility Base budget estimate submission and consists of tabular and narrative data. All other exhibits are related to it.

This exhibit reflects total funds from all sources to be expended at each MRTFB activity. The instructions for preparation are in the following paragraph and definitions. For each line entry, a fully comparable figure will be entered in each of the five columns.

## Definitions:

<u>Institutional Funding</u> - This category should reflect all of the funding to be expended to support the MRTFB activity's mission, whether the funds are directly allocated to the activity or whether they are expended by another activity in support of the MRTFB.

<u>Institutional (P.E.</u>) - This entry denotes the funding which each Component provides directly to the activity for ongoing effort which cannot be ascribed to users of the activity. The financing program element number is to be entered in the parenthesis.

<u>In-House Effort</u> - This line reflects that amount of the activity's T&E Institutional funding which is devoted to supporting efforts conducted by government personnel at the activity.

<u>Contractor Effort</u> - Indicates the amount of Institutional funding expended by any contractor in support of the activity's mission, either on-site or elsewhere.

<u>Base Operating Support (BOS), Real Property Maintenance Activities (RPMA) and Minor Construction</u> - The amounts shown in these lines should reflect that funding either paid by the MRTFB activity for their share of these costs to a host activity or the costs that would be allocated to the MRTFB activity if they were required to reimburse their BOS and RPMA costs to the host activity. For those MRTFB activities which are host activities, the costs in these categories should reflect the share of BOS, RPMA and minor construction that would be allocated to only the MRTFB activity if costs were distributed to all activities at the installation. Reflecting these costs as part of the institutional costs at the MRTFB is intended to more completely reflect the costs of the MRTFB mission and to make the activities more comparable across the Services. If additional categories are required to reflect the total "institutional" funding that is required for the activity, such as Environmental Compliance, additional lines should be added. Provide the program element number for each entry.

<u>Military Personnel</u> - This category should also reflect the amount of funding that would be required to support the military personnel which are primarily assigned to the MRTFB activity.

(page 2 of 4)

<u>Improvement and Modernization (I&M)</u> - This section should reflect all funding provided to the MRTFB activity for improvement and modernization efforts.

<u>Minor I&M</u> - This category should reflect funding provided directly to the MRTFB activity for I&M projects which are less than \$2 million in any one fiscal year and less than \$10 million in cumulative funding. For the RDT&E-funded activities, the minor I&M funding should be a portion of only the MRTFB program elements. The funding needs to be identified by specific program element. For the O&M-funded activities, the minor I&M funding should be identified by P-1 line item title. If there is minor I&M in more than one program element or more than one P-1 line item, a summary of the minor I&M funding should be provided on the MRTFB-1 with a detailed listing provided on the MRTFB-3a. Any funding provided by users for minor I&M projects should be included as direct (user) funding.

<u>Major I&M</u> - This funding category should include all major I&M projects funded by RDT&E or procurement appropriations, including those funded by users or by the Central T&E Investment Program. Major I&M projects are those which exceed \$2 million in any single fiscal year or \$10 million cumulatively. The MRTFB-1 should reflect a total for all major I&M projects, regardless of funding source. The MRTFB-3A, I&M Funds, Major I&M Projects, requests a listing of each of the projects by appropriation and program element or P-1 line item that adds to the total on this line.

<u>Direct (User Funding)</u> - This line is for header purposes only, to denote the section dealing with funds from activity customers for MRTFB activity mission efforts.

<u>Parent Service</u> - Indicates the funds which come to the activity from users who are from within the same service but distinguished from the institutional base.

<u>Other DoD</u> - Indicates those customers within the DoD but not from the same service as the activity.

Other U.S. Government - Indicates those government customers from other than DoD activities.

FMS - Indicates those customers from FMS cases.

Foreign Government - Indicates those customers from foreign governments for other than FMS cases.

Commercial - Indicates funds received from commercial customers.

<u>Total Institutional and Direct (I&D)</u> - This line provides the sum of the amounts in the Total Institutional and Total Direct lines.

<u>% Direct to Total I&D (Less I&M)</u> - This line provides the percentage which Total Direct funding constitutes of the Total Institutional (less I&M) and Direct funding.

<u>Other Funds</u> - This line is for header purposes only, to denote all other activity financing that does not fall in the I&D categories. The funding included in this category should be strictly funding received by the MRTFB for efforts other than those associated with the MRTFB mission. These categories should only be used, therefore, when the MRTFB is a host activity and receives funding, such as BOS, RPMA or Family Housing funds, to support other activities. All funding received in support of the MRTFB activity should be included in the Institutional, I&M or Direct Funding categories above. If any funding is reported as "Other" funding in this category, a separate listing should be provided that identifies the "Other" funding by appropriation and program element or customer.

(Page 3 of 4)

<u>Total MRTFB Activity</u> - This line reflects the sum of the amounts in the Total I&D and Total Other Funds lines. This should represent the total amounts supporting the activity to perform its MRTFB mission and to provide common services to others, if appropriate. These amounts need not flow through the activity itself but should reflect all funding associated with supporting the MRTFB.

The amounts reflected in the lines above are to be directly relatable to those amounts included in the appropriation submissions of budget estimates to OSD/OMB or the appropriation submissions of apportionment requests to OSD.

# MRTFB ACTIVITY SCHEDULE OF INCREASES & DECREASES

Provide a schedule of increases and decreases, as shown below, covering year-to-year changes in the total Institutional entry on Exhibit MRTFB-1 to include changes in workyears, maintenance and repair and other items with changes in excess of \$1 million. Ensure that the narrative explanations are each unique to changes in only one entry on the MRTFB-1. Specifically, there should be at least one increase and/or decrease statement for each entry on the MRTFB-1 exhibit but may be more than one increase and/or decrease for any or all entries on the MRTFB-1.

Changes in workyears between years and among categories should be addressed in the MRTFB-2b, Schedule of Increases and Decreases. The workyears reported in the Institutional category should reflect only those workyears funded from the institutional program element for the activity. Workyears funded by other "Institutional" funding, such as BOS or RPMA should be reported in the Other category. Workyears funded by other Funds" should not be reflected on this exhibit. This exhibit shows by major program, the sources of the Direct Funds contained in Exhibit MRTFB-1, Direct (User) Funding. Provide a subtotal for each appropriation or category shown on the MRTFB-1 Exhibit. For the significant customer appropriations, such as RDT&E or Procurement accounts, provide a subtotal by budget activity. Customers in the FMS, Foreign Government and Commercial categories need to be identified separately by individual customer. The All Other category should not exceed approximately 10% of the Total Direct Funding on this Exhibit and on the MRTFB-1. For the RDT&E appropriations, a breakout by Program Element is mandatory.

## Instructions for Exhibit T&E-1. Test and Evaluation

### 1. Purpose.

A. The Exhibit T&E-1 is the Test and Evaluation (T&E) exhibit for the budget estimate submission and the President's budget request. It consists of tabular and narrative data related to the funding for T&E of the Major Defense Acquisition Programs (MDAP) as specified in DoD 5000.1 and Special Interest Programs identified in the Program Objective Memorandum Instructions, Table C-1.

B. This exhibit reflects total funds included in the above specified systems/programs for T&E regardless of what organization performs the T&E. It does not include funds in T&E programs, such as MRTFB direct funding, used to provide services on a nonreimbursable basis to weapon systems.

2. Entries.

A. Program Description: For each Program Element/Project describe any major changes from the most recent President's budget request or the most recently approved TEMP and the reasons for the changes. Divide the discussions into Developmental Test and Evaluation (DT&E), Operational Test and Evaluation (OT&E), and Live Fire Test and Evaluation (LFT&E).

## B. Program Funding (by Appropriation and Program Element/Project)

(1) Total RDT&E: Show total RDT&E funding for this program with a line for each Program Element/Project showing the Program Element/Project Codes (T&E portion included in these amounts will also be broken out below under T&E Funding.)

(2) Total Procurement: Show total Procurement funding for this program showing each Procurement Line Number amount. (T&E portion included in these amounts will also be broken out below under T&E funding.)

(3) T&E Funding Included Above (May be a combination of RDT&E and Procurement):

(a) DT&E: (Total of Contractor and Government and Targets and Threat Simulators funding

below)

### Contractor

T&E Facilities/Instrumentation: Provide all funding for provision of T&E capability through investments in plant and equipment at contractor facilities. As necessary, provide the rationale for funding facilities at contractor installations rather than at Government activities in the program description section of this exhibit.

T&E Costs: Provide funding for performing T&E at contractor facilities (exclude investment funding included above.)

## Government

T&E Facilities/Instrumentation: Provide all funding for investments in T&E capability for plant and equipment at government facilities. Indicate whether such capabilities exist elsewhere, why duplication is warranted (if that is the case), and whether the requirement for this investment has been endorsed through the Joint Commanders Group (Test and Evaluation) review.

Page 3 of 4

T&E Costs: Provide funding for performing T&E at Government facilities. These costs include all funding provided as reimbursable orders to Major Range and Test Facility Bases and other installations.

(b) Targets and Threat Simulators: Provide all funding identified for targets and threat

(c) OT&E: Provide all funding for conducting OT&E. Provide information requested in paragraph 2.b.(3)(a) above for new facilities, if applicable.

simulators.

DT&E.

(d) LFT&E: Provide all funding for conducting LFT&E. Provide information requested in paragraph 2.b.(3)(a) above for new facilities, if applicable.

C. <u>Test Articles</u>: Provide the number of test articles to support the T&E planned for the system by year of delivery of the article. Multi-use articles should be identified as such. Components, subsystems, and surrogates should be separated from complete, combat-configured articles.

(1) DT&E: Show number of test articles by year of delivery to be used primarily for support of

(2) LFT&E: Show number of test articles by year of delivery to be primarily for support of LFT&E.

(3) OT&E: Show number of test articles by year of delivery to be used primarily for support of OT&E.

D. <u>Approved T&E Master Plan Funding</u>: Provide funding included in the most recently approved T&E Master Plan (TEMP). Significant variations from the TEMP funding for T&E included in this entry and the amount reported in T&E funding above are to be addressed in the program description section of this exhibit.

### **Explanation of Funding Changes**

\* Provide a narrative explanation (in program terms) for any increase/decrease that is in excess of the estimated rate of inflation. This explanation of increase/decrease is required for changes between the *PY* and the *CY*, between the CY and the BY1, and between the BY1 and the BY2.

Notes:

- 1. All totals displayed must equal amounts reported in object class 25.1.
- 2. FFRDC Federally Funded Research & Development Centers.
- 3. A separate PB-15 must be prepared for each appropriation/fund.
- 4. A summary PB-15 must be prepared when consulting services are funded from more than one appropriation/fund.

### ADVISORY AND ASSISTANCE SERVICES Instructions for Exhibit PB-15

**BACKGROUND:** The purpose of the exhibit is to provide Congress with actual estimates on the amount spent by DoD on advisory and assistance services which are utilized to enhance, assist, or improve the ability of government employees to make decisions on governmental processes, program, and systems. Congressional concern stems from both the cost and nature of advisory and assistance services. When contractors provide advice or assistance that may affect decision-making, influence policy development, or provide support to project or program management, it is essential to ensure that the contractor's performance is free of potential conflicts of interest and does not impinge upon the performance of inherently governmental functions by government employees. As such, advisory and assistance services require an appropriate degree of enhanced management and oversight. When using contractor provided products, final decisions, or actions must reflect the independent conclusions of DoD officials. Advisory and Assistance Services (object class 25.1) include services acquired by contract from non-governmental sources that provide management and professional support services; studies, analyses, and evaluations; and engineering and technical services, as defined below.

### The definitions indicated below have been substantially revised to incorporate the changes indicated in section 911 of the National Defense Authorization Act for FY 1999 (codified in section 2212(b) of title 10 U.S.C.).

ADVISORY AND ASSISTANCE SERVICES DEFINITION (Object Class 25.1): Obligations for advisory and assistance services acquired by contract from non-governmental sources (including Federally Funded Research and Development Centers (FFRDCs) and non-FFRDCs) to support or improve organization policy development, decision making, management, and administration; support program and/or project management and administration; provide management and support services for Research and Development (R&D) activities; provide engineering and technical support services; or improve the effectiveness of management processes or procedures. The products of advisory and assistance services may take the form of information, advice, opinions, alternatives, analyses, evaluations, recommendations, training, and technical support. Object class 25.1 consists of the following three categories:

<u>Management and Professional Support Service</u>: This category includes funding for contractual services that provide *engineering or technical support*, assistance, advice, or training for the efficient and effective management and operation of organizations, activities (including management and support services for R&D activities), or systems. These efforts are closely related to the basic responsibilities and mission of the using organization and contribute to improved organization of program management, logistics management, project monitoring and reporting, data collection, budgeting, accounting, performance auditing, and administrative/technical support for conferences and training programs.

<u>Studies, Analyses, and Evaluations</u>: This category includes funding for contractual services to provide organized, analytic assessments to understand or evaluate complex issues to improve policy development, decision making, management, or administration and that result in documents containing data or leading to conclusions or recommendations. Those services may include databases, models, methodologies, and related software created in support of a study, analysis, or evaluation.

<u>Engineering and Technical Services</u>: This category includes funding for contractual services that take the form of advice, assistance, training, or hands-on training necessary to maintain and operate fielded weapon systems, equipment, and components (including software when applicable) at design or required levels of effectiveness.

**ADDITIONAL GUIDANCE:** Section 911 of the FY 1999 National Defense Authorization Act (P.L. 105-261)reinstated the exemptions allowed under DoD Directive 4205.2, "Acquiring and Managing Contracted Advisory and Assistance Services (CAAS)," dated February 10, 1992. Therefore, the number of currently authorized exemptions exceeds the number of exemptions included in the latest OMB Circular A-11 (June 1999). The following exemptions from DoD Directive 4205.2 describe various contracted services that are not advisory and assistance services. Revisions to DoD Directive 4205.2 may change these exemptions. Any such changes will be highlighted in supplemental guidance prior to the budget submission.

> Exhibit PB-15 Advisory and Assistance Services (Page 2 of 4)

- Activities that are reviewed and/or acquired in accordance with the OMB Circular A-76 program.
- Architectural and engineering services for construction and construction management services procured in accordance with the Federal Acquisition Regulation (FAR), Part 36. Work not related to construction as defined by Part 36, and that meets the A&AS definition under existing architectural and engineering contracts, shall come under the purview of this Guidance.
- Day-to-day operation of facilities (for example, the Arnold Engineering Development Center and related facilities) and housekeeping services and functions (for example, building and grounds maintenance, and physical security).
- Routine maintenance of systems, equipment, and software; routine administrative services; printing services; and direct advertising (media) services.
- Initial training services acquired as an integral part of the procurement of weapon systems, automated data
  processing systems, equipment or components, and training obtained for individual professional development.
- Basic operation and management contracts for Government-owned, contractor-operated facilities (GOCOs); for example, the Holston Army Ammunition Plant in Kingsport, TN. Any contract action meeting the A&AS definition and procured under the GOCO basic contract shall come under the purview of this Guidance.
- Clinical and medical services for direct healthcare.
- The ADP and/or telecommunication functions and related services controlled in accordance with the Federal Information Resources Management Regulation (FIRMR) (Title 41, Code of Federal Regulations, Part 201).
- The ADP and/or telecommunications functions and related services exempted from FIRMR control pursuant to Section 2315 of title 10 United States Code and reported in Budget Exhibit 43a, "Report on Information Technology Systems," of DoD 7110.1-M.
- Services supporting the policy development, management, and administration of the Foreign Military Sales
  Program that are not paid for with funds appropriated by the U.S. Congress. (Includes A&AS funded with
  appropriated funds and reimbursed by the foreign customer).
- Services (for example, systems engineering and technical services) acquired by or for a program office to
  increase the design performance capabilities of existing or new systems or where they are integral to the
  logistics support and maintenance of a system or major component and/or end item of equipment essential to
  the operation of the system before final Government acceptance of a complete hardware system. Care must be
  exercised to avoid exempting services acquired to advise and assist the program office and/or manager for
  program and/or contractor oversight and administration processes, resource management, planning and
  programming, milestone and schedule tracking, or other professional or administrative services necessary in
  performing its mission.
- Research on theoretical mathematics and basic medical, biological, physical, social, psychological, or other phenomena.
- Auctioneers, realty-brokers, appraisers, and surveyors.
- Services procured with funds from the Defense Environmental Restoration Account.

Exhibit PB-15 Advisory and Assistance Services (Page 3 of 4) **<u>COVERAGE</u>**: This reporting requirement covers all DoD appropriations and funds. Consulting services acquired from contracts managed by other Government Agencies and paid for with DoD appropriations **must** be reported.

PREPARATION REQUIREMENTS FOR EXHIBIT PB-15: Each DoD Component must submit the PB-15 exhibit even if they are not procuring advisory and assistance services; negative replies are required. A separate exhibit is required for each appropriation and fund. For annual and multiyear appropriations, planned obligations should be shown in the year of the appropriation rather than the year the obligation is planned. Prior year columns should reflect actual obligations incurred plus additional obligations planned over the remaining life of that fiscal year appropriations. Current and budget year columns should reflect all obligations planned over the life of those appropriations. The Defense Working Capital Fund (DWCF) business areas should identify budgeted obligations in the year those obligations are planned for contracts in support of DWCF activity functions but not those in support of customer workload. The identification of advisory and assistance services in support of appropriations managed by one Component but executed by another Component, fund (e.g., DWCF),or through federally funded research and development centers is the responsibility of the appropriation fund manager. In determining whether a contract is for advisory and assistance services, the contracting or executing organization is not relevant. For example, advisory and assistance services in support of one of the Environmental Restoration transfer appropriations but executed by the Military Departments must be identified in appropriation exhibits submitted for that Environmental appropriation. Each Component will provide overall summary displays for their Component appropriations/funds totals.

**SUBMISSION REQUIREMENTS:** For the OSD/OMB budget submission, the PB-15 exhibit will be submitted as a separate exhibit. For the President's budget submission to the Congress, the PB 15 exhibit will be included as an exhibit in Volume II - Data Book. Each Military Department and Defense Agency will provide an exhibit for each appropriation/fund. In addition, each Military Department and Defense Agency will provide a consolidated exhibit for all appropriations/funds under their control.

\*\* The PB-15 exhibit should reflect the same resource amounts as identified in Object Class 25.1. Any discrepancies between the PB-15 and Object Class 25.1 must be fully explained. Each PB-15 exhibit is required to contain each appropriation manager's name and telephone number.\*\*

## EMPLOYEE RELOCATION EXPENSES DOD COMPONENT

The Office of Management and Budget (OMB) requires all Federal agencies to report all costs associated with relocating employees. Therefore, all Components are required to use the format below to report total obligations for the expenses of employee relocations associated with the past, current, and budget years (BY1 and BY2). Employee relocation expenses are payments to Federal employees (military and civilian) for costs related to permanent change in a workstation; i.e., when the Federal government pays a person to move his/her residence because he or she is assigned to work in a different place (e.g., city, state, or country). These obligations are normally reported as part of the following object classes (OC):

- Travel and transportation of persons (OC 21)
- Transportation of things (e.g., movement of household goods, except for storage costs, which are under OC 25.7) (OC 22)
- Civilian personnel benefits (e.g., various relocations allowances, expenses associated with the sale of residence, breaking a lease) (OC 12.1)
  - Military personnel benefits (same as OC 12.1, except that it applies to military personnel only) (OC 12.2)
- Operation and Maintenance of equipment (includes contractual services for storage and care of vehicles and storage of household goods, but only those associated with relocation) (OC 25.7)

"Total Contracts" must equal the sum of all Object Class 25.X resources reflected on the Program and Financing Schedule. Direct and reimbursable should be shown on separate lines and identified with a (D) for direct or (R) for reimbursable after the appropriation title. Direct and Reimbursable object class codes to be included in "Total Contracts" are: 25110, 25310, 25310, 25330, 25410, 25510, 25710, and 25810.

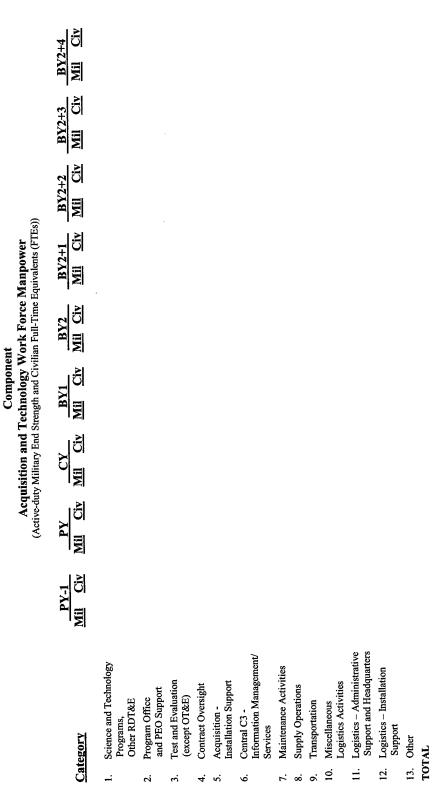

"Other Services Contracts" will equal Object Class 25.2 (25210 for direct and reimbursable) resources reflected on the Program and Financing Schedule.

Each Component must complete and submit the PB-19 exhbit for every appropriation/fund for which they are responsible. Negative reports are required. Note: \* If percentage of other services contracts (object class 25.2) exceeds 15 percent of total contracts a narrative explanation is also required. The PB-19 Exhibit must be submitted to OUSD(C) Operations and Personnel Directorate, Room 3D868, telephone (703) 697-9317/3101.

# Acquisition and Technology Work Force Exhibit Instructions

Background: Section 912(b) of the National Defense Authorization Act for FY 1998 required the DoD to adopt and implement a new definition of the Defense acquisition work force. This new definition is based on specified organizational and occupational criteria that is described in the Jefferson Solutions technical report "Identification of the DoD Key Acquisition and Technology Workforce, DASW01-98-C-0010, May 1999." This report is available from the DoD Acquisition Education, Training, and Career Development office at (703) 578-2761.

Component is required to submit the exhibit PB-23 beginning with the FY 2002/FY 2003 Budget Estimates Submission (BES). This exhibit must be submitted Display: In order to provide the required congressional reports, the acquisition and technology (A&T) work force must be identified. Therefore, each for both the BES and the President's Budget. This exhibit displays manpower categories (active-duty military end-strength (E/S) and civilian full-time equivalents (FTEs)) functionally or organizationally for each fiscal year. Each Component is allowed to define the categories used in the A&T work force exhibit. Components are encouraged, but not required, to use the Future Evaluation (ODPA&E). These sample categories (which are shown on the exhibit display) are defined by a set of FYDP program elements. The exact program elements that comprise each infrastructure category may be obtained from the DPA&E Defense Programming Database (DPD) Web page on the SIPRNet at: Years Defense Program (FYDP)-based categories of DoD infrastructure developed and maintained by the Office of the Director for Program Analysis and

## Instructions for completing the PB-28

### 1. Purpose.

The PB-28 is the format for capturing all environmental Compliance, Pollution Prevention, and Conservation funding within the DoD, including amounts in Compliance used for Cleanup at overseas locations.

### 2. Coverage.

included in the format for cleanup activities overseas. (That is, those activities that would be funded in the Environmental Restoration Accounts if they occurred inside the United States) Each Component should also submit a Grand Total Exhibit that would summarize all exhibits for that Component. appropriation/fund outside the United States and Territories. For the outside the U.S. and territories, annotate at the bottom of the form, the amount Each Component shall submit a separate exhibit for each appropriation/fund inside the United States and territories and a separate exhibit for each

## 3. Submission Requirements.

The exhibit is to be submitted with the OSD Budget Estimate Submission and the President's Budget Submission. Provide narrative justification supporting changes between fiscal years. Each President's Budget Submission is to be supported by an attachment identifying the budgeted environmental quality projects equal to or over \$1.5 million. The format for the list will be provided annually under separate cover, in accordance with title 10 U.S.C. 2706(b). Exhibit PB-28 Funds Budgeted for Environmental Quality (Page 3 of 3)

1. Provide a summary sheet of all appropriations/funds.

2. Provide narrative justification for changes from year to year

3. For each appropriation, include applicable breakout categories. For example, for activities funded by

RDT&E appropriations, separately identify the amounts for each budget activity (BA): BA1 - Basic Research, BA2 - Advanced Research, BA3 - Advanced Technology Development, BA4 - Demonstration/Validation, BA5 - Engineering and Manufacturing Development, BA6 - RDT&E Management Support, and BA7 - Operational Systems Development.

Law 99-272, requires that each Federal Agency establish and operate a central monitoring system for motor vehicle costs and establish a data collection system and to report such data in support of the President's budget. Guidance as to the definition and coverage of this requirement is provided by the General Services BACKGROUND: The Consolidated Omnibus Budget Reconciliation Act of 1985, Subtitle C - Federal Motor Vehicle Expenditure Control of Public Administration in Federal Property Regulations. The vehicles used for military training, combat or tactical purposes are specifically excluded.

exhibit for the Congressional Justification/Presentation must be submitted by January  $5^{\text{th}}$ . Include in the lower right hand corner, the date of preparation, and the name and telephone number of an individual responsible for answering questions concerning the submission. PREPARATION REOUIREMENTS: Every Component of the Department is required to complete a PB-41 Motor Vehicle Operations Exhibit. Negative replies are required. These will be used by the Office of the Under Secretary of Defense (Comptroller), Operations & Personnel Directorate, 3D868 Pentagon, to prepare a consolidated exhibit, which will be provided to the Office of Management and Budget as required by OMB Circular A-11 (Section 100 – Additional Information Required After Passback). In order to meet the OMB schedule and include this information in the printed President's budget request, the PB-41

Part I displays Competitive and Strategic Sourcing savings associated with A-76 initiatives. Part II displays the same information for savings derived by non A-76 initiatives. Part III summarizes parts I and II, presenting the total Competitive and Strategic Sourcing savings generated by both A-76 and non A-76 initiatives. Instructions: Each Service and Defense Agency/Activity is to submit this exhibit. Negative replies are required. The exhibit is composed of three parts.

sourcing. Each activity should be reported in the year that the study is scheduled to be initiated. The annual cost for each activity should be reported even if you plan to outsource during the fiscal year. Report personnel data by appropriation (e.g., O&M, Revolving Funds). The cost of activities to be studied represents the total cost of operating the competed activity. Provide in the narrative description the total net military, civilian, and combined total studies completed in FY 1997 For Section I: Report baseline manpower and dollars for all single function studies completed (in PY-1) and scheduled (PY, CY, BY1, etc.) for competitive and FY 1998

For Section II: Report the same information as Section I for multifunction studies, and including the information in the narrative on FY 1997 and FY 1998 studies completed. For Section III: The cost to conduct studies is the cost associated with conducting the competitive sourcing study. The costs should reflect actual costs in the PY-1 and the amounts budgeted in the other years to conduct the studies. In the narrative description section, discuss the methodology used to develop study costs and provide justification for significant deviations from the nominal average of \$2,000 per FTE. Costs should be reported by appropriation.

For Section IV: Report costs of transition to Most Efficient Organization (MEO) or contract. Such costs include severance pay, Voluntary Separation Incentive Pay (VSIP), etc. In the narrative section, discuss the assumptions used to determine transition costs including the categories of cost included.

For civilian substitution, report the military end strength converted to civilian positions, which decreases the total civilian reduction. The Total Civilians and For Section V: Show personnel and dollar savings from competitions completed in the year being reported plus the annualized savings from previous years. Military reduction is thus the sum of the military and civilian reductions less the civilian substitution.

- FY 1998. Enter the sum of these two values in each column as Total Accrued Manpower Savings FY 1997-1998. This value, when summed with the Total Net Manpower Savings figure, yields the Total DRI Manpower Savings. In this way, the exhibit will provide information on all savings attributable to the Provide in the narrative description the total net military, civilian and combined total manpower reductions achieved and attributable to FY 1997 and DRI initiative, since its inception in FY 1997.
  - Gross savings should not be offset by the cost of studies or transition costs. In the narrative description, include a discussion of the methodology used to develop both manpower and dollar savings. Also indicate whether the savings have been distributed to specific programs or claimants.
- Net savings are equal to gross savings, offset by the cost of conducting studies (Section III) and transition costs (Section IV). Provide in the narrative the Total Net dollar savings achieved accrued in FY 1997 and FY 1998. Enter the sum of these two values in each column as Total Accrued Net Dollar Savings FY 1997-1998. This value, when summed with the Total Net Dollar Savings figure, yields the Total DRI Dollar Savings. In this way, the exhibit will provide information on all savings attributable to the DRI initiative, since its inception in FY 1997. •

Dollars and manpower are presented by appropriation throughout. Dollars are reported in thousands with savings as positive numbers and costs as negative numbers. Manpower savings are reported as end strength (ES) for military and reserve personnel and Full Time Equivalents (FTEs) for civilian personnel. Manpower savings are positive numbers and civilian substitutions are negative numbers. Exhibit PB-42 Competitive and Strategic Sourcing (Page 1 of 4)

### Instructions Exhibit PB-52A\_DoD Aeronautics Budget

1. <u>Purpose</u>. This exhibit identifies research and development funding for Aeronautics programs. The data are used to prepare the overall DoD input into the annual President's Aeronautics and Space Report which is prepared by the Office of Management and Budget (OMB). A copy of the final report is available for information in the OUSD(Comptroller) Investment Directorate.

### 2. Submission.

a. Exhibit PB-52A should separately identify all RDT&E program elements providing funds in support of the development of systems, subsystems and components used in rotary and fixed wing aircraft.

b. Data are to be provided in millions of dollars, using 3 decimal points.

c. Submission of the required exhibit will be made in hard paper copy and in a DOS/Excel format. [Floppy disk: 360K, 5 1/4"; or 1.44MB, 3 1/2"].

d. The submission of the completed exhibits to the OUSD(Comptroller) is due no later than 15 working days after transmission of the President's budget to the Congress.

### 3. Entries.

Exhibit PB-52A (Aeronautics Programs)

a. Program Title. Insert the official program title as reflected in the R-1 budget exhibit.

b. <u>Program Element Number</u>. Insert the official 7-digit plus organization program element designator as reflected in the R-1 budget exhibit.

c. <u>Budget Estimate</u>. The completed exhibits are to reflect the estimated cost, as funded in the Future Year Defense Program (FYDP), by fiscal year for the period FY 20PY-2 through FY 20BY2 (the three prior years, the current year and the budget years). All amounts should be in then years (TY)

### Instructions for Preparation of Exhibit PB-52B DoD Space Budget

1. <u>Purpose</u>. This exhibit identifies all funding for Space programs. The data will be used to prepare an exhibit which reflects total DoD funding for Space Programs. The data from the DoD exhibit is used to support a myriad of Space Budget Justification requirements including Congressional Space Budget Justification and the DoD input into the President's Aeronautics and Space Report which is prepared by the Office of Management and Budget (OMB). The data are also used to support congressional hearings on space programs and to fulfill other various information requests regarding space-related funding.

### 2. Submission.

a. Exhibit PB-52B is required to identify funding in all DoD appropriations directly or indirectly related to space based systems.

b. The data are to be provided in millions of dollars, using 3 decimal points.

c. Submission of the required exhibit will be made in hard paper copy and in a DOS/Excel format. [Floppy disk: 360K, 5 1/4"; or 1.44MB, 3 1/2"].

d. The submission of the completed exhibit to the OUSD(Comptroller) is due no later than fifteen (15) working days after transmission of the President's Budget to the Congress.

### 3. Entries.

### Exhibit PB-52B

a. <u>Program Title</u>. Insert the official program title as reflected in the P-1, R-1, C-1, Military Personnel, and Operation & Maintenance budget justification exhibits.

b. <u>Program Element Number</u>. Insert the official 7-digit plus organization program element number related to the program/activity.

c. <u>Appropriation</u>. Insert the funding appropriation of the program/activity entry. Below are the valid appropriations for this exhibit:

| Air Force   | <u>Navy</u> | Army      | Defense Agencies |
|-------------|-------------|-----------|------------------|
| APAF        | SCN         | APÁ       | PDA              |
| WPAF        | APN         | MPA       | NG&RE            |
| <b>OPAF</b> | WPN         | PW&TCV    | DPA              |
| RDT&E,AF    | OPN         | OPA       | RDT&E,DW         |
| O&M,AF      | PMC         | RDT&E,A   | O&M,DW           |
| MILPÉR, AF  | RDT&E,N     | O&M,A     | MILPERS, DW      |
| MILCON, AF  | O&M,N       | MILPERS,A | MILCON, DW       |
|             | MILPER,N    | MILCON,A  |                  |
|             | MILCON,N    |           |                  |

e. <u>Factor</u>. If the funding for a Space related activity is only a fraction on the total in a given program element, identify the percent of the total program relating to Space activity. (Example: in most cases the proper response is 100%, however if only half the funds budgeted in a given budget line is related to space, enter 50%).

f. <u>Category</u>. Categorize the line entries by the following Space activity:

Navigation consists primarily of programs related to Space based navigation and positioning systems. This category would include funding for development, procurement, operations and use of TRANSIT and NAVSTAR/GPS satellite: satellite ground control costs to include operations and maintenance; costs of contractor technical and engineering support; Federal civilian and Milpers costs; construction of peculiar system support facilities and equipment; development and procurement of user terminals; development, procurement and installation of antennas and command and control hardware and software.

Page 2 of 4

Communication includes programs related to providing a satellite communications service. This category would include funding for satellite development and procurement and operation of MILSTAR, DSCS, FLTSATCOM, UHF Follow-on, etc.; satellite ground control costs to include operations and maintenance; costs of contractor technical and engineering support; Federal civilian and Milpers costs; construction of peculiar system support facilities and equipment; development and procurement of user terminals; development, procurement and installation of antennas and command and control hardware and software.

**Mapping** includes programs related efforts to obtain more accurate data for geographic maps and charts and provide geophysical information to strategic and tactical weapon systems. This category would include funding for system to identify size, shape, and gravity field of the earth. This category would include funding for satellite development and procurement; satellite ground control costs to include operations and maintenance; costs of contractor technical and engineering support; Federal civilian and Milpers costs; construction of peculiar system support facilities and equipment; development and procurement of user terminals; development, procurement and installation of antennas and command and control hardware and software.

**Meteorology** consists of programs that supply timely weather information such as the DMSP satellite. Would include procurement and development of satellites; satellite ground control costs to include operations, and maintenance; costs of contractor technical and engineering support; Federal civilian and Milpers costs; construction of dedicated system support facilities; development and procurement of user terminals; development, procurement and installation of antennas and command and control hardware and software.

Launch Vehicles includes the cost of developing and procuring expendable launch vehicles; costs of DoD use of the NASA Space Shuttle vehicle. This category would include the cost of Titan IV, Atlas II, Delta II, the National Launch System, Pegasus and other space launch vehicles.

Surveillance includes those costs related to providing detection of land, sea and air surveillance. Would include costs of DSP, Brilliant Eyes, Improved Space Based TW/AA satellite, ALARM and other strategic and tactical satellite procurement and development programs; satellite ground control costs to include operations and maintenance; costs of contractor technical and engineering support; Federal civilian and Milpers costs; construction of peculiar system support facilities; development and procurement of user terminals; development, procurement and installation of antennas and command and control hardware and software.

**Intelligence** includes those costs relating to providing space based intelligence service. This category would include cost of user systems procurement and development; command & control costs to include operations and maintenance costs; costs of contractor technical and engineering support; Federal civilian and Milpers costs; construction of peculiar system support facilities; development and procurement of user terminals; development, procurement and installation of antennas and associated hardware and software. Note: the completed exhibit should not exceed a SECRET clearance level.

**Missile Defense** includes those costs relating to providing a defense from strategic and tactical ballistic missiles. This would include cost of developing and procuring space based interceptor such as Brilliant Pebbles and space based kinetic and directed energy weapons. This would also include: cost of technical and engineering studies and architecture development; cost of ground control to include operations and maintenance; costs of contractor technical and engineering support; Federal civilian and Milpers costs; construction of peculiar system support facilities; development and procurement of terminals; development, procurement and installation of antennas and command and control hardware and software.

**General Support** includes various functions such as costs for support the deployment and sustainment of space based systems. This category would include operations and maintenance cost of space launch facilities and infrastructure; the cost of maintaining and operating the west and east coast ranges. This would include the cost of contractor technical and engineering support; Federal civilian and Milpers costs; construction of facilities; development and procurement of terminals; development, procurement and installation of antennas and command and control hardware and software.

Page 3 of 4

**Supporting RDT&E** includes those costs relating to space systems technology not directly associated with a particular spacecraft or vehicle. This would include the development of common components; developing generic technologies for space based components and launch vehicles; Technological Base development; and the cost of space test programs.

g. <u>Budget Estimate</u>. Insert in millions (3 decimals) the approved funding for the three prior budget years, current year, the budget years, and four outyears. All amounts should be in then years (TY).

The Office of Management and Budget is required to submit a report to the Congress that describes total federal expenditures for official international travel and the total number of individuals who engaged in such travel during the previous fiscal year. International travel is all travel between the United States and other nations, and travel between other nations. The United States refers to the continental United States, Alaska, Hawaii, and all territories.

This includes all instances when the federal government pays directly or reimburses the traveler. This does not include payments by contracts or grantees. In Expenditures refer to the total direct obligations incurred and reported in object class 21, travel and transportation of persons, for international travel. addition, this does not include expenses related to the relocation of federal employees (e.g., permanent change of stations) Individuals refers to the total number of people (not full-time equivalents) who engaged in international travel. This specifically refers to the number of individuals, as opposed to the number of trips individuals take (e.g., a person who takes two international trips is one individual)

submitted 5 days after their database locks. For the President's budget submission, this data is required by January 10. OMB Circular A-11 is updated Section 100.4 of OMB Circular A-11, dated July 12, 1999, specifies the requirements for this exhibit and requires the information to be annually.
