# **CHAPTER 4**

**★**June 2000

# **PROCUREMENT APPROPRIATIONS**

# 0401 GENERAL

# 040101 Purpose

This chapter provides instructions applicable to budget formulation and congressional justification for procurement and production activities.

# 040102 Submission Requirements.

General guidance with regard to submission requirements is presented in Chapter 1. Chapter 4 covers specific back-up material requirements for procurement accounts. The procurement accounts should also submit applicable exhibits required by other chapters in the FMR.

# 040103 Not Used

# 040104 Guard and Reserve Procurement

Exhibit P-1R, Procurement Program - Reserve Components. A separate P-1R exhibit showing quantities and costs of procurement items planned for the National Guard and Reserve will be prepared with the budget estimate submission and with the President's budget submission. The P-1R exhibit is a subset of the Exhibit P-1, Procurement Program. The format is contained in Section 040502. Each Service will provide exhibits in spreadsheet format in both a hard copy and on a 3 1/2 inch floppy disk. The information submitted in the budget estimate submission will be reviewed in conjunction with the procurement appropriation reviews. OUSD(C) will consolidate the information into a single P-1R exhibit for the President's budget.

# 040105 Subsystem Budget Estimates

Any platform that includes funding for subsystems that are designated as Defense Acquisition Executive Summary (DAES) or Selected Acquisition Reporting (SAR) programs must identify the specific subsystem funding by fiscal year and by subsystem on the P-5 exhibits.

### 040106 References

Chapter 1, Section 0102, provides policies and definitions concerning costs that are to be financed by the procurement appropriations.

# 0402 PROCUREMENT EXHIBIT REQUIREMENTS

# SUMMARY OF EXHIBIT REQUIREMENTS

|       | <u>Exhibit</u>                                           | <b>Appropriation</b> |
|-------|----------------------------------------------------------|----------------------|

|       |                                                          |                      |

# 0403 BUDGET ESTIMATE SUBMISSION

A. This Section provides guidance for the preparation of material to support the budget estimate submission and President's budget request. Information contained in the budget requests should be unclassified. Where classified information is required in order to explain the program, the classified material will be provided under separate cover and appropriately marked.

B. Each backup book will include an Exhibit P-1, Procurement Program, specific exhibits for those items covered by the backup book, and a listing of acronyms and definitions in the front of each back-up book to preclude spelling the acronyms on each exhibit page.

C. All applicable budget exhibits will be prepared for those programs with a funding value of \$5 million or greater. For programs with a funding value less than \$5 million, only the P-40 and P-40a exhibits are required.

D. All Exhibits P-20, Requirements Study, can be submitted in a separate backup book. The P-20 exhibits can also be consolidated by appropriation or as a single back-up book by each Service. If consolidated by Service, however, increase the number of copies provided to OUSD(C) P/B Investment by the number of appropriations included in the backup book.

E. Exhibits will display the actual fiscal years (i.e., PYs, FY 1997, FY 1998, FY 1999, FY 2000, FY 2001, FY 2002, FY 2003, and FY 2004.) rather than the template entries (i.e., PYs, PY, CY, BY1, BY2, BY2+1, BY2+2, BY2+3, and BY2+4).

F. If an amended budget is submitted, identify the revised budget exhibits accordingly.

G. All pages will be annotated with the applicable P-1 line item number and page number within the line item (Item 1-1 of 5, 1-2 of 5, 2-1 of 1, 3-1 of 20, etc.) at the bottom center or bottom right of each exhibit page. Be consistent for all pages of the backup book.

H. The exhibits will be aggregated in the following order for each P-1 line item, as applicable to that line item and submitted in P-1 line item order.

# Arrangement of Exhibits - General

- P-1 Procurement Program
- P-1C Procurement Program Comparison Report
- P-40 Budget Item Justification
- P-40a Budget Item Just for Aggregated Items
- MYP 1-4 Multiyear Procurement Analysis
- P-10 Advance Procurement Analysis
- P-5 Cost Analysis
- P-5a Procurement History and Planning
- P-21 Production Schedule
- P-23 Time Phased Requirements Schedule
- P-23a Installations Data
- P-36 Depot Level Ship Maintenance Schedule (OPN only)
- P-25 Production Support and Industrial Facilities Cost Analysis
- P-17 Layaway and/or Distribution
- P-18 Initial and Replenishment Spares Requirements
- P-32 Procurement Purchases from DWCF
- P-45 Summary of Reimbursables
- P-20 Requirements Study

Volume 2B, Chapter 4 ★June 2000

- Arrangement of Exhibits for Modifications
- P-1 Procurement Program
- P-1M Modification Summary
- P-40 Budget Item Justification
- MYP 1-4 Multiyear Procurement Analysis
- P-3a Individual Modification Program
- P-40a Budget Item Just for Aggregated Items
- P-32 Procurement Purchases from DWCF
- Arrangement for Ship Procurement Accounts
- P-1 Procurement Program
- P-1C Procurement Program Comparison Report
- P-40 Budget Item Justification
- MYP 1-4 Multiyear Procurement Analysis
- P-10 Advance Procurement Analysis
- P-5 Cost Analysis
- P-5b Analysis of Cost Estimate-Basic/Escalation
- P-27 Ship Production Schedule
- P-8a Analysis of Ship Cost Estimates Major Equipment
- P-29 Outfitting Costs
- P-30 Post Delivery Estimates
- P-35 Major Ship Component Fact Sheet
- P-45 Summary of Reimbursables
- P-32 Procurement Purchases from DWCF

## Arrangement for Ammunition Accounts

- P-1 Procurement Program
- P-1C Procurement Program Comparison Report
- P-40 Budget Item Justification
- P-40a Budget Item Just for Aggregated Items
- P-5 Cost Analysis
- P-5a Procurement History and Planning
- P-21 Production Schedule
- P-21a Production Schedule, All types
- MYP 1-4 Multiyear Procurement Analysis
- P-25 Production Support and Industrial Facilities Cost Analysis
- P-17 Layaway and/or Distribution
- P-26 Maintenance of Inactive Facilities
- P-22 Ammunition Inventory
- P-18 Initial and Replenishment Spares Requirements
- P-32 Procurement Purchases from DWCF
- P-45 Summary of Reimbursables
- P-20 Requirements Study

For ammunition "Items Under \$5 Million" P-1 line items, only the P-40 and P-40a, showing both quantity and funding for each item, will be included in the backup book. Even though individual P-21 exhibits are not required for these items, their deliveries should be included in the Exhibit P-21a.

# **DoD Financial Management Regulation**

# **Chemical Agents and Munitions Destruction**

The Chemical Agents and Munitions Destruction, Defense appropriation contains multiple types of funds (RDT&E, procurement, and O&M) in separate budget activities. While the RDT&E and O&M efforts may be incrementally funded, the procurement program must comply with the full funding policy. The Army is to provide the justification book in accordance with the following.

Table of ContentsAppropriation LanguageProgram and FinancingObject ClassificationAppropriation JustificationPart IPurpose and ScopePart IIJustification of Funds RequiredPart IIIProgram Description and Milestone Chart

Budget Activity 1: Research and Development

- Part I Purpose and Scope
- Part II Justification of Funds Required
- Part III Financial Summary
- RDT&E RDT&E Exhibits (See Chapter 5)

### Budget Activity 2: Procurement

- Part I Purpose and Scope
- Part II Justification of Funds Required
- Part III Financial Summary
- P-40 Budget Item Justification
- P-5 Cost Analysis
- P-5a Procurement History & Planning

Budget Activity 3: Operation and Maintenance

- Part I Purpose and Scope
- Part II Justification of Funds Required
- Part III Financial Summary
- OP-5 (Pt 1) Decision Unit/Budget Activity Summary (See Chapter 3)
- OP-5 (Pt 2) Activity Group Detail, Including a Reconciliation of Increases and Decreases (See Chapter 3)
- OP-32 Summary of Price and Program Changes (See Chapter 3)

C. <u>Preparation of Material</u>. Formats and examples of the exhibits are contained in Section 0404. Except for the items listed below, instructions are included either on the exhibit or following the exhibit.

1. <u>Repricing Report</u>. One copy of the "Ship Cost Adjustment Report" must be submitted by 1 July. The report must include the following information:

a. A comparison of the previously approved SCA position to the recommended SCA position, by ship type (end cost/subhead) by P-5 category. In addition to individual program adjustments, this comparison should be summarized by total TOA adjustments in each fiscal year.

b. The SCA position by ship type by P-5 category with associated accounting data, i.e., gross obligations and expenditures.

c. A listing of all transfers, both below threshold and those requiring congressional approval (DD 1415s) for the current and expired years.

# **DoD Financial Management Regulation**

d. All adjustments within a cost growth or escalation line by ship program.

e. Latest delivery date information and percentage of physical completion of all undelivered

ships.

f. Amount of required extended obligation authority for the expiring program year by line item and the associated Obligation Work Limiting Date by ship hull.

g. A list of all major shore spares and characteristic changes, and associated costs, included in the SCA.

h. A report on basic construction costs estimated at completion (EAC) by individual contract for all ships still within the SCN envelope. This report should compare the current contract status to the Navy's SCA projection as well as the contractor's estimate. This report should be submitted on July 1 and quarterly thereafter.

2. A 4-column ship list and Derivation of Cost Growth/Escalation exhibit will be provided with each budget submission.

3. For each ship basic construction award during the current program period, contract award information referred to as the "Stevens Report" must be submitted to OSD at the same time the report is forwarded to Congress.

# 0404 CONGRESSIONAL JUSTIFICATION/PRESENTATION

#### 040401 Purpose

This Section presents the backup book organization and the exhibit requirements for submission to Congress. Examples of budget exhibits can be found in Section 040502. See Chapter 1, Section 0104 for specific printing requirements.

#### 040402 Organization of Justification Books

Justification material will be organized into a Committee Staff Procurement Backup Book. Section 010403 provides a detailed distribution schedule for the procurement backup books. A separate congressional committee backup book will be prepared for the President's budget request for each procurement appropriation. These books should assembled with the following:

Committee Staff Procurement Backup Book FY 20BY1/BY2 Budget Request Appropriation

Section 1 - Summary Material Table of Contents P-1 listing (P-1 Exhibits will be prepared using the OUSD(C) automated system with input from the Services and Defense Agencies)

#### Section 2 - Budget Appendix Extract Language

<u>Section 3 - Status of Completion of Prior Year Shipbuilding Program (if applicable)</u>. Provide a list of uncompleted ships as of Dec 31, 20PY. The first column should segregate the uncompleted ships by prior years, past years, and current year. The second and subsequent columns should identify the fiscal year in which the ships are to be completed.

Section 4 - P-1 Line Item Detail. Except for specific changes addressed below, these books will contain the budget exhibits as specified in Section 040502, for all procurement line items for which a budget request of \$5 million or greater is reflected in either of the two biennial budget years on the P-1 exhibit. For programs with a funding value less than \$5 million, only the P-40 and P-40a exhibits are required. For current and past year programs, exhibits will be prepared for programs with a dollar value of \$5 million or more in either year. The exhibits will be aggregated in the following order for each P-1 line item, as applicable to that line item and submitted in P-1 line item order.

# Arrangement of Exhibits - General

- P-1 Procurement Program
- P-40 Budget Item Justification
- P-40a Budget Item Just for Aggregated Items
- MYP 1-4 Multiyear Procurement Analysis
- P-10 Advance Procurement Analysis
- P-5 Cost Analysis
- P-5a Procurement History and Planning
- P-21 Production Schedule (for ACAT I programs only)
- P-25 Production Support and Industrial Facilities Cost Analysis
- P-17 Lavaway and/or Distribution
- P-18 Initial and Replenishment Spares Requirements
- P-45 Summary of Reimbursables

  - OP-32 Summary of Price and Program Changes (See Chapter 3)

<u>Section 5 - Military Construction</u>. This section will be prepared for military construction projects (DD Form 1391) funded in the procurement appropriations.

# 040403 Classification

The budget justification material should be unclassified. All classified material should be submitted separately.

# 040404 Comparison Reports

A. Each Component will provide 3 copies of a computer run that compares the current President's budget submission to the previous President's budget submission and identifies the changes for each Procurement appropriation by P-1 line item and for those items that are aggregated in a P-1 line item (such as "Items Less than \$5.0 Million). The report should also identify appropriation and budget activity totals for each fiscal year for the PY through BY2+4 timeframe. The totals for the appropriation and budget activities should also compare the current President's budget submission to the previous President's budget and provide the applicable changes. The comparison reports should be provided directly to OUSD(C), Director for Investment, Room 4B915, when the Component has finalized the current President's budget submission but no later than when the justification material receives final approval from the OUSD(C) for submission to the Congress. This report will not be included in the justification material provided to the Congress.

# 0405 PROCUREMENT APPROPRIATION SUBMISSION FORMATS

## 040501 Purpose.

A. The formats provided on the following pages reflect guidance presented in previous sections of this chapter.

B. Budget exhibits contained in this section will be prepared for all procurement line items for which a budget request of \$5 million or greater is reflected in either of the two biennial budget years on the P-1 exhibit. For programs with a funding value less than \$5 million, only the P-40 and P-40a exhibits are required.

C. Service-generated and Defense Agency-generated exhibits can be used in lieu of the following exhibits as long as they include all the information required by the following exhibits.

D. All formats will be prepared on 8 1/2 inch by 11 inch paper in landscape format.

E. Except for paragraph C above and unless modified in a submission budget call, these exhibits should be adhered to.

# 040502 Exhibits in Support of Section 0401 - General

| P-1, Procurement Program                                              | 12   |

**Exhibit P-1R, Procurement Program- Reserve Components** 

# Instructions Exhibit P-1, Procurement Program Exhibit P-1C, Procurement Program - Comparison Exhibit P-1M, Procurement Program - Modification Summary Exhibit P-1R, Procurement Program - Reserve Components

# I. General

A. A summary by budget project/activity will be prepared for each appropriation, showing the amount for each project/activity and the total program for each appropriation. The detail of the consolidated line items in this entry should be available upon request. There should be no consolidation into a "Less than \$5.0 million" line item for any line item requiring specific quantity authorization and for any Code B item.

B. Unless otherwise prescribed for a specific commodity area, only procurement line items with funding of \$5.0 million or more will be listed individually. An item should be separately listed if funding of more than \$5.0 million is included in any past or current year. Items less than \$5.0 million should be consolidated into a single line item entry, "Items less than \$5.0 million," under each budget activity.

C. Advance Procurement. Advance procurement should be debited and credited according to the leadtimes of the advance procurement. For instance, if FY 1996 and FY 1997 advance procurement funds are required for an FY 1998 procurement, the FY 1996 AP funds would be debited in FY 1996, the FY 1997 AP funds would be debited in FY 1997, and the total of the FY 1996 and FY 1997 AP funds would be credited in FY 1998.

| Advance Procurement        |                |                |                |                |                |
|----------------------------|----------------|----------------|----------------|----------------|----------------|
| FY TOA                     | <u>FY 1996</u> | <u>FY 1997</u> | <u>FY 1998</u> | <u>FY 1999</u> | <u>FY 2000</u> |
| FY 1996 for FY 1998 (memo) | 0.4            |                |                |                |                |
| FY 1997 for FY 1998 (memo) |                | 0.4            |                |                |                |
| FY 1997 for FY 1999 (memo) |                | 0.4            |                |                |                |
| FY 1998 (memo)             |                |                | -0.8           |                |                |
| FY 1998 for FY 1999 (memo) |                |                | 0.4            |                |                |
| FY 1998 for FY 2000 (memo) |                |                | 0.4            |                |                |
| FY 1999 (memo)             |                |                |                | -0.8           |                |
| FY 1999 for FY 2000 (memo) |                |                |                | 0.4            |                |
| FY 1999 for FY 2001 (memo) |                |                |                | 0.4            |                |

D. List each aircraft and missile type and model separately, for both new procurement and modifications. Each ship type, Outfitting, Post Delivery, Cost Growth, Escalation, Service Craft, and Landing Craft will be listed as separate line items.

E. Include initial and replenishment spares financed in procurement appropriations in a single line item. Indicate the amounts included for initial and replenishment spares separately as subentries. For this purpose, all spare aircraft engines shall be considered initial spares.

F. All line items will be double spaced.

G. Costs will be expressed in millions of dollars using one decimal place, i.e.:

(\$ in millions)

15.6

(Exhibit P-1, page 4 of 6)

H. List the following Support Equipment and Facilities as separate line items:

- Common Ground Equipment Industrial Facilities War Consumables Other Production Charges Classified Projects Production Base Support Space Programs (list separately) Astronautics
- I. Specific instructions.

Appropriation. Include the title and number of the appropriation, i.e., 2034A, Procurement of Ammunition, Army.

<u>Budget Activity</u>. Include the number and title of the budget activity, i.e., Budget Activity 04, Spare and Repair Parts.

Column 1: Include the P-1 line item number.

Column 2: Item Nomenclature. Identify the name of the program.

<u>Column 3</u>: Identification Code. The letter "A" or "B" will be entered in this column. Line items will be appropriately coded according to the status of the item at the time the exhibit is prepared as follows:

<u>Code "A"</u>. Line items of material that have been approved for Service use. The term "approved for service use" means that:

<u>Army</u>. The item has been "type-classified as adopted type" (Standard) and excludes Limited Production type that is included in the development category.

Navy. The item has been approved for full rate production.

Air Force. The item has been approved for full rate production.

<u>USSOCOM</u>. The system is effective, suitable, safe, and logistically supportable. Release for Special Operations Forces is in conjunction with Milestone III production decision.

Code "B". Line items or material that have not been approved for Service use.

Columns 4-11: Self-explanatory.

(Exhibit P-1, page 5 of 6)

# Exhibit P-1C, Procurement Program - Comparison Report

In addition to the instructions for the P-1, the P-1C Comparison Report will provide a comparison between the last President's budget request and the budget estimate submission (BES) for the BES and between the last President's budget (PB) request and the current PB request for the PB. The comparison should be performed at the lowest level (by Procurement line item) and should include quantities. The report should also identify appropriation and budget activity totals for each fiscal year for the PY through BY2+4 timeframe. This report will not be included in the justification material provided to the Congress.

# Exhibit P-1C, Procurement Program - Comparison Report

# Exhibit P-1M, Procurement Program - Modification Summary

This exhibit will be prepared for all years reflected on the sample P-1M exhibit and will represent a summary by weapon system of all individual modifications that are requested for that weapon system.

Show the total procurement cost in millions using at least one decimal place for each individual modification and total cost for that weapon system or family of models of that weapon system. For example, all models of the F-4 aircraft would be included in the F-4 line (e.g. RF-4B, F-4B, F-4E, F-4G, etc., and all models of the AIM-7 missile would be included in the AIM-7 line (e.g. AIM-7E, AIM-7F, AIM-7M, etc.). Total modification cost will include only those costs budgeted in the individual P-1 line item, including installation costs.

# Exhibit P-1R, Procurement Program - Reserve Components

In addition to the instructions for the P-1, Procurement Program, the P-1R line item entries will be exactly the same line item entries as the P-1. The Exhibit P-1R line items will include 2 sub-line items. One is for the National Guard and one is for the Reserve. Subtotal of the two lines is not required, but the total for the Reserve Components cannot exceed the amount of funding included in the P-1 line item. All procurement line items having funding for National Guard and Reserve requirements, including advance procurement, ammunition, and spares and repair parts, will be included in the P-1R exhibit.

4-19

#### Instructions - Exhibit P-3a, Individual Modification

This exhibit will be submitted for all individual modification programs whose costs are greater than \$5.0 million in budget year 1 or budget year 2. Because congressional approval must be obtained for new start programs with first year costs of over two million or more than \$10 million within three years, a P-3a must be submitted for specific approval identifying those new start modifications. Use as many pages as necessary.

For Other Procurement appropriations, when only a simple modification kit is being procured and installation is being performed at the organizational level, there is no need to submit an Exhibit P-3a as long as the P-5 and P-21 include the necessary information.

The sample exhibit displays additional line items for equipment and group A installation kits. Tailor line item entries to the modification content. Use additional lines when quantities for these components differ from the quantity of end items being procured or when a unit cost comparison between years cannot be performed.

Model. Enter the model and series designation (i.e. A-10, AGM-86, F/A-18, etc.).

<u>Classification</u>. Enter the modification classification or type, i.e., safety, reliability, added capability, etc., as applicable.

Modification No. And Title: Identify the modification number and title.

Description/Justification: Provide a description of what additional capability is added to the system by this modification, and why the modification is necessary (i.e., to increase reliability, maintainability, or mission capability). If the modification is related to reliability and maintainability, indicate the current Mean-Time Between Failure (MTBF) rate of the system, what MTBF will be specified in the development/production contract, and the estimated annual savings. Identify all engineering change proposals included in the modification and provide a brief description of each and how they relate to the particular overall effort. Identify the operational requirement document (ORD) that validates the modification. Identify the quantity of aircraft in the inventory and the quantity that will receive the modification, as identified in the ORD. For example, the total objective for a radar modification might be 75 units at an estimated unit cost of \$300,000 each or total cost of \$23.5 million. Twenty units have been procured in prior years, 10 units are included in the budget year leaving 45 units to be procured in subsequent years. Identify when a different number of Group A and Group B kits are being procured (the ORD should also include this information). Identify the applicable quantity of National Guard and Reserve end items. Do not use abbreviations or acronyms of a highly technical nature. Spell the acronyms the first time and abbreviate thereafter.

<u>Development Status/Major Development Milestones:</u> Provide status of engineering effort testing and data package availability as of the budget submission date. Provide significant accomplished and planned milestone dates such as Preliminary Design Review (PDR), Critical Design Review (CDR), completion of Contractor Test and Evaluation (CTE), completion of Development Test and Evaluation (DTE), completion of Initial Operational Test and Evaluation (IOT&E), etc.

## Financial Plan:

<u>Note:</u> Prior year column includes all funding from beginning of program through the Past Year -2 (PY-2). Quantities and costs should be provided for all applicable line items. PY-1, PY, and CY are the fiscal years currently available for obligation.

(Exhibit P-3a, page 3 of 4)

<u>RDT&E</u>: Enter programmed RDT&E resources by fiscal year. These resources should be consistent with the Program Element Summary Data Sheets for RDT&E programs.

Procurement: Categories of cost shall be tailored to the individual system consistent with the program's approved work breakdown structure (WBS) elements or modification content. Sample categories are shown on the draft exhibit. Use as many line items as necessary to show this data. Enter the recurring and nonrecurring cost of the installation kits. Installation kits (Group A kits) are the provisions (cables, brackets, interface devices) necessary to prepare the system to accept the new equipment. Enter the recurring and nonrecurring cost of the equipment (Group B kits) to be installed (radar, ECM, engine etc.). If different quantities of kits are being procured for various engineering change proposals within a modification (or operational system improvement program), list the ECP A kit and ECP B kit as separate line item entries (i.e., a line item for the A kit and a line item for the B kit). Do not use an asterisk to indicate that the quantity cannot be shown because a mix of end items with different procurement quantities is being procured. This precludes the need for an addendum and presents all cost information together. Exhibits should reflect all costs and quantities from prior year (PY) through to complete (TC) because modifications procure a finite quantity.

<u>Installation</u>. The installation costs should be portrayed in the year of actual installation so that the total cost of the installation is portrayed for each year's procurement of end items. Procurement quantities and installation quantities reflected in the procurement detail should equal the quantity displayed in the installation schedule.

<u>Method Of Implementation</u>: Indicate how installation will be accomplished (Contractor, Depot field team, Depot modification line, etc.).

<u>Contract Date:</u> Enter the actual/estimated contract date (month/year, not quarter) for the item with the longest leadtime.

<u>Production Delivery Date:</u> Enter the actual/estimated production delivery dates (month/year, not quarter) for the initial item of installed equipment for the current year, budget year 1 (BY1), and BY2.

Installation Schedule: For all years of the program, show system inductions and modification completions by quarter. An installation schedule is required for all programs requiring installation funds, i.e., if the modification is being installed organically and no installation funds are required, then no schedule is required. The schedule will include completed inductions for total prior years, as well as planned inductions for all uninstalled equipment for CY, BY1, BY2, BY2+1, BY2+2, BY2+3, and BY2+4, To Complete and Total Program. Input and output must equal each other, as well as equal the total quantity of kits procured. Input and output refer to the start and end date of the modification into the aircraft (or end item). This information is required to determine when kits need to be procured. The input and output date is used as a barometer to determine the feasibility of the schedule (and thus, the procurement profile). For ongoing programs, identify the separate program using alpha or alpha-numeric suffixes to the current modification number. Include separate installation schedules for those items that have more than one method of implementation.

The P-3a should be readable after reproducing in a reduction mode. Use more than one page when necessary.

Delete all references and funding for those ECPs that were completed in prior years and for which no current or future year funding is required.

A Service-generated or Defense Agency-generated exhibit can be used in lieu of this exhibit as long as it includes all the information required by this exhibit.

Exhibit P-5, Cost Analysis (Exhibit P-5, page 2 of 8)

Ŋ

4-23

# Instructions - Exhibit P-5, Cost Analysis

<u>Purpose</u>. The purpose of this exhibit is to provide detailed cost information in support of Exhibit P-1 line items consistent with the appropriate work breakdown structure (WBS) elements for the program. It is essential that this exhibit be complete and accurate, as it is the most important exhibit in the backup book. Requirement exhibits and production schedules are related to the entries on this exhibit and it is used as the framework for line item review. The budget estimate submission will include P-5 exhibits containing information for all fiscal years (FYs) from prior years (PYs) through to complete years for all major (Acquisition Category (ACAT) 1) programs and through BY2 (as a minimum) for all other programs. The President's budget request backup justification books will include P-5 exhibits containing information for the FYs through BY2 for all programs including ACAT 1 programs. However, a P-5 exhibit (or an AF Form 1537) containing information for all FYs from PYs through to complete years for all ACAT 1 programs will be provided separately to OUSD(C) P/B, Room 4B915.

<u>General.</u> This exhibit will be prepared for all procurement programs for which funding is requested in the P-1. If two or more Services procure the same system, the P-5 exhibit cost elements should be as identical as possible except for Service unique requirements. A P-5 is not required for those programs that use a P-40a to display items included in an aggregated line item or if an Exhibit P-3a Modification Summary, has been prepared for a line item. If two or more Services procure the same system, the P-5 exhibit cost elements should be as identical as possible except for Service-unique requirements.

# Entries:

<u>Heading</u>. Insert Appropriation, Budget Activity, and identification code (as identified on the P-1) in the appropriate block. Insert the Exhibit P-1 line item title and add after the title the subhead number for the line item in parenthesis.

<u>Elements of Cost</u>. Categories of cost shall be tailored to the individual system consistent with the program's approved work breakdown structure (WBS) elements. Standard categories are to be used for similar type systems; i.e. aircraft, ships, missiles, tanks, satellites, ammunition, etc.

<u>Production support services</u>. Use generic entries such as Production Engineering, Engineering Services, Quality Assurance, Acceptance Testing, Product Improvement, etc. Include the name of the performing activity (for example, Production Support - NOP Indian Head, or Material Handling - Iowa AAP) only when needed to further clarify the generic categories.

<u>Quantity/Total Cost entries</u>. The quantity related to any cost element will be stated in units (not thousands). Only those entries where quantitative measurement is applicable should have entries in the quantity column. For example, the term "1 set" should not be used for publications, entries, documentation, etc. If the item is not subject to quantitative measurement, leave the column blank. The total cost for a cost element entry will be shown in millions, using 3 decimal places, i.e., 1.225. Cost columns will be totaled.

Advance Procurement Funding. Add (debit) the advance procurement funding in each fiscal year and subtract the advance procurement funding (credit) from the fiscal year the advance procurement supports. Ensure the credit is against the correct fiscal year (check leadtimes). Generally, Advance Procurement debits and credits will net to zero in the "total costs" column.

Initial Spares. Add initial spares funding to the net weapon system/end item cost.

<u>Unit Cost</u>. The unit cost should be displayed for each flyaway cost element on the P-5. This should be a manual entry, not computed. Otherwise, there could be lost budget authority if a reviewer (OSD, GAO, or congressional staff) asks to see the unit cost for a particular item from the contract. The last entry line, or overall weapon system unit cost, for each FY is the procurement unit cost.

(Exhibit P-5, page 3 of 8)

#### Aircraft Cost Element Categories.

Airframes/Contractor Furnished Equipment (CFE): Enter estimate for recurring airframe cost, airframe contractor furnished equipment, and engineering changes.

Engine/Accessories: Enter total engine cost including accessories. As part of stub entry, enter quantity of engines per aircraft and indicate model designation including all "dash" designators (example: Engines (4) 53-L-13). Engine unit cost column will reflect the cost of one engine.

Avionics: Separately identify CFE and GFE avionics equipment.

Armament: Enter costs for all armament.

Software: Software costs are to be separately identified.

Other Government Furnished Equipment (GFE): Enter costs for all Other GFE.

Engineering Change Orders (ECOs) - Flyaway: Include cost of anticipated, but unknown ECOs and value engineering changes for all installed aircraft components (CFE or GFE). ECOs should be funded commensurate with the level of risk in the program.

Nonrecurring Costs: Enter total nonrecurring costs associated with production of the flyaway article. Identify and separately display funds budgeted for production tooling in the nonrecurring cost category.

Other Costs: Use as many line items as necessary to identify elements and associated costs.

Airframe Peculiar Ground Support Equipment (PGSE): Enter cost of peculiar airframe ground support equipment.

Engine PGSE: Enter cost of peculiar engine ground support equipment.

Peculiar Training Equipment: Enter cost of all peculiar training equipment.

Publications/Technical Data: Enter cost of all CFE/GFE publications and technical data.

ECOs - All Support Items. Enter cost of ECOs anticipated but unknown for all support and training equipment.

Other: Use as many line items as necessary (example: aerial cameras, or jammer transmitter sets, receiver sets or sensor sets for special mission aircraft). These items are not necessarily procured on a one-for-one basis with aircraft.

# Missile Cost Analysis

A missile P-5 exhibit will be submitted by all Services for each missile/drone type and model. If more that one model or configuration is procured in the same P-1 line item, then individual P-5 exhibits will be prepared for each model or configuration and a summary P-5 exhibit will also be prepared for the P-1 line item. Weapon systems that are composed of fire units or launchers that are procured in the same P-1 line item as the missile will provide

(Exhibit P-5, page 4 of 8)

separate cost identification for each vehicle of the fire unit or launching system (launcher, launch control center, radar set, vehicle, etc.). The cost categories on the P-5 exhibit represent a number of elements and the list should be tailored as appropriate to adequately depict the missile system cost. The flexibility exists to revise the elements to depict unique system characteristics, but a comparable cost detail to that shown in the P-5 exhibit format should be maintained.

Missile P-5 Cost Element Categories

# Missile Hardware - Recurring

Airframe Propulsion (By stage, where applicable) Target Detection Device Guidance & Control Warhead Fuze Safe & Arm Engineering Change Orders (Value Engineering) Government Costs Integration & Assembly (Labs, etc.) Acceptance Test Program Other (Specify) Subtotal Missile Hardware

Nonrecurring and Ancillary Equipment Tooling and Test Equipment Missile Ancillary Hardware (Containers, etc.) Total Missile Flyaway

Command and Launch Hardware Launcher Launch Control Center Radar Set Platform/Track Vehicle Engineering Change Orders Other (Specify) Subtotal Command and Launch Equipment

# Support Costs

Peculiar Support Equipment (Specify, e.g., test, handling, etc.) Special Handling Equipment Training Equipment Publications/Technical Data Engineering Change Orders Other (Specify) Subtotal Support

(Exhibit P-5, page 5 of 8)

## Missile P-5 Cost Element Categories (Continued)

Gross P-1 End Cost Less: Prior Year Adv. Procurement (Breakout by Prior FY of funding) Net P-1 Full Funding Cost (Must equal FY amount displayed on the P-40 exhibit) Plus Current Year Advance Procurement. Other Non-P-1 Weapon System Costs Initial Spares

# Ship Cost Element Categories

Include the following format for every year from construction inception for which there are undelivered ships through the end of the FYDP:

Plan Costs Basic Construction/Conversion Change Orders Electronics Propulsion Equipment HM&E Other Cost Ordnance Escalation Project Manager's Growth Total Ship Estimate Less: Advance Procurement FY (specify by individual fiscal year) Net P-1 Line Item Ship/Unit Cost

#### Space System Cost Analysis.

A P-5 exhibit is required for each space weapon system employing a launch vehicle or satellite.

## Satellite Cost Element Categories

Launch Vehicle: Airframe/Integ & Assembly Stage I Stage II Stage III Stage IV Guidance and Control Other (specify) Nonrecurring (specify)

Stage Vehicle: Airframe/Integ & Assembly Propulsion Guidance and Control Other (specify) Nonrecurring (specify)

(Exhibit P-5, page 6 of 8)

# Satellite Cost Element Categories (Continued)

Space Vehicle: Integration & Assembly Spacecraft Payload Reentry Vehicle Other (specify) Nonrecurring (specify)

# Satellite P-5 Cost Element Categories (continued) Engineering Change Orders (ECO) In-House Production Support

Total Flyaway Cost

# Ground Support Equipment:

Support Equipment Installation and Checkout Nonrecurring (specify) Engineering Change Orders Other (specify) Total Ground Support Equipment

#### Support:

Training Publications/Tech. Data Operational/Site Activation Computer Software Other (specify) Total Support

Total Systems Cost Less Advance Procurement, Prior Year Net P-1 Line Item Cost

# Other Procurement Cost Analysis.

A. Unique entries will vary depending on the nature of the procurement item. Most line items require more than one procurement action to complete the program. If only one contract is involved, the line item is composed of several separate cost elements such as the end item itself, publications, engineering services, production support, etc. Each of these elements (called "building blocks" for simplicity) carries its own dollar value. The sum of the building block values equals the line item value. In general, entries on this form should be structured in the same way that procurement has been accomplished (or is planned) and/or the way that the cost estimate for the line item was derived. For new programs, it is not always possible to predict exactly how procurement will be accomplished but the cost estimate for the line item is built up through price out of separate cost elements that are known to be required.

B. Care should be taken to ensure that the building block title accurately describes the effort. Frequently, attempts are made to use the same building block entry for more than one year when the program effort in the following year is not exactly the same. For example, Model A of particular equipment is procured in one year and an improved Model B version planned for the following year. Separate stub entries should be used to avoid comparisons of unlike items.

(Exhibit P-5, page 7 of 8)

#### Ammunition Procurement Cost Analysis.

A. For items to be procured through the Single Manager for Conventional Ammunition (SMCA), the P-5 will be used to display the program cost breakdown. The Service is responsible for justifying and defending its budget request for ammunition even if the item has transitioned to the SMCA for procurement. The production support section should depict the cost of production support materials and services that are included in the P-1 line item. When the developing Service retains configuration management responsibility for a SMCA-procured item, the developing Service will formulate the production engineering cost estimate, but all other estimates will be formulated by the SMCA.

B. The Army's P-Form exhibit formats included in the Army's Program Budget Documentor (PBDOC) will be utilized for all Services' ammunition procurements for items procured through the SMCA.

C. Quantities will be displayed in each unless the item is being procured in millions (the quantities will then be displayed in thousands). Dollars will be displayed in millions, using 3 decimal places, i.e., 1.225. Normal rounding methodology will be utilized.

D. The hardware section should include the full cost of hardware incorporated into the round or item that is included in the P-1 item line. The hardware section entries should be tailored to match the major components of the ammunition/ordnance round, the P5 exhibit should be as identical as possible except for Service-unique requirements. If the round is to be procured using a component breakout strategy, the entries should include, as applicable, the following: load-assemble-pack, major metal parts, fuzes, explosives, propellants and shipping containers. Any small-dollar value components that are non-significant/non-problem can be rolled up into an Other, Miscellaneous line (the dollar amount of this line will not exceed 20 percent of the program value). Where an all-up round is to be delivered under a systems contract, the cost of the all-up round may be displayed as a single entry.

E. The production support section should depict the cost of production support materials and services that are included in the P-1 line item. The following standard entries should be used as applicable: production engineering, quality assurance, proof and acceptance testing, interim transportation and industrial stock support. Any other categories (i.e., special testing) should be added as required and identified accordingly. When configuration management responsibility is retained by the Navy or Air Force as developing Service, the production engineering cost estimate will be formulated by the developing Service, but all other estimates will be formulated by the SMCA.

F. The nonrecurring cost section should depict the cost of such items as first article testing, product improvement, value engineering, tooling and test equipment, procurement technical data package updates, startup/layaway costs and/or other special requirements identified accordingly. In the event that applying governmentfurnished material or components can reduce the cost of the round, the negative entry will be shown in this section.

G. Each section's subtotal should be displayed at the end of the subentries listing.

H. The total P-1 line item is equal to the sum of subtotal cost of hardware, procurement support and nonrecurring less the GFM applications. This entry must agree with the P-1 value for the ammunition item.

A Service-generated or Defense Agency-generated exhibit can be used in lieu of this exhibit as long as it includes all the information required by this exhibit.

4-31

# Instructions - Exhibit P-5a, Procurement History & Planning

1. <u>Purpose</u>. This exhibit provides detailed information on the P-5 entries regarding all prior years having contracts with undelivered assets, current year (CY), budget year 1 (BY1), and BY2. Contract information is used to compare cost estimates between fiscal years by comparing unit costs on previous contracts. For example, if an item was awarded in FY 1997 using FY 1995 funding, is the FY 1998 cost based on an FY 1995 cost inflated 3 years, or to an FY 1997 cost inflated one year? The contract information is used to determine if there has been a problem awarding the contract early or late in the fiscal year and if it occurred as planned. The contract information also is used to identify potential current year assets and to answer congressional inquiries.

2. <u>Submission</u>. Exhibit P-5a will be submitted for all P-5 elements of cost (building block) entries involving quantities in the current or budget years. Information for past years, CYs, and BYs will be updated for each succeeding submission.

# 3. <u>Entries</u>.

<u>Cost Elements (Building Blocks)/Fiscal Year</u>. The cost element/building block title is to be taken from the Exhibit P-5 Cost Analysis for items meeting the criteria of paragraph 2 above. For each cost element, provide information for the PY, CY, BY1 and BY2. The first fiscal year line will provide information on the last buy prior to the current year (if the item was procured in a fiscal year that is no longer available for obligation, identify the fiscal year for which the item was last procured. Update current and prior years entries to show actual contractor and contract award dates. For the budget years, use best estimates.

If Advance Procurement funding is part of the program, then provide contract data for each subsequent year to support the leadtime of the advance procurement. For example, if advance procurement is required 2 years in advance of BY2, then provide contract data through BY2+2.

Quantity and Unit Cost. Insert actual quantity procured and actual unit cost for last actual line entry. For the CY, BY1 and BY2 lines, insert actual or estimated unit costs. The quantities and unit costs should agree with entries on the Exhibit P-5 Cost Analysis exhibit, except for the ammunition items that are fixed standard priced. For these ammunition items, the entries should be the actual unit costs that were negotiated and/or estimated. This update is necessary for the initial starting point for computing future fixed standard prices. Provide an explanation in the remarks block for all items for which the actual unit costs vary significantly with the forecasted unit costs.

<u>Procurement Contracting Office (PCO) Location</u>. Identify the organization that will award the contract. Also identify the organization preparing the purchase request, if different.

<u>Contractor</u>. For each fiscal year, insert actual contractor name, and facility or plant location (city and state). For the current year, insert contractor name if item is to be sole source or if procurement has been accomplished; otherwise insert "Unknown". For budget year(s), insert contractor name if sole source; otherwise use "Unknown". Identify the city/state location of the contractor plant.

(Exhibit P-5a, page 3 of 4)

Contract Method/Type. The following codes will be used to identify the "Contract Method/Type":

| Contrac | ntract Method |                                                                                  |  |  |  |  |
|---------|---------------|----------------------------------------------------------------------------------|--|--|--|--|
| SS      | -             | Sole Source                                                                      |  |  |  |  |
| С       | -             | Competitive                                                                      |  |  |  |  |
| MIPR    | -             | Military Interdepartmental Purchase Request (use only if MIPR obligates funding) |  |  |  |  |
| PO      | -             | Project Order                                                                    |  |  |  |  |
| WR      | -             | Work Request                                                                     |  |  |  |  |
| Allot   | -             | Allotment                                                                        |  |  |  |  |
| Reqn    | -             | Requisition                                                                      |  |  |  |  |
| Other   | -             | Explain by footnote                                                              |  |  |  |  |
|         |               |                                                                                  |  |  |  |  |

# Contract Type

| FP     | - | Fixed Price                   |
|--------|---|-------------------------------|
| CPIF   | - | Cost Plus Incentive Fee       |
| CPAF   | - | Cost Plus Award Fee           |
| FPI    | - | Fixed Price Incentive         |
| Option | - | Option to prior year contract |
| Other  | - | Explain by footnote           |

Follow the pattern of the "Contractor" block in displaying actual and estimated contract method and type. "Option" refers to an existing contract that contains an option clause for future procurement. Identify whether the option is priced (already negotiated) or unpriced.

<u>Award Date</u>. For the last actual buy, provide the date that the contract was awarded. For the current year, provide the actual or estimated date. Provide estimated contract award dates for BY1 and BY2. If the contract is a multiyear contract or a contract with options, identify the date that the option will be exercised.

Date of First Delivery. Same basis as Award Date.

<u>Technical Data Package Available Now</u>. Answer "yes" or "no" for the current year and budget years. No entry is required for prior year or BY2. The answer is to be provided as of the time the exhibit is prepared. The term "specifications" refers to full competitive specifications (or their equivalent in the case of a sole source contract).

<u>Date Revisions Available</u>. No entry is required for the prior year line if the contract has been awarded. If revisions are required, provide in last column the date or estimated date when they will be available.

Use Footnotes to provide reasons for Sole Source procurement; to provide reasons for use of letter contracts; to provide reasons why a multiyear contact cannot be used; to explain significant variations in unit cost from year to year, etc.

A Service-generated or Defense Agency-generated exhibit can be used in lieu of this exhibit as long as it includes all the information required by this exhibit.

All other items can be summarized in one line item. System engineering, spares, documentation, and other equipment costs should be included in the equipment estimate. Value engineering changes should be included in the change order cost category. |

A Service-generated or Defense Agency-generated exhibit can be used in lieu of this exhibit as long as it includes all the information required by this exhibit.

Exhibit P-8a, Analysis of Ship Cost Estimate - Major Equipment

Exhibit P-10, Advance Procurement Funding (Exhibit P-10, page 5 of 8)

### Instructions - Exhibit P-10, Advance Procurement Requirements Analysis

This Exhibit should be submitted for each BY1 and BY2 in which Advance Procurement funds are being requested. The exhibit contains 5 pages. Only pages 1 and 2 need to be submitted in the congressional procurement backup books.

Page 1 - Budget Justification entries.

This format will include funding for all years of the program.

<u>Appropriation (Treasury) Code/CC/BA/BSA/Item Control Number</u>. This entry should match the procurement annex.

P-1 Line Item Nomenclature: Self explanatory.

Weapon System Type: End item for which advance procurement is required.

<u>First System Award and Completion Date</u>: Enter the month/year (do not use quarters) of the projected contract award for the end item for which the funds in the budget years support. For example: FY 1998 advance procurement funds are required in support of an FY 1999 procurement. The FY 1998 AP supporting the FY 1999 end item procurement will be awarded in March 1998 and the FY 1999 procurement will be awarded in January 1999. Enter March 1998. If the manufacturing processes require 24 months, then the item will be delivered in March 2000. Enter March 2000.

Interval Between Systems: Enter the time between end item deliveries.

<u>Column 1</u>. The first entry should be the procurement quantity budgeted for each year (use the actual fiscal year rather than template years) for the end item for which the advance procurement is requested. In addition, list the items that are required to be purchased ahead of the end item. Be specific as possible. Some examples are:

<u>Contractor Furnished Equipment (CFE)</u>: This entry includes all advance procurement funding associated with effort accomplished by the prime weapon system contractor. (e.g. airframe contractor for aircraft; guidance and control contractor for missiles, satellites; chassis contractor for tanks, engines, nuclear propulsion equipment for ships, etc.)

<u>Government Furnished Equipment (GFE)</u>: This entry should include a separate entry for each major subcomponent furnished by the government (e.g. engines and radars for ships and aircraft; warhead, fuzes, and rocket motors for missiles; engines and major electronic subsystems for tanks, satellites, etc.).

<u>Economic Order Quantity (EOQ)</u>: This entry includes items for which an economic order is justified. List each item separately. The entry will require additional justification showing the analysis that supports an EOQ procurement in an advance procurement line.

Other Advance Funding. This would normally include non-EOQ funding that is requested in advance of authorization of the end item and is not based on leadtime considerations but based on price/cost considerations only.

Column 2. Production Leadtime (PLT). Enter the number of months required to manufacture the end item.

<u>Column 3</u>. Enter the number of months after the manufacturing process begins that the item is required for incorporation into the end item.

Columns 4-15. Enter the approved funding for all years of the program.

(Exhibit P-10, page 6 of 8)

### Instructions-Exhibit P-10, Advance Procurement Requirements Analysis (Continued)

Page 2 Entries:

<u>Column 1</u>. List the items that need to be purchased ahead of the end item. This column should match the entries in column 1 on page 1.

Column 2. Production Leadtime (PLT): Enter the production leadtime of this particular item.

Column 3. Quantity Per Assembly (QPA): Indicate the quantity of the item required for each end item.

Column 4. Unit Cost: Enter the unit cost in tenths of millions.

<u>Column 5</u>. <u>BY1 Qty</u>: Enter the total quantity being procured in BY1. For the end item enter the quantity of end items being procured in BY2 (or subsequent years and identify by qty and year) for which the advance procurement in BY1 supports.

<u>Column 6.</u> <u>BY1 Contract Forecast Date:</u> Enter the date of the planned contract award for each of the items listed in column 1. For the end item enter the date of planned contract award of the end items being procured in BY2 (or subsequent years) for which the advance procurement in BY1 supports.

Column 7. Cost: Enter the cost in millions with one decimal place.

<u>Columns 8-10</u>. Repeat the entries above for BY2.

<u>Description</u>. Describe the technique used to estimate the termination liability request. If advance procurement funding is to be applied to years beyond the immediately succeeding year, the amounts and quantities by year should be specified and explained.

### Page 3 Entries:

This page will provide a comparison of the advance procurement request to the cost of the program without advance procurement.

### Page 4 Entries:

This page will provide a comparison of the request and actual program execution. If actual data is not available for the following items then provide the contract date or latest program manager's (PM) estimate and indicate with a footnote whether the data represents an actual date, a contract date or a PM projection.

<u>Column 1</u>. List the items that need to be purchased ahead of the end item. Include all items in the previous President's budget request and any items procured subsequently.

<u>Column 2</u>. <u>Production Leadtime (PLT)</u>: Enter the production leadtime of this particular item. This column should match the entries in column 2 on page 2.

Column 3. PY-1 Quantity: Enter the quantity budgeted for the past year-1.

<u>Column 4</u>. <u>PY-1</u> <u>Contract Forecast Date</u>: Enter the date of the planned contract award that was included in the previous President's budget request for the past year-1.

<u>Column 5.</u> <u>PY-1 Actual Contract Date</u>: Enter the date that the contract was actually awarded. Explain any differences in the Narrative for the past year-1.

<u>Column 6</u>. <u>PY-1 Total Cost Request</u>: Enter the cost estimated for this particular item that was included in the previous President's budget request for the past year-1.

Columns 7-14. Include the same type of information for the past year and current year as explained in columns 3-6.

(Exhibit P-10, page 7 of 8)

### Instructions-Exhibit P-10, Advance Procurement Requirements Analysis (Continued)

Column 15. BY1 Quantity. Identify the quantity to be procured in BY1.

Column 16. BY1 Contract Forecast Date. Identify when the contract will be awarded for BY1.

<u>Narrative</u>. Provide explanations for differences between requested leadtimes and actual leadtimes, requested contract award dates and actual contract award dates and requested cost and actual contract cost. Include any items that were not identified in the previous President's budget request and provide an explanation for the change. Also, address why items were not procured if funding was requested for any items in the previous President's budget request. If advance procurement funding is to be applied to years beyond the immediately succeeding program year, the amounts by year should be specified on the applicable FY BY exhibit and addressed.

### Page 5 Entries

Provide the termination liability schedule from the contractor. If one is not available, then explain how the requirement for advance procurement was determined. Provide actual expenditures by month for the amount of advance procurement funding including termination liability. Use additional columns as required to complete the period of execution performance for the advance procurement funding (i.e. until program is 100% executed).

A Service-generated or Defense Agency-generated exhibit can be used in lieu of this exhibit as long as it includes all the information required by this exhibit.

Exhibit P-17, Layaway and/or Distribution (Exhibit P-17, page 1 of 2)

### Instructions - Exhibit P-17, Layaway and/or Distribution

1. The purpose of this exhibit is to provide the funding requirements for layaway and distribution projects at government-owned, government-operated (GOGO) facilities, at government-owned, contractor-operated (GOCO) facilities, and contractor-owned, contractor-operated (COCO) facilities.

2. For each project, provide information as to the type of action, i.e., in place, on site, central storage, complete layaway or increment, state of readiness, future cost, estimated completion date, background, and work to be accomplished. If reactivated, is the facility or line scheduled to produce new items? If so, list the items.

3. Group projects under each appropriate subclassification, such as facility expansion, machine tool replacement, etc.

A Service-generated or Defense Agency-generated exhibit can be used in lieu of this exhibit as long as it includes all the information required by this exhibit.

### Instructions - Exhibit P-18, Initial/Replenishment Spares Requirements

The purpose of this exhibit is to provide the funding requirements for the procurement of initial and replenishment spares and repair parts in support of end items of equipment and in support of modifications to existing end items of equipment where end items of equipment are being supported by procurement appropriations. A copy of this exhibit will be included in the budget justification book for the end item.

Entries:

<u>Column 1</u>. Enter the budget Exhibit P 1 line item and end items of equipment for which the initial spares and repair parts are required.

<u>Columns 3 through 13</u>. Enter the total cost of the initial or replenishment spares and repair parts for each fiscal year displayed in support of the end items procured. Funding must be consistent with the P-1 and P-40 exhibits.

If some of the initial spares and repair parts are to be financed by the DWCF or for buy-out by a procurement appropriation, provide a memorandum entry to indicate the DWCF-financed portion or footnote accordingly.

Include the following information in the remarks block.

Procurement Requirement: Funded Initial Spares. Funded Replenishment Spares. Funded Mobilization (War Reserve) Spares. Total Funded. Repair Turnaround time.

A Service-generated or Defense Agency-generated exhibit can be used in lieu of this exhibit as long as it includes all the information required by this exhibit.

P-1 Shopping List Item No 10-10 of 10

Exhibit P-20, Requirements Study (Exhibit P-20, page 1 of 3)

# Instructions - Exhibit P-20, Requirements Study

1. <u>Purpose</u>. The purpose of this form is to provide detailed information with regard to the determination of asset availability and requirements.

2. <u>Submission</u>. The P-20 is required only for the budget estimate submission. A P-20 will be prepared and reviewed by the Services and Defense Agencies for all items being procured, even if the item is included in an aggregated P-1 line item, such as "Items Less Than \$5 million." Submittal of the P-20 is required for only those items costing \$5.0 million or more in budget year 1 or budget year 2. For aircraft and missile modifications, a P-20 is not required as long as the Exhibit P-3a description includes the inventory objective contained in the validated operational requirements document (ORD). Vehicle P-20 exhibits can be modified to accommodate the numerous vehicle types.

3. Entries.

<u>Leadtimes</u>: Administrative leadtime is the amount of time after October 1 that is required to award a contract. Procurement leadtime is the amount of time from contract award until delivery of the first unit.

Quantity Budgeted. Show the quantities, unit cost, and funding approved for this program.

<u>Asset Dynamics</u>. This section will reflect the changing asset position starting with the assets on hand and adjusting for gains and losses. Tailor the entries to the program being represented.

Beginning Asset Position. Use the inventory position as of the end of the past fiscal year, or specify other date. As a memo entry in the remarks section, identify assets that are not in a serviceable condition.

<u>Deliveries from all prior year funding and deliveries from CY, BY1 and BY2 funding</u>. Enter the quantity funded during all prior years that are not yet delivered. Show the deliveries or other gains in the fiscal year in which they will be received. The analyst can then compare these entries to the P-21 Production Schedule (deliveries and leadtimes).

<u>Deliveries from subsequent years' funding</u>. Enter the quantity in the appropriate fiscal year. The due-ins should match the P-21 Production Schedule and be reflective of the procurement leadtimes and planned delivery schedules to be included on the contract.

Other Gains. Quantity due in for loans to other Services, other receipts, etc.

<u>Usage.</u> Identify projected annual usage, disposals, retirements, etc. that are projected for each fiscal year. There should be some correlation of the projected usage to actual expenditures. For aircraft, usage equates to attrition, retirement, FMS sales, etc. For vehicles, usage equates to disposals (quantity of vehicles scheduled for disposal through sale, salvage or transfer to another agency).

End of Year Asset Position. Add the gains and subtract the losses from the beginning of the year asset position.

<u>Inventory Objective (IO)</u>. Identify the elements of the IO and the Approved Acquisition Objective, as applicable and approved through the Program Objective Memorandum process. For missiles, munitions, and munitions-related items, use the capabilities based munitions requirements process. Annotate in the Remarks block if the IO is different for any of the FYDP years. Cite the document and the date of the document that established the IO.

<u>Actual Expenditures (for ammunition items).</u> Identify actual expenditures for training and other than training for at least three years. For example, for the FY 1998 submission, FY 1997 will be the current year but no usage will have occurred. FY 1996 would be the past year but data will probably not be available for the entire fiscal year prior to the submission. Therefore, show actual usage for FY 1996 through June 30, 1996 and the usage for 3 fiscal years

(FY 1995 (past year minus one, PY-1), FY 1994 (past year minus two, PY-2), and FY 1993 (past year minus three, PY-3)).

(Exhibit P-20, page 2 of 3)

### Exhibit P-20 Instructions (Continued)

<u>Authorized Allowances</u>. Enter the authorized Vehicle allowances for units, installations, and activities supported by the appropriations of the service preparing the form. Replacement requirements will be excluded.

<u>Vehicles Eligible for Replacement:</u> Enter the quantity of vehicles eligible for replacement during the budget year(s) funded leadtime based upon the age, repair limits and mileage criteria of DoD 4500.36-R.

<u>Vehicle Augmentation</u>. Enter the quantity that represents an augmentation to the inventory. On a separate sheet, list the organizational units and quantities for each unit involved in the augmentation and include a full justification for the augmentation.

<u>Aircraft</u>. Include memo entries for each configuration of aircraft. Identify the acquisition objective by The Joint Staff (TJS) inventory category for each FY. Explain the basis for the approved acquisition objective and identify the applicable requirements document and approval authority (i.e. TJS/Service) that provides the basis for the approved acquisition objective number

Also each Service should submit documentation, by aircraft type, that provides the average age and average hours projected for the aircraft and the current age and hours. This documentation is required for all aircraft being procured and modified, as well as for the aircraft that are being replaced. Identify Active, National Guard and Reserve aircraft. Each Service can submit this documentation in formats currently used by each Service, as long as the above information is incorporated.

Entries should include: (1) total overall aircraft inventory; (2) active aircraft inventory, including primary aircraft inventory (with appropriate subcategories for mission aircraft, training aircraft, dedicated test aircraft, etc.), backup aircraft inventory, and attrition/reconstitution reserve; (3) inactive aircraft inventory, including bailments, drones, foreign military sales or other transfers, leases, loans, maintenance training, reclamation, and storage; and (4) the Joint Staff approved inventory requirements.

<u>Not Installed Nonconsumables</u>. Tailor the asset position to elements that pertain to this category. Include a brief explanation in the remarks block to explain why the entire quantity to meet the IO is not being procured. Include memo entries for the entire program inventory objective. Where applicable, the IO will be supported by showing the number of units or activities, by type and quantity required per unit or activity. Example:

|               | <b>Required</b> |
|---------------|-----------------|
| 20 Units      | 40              |
| 30 Activities | 60              |
| Spares        | 10              |
| Total IO      | 110             |

<u>REMARKS</u>: Identify any items that can be substituted and explain why substitutes <u>cannot</u> be used to satisfy the IO, why expenditures do not represent an accurate portrayal of usage, and any other anomalies.

A Service-generated or Defense Agency-generated exhibit can be used in lieu of this exhibit as long as it includes all the information required by this exhibit.

### Instructions - Exhibit P-21, Production Schedule

1. <u>Purpose</u>. The purpose of this exhibit is to provide detailed information with regard to the monthly production of all applicable items.

2. <u>Submission</u>. Exhibit P-21 will be submitted for the budget estimate submission to show the planned contractual production deliveries for Exhibit P-5 cost elements that have a value of \$5.0 million or more in budget year 1 or budget year 2. Those items that are supported by an exhibit P-23 do not need a P-21 unless multiple manufacturers produce the items. Exhibit P-21 will be submitted for the President's budget for all Acquisition Category 1 programs and for any other program requiring specific quantity authorization. Each Service, whether a leader or follower, is to provide the delivery schedule for the entire program. This ensures that each Service has the opportunity to adjust procurement quantities in terms of contractor capability to deliver all assets during the funded delivery period.

### 3. Entries.

- a. Entries will be displayed in the same order as they appear on the Exhibit P-5 Cost Analysis.
- b. Use "E" for "each," "M" for "millions" and "K" for "thousands" for unit of measure.
- c. Production rates should be yearly rates. The following definitions apply.

<u>Minimum Sustaining Rate</u>. This is the production rate that is necessary to keep production lines open while maintaining a base of responsive vendors and suppliers; the quantity that will preclude start-up costs in the case of a production break; or the quantity that the contractor is willing to accept and produce at a reasonable cost

<u>Economical Production Rate.</u> This is the most efficient production rate for each budget year at which the item can be produced with existing or planned plant capacity and tooling, with one shift a day running for eight hours a day and five days a week (1-8-5).

Maximum Production Rate. This is the maximum capacity rate that a contractor can produce with extant or PY planned tooling. Indicate the number of shifts.

d. The following leadtime definitions apply.

Administrative Leadtime (ALT). This is the amount of time required to complete the administrative actions leading to contract award. Since these actions do not require funding, the ALT can be separately identified into prior to October 1 and after October 1. The ALT is used to forecast contract awards. Longer leadtimes require that a larger quantity be purchased to support yearly requirements. Leadtimes should therefore reflect an accurate assessment of the time required to process the administrative actions.

<u>Production Leadtime (PLT)</u>. This is the amount of time required by a contractor to produce an item once a contract is awarded. Leadtimes should be based on a realistic projection of a contractor's capability.

Procurement Leadtime. This is the total of ALT (post October 1) and PLT.

e. Where procurements are being made for customers such as the FMS program or another Service, a separate line will be used to reflect each customer's planned buy and phased deliveries with a total provided by item by manufacturer. Use A for Army, N for Navy, AF for Air Force, F for FMS, and O for Other (and explain in the remarks section).

(Exhibit P-21, page 2 of 3)

### Exhibit P-21 Instructions (Continued)

f. Enter respective schedules for all prior fiscal years with undelivered assets, for CY, BY1, and BY2. In addition, Acquisition Category 1 programs and programs requesting advance procurement funding will also enter schedules for all years of the future years defense plan. Show detail of production by month so that analysis can be accurately performed.

g. <u>Missile Delivery Schedule</u>. A separate P-21 exhibit will be prepared for each missile system reflecting the latest actual deliveries and scheduled outyear requirements. When the missile system includes the procurement of fire units or launching systems within the P-1 line item, the missiles and the major components of the fire unit or launching system (launcher, launch control center, radar set, track vehicle) will be depicted on the P-21 exhibit.

h. <u>Ammunition</u>. The total production plan for hardware items should be displayed to include time-phased schedules for LAP and the major limiting or pacing component as applicable. For Improved Conventional Munitions, display schedules for all major components. Provide separate information in those cases where procurement leadtimes for LAP and major components differ.

A Service-generated or Defense Agency-generated exhibit can be used in lieu of this exhibit as long as it includes all the information required by this exhibit.

### Instructions - Exhibit P-21a, Production Schedule, All Types

In addition to the P-21, the Army will submit a P-21a showing "all types" ammunition deliveries for all Services for those items procured through the Single Manager for Conventional Ammunition.

A Service-generated or Defense Agency-generated exhibit can be used in lieu of this exhibit as long as it includes all the information required by this exhibit.

### Exhibit P-21a, Production Schedule, All Types

### Instructions - Exhibit P-22, Ammunition Inventory

1. <u>Purpose</u>. The purpose of this exhibit is to provide visibility into the Single Manager for Conventional Ammunition (SMCA)-owned component inventory and into each of the Service's ammunition inventory.

2. The Services can submit the inventory listing format it currently produces, as long as the information required by this exhibit is presented.

3. Each Service will submit an inventory position listing of all Service-owned ammunition assets. The Army will also provide the SMCA-owned component inventory listing. The Exhibit is not required for the President's budget request.

4. The inventory position will be submitted in support of the Budget Estimate Submission and will be current as of June 30, Past Year (or later, if available).

5. Entries.

Columns 1-4. Enter the appropriate Nomenclature, SSN, DODIC, and Condition Code of each ammunition round in the Service or SMCA-owned inventory.

Columns 5 and 6. Enter the Capability Based Munitions Requirement (CBMR) and the training and testing requirements included in the CBMR.

Columns 7 and 8. Enter the quantity of rounds that the Service or SMCA is retaining for contingency level requirements and economic level considerations. Should these quantities be inordinately large, narrative should be provided to rationalize the quantity.

Column 9. Enter the total quantity of assets on hand.

Column 10. Enter the quantity that could be reutilized.

A Service-generated or Defense Agency-generated exhibit can be used in lieu of this exhibit as long as it includes all the information required by this exhibit.

### Instructions - Exhibits P-23, Time Phased Requirements Schedules, and P-23a, Installations Data

1. <u>Purpose</u>. The purpose of these exhibits is to provide detailed information with regard to the quarterly requirements and production of all applicable installed items.

2. <u>Submission</u>. The exhibit P-23, supplemented by Exhibit P-23a, will be submitted for all P-1 line items installed and/or components. A P-23 is not required if a P-3a modification exhibit is submitted for the installed item because a schedule is included on the P-3a.

3. Entries.

<u>Time Period Covered by Exhibit P-23</u>. The first fiscal year block represents the current fiscal year. The form provides for a total of 7 years. If the phased requirement for the equipment extends beyond 7 years, insert an additional column at the right edge of the form entitled "Later." Use this last column to reflect the balance of the requirement and/or deliveries.

Line #1. Active Force Inventories. The purpose of this line is to show by quarter, "installation opportunities" for a particular equipment based upon an established schedule. The quantities to be reflected are installed equipment quantities. The line entry is non-cumulative. In those cases where the actual or planned equipment procurement program will not provide sufficient units to meet total opportunities in a particular quarter, the missed opportunities will be shown in parentheses. For example, total opportunities might be 10, but only 6 can be met. This will be shown as 6 (4). Appropriate offsets will be made in this line when it is necessary to have the equipment to be installed on hand in advance of beginning of installation.

<u>Line #2</u>. This line is to be used for installation opportunities not in established schedules and is to be completed in the same manner as line 1.

Line #3. Schools and Other Training. Insert in the appropriate fiscal quarter units required for Schools and Other Training. Indicate "Other" unit requirements by use of an asterisk.

Line #4. Other. This line should reflect phased requirements for all other commodity users such as new construction of end items or MAP/FMS etc.

<u>Line #5</u>. Time Phased Requirements. This is a cumulative line entry and in the first quarter of the first fiscal year on the form is the sum of lines 1 through 4. For the second quarter, line 5 is equal to amount shown on line 5 in the first quarter plus sum of lines 1 through 4 in the second quarter.

Line #6. Assets on Hand. In the first quarter block on line 6, insert the number of equipment on hand at the beginning of the current fiscal year.

Line #7. Enter the planned deliveries from the prior fiscal year and prior programs. This is a non-cumulative line. Indicate appropriation on lines 7-16 when columns are filled.

Line #8. Reflect on this line deliveries from other appropriations financed by prior year programs.

Line #9. Reflect planned deliveries from the current fiscal year program. Also, indicate in the appropriate quarter when the contract for the current fiscal year quantity will be awarded. Identify the type of contract with the following codes:

C Competitive procurement SS Sole Source CMYP Competitive multiyear

SSMYP Sole Source multiyear

(Exhibits P-23 and P-23a, page 3 of 4)

### Exhibits P-23/P-23a Instructions (Continued)

Line #10. Same as line 9 for current fiscal year when a different appropriation from line 9 is involved.

Lines #11-16. Follow the pattern of lines 9 and 10. Lines 15 and 16 may cover more than one fiscal year program and will reflect the equipment quantity required to fill the total requirement in the "Later" column.

Line #17. For each quarter, this line is the sum of lines 6 through 16 expressed on a cumulative basis as was line 5.

Line #18. Enter the difference between line 5 (total phased requirements) and line 17 (total assets).

Requirement Block (Lower right corner) - This block recaps total requirements by appropriation.

<u>Total Requirement</u> - This is the total ultimate quantity required for installation without regard to when installation will take place.

Installed Qty - Number of units installed prior to the beginning of the current fiscal year.

On Hand Qty - Units that have been delivered but not yet installed.

<u>Prior Years Undelivered</u> - This is the sum of all units due in from prior year, past years, and current year programs plus planned BY1 and BY2 procurements.

<u>Unfunded</u> - This is the quantity still required after BY2.

<u>Reconciliation</u> - The cumulative quantity shown on line 5 is equal to the sum of the on hand quantity, the FY(BY1) and undelivered quantity plus the unfunded quantity.

<u>Procurement Leadtimes</u>. Administrative leadtime is the amount of time after October 1 that is required to award a contract. Initial Order Leadtime means production or manufacturing leadtime and is measured from date of contract award to date of first delivery of equipment. Reorder Leadtime is production leadtime when follow-on procurement is made from previous source.

A Service-generated or Defense Agency-generated exhibit can be used in lieu of this exhibit as long as it includes all the information required by this exhibit.

P-23a, Time Phased Requirements Schedule

List the end item and/or facilities that are to receive the equipment. Include the quantity to be installed by quarter. Identify the installing agent.

A Service-generated or Defense Agency-generated exhibit can be used in lieu of this exhibit as long as it includes all the information required by this exhibit.

Exhibit P-25, Production Support and Industrial Facilities Cost Analysis (Exhibit P-25, page 1 of 2)

### Instructions - Exhibit P-25, Production Support and Industrial Facilities Cost Analysis

The P-25 exhibit will be used to display costs for each funded production facilities project at all government owned, government operated (GOGO) and government owned, contractor operated (GOCO) facilities. In addition the exhibit will display the costs associated with a facilities project for those government owned lines that are located at contractor owned, contractor operated (COCO) facilities. The cost categories on the P-25 exhibit represent a number of elements and the list should be tailored to adequately depict the production facility project cost. The sections on the P-25 exhibit are to be completed as follows.

<u>Construction cost</u> should depict the cost for construction that is funded in this line. If construction funds are required that are programmed in another appropriation, these funds and the associated amount should be identified in the Other Costs section.

Equipment Cost should identify the cost for individual equipment (list separately) costing more than \$0.5 million and a cumulative cost line for all equipment costing less than \$0.5 million.

Equipment Installation Cost should identify the cost to install all the equipment listed.

<u>Contractor Support Cost</u> should identify any cost for contractor support included in the production facility project.

<u>Corps of Engineers Support Cost</u> should identify any cost for the Corps of Engineers support included in the production facility project.

<u>Other In-house Support Cost</u> should identify any cost for other in-house support (excluding the Corps of Engineers support costs) included in the production facility project.

The <u>Other Cost</u> section reflects other costs associated with the project such as facility prove-out cost, military construction appropriation costs, etc.

Facility - Self explanatory.

Related Projects should include prior year and outyear funding required to complete the project.

Industrial Facilities - Provide specific line item identification for each project. Group projects under each appropriate subclassification, such as facility expansion, machine tool replacement, etc.

A DD Form 1391, Military Construction Project Data, is required for each project for proposed construction, alteration, expansion, or modernization of government owned facilities.

A Service-generated or Defense Agency-generated exhibit can be used in lieu of this exhibit as long as it includes all the information required by this exhibit.

# Instructions - Exhibit P-26, Maintenance of Inactive Facilities

1. The purpose of this exhibit is to provide the funding requirements for the maintenance of inactive facilities, inactive lines at active facilities, and inactive lines at contractor facilities.

2. Provide information as to the types of costs that require funding.

- 3. List the inactive lines and the ammunition that will be produced if the line is reactivated.
- 4. Provide description of environmental requirements.
- 5. Provide detail by facility.

A Service-generated or Defense Agency-generated exhibit can be used in lieu of this exhibit as long as it includes all the information required by this exhibit.

### Instructions - Exhibit P-32, Procurement Purchases from DWCF

1. <u>Purpose</u>. The purpose of this exhibit is to estimate the amount of new orders planned to be sent to the Defense Business Operations Fund (DWCF) business areas. The Procurement appropriations will report estimates of funding for DWCF business areas on the Purchases from DWCF Exhibits. For each appropriation, the Component will estimate by DWCF business area the amount of new orders planned to be sent to DWCF business areas for the CY, BY1 and BY2. The amounts provided should reflect the amount shown by the DWCF activity on the Fund-11 exhibit. Price growth will reflect the amount of inflation on the difference between fiscal years funding (change in DWCF rates). Program growth will show the change in program absent the effect of inflation. For further guidance, see the instructions for completing the OP-32 exhibit (Chapter 030402). A copy of the P-32 exhibit will also be provided directly to the Revolving Funds Directorate, Room 3B866, the Pentagon.

### 2. Specific Instructions:

In addition to the guidance above and in the OP-32 Exhibit instructions, the following provides by business area, the types of purchases reported on the P-32 exhibits:

(1) Army, Navy and Air Force Supply Management: obligations for supply purchases from wholesale and retail supply organizations.

(2) DLA Supply Management: obligations for purchases of consumable supplies.

(3) Fuel Purchases (Defense Fuel Supply Center): obligations for fuel for purchases of fuel for aircraft, automobiles, non-nuclear ships, trucks, and heating fuel.

(4) US Transportation Command: travel and transportation obligations for movement of people or goods by military air (Air Mobility Command owned C-17, C-5, or C-141 aircraft or leased commercial aircraft) and military sealift (through Military Traffic Management Command operated port facilities, in Military Sealift Command owned or operated ships).

(5) Defense Finance and Accounting Service (DFAS): obligations for services rendered by DFAS.

(6) Communications Services (DISA): obligations to pay for services provided by the for the Defense Switched Network (formerly AUTOVON, AUTODIN, Bulk Encrypted Communications, Defense Switched Network, Washington Area Wideband System, Defense Information Systems Network, and Defense Data Network) and for information processing, computer services, and software development support provided by the Defense Information Technology Services Organization (DITSO).

(7) Fund Purchases not reported on P-32: Do not report purchases from the following Fund business areas: Defense Logistics Agency Distribution Depots; Navy Distribution Depots; Commissary Operations; and the Defense Reutilization and Marketing Services.

A Service-generated or Defense Agency-generated exhibit can be used in lieu of this exhibit as long as it includes all the information required by this exhibit.

P-1 Shopping List - Item No 30-9 of 30-9

Exhibit P-35, Major Ship Component Fact Sheet (Exhibit P-35, page 1 of 2)

V. Competition/Second-Source Initiatives:

### Instructions - Exhibit P-35, Major Ship Component Fact Sheet

Item: A separate sheet is to be submitted for each component having a unit cost of \$3.0 million or more.

Description/Characteristics/Purpose. Self explanatory.

<u>Current Funding</u>. The cost details will be provided for each ship type for which equipment is being procured on a hull basis for the prior year (PY), current year (CY), budget year 1 (BY1) and BY2.

Identify estimates on an end item cost basis. If an equipment was procured in a prior year with advance procurement funds, it should be reflected on the exhibit next to the end cost estimates in parenthesis. The equipment costs in this section of the exhibit will include the building block elements listed below:

Major Hardware Ancillary Equipment Technical Data and Documentation Spares System Engineering Technical Engineering Services Other Costs

Major hardware costs in excess of \$20 million must be broken down into sub-element hardware components that comprise the equipment cost estimate included on the P-5a cost analysis.

<u>Contract Data</u>. This section will be prepared for the major hardware procurement. The exhibit will include the contract plans for BY1 and BY2, the planned or actual contract information for the current year (CY) and the actual information for the last buy prior to the current year. The last buy should be included even though it is two or more years prior to the current year. The following codes should be used for indicating contract types: Fixed Price Incentive (FPI); Cost Plus Incentive Fee (CPIF); Fixed Price (FP); Sole Source (SS); and Competitive (C). Indicate whether it is a new contract or an option to an existing contract. Also indicate estimated or actual award dates and item delivery dates. List quantities for each fiscal year and the production leadtime associated with each equipment.

<u>Delivery Data</u>. This section should indicate delivery plans for BY1 and BY2, CY and past year (PY) programs contained in Section II of this exhibit. The required award date entry is determined by subtracting the months required before delivery and production leadtime from the earliest ship delivery date.

<u>Competition/Second Source Initiatives</u>. Describe any competition or second source initiatives associated with major hardware items.

A Service-generated or Defense Agency-generated exhibit can be used in lieu of this exhibit as long as it includes all the information required by this exhibit.

### Instructions - Exhibit P-40, Budget Item Justification

1. <u>Purpose</u>. The purpose of this exhibit is to provide overall narrative justification and total procurement costs for each P-1 line item. Include all advance procurement, initial spares and repair parts for acquisition category 1 programs.

2. <u>Submission</u>. A separate P-40 will be submitted to support each P-1 line item with funding of \$5.0 million or more in budget year 1 or budget year 2 or \$5.0 million or more in either the PY or CY. Funding will be provided for all years displayed on the P-40 for all programs for both the Budget Estimate Submission and the President's budget. If prior year and to complete data are not relevant (i.e., items have a continuing requirement such as vehicles or ammunition), then leave those fields blank. In order to ensure compliance with the Department's policy to fully fund procurement programs, exhibits should reflect all costs and quantities from prior year (PY) through to complete (TC) for those programs buying a finite quantity.

### 3. Entries.

a. Enter the applicable information that identifies the appropriation number and title, budget activity, procurement line item number, and serial number (the combination of these codes should match the procurement annex). Include the P-1 line item title and identify nicknames in parenthesis. Identify the program element for all Code B items shown on the P-5. Also list all other PEs associated with this procurement.

b. Funding will be presented for all prior years, past year, current year, budget years, FYDP years, to complete, and total on all line items having a finite quantity requirement. It is not relevant to show funding or quantities for items that are continuing requirements such as ammunition or vehicles. It is relevant to show funding for all fiscal years for items being procured to specified quantity, such as aircraft, missiles, or modifications. The funding should agree with the funding approved in the FYDP Procurement Annex. Omit line items that do not apply (for example, ammunition items would not include an initial spares line).

c. A complete narrative description of the line item will be provided. The description will include, but not be limited to, the nature, purpose and intended use of the item with sufficient depth of information to serve as a justification for funding.

d. If the item is a Code B item, provide the month and calendar year, actual or projected, for each applicable DTE, IOT&E, OTE and technical data package (TDP) or performance specification milestone date. TDP is assumed to be the date when all data necessary to initiate the procurement is available. Also provide the planned date for type classification as Standard or Alternate Standard (Army and Air Force) or approved by the CNO or other responsible official (Navy). Provide the nomenclature and model number of each item (as applicable) which will be replaced, as well as the comparative information in definitive terms with units of measure such as range, speed, cycle rate, meantime before failure, useful life, etc. Enter a brief but specific discussion of pertinent test results and development effort to date (successful firings, slippages, test failures, cost overruns, etc.).

e. For those programs that include advance procurement funds that support more than just the next or one subsequent FY program, specific FY detail needs to be provided to identify which FY programs are supported by prior year advance procurement. Advance procurement should be debited and credited according to the leadtimes of the advance procurement. For instance, if FY 1996 and FY 1997 advance procurement funds are required for an FY 1998 procurement, the FY 1996 AP funds would be debited in FY 1996, the FY 1997 AP funds would be debited in FY 1998.

4. Specific Guidance by Program Type.

a. Shipbuilding and Conversion, Navy Programs. Include the following information:

Mission Characteristics (hull length overall, beam, displacement, draft) Armament Major Electronics Production status, by hull Contract Award Planned (Month/Year) Months to Complete a) Award to Delivery b) Construction Start to Delivery Delivery Date Completion of Fitting Out Obligation Work Limiting Date (OWLD)

The P-40 must list all Service and Other Small Craft Items by types and provide funding for all years still being executed.

b. <u>Modification Programs</u>. For procurement modification programs the P-40 exhibit shall include the following information. A complete narrative description of the weapon system, its overall mission, number of aircraft in the inventory (include a breakout by Active, National Guard and Reserve), the designed service life, and the average service life remaining. The exhibit will, just below the narrative, include the specific modifications budgeted and programmed displayed in the format provided below:

Mod/Total(TOA, \$ in Millions)OSIP No.TitlePYsPYCYBY1BY2BY2+1BY2+2BY2+3BY2+4TCTotal

<u>Mod/OSIP No.</u> Enter the modification number as applicable. List each modification on the aircraft P-40 exhibit. All P-3a exhibits must be included in the budget backup book in this numerical order.

A Service-generated or Defense Agency-generated exhibit can be used in lieu of this exhibit as long as it includes all the information required by this exhibit.

### Instructions - Exhibit P-40a, Budget Item Justification for Aggregated Items

1. <u>Purpose</u>. The purpose of this exhibit is to provide the quantities and funding covering the procurement programs included in aggregated P-1 line items such as "Items Less Than \$5.0 million." A P-5 is not required for items included on a P-40a.

2. Entries.

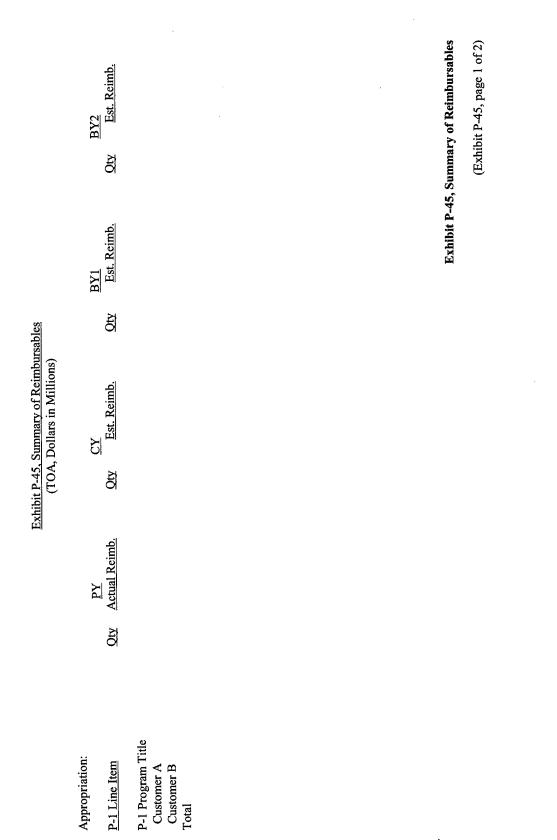

a. Enter the applicable information that identifies the appropriation, budget activity, and title. There should be no Code B (not approved for service use) items on the P-40a. If an item is a Code B item, however, the item must be listed as separate line items in the P-1, P-5 and P-40 exhibits.

b. Funding will be presented for all prior years, past years (PY), current year (CY), budget years (BY1 and BY2). The funding should agree with the funding approved in the FYDP Procurement Annex.

c. Spares. Funding will be presented for PY, CY, BY1 and BY2.

A Service-generated or Defense Agency-generated exhibit can be used in lieu of this exhibit as long as it includes all the information required by this exhibit.

(Exhibit P-40a, page 2 of 2)

### Instructions - P-45, Summary of Reimbursables

This exhibit will be prepared for all procurement appropriations for which reimbursable authority has been used in the PY or CY or is requested for the BY1 or BY2.

This exhibit will reflect reimbursable funding received or requested for each customer from a P-1 line item. For FMS customers, specify each country as a separate customer. Specifically identify other customers.

The totals on this exhibit should reflect the total amount of reimbursements anticipated as submitted in the Budget Estimates Submission and the President's budget request.

Verify that funding included on the P-45 from other Services is in fact budgeted in that Service's budget. With the exception of ammunition being procured through the Single Manager for Conventional Ammunition, explain why a procurement for another Service is being financed through a reimbursable order rather than a direct cite purchase.

A Service-generated or Defense Agency-generated exhibit can be used in lieu of this exhibit as long as it includes all the information required by this exhibit.

P-1 Shopping List - Item No 20-5 of 20-5

Exhibit MYP-4, Present Value Analysis (MYP, page 5 of 8)

### **Multiyear Procurement Guidance**

1. All multiyear procurements, regardless of cost, require the use of a present value analysis (MYP-4) to determine lowest cost compared to an annual procurement. Exhibits MYP-1 through MYP-4 will be included for all MYP candidate systems in the budget estimate submission. The President's budget request will include P-5a MYP- annotated entries for those multiyear programs not requiring congressional authority and Exhibits MYP-1 through MYP-4 for all multiyear candidate systems for which any of the following is true:

- The anticipated multiyear procurement contract is \$500 million or greater.
- There are economic order quantity (EOQ) procurements in excess of \$20 million in any one year.

• There are economic order quantity (EOQ) procurements in advance of an MYP contract in excess of \$20 million in any one year.

- There will be an unfunded contingent liability in excess of \$20 million in any one year.
- The procurement quantities of a previously approved MYP have been adjusted.

2. If a system proposed for a multiyear contract includes more than one P-1 line item, prepare combined MYP-1 and MYP-2 exhibits. Prepare separate exhibits for the remaining MYP exhibit formats. All the exhibits associated with this system should be combined in one package, and submitted in numerical order, i.e., MYP-1, MYP-2, MYP-3<sup>1</sup>, MYP-3<sup>2</sup>, etc.

3. If multiple MYPs are proposed for components of the same P-1 line item, prepare a separate set of exhibits for each. Note that the MYP-3 will be the same in each package.

4. If a joint Service program is proposed for multiyear procurement, the executive Service is responsible for submission of all multiyear exhibits.

5. Exhibits are to display actual fiscal years rather than the template years.

6. Exhibits will be submitted in landscape format.

7. See Section 0102 for additional multiyear procurement guidance.

(MYP, page 6 of 7)

### Instructions - MYP-1 Multiyear Procurement Criteria

1. <u>Description</u>: Provide a brief statement describing the multiyear procurement, i.e., this multiyear procurement will procure "x" number of units over "x" number of fiscal years by using one (or more) multiyear contract.

2. <u>Benefit to the Government</u>. The process of deciding to use or not to use a multiyear procurement (MYP) for production programs as well as how best to tailor and structure MYP requires management judgment. A multiyear procurement should yield substantial cost avoidance or other benefits when compared to conventional annual contracting methods. MYP structures with greater risk to the government should demonstrate increased cost avoidance or other benefits over those with lower risk. Savings can be defined as significant either in terms of dollars or percentage of total cost. This paragraph must include as a minimum the following narrative justification and data:

a. <u>Substantial Savings</u>. The use of a multiyear contract will result in substantial savings of the total anticipated costs of carrying out the program through annual contracts.

b. <u>Stability of Requirement</u>. The minimum need for the property to be purchased is expected to remain substantially unchanged during the contemplated contract period in terms of production rate, procurement rate, and total quantities. The item should be technically mature, have completed RDT&E (including development testing, or equivalent) and Initial Operational, Test and Evaluation (IOT&E), with relatively few changes in item design anticipated. Deliveries of production items will indicate that the underlying technology is stable. This does not mean that changes will not occur but that the estimated cost of such changes is not anticipated to drive total costs beyond the proposed funding profile

c. <u>Stability of Funding</u>. There is a reasonable expectation that throughout the contemplated contract period, the head of the agency will request funding for the contract at the level required to avoid contract cancellation.

d. <u>Stable Design</u>. There is a stable design for the property to be acquired and the technical risks associated with such property are not excessive.

e. <u>Realistic Cost Estimates</u>. The estimates of the cost of the contract and the anticipated cost avoidance through the use of a multiyear contract are realistic. Estimates should be based on prior cost history for the same or similar items or proven cost estimating techniques. Normally, production assets should have been delivered in order to obtain actual costs for the comparisons (exceptions include satellites and ships).

f. <u>National Security</u>. Use of a multiyear contract will promote the national security of the United States.

3. <u>Source of Savings</u>. Identify the detailed sources of savings, to include, as appropriate, inflation, vendor procurement, manufacturing, design/engineering, tool design, and support equipment. Each identified source of savings must include a narrative description of the specific savings, an estimate for that specific source and how the estimate was derived. The sum of the detailed sources of savings should equal the total savings.

4. <u>Advantages of MYP</u>. Identify the advantages the MYP will achieve and how they will achieve them. These advantages could include: production of items in economic order quantities, thereby resulting in lower costs; enhancement of standardization; reduction of administrative burden in the placement and administration of contracts; substantial continuity of production or performance, thus avoiding annual startup costs, pre-production testing costs, make-ready expenses, and phase-out costs; stabilization of contractor and subcontractor work forces; avoiding the need to establish quality control techniques and procedures for a new contractor each year; broadening the competitive base with opportunity for participation by firms not otherwise willing or able to compete for lesser quantities, particularly in cases involving high startup costs; providing incentives to contractors to improve productivity through investment in capital facilities, equipment, and advanced technology; enhancing partnering efforts between contractors/government and prime contractor/subcontractor; providing stable environment; and enhancing best commercial practices.

5. <u>Impact on Industrial Base</u>. The MYP justification should include a narrative that addresses the impact of the MYP on the industrial base in terms of both the prime contractor and the vendors/subcontractors, to include the following topics: improved competition, enhanced investment, improvement in vendor skills, training programs, use of multiyear contractors (vendors), and increased production capacity.

6. <u>Multiyear Procurement Summary</u>. List all comparisons from the MYP exhibits. The Department's policy is to not have unfunded cancellation ceilings; however, if a program is structured with an unfunded cancellation, reflect those costs on this exhibit and explain fully why the program must be structured with one.

### Instructions - MYP 2 Total Program Funding

This chart will compare the funding for the annual proposal and the multiyear proposal. If there are multiple MYPs proposed for the same line item, the annual program should reflect only annual procurements and the multiyear program should reflect funding for all the proposed multiyear programs. Compare the same number of procurement years and same quantity in each year for the annual proposal and for the multiyear proposal. Explain the categories of costs included in the cancellation ceiling. Use as many columns as necessary to display outlays until liquidated. Use the same number of years for both annual and multiyear contract.

### Instructions - MYP 3 Total Contract Funding

This chart will compare the funding for the annual proposal and the multiyear proposal for the multiyear contract. Compute savings for the same number of procurement years and same quantity in each year under an annual proposal and under a multiyear proposal. Explain the categories of costs included in the cancellation ceiling. Use as many columns as necessary to display outlays until liquidated. Use the same number of years for both annual and multiyear contract. The Services and Defense Agencies should perform an independent analysis of the cost and benefits of the contractor's proposal. Explain assumptions (outlay rate, contractor termination liability, other explain what's behind the numbers). The total TOA difference on this chart will agree with the cost avoidance over annual line on Exhibit MYP-2 for each MYP contract. The Department's policy is to not have unfunded cancellation ceilings; however, if a program is structured with an unfunded cancellation, reflect those costs on this exhibit and explain fully why the program must be structured with one.

An exception, to be approved by the USD Comptroller, is needed to structure a contract with an unfunded cancellation ceiling. Justification explaining why an unfunded cancellation ceiling is the chosen acquisition strategy should be provided. This justification should specify what costs comprise the unfunded cancellation ceiling and why these costs are not funded under the full funding policy.

• Funds obligated for multiyear contracts must be sufficient to cover any potential termination costs. The costs of cancellation or termination may be paid from (1) appropriations originally available for the performance of the contract concerned; (2) appropriations currently available for procurement of the type of property concerned, and not otherwise obligated; or (3) funds appropriated for those payments.

### Instructions - MYP 4 Present Value Analysis

This exhibit will be prepared for the contract values. Then year costs will agree with the outlay amounts contained on MYP-3. Constant costs will be expressed in budget year costs unless specified otherwise in the memorandum requesting submission of the budget. Compute savings for the same number of procurement years and same quantity in each year under an annual proposal and under a multiyear proposal. Present value analysis will be calculated in accordance with DoD Instruction 7041.3 and OMB Circular A-94.

### CHAPTER 5

**★**June 2000

### **RESEARCH, DEVELOPMENT, TEST AND EVALUATION APPROPRIATIONS**

### 0501 GENERAL

### 050101 Purpose

This chapter provides instructions applicable to budget formulation and congressional justification for Research, Development, Test, and Evaluation (RDT&E) appropriations. The following appropriations and accounts are included in RDT&E:

- RDT&E, Army (2040A)
- RDT&E, Navy (1319N)
- RDT&E, Air Force (3600F)
- RDT&E, Defense-Wide (0400D)
- Operational Test and Evaluation, Defense (0460D)

### 050102 Submission Requirements

General guidance on submission requirements is in Chapter 1. Chapter 5 provides additional specific requirements on justification material for the above appropriations and accounts. The above appropriations and accounts shall also submit applicable exhibits required by other chapters in the FMR. The Components will also submit any exhibits required by OMB Circular A-11, Preparation and Submission of Budget Estimates.

### 050103 Not Used

### **050104** Preparation of Material

General guidance on format and preparation of material is presented in Chapter 1. Chapter 5 provides additional specific requirements on justification material required for RDT&E appropriations. All funding associated with each major system new start shall be identified in a unique program element.

### 050105 References

Section 010210 provides policies and definitions concerning costs that are to be financed in RDT&E.

### 0502 UNIFORM BUDGET AND FISCAL ACCOUNTING CLASSIFICATION

### 050201 RDT&E Budget Activities

Definitions for RDT&E budget activities are contained in OMB Circular A-11, paragraph 84.4.

<u>Budget Activity 1, Basic Research.</u> Basic research is defined as systematic study directed toward greater knowledge or understanding of the fundamental aspects of phenomena and of observable facts without specific applications towards processes or products in mind. Explanation: Basic research includes all effort of scientific study and experimentation directed toward increasing fundamental knowledge and understanding in those fields of the physical, engineering, environmental, and life sciences related to long-term national security needs. It provides farsighted, high payoff research that provides the basis for technological progress. It forms a part of the base for: (a) subsequent applied research and advanced technology developments in Defense-related technologies, and (b) new and improved military functional capabilities in areas such as communications, detection, tracking, surveillance, propulsion, mobility, guidance and control, navigation, energy conversion, materials and structures, and personnel support. Program elements in this category involve pre-Milestone 0 efforts.

<u>Budget Activity 2, Applied Research.</u> Applied research is defined as systematic study to gain knowledge or understanding necessary to determine the means by which a recognized and specific need may be met. It is a systematic application of knowledge toward the production of useful materials, devices, and systems or methods, including design, development, and improvement of prototypes and new processes to meet specific requirements. Explanation: This activity translates promising basic research into solutions for broadly defined military needs, short of development projects. This type of effort may vary from systematic mission-directed research beyond that in Budget Activity 1 to sophisticated bread-board hardware, study, programming and planning efforts that establish the initial feasibility and practicality of proposed solutions to technological challenges. It includes studies, investigations, and non-system specific technology efforts. The dominant characteristic of this category of effort is that it be pointed toward specific military needs with a view toward developing and evaluating the feasibility and practicability of proposed solutions and determining their parameters. Applied Research program element will normally be exercised by general level of effort. Program elements in this category involve pre-Milestone 0 efforts, but not all pre-Milestone 0 efforts are funded in Budget Activity 2. Some efforts are introduced by field activities.

<u>Budget Activity 3, Advanced Technology Development.</u> Includes all efforts that have moved into the development and integration of hardware for field experiments and tests. The results of this type of effort are proof of technological feasibility and assessment of operability and producibility rather than the development of hardware for service use. Projects in this category have a direct relevance to identified military needs. Advanced Technology Development is used to demonstrate the general military utility or cost reduction potential of technology when applied to different types of military equipment or techniques. Advanced Technology Development also includes evaluation and synthetic environment and proof-of-principle demonstrations in field exercises to evaluate system upgrades or provide new operational capabilities. Program elements in this category involve pre-Milestone I efforts, but not all pre-Milestone I efforts are funded in Budget Activity 3. Some efforts are introduced by field activities. Projects in this category do not necessarily lead to subsequent development or procurement phases.

<u>Budget Activity 4, Demonstration and Validation.</u> The demonstration and validation (Dem/Val) phase includes all efforts necessary to evaluate integrated technologies in as realistic an operating environment as possible to assess the performance or cost reduction potential of advanced technology. The Dem/Val phase is system specific and also includes advanced technology demonstrations that help expedite technology transition from the laboratory to operational use. Program elements in this category involve efforts between Milestone I and Milestone II. A logical progression of program phases and (development and/or production) funding must be evident in the FYDP.

<u>Budget Activity 5, Engineering and Manufacturing Development (EMD).</u> Includes those projects in engineering and manufacturing development for Service use but which have not received approval for full-rate production. This area is characterized by major line item projects and program control will be exercised by review

### **DoD Financial Management Regulation**

of individual projects. Engineering Development includes engineering and manufacturing development projects consistent with the definitions within DoDD 5000.1. Program elements in this category involve efforts between Milestone II and Milestone III. A logical progression of program phases and (development and/or production) funding must be evident in the FYDP consistent with the Department's full funding policy.

<u>Budget Activity 6, RDT&E Management Support.</u> Includes research and development effort directed toward support of installations or operations required for general research and development use. Included would be test ranges, military construction, maintenance support of laboratories, operation and maintenance of test aircraft and ships, and studies and analyses in support of the R&D program. Costs of laboratory personnel, either in-house or contractor operated, would be assigned to appropriate projects or as a line item in the Basic Research, Applied Research, or Advanced Technology Development program areas, as appropriate. Military construction costs directly related to a major development program will be included in the appropriate element.

<u>Budget Activity 7, Operational System Development.</u> Includes those development projects in support of development acquisition programs or upgrades still in engineering and manufacturing development, but which have received Defense Acquisition Board (DAB) or other approval for production, or production funds have been included in the DoD budget submission for the budget or subsequent fiscal year. All items in this area are major line item projects that appear as RDT&E Costs of Weapon System Elements in other programs. Program control will be exercised by review of individual projects. Program Elements in this category involve efforts that involve post-Milestone III. A logical progression of program phases and (development and/or production) funding must be evident in the FYDP, consistent with the Department's full funding policy.

### 0503 BUDGET ESTIMATES SUBMISSION

### 050301 Purpose

This Section prescribes instructions for the preparation and submission of the budget estimates for the RDT&E appropriations. Unless otherwise specified, these instructions apply to all RDT&E appropriations and to all budgets. See Chapter 1, Section 0104, for specific printing requirements.

### 050302 Submission Requirements

A. Administrative Requirements.

1. Classification. Information contained in the budget requests should be unclassified. Where classified information is required in order to explain the program, the classified material will be provided under separate cover and appropriately marked.

2. Exhibits will display the actual fiscal years (i.e., PYs, FY 1997, FY 1998, FY 1999, FY 2000, FY 2001, FY 2002, FY 2003, and FY 2004.) rather than the template entries (i.e., PYs, PY, CY, BY1, BY2, BY2+1, BY2+2, BY2+3, and BY2+4).

3. If an amended budget is submitted, identify the revised budget exhibits accordingly.

4. All pages will be annotated with the applicable R-1 line item number and page number within the line item (Item 1-1 of 5, 1-2 of 5, 2-1 of 1, 3-1 of 20, etc.) at the bottom center or bottom right of each page. Be consistent for all pages of the backup book.

5. If printing the RD&TE material in one volume is impractical, the justification material can be submitted by budget activity with the Science and Technology budget activities (BA 1 through BA 3) printed in one volume and the remaining budget activities printed in a separate volume or in individual volumes. Each volume should include an R-1 listing and a table of contents indicating which volume and page the applicable program element can be found. The justification material will be entitled

Fiscal Year 20BY1/20BY2 Budget Estimate Submission RDT&E Descriptive Summaries, Volume I February 1999

B. Service-generated and Defense Agency-generated exhibits can be used in lieu of the following exhibits as long as they include all the information required by the exhibits. The exhibits will be aggregated in the following order for each R-1 line item and submitted in R-1 line item order. The required exhibits shall be packaged in the following order, as applicable: R-2 (PE 1), R-2a (PE 1, Project A), R-3 (PE 1, Project A), R-2a (PE 1, Project B), R-3 (PE 1, Project B), etc.

### Arrangement of Exhibits - General

- R-33 Introduction and Explanation of Contents
- R-1 RDT&E Program
- R-1C RDT&E Program Comparison Report
- R-2 RDT&E Budget Item Justification
- R-2a RDT&E Project Justification
- R-3 RDT&E Project Cost Analysis
- R-32 RDT&E Purchases from DWCF
- DD 1391 Military Construction Project Data

### **DoD Financial Management Regulation**

C. <u>Facilities Exhibit.</u> For improvements to and construction of government-owned facilities funded in RDT&E, a DD Form 1391, Military Construction Project Data, will be provided separately for each budget year project and any PY or CY projects not previously reported. These exhibits will be included with the program element justification. In addition, a copy of all DD Forms 1391 should be packaged together and a copy provided to the OUSD(C) P/B Investment Directorate (4B915) and to the Military Construction Directorate (3D840). A copy of the form and the instructions are in Chapter 6.

D. <u>MAX Schedule C</u>. OMB Circular No. A-11 has incorporated the requirements for this research and development exhibit into the automated MAX schedule C. Subsequent instructions will be provided by the Director for Investment, OUSD(C) regarding the specific requirements for this submission to OMB's MAX system.

### 0504 CONGRESSIONAL JUSTIFICATION/PRESENTATION

### 050401 Purpose

This Section presents the justification book organization and the exhibit requirement for submission to Congress. Preferred budget exhibit formats can be found in Section 0505. See Chapter 1, Section 0104, for specific printing requirements.

### 050402 Organization of Justification Books

A. Administrative Requirements.

1. Classification. Information contained in the budget requests should be unclassified. Where classified information is required in order to explain the program, the classified material will be provided under separate cover and appropriately marked.

2. Exhibits will display the actual fiscal years (i.e., PYs, FY 1997, FY 1998, FY 1999, FY 2000, FY 2001, FY 2002, FY 2003, and FY 2004.) rather than the template entries (i.e., PYs, PY, CY, BY1, BY2, BY2+1, BY2+2, BY2+3, and BY2+4).

3. All pages will be annotated with the applicable R-1 line item number and page number within the line item (Item 1-1 of 5, 1-2 of 5, 2-1 of 1, 3-1 of 20, etc.) at the bottom center or bottom right of each page. Be consistent for all pages of the backup book.

4. If printing the RD&TE material in one volume is impractical, the justification material can be submitted by budget activity with the Science and Technology budget activities (BA 1 through BA 3) printed in one volume and the remaining budget activities printed in a separate volume or in individual volumes. Each volume should include an R-1 listing and a table of contents indicating which volume and page the applicable program element can be found.

B. Justification material will be entitled:

### RDT&E Descriptive Summaries for Fiscal Year 20BY1/20BY2 President's Budget February 1999 Volume I

C. Service-generated and Defense Agency-generated exhibits can be used in lieu of the following exhibits as long as they include all the information required by the exhibits. The exhibits will be aggregated in the following order for each R-1 line item and submitted in R-1 line item order. The required exhibits shall be packaged in the following order, as applicable: R-2 (PE 1), R-2a (PE 1, Project A), R-3 (PE 1, Project A), R-2a (PE 1, Project B), R-3 (PE 1, Project B), etc.

### Arrangement of Exhibits - General

- R-1 RDT&E Program (OSD Generated) (Include in the backup book, if available.)
- R-2 RDT&E Budget Item Justification
- R-2a RDT&E Project Justification
- R-3 RDT&E Project Cost Analysis
- DD 1391 Military Construction Project Data

D. <u>Facilities Exhibit.</u> For improvements to and construction of government-owned facilities funded in RDT&E, a DD Form 1391, Military Construction Project Data, will be provided separately for each budget year project and any PY or CY projects not previously reported. These exhibits will be included with the program

### **DoD Financial Management Regulation**

element justification. In addition, a copy of all DD Forms 1391 should be packaged together and a copy provided to the Military Construction Directorate (3D840). A copy of the form and the instructions are in Chapter 6.

E <u>MAX Schedule C</u>. OMB Circular No. A-11 has incorporated the requirements for this research and development exhibit into the automated MAX schedule C. Subsequent instructions will be provided by the Director for Investment, OUSD(C) regarding the specific requirements for this submission to OMB's MAX system.

### 0505 RDT&E APPROPRIATION SUBMISSION FORMATS

### 050501 Purpose

The formats provided on the following pages reflect requirements presented in previous sections of this chapter. Formats currently being used within each Service and Defense Agency may be used in lieu of the formats contained in Section 050502 as long as all of the information required by the exhibits in Section 050502 is provided. With this exception and unless modified in an Office of the Under Secretary of Defense (Comptroller) budget submission memorandum, the formats in these exhibits shall be adhered to.

## INTRODUCTION AND EXPLANATION OF CONTENTS

General. This document provides summary information on RDT&E programs for the (Component/Defense Agency Research, Development, Test and Evaluation (RDT&E) program elements and projects in the ) FY 20BY1/20BY2 budget. The R-2, R-2a, and R-3 exhibits provide narrative information on all RDT&E program elements and projects. Comparison of FY 20PY and 20CY Data. A direct comparison of FY 20PY and FY 20CY data in the R-1 exhibit dated (a year previous) will reveal significant differences. Many of the differences are attributable to the following factors: નં

a. FY 20CY reductions as a result of Congressional action on the appropriation (if applicable).

b. FY 20PY funding changes subsequent to October 1, 20CY, including RDT&E Reprogramming Actions and a Supplemental Appropriation (if applicable).

c. Reclassification of FY 20PY and FY 20CY data to achieve comparability with the program structure for FY 20BY1/20BY2. (If applicable, add short explanation.)

### Relationship of FY 20BY1/20BY2 Budget Structure to the FY 20CY Budget Approved by Congress. з.

Provide a list explaining the origin of all program elements that do not appear on the Base for Reprogramming Action (DD 1414) for RDT&E (DoD Component) which was prepared pursuant to final Congressional action of the FY 20CY DoD Budget Submission to Congress. ę,

b. Provide a list of all new starts, identified at the project level.

c. Provide a list explaining any program terminations or anticipated terminations.

Classification. Classified information is identified by use of brackets as []. It is preferred that this information be unclassified. If it is necessary to provide classified information, then it should be submitted separately. Identify the program elements that contain classified information to be submitted separately. 4

Table of Contents. The Table of Contents is presented in two different formats - by R-1 line item order and alphabetically. Each of these listings must include the program element number, program element title, R-1 line item number, the appropriate page number, and volume. 5.

### Instructions - Exhibit R-1, RDT&E Programs

I. General.

A. Unless otherwise specified, this format will be used to present the Research, Development, Test and Evaluation (RDT&E) program to:

1. The Office of the Under Secretary of Defense (Comptroller) in support of the OSD/OMB budget review.

2. The Congress, in support of the President's budget request.

II. RDT&E Line Item Content.

A. The basic document for presenting RDT&E requirements is the Exhibit R-1, RDT&E Programs, provided to the Congress as supporting justification for budget requests. The R-1 line items are program elements, which define a development effort with specific design, cost, schedule and capability parameters. All costs of basic and applied scientific research, development, test, and evaluation, including maintenance, rehabilitation, and lease/operation of facilities and equipment will be included in appropriate R-1 line items.

B. The R-1 exhibit will contain the following information:

1. Program element title and number. Appropriate security classification coding should be included as part of each program element title listed. All classified material should be bracketed.

2. Line items will be arranged in ascending program element order within each budget activity.

3. Approved funding for the past year (PY), the current year (CY), budget year 1 (BY1), and BY2.

4. Summaries by (1) Budget Activities and (2) FYDP Programs.

### Exhibit R-1C, RDT&E Programs - Comparison Report

In addition to the instructions for the R-1, the R-1C Comparison Report will provide a comparison between the last President's budget request and the budget estimate submission (BES) for the BES and between the last President's budget (PB) request and the current PB request for the PB. The comparison should identify the changes for each RDT&E appropriation by R-1 line item and by project. If a line item has more than one project, then a comparison total should be provided at the project level, the R-1 line item, the budget activity total level, and the appropriation level. The report should also identify appropriation and budget activity totals for each fiscal year for the PY through BY2+4 timeframe. If it is necessary to submit classified data, then it should be submitted in a separate report. The unclassified report must match the total for the appropriation/account being submitted. This report will not be included in the justification material provided to the Congress. The R-1C replaces the project listing.

R-1 Shopping List - Item No 20-2 of 20-4

Exhibit R-2a, RDT&E Project Justification (Exhibit R-2, page 2 of 4)

### Instructions Exhibit R-2, RDT&E Budget Item Justification Exhibit R-2a, RDT&E Budget Item Justification (Project)

General. An Exhibit R-2 shall be prepared for each program element. For budget activities 4, 5, and 7, an Exhibit R-2a shall be prepared for each project that has funding greater than \$1 million in budget year 1 or budget year 2. Care should be taken to see that exhibits are clear and concise. Abbreviations shall be identified on the page on which they occur.

These pages shall be printed on 8 1/2 by 11 inch paper in landscape format. Classified material shall be submitted separately so that the RDT&E backup book can be submitted in an unclassified version.

Date. Include the month and year of submission of the exhibit. If an Amended Budget is submitted, identify the date of the revised submission.

Appropriation (Treasury) Code Budget Activity. Identify the appropriation and budget activity. The budget activity must match the RDT&E service annex and data base lock position.

R-1 Item Nomenclature. Identify the name of the R-1 line item.

Program Element Number. Identify the program element.

Project Number and Nomenclature. Identify the project number and nomenclature.

Resource Summary. The Exhibit R-2 shall include a fiscal resource summary total for the total program element and, if there is more than one project in that program element, a fiscal resource summary for each project in that program element. The Exhibit R-2a shall include a resource summary for each project with funding greater than \$1 million in budget year 1 or budget year 2. Ensure the funding matches the RDT&E service annex and data base lock position and that total costs for Acquisition Category 1 programs are consistent with Selected Acquisition Reports. If this program element represents continuing similar efforts without distinct program or project initiations and completions, the "To Complete" and "Total Program" columns shall be marked "Continuing."

Test Articles. Include the quantity of RDT&E test articles that is being procured each year. Show the quantity in the first year of funding for that quantity of end items. Identify in the description the test articles (engineering development models, test articles, low rate initial production test articles, government furnished equipment articles, etc.) that are being procured and why. The cost, by fiscal year, associated with the procurement of the test articles, may also be shown as a non-add entry.

Mission Description and Budget Item Justification. The R-2 shall include a description and justification of the efforts included in the program element. The R-2a shall include a description and justification of the efforts included in the specific project. The justification narratives shall be included for the past year (PY), the current year (CY), and the budget year 1 (BY1) and BY2 in a bullet format. At least three, and preferably more, activities, and the associated funding, shall be identified for each program element (or project if on the R-2a) in each fiscal year. The total of funding reflected in the bullet narratives should match the total of program element (or project) funding. Identify when a program element or a project was previously funded in a different program element and so annotate in the index/cross track. If program element restructuring and project realignment diminish the value of cumulative fiscal resource information for FY PY, this column shall be footnoted with an explanation of the program elements that were restructured and realigned. Identify the test articles (engineering development models, test articles, low rate initial production test articles, government furnished equipment articles, etc.) that are being procured and why.

(Exhibit R-2, page 3 of 4)

#### Instructions - Exhibits R-2 and R-2a (Continued)

Program Change Summary. If there have been changes to the total funding, schedule, or technical parameters since the previous President's budget submission, the Exhibit R-2 shall include a concise narrative summary explaining the changes in the total program element.

Other Program Funding Summary. Development projects often lead to subsequent development phases, production, and military construction. Also, some projects may depend on concurrent development in other projects. These related efforts and the funding profiles for other appropriation efforts shall be identified by appropriation, budget activity, R-1 line item and program element, and P-1 line item title and number. If there are funding dependencies among related research, development, test, and evaluation programs, then the funding profiles for these related programs shall be included.

Acquisition Strategy. An explanation of acquisition, management, and contracting strategies shall be provided for each project.

Schedule Profile. A milestone chart shall be provided for each project shown on the R-2 exhibit. It is preferred that the milestone chart used by the program office be submitted. The chart should display all planned major milestones and test and evaluation events, such as LRIP approval, Milestone III, IOC, Developmental Test and Evaluation, and Operational Test and Evaluation for the total program. For non-acquisition programs, meaningful data should be provided. The software for the milestone chart should be embedded for web site formatting.

Formats currently being used within each Service and Defense Agency may be used in lieu of this format.

## Instructions - Exhibit R-3, RDT&E Project Cost Analysis

General: The R-3 exhibit is required only for projects with funding greater than \$1 million in budget year 1 or budget year 2 for programs funded in budget activities 4, 5, and 7. A separate R-3 exhibit shall be prepared for each project in an applicable R-1 line item. These exhibits shall be printed on 8 1/2 by 11 inch paper in landscape format. If a program element is not divided into projects, then the program element itself is defined as a project for purposes of submitting an R-3 exhibit, and the R-3 exhibit and instructions apply to the entire program element. Classified material shall be submitted separately so that the RDT&E backup book can be submitted in an unclassified version.

Date: Identify the month and year of submission of the exhibit. If an Amended Budget is submitted, identify the date of the revised submission.

Appropriation/Budget Activity. Identify the appropriation and budget activity. The budget activity must match the RDT&E service annex and data base lock position.

R-1 Item Nomenclature: Identify the name of the R-1 line item.

Program Element Number: Identify the number of the program element.

Project Number and Nomenclature: Identify the project number and nomenclature on each R-3 page.

Project Cost Categories. Cost information shall be provided for each project with funding greater than \$1 million in budget year 1 or budget year 2, with project costs broken down into cost categories. Sample cost categories shown are typical of various types of defense research and development efforts. Costs shall be distributed among categories in accordance with the project work breakdown structure (WBS) or other categories used by the project office in project execution. The illustrated sample cost categories may be used if these correspond to the project's structure; however, there is no requirement to use cost categories other than those used by the project office in project execution. Sample cost categories not used in project execution need not be included in the exhibit for that project. If the program office tracks efforts by major contract, then display the information accordingly. The cost categories shall be separated into 4 information categories as follows:

Product Development. Efforts associated with the delivery of a fully integrated system that are in direct support of the system and essential to the development, training, operation, and maintenance of the system. Include all efforts directly supporting system development and delivery to include primary contracts, major component contracts, contracted services, in-house support, and government furnished property. Contracts or government efforts greater than \$1 million in any displayed budget year shall be reported individually.

Support Costs. Efforts not directly associated with the delivery of the primary product, including technical engineering services, research studies, and technical support not related directly to product development or to testing and evaluation. Contracts or government efforts greater than \$1 million in any displayed budget year shall be reported individually.

Test and Evaluation. Efforts (other than those included within contracts or government efforts included above) associated with engineering or support activities to determine the acceptability of a system, subsystem, or component. Contracts or government efforts greater than \$1 million in any displayed budget year shall be reported individually.

Management Services. Efforts associated with services provided in support of program office management and administration processes such as: program oversight, resource justification, budget and programming, milestone and schedule tracking. Federally Funded Research and Development Centers (FFRDCs) are in this category. Contracts or government efforts greater than \$1 million in any displayed budget year shall be reported individually.

(Exhibit R-3, page 3 of 4)

#### Instructions - Exhibit R-3, RDT&E Project Cost Analysis (Continued)

Government Furnished Property. Property, such as hardware, software, or information, which the government is contractually obligated to furnish a contractor or government performing activity shall be identified. Provide a brief identification of the item to be provided, and the contractor or government activity providing the item. Provide estimated date that the government furnished property will be provided to the requiring contractor or activity. Provide the name of the requiring contractor or activity.

Award Fees. Identify amounts budgeted for award fees and indicate contractor performance and percentage of award fees actually awarded in past award fee periods.

Contract Method/Type or Funding Vehicle. The following codes shall be used to identify the contract method, contract type, and funding vehicle:

| hod    |
|--------|
| Source |
| ve     |
|        |
|        |
|        |
|        |
|        |
| ve     |

Funding Vehicle (when a government agency is the performing activity)

MIPR - Military Interdepartmental Purchase Request

PO - Project Order WR - Work Request

Allot - Allotment

Reqn - Requisition

Performing Organizations. Identify each contractor and government or performing activity and the location for each effort greater than \$1 million in any of the displayed years.

Total PY Cost. Provide actual amounts for the total of all years before the current year (CY).

CY - BY2. Provide actual or budget amounts for each year for current year (CY), budget year (BY1), and BY2.

Award or Obligation Date. Provide actual or estimated date of contract award or the estimated date that funds will be obligated to government performing activities.

To Complete. Provide the amount required to complete this effort beyond BY2.

Total Program. Provide the cumulative total of all budgeted funds for the program (including funds obligated/budgeted for PYs, CY, BY1, BY2, and to complete). Provide a comment in the Remarks section when the Project Office Estimate at Completion (EAC) differs from the total cost. Also provide a comment when the Performing Activity EAC differs from the Project Office EAC.

Target Value of Contract. Identify the target value of the contract and explain those cases where total cost differs significantly. For example, if the budget is at ceiling value of the contract vice target value or if budget is "program manager's best estimate" vice target value, then explain.

Formats currently being used within each Service and Defense Agency may be used in lieu of this format.

R-1 Shopping List - Item No 20-11 of 11

(Exhibit R-32, page 2 of 3)

# Instructions - Exhibit R-32, RDT&E Purchases from DWCF

1. Purpose. The purpose of this exhibit is to estimate the amount of new orders planned to be sent to the Defense Working Capital Funds (DWCF) business areas. The RDT&E appropriations will report estimates of funding for DWCF business areas on the Purchases from DWCF Exhibits. For each appropriation, the Component will estimate by DWCF business area the amount of new orders planned to be sent to DWCF business areas for the CY, BY1 and BY2. The amounts provided should reflect the amount shown by the DWCF activity on the Fund-11 exhibit. Price growth will reflect the amount of inflation used for each fiscal year so that the change in DWCF rates is clearly identified. Program growth will show the change in program absent the effect of inflation. For further guidance, see the instructions for completing the OP-32 exhibit (Chapter 030402). A copy of the R-32 exhibit will also be provided directly to the Revolving Funds Directorate, Rm 3B866, the Pentagon.

## 2. Specific Instructions:

In addition to the guidance above and in the OP-32 Exhibit instructions, the following provides by business area, the types of purchases reported on the R-32 exhibits:

(1) Army, Navy and Air Force Supply Management: obligations for supply purchases from wholesale and retail supply organizations.

(2) DLA Supply Management: obligations for purchases of consumable supplies.

(3) Fuel Purchases (Defense Fuel Supply Center): obligations for fuel for purchases of fuel for aircraft, automobiles, non-nuclear ships, trucks, and heating fuel.

(4) US Transportation Command: travel and transportation obligations for movement of people or goods by military air (Air Mobility Command owned C-17, C-5, or C-141 aircraft or leased commercial aircraft) and military sealift (through Military Traffic Management Command operated port facilities, in Military Sealift Command owned or operated ships).

(5) Defense Finance and Accounting Service (DFAS): obligations for services rendered by DFAS.

(6) Communications Services (DISA): obligations to pay for services provided by the for the Defense Switched Network (formerly AUTOVON, AUTODIN, Bulk Encrypted Communications, Defense Switched Network, Washington Area Wideband System, Defense Information Systems Network, and Defense Data Network) and for information processing, computer services, and software development support provided by the Defense Information Technology Services Organization (DITSO).

(7) Fund Purchases not reported on R-32: Do not report purchases from the following Fund business areas: Defense Logistics Agency Distribution Depots; Navy Distribution Depots; Commissary Operations; and the Defense Reutilization and Marketing Services.

(Exhibit R-32, page 3 of 3)

# MILITARY CONSTRUCTION/FAMILY HOUSING APPROPRIATIONS

# 0601 GENERAL

#### 060101 Purpose

A. This chapter provides instructions applicable to budget formulation and congressional justification for Military Construction, Family Housing and Homeowners Assistance appropriations.

B. The following appropriations and accounts are covered:

#### Section

060201 Military Construction

- Military Construction, Army
- Military Construction, Navy
- Military Construction, Air Force
- Military Construction, Defense-Wide
- Military Construction, Army National Guard
- Military Construction, Air National Guard
- Military Construction, Army Reserve
- Military Construction, Navy Reserve
- Military Construction, Air Force Reserve

060202 Family Housing

- Family Housing, Army
- Family Housing, Navy & Marine Corps
- Family Housing, Air Force
- Family Housing, Defensewide
- 060203 Homeowners' Assistance
  - Homeowners' Assistance Fund, Defense
- 060304 NATO Security Investment Program
   North Atlantic Treaty Organization (NATO) Security Investment Program
- 060305 NATO Security Investment Program - NATO Enlargement

060306 Family Housing Improvement Fund

## 060102 Submission Requirements

General guidance with regard to submission requirements is presented in Chapter 1. Chapter 6 covers specific back-up material requirements for the above accounts. The above appropriations/accounts should also submit any applicable exhibits required in Chapter 19 - Special Analyses.

#### 060103 Preparation of Material

General guidance with regard to format and preparation of material is presented in Chapter 1. Chapters 6 provides additional specific guidance with regard to the back-up material required for Military Construction, Family Housing and Homeowners Assistance appropriations.

## 060104 References

Section 010212 provides policies and definitions concerning costs that are to be financed by the Military Construction appropriations as opposed to other appropriations for R&D facilities.

## 060105 Family Housing Program Policies and Guidelines

A. Purpose

1. This section outlines the service aspects of the Family Housing Program; establishes policies and guidelines for program financial management, budgeting, accounting, and reporting; and assigns responsibilities for executing the program. Specific procedures for the administration and management of program funds are set forth in section 060106.

2. The Family Housing Program encompasses Military Family Housing as defined and authorized by the provisions of Title 10, United States Code, Chapter 169, and includes all DoD Component family housing in the Defense Family Housing Property Account, leases of real property utilized by DoD Components for family housing, and associated family housing support services programs.

B. Policy

1. It is DoD Policy: 1) to provide military family housing for military families and for eligible civilian families only when suitable housing in the community does not exist; 2) to provide for the housing and support services, as authorized by law, that are necessary to meet the requirements of the Department of Defense; 3) that the program shall be financed and managed in the most cost effective and efficient manner possible in order to support these requirements and to maximize the use of available program resources; 4) that the program shall include the provision of assistance to all military personnel and certain eligible civilians in locating and utilizing privately owned housing including leasing; 5) that the program shall include, within available resources, the provision of Government-owned or leased family housing and furnishings (referred to as Defense Family Housing Property); and 6) that the program shall include the efficient and effective financial and program management of Defense Family Housing Property, including acquisition, operation, improvement, maintenance, debt financing, leasing, and family housing support programs.

C. <u>Responsibilities</u>

1. The Under Secretary of Defense for Acquisition, Technology and Logistics (USD(AT&L)) is responsible for program management as set forth in DoD Directive 4165.63 and DoD 4165.63-M. The Under Secretary of Defense (Comptroller) (USD(C)) is responsible for financial management, program budget policies, program accounting policies, and financial reporting. As prescribed by the USD(C), the Director, Defense Finance and Accounting Service, is responsible for central accounting and financial reporting for the program. The Secretaries of the Military Departments and the Directors of the Defense Agencies, as prescribed by DoD Directive 4165.63, are responsible for execution of the program for personnel under their respective jurisdictions, including program and financial management, accounting and reporting.

2. In the financial management and execution of the program, DoD Components shall conduct program budget formulation, presentation, and execution in accordance with the guidance and provisions contained in Chapter 6 of this manual and adhere to the program accounting and financial reporting guidance and provisions contained in Volume 4 of this manual.

## D. Objectives and Procedures

1. This section outlines the objectives and procedures of the Family Housing Program and is divided into the following subsections: assistance in locating and utilizing privately owned family housing; Defense Family Housing Property; and, management of Defense Family Housing Property.

a. <u>Assistance in Locating and Utilizing Privately Owned Family Housing</u>. Assistance provided to DoD personnel to obtain privately owned family housing under the program includes housing referral service including administration of private rental housing for DoD personnel overseas; DoD leasing of private housing; rental guarantee payments pursuant to section 507, Public Law 88-174, as amended and; service members' mortgage insurance payments on their privately owned housing made pursuant to section 222 of the National Housing Act, as amended.

b. <u>Defense Family Housing Property</u>. All DoD-owned or DoD-controlled physical property described below will be managed and controlled under the Family Housing Program. The properties will be recorded in a property account entitled the Defense Family Housing Property Account. Guidance for the maintenance of property accounting records is contained in Volume 4 of this manual. A continuing permanent accounting record will be maintained of the real property included in each installation's Family Housing Property Account. Appropriate classifications will be entered on the records to distinguish between real and personal property. Property will be removed from the Defense Family Housing Property account when the property is disposed of (as DoD property), or when it is transferred to DoD non-family housing use. The Report Control Symbol assigned to the special record keeping requirements is DD-COMP(AR)1501.

(1) The Defense Family Housing Property Account includes the following properties, under the jurisdiction of the Department of Defense, to which the Government has a right, title, or interest, with exceptions noted in paragraph 060105D.1.b.(2) below.

(a) All types of family dwelling units and mobile home park facilities, without regard to the military status of the occupant and including housing that is: located on or off station, owned or leased, occupied or unoccupied; situated in dispersed locations or in community-type areas; located at an active, inactive, standby, or reserve facility; or, operated or maintained by the Government, directly or by contract.

(b) Nondwelling buildings directly associated with family dwelling units or a family housing area, including structures outside the housing area required solely for family housing support.

(c) Roads, driveways, walks, and utility systems which primarily serve family

housing units or areas.

family housing units or areas.

(d) The grounds area of a group of family housing units and the yards of dispersed

(e) Community facilities which are integral to a family housing area and are available for use only by family housing area residents and their house guests.

(f) Fixtures and other appliances or equipment in a housing unit that are either integral components or movable items, such as: refrigerators, kitchen ranges and, when authorized, food freezers, room air- conditioners, washing machines, clothes dryers, dishwashing machines, garbage disposals, exhaust fans, roof or attic television antennas; and those appliances provided for family housing rented privately by DoD personnel in areas outside the conterminous United States, pursuant to DoD 4165.63-M.

(g) Furniture, furnishings, and other personal property that are directly associated with providing and supporting family housing units, including personal property provided for use outside the conterminous United States, pursuant to DoD 4165.63-M.

(2) The Defense Family Housing Property Account excludes the following properties, irrespective of the Government's right, title, or interest therein:

(a) Aerial roads, public walks, utility lines, and utility mains that may pass through or in front of family housing locations but serve those locations as an incidental or secondary purpose to other station requirements.

occupancy.

(b) Facilities similar to hotels or motels, which are provided for temporary family

(c) Community facilities which are not integral to a family housing area or are available for use by other than family housing area residents and their house guests.

(d) Educational facilities.

(e) Telephone and other communication facilities for official use, and telephone facilities for unofficial use, installed in a family housing unit.

(f) Community Antenna Television distribution service by other Government agency, commercial cooperative, or private enterprise.

Program.

(g) Properties financed by and supporting the Defense Security Assistance

(h) Food service facilities.

(i) Facilities used primarily for religious services or religious activities.

c. <u>Management of Defense Family Housing Property</u>. Management undertakings, which arise in connection with the DoD responsibility for and jurisdiction over Defense Family Housing Property, include:

(1) The acquisition, construction, and replacement of family housing facilities and the preliminary planning and design studies on prospective projects, including housing requirement surveys.

(2) The conversion of other real property facilities to family housing quarters.

(3) The upgrading to "adequate public quarters" of those family dwelling units designated as rental, substandard, or inadequate.

(4) The alteration of, or addition, expansion, or extension to, family housing facilities.

(5) The outfitting of family housing facilities, as defined in paragraph 060105D.1.b above, with fixtures and other equipment that are either integral components or movable items of major equipment of a housing unit, including major appliances; and furniture, furnishings, and other personal property. This function includes maintenance and repair.

(6) The maintenance and repair of family housing facilities.

(7) The furnishing of the following services to family housing facilities: utilities services, except telephone service and cable television; refuse collection and disposal; insect and rodent control; snow removal; handling and moving Government-owned furnishings; police and fire protection; and, administrative, supervisory and clerical services related to the performance of services rendered the family housing facilities.

(8) The maintenance and security of family housing property declared excess to DoD needs, which rests with the DoD Component until the Department of Defense is relieved of this responsibility. The following rules and principles apply:

(a) If the property is being disposed of by the General Services Administration, the transfer of financial responsibility to GSA will be in accordance with Federal Property Management Regulations, Part 101-47, 402.

(b) When the Department of Defense recommends to GSA that disposal of excess property be delayed because of economic considerations and a contract has been made with a local agency to rent the property and to protect and maintain it, the residual financial responsibility for maintenance and security rests with the Department of Defense.

(c) It has been agreed with the GSA that, in interpreting property disposal regulations, the Department of Defense will be deemed to have declared the property excess to GSA on the date that the protection and maintenance contact is discontinued.

## 060106 Family Housing Procedures for Administration and Management of Program Funds

A. Purpose.

This section outlines the procedures for the administration and management of funds appropriated or otherwise made available to the Department of Defense for the Family Housing Program including: authorized reimbursements; application of proceeds from sales or handling of excess family housing for debt service; administration of separate "fixed year" and "annual" accounts; and clarification and amplification of certain financial administration procedures.

B. Treasury Accounts

1. For construction and improvement of family housing facilities, funds are appropriated to remain available for five years. For Operation and Maintenance (O&M) of family housing facilities, funds are appropriated with annual account limitations. These and other funds made available for family housing are administered under the Treasury accounts outlined in section 010603 of this manual.

- C. Financing the Family Housing Program
  - 1. The Family Housing Program will be financed from:
    - a. Those funds primarily appropriated for family housing purposes.
    - b. Authorized reimbursements and collections from housing rentals and services furnished as

set forth below:

(1) Charges will be made for rentals and services furnished certain occupants or users of family housing facilities. The amount of rent charged shall be determined in accordance with the provisions of DoD 4165.63-M. Disposition of the proceeds of handling or disposal of excess family housing property is treated in paragraph C.1.c of this section.

(2) Those collections for rents and services which will be utilized to finance family housing expenses in accordance with applicable statutes are listed below. Such reimbursements will be utilized within the financial authority issued by the Deputy Comptroller (P/B) but limited to the amount of reimbursements earned.

(3) Proceeds received for rental of Defense housing shall be utilized within the applicable DoD Component family housing account to defray O&M expenses. If the housing is rented with Government furniture provided, the combined total charge for shelter rent and furniture rent shall be treated as indicated above.

Volume 2B, Chapter 6 ★June 2000

(4) Proceeds from the sale of utilities and services will be utilized within the appropriation currently available for the supply of that utility or service in accordance with the authority set forth in 10 U.S.C. 2686.

(5) Collections from other agencies related to O&M charges pursuant to 31 U.S.C. 686

(6) When nonexcess family housing property is leased, pursuant to 10 U.S.C. 2667, rental moneys received will be deposited in a special account in the U.S. Treasury established for DoD Components for allocation as prescribed in 10 U.S.C 2667. Moneys received for utilities or services will be deposited to the applicable DoD Component family housing account.

(7) For accounting purposes, those reimbursements described above to be used for O&M purposes will be identified as financing the operations portion of the O&M expenses.

(8) All collections for family housing rents or services, other than those described above and in paragraph C.1.c of this section will be deposited to Treasury Miscellaneous Receipt Account 1830, "Rent of Real Property not Otherwise Classified," under a citation which includes the appropriate DoD Component two-digit prefix symbol. Such collections include those to cover costs of repairing damages to family housing facilities (including replacement of items) caused by family housing occupants.

below:

c. Other funds which are available from disposal of excess family housing property as set forth

(1) In the case of family housing in the United States disposed of pursuant to title II of the Defense Authorization Amendments and Base Closure and Realignment Act (Public Law 100-526) or the Defense Base Closure and Realignment Act of 1990 (Public Law 101-510), the proceeds should be deposited in the Department of Defense Base Closure Account 1990.

(2) In the case of family housing disposed of under authorities contained in 10 U.S.C. 2871-2885, as added by section 2801 of the National Defense Authorization Act for FY 1996, for purposes of using the proceeds to carry out activities authorized under those provisions, the proceeds should be deposited in the DoD Family Housing Improvement Fund.

(3) In the case of family housing overseas disposed of under circumstances which fall within the provisions of section 2921 of Public Law 101-510, as amended, the proceeds should be deposited in the Defense Overseas Military Facility Investment Account.

(4) In the case of family housing disposed of under other circumstances, the proceeds should be deposited in the appropriate military family housing account.

2. Family Housing Program costs will be programmed, budgeted and accounted for by the DoD Component having responsibility for the Defense installation or housing area, regardless of the DoD Component of the housing occupant. Reimbursement for such costs will not be made between DoD Components.

3. Financing will be on a program-year basis. The detailed program-year criteria for the major functional categories and for the immediate subordinate accounts is set forth below:

a. The program year for the undertakings (projects for new construction, acquisition of housing, construction improvements, and minor construction) shall be the same as the year of the applicable annual Military Construction Authorization Act.

b. After the program year for a specific project is established as provided above, the related appropriation for that project will be administered under the designated program year, irrespective of when the work is undertaken. In the event there are savings due to lower bids, change in scope, etc., these savings may be reprogrammed for projects authorized in different program years.

will be effected.

c. For planning and design, which is a "level of effort" type activity, the following program year concept applies:

(1) Budget estimates for the budget year and each future year will include the planning and design work programmed to be placed on contract or intragovernmental order during the program year and the planning and design work expected to be performed with in-house capabilities during the program year. The dollar value of a planned program will be determined on the basis of estimated obligations to be incurred during the program year for the program scope embraced by (a) and (b), above.

(2) Obligation authorities will be requested and issued by program year on the basis of obligations estimated to be incurred as a result of the issuance during the program year of contracts or other orders which constitute valid obligations pursuant to Volume 4 of this Regulation for planning and design work, irrespective of when the work is to be performed and the accomplishment during the program year of planning and design work with in-house capability. Obligations will be charged by program year on these same bases.

(3) Adjustments to obligations charged against a prior program year will be made only to the extent of an adjustment in the amount of an obligation recorded for specific work ordered in that prior program year or deobligations to reflect cancellation of work ordered in that prior year. New obligations for planning and design work for a particular project which are in addition to that ordered in prior program years for that project are charges against the program year in which those new obligations are incurred.

d. For rental guarantee payments, the program year shall be the fiscal year in which the rental guarantee payments are obligated. No new obligations may be incurred under a program year obligation authority after the close of that program fiscal year. Adjustments to obligations for rental guarantee payments may be made as necessary to reflect actual obligations incurred during the fiscal program year in accordance with existing procedures covering adjustment to annual accounts.

e. The major functional categories of operation and maintenance and debt payment are considered "level of effort" type activities. Program planning and budget estimates for these categories will be developed in accordance with that concept. Obligational authority for operation and maintenance and debt payment will be requested and issued by program year and will not be available for new obligations after the close of the fiscal year for which such authority is issued. Adjustments to obligations for operation and maintenance and debt payment may be made as necessary to reflect actual obligations incurred during the fiscal program year in accordance with existing procedures covering adjustment to annual accounts.

4. Economic analysis will be applied to all program investment proposals in accordance with this manual which sets forth budget submission requirements.

5. Apportionment of funds and issuance of financial authorities will be obtained as follows: each DoD Component (except Defense Agencies) shall submit to the Deputy Comptroller (P/B) an apportionment request, then the Deputy Comptroller (P/B) will issue specific financial authority to the DoD Components concerned in such amounts and at such levels as appropriate for efficient and economical administration of the Family Housing Program.

6. For the Construction category, OSD program approval and obligating authority will be provided by fiscal year, generally at the construction element level (immediate subordinate account level) or at project level where circumstances warrant. Volume 3 of this Regulation defines the scope of realignment authority delegated to the DoD Components. All program/fund realignments will be reported in accordance with Volume 4 of this Regulation and this volume.

7. Obligations, incurred costs, accrued expenditures, accrued revenues, disbursements and receipts will be recorded and reported in accordance with Volume 4 of this Regulation. When another appropriation, e.g., Operation and Maintenance, initially incurs a funded cost, the applicable DoD Component family housing account will be billed at least monthly. Obligations, incurred costs, accrued expenditures and disbursements will be charged to the applicable accounts.

8. The balance due on indebtedness previously assumed should be in a "Borrowing Account" in conformance with Federal budget concepts.

a. The acquisition of property will be recorded in accordance with Volume 4 of this Regulation. The amount of the mortgage assumed will be recorded as an increase in the "Borrowing Account" and will be reported to the Treasury under Code (97).

# 0602 UNIFORM BUDGET AND FISCAL ACCOUNTING CLASSIFICATION

#### 060201 Military Construction Appropriations

Programming, budgeting, financing and accounting for the Military Construction Program will be accomplished under an account structure uniformly used for these purposes by all DoD Components. The uniform account structure and scope of each account prescribed for the administration of the Military Construction Program are as follows:

## A. Major Functional Category: Construction

1. <u>Immediate Subordinate Account: Major Construction</u>. Includes construction projects authorized under 10 U.S.C. 2802 for the purposes of erection, installation, or assembly of a new facility; the addition, expansion, extension, alteration, conversion, or replacement of an existing facility; or the relocation of a facility from on installation to another. Includes equipment installed and made a part of such facilities, and related site preparation, demolition, excavation, filling and landscaping, or other land improvements.

2. Immediate Subordinate Account: Minor Construction. Includes any urgently required construction project not otherwise authorized by law having a cost equal to or less than \$ 1,500,000. However, if the military construction project is intended solely to correct a deficiency that is life-threatening, health-threatening, or safety-threatening, a minor military construction project may have an approved cost equal to or less than \$3,000,000. Minor construction projects costing more than \$500,000 may not be carried out unless 10 U.S.C. 2805 requirements are met. This includes advance approval by the Secretary concerned and notification to the Congress. An unspecified military construction project costing not more than \$500,000 may be funded from appropriations available for operation and maintenance. However, if the project is intended solely to correct a deficiency that is life-threatening, health-threatening, or safety-threatening, up to \$1,000,000 may be funded from operation and maintenance accounts.

3. <u>Immediate Subordinate Account: Planning and Design</u>. Includes architectural and engineering services, construction design, planning, study, working drawings, specifications and estimates for construction projects. 10 U.S.C 2807 pertains to architectural and engineering services and construction design.

a. <u>Design Status</u>. Projects using parametric cost estimates should be considered zero (0) percent designed. Projects using the traditional method of design, being designed in-house, using a standardized design, or site adapting a previous design should use the milestone chart below to gauge their design status.

| 1% Design Complete:  | Design instructions issued to major command.                                                                                              |
|----------------------|-------------------------------------------------------------------------------------------------------------------------------------------|
| 2% Design Complete:  | Major command design instructions issued to design agent.                                                                                 |
| 3% Design Complete:  | Notice to proceed issued to architect/engineering firm (A&E) by the design agent.                                                         |
| 30% Design Complete: | Concept plan, early preliminary working drawings, design analyses, and outline specifications issued by the designer.                     |
| 35% Design Complete: | Concept or early preliminary review comments forwarded to the design agent.                                                               |
| 60% Design Complete: | Regular preliminary working drawings, design analyses, and<br>updated cost estimate and outline specifications issued by the<br>designer. |
| 65% Design Complete: | Regular preliminary review comments forwarded to the design agent.                                                                        |

| 90% Design Complete:  | Final design (working drawings, design analyses, cost estimates, and specifications) completed by the designer. |
|-----------------------|-----------------------------------------------------------------------------------------------------------------|
| 95% Design Complete:  | Final design review comments forwarded to the design agent.                                                     |
| 100% Design Complete: | Corrected final design accepted by the DoD Component.                                                           |
|                       | · · · ·                                                                                                         |

4. <u>Immediate Subordinate Account: Supporting Programs.</u> Includes Defense access roads and land acquisitions.

## B. Major Functional Category: North Atlantic Treaty Organization Security Investment Program

Includes contributions for the United States share of the cost of multilateral programs for the acquisition and construction of military facilities and installations (including international military headquarters) and for the related expenses for the collective defense of the North Atlantic Treaty Area. 10 U.S.C. 2806 pertains to contributions for North Atlantic Treaty Organization Security Investment Program.

# 060202 Family Housing

DoD Components will use the uniform account structure established for programming, budgeting, financing and accounting for the family housing program. The account structure will be administered so as to provide program and financial control of the family housing program consistent with applicable statutes. The uniform account structure and scope of each account for the family housing program are as follows:

## A. Major Functional Category: Construction

1. <u>Immediate Subordinate Account: New Construction (by Installation and Project)</u>. Includes the erection, installation, assembly, relocation or replacement of single or multifamily dwelling units; related land acquisition, site preparation, excavation, filling and landscaping, or other land improvements. Also included are the initial outfitting during construction of a dwelling unit with fixtures and other requirements which are either integral components or movable items of major equipment thereof, including major appliances; and architectural and engineering supervision and inspection of construction. Includes design costs of contractor to perform a turnkey contract. New construction also includes the construction of items included in section 060105D.1.b.(1) (a), (b), (c), and (e).

2. <u>Immediate Subordinate Account: Post Acquisition Construction</u>. Includes major construction projects (projects beyond those authorized under the minor construction program) for the following (by installation and project): upgrading inadequate public quarters, rental housing and acquired Wherry Housing units to produce adequate public quarters; conversion of existing facilities to public quarters; alterations, additions-expansions-extensions; construction of family housing real property, other than dwelling units required subsequent to and because of previously acquired dwelling units; and the payments made to military personnel for telephone reconnection charges shall be included in project costs under this subaccount when a construction project involves relocation, alteration, improvement, or other work necessitating Government directed, non-Permanent Change of Station moves between Government quarters. However, in cases where concurrent maintenance/repair work is involved, telephone reconnection costs shall be charged to the maintenance account.

3. <u>Immediate Subordinate Account: Planning and Design</u>. Includes the design, working drawings, specifications and estimates for construction projects approved by the Secretary of Defense for inclusion in the President's Budget. Also includes consolidated DoD guide drawings, specifications, and planning and design efforts on projects which are not subsequently constructed.

## B. Major Functional Category: Operation and Maintenance

1. <u>Immediate Subordinate Account: Operation</u>. This account includes the following: initial acquisition, maintenance, repair and replacement of furniture, furnishings and other personal property (see section 060105D.1.b.(1)(g)); the furnishing of services included in section 060105D.1.c.(7); inspection of construction and administration of rental guarantee projects; leasing of family housing facilities by the Government as outlined in section 060105D.1.a.; and contractor support for family housing privatization.

2. <u>Immediate Subordinate Account: Maintenance of Real Property Facilities</u>. This account includes maintenance and repair of buildings, roads, driveways, walks, exterior and interior utility systems and grounds care; and maintenance, repair and replacement of fixtures and other equipment which are integral components of a housing unit. This account also finances the costs of reimbursements made to military personnel for telephone reconnection charges when maintenance or repair work necessitates Government-directed, non-PCS moves. This includes such charges resulting from improvement/repair projects funded in part from the family housing construction account.

C. Major Functional Category: Debt Payment (Interest and Other Charges)

1. <u>Immediate Subordinate Account: Servicemen's Mortgage Insurance Premiums</u>. This account includes payments of servicemen's mortgage insurance premiums pursuant to Section 222 of the National Housing Act as amended.

# D. Major Functional Category: DoD Family Housing Improvement Fund

Includes activities required in connection with the planning, execution, and administration of contracts entered into under the authorities of Chapter169, Subchapter IV (Alternative Authority for Acquisition and Improvement of Military Housing), Title 10 U.S.C.

# 060203 Homeowners' Assistance Fund, Defense

The program/budget account classification structure for the Homeowners' Assistance program is prescribed in Exhibits HA-1 through HA-4, found in Section 060504.

#### 0603 BUDGET ESTIMATES SUBMISSION

#### 060301 Military Construction

#### A. Purpose

1. This Section prescribes instructions for the preparation and submission of budget estimates for the Military Construction, appropriations.

2. Unless otherwise specified, these instructions apply to all Military Construction appropriations and to all budget estimates. Data submitted must be consistent with the budget estimate being supported.

## B. Submission Requirements

1. <u>General Guidance</u>. Supporting data for each of the military construction appropriation requests will be submitted concurrently with all other Department of Defense appropriation requests. To facilitate the review and decision making process, it is essential that the packaging of justification materials conform to the uniform facility category structure established by DoD Instruction 4165.3.

a. Construction requirements will be determined in consonance with PDM guidance and with applicable Executive Orders, OMB Circulars, and DoD 4270.1-M.

b. Each proposed construction project will be supported by DD Form 1391/1391C, Military Construction Project Data. These will be prepared in accordance with guidance contained in Section 060502. Projects associated with intelligence or intelligence-related operations will be so identified. Block 5, Program Element, DD Form 1391, will include the annotation "NFIP", "JMIP", or "TIARA" as appropriate. DD Form 1390, Military Construction Program, will be prepared for each installation at which major construction is planned, utilizing the format prescribed in Section 060502. DD Form 1390S, Guard and Reserve Forces Military Construction, will be utilized by the Guard and Reserve Components.

c. Lump sum requests for a number of construction projects at a single location or for related projects at several locations will not be considered.

d. OMB policy is to fully fund military construction projects; however, Section 12.3(K) of OMB Circular No. A-11 allows the Department to incrementally fund projects in certain instances. In an effort to ensure that the policy is applied uniformly throughout the Department, the following criteria should be satisfied: 1) The estimated cost of the proposed project should be \$50.0 million or greater; 2) The construction schedule should be equal to or greater than 24 months; 3) Incrementally funded contracts shall conform with the Federal Acquisition Regulation to prevent over-obligation of the government; 4) Configuration of the contract in separate increments will not significantly increase the cost of the project. The Services or Defense Components have the discretion to request full funding for any project. However, any requests for incrementally funded projects must include a waiver to the OMB full funding policy. If the service request is approved, authorization for the total cost of the project will be requested in the first year, but authorization of appropriation and appropriation of funds will be requested only for the increment being funded in the budget year. If the request is disapproved by the Deputy Secretary for lack of adherence to the above policy, the projects must be fully funded through offsets from the Component.

e. In order to ensure prudent and economic investments a life-cycle, net present value economic cost analysis is required to support all new construction or renovation projects estimated to cost in excess of \$ 2 million dollars. Copies of these studies are to be retained by the DoD Components and must be available, when requested, during the OSD - OMB budget review. In accordance with Section 010303, components are required to indicate on the justification page for each individual construction project whether or not an economic analysis is applicable or pertinent. If not applicable, a statement is required indicating why.

f. In accordance with guidance provided under Section VI.D. of DoD Directive 2010.5, components are required to indicate on the justification page for each individual construction project for U.S. forces committed to NATO a statement whether or not the project is planned for prefinancing, with appropriate explanation as to: (a) why U.S. unilateral financing is being proposed; and (b) as appropriate, follow-on actions planned to seek reimbursement through NATO channels. A similar statement is required for any other overseas construction, describing why the project is not eligible for host nation funding. More specific guidance is provided in DoDD 2010.5.

g. Justification materials (DD 1390/1391/1391C) will be submitted in book form, with appropriate cover, bound on the left margin. Classified materials are to be submitted in separate volumes, with appropriate security classification markings on covers.

h. The following sections outline the specific materials to be provided including special guidance as to formats to be followed. The numbers of copies required are identified in Chapter 1. Other special materials required are outlined under related Chapter 16.

i. It is recognized that it may be necessary to revise construction project costs subsequent to the budget submission which have changed significantly because of Congressional action, design changes, etc. Such changes will be considered as an additional budget submission and all ground rules, including cut-off dates, will apply.

j. For the biennial budget, separate sections or volumes will be provided for Biennial Year 1 (BY1) and Biennial Year 2 (BY2). For the Biennial Year 2 (BY2) section, BY1 will be considered as the prior year and BY2 as the budget year.

k. All budget submissions for military construction and family housing programs should include outyear project level detail in the format specified in Section 060502.

2. <u>Construction Programs for the Active Forces and Defense Agencies</u>. The books containing the DD Forms 1391/1391C will be arranged by facility category, following the guidelines established by DoD Instruction 4165.3. For each project, the DD Form 1390 will immediately precede the DD Form 1391/1391C. In each DD Form 1391/1391C provided for the OSD submission, the following design status is required: (1) date of design initiation; (2) percentage of design complete on the OSD submission date; (3) date on which 35 percent design will be or has been completed (including review and approval of 35 percent drawings); (4) projected or actual date of design completion; (5) percentage of design utilizing standard design, (6) if the project cost is based on parametric estimates, include the annotation "Parametric estimates have been used to develop project costs"; and (7) *type of design contract, i.e. design-build, design-bid-build, or other, if other, provide a brief explanation of the design contract.* Projects proposed for alternative construction methods such as turnkey, or private financing alternatives, for which percent design is not appropriate, should be noted in place of the design status required for normal projects. Prior to the submission of the President' Budget to Congress, the OUSD(C) Military Construction Directorate shall be notified if any projects will not be at the 35 percent design status by January 1.

a. <u>Major Construction</u>. For purposes of the OSD/OMB review:

(1) No project will be identified or listed under more than one facility category.

(2) The "Operation and Training Facilities" category is to be packaged in the justification books as two separate categories, i.e., "Operation Facilities" followed by "Training Facilities."

(3) Books containing the Forms DD 1391/1391C are to include omnibus packages for the energy conservation investment, and air and water pollution abatement programs. The total requested for each of these programs will be identified separately on single DD 1391s with the detail of program (installation, location, cost, and project description) provided on continuation pages (DD 1391C). None of the projects included in these categories are to be listed under any other facility category.

Volume 2B, Chapter 6 ★June 2000

(4) Each DD 1391 form for a major construction project must show the construction contract award date (indicate month and year the contract is planned to be awarded to the construction firm, the construction start date (indicate month and year construction is planned to start), and construction completion date (indicate month and year construction is planned to be completed). The information should be displayed on the DD 1391, section 12, Supplemental Data.

(5) All DD 1391 forms must include a name and phone number of the civil engineer at the installation responsible for the requested project. This information should be displayed in the bottom left hand corner on the last page of the DD 1391.

b. <u>Minor Construction</u>. The total minor construction program request should be submitted as an omnibus package on a single Form DD 1391, specifying the lump-sum amount proposed for unspecified (unforeseen) minor construction projects costing up to \$ 1.5 million per project.

c. <u>Supporting Activities</u>. The funding request for Supporting Activities will continue to be reflected as a lump sum amount on DD Form 1391. Supporting detail (location/cost) will be shown parenthetically following the lump sum estimate. While this item will be addressed for decision making purposes in the document covering Utilities and Real Estate, it should be listed separately and not included in the indexes for either Utilities or Real Estate, which fall under different facility category codes.

d. <u>Restrictions on Omnibus Construction Packages</u>. Apart from the specific exceptions noted for the pollution abatement, energy conservation, and minor construction programs, which are discrete decisions, there are to be no other omnibus packages or breakouts in the DD 1391 justification books. All other projects are to be listed under the appropriate facility category. In this respect, the Marine Corps facilities program is to be integrated with the Navy facilities program so that all Navy and Marine facilities are included in a single Department of Navy facility category listing covering the entire "Military Construction, Navy" appropriation request. However, a separate "non-add" listing or index of all Marine Corps unique facilities, similar to those provided in the past, is both useful and desired.

e. <u>Budget Summary and Indexing</u>. Each Component will provide a one page Budget Summary at the front of the justification book that provides a summary of the total construction program request. The summary will show, by column, the total obligation authority (TOA), budget authority (BA), and authorization requested with subtotals by budget activity. Additionally, the books containing the Forms DD 1391/1391C should provide, immediately preceding each category section, an index showing facility category code numbers, installation and location, project number and title, cost, and DD 1391 page number. The index should also identify each project as either new mission or current mission.

f. <u>Multi-service and National Level Support Programs</u>. Projects providing multi-service or national level support are to be programmed/budgeted under the appropriation, "Military Construction, Defense-Wide", or, in the case of NATO Security Investment Program, under the appropriation "North Atlantic Treaty Organization Security Investment Program." These are to be determined on a case-by-case basis, and should be identified as early as possible in the program planning phase. Such items will be identified in the POM/PDM process with appropriate programmatic adjustment or treatment during that phase of the review.

g. Should, on rare occasions, other candidates surface following completion of the POM/PDM process, they will require review in the budget review process. The following guidelines apply:

(1) The individual military departments will serve in an executive agency capacity for support of those construction items. The military department assigned executive agency responsibility will continue to provide all necessary and appropriate management support for such projects, including preparation of budget justification materials, and will continue to fully manage and execute the program including the preparation of all budget justification materials and defense of estimates submitted to Congress.

(2) For those projects which have been identified and programmed as multi-service or national level support programs during the POM/PDM process, the executive agent will provide, at the time of its own budget submission, a separate submission consisting of all justification materials (DD 1391/1391C) necessary

for OSD/OMB review. Such projects are <u>not</u> to be reflected (duplicated) in the submission covering the department's own program (i.e., financial program, facility category listings, etc.).

(3) For those projects which may surface following the POM/PDM process as possible additional candidates, the sponsoring military departments will include these in their own construction program submissions as outlined earlier in this chapter, within their own fiscal levels, and <u>separately</u> highlight such items, providing a narrative explaining the basis for change.

3. <u>Construction Programs for the Guard and Reserve Forces</u>. Justification materials for the Guard and Reserve construction programs will be submitted on DD Forms 1391/1391C (Project Data). A separate justification book is required for each of the five Guard and Reserve appropriations.

a. The DD Forms 1391/1391C will be in a single volume covering total requirements for each appropriation. The materials will be sequenced in alphabetical order, by state and by installation within state. The justification pages covering the lump-sum amount requested for minor construction will appear last. The DD Forms 1390S will be in a separate section following the DD Forms 1391/1391C. Each book is to include an index in the front, showing the installation and location, project title, project cost, DD 1391 page number, and arranged in alphabetical order by state.

b. Each Guard and Reserve program submission is to include separate listings identifying amounts requested in the budget year for: (a) air and water pollution abatement; and (b) energy conservation investment programs. Each listing is to show the installation and location, project title, project cost, and DD 1391 page number. "Negative response" listings are required to assure complete coverage.

4. <u>Construction Planning and Design</u>. The annual estimates for planning and design are to be identified and justified on DD Form 1391. In preparing the annual estimates, full consideration should be given to the lead-time required to meet the objective of having each construction project at the 35 percent design stage at the time the Budget is submitted to OSD. Guard and Reserve component construction projects will meet the design criteria established in DoDI 1225.8, "Programs and Procedures for Reserve Component Facilities and Unit Stationing," at the time the budget request is submitted to OSD.

a. The Military Departments will develop and submit planning estimates in support of the construction programs for the individual Active Forces, Guard and Reserve programs.

b. The Office of the Secretary of Defense will prepare a DD Form 1391, consolidating estimates to be submitted by the Defense Components having justified requirements for Defense Agencies planning and design funds.

(1) Each Defense Agency having a requirement for planning funds during the current and budget years is to submit its estimates on a DD Form 1391.

(2) The individual Military Departments may have a justified requirement for use of Defense-Wide planning funds under circumstances where the Military Departments serve as executive agents for certain multi-service or national-level support projects if funding is required to design a project which will be constructed using Military Construction, Defense-Wide funds. Under such circumstances, the Military Department should submit its estimates on a separate DD Form 1391.

5. <u>Automated Data Requirement</u>. All Military Construction estimates for the Active Forces, Defense Agencies, Guard and Reserve Components shall be addressed in the Exhibit C-1 Construction Annex input prescribed in Chapter 1.

6. <u>Long-Term Facilities Contracts</u>. A DD Form 1390 and 1391 must be submitted for each project proposed under the authorities of 10 U. S. C., Chapter 169. All additional supporting justification should be included in the DD 1390 Form and DD 1391 Justifications. These include Section 2809 ("Long-term facilities contracts for certain activities and services"), Section 2812 ("Lease-Purchase of Facilities"), Section 2835 (Long-term leasing of military family housing to be constructed"), Section 2836 ("Military housing rental guarantee

program"), and other third party financed construction authorities. Private financing initiatives will be closely reviewed to ensure their programmatic and budgetary viability. So that an informed decision regarding inclusion of the project in the budget may be made during the budget review, proposed projects must be supported by an economic analysis. In addition, to establish a reasonable expectation that the long-term facility project meets Congressional guidance that all third party financed projects, including proposed child care facilities, be at least five percent less expensive than regular military construction appropriation, a lease-versus-buy analysis conducted in accordance with the provisions of OMB Circular A-94 must also be submitted as backup documentation for the DD 1391.

a. In development of cost estimates, military construction alternatives should not exceed the published DoD pricing guidance. Private sector construction estimates should be fully supported by documentation and include all pertinent cost factors.

b. Guidance for development of the basic economic analysis required to support these longterm facility contracts is contained in DoDI 7041.3. The separate lease-versus-buy analysis must conform with OMB Circular A-104, and include full life-cycle costs and net present value discounting of each alternative.

c. Proposed child care facilities should also include in their justification the results of a market survey of child care services available in the local community, and the results of a need assessment and installation interest survey that documents and supports the need for the proposed project.

d. Authorization and appropriation procedures for long-term lease and lease-purchase contracts are special cases and may not be treated as regular military construction in some respects. General guidance for the treatment of budget authority, outlays, and scorekeeping guidelines for lease-purchase and capital lease contracts is contained in OMB Circular A-11.

(1) Under the provisions of public law these contracts may, depending on the authority used, be for periods of up to thirty-two years exclusive of the period of construction. However, for projects proposed under the authority of 10 U.S.C., Sections 2809, 2835, and 2836 the obligation of the United States to make payments under the contract in any fiscal year is subject to appropriations being provided specifically for that fiscal year and specifically for that project.

(2) Annual lease or annual lease-purchase payments commence at the time of beneficial occupancy, usually after the budget year in which the project is proposed for authorization.

(3) Components will request authorization for the full asset value of the contract (the estimated construction or acquisition cost, the differential cost of financing, and any contract termination liability costs). Components will request budget authority for each project in the amount equal to the full extent of the Government's first year liability under the contract (the sum of all cost and contract termination liability costs), in the budget year the project is submitted for approval.

e. Components shall submit proposals for long-term facilities contracts in a separate section in the OSD/OMB Justification books. The section shall be entitled "Long-Term Facilities Contracts". The section will include all DD Form 1390 and DD 1391s for newly proposed projects, and be preceded with an index showing facility category code numbers, installation and location, project number and title, estimated military construction cost and DD Form 1391 page number. Long-term leases and lease-purchases will be separately summarized in the index. In order to assess the long term financial impact of these proposals the section should also include a financial table that provides project data and cumulative totals for; total estimated project authorization, estimated annual lease payment, and year of planned beneficial occupancy.

f. Congressional budget presentation Justification Book guidance is provided in section 0604 of this manual.

g. Following approval of projects for inclusion in the President's Budget, Components may then proceed with project development.

h. In accordance with 10 U. S. C. these projects must be submitted to Congress for final review or approval 21 days in advance of contract award. Unless denied by Congress, Components may make contract award following the 21 day notification period.

(1) Components will submit these projects for approval to the Under Secretary of Defense for Acquisition, Technology, and Logistics, and the OUSD(Comptroller), prior to congressional notification, and again prior to the final submission to Congress.

(2) In order to ensure that only economical investments are approved, and that budget requests are sufficient to cover the full financing of the contract, only those projects demonstrated to be more cost effective than regular Military Construction will be approved for submission to Congress.

# 7. Construction Programs for Working Capital Funds

The Working Capital Funds related capital construction projects costing over \$500,000 will be included in the component military construction appropriation (including budget authority) budget estimates submission for review.

a. Military construction projects supporting the Working Capital Funds must be clearly labeled as Working Capital Fund projects. The C-1 Annex will include the Working Capital Fund projects (annotated as such) with their associated budget authority.

b. A separate copy of military construction projects supporting the Working Capital Funds will be provided to the Directorate for Revolving Funds, Program/Budget, OUSD(C) (Pentagon, room 3B866).

c. Copies of associated economic analysis studies supporting the construction requirements for Fund projects will be separately provided to the Directorate for Construction, Program/Budget, OUSD(C) (Pentagon, room 3D840).

8. <u>Facilities Programming and Financing at DoD Installations Utilized by Two or More DoD</u> <u>Components</u>. This section establishes the policy for programming and financing facilities at DoD installations where utilization by more than one DoD Component is involved, including host-tenant relationships.

## a. Responsibilities

(1) To ensure joint use construction is considered when assessing the Department's facilities needs, each DD Form 1391 must include a certification by the Secretary or Defense Agency Director concerned that the proposed project has been considered for joint use potential; a recommendation for either joint use or unilateral construction; and the reason(s) for that recommendation if joint use is not recommended. The certification may be delegated not lower than the Assistant Secretary responsible for the project.

(2) Single-Use Facilities. The DoD Component requiring a facility for its own use shall program and budget for the construction project involved.

(3) Joint-Use Facilities. The DoD Component which has jurisdiction over the host command shall program and budget for a facility which is planned for the joint use or joint occupancy of two or more DoD Components.

(4) Common-Purpose Facilities. On a case-by-case basis, the individual DoD Components shall function as executive agents for programs whose output directly and uniquely operates to the benefit of two or more DoD Components. The executive agent shall be responsible for planning and programming all facilities.

(5) Required Facilities. Generally, the host Military Department will program and budget an extension, expansion, and/or increase the capacity of the main utilities and communications or transportation systems, consistent with the master plan of the installation, to support any required facilities, including

those required by a tenant. However, programming and budgeting for such connecting utilities and communications or transportation systems as an integral part of any single-use facility are the responsibilities of the DoD Components requiring the facility.

(6) Siting Facilities. Siting of any facility for a tenant will conform to the master plan of the installation or will be in accordance with an agreed-upon location by the DoD Components concerned.

(7) Design. Standards of design and construction will conform to those of the host Military Department, consistent with the master plan of the installation; however, exceptions will be made in those instances where tactical or other operational considerations requiring limited duration of occupancy economically would not justify construction of facilities to higher standards.

## b. Utilization

(1) The tenant DoD Component will have exclusive use of any facility constructed for the duration of the tenants requirement. Upon termination of tenancy or use by the tenant, the facility will revert to the host Military Department for utilization without fee.

(2) Should the tenant DoD Component, at a later date have a requirement for use of the same facility, the host Military Department will make the facility, or an acceptable existing facility, available within a reasonable time period to the tenant. The host Military Department will not reconstruct or acquire a new facility for the tenant instead of returning the original facility or an acceptable existing substitute. If the host Military Department is not able to make a facility available to the tenant without creating unacceptable conditions for the host, the tenant will be responsible for obtaining a new facility.

c. <u>Maintenance and Service Support</u> Determination as to the levels of maintenance and service support and reimbursement therefore will be made by the DoD Components concerned consistent with DoD policies for host-tenant agreements.

#### 060302 Family Housing

A. <u>Purpose</u>

1. This Section prescribes instructions for the preparation and submission of budget estimates for the Services' Family Housing, appropriations.

2. Budget estimates will be submitted by the Services and Agencies which have requirements for financing the Family Housing Program as defined in Section 060106.

#### B. Submission Requirements

1. <u>Budget Estimates</u>. Each DoD Component is to submit data to support the budget requirement for Family Housing on the basis of the accounts and account structure set forth in the detail prescribed in Section 060302 B.3 (Preparation of Material). In addition, each DoD Component will address Family Housing estimates in the Exhibit C-1 Construction Annex input prescribed in Section 010504.

2. General

a. All data (including the OP-5 exhibit) will be provided on 8-1/2 inch by 11 inch size paper, typed across the short dimension of the paper, except for the formal exhibits contained in Section 0605 which have been formatted across the long dimension of the paper (FH-2, FH-3, FH-4, and FH-5). All pages will be bound on the 11 inch side.

b. The family housing budget data will be bound in separate books for the Army, Navy (including Marine Corps, with Debt Payment and Operations and Maintenance Cost for Marine Corps shown separately), Air Force, and Defense Agencies.

c. The number of required copies of the above material is specified in Section 010302.

d. For the biennial budget, separate sections or volumes will be provided for Biennial Year 1 (BY1) and Biennial Year 2 (BY2). For the Biennial Year 2 (BY2) section, BY1 will be considered as the prior year and BY2 as the budget year.

3. <u>Preparation of Material</u>. Submit data using forms and formats as indicate below. Separate tabbed sections will be submitted for each of the categories below (a, b, and 4-18).

a. <u>Index</u> Provide a detailed index to the submission.

b. Summary

(1) Provide a short narrative summary (no more than one page) describing the most significant features of the request. This summary need not cover every facet of the request and is intended to highlight those items of special significance.

(2) Provide a one-page financial summary of the entire request. This should include, as a minimum, the amounts requested for authorization and appropriation for the major programs (Construction, Operation and Maintenance, Utilities, Leasing, Debt and Reimbursable) and for the major subdivisions of these programs, as described below.

4. <u>Legislative Language</u>. Submit the requested authorization and appropriation language. Existing language should serve as a base, with changes and omissions bracketed.

5. <u>New Construction</u>

a. <u>Summary</u>. Provide a brief summary of the New Construction program. The summary should include, as a minimum: a short narrative highlighting the most significant features of the request, a comparison of the prior year program with the request, and a listing of each project requested showing location, number of units and the estimated cost. The index should also identify each project as either new mission or current mission.

b. <u>Project Justification</u>. For each New Construction project, including the construction of mobile home spaces, the following forms and exhibits are required. Additionally, in accordance with Sections 2823 and 2824 of Title 10 U.S.C., provide documentation of consultations with the Secretary of Housing and Urban Development on the availability of suitable alternative housing at each construction location.

(1) <u>Military Construction Project Data -- DD Form 1391</u>. Form will be prepared in accordance with the instructions contained in Section 0605 of this manual. It is important to avoid the use of "boiler-plate" justification. Cost estimates for new construction projects will include the maximum level of detail practicable. Any unusual features impacting on the cost of the project must be fully justified. In order to ensure prudent and economic investments a life-cycle, net present value economic cost analysis is required to support all new construction projects estimated to cost in excess of \$2 million dollars. Copies of these studies are to be provided with the Family Housing budget estimates. Each DD Form 1391 will (1) state if an economic analysis has been prepared and provide a summary of the results of that analysis, including the calculated savings-to-investment ratio, or (2) provide the specific reasons why an economic analysis is not required. Assemble the DD Form 1391's in the same sequence as the listing of projects on the summary page.

(2) <u>Military Family Housing Justification - DD Form 1523</u>. Form will be prepared in accordance with DoD Housing Management 4165.64-M. Data supplied should be in agreement with the latest formal housing survey for the location, and with the information provided on the DD Form 1390. The date of the survey should be specified. The form must include a statement indicating whether a private sector housing market analysis has been conducted and the date the market analysis was completed. When a market analysis has been conducted and is used as justification for new construction, a copy of the analysis must be available for review upon

request. Since this form deals with housing deficit calculations, the DD Form 1523 is required for housing unit and mobile home space projects only.

(3) <u>Tri-Service Family Housing Cost Model</u>. Provide, for each housing project, the calculations on which the budget estimate is based, using Exhibit FH-1, the "Tri-Service Family Housing Cost Model". The appropriate DoD cost factors must be used in the calculations. In addition, Tri-Service Family Housing Cost Models should be prepared using metric units of measure.

## 6. Post-Acquisition Construction

a. <u>Summary</u>. Provide a general summary of the Post-Acquisition Construction program being requested. The summary should include, as a minimum, a short narrative highlighting the most significant features of the request, and a comparison of the prior year program with the request. For consistency, the program should be referred to as "Post-Acquisition Construction" rather than "Improvements" or any other title.

b. <u>Project Justification</u>. Provide a DD Form 1391 covering the entire Post-Acquisition Construction program and DD Form(s) 1391C listing each project requested. Project description should be specific with regard to the work which is to be done (specify the number of units to be improved by the intended occupant grade; senior officer, junior officer, or enlisted), and note planned concurrent RPM non-routine costs. Projects should be arranged alphabetically by state and country. Federal Energy Management Program (FEMP) funding, if any, must be separately totaled. Projects, or portions of projects, for General and Flag Officer Quarters (GFOQ) must be identified separately. For improvement projects, where the cost per unit exceed sixty percent of the current replacement value of the unit, the project must be supported by a life-cycle economic analysis that demonstrates that renovation is more cost effective than new replacement construction or other available alternatives, such as demolition and reliance on housing allowances.

c. <u>Projects in Excess of \$50,000 Per Unit</u>. A separate DD Form 1391 is required for each project for which the per unit cost is in excess of \$50,000, taking into consideration the appropriate DoD area cost construction index. In the case of improvements necessary to make the unit suitable for habitation by a handicapped person this threshold is increased to \$60,000 multiplied by the applicable area cost factor. The cost estimate should also include concurrent repair to be funded under O&M. The justification for the project must detail the findings of an economic analysis and the resulting savings-to-investment ratio. Any unusual features impacting on the cost of the project must be clearly cited. Additionally, note the total Post-Acquisition Construction and non-routine maintenance for the unit or set of units over the past five years.

d. <u>Restriction on the Amount Invested in Improving Foreign Source Housing Units</u>. The three-year limitation on overseas units is \$35,000. If the Services intend to program improvements to specific units which exceed \$35,000 over a period of three years, total funding should be requested in one year. The justification for each unit should identify all improvements and major maintenance work done in the past three years, and all improvements and major maintenance planned in the following three years.

7. <u>Rental Guarantee Housing</u>. For each rental guarantee housing project, both foreign and domestic, provide a listing showing: (1) location, (2) number of units (by intended occupants (senior officer, junior officer, enlisted), (3) term of contract, (4) fiscal year and month of contract renewal, and (5) maximum termination costs.

8. <u>Advance Planning and Design</u>. All requirements for Advance Planning and Design should be submitted in the format prescribed for military construction.

#### 9. Operation and Maintenance Summary

a. <u>Narrative Summary</u>. Provide a general summary of the entire Operations and Maintenance program being requested, excluding leasing and debt. The summary should include, as a minimum, a succinct narrative highlighting the significant features of the request and a comparison of the prior year program with the budget request, particularly the reasons for any significant upward or downward shifts in funding levels. b. Inventory and Funding Summary.

(1) Provide the data called for in Exhibit FH-2, Family Housing Operation and Maintenance Summary. Include for each fiscal year, as a subset of "Average Inventory for Year," the total number of units that are classified as historic (units that DoD must manage in accordance with the National Historic Preservation Act of 1966).

(2) Provide the total civilian personnel compensation for all U.S. Direct Hires, Foreign National Direct Hires and Foreign National Indirect Hires. This information should be provided for the prior year, current year and budget years in the format of Exhibit OP-8, Civilian Personnel Costs, shown in Section 030402 of this manual. This exhibit is only required for inclusion in the OMB/OSD review, but should be provided separately for the President's Budget submission.

10. <u>Operations</u>. The sub-accounts of Operations are Management, Services, Furnishings and Miscellaneous. For each of these provide:

a. <u>Summary</u>. A short narrative describing what the funds will be used for and highlighting the most significant features of the request. For the Furnishings program only, provide additional information in the format of Exhibit FH-3, "Furnishings Summary".

b. <u>Reconciliation of Increases and Decreases</u>. A reconciliation of increases and decreases, at the worldwide level, between the amounts requested in the President's Budget for the current year and budget years. The format of this reconciliation is to be identical to the Exhibit OP-5 shown in Section 0605 of this manual. For each program increase or decrease, quantitative and qualitative information relative to the proposed change must be provided. Increases and decreases should address specific adjustments in the program, particularly changes in the number of family housing units being supported, changes in the FH-2 and FH-3 exhibits, etc.

11. Utilities. For the Utilities program, separate from Operations, provide the following:

a. A short narrative describing what the funds will be used for and highlighting the most significant features of the request. This should contain a section dealing with energy consumption reductions accomplished and progress made towards meeting Congressional and Defense energy conservation goals.

b. A breakout of KWH of electricity, tons of coal, cubic feet of gas, barrels of oil and other energy usage which supports the request for utilities.

c. <u>Reconciliation of Increases and Decreases</u>. A reconciliation of increases and decreases, at the worldwide level, between the amounts requested in the President's Budget for the current year and budget years. The format of this reconciliation is to be identical to the Exhibit OP-5 shown in Section 0605 of this manual. For each program increase or decrease, quantitative and qualitative information relative to the proposed change must be provided. Increases and decreases should address specific adjustments in the program, particularly changes in the number of family housing units being supported, changes in the FH-2 exhibit, etc.

## 12. Maintenance

a. Provide a short narrative describing what the funds will be used for and highlighting the most significant features of the request.

b. <u>Reconciliation of Increases and Decreases</u>. A reconciliation of increases and decreases, at the worldwide level, between the amounts requested in the President's Budget for the current year and budget years. The format of this reconciliation is to be identical to the Exhibit OP-5 shown in Section 0605 of this manual. For each program increase or decrease, quantitative and qualitative information relative to the proposed change must be provided. Increases and decreases should address specific adjustments in the program, particularly changes in the number of family housing units being supported, changes in the FH-2 exhibit, etc.

c. Provide a summary on the backlog of deferred maintenance. Describe the plans for reducing the backlog to a manageable level. Provide an analysis of types of projects, type and accuracy of reporting and special efforts to reduce the backlog. Provide a table showing, for BY-3 through BY2, (1) backlog at beginning of year, (2) recurring maintenance arising during the year, (3) maintenance funds approved or planned, (4) backlog at end of year, and (5) backlog reduction (-) or growth (+) during the fiscal year.

## 13. Maintenance and Repair Over \$20,000 Per Unit

a. Using DD Forms 1391 and 1391C, provide data on maintenance and repair projects for which the per-unit cost exceeds \$20,000. As a minimum, the 1391C should provide, for each project: (1) location, (2) number of units, (3) age of units, (4) per unit cost, (5) total square footage of unit and square footage of project, (6) total cost, and (7) short narrative description and justification of the work, including results of economic analysis and savings-to-investment ratio. Additionally, describe the total Post-Acquisition Construction and non-routine maintenance accomplished on the unit or set of units over the past five years. Projects should be listed alphabetically by state and country, as displayed for the Post Acquisition Construction projects.

b. Projects which appear as concurrent maintenance and repair on the 1391's for Post-Acquisition Construction (see Section 060302 B.7 above) will be shown here if they exceed the \$20,000 per unit threshold, with a notation stating that the project is also shown in the post acquisition construction section.

## 14. <u>G&FOQ O&M Costs Over \$25,000 Per Unit</u>

a. Provide a summary statement detailing your efforts to control and reduce expenditures for these "high-cost" units.

b. Provide a listing of all General and Flag Officer Quarters (G&FOQ) for which total Operation and Maintenance cost exceeds \$25,000 for the Budget Year. Listing should include, for each: (1) location, (2) quarters identification, (3) size of unit, (4) age of unit, (5) operations total, (6) utilities total, (7) maintenance total, (8) total O&M, and (9) short narrative description and justification of the work, including results of economic analysis and savings-to-investment ratio. Additionally, note the total Post-Acquisition Construction and maintenance costs for the unit or set of units over the past five years.

c. This listing will include all G&FOQ projects for which total Operation and Maintenance exceeds \$25,000, including those listed in other sections of the submission.

d. Provide a similar listing for the Prior Year and Current Year units with O&M over \$25,000 and which were not included in the previous budget request.

e. In addition, to satisfy the annual reporting requirement of section 128 of the FY2000 Military Construction Act, a separate listing (off-line from BES and President's Budget) of all GFOQs is required by December 1 each year. The listing must reflect actual operation and maintenance expenditures for each GFOQ for the prior fiscal year, and shall be in the format of Exhibit FH-5 General and Flag Officers Quarters.

15. <u>Reimbursable Program</u>. Provide a detailed justification for the Reimbursable Authority requested. Include information on what precisely is funded through the reimbursable program and details on the sources of receipts for the prior year, current year and budget year.

16. Leasing

a. Provide a brief summary statement describing the program and highlighting major initiatives for which funds are being requested.

b. For domestic and foreign leases, provide a summary justification statement. Also provide data on the leasing program in the format of Exhibit FH-4, "Analysis of Leased Units." Information should be provided at the installation or community level, whichever is most applicable. For each new project requested, also

include a full justification and description, in the same format as for a New Construction project (see Section 060302 B.6 above).

c. <u>Reconciliation of Increases and Decreases</u>. A reconciliation of increases and decreases, at the worldwide level, between the amounts requested in the President's Budget for the current year and budget years. The format of this reconciliation is to be identical to the Exhibit OP-5 shown in Section 0605 of this manual. For each program increase or decrease, quantitative and qualitative information relative to the proposed change should be provided. Increases and decreases should address specific adjustments in the program, particularly changes in the number of family housing units being supported.

d. For each new Section 801 lease project requested, include a full justification and description, in the same format as for a New Construction project (see Section 060302 B.6 above), including the results of the economic analysis.

e. Under Section 2828 of 10 U.S.C., the Components are allowed not more than 10,000 domestic (United States, Puerto Rico, or Guam) leased units. The cost of domestic leases may not exceed \$12,000 (including the cost of utilities, maintenance, and operation) per unit per year. Section 2828 permits an exception for 500 of these domestic leased units that may exceed \$12,000 per unit per year but can not exceed \$14,000 per unit per year. Beginning in FY 1994, these maximum lease amounts are adjusted each year by the percentage (if any) by which the Consumer Price Index (CPI) for All Urban Consumers, published by the Bureau of Labor Statistics, during the preceding fiscal year exceeds the CPI for the fiscal year before the preceding fiscal year. For example, the FY 1994 cap of \$12,000 is adjusted by the following formula: \$12,000 \* [FY 1993 average annual CPI / FY 1992 average annual CPI] = new cap. The average annual CPI is calculated by adding the CPI for each month in a fiscal year and dividing by 12. Beginning in FY 1998, the Army has authority to lease 8 units in Miami, Florida. The lease cost of these units may not exceed \$280,000 per year, and no lease on any individual housing unit may exceed \$60,000 per year. These limits will be adjusted for increases in the CPI, using the above formula, beginning in FY 1999.

f. Also Under Section 2828 of 10 U.S.C., the Components are allowed not more than 53,000 foreign leased units. Foreign leases may not exceed \$20,000 per unit per year (including the cost of utilities, maintenance, and operation). Section 2828 permits exceptions for 450 leased units that may exceed \$20,000 but that can not exceed \$25,000 per unit per year and for 350 leases that may exceed \$25,000 per unit per year. The Navy also has authority to lease an additional 2,000 units in Italy that may not exceed \$25,000 per unit per year. These dollar limits are adjusted for the annual percentage change in the CPI as described in section 060302 B.16.e. above and for foreign currency fluctuations from October 1, 1987. To determine the impact of foreign currency fluctuation. After the caps of \$20,000 and \$25,000 U.S. dollars are adjusted by country, the adjusted rates becomes the new cap for determining whether a lease must be counted against the exception limits for a given budget year. Then, if a rental exceeds the adjusted maximum costs, it counts against the high cost ceiling limitations of 450 and 350, units, respectively, DoD-wide. For each nation the formula that is to be applied is: \$20,000 adjusted for CPI changes or \$25,000 adjusted for CPI changes rate / current budget exchange rate ] = new cap limit.

(1) Where the "FY 1988 exchange rate" is the exchange rate that was published by the USD(C) for use in preparing the FY 1988 budget estimates, stated in units of foreign currency for one (1) U.S. dollar:

| Country        | Monetary Unit | FY 1988 Exchange Rate |
|----------------|---------------|-----------------------|
| Belgium        | Franc         | 42.77                 |
| Canada         | Dollar        | 1.39                  |
| Denmark        | Krone         | 7.75                  |
| Germany        | Mark          | 2.06                  |
| France         | Franc         | 6.72                  |
| Greece         | Drachma       | 139.90                |
| Italy          | Lira          | 1,423.00              |
| Japan          | Yen           | 163.10                |
| Netherlands    | Guilder       | 2.33                  |
| Norway         | Krone         | 7.52                  |
| Portugal       | Escudo        | 150.5                 |
| Spain          | Peseta        | 137.60                |
| Turkey         | Lira          | 743.50                |
| United Kingdom | Pound         | 0.70                  |

For countries not listed, use the October 1, 1987 exchange rate.

(2) Where the "current budget exchange rate" is the rate published by the USD(C) for use in preparing the fiscal year budget estimates for which the lease funds are being requested, stated in units of foreign currency for one (1) U.S. dollar.

(3) The new cap limit is the maximum amount in dollars that a lease may cost per unit per annum for each nation, before that unit must count against the worldwide 350 and 450 unit limits on exceptions for high cost leases for the fiscal year for which the budget resources are being requested.

(4) Provide a summary table showing application of the above formula for each nation where high cost leases exist or are proposed, and the total number of such leases.

#### 17. Debt Payments

a. Provide a brief justification statement describing the requested program.

b. Provide a table identifying separately the total of the principal payments, and interest charges, and the totals for the Servicemen's Mortgage Insurance Premium program for the prior, current, and budget years.

c. For the Servicemen's Mortgage Insurance Premium program provide a listing showing, for each fiscal year: the number of terminations, the number of mortgages on which payments are to be made, the average payment per mortgage, and the estimated payments for the year. This table should start with the prior year, and end with BY+1.

18. Foreign Currency Exchange Data All Family Housing Operation and Maintenance appropriations that participate in the Foreign Currency Fluctuations, Construction, Defense appropriation are required to prepare and submit a PB-18 Exhibit using the approved foreign currency exchange rates. The format for the PB-18 Exhibit is in section 191204 of Chapter 19 of Volume 2 of the DoD Financial Management Regulation (DoD 7000.14-R).

## 060303 Homeowners' Assistance Fund, Defense

#### A. Purpose

1. This Section provides guidance for the preparation and submission of Homeowners' Assistance Fund, Defense budget estimates under the Department of the Army allocation account.

2. Budget estimates will be submitted only by the Department of the Army since that Department has been assigned the overall responsibility for the administration and management of the Department of Defense Homeowners' Assistance program by DoD Directive 4165.50.

3. Each Component is responsible for including sufficient resources in their budget estimate to fund Homeowners Assistance Program (HAP) costs related to their Component's actions associated with base closures, realignments, and force reductions. The level of resources required to fund HAP costs shall be developed in consultation with the Army, as the HAP executive agent. Budget estimates for HAP shall be separately identified and submitted in Component BRAC submissions for HAP costs associated with realignments and closures and in the O&M submission for non-BRAC related HAP costs.

# B. Submission Requirements

1. Submit a narrative explanation and description for current and budget years, setting forth estimated cases of assistance by type and location, including a summary of management and disposal actions by the Federal Housing Administration relating to acquired property.

2. The following exhibits, provided in Section 0605, will be submitted:

- HA-1 Workload and Obligation Data
- HA-2 Status of Accounts
- HA-3 Work Unit Data
- HA-4 Program and Financing

In addition, the Army will address Homeowners' Assistance Fund estimates in the Exhibit C-1 Construction Annex input prescribed in Section 010504.

3. Required copies of the above material are identified in Section 010302.

4. For the biennial budget, separate sections or volumes will be provided for Biennial Year 1 (BY1) and Biennial Year 2 (BY2). For the Biennial Year 2 (BY2) section, BY1 will be considered as the prior year and BY2 as the budget year.

C. <u>Preparation of Material</u>. All material will be provided on 8-1/2 inch by 11 inch size paper, and bound on the long side. All narrative data will be typed across the short dimension of the paper, while Exhibits HA-1, 2, 3 and 4 will be typed across the long dimension.

#### 060304 North Atlantic Treaty Organization (NATO) Security Investment Program

A. Purpose

1. This section provides guidance for preparation and submission of the NATO Security Investment Program budget estimates.

2. Budget estimates will be submitted by the OUSD(AT&L) since that office has been assigned the overall responsibility for the oversight and management of the NATO Security Investment Program by DoDD 2010.5.

Volume 2B, Chapter 6 ★June 2000

B. <u>Submission Requirements</u>. Submit a *detailed exhibit*, *NSIP-1*, listing requirements at the project level for both construction and procurement requirements. The listing should be sufficiently detailed to identify discrete projects and initiatives. Aggregations at the capability package level i.e., Defense of the Mediterranean, are not sufficiently detailed and should be broken down further to show the individual projects/initiatives comprising the capability packages. A narrative explanation and description of each of the requirements for the current and budget years should be provided. *The NSIP-1 exhibit is attached for the NATO Security Investment Program to identify the following information: Location, Installation, Project Title, Description of Project, Budget Scheme (how many NATO Nations participating in the funding of the project), Project Cost, U.S. Cost Share, Other Nations Cost Share. This will be provided for both the current year and budget year.* 

C. Preparation of Material. All material will be provided on 8-1/2 inch by 11 inch size paper, and bound on the long side. All narrative data will be typed across the short dimension of the paper.

# 060305 North Atlantic Treaty Organization (NATO) Security Investment Program Expansion Costs

A. Expansion Costs. Submit a list of all requirements, construction and procurement, associated with NATO expansion. The listing should be sufficiently detailed to identify discrete projects and initiatives. Aggregations at the capability package level i.e., Defense of the Southern Region, are not sufficiently detailed and should be broken down further to show the individual projects/initiatives comprising the capability packages. The NSIP-1 exhibit is attached for the NATO Security Investment Program to identify the following information of projects associated with NATO Expansion: Location, Installation, Project Title, Description of Project, Budget Scheme (how many NATO Nations participating in the funding of the project), Total Project Cost, U.S. Cost Share, Other Nations Cost Share. This will be provided for both the current year and budget year. A narrative explanation and description of each of the requirements for the budget years should be provided. The budget estimate for NATO Expansion Costs should be identified in Budget Activity (BA) 02 as presented in Chapter 1.

#### 060306 Family Housing Improvement Fund

#### A. Purpose

1. This section prescribes instructions for the preparation and submission of budget estimates for the Family Housing Improvement Fund (FHIF).

2. The Competitive Sourcing and Privatization Directorate (CS&PD), ODUSD(Installations), shall provide an overview of the Military Housing Privatization Initiative (MHPI). The overview should contain a status of the Department's initiative, a description of the initiative's goals, and plans to achieve those goals. Further, any required appropriations to the FHIF for CS&P administrative costs shall be identified and justified in the CS&P overview submission.

## B. Submission Requirements

1. The Services shall provide a schedule for their privatization projects using the exhibit at FH-6, Family Housing Privatization. Also, the New Construction summary, DD Forms 1391, and Improvement projects should indicate which family housing construction projects are intended as a source of funding for privatization initiatives. A lump sum DD Form 1391 may also be used to identify family housing construction funds for transfer to the FHIF. Each Service shall also provide a narrative summary of their MHPI programs.

2. Direct Loans and Guaranteed Loans: OMB credit data requirements and MAX schedules for inclusion in the President's Budget are contained in section 33 of OMB circular A-11. The Services must ensure that the required data will be available by December 1 of each year for their loan programs. The information will be requested under separate cover.

# 0604 CONGRESSIONAL JUSTIFICATION/PRESENTATION

## 060401 Purpose

A. This Section presents the justification book organization and the exhibit requirement for submission to Congress. Examples of budget exhibits can be found in Section 0605.

# 060402 Organization of Justification Books

A. Justification material will be organized into one volume entitled:

# Supporting Data for Fiscal Year 20BY1/20BY2 Budget Estimates Descriptive Summaries

B. This volume will be divided into two sections, organized as shown on the following pages.

A. Organization

#### **Table of Contents and Summary Data**

The summary data will include a state list of all major, minor and family housing construction projects.

Section 1 Special Program Considerations

This section will include the following topics with a short narrative or summary table, and other special interest items as applicable.

Facilities Funded Through Other Than Military Construction Pollution Abatement Program Energy Conservation Program Drug Interdiction Program

Section 2 Budget Appendix Extract

Legislative Language

| Section 3  | <u>Installation and Project Justification Data</u><br>DD Forms 1390 and 1391    |
|------------|---------------------------------------------------------------------------------|
| Section 4  | <u>Architectural and Engineering Services and Construction</u><br><u>Design</u> |
| Section 5  | Unspecified Minor Construction                                                  |
| Section 6  | Defense Access Roads                                                            |
| Section 7  | Family Housing                                                                  |
| Section 8  | Homeowners' Assistance (Army Only)                                              |
| Section 9  | Long-Term Facilities Contracts                                                  |
| Section 10 | Working Canital Fund Canital Construction                                       |

B. <u>Biennial Budget Submission</u>. For the biennial budget, separate sections or volumes will be provided for Biennial Year 1 (BY1) and Biennial Year 2 (BY2). For the Biennial Year 2 (BY2) section, BY1 will be considered as the prior year and BY2 as the budget year.

C. The volume will be organized by state/country and location. Projects should be shown in precisely the same order as they appear in the State List portion of the Construction Annex (C-1).

D. All construction line items included in the funding program in support of the total obligational authority for the Military Construction appropriations in the President's Budget will be summarized on Installation and Project Justification Data, DD Forms 1390 and 1391/1391C. In addition to data provided on DD Forms 1390 and 1391, justification books submitted to the House and Senate Appropriations, the House National Security Committee, and the Senate Armed Services Committees in support of Military Construction Program requests will contain supplemental data prepared in the formats prescribed below on the reverse of DD Form 1391. The Guard and Reserve Forces will use a DD Form 1390S continuation page in lieu of DD Form 1390. All forms required for a project will be grouped and combined in the same book arranged in category code order within state and station.

E. Section 5 will include an exhibit entitled "Long-Term Facilities Contracts", separately listing projects proposed under 10 U. S. C. Sections 2809 and 2812 authorities, arranged in the same order as they would

appear in the State list portion of the Construction Annex (C-1). This exhibit will be followed by the DD Forms 1390 and 1391 for each new project proposed. The section will also include a special financing table reflecting both prior approved long-term facility contracts and new requests, as specified in Section 060301 B.7.

F. Section 060502 contains detailed instructions for preparation of DD Forms 1390 and 1391/1391C. Detailed instructions for preparation of the supplementary justification material are given in Section 060405. The following additional instructions apply:

1. In addition to other data requirements, components are required to indicate on the DD Form 1391C for each individual project a statement indicating whether or not an economic analysis has been utilized in evaluating the project. In those instances where an economic analysis has not been prepared, a statement is required indicating why such analysis is not applicable or pertinent.

2. Lump-sum requests for a number of construction projects at a single location or for related projects at several locations will not be considered.

3. Projects associated with intelligence or intelligence-related operations will be so identified. Block 5, Program Element, DD Form 1391, will include the annotation "NFIP", "JMIP", or "TIARA" as appropriate.

4. Consistent with Executive Order 12770 of July 25, 1991, Military Construction and Family Housing budget submissions, including DD Forms 1390 and 1391, should be prepared using metric units of measure. In accordance with congressional report language, DD Forms 1390 and 1391 must also include parenthetically the English measurement.

5. All DD Forms 1391 should include a name and phone number of the civil engineer at the installation responsible for the requested project. This information should be displayed in the bottom left hand corner on the last page of the 1391.

6. The budget submission should include the real property maintenance backlog at all installations for which there is a requested construction project. This information is to be provided as subsection c. in block 9 of the DD Form 1390 under the heading, "RPM Backlog". In addition, for all unaccompanied housing project requests, the DD Form 1391 is to show all unaccompanied housing real property maintenance conducted in the past 2 years (FY 2000 and FY 2001) and all future RPM requirements (defined as RPM funding for unaccompanied housing included in the FYPD years) for unaccompanied housing at that installation. This information should appear as the last data in the DD Form 1391 under the heading "FY 2000 Unaccompanied Housing RPM Conducted:," "FY 2001 Unaccompanied Housing RPM Conducted:," and "Future Unaccompanied Housing RPM Requirements;."

G. Justification Book Covers and Binding of Data

1. Justification materials will be provided on 8-1/2" x 11" white paper, typed across the short dimension of the paper (portrait) with 3 holes punched on the left margin and bound with Acco fasteners. Material is to be printed on both sides of the page using 1" margins. The DD Form 1390 should be printed on white paper, not on yellow paper as previously required.

2. Justification book covers will be 220 index stock using the following colors: Army - green; Navy - buff; Air Force - blue; Defense-Wide - white. Covers will bear the appropriate security classification (should any volume require such classification), title of the appropriation and fiscal year, and the phrase "Justification data submitted to Congress." The designation "For Official Use Only" will not be used.

3. Separate justification books will be prepared for those projects which require classified information on the DD Forms 1390 and 1391/1391C.

4. The individual Defense Agencies will submit either originals of DD Forms 1390 and 1391/1391C, or copies of a quality suitable for printing. These are to be used for preparation of consolidated

justification books for submission to Congress. These submissions are not to be punched or bound. Pages are <u>not</u> to be numbered. Covers are not required. One complete set of each is to be delivered to: the OUSD(C) Program/Budget, Directorate for Construction; and the ODUSD(Industrial Affairs and Installations).

5. Each justification book (and each submission of the Defense Agencies described in Paragraph 4, above) is to include an index of installations and projects by state and country, arranged alphabetically, in precisely the same order as the projects appear in the State List portion of the Construction Annex (C-1).

#### 060403 Submission of Military Construction Justification Books

A. <u>Review by OSD</u>. Before the justification material can be released by the Military Departments to the Congress, it must be reviewed by USD (Comptroller) to assure that policies and decisions made by the President and Secretary of Defense are fully reflected. Justification material prepared by the individual Defense Agencies will be submitted to USD(C) as requested for preparation of consolidated justification books for submission to the Committees on Appropriations.

B. <u>Security Clearances.</u> Each Military Department will be responsible for the clearance of its justification books through OSD Security Review. OUSD(C) will be responsible for the clearance of the Defense Agencies justification books through OSD Security Review.

C. <u>Number of Copies.</u> Three advance sets of justification books will be forwarded for review to the Directorate for Construction, OUSD(C), Room 3D841, Pentagon. See Chapter 1 for the detailed instructions on number of copies and distribution of printed material.

D. Instructions for Preparation of Supplemental Justification Data in Support of Annual Military Construction Programs. Each data requirement shall be filled in as appropriate including negative responses to indicate that the item has been addressed.

1. <u>Instructions for Preparation of Summary Lists</u> Each Military Service and Defense Agency shall prepare a State List and an Installation List. These lists shall include every project for which funds have been requested.

2. <u>Instructions for Preparation of DD Form 1390 Supplemental Installation Data</u>. The following data shall be provided in an appropriate place on DD Form 1390:

#### a. Outstanding Pollution and Safety (OSHA) Deficiencies

(1) Air Pollution. Enter cost of all air pollution abatement projects for the <u>out years</u>. <u>Do not</u> include cost of <u>budget year</u> projects.

(2) Water Pollution. Follow instructions for Air Pollution, a.1., above.

(3) Safety and Occupational Health Deficiencies. Follow instructions for a.1 above and use definitions cited in Section 060403 above for this data.

3. <u>Instructions for Preparation of DD Form 1391 Supplemental (Facility) Data.</u> The following data shall be provided for each facility in the program using the back of standard DD Form 1391.

- a. Design Data (Estimates)
  - (1) Status

(a) Enter date design was started (i.e., date when all appropriate design contracting procedures have been completed and the designer directed to proceed with design).

(b) Enter the percent of design completed as of January 1, of the year in which the budget is submitted to the Congress (e.g., January 2, 2000, for FY 2001 projects).

(c) Enter date design expected to be 35% completed.

(d) Enter date design will be completed (i.e., date when all reviews will be completed and construction contract ready for advertising).

#### **DoD Financial Management Regulation**

(e) Include the annotation "parametric estimates have been used to develop project cost" if the cost estimate is based on parametric estimates in lieu of the traditional 35% design.

(f) Enter the type of design contract (design-bid, design-bid-build, or other, if other, provide a brief description of the design contract.

(g) Indicate whether an energy study and a life-cycle analysis was performed in support of the design of the proposed facility.

(2) <u>Basis</u>.

(a) Indicate whether or not design is based on a standard or definitive design.

(b) If answer to (a) is affirmative, indicate where design was previously used.

(3) <u>Total Design Cost</u>. Indicate total federal cost (all costs to be charged to planning and design accounts) as follows:

(a) Cost of the production of plans and specifications (those costs included within the 6 percent statutory cost limitations).

- (b) All other costs of design
- (c) Total Cost (a + b or d + e).
- (d) Amount of cost estimated to be spent on contracts.

(e) Amount of cost to be spent in-house (total cost if design is all within house; overhead and administration costs if design is contracted out, or other breakout).

(4) Construction Contract Award Date. Indicate month and year the contract is planned to be awarded to the construction firm.

- (5) Construction Start Date. Indicate month and year construction is planned to start.
- (6) Construction Completion Date. Indicate month and year construction is planned to

be completed.

b. Equipment Associated with This Project Which Will be Provided From Other

<u>Appropriations</u> List only those items which support the cost shown in Block 9 of the DD Form 1391, for Equipment Provided from Other Appropriations. Enter the equipment nomenclature, procuring appropriation, fiscal year in which the equipment was appropriated or is to be requested and the cost in thousands of dollars.

c. <u>Working Capital Fund Projects</u>. DD 1391s submitted in support of Working Capital Fund Capital Budget requirements will be labeled as such in Block 4, above the project title.

E. <u>FYDP Project Listing</u>. An updated Military Construction/Family Housing Outyear Project Data exhibit in the format specified in section 060502 shall be provided separately to the OUSD(C) Military Construction Directorate for all Active Force and Defense Agency military construction and family housing programs at the time justification materials are submitted for OSD review. The outyear project data exhibits for the Active Forces and Defense Agencies will not be included in the justification books provided to Congress. However, the justification book for each component of the National Guard and Reserve will contain a listing of all projects that are funded in the Future Years Defense Program (FYDP). The listing should be compiled by year and show the location, type of facility, and cost. The listing should contain only the projects/programs (including family housing O&M accounts -- operation, leasing, maintenance, and Debt) that are funded in the President's budget FYDP. The Military Construction/Family Housing Outyear Project Data Exhibit to be used is contained in section 060502.

#### 060404 Submission of Family Housing Justification Books

A. <u>Family Housing Justification, Military Departments</u>. The format for the Congressional justification books for Family Housing will be identical to that detailed in Section 060302 for the budget estimates, with the following exceptions:

1. <u>Submission Requirements</u>. Family Housing Congressional justification material will be submitted with the Military Construction justification books for each military department. The Family Housing material should follow that provided for Military Construction. (See Section 060302B.2.b)

2. <u>Military Construction Program -- DD Form 1390</u>. Form will be prepared in accordance with section 060502. One form is required for each location. Personnel data should be based on latest approved totals for the installation or area. Inventory data should include only Family Housing assets. The form should be printed on white paper, and should precede the DD 1391.

3. <u>Tri-Service Family Housing Cost Model</u>. This form is not required. (See Section 060302B.5.b.(3)).

4. <u>Civilian Personnel Costs -- Exhibit OP-8</u>. This form is not required. (See Section 060302B.9.b.(2)).

5. Furnishings Summary -- Exhibit FH-3. This form is not required. (See Section 060302B.10.a)

6. <u>Submission by Department of the Army Only</u>. Since the Department of the Army has been designated as the executive agent to execute the Homeowners' Assistance Program for the Department of Defense, only the Department of the Army will submit justification material as described in Section 060303.

B. Family Housing Justification, Defense Agencies

1. <u>Component Responsibilities</u>. Separate justification material, in the format described in Section 060302 and similar to that specified above for the Military Departments, will be provided by the individual Defense Agencies. The submissions will provide separate Construction, Operation and Maintenance, and Leasing exhibits, as appropriate, for Defense Intelligence Agency, Defense Logistics Agency, and National Security Agency.

2. <u>Consolidation and Review by OSD</u>. Original pages of justification material prepared by the individual Defense Agencies will be submitted to the Directorate for Construction, OUSD(C) Program/Budget, Room 3D841, as requested by the call letter for the preparation of consolidated justification books for submission to the Congress. One copy of the justification material should be submitted concurrently to the ODUSD(Industrial Affairs and Installations).

3. <u>Justification Material Format</u>. Justification material submitted by the Defense Agencies will be unbound. Covers are not required. Pages will not be numbered. All data will be provided on 8-1/2 inch by 11 inch paper, typed across the short dimension of the paper with 1 inch margins, except for the FH-2, and FH-4 exhibits, which will be typed across the long dimension.

4. <u>Classification</u>. All justification material will be unclassified.

# 060405 Submission of Justification Books for the Homeowners' Assistance Fund, Defense Appropriation

A. <u>Organization of Justification Books</u>. Justification data will include items detailed in Section 060303 for the budget estimates. Material will be incorporated as the final section of the Army's military construction/family housing justification book.

#### **DoD Financial Management Regulation**

B. <u>Submission by Department of the Army Only</u>. Since the Department of the Army has been designated as the executive agent to execute the Homeowners' Assistance Program for the Department of Defense, only the Department of the Army will submit justification data.

C. <u>Review by OSD</u>. Before the justification material can be released to the Congress, it must be reviewed by the USD(C) to assure that policies and decisions made by the President and Secretary of Defense are fully reflected.

D. <u>Security Clearances</u>. The Department of the Army will be responsible for clearance of the justification book through OSD Security Review.

E. <u>Number of Copies</u>. See Section 010401 for instructions on the number of copies required and the distribution.

## 0605 MILITARY CONSTRUCTION/FAMILY HOUSING APPROPRIATION SUBMISSION FORMATS

## 060501 Purpose

The formats provided on the following pages reflect guidance presented in previous sections of the chapter. Unless modified in a submission budget call, these formats should be adhered to.

# 060502 Exhibits in Support of Section 060301 - Budget Estimates Submission/Military Construction

| DD 1390 Military Construction Program                     | . 37 |

DD 1390 Military Construction Program

## INSTRUCTIONS FOR PREPARATION OF DD FORM 1390, "FY\_MILITARY CONSTRUCTION PROGRAM"

The DD Form 1390 will be used by the active services to list the projects proposed for inclusion in the Military Construction Program, including requests for (10 new authorization; (2) funding of new authorization; and (3) funding of prior years' authorization. The Guard and Reserve Forces will use a DD Form 1390s instead of the DD Form 1390.

#### Instructions for preparation of DD Form 1390 follow:

Items 1 and 2 - Component and Date: Self explanatory. Date prepared or the date the budget estimate submission is due to OSD.

**Item 3 - Installation and Location:** Enter the official name of the installation. Enter the name of the state if within the United States or the name of the country or island chain if outside the United States. In the case of Guard and Reserve facilities, enter the city and state if the facility is not to be constructed on a military installation. Use "classified location" only when necessary to meet security classification guidelines.

Item 4 - Command: Enter the name of the host major command responsible for management control of the installation.

Item 5 - Area Construction Cost Index: Enter the construction cost index used in estimating the cost of the project(s). Consult the latest guidance published by DUSD(I).

**Item 6 - Personnel Strength:** Enter personnel strengths for permanent, student, and support activities. Include transient personnel where applicable.

a. As of: Enter September 30 of the year of submittal to OSD.

b. End FY 20\_: Enter end of the budget year, plus 5 years.

#### Item 7 - Inventory Data (\$000):

a. Total Acreage: Enter the number of acres owned and/or leased by the Government, under accountability of the Military Department concerned, as shown in the latest Inventory of Military Real Property.

b. Inventory Total As Of September 30 \_\_: Enter the date and the current real property inventory total (except land rent). These totals should include inventory amounts for family housing.

c. Authorization Not Yet In Inventory: Enter the amount of funded and unfunded authorization for the construction of facilities or acquisition of land which have not been included in the September 30 Inventory of Real Property. This amount will include only such authorization as is related to either the Military Construction Program or the Family Housing Program as the case may be.

d. Authorization Requested In This Program: Enter the total cost for construction and land acquisition being requested for authorization in the budget year.

e. Authorization Included in Following Program: Enter the total estimated cost of construction and land acquisition required for authorization for the program year following the budget year.

(page 2 of 4)

f. Planned in Next Three Program Years: Enter the total estimated cost of construction and land acquisition required for the three years beyond the budget year and following year programs (i.e., second, third, and fourth years beyond the budget year). This amount should agree with the data used in the preparation of the military construction or family housing estimates contained in the Future Years Defense Program.

g. Remaining Deficiency: Enter the total estimated cost of construction and land acquisition required for existing facilities deficiencies remaining beyond the three program years covered in 7.f., above.

h. Grand Total: Enter the total of items 7.b. through 7.g..

Item 8 - Projects Requested In This Program: Installation or activity projects for the budget year shall be listed individually with attendant information provided in the appropriate column. Both major and minor construction projects are to be included as shown on the sample form.

a. Column 1 - Category Code: Enter the applicable category code consistent with the category code shown in Item 6 of the DD Form 1391 for the project.

b. Column 2 - Projects Title: Enter the project title consistent with the title shown in Item 4 of the DD Form 1391.

c. Column 3 - Scope: Enter the same quantity shown in Item 9 of the DD Form 1391, "Cost Estimates," and include the unit of measure (e.g., SM, SY, LF, PR, EA, CY, etc.). *Immediately following or directly beneath the metric quantity and unit of measure, parenthetically include the English quantity and measurement*. In those instances where a specific quantity cannot be satisfactorily identified, enter LS for lump sum.

d. Column 4 - Cost (\$000): Enter the project cost consistent with the cost shown in Item 8 of the DD Form 1391. If two or more projects are listed, enter the total in this column, and use this figure in Item 7.d., above.

e. Column 5 - Design Status: Enter the most accurate possible dates for the start and completion of design using numerals (e.g., 6/94, 11/95).

#### **Item 9 - Future Projects:**

a. Included in Following Program (FY\_): List all installation projects regardless of the number and include columnar data comparable to that provided in Item 8, but leave design status blank.

b. Planned Next Three Years: List projects planned for next three years in 9.b. and include columnar data comparable to that provided in Item 8., but leave design status blank. The total costs of the projects listed under Items 9.a. and 9.b. should be identical to the entries under Items 7.e. and 7.f., respectively. If additional space is required to list all projects under Items 9.a. and 9.b., a separate sheet of paper should be utilized.

**Item 10 - Mission or Major Functions:** Enter the principal types of peacetime units and/or functions assigned or scheduled for assignment to the installation that require facilities or substantially contribute to the base population. Also enter the current mission stating precisely what the activity will do and list the major functions performed. All entries should address the time period shown in Items 6.a. and 6.b..

Item 11 - Outstanding Pollution and Safety Deficiencies (\$000): List all projects included in the budget request and planned for the next three years that are programmed for outstanding pollution and safety deficiencies. Use the format in Item 8.

(page 3 of 4)

## Notes:

1. Space requirements for Items 8, 9, 10, and 11 may vary. Therefore, remaining space on the DD Form 1390 may be utilized as necessary for the specific entries and continued on a separate sheet of paper. A solid black line should be used to set Items 8, 9, 10, and 11 apart and individual item titles and subheadings should be added.

2. Projects that were authorized (but not appropriated) in prior years will be listed in the same manner as projects for which new authorization is requested. The fiscal year in which the project was authorized will be shown after the project title in Item 8.

## INSTRUCTIONS FOR PREPARATION OF DD FORM 1390s, "FY\_ GUARD AND RESERVE FORCES MILITARY CONSTRUCTION"

The DD Form 1390 will be used by the Guard and Reserve Forces to supplement the data entered in the DD Form 1391, FY 19. Military Construction Program.

#### Instructions for preparation of DD Form 1390s follow:

Item 1 - Component: Enter the specific Guard or Reserve Forces component of the active services. Recognized abbreviations such as ARNG (Army National Guard); ANG (Air National Guard); etc., are acceptable.

Item 2 - Date: Date prepared or the date the budget estimate submission is due to OSD.

**Item 3 - Installation and Location:** For facilities not located at DoD installations or commercial airfields, enter the name of the city and State in which the projects are located. For other facilities, enter the name of the DoD installation and its geographical location to the extent that it is not included in the installation name.

**Item 4 - Area Construction Cost Index:** Enter the construction cost index used in estimating the cost of the project(s). Consult the latest guidance published by DUSD(IA&I).

**Item 5 - Frequency And Type Of Utilization:** Enter the type of utilization (e.g., weekend drill, weeknight drill, unit training activities, annual active duty for training, etc.) and indicate number of days the installation is used per month/year, as appropriate.

Item 6 - Other Active/Guard/Reserve Installations Within 15 Mile Radius: List the nearest six existing Active and existing or programmed (within the next five years) Reserve component facilities and their distances, within a fifteen mile radius of the proposed construction site. If no facilities exist within the fifteen mile radius, identify the three closest installations. Indicate the year the facilities were constructed and the size of the facility.

Item 7 - Projects Requested In This Program: Installation or activity projects for the budget year shall be listed individually with attendant information provided in the appropriate column. Both major and minor construction projects are to be included.

a. Column 1 - Category Code: Enter the applicable category code consistent with the category code shown in Item 6 of the DD Form 1391.

b. Column 2 - Project Title: Enter the project title consistent with the title shown in Item 4 of the DD Form 1391.

c. Column 3 - Scope: Enter the same quantity shown in Item 9 of the DD Form 1391, Cost Estimates, and include the unit of measure (e.g., SM, SY, LF, PR, EA, CY, etc.). *Immediately following or directly beneath the metric quantity and unit of measure, parenthetically include the English quantity and measurement*. In those instances where a specific quantity cannot be satisfactorily identified, enter LS for lump sum.

d. Column 4 - Cost (\$000): Enter the project cost consistent with the cost shown in Item 8 of the DD Form 1391. If two or more projects are listed, enter the total in this column. In the case of Army National Guard projects where part of the financing is from other than Federal sources, enter only the Federal share.

e. Column 5 - Design Status: Enter the most accurate possible dates for the start and completion of design using numerals (e.g., 6/94, 11/95).

(Page 3 of 4)

Item 8 - State Guard/Reserve Forces Facilities Board Recommendations (Date): Enter the following statement "facilities identified in Item 6 have been examined by the State Reserve Forces Facilities Board for possible joint use/expansion. The Board recommendations are \_\_\_\_\_." (Note: Project folders will contain justification data to support the recommendation.)

**Item 9 - Land Acquisition Required (Number of Acres):** Enter the acreage required for the project and the method of acquisition (e.g., fee, title, donation, lease, etc.). For all projects involving land acquisition, a site survey must be conducted in accordance with DoD Directive 1225.5 and the following statement must be entered, either in Item 9 or Item 10: "Site survey has been completed and site is suitable for constructing the proposed project at the estimated cost indicated."

**Item 10 - Projects Planned In Next Four Years:** Enter the Project Title and Estimated Cost for projects planned at the installation identified in Item 3 for the next four years beyond this program year. A maximum of five projects should be identified. For armory-type projects, list those facilities which are programmed for replacement within the next four years within a fifteen mile radius of the proposed project as well as the year the facilities were constructed. If none are planned, so indicate. Items shall contain columnar data comparable to that provided in Item 7 with the exception of design status which should be left blank.

Item 11 - Personnel Strength As Of \_\_\_\_\_: In the appropriate columns, enter the number of authorized and actual personnel at this facility as of six months prior to project submission.

Item 12 - Reserve Unit Data: List the designated units assigned and/or scheduled to be trained in the requested facilities. Enter the corresponding authorized and actual strengths of each unit, indicating actual strength as of the date listed in Item 11.

Item 13 - Major Equipment and Aircraft: List the vehicular and/or other large equipment and aircraft which are to be accommodated at the installation and which have a bearing on the type and/or scope of the facility requirement. When vehicle maintenance shops are being requested, the Weighted Equipment Density (WED) for the vehicles to be maintained will be included in this item.

## INSTRUCTIONS FOR PREPARATION OF DD FORM 1391/1391C "FY \_\_MILITARY CONSTRUCTION PROJECT DATA"

1. The DD Form 1391 will be used, as applicable, by the Active, Guard, and Reserve Forces to support each project proposed for inclusion in the Military Construction Program. This includes both new authorization projects in the program as well as urgent unforeseen projects using emergency or contingency authorization. This form will also be used to transmit supporting data for the following types of projects:

a. Minor construction projects, 10 U.S.C. 2805.

b. Operation and maintenance type projects required to be submitted to OSD in accordance with the provisions of DoD Directives 4270.36, 1225.7 and 4165.6.

c. Nonappropriated fund construction projects requiring OSD concurrence or approval.

d. Nonappropriated fund construction projects requiring OSD concurrence or approval.

e. Family housing projects.

2. The continuation sheet (DD Form 1391c) will be used as required for explanation of the requirement for the project (item 11.) and other mandatory statements concerning flood plains and wetlands environmental impact, accessibility to the handicapped, fallout shelters, etc. However, when submitting an annual Military Construction Program, these mandatory statements may be included in the front of the program book.

3. Instructions for preparation of DD Form 1391 are outlined below:

a. ITEMS 1 and 2 - COMPONENT AND DATE: Self-evident.

b. ITEM 3 - INSTALLATION AND LOCATION: Enter the official name of the installation. Use code name or designations only when necessary to preclude security classification or when an official name is not available. Enter the name of the State if within the United States or the name of the country or island chain if outside the United States. In the case of Guard and Reserve Forces facilities, enter the city and State if the facility is not to be constructed on a military installation.

c. ITEM 4 - PROJECT TITLE: Enter the title used in item 8, column 2 of the DD Form 1390, assuring that it corresponds to the category code in item 6.

(1) Except for new construction, the type of work, such as "addition," "conversion," "alteration," or "modernization" shall be used in the title.

(2) Where a single structure is to serve more than one purpose, the title should reflect the predominate

(3) The scope of a project or number of buildings involved will not be shown in the title (i.e., and "Enlisted Quarters" project will not be shown as "Two 250 Man Enlisted Quarters.")

(4) Avoid the inclusion of acronyms.

use

(5) If a project requires land acquisition estimated to cost in excess of \$50,000, the project title will be suffixed with "With Land Acquisition". Land to be acquired for the construction of several projects or for other purposes shall be programmed as a separate project and identified on a separate DD Form 1391.

DD1391/1391C (Page 3 of 7)

d. ITEM 5 -PROGRAM ELEMENT: Enter the appropriate number as it relates to the "Future Years Defense Program," except when inclusion of this number would require classification of an otherwise unclassified form.

e. ITEM 6 - CATEGORY CODE: Enter the applicable category code using no less than three nor more than six digits consistent with item 8, column 1 on DD Form 1390.

f. ITEM 7 -PROJECT NUMBER: Enter the number of the project assigned by the Component concerned. If no number has been assigned, indicate N/A (not applicable).

g. ITEM 8 - PROJECT COST: Enter the estimated cost in thousands of dollars (excluding design except for family housing) for which funding is being requested. The amount indicated should be identical to that shown in item 8., column 4, of the DD Form 1390 and should include the costs of the primary facilities, supporting facilities, contingencies, supervision, inspection, and overhead. Figure will be the Total Request entered in item 9. and will not include the figure entered for "Equipment Provided From Other Appropriations."

h. ITEM 9 - COST ESTIMATES: This portion of the DD Form 1391 is comprised of several elements which collectively comprise the Total Request. Each element will be identified, quantified, and costed in a series of five column entries as follows:

(1) <u>Item</u>: Identity of the Primary or Supporting Facility, etc. After each "Item" entry where the metric measurement (square meters) is used in the Unit of Measure column, include in parenthesis the size of the facility in the English measurement (Square Feet).

(2) <u>U/M</u> (unit of Measure): Each entry in the "item" column will be followed in the "U/M" column by the accepted two-character abbreviation for the unit of measure associated with the quantity of the item concerned (e.g., SM, SY, LF, KV, etc.). Where it is not feasible to show a specific unit of measure, use LS (Lump Sum).

(3) <u>Quantity</u>: Enter the required number of units of measure comprising the "item" entry. Where "LS" is the unit of measure, enter a dash (-).

(4) <u>Unit Cost</u>: Enter the appropriate unit cost for each "item" entry where a unit of measure is indicated. Where the unit of measure is "LS" enter a dash in the unit cost column.

(5) <u>COST</u> (\$000):

(a) Enter the cost, in thousands of dollars, represented by the product of the "Quantity" and "Unit Cost" entries.

(b) When a single primary facility is listed enter the cost of the facility without parentheses. If unusual features or functional areas of the primary facility are listed, the cost of each shall be enclosed with parentheses. The sum total cost of these features shall equal the figure entered for the primary facility.

(c) When more than one primary facility is listed, the cost of each facility will be entered in the cost column without parentheses.

(d) The cost entry for the item "Supporting Facilities" shall be entered without parentheses and shall be the total of the various supporting facilities listed. However, each of the individual supporting facility costs shall be enclosed by parentheses.

(e) The cost entered for items such as "Subtotal," "Contingency," "Contract Cost," "SIOH," and "Total Request" shall be entered without parentheses. However, the cost for Equipment Provided From Other Appropriations" shall be entered as a nonadd item.

DD1391/1391C (Page 4 of 7)

(f) Projects in category Code 500 will have separately identified the equipment purchased for the Surgeons General as "Category Equipment" showing the total cost of such equipment added to the "Total Request". Labor cost for installation of "Category E" equipment should be included in the unit cost for the primary facility because it is part of the "Total Contract Cost."

(6) PRIMARY FACILITY: Enter the identity and required columnar data for the primary facility. When the primary facility consists of two or more components the cost of the primary facility will be the sum of the costs of the individual components. In addition, subordinate components will be entered under the primary facility after indenting two spaces.

(a) Normally, the cost of fixed equipment provided as part of the construction contract (e.g., cooling, heating, and electrical systems, etc.) will be included in the cost of the primary facility. However, when the primary facility includes unusual features of significant cost, such as hyperbaric vessels and standby cooling, such features should be identified under the primary facility.

(b) Land acquisition required specifically for the project and estimated to cost \$50,000 or more shall be listed in the same manner as an unusual feature. Conversely, land acquisitions estimated to cost less than \$50,000 are to be accomplished under 10 U.S.C. 2672 and should not be listed.

(c) For family housing new construction, the entry under primary facility will show the total number of units in the project. As subordinate components to the primary facility "Units to 5' line," "GFE," and "Land Acquisition" will be shown in parentheses in the cost column to add up to the cost of the primary facility shown. Item 10 will be used to show the numbers and cost computations for the various types of living units which comprise the primary facility.

(d) "Lump-sum" funding requests are prohibited. The only instance for which separate construction projects can be combined under a single DD 1391 is when each of the projects is in the same general facility category (i.e., supply facilities, maintenance and production facilities, unaccompanied personnel housing, etc.). Programs such as "facility upgrades," "ATB Beddown Facilities," and others combining a number of disparate construction efforts must be justified as separate projects. If it is planned, in execution, to construct several of these projects at a single location under one contract, a statement to that effect should be included in the "Additional" section of Item 10.

(e) Antiterrorism Force Protection/physical security measures: the entry under primary facility will show physical security improvements (e.g. special structural improvements, ballistic glass, etc.). Where land acquisition serves a specific purpose such as stand-off distance for force protection, the acquisition shall be listed as an antiterrorism force protection subordinate component to the primary facility.

(7) SUPPORTING FACILITIES: List those items of construction directly related to and required for the support of the primary facility. Such items should include (a) special construction features (piles, spread footings, seismic, fill, etc.); (b) utilities (gas, oil, steam, electric, and water supply lines as well as sanitary and storm sewers); (c) site preparation; (d) roads, sidewalks, and parking; (e) site improvements (seeding, sodding, landscaping, etc.); (f) antiterrorism force protection/physical security measures such as physical security site improvements (e.g. fencing, perimeter/area lighting, blast mitigation barriers, berms and landscaping, etc.); and (g) demolition. All supporting facility items should be listed in terms of accepted units of measure and quantity whenever practicable. For family housing, design cost will be identified under "Supporting Facilities."

(8) SUBTOTAL: Enter the sum of the costs shown for all primary and supporting facilities.

(9) CONTINGENCY: Enter the appropriate contingency rate, in parentheses, immediately following the item designation in column 1, and enter the cost equivalent in the proper column. The appropriate contingency rate will be addressed in the guidance memorandum for the FY 2002/2003 Defense Budget Review.

DD 1391/1391C (Page 5 of 7)

(10) TOTAL CONTRACT COST: Enter the sum of the "Subtotal" and the "Contingency" costs. In the case of Army National Guard, armory projects which are funded, in part, from other than Federal funds, enter the Federal costs on the first line and the State or other cost on the next line below.

(11) SUPERVISION, INSPECTION, AND OVERHEAD (SIOH): Enter the appropriate SIOH rate in column 1 after the item designation and reflect the cost equivalent in the proper column.

(12) TOTAL REQUEST: Enter the sum of the "Total Contract Cost" and the "SIOH". This figure should be identical to the entry in item 8., "Project Cost (\$1000)". Total request should be rounded-off to provide a more realistic approach to the presentation of MILCON programs. The following guidance is provided for "rounding-off" a projects' total request:

| Project (<br>(\$ | P) Es<br>000) | timate | Rounding Guidar<br>(\$00 |       |
|------------------|---------------|--------|--------------------------|-------|
|                  | <             | 1,000  | Nearest \$               | 10K   |
| 1,000            | to            | 5,000  | Nearest \$               | 50K   |
| 5,000            | to            | 10,000 | Nearest \$               | 100K  |
| 10,000           | to            | 15,000 | Nearest \$ 2             | 200K  |
| 15,000           | to            | 20,000 | Nearest \$               | 500K  |
| ·                | >             | 20,000 | Nearest \$ 1,            | ,000K |

(13) EQUIPMENT PROVIDED FROM OTHER APPROPRIATIONS: Enter the total cost of equipment which is procured with other than MILCON funds and which is essential to the mission of the facility. DD Form 1391 should reflect only the cost of equipment identified in the Associated Equipment Report. If no such major equipment is associated with the project, enter a "zero" in the appropriate space. Note that this figure is not included in the "Total Request" above. This excludes minor items procured with O&M funds, and in the case of Army National Guard, excludes equipment provided from other then Federal appropriations.

i. ITEM 10 - DESCRIPTION OF PROPOSED CONSTRUCTION:

(1) In a clear and concise manner, provide a complete outline of all principal features of the work and its correlation with the various data entered in item 9.

(2) List specific antiterrorism force protection measures and antiterrorism force protection considerations that this project provides.

(3) Begin with an accurate description of the primary facility. For buildings, indicate the materials planned to be used for the frame, walls, roof, and foundations, and identify the major functions for which space is being provided. For structures other than buildings, describe each major element required to produce a complete and usable facility. Avoid the use of generalities such as "most economical means" or "modern methods and materials."

(4) Provide only such additional descriptive details as are necessary for clarity.

(5) Identify and list the buildings or structures to be demolished in connection with the proposed construction, if applicable.

(6) For single person quarters projects, indicate the grade mix of personnel, officer or enlisted, who will occupy the facilities.

(7) For projects involving additions, alterations, or conversions, describe the changes to be made.

(8) At the last entry in item 10., indicate the amount of air conditioning required (e.g., air conditioning -

15 tons).

DD 1391/1391C (Page 6 of 7)

j. ITEM 11 - REQUIREMENT: This portion of the DD Form 1391 is comprised of seven elements which are to be set forth in the following format:

(1) Immediately after the item title "Requirement" indicate, in appropriate units of measure, the total facility requirement (e.g., 5,500 SM), followed by two additional entries giving the status of the existing facility (e.g., adequate: 66,134 SF; substandard: -0-).

(2) PROJECT: Provide a one-sentence statement indicating what this project provides.

(3) REQUIREMENT: Provide detailed, informative statements as to precisely why the project is ... needed. Use positive statements to support the requirement and avoid the use of such words as "inadequate," "uneconomical," and "necessary" unless they are fully explained. Similarly, when identifying contributing factors, assure that the presentation leaves no pertinent questions unanswered (e.g., vulnerability to terrorist threats (reference threat/vulnerability assessment); excessive maintenance (show cost comparison); self-liquidation (show amortization); or advanced deterioration (describe effects)). The requirements must establish maximum utilization of existing facilities and identify alternatives considered, along with reasons for their rejection.

(4) CURRENT SITUATION. Describe how and under what conditions the requirement is presently being met. Comments should support the stated requirement and include the identity and description of current assets as well as the reason they are considered unsuitable for continued use. For Guard and Reserve Forces projects which are to replace existing facilities, identify and describe the disposition to be made of them. Similarly, for Guard and Reserve Forces facilities to be constructed and/or utilized jointly with other Guard/Reserve components, include pertinent information and status of coordination or negotiations.

(5) IMPACT IF NOT PROVIDED. Describe the manner and extent to which mission accomplishment would be affected if the project were not approved.

(6) ADDITIONAL. If the project is justified on an economic basis (primary economic analysis), so state and indicate the projected payback period. As a minimum, all renovation, upgrade, and replacement projects must be supported by an economic analysis. For all other projects, state precisely why a primary economic analysis cannot be applied to the project. When providing supporting documentation for the OSD budget submission, enter appropriate statements on commercial/industrial operations in accordance with the OMB Circular A-76 and as required by applicable DoD Instruction. Entry of this information on the DD 1391 or on a separate DD 1391c is optional. For all overseas projects, state whether or not the project is eligible for NATO Infrastructure or other host nation funding.

(7) JOINT USE CERTIFICATION. Include the following certification: "The (enter the title of the certifying official) certifies that this project has been considered for joint use potential. Joint use construction is recommended." Or "The (enter the title of the certifying official) certifies that this project has been considered for joint use potential. Unilateral construction is recommended. The reasons for this recommendation are..."

NOTE: Space requirements for items 10. and 11. will vary. Therefore, remaining space on the DD Form 1391 may be used as necessary for the specific entries and continued on a DD Form 1391c as appropriate. A solid, black line should be used to set items 10. and 11. apart, and individual item titles and subheadings should be added.

Instructions:

programmed funding (do not include projects for which funding is not programmed except as noted in instruction number 11 below) in MilCon (Major Construction & 1. This exhibit will be executed at the project level for each of the program years included in the Future Years Defense Program (FYDP) for which the Component has Supporting Activities and Family Housing Construction accounts) No project level detail is required for Minor Construction, Planning and Design, Family Housing Improvement or BRAC. List the totals for these as line items.

2. Data should be submitted in hard copy and on a disk in a Microsoft Access format or in Microsoft Excel format.

3. Text data should be in title case.

4. Component should be the specific Service Active, Guard or Reserve Force component or Defense Agency. Recognized abbreviations such as ARNG (Army National Guard), etc. are acceptable.

5. Fiscal year should be a four-digit number.

6. Appropriation should be a four digit number (treasury code).

7. Location is the two digit state or country code.

8. Facility category should be the three-digit code from the list in DoDI 4165.3.

9. Program element should be the appropriate number as it relates to the FYDP except when inclusion of this number would require classification of an otherwise unclassified form.

10. Budgeted amount is in thousands.

11. The change from previous submission column should show any changes from the budgeted amount in the previous *President's* budget submission. If a project from the previous submission is deleted, list the project and show zero in the budgeted amount column and the amount previously programmed in the change column.

12. Brief explanation of the reason for the change from previous budget submission.

13. For the hard copy, the data should be sorted by location and then by installation. The hard copy should also include a total for each fiscal year.

## INSTRUCTIONS FOR PREPARATION OF FAMILY HOUSING FURNISHINGS SUMMARY EXHIBIT FH-3

<u>General.</u> Furnishings to be included in Exhibit FH-3 are defined in Enclosure 6 to DoD Instruction 4165.43. For Unaccompanied Personnel Housing furnishings, see Exhibit OP-21, Chapter 232, this Manual.

Prior Year Data. For the prior year, enter estimated end year obligations.

<u>Current, and Budget Year Data.</u> Estimates should be based on requirements determined to be in accordance with Section XI of DoD Instruction 4165.43 and applicable experience data. Provide an explanation for differences of more than \$1 million or 10%, whichever is less, between the total amount shown for furnishings in the current year and the budget year.

Moving and Handling. All identifiable transportation, handling and storage costs should be included here.

<u>Initial Issue.</u> Certain initial issue movable equipment, such as stoves and refrigerators, is usually procured as part of a construction project with construction funds, instead of operation funds. Likewise, in some circumstances leasing funds are utilized for furnishings in leased quarters. The FH-3 should reflect all family housing resources applied to furnishings, with memo entries to indicate the amounts funded from accounts other than the Furnishings portion of Operations and Maintenance.

Instructions:

1. This exhibit will identify the NSIP requirements, both military construction and procurement, at the project level detail. The exhibit should be completed for both the normal NSIP requirements and NATO Expansion requirements. The listing should be sufficiently detailed to identify discrete projects and initiative; aggregation at the capability package level i.e., Defense of the Mediterranean, is NOT sufficiently detailed.

2. Data should be submitted in hard copy and on a disk in a Microsoft Access format or in Microsoft Excel format.

3. Location: State or country where the project will be executed, i.e. Alaska, Turkey, or Italy.

4. Installation: Base where the project will be executed, i.e. Aviano AB.

5. Project Title.

6. Project Description: Explanation and description of each project.

7. Budgeted Scheme: Identify the number of NATO nations sharing in the cost of the project.

8. Project Cost: The total cost for the NSIP project. The projects cost should be displayed in thousands.

9. U.S. Cost Share: Identify the estimated U.S. share of the project cost. The U.S. share should be displayed in thousands.

10. Other NATO Cost Share: Identify the estimated share of the other NATO nations. The cost should be displayed in thousands.

11. This exhibit should be completed for the current year and budget year, i.e., current year FY 2001; budget Year FY 2002.

12. The hard copy and electronic submission should include a total that reflects the cost of normal NSIP requirements and NSIP Expansion requirements by fiscal year. Exhibit NSIP -1 NSIP Project Data

#### BASE REALIGNMENT AND CLOSURE APPROPRIATIONS

#### 0701 GENERAL

#### 070101 Purpose

A. This chapter provides instructions applicable to budget formulation and congressional justification for Base Realignment and Closure (BRAC) appropriations.

B. The following appropriations and accounts are covered:

#### Section

# 070201

- DoD Base Closure Account (1988 Commission)

 DoD Base Closure Account 1990 (1991, 1993 & 1995 Commissions)

#### 070102 Submission Requirements

General guidance with regard to submission requirements is presented in Chapter 1. Chapter 7 covers specific back-up material requirements for the above accounts. The above appropriations/accounts should also submit any applicable exhibits required in Chapter 19 - Special Analyses.

#### 070103 Preparation of Material

General guidance with regard to format and preparation of material is presented in Chapter 1. Chapters 7 provides additional specific guidance with regard to the back-up material required for Base Realignment and Closure appropriations.

#### 070104 References

Chapter 3 provides guidance related to costs and Chapter 6 provides guidance and formats related to Military Construction and Family Housing costs.

#### 0702 UNIFORM BUDGET AND FISCAL ACCOUNTING CLASSIFICATION

#### 070201 Base Closure Account, Defense Appropriations

The budget account classification structure for the Base Closure Account, Defense is prescribed in Comptroller of the Department Of Defense Memorandum, dated December 21, 1993 and outlined below.

#### A. Overview

The Director for Budget and Finance, Washington Headquarters Services (WHS), is responsible for departmental-level accounting and reporting for the DoD Base Closure Account. The Military Departments are responsible for implementing all base closure and realignment actions, and administering their allocations of base closure funds.

#### B. Guidance

1. WHS shall be responsible for obtaining and recording the appropriation warrant (TFS Form 6200) for the DoD Base Closure Accounts. The Directorate for Military Construction, ODC(P/B), is responsible for initiating the Apportionment and Reapportionment Schedule (DD Form 1105) for the DoD Base Closure Accounts and providing it to WHS for recording in the departmental-level accounting records.

2. The Comptroller of the Department of Defense shall make funds available to the Military Departments based on their official financial plans. Financial plans shall be prepared by the Military Departments in cooperation with and at the direction of the Deputy Under Secretary of Defense (Installations). Military Department financial plans and the subsequent allocation of funds shall be supported by the Format 460-BC, "DoD Base Closure Account Financial Plan". For planned military construction and family housing construction requirements, each project to be executed with the funds requested will be individually listed on the plan. A separate narrative explanation for other planned expenditures shall also be submitted to the Directorate for Military Construction, ODC(P/B), in sufficient detail on the Format 460-BC to support the Military Department financial plan.

In response to a request from the DoD Comptroller, WHS shall allocate DoD Base Closure 3. Account funds to the Military Departments on SD Form 477, "Fund Authorization," with a Format 460-BC and supporting documentation attached. The Military Departments may re-phase planned execution as the situation dictates but shall notify DUSD(Installations) and Directorate for Military Construction, ODC(P/B) of all changes. Where a military construction or family housing project is to be executed, but does not appear on the current approved financial plan, the prior approval of the Directorate for Military Construction is required. This will ensure that the Department has complied with the notification requirements of House of Representatives Report 101-176, Military Construction Bill, July 26, 1989, prior to the expenditure of DoD base Closure Account funds. To keep the Comptroller and DUSD(Installations) apprised of these changes, the Military Departments shall submit a revised Format 460-BC and supporting documentation as required to reflect the status of the current plan being executed. The Military Departments and Defense Agencies will be allocated BRAC funds by subaccounts. The amounts allocated represent limitations subject to the provisions of section 1517 of 31 U.S.C., the Anti-Deficiency Act. Obligations are not to be incurred beyond the approved allocation amounts. However, Components may adjust amounts between BRAC subaccounts by up to 5 percent per quarter without prior Comptroller approval with the exception of the amounts provided for environmental efforts which may not be decreased or increased without OUSD(C) prior approval.

4. The Military Departments and Defense Agencies shall receive and record the suballocations of base closure funds received from the WHS and allot that suballocation to respective installations. The Military Departments and Defense Agencies shall subdivide their allocations of the base closure accounts by subaccount, and distribute the base closure funds to the installations responsible for base closure actions. Each Military Department and Defense Agency shall distribute the base closure funds to its installations in accordance with its normal fund

#### **DoD Financial Management Regulation**

distribution procedures. This distribution process shall include allotment, or suballotment, as appropriate, of the suballocation for the WHS. The applicable subaccounts are as follows:

- Military Construction:
  - a. Construction
    - (1) (Project)
    - (2) (Project)
  - b. Planning and Design

NOTE: The military construction subaccount should be reserved for projects listed individually on the Format 460 accompanying the fund allocation document.

- Family Housing:
  - a. Construction
    - (1) (Project)
    - (2) (Project)
  - b. Planning and Design
  - c. Operations
- Operation and Maintenance (O&M):
  - a. Civilian Severance Pay
  - b. Civilian Permanent Change of Station (PCS)
  - c. Transportation of Things
  - d. Real Property Maintenance
  - e. Program Management (civilian workyears, travel, and related support dedicated to implementation efforts)
- Environmental: Includes environmental restoration, including reducing, removing, and recycling hazardous
  wastes, and removing unsafe buildings and debris; Memoranda of Agreements between Defense and States
  (DSMOA), and reimbursements to the Agency for Toxic Substance and Disease Registry (ATSDR); and
  mitigation efforts associated with a military installation closure or realignment. Mitigation efforts do not apply
  to the DoD Base Closure Account.
- Community Programs:
  - a. Community Planning Assistance: For communities located near a military installation to which functions will be transferred as a result of a closure or realignment of a military installation.
  - b. Economic Adjustment Assistance: For communities located near a military installation being closed or realigned.
- Federal Agencies Reimbursement: Includes reimbursements to other Federal agencies for actions, other than for environmental activity discussed above, performed with respect to any closure or realignment.
- Military Personnel: Limited to PCS and TDY expenses dedicated to implementation efforts.
- Procurement-type Items: The procurement account should be limited to those items costing more than \$5,000 each and normally capitalized on installation-level accounting.
- Other Costs: Expenses, other than those above, associated with base closure and realignment efforts.

5. The general criterion to apply when deciding whether to charge specific costs to the DoD Base Closure Account is that the cost in question is a one-time implementation cost associated with the overall base closure effort. If the increased cost is a recurring one driven by the transfer of workload from one location to another, it should be documented to the extent practicable, but budgeted for and charged to the applicable Military Department appropriation. A legitimate one-time cost of base closure implementation should be charged to the subaccount of the DoD Base Closure Account consistent with the cost category under which the item has been justified in the President's Budget. For example, the one-time operations and maintenance-type costs at R&D funded installations should be allocated to the appropriate subaccount of "Operations and Maintenance." Low dollar value construction projects budgeted as a lump sum under the real property maintenance category should be charged to that subaccount and not the construction subaccount of military construction, which should be reserved for projects listed individually on the Format 460-BC accompanying the fund allocation document. Charges to the procurement account should include items normally charged to procurement accounts.

6. Proceeds resulting from transfer or disposal of property or facilities (including buildings and structures) due to the base closure process shall be deposited as reimbursements into the DoD Base Closure Account. These reimbursements shall be reprogrammed from reimbursable to direct before distribution to the Military Departments. The detailed accounting and financial management procedures relating to the revenues from asset sales are prescribed in Comptroller of the Department of Defense memorandum, dated December 21, 1993.

C. <u>Accounting Entries</u> (see end of this section).

D. <u>Reporting Requirements</u> WHS is responsible for preparation of the departmental-level appropriation and fund status reports for the DoD Base Closure Account that are required by Volume 6 and Volume 12 of this Regulation. The specifications for any additional reports required by the Base Closure and Realignment Act are to be issued by the DUSD(Installations).

1. The budget execution reports required for the DoD Base Closure Account are as follows: a) Year-end Closing Statement, FMS Form 2108; b) Report on Budget Execution, Acct Rpt(M)1176; c) Flash Report on Obligation Status, Acct Rpt(M)1445; d) Report on Obligations, SF-225, IRCN 1183-TD-QU; e) Report on Appropriation Status by Fiscal Year Program and Subaccounts, Acct Rpt (M)1002; and, f) Report on Reimbursements, Acct Rpt(M)725.

2. WHS shall prepare the required reports based on accounting information held at the departmental level and feeder reports from the Military Departments and Defense Agencies. Each Military Department/Defense Agency shall provide feeder reports to WHS on the status of its allocation. These reports shall be submitted in accordance with a schedule of due dates to be published by WHS.

3. Special Instructions for Reports on Appropriation Status by Fiscal Year Program and Subaccounts, Acct Rpt(M)1002. Each Military Department will receive an allocation from OSD/WHS at the subaccount level. The Military Departments are required to distribute their allocations by the subaccounts shown below, and prepare the feeder Acct Rpt (M)1002's by those subaccounts within each fiscal year program specified in Section 070201 B.4.

4. Line Entries for the 1002 are as follows:

a. Column (a). The DoD Base Closure Account must be subclassified to show, where applicable, the following: Fiscal Year Program, Direct Program and Subaccounts (as specified above).

b. Columns (b) through (j). follow the instructions contained in Volume 6 of this

Regulation.

#### ACCOUNTING ENTRIES

- 1. Departmental Level (WHS)
  - a. Dr 4119 Other Appropriations Realized Cr 4450 Authority Available for Apportionment and
    - Dr 1013 Funds with Treasury Cr 3100 Appropriated Capital

To record an appropriation realized.

 b. Dr 4450 Authority Available for Apportionment Cr 4511 Unallocated Apportionment – Direct Program - Current Period

To record the Apportionment and Reapportionment Schedule (DD Form 1105).

c Dr 4511 Unallocated Apportionment - Direct Program - Current Period Cr 4541 Allocations Issued - Direct Program - Current Period

To record the allocation of obligational authority to an intermediate command.

- 2. Intermediate Level (Military Departments)
  - a. Dr 4550 Internal Fund Distributions Received Cr Unallotted Allocations - Direct Program - Current Period

To record receipt of an allocation of direct program obligational authority.

- b. Dr 4561 Unallotted Allocations Direct Program Current Period
  - Cr 4571 Allotments Issued Direct Program Current Period

To record the allotment of direct program obligational authority to a subordinate activity.

- 3. Installation Level (Military Departments)
  - a. Dr 4580 Allotments Received
    - Cr 4610 series Allotments Available for Commitment/Obligation

To record receipt of an allotment.

#### **DoD Financial Management Regulation**

#### 0703 BUDGET ESTIMATES SUBMISSION

#### 070301 Purpose

A. This Section prescribes instructions for the preparation and submission of budget estimates for the Base Realignment and Closure appropriations.

B. Unless otherwise specified, these instructions apply to all Base Realignment and Closure appropriations and to all budget estimates. Data submitted must be consistent with the budget estimate being supported.

C. Examples of budget exhibits can be found in Section 0705.

#### 070302 Submission Requirements

A. <u>General Guidance</u>. Each Service will prepare separate justification books for each Base Closure Account. For Base Closure Account-Part I, information is required for FY 1990 through FY 1995. For Base Closure Account-Part II, information is required for FY 1992 through FY 1997. For Base Closure Account-Part III, information is required for FY 1994 through FY 1999. For Base Closure-Part IV, information is required for FY 1996 through FY 2001. The justification books will be organized by closure package with narrative and financial summary exhibits. Section 070502 contains sample exhibits BC 01 through BC 03 for use in preparation of justification books. Included in the sample exhibits are instructions pertaining to the substance and format of the information to be displayed.

B. <u>Base Realignment and Closure Service Overview Exhibit (BC-01)</u>. Each Service will prepare an overview exhibit (BC-01) for each Base Closure round summarizing by fiscal year, the names and locations of the affected bases, and how much of the DoD Base Closure Account will be expended in the fiscal year. The overview will also address mission impact and environmental considerations affecting closures and realignments for that round. Each Service will prepare a separate BC-01 exhibit for each Base Closure round for which funds are requested beyond FY 2001.

C. <u>Base Realignment and Closure Cost and Saving Exhibit (BC-02)</u>. Each Service will prepare a cost and saving exhibit (BC-02) for each base closure package included in a Base Closure round and a BC-02 exhibit summarizing the packages contained in that round of closures. BRAC saving estimates reported in Exhibit BC-02 must be based on the best projection of what savings will actually accrue from approved realignments and closures. Prior year estimated savings must be updated to reflect actual savings when available. *Each Service will prepare a separate BC-02 exhibit for each base for which funds are requested beyond FY 2001*.

D. <u>Base Realignment and Closure Package Description Exhibit (BC-03)</u> Each Service will prepare a short narrative for each package describing the actions necessary to complete the realignment or closure at that location. The narrative will also address one-time implementation costs and anticipated savings that will accrue from the partial or complete closure of the base.

E. <u>Base Realignment and Closure Environmental Exhibits</u>. Each service will prepare environmental progress and funding by priority exhibits BRAC Env-1A and 1B as provided in section 070502. These BRAC environmental exhibits include requirements by relative risk category and each phase of environmental restoration, as well as requirements for environmental compliance and planning. *These exhibits will be prepared for the President's Budget even though they are not forwarded to the Congress*. A diskette with installation level detail for environmental restoration activities at BRAC installations, similar to that identified for submission in Chapter 13 of the DoD FMR for environmental restoration activities at active installations, should be forwarded together with hard copy versions to ODC(P/B), Military Construction Directorate (Room 3D840). Questions concerning the data file structure should be addressed to OUSD(AT&L), Deputy Under Secretary of Defense (Environmental Security), Director for Program Integration ((703)695-2195.)

#### **DoD Financial Management Regulation**

F. <u>Budget Submission</u>. Coincident with the hard copy submission of the Base Closure budget estimates, Military Departments and Defense Agencies, as applicable, will submit machine-readable data entries for all applicable budget accounts for budget years only. Detailed data entries only will be submitted since subtotals and summary totals are computer generated. Input data will be formatted in accordance with DD Form 2232 on a media type specified in Section 010506, Name Edit System (NES) structure and description, of this manual. An example of the Name Code File Listing for Base Realignment and Closure Accounts can be found in Section 010506. A full listing will be made available periodically from the DoD Comptroller, Directorate for Program and Financial Control (rm 3B872, com:(703)697-7564, DSN:227-7564). All TOA values for BY1 and BY2 will be submitted on DD Form 2232 in accordance with the detail prescribed by the Name Edit System (Structure documented in the "Budget Accounts Title File Listing"). Amounts will be in agreement with the PB-2 and PB-2A exhibits.

1. <u>Submission of Outyear Estimates</u>. The submission for BY+1 through BY+4 TOA will be made coincident with the budget submission. Input to the data base will be formatted in accordance with DD Form 2234 using the Name Edit System structure and description by base closure round, base closure account and subactivity.

2. <u>Decision Rounding</u>. DD Form 2233 and DD Form 2236 will not be used for budget estimates submissions. These forms are used to record decisions documented by Program Budget Decisions (PBDs).

#### 0704 CONGRESSIONAL JUSTIFICATION/PRESENTATION

#### 070401 Purpose

This Section presents the justification book organization and the exhibit requirement for submission to Congress. Examples of budget exhibits can be found in Section 0705 and reflect those addressed in Section 0703.

# 070402 Organization of Justification Books

- A. Justification material will be organized into four volumes entitled:
  - 1. DoD Base Realignment and Closure (1988 Commission)
  - 2. DoD Base Realignment and Closure (1991 Commission)
  - 3. DoD Base Realignment and Closure (1993 Commission)
  - 4. DoD Base Realignment and Closure (1995 Commission)

B. Each justification book will be organized as shown on the following page for each base realignment and closure round contained in the book

# ORGANIZATION/EXHIBIT REQUIREMENTS

A. Organization

- Table of Contents
- Base Realignment and Closure Overview
- Financial Summary
- Base Realignment and Closure Detail:

By Package (Each package will include appropriate 1391/1391C Military/Family Housing Construction Exhibits).

- Base Realignment and Closure Construction Projects

By Component, State, Project Description, Project Number, BRAC Round and Dollar Amount.

# 0705 BASE REALIGNMENT AND CLOSURE APPROPRIATION SUBMISSION FORMATS

# 070501 Purpose

The formats provided on the following page reflect guidance presented in previous sections of this chapter. Unless modified in a submission budget call, these formats should be adhered to.

,

.

# 070502 Exhibits in Support of Section 0703 - Budget Estimates Submission

| BC-01 BRAC Service Overview     | 12 |
|---------------------------------|----|
| BC-02 BRAC Implementation Costs | 13 |
| BC-03 BRAC Package Description  |    |
| BRAC ENV-1A                     |    |
| BRAC ENV-1B                     |    |
|                                 |    |

#### INSTRUCTIONS FOR PREPARATION OF EXHIBIT BC-01 "FY \_\_\_\_ BASE REALIGNMENT AND CLOSURE DATA" 19\_\_ COMMISSION

#### Service Overview

<u>Schedule:</u> Summarize by fiscal year, the names and locations of the affected bases, and how much of the DoD Base Closure Account will be expended in the fiscal year. Discuss possible problems in meeting the schedule. Highlight realignment/closure actions where the estimated implementation costs and impacts significantly differ from those determined by the Commission.

Mission Impact: Describe possible mission impact in completing the realignment/closure.

<u>Environmental Considerations</u>: Describe potential problems in closing an installation due to the complexity in cleaning up environmental wastes and hazards.

Address any other items/issues appropriate for the overview section.

Exhibit BC-01 BRAC Service Overview

SAVINGS: Military Construction Family Housing - Construction Operations Operation and Maintenance Military Personnel Other Civilian End Strength Military End Strength

#### TOTAL SAVINGS

NET IMPLEMENTATION COSTS: Military Construction Family Housing - Construction Operations Environmental Operation and Maintenance Military Personnel Other Homeowners Assistance Program **Revenues From Land Sales** 

NET IMPLEMENTATION COSTS Less Estimated Land Revenues: 1/ 1988 Commission, 1991 Commission, 1993 Commission, etc. 2/ Identification, e.g., DoD Financial Summary, Army Summary or Pease AFB Package, etc. 3/ Dollars in thousands.

EXHIBIT BC-02 (page 2 of 2)

#### BASE REALIGNMENT AND CLOSURE 19\_\_ COMMISSION PACKAGE DESCRIPTION

Service/Location/Package: Cross-reference to standard terminology employed in the Commission's report.

<u>Closure/Realignment Package</u>: Brief description of the actions necessary to complete the realignment or closure at this location. A package is defined as all actions, costs and savings associated with the closing or realignment of a base or installation as recommended by the Commissions. Include how the physical plant will be affected and the missions that must be terminated or transferred to other locations. Reflect planning and design and management overhead costs in a <u>separate</u> package covering, overall one-time implementation cost. All military construction savings should also be addressed in this same package.

#### **One-time Implementation Costs:**

<u>Military Construction</u>: New facilities that must be constructed to accommodate a realignment or closure action. List the construction projects associated with the package as follows:

|                        | Fiscal Year Amount   |
|------------------------|----------------------|
| Location/Project Title | of Award (\$ in 000) |

Subtotal for Each Fiscal Year

<u>Conjunctively-Funded Construction</u>: Identify each project that is funded conjunctively, the total cost of each project and the amounts funded by non-Base Closure Account sources. These projects will also appear on the above list, which will reflect only that portion of the project to be funded by the Base Closure Account.

<u>Family Housing Construction</u>: Specify the number of units and location. As with military construction, list each family housing construction project.

<u>Family Housing Operations</u>: The one-time family housing operations costs associated with package implementation.

<u>Operation and Maintenance</u>: Includes PCS of civilian personnel, civilian severance costs, transportation of things, RPM and other one-time implementation costs as a result of closure or realignment. Program management costs should also be addressed, but only in the separate package covering overall one-time implementation costs.

Procurement Items: Items normally funded from procurement appropriations.

<u>Revenues From Land Sales</u>: Provide statistics and narrative to adequately describe the land being proposed for sale. Describe the method and date of appraisal.

Exhibit BC-03 BRAC Package Description (page 1 of 2) <u>Environmental</u>: Indicate the environmental restoration actions that will occur at both the losing and gaining locations, the funding requirements and status of all such restoration actions.

Savings: Demonstrated savings that will accrue from the partial or complete closure of the base.

Military Construction: To be addressed in the single package addressing overall/program management costs.

Family Housing Construction: Self-explanatory.

Family Housing Operations: Savings (offset by increased recurring costs).

<u>Operation and Maintenance</u>: One-time and recurring savings (offset by increased recurring costs) in civilian personnel, base operations, RPMA and other costs as a result of closure or realignment. Be specific as to the category,

<u>Military Personnel</u>: One-time and recurring savings (offset by increased recurring costs) in military personnel as a result of closure or realignment. Be specific as to the category.

Other: Self-explanatory.

#### CHAPTER 8

#### **★**June 2000

# **REAL PROPERTY MAINTENANCE/MINOR CONSTRUCTION**

#### 0801 GENERAL

#### 080101 Purpose

A. This chapter provides instructions applicable to budget formulation and congressional justification for Real Property Maintenance and Minor Construction.

B. The following appropriations and accounts are covered:

#### Section

#### 0802

- Operation and Maintenance Appropriations
- Research, Development, Test, and Evaluation Appropriations

#### 080102 Submission Requirements

General guidance with regard to submission requirements is presented in Chapter 1. Chapter 8 covers specific additional back-up material requirements for the above Real Property Maintenance and Minor Construction accounts.

#### **080103** Preparation of Material

General guidance with regard to format and preparation of material is presented in Chapter 1. Chapter 8 provides additional specific guidance with regard to the back-up material required for Real Property Maintenance and Minor Construction.

#### **080104** References

Chapter 3 provides guidance related to Operation and Maintenance costs and submission organization and Chapter 5 provides guidance, submission organization and formats related to Research, Development, Test, and Evaluation appropriations.

#### 080105 Definition of Repair and Maintenance

A. Repair means "to restore a real property facility, system or component to such a condition that it may effectively be used for its designated functional purpose".

B. When repairing a facility, the components of the facility may be repaired by replacement, and the replacement can be up to current standards or codes. For example, Heating, Ventilation, and Air Conditioning (HVAC) equipment can be repaired by replacement, can be state-of-the-art, and provide for more capacity than the original unit due to increased demand/standards. Interior rearrangements (except for load-bearing walls) and restoration of an existing facility to allow for effective use of existing space or to meet current building code requirements (for example, accessibility, health, safety, or environmental) may be included as repair.

C. Additions, new facilities and functional conversions must be done as construction. Construction projects may be done concurrent with repair projects as long as the projects are complete and useable.

#### 0802 BUDGET ESTIMATES SUBMISSION

#### 080201 Purpose

A. This Section prescribes instructions for the preparation and submission of budget estimates for Real Property Maintenance and Minor Construction requirements.

B. Guidance covers all Operation and Maintenance, RDT&E, Real Property Maintenance (RPM) and minor construction costs. Real Property Maintenance and minor construction includes: all recurring maintenance costs and repair projects (MRP), minor construction (MC) costs, real property renovation project costs (that combine minor construction and repair costs), and planning and design costs associated with projects; providing funding support to maintain and repair buildings, structures, warehouses, roadways, aprons, railway trackage, utility plants, distribution systems, and other real property. O&M funded minor construction for all components includes funding for the erection, installation, or assembly of new facilities, and for the alteration, or conversion of existing facilities and can cost up to a maximum of \$500,000 per project, or up to \$1,000,000 if the project is intended solely to correct a deficiency that is life-threatening, health-threatening, or safety-threatening. These categories do not include RPM funds included in Defense Working Capital Funded activities. These accounts also do not include operation of utilities, utility charges, annual lease payments, or other support services (such as custodial contracts, snow removal, etc.) included in Base Operations Support. For analysis purposes, RPM expenditures fall into two general categories: (1) annual operational expenses which include all recurring maintenance costs and contracts, and minor repair or minor construction projects costing up to \$15,000 per project, and (2) RPM facility investments which include major repair projects (costing more than \$15,000 per project) and minor construction projects costing up to \$500,000 per project.

C. Program funding submitted in Component justification materials must reflect the approved funding levels identified in the RPM Program Elements in the current FYDP.

D. Examples of special budget exhibits can be found in Section 0806.

#### **080202** Submission Requirements

A. <u>General Guidance</u>. All Components (i.e., active forces, defense agencies, national guard and reserve forces) shall submit justification data and exhibits to support budget estimates for Real Property Maintenance and Minor Construction, in a separate bound attachment (reference Chapter 3, Section 030201). Two copies of this attachment will be delivered to: Directorate for Construction, Program/Budget, OUSD(C) Room 3D840, Pentagon, on the same date as all other submissions required for O&M Appropriations. Exhibits required include:

- OP-27 Real Property Maintenance Activities
- OP-27P Real Property Maintenance and Minor Construction Projects (All Appropriations Projects Costing More than \$ 500,000)
- OP-28 Summary of RPM and PRV (All Appropriations)
- OP-5 Part 2 Attachment 5: Real Property Maintenance and Minor Construction

B. Military and civilian personnel costs reflected on Exhibit OP-28, will include only those personnel assigned in support of RPM and minor construction accounts. It will include those personnel performing planning and design functions for both projects and installation RPM surveys and RPM master planning, but will exclude those involved in other base operating services or support services.

C. For the biennial budget, separate sections or volumes will be provided for Biennial Year 1 (BY1) and Biennial Year 2 (BY2). For the Biennial Year 2 (BY2) section, BY1 will be considered as the prior year and BY2 as the budget year.

# **080203** Preparation of Material

All material will be provided on 8-1/2 inch by 11 inch size paper, and bound on the long side. All narrative data will be typed across the short dimension of the paper, while exhibits will be typed across the long dimension.

,

# 0803 CONGRESSIONAL JUSTIFICATION/PRESENTATION

#### 080301 General

Components are required to conform to the PBD approved funding levels when submitting final budget exhibits to Congress.

# 080302 Organization of Justification Books

See chapters covering specific appropriation (Operation and Maintenance - Chapter 3, RDT&E Chapter 5). In addition to exhibits cited in section 0802, a PBA-7, Real Property Maintenance *exhibit is also required as specified in Chapter 3, section 030403.* 

#### 0804 REVENUE FORM TRANSFER OR DISPOSAL OF DOD REAL PROPERTY AND REVENUE FROM LEASING OUT OF DOD ASSETS

#### 080401 General

Sections 2805 and 2806 of the FY 1991 National Defense Authorizations Act, P.L. 101-510, require detailed information on revenues, transfers, and the use of proceeds derived from these authorities as follows:

#### 080402 Revenue From Transfer or Disposal of DoD Real Property (Section 2805)

When revenue from the transfer or disposal of DoD Real property is received, there is a requirement to identify each transfer and disposal made during the fiscal year, including a detailed explanation of each such transfer and disposal and of the use of the proceeds received. An estimate for the current and budget year transfers or disposals should also be included.

#### 080403 Revenue From Leasing Out of DoD Assets (Section 2806)

When revenue from leasing out of DoD assets is received, there is a requirement to identify each lease entered into during the fiscal year, including a detailed explanation of each lease and amendments, and of the use of the lease proceeds that were expended. An estimate for the current and budget year leases and revenues should also be included.

#### **080404 Deposit and Accounting Procedures**

Cash receipts obtained from the transfer or disposal of real property will be deposited into the Disposal of DoD Real Property Account, 97X5188. Cash receipts obtained from leasing out of DoD assets will be deposited into the Lease of DoD Real Property, 97X5189. Accounting instructions are included in Volume 12, Chapter 14, of the DoD Financial Management Regulation.

#### **080405 Funds Release Procedures**

Funds deposited into these accounts are available only for purposes of maintenance and repair and environmental restoration at U.S. facilities as specified in the Act. The Components may request release of funding, based on verifiable deposits, by memorandum to the USD Comptroller, Director for Construction.

#### 080406 Budget Exhibits for Congressional Submission

To comply with this requirement, a PB-34 exhibit must be completed by each component and included in the O&M RPM Justification Book (Volume II) for both the revenue from the transfer or disposal of DoD real property (Section 2805) and for the revenue from leasing out of DoD assets (Section 2806).

# 0805 DOD OVERSEAS MILITARY FACILITY INVESTMENT RECOVERY ACCOUNT

#### 080501 General

Section 2921 of the FY 1991 National Defense Authorizations Act, P.L. 101-510, established the Department of Defense Overseas Military Facilities Investment Recovery account. The purpose of the account is to collect payments from host nations for the value of new construction and improvements made by the United States at overseas military installations being returned.

#### 080502 Deposit and Accounting Procedures

Cash receipts obtained from return of overseas real property and improvements to host nations will be deposited into the DoD Overseas Military Facility Investment Recovery Account, 97X5193. Accounting instructions are included in USD Comptroller letter, dated 17 June 1991, subject: Guidance for Department of Defense Overseas Military Facility Investment Recovery Account (which will be superseded by Volume 12 of the DoD Financial Management Regulation when published).

#### **080503 Funds Release Procedures**

Funds deposited into the DoD Overseas Military Facility Investment Recovery Account are available only for purposes of maintenance and repair and environmental restoration at U.S. facilities and maintenance and repair and environmental compliance at military facilities outside the U.S. as specified in the Act. The Components may request release of funding, based on verifiable deposits, by memorandum to the USD Comptroller, Director for Construction.

#### 080504 Budget Estimate Submission Exhibit

Components returning overseas military facilities to host nations that have resulted in collections to this account must complete OP-29. This exhibit provides information on the cost and improvements, depreciation, residual value, and amount collected from the host nation that is necessary in accomplishing an annual report to the Congress. It also documents proposed real property maintenance or environmental restoration/compliance projects at military installations to be financed from the proceeds deposited into this account.

# 0806 REAL PROPERTY MAINTENANCE/MINOR CONSTRUCTION FORMATS

# 080601 Purpose

The special formats provided on the following pages reflect guidance presented in previous sections of this chapter. Unless modified in a submission budget call, these formats should be adhered to.

(page 1 of 2) Exhibit OP-27P Real Property Maintenance and Minor Construction - Projects Over \$ 500,000

(\$ 000) Cost

Notes:

 $\underline{a}$  Prepare this exhibit by State, in alphabetical order, following the same format as the MilCon C-1 Annex.

<u>b/</u> The Project Title. A short title that describes the nature of the project (example; "Repair Roof, Bldg. 15").

Bldg. 15", Justification - "Projects repairs 40,000 SF roof on warehouse. Repairs required to fix trusses and roof leaks. Repairs needed due to age of facility (37 <u>c</u>/ The Justification is a short narrative that describes the nature of the project, scope of the project, and the reason it is required (example; <u>Title</u> - "Repair Roof, years), and normal deterioration from weather and other causes").

<u>d</u>/ Minor Construction. This is the total cost of minor construction being used concurrently for major repair projects appearing in this exhibit.

e/ Total Repair and Maintenance This column is the total of costs for all projects listed in this exhibit. It includes only projects costing more than \$500,000 All totals will be listed only at the end of the exhibit.

1/2 Total Active Installations. This column is the sum of Minor Construction costs, and the total costs of Repair and Maintenance projects costing more than \$500,000, for active installations.

g/ Total Inactive Installations. This column is computed in the same manner as "f" above, for inactive installations. The Grand Total is the sum of costs reflected in this exhibit, for both active and inactive installations. Exhibit OP-27P (page 2 of 2)

Exhibit OP-28 Summary of Major Repair Projects (page 1 of 2)

### Maintenance of Real Property Facilities (Dollars in Thousands)

### DEFENSE WORKING CAPITAL FUNDS ACTIVITY GROUP ANALYSIS

0901 GENERAL

### 090101 Purpose

This chapter highlights the policies and justification procedures underlying budget formulation for the Defense Working Capital Funds (DWCF).

### 090102 Background

A. Revolving funds were established to satisfy recurring Department of Defense requirements using a businesslike buyer-and-seller approach. The generators of requirements justify the need for funds to the Congress, but are not always the organizations that execute the requirement. In some instances, the "customers" or "buyers" contract with DoD "provider" or "seller" organizations that have expertise in the service or product required, and operate under business financial management principles. Unlike profit-oriented commercial businesses, the revolving funds goal is to break even over the long term. Revolving fund selling prices established in the budget are stabilized or fixed during execution to protect customers from unforeseen fluctuations that would impact on their ability to execute the programs approved by the Congress.

B. The basic tenet of the revolving fund structure is to create a customer-provider relationship between military operating units and support organizations. This relationship is designed to make managers of support organizations funded through DWCF and decision-makers at all levels more concerned with the costs of goods and services. Requiring the operating forces to pay for support they receive provides increased assurance that services supplied and paid for are actually needed.

Prior to the establishment of an activity under DWCF, a charter, which sets forth the scope of the activity group shall be prepared and signed by the Secretary or Assistant Secretary of the Military Department or by the Director of a Defense Agency, as applicable. The charter is submitted to the Comptroller of the Department of Defense for approval. Four criteria are used in evaluating potential activity groups for inclusion into the Fund. The four criteria are: identification of outputs that relate to products or services provided by the business to customers; establishment of a cost accounting system to collect costs of producing outputs; identification of customers so that resources can be aligned with the requirements; and evaluation of buyer-seller advantages and disadvantages to include assessment of the customers' ability to influence cost by changing demand.

C. Revolving funds have been in use by the Military Components for a considerable period of time. Modern day revolving fund authority is provided by the National Security Act of 1947, as amended (Title 10 U.S.C., Section 2208). The FY 1996 DoD Authorization Act (Public Law 104-106) codified the Defense Business Operations Fund (the predecessor of the Defense Working Capital Fund) in Chapter 131 of Title 10, U.S.C.

D. Revolving Fund Activities evolved from two distinct categories. The first type, Stock Funds, dealt with procuring material in volume from commercial sources and holding an inventory. Subsequently, activities sold to the authorized customer who needed the item in order to achieve weapon systems readiness or provide required personnel support items. The second type, Industrial Funds, provided industrial and commercial goods and services such as depot maintenance, transportation, and research and development. Both types of revolving funds were financed primarily by reimbursements from customers' appropriated accounts.

E. The Department of Defense expanded the use of businesslike financial management practices through the establishment of the Defense Business Operations Fund (DBOF) on October 1, 1991. Building on revolving fund principles, cost and performance are linked together and the Fund's managers are expected to operate within cost goals established in operating and capital budgets.

F. DBOF combined existing commercial or business operations that were previously managed as individual revolving funds into a single revolving, or business management, fund. The Fund Treasury account has five subaccounts (one for each Military Department and Defense-wide). On December 11, 1996, the Under Secretary of Defense (Comptroller) reorganized DBOF and created four Working Capital Funds: Army, Navy, Air Force, and Defense-Wide. Further, on December 16, 1997, a separate Working Capital Fund was established for the Defense Commissary Agency effective in FY 1999. This change retains the numerous benefits and improvements resulting from the implementation of DBOF while clearly establishing the Component's responsibility for managing the functional and financial aspects of their activities.

G. Prior to FY 1992, industrially funded activities did not receive funding documents. All funding authority was provided through customer orders. With the implementation of the Funds, annual operating budgets that provide official management cost goals and capital budgeting limitations are issued to the Services and Agencies for each activity group.

H. For businesses within the Fund, high level unit cost goals and fixed prices make it possible to measure changes in cost based on financial operating results. This cost-oriented approach encourages management to look at all costs, including overhead, in terms of the output of the business and provides visibility of cost drivers.

### 090103 Policy

These policy statements are provided for budget formulation and are to be used as the basis for preparing Budget Estimate Submissions (BES).

### A. Cash Management

The cash management policy is to maintain the minimum cash balance necessary to meet both operational requirements and disbursement requirements in support of the capital program. Cash generated from operations is the primary means of maintaining adequate cash levels. The ability to generate cash is dependent on setting rates to recover full costs to include prior year losses; accurately projecting work load; and meeting established operational goals.

The responsibility for DWCF cash management was returned to the Components and Agencies effective February 1, 1995. This provides activity group managers additional control of and accountability for their operations, since cash management is an integral part of operational and cost management. Since cash management has been decentralized, there is no longer a requirement for the Defense Finance and Accounting Service (DFAS) to implement automatic advance billing procedures when overall Departmental cash levels fall below \$1 billion, and it has been determined that the cash shortage was not caused by an anomaly. Volume 11B will be updated to reflect this change in policy.

Any transfers of cash between DWCF activity groups, whether directed internally by the Components or as the result of audit, Departmental guidance, or Congressional direction, will be included in the affected activity group's budgets. Cash transfers will not be made without prior consultation with and approval of the OUSD Comptroller. Further, all such transfers will be formally documented in a Program Budget Decision, and will be reflected in both the gaining and losing activity groups' supplementary budget justification books for the President's Budget Submission.

The major points included in the policy are:

- Effective cash management is directly dependent on the availability of accurate and timely data on cash levels and operational results.

- Cash levels *should* be maintained at 7 to 10 days of operational cost and cash adequate to meet six months of capital disbursements. Cash levels will be calculated using the following formula: Total operating budget disbursements for a fiscal year divided by either 260 or 261 available workdays in a fiscal year (as documented in OMB Circular A-11) multiplied by the number of days cash desired. This amount is then added to the projected disbursements for six months of Capital Investment Program Outlays.

- Cash plans will be developed to facilitate the cash management process. Plans consider collections, disbursements, appropriations, and other cash transactions based on Component estimates. This annual plan will be initially developed during the budget process and will be an integral part of the budget document.

- In addition, a monthly phasing analysis of collections and disbursements as part of the cash plan will be required to monitor execution. This monthly execution review will lead to increased management attention in reducing costs, emphasizing timely billing, collecting revenue, and disbursing.

A goal of the DWCF is to eliminate the use of Advance Billing of Customers to maintain cash solvency unless required to avoid Anti-Deficiency Act Violations. The DoD Authorization Act of FY 1998 Section 1011 requires that the Secretary of the Military Department notify Congress within 30 days after an advance billing is made. Any requirements for advance billings by a Service Component or Activity Group will be coordinated in advance with the Director for Revolving Funds. A copy of the letter to Congress will also be provided to the Revolving Funds Directorate. *Per Congressional Direction, advance billings for the Defense Working Capital Funds may not exceed \$1.0 billion in any year.* 

- The operational control of actions taken by each DWCF activity, which result in cash disbursements and collections, always has and continues to reside with the Components and Agencies. Decentralizing cash management was done to provide the Component and Agency managers additional control of and responsibility for their operations, as cash management is an integral part of operational management. The policy requires that each level of management within the Department participate in the execution of the policy in order to insure results are achieved to improve the management of DWCF cash.

### B. Operating Budget

The operating budget contains the annual operating costs of an activity or Component, including depreciation or amortization expenses. To minimize costs within activity groups, all goods and services should be purchased, whenever possible, from the source that provides them at least cost, unless there are some other considerations such as mobilization or readiness that prohibit this flexibility. Of course, the performance and quality of the source must be considered as well. When comparing costs of organic or commercial sources, both direct and indirect costs are to be included in the evaluation.

1. Depreciation expenses shall be calculated and accumulated using the straight-line method based on the capitalized amount less residual value, and divided equally among accounting periods during the asset's useful life based on established depreciation schedules. Residual value will be used in the calculation only if it exceeds 10% of the cost of the asset. The depreciation schedules to be used for Fund activities are as follows:

a. For assets acquired prior to October 1, 2000: Facilities Construction (including Minor Construction) – 20 years; Equipment purchases, other than ADPE and Telecommunications Equipment – 10 years; ADPE, Commercial Software, and Telecommunications Resources – 5 years; General Purpose Vehicles – 5 years; Internally Developed Software – 10 years.

b. For assets acquired on or after October 1, 2000: General Purpose Vehicles (includes heavy duty trucks and buses), ADP Systems and Hardware (Computers and Peripherals), High Tech Medical Equipment, Equipment used in RDT&E, Radio and Television Broadcasting Equipment, Commercial Software, and improvements to 5 Year Recovery Period Property (Personal Property) – 5 years; All other Equipment and Machinery, and Software, Improvements to 20 Year Recovery Period Property(e.g. new elevator in an existing building) – 10 years; Vessels, Tugs, Barges, and Similar Water Transportation Equipment (non-national Defense PP&E vessels/ships), Steam (12.5K pounds per hour or more) and Electrical Generation Equipment (500 Kilowatt or more) and other utilities, Fences, Roads, Bridges, Sewers, Ships and Railroad Wharves and Docks, Dry Docks, Fuel Storage Facilities, etc, and Improvements to 40 Year Recovery Period Property – 20 years; Buildings, Hangars, Warehouses, Fuel Storage Buildings, Air Traffic Control Towers, and Other Real Property Structures – 40 years.

c. Improvements to Leased Buildings and Other Real Property (Leasehold Improvements) – Remainder of Lease Period or 20 years, whichever is less. d. Land Rights of Limited Duration – Over the specified duration.

2. For items in the 5 year category, a recovery period of less than 5 years is permitted if the acquiring DoD component is certain that the useful life of the asset is at least two but less than 5 years. The DoD component must document the reasons for the shorter useful life and may not change the recovery period once depreciation has been started.

3. Depending on the nature of the software, it may be depreciated over a period of five years or 10 years. The Component may also request a waiver and propose an alternative depreciation period. The determining factor should be the actual estimated useful life of the software consistent with that used for planning the software's acquisition.

4. Future guidance for depreciation of General Plant Property and Equipment Capital Assets will be found in Volume 4, Chapter 6 of the FMR.

5. These depreciation rules are consistent with Federal Accounting Standards Advisory Board Statement on Federal Financial Accounting Standard No.6.

6. For equipment transferred into a activity group that has preexisting depreciation schedules, depreciation will be based on the remaining book value plus any associated costs for transportation, installation, and other related costs necessary to put the asset into operational use.

7. For capital assets that are transferred to a activity group that have no preexisting depreciation schedules, depreciation will be calculated based on the net value (original acquisition cost less calculated accumulated depreciation) plus any associated costs for transportation, installation, and other related costs necessary to put the asset into operational use

8. Depreciation of capital equipment will be fully reflected in the operating costs and rates of Fund businesses.

### C. Capital Investments

1. With the exception of major construction and items listed in paragraph D.1, acquisition of all capital assets for use by businesses within the Fund are financed through the Fund. The Capital budget shall not be used to establish a new or to expand organic capability except as specifically approved in a capital budget. Capital assets include depreciable property, plant, equipment, and software developed, manufactured, transferred or acquired during a fiscal year for a determinable cost of \$100,000 or more, effective October 1, 1995, and having a useful life of two years or greater. Once assets are capitalized by the DWCF activity, they will continue to be reported as a capital asset and depreciated until the book value of the asset reaches zero or its salvage value, as appropriate. Changes in the capitalization threshold will not impact assets already capitalized unless directed by higher authority. *The expense/investment threshold established by the Congress will be used to determine if an item should be capitalized or expensed*.

2. These assets will be funded through the capital budget and their costs will be depreciated according to depreciation schedules found above and in Volume 2a, paragraph 010219C. Resources needed to finance DWCF capital assets shall be derived primarily from depreciation of existing Fund assets. The estimated depreciation expense shall be included in stabilized rates and prices billed to Fund customers. A capital purchase positive or negative surcharge, if required, shall also be included to fund the increment, if any, in excess of, or less than, depreciation when necessary to fund the approved capital investment.

3. Purchase and installation costs for the initial procurement of any and all depot maintenance capital equipment unique to newly introduced platforms or weapon systems will continue to be funded in the appropriate procurement account. Once transferred to or otherwise capitalized by the depot, the capital equipment

becomes the property of the depot. The depot will treat the equipment as a capital asset, depreciate the equipment, and fund subsequent replacement and maintenance of the equipment in its capital and operating budgets in the Fund.

4. The term "software" includes both operating software and application software. As defined in OMB Circular A-11, software includes systems programs, application programs, commercial-off-the-shelf (COTS) software, independent subroutines, data bases, and software documentation. Software that is integrated into hardware, and is necessary to operate the hardware, rather than to perform an application, should be budgeted with, and capitalized as part of the hardware. Systems application software, however, should be budgeted separately either as an expense or as a capital investment depending on whether it meets the criteria for a capital asset. Systems application software may be acquired through (1) the purchase of COTS system; (2) the development of new applications through either in-house or contractual effort; or (3) the modernization of existing software that expands and/or enhances its existing capabilities.

a. Software development/modernization will be budgeted by project. The full scope of a software development project may consist of efforts in any or all of the following four phases: (1) planning and system design, (2) management and technical support during development, (3) system development including software modification and conversion, and (4) deployment, including environmental and operational test and installation. The inclusion of these phases and related cost elements will ensure that software development budgets are properly prepared. Technical software support and maintenance software support occurring after system installation are treated in DWCF as operational expenses. (Refer to the instructions for the Fund-9a exhibit of the Capital Investment Summary, paragraph C, Software Development/Modernization, of this chapter for those detailed costs to be captured in software development budgets).

b. Software amounts included in DWCF capital budget submissions should include those software development or acquisition efforts for the benefit of the DWCF activity, and exclude software developed or acquired for a specific customer order. (Software developed or acquired for a specific customer order should be charged to and reimbursed by the requesting customer.) Types of cost to be included in a software development project include total labor and non-labor costs such as: (1) all direct costs for civilian and military personnel; (2) contractor labor; (3) supplies; (4) travel; (5) processing support for testing; (6) indirect costs; and (7) general and administrative costs (e.g., base operations support, higher headquarters, and depreciation for central design activity-owned assets). Exclude from the capital budget all costs incurred prior to Milestone 0, Concept Exploration and Definition. Costs such as basic research, study, exploratory development establishing feasibility and practicality of proposed solutions, rough order of magnitude estimates, etc., are treated in DWCF as operational expenses.

c. Software projects may be accomplished by modules. A module is an application that may be operated or used independent of other modules within a system. Where an entire system consists of more than one severable module, the request for capital budget authority (Fund-9b) for each deliverable module should be requested in the budget year the module is started, and should be funded in an amount sufficient to finance the specific module to its completion. However, budget justification material for development of DWCF capital investment projects involving software must disclose the total estimated costs of all software development efforts associated with the applicable system with which the software is to be utilized, including the cost of software development efforts of other modules funded separately from the specific DWCF capital investment project being justified.

d. While the costs of acquiring ADP equipment should be excluded from the cost of software development projects, such costs also should be disclosed in the DWCF capital investment budget justification material for the software development project.

e. Budget submission and justification should be documented on Exhibit Fund-9a, 9b, and 9c. Exhibit Fund -9a, "Capital Investment Summary," represents the summary data of all software deliverables requested for a system. Exhibit Fund-9b, "Capital Investment Justification," provides detailed cost data and narrative justification for each module of a system. Exhibit Fund-9a and Fund-9b data should agree with, and also may be used for cross referencing, Exhibit 43-IT2 of the Information Technology budget. Exhibit Fund-9c, "Capital Investment and Financing Summary," outlines authority obligations, outlays, unobligated balances, and unexpended obligations by fiscal year.

f. The following shows, as an example, severable deliverable modules of a fictitious financial management system:

### - XYZ FINANCIAL MANAGEMENT SYSTEM SOFTWARE MODULES

SOFTWARE DEVELOPMENT, MODIFICATION, OR CONVERSION PHASE

### **Deliverables**

- a. Cash Management Module
- b. Property Control
- c. Inventory Control
- d. Receivables
- e. Payables
- f. Cost Accounting
- g. Reporting

g. Software development and modernization costs incurred by Fund activities for projects installed and operational after October 1 of a specific fiscal year will be depreciated beginning in the month the project is installed and operational (even though it may not be used in operations that month). Incremental deliveries of these projects will be depreciated if the cost of the delivery exceeds \$100,000.

5. Facility investment of \$100,000 or more but less than \$500,000 for a new or replacement facility, or for changes in the function of a facility, will be funded through the minor construction line of the capital budget and depreciated. For minor construction projects involving the correction of life threatening, health, or safety problems, the upper limit is increased to \$1,000.000.

6. Each proposed acquisition of a capital asset shall be reviewed to ensure that it satisfies all of the following criteria:

a. It is more economically feasible to purchase rather than to lease the capital asset. While leasing is not a part of the Capital Purchases Program, it may be appropriate for areas of fast changing technology or when work loads are expected to cease before the end of the program or payback period. Leasing also may be used as a means of obtaining near-term benefits from productivity improvement opportunities until sufficient data to verify the benefits of procurement can be developed.

b. The acquisition of a capital asset meets the Department's long-range planning and programming objectives and results in satisfying a documented need for capability to perform valid operations, functions, or services that cannot be performed as effectively or economically by the use of existing equipment and facilities or by contract.

c. The acquisition of a capital asset complies with policies and regulations governing the acquisition and management of facilities, special tooling, and special test equipment as established by DoD Directive 4275.5, "Acquisition and Management of Industrial Resources" as well as other applicable policies and regulations governing the lease and acquisition of equipment and facilities.

7. Work load projections used to justify capital purchases must take into account the results of inter-service decisions, work load posture planning decisions, readily available commercial alternatives, and other reasonable options available for accomplishing applicable work load.

8. Capital assets recommended for acquisition shall be those deemed to most efficiently and effectively accomplish the objective for which they are justified. The criteria are: improved efficiency (savings) or effectiveness; required new capability and capacity that cannot be met with current equipment and facilities; replacement of unsafe (locally determined), beyond economical repair, or inoperative and unusable assets; and environmental, hazardous waste reduction, or regulatory agency (state, local, or Federal) mandated requirements.

9. A formal pre-investment analysis or a cost comparison is required to justify investment projects for Capital Budget submissions in the four Capital budget investment categories. In addition to budget formulation, either an economic analysis or cost comparison shall be used to support a project substitution or to accomplish a reprogramming request. An economic analysis shall be used for all projects with a cost of \$1,000,000 and over. A cost analysis will be used for projects under \$1,000,000. This pre-investment analysis must be completed prior to inclusion of the capital asset in the capital budget submission, accomplishment of a reprogramming action, or a project substitution. The scope of analysis shall be tailored depending on the dollar value of the project. These analyses shall be maintained by the originating office of the DoD Component as project documentation support for the Capital Budget submission as well as program execution.

a. The four capital budget investment categories are: Automated Data Processing (ADP) and Telecommunications Equipment; Non-ADP Equipment; Minor Construction (\$500,000 or less for most projects, \$1,000,000 or less for projects impacting heath, safety or environment); and Software development.

b. Capital budget projects in the four investment categories shall also identify one of the following primary reasons for justifying the investment: replacement; productivity; new mission; or environmental.

c. There are two exceptions that may apply in lieu of performing a pre-investment analysis. In both instances, an exception justification statement shall be prepared documenting the requirement or authority for the exemption claimed. Exemption statements shall be validated as would a pre-investment analysis and approved through DoD Component review channels.

(1) Environmental, hazardous waste reduction, or regulatory agency (state, local, or Federal) mandated requirements including directed action by higher DoD or Component authority that precludes choice among alternatives.

(2) DoD instruction or directive waives the requirement (e.g., equipment age or condition replacement criteria).

d. A cost comparison shall be prepared for investment projects under \$1,000,000. The cost comparison initially shall be prepared in constant base year dollars and shall present a differential cost display by year for up to a six-year evaluation period beginning with the budget year for which investment funds are requested.

- Documentation for a cost comparison shall describe the functional process performed; define the need/requirement/objective; identify work load projections; address feasible alternatives; present total costs attributed to each alternative and the differential costs/monetary benefits expected in constant and current dollars over the six-year evaluation period; and provide significant assumptions, constraints, estimating methods, and rational and data sources.

- Payback shall be the primary economic indicator used for cost comparisons to rank order projects up to \$1,000,000 within the investment categories of each activity group.

e. An economic analysis shall be prepared to justify capital investment projects of 1,000,000 or more. The economic analysis shall be prepared on a net present value (NPV) basis and shall comply with applicable DoD or Component guidance as well as functional program guidance. The economic analysis initially shall be prepared in constant base year dollars and shall present a differential cost display by year over the project's expected economic life beginning with the budget year for which investment funds are requested.

- Documentation shall describe the functional process performed; define the need/requirement/objective; present and explain work load projections; identify feasible alternatives; present total costs and the differential costs/monetary benefits in constant, discounted, and current dollars over the expected economic life of the project; present estimating methods/relationships, and data sources; identify significant constraints, assumptions, and variables; treat sensitivity and uncertainty of key parameters; and address all other quantifiable benefits as well as any intangible benefits influencing the recommended course of action.

- Quantifiable benefits are all outputs/results achieved in return for investment dollars associated with an alternative.

- Benefit to Investment Ratio (BIR) shall be the primary economic indicator used to rank order projects of \$100,000 or more within the investment categories of each activity group.

- Automated economic analysis programs and reports may be used if the programs provide comparable information to that of standard economic analysis reports.

10. Annually, each activity within the DWCF shall prepare post-investment analyses. Post investment analysis will only be prepared for those projects with a unit cost over \$1,000,000 and should be limited to recurring type investments where lessons learned in prior projects would influence future investment decisions. For example, an activity is investing \$5 million in similar new equipment over a 3 year period. A post investment analysis would be required to show how equipment being purchased in the last year of the purchase cycle has demonstrated cost savings over purchases at the beginning of the buying periods. The format and technique for each post-investment analysis shall be similar to the cost comparison or economic analysis used for the project justification. The post-investment analyses shall be retained for ready review for five years.

11. The total annual capital budget approved for each Component by the Congress during review of the Fund may only be exceeded to the extent that projects which were included in the operating budget based on approved expense/investment criteria must be executed as capital budget items due to revised cost estimates. Transfer of projects from the operating budget to the capital budget reduces the amount earned in the operating budget. Exceeding the total capital budget (the total includes amounts reprogrammed) is an Anti-Deficiency Act violation.

Each Component may reprogram capital funds between activity groups; however, the maximum annual increase in any one activity group must be less than \$10 million for each capital investment category approved in the President's budget; i.e., ADP equipment and telecommunications, non-ADP equipment, minor construction, and software development. Reprogramming into an activity group's capital budget from the operating budget does not count against the \$10 million threshold.

Only those capital asset projects that have been included in a President's budget for the DoD Component may be financed through the Capital Investment Program (CIP). However, in the year of execution, substitutions may be made for projects when delays are incurred in placing the approved projects on contract or when operational necessity warrants. The following approval levels and dollar threshold apply to changes to projects approved in the capital budget section of the AOB including re-programming, substitutions, cancellations and additions:

(a) All current year adjustments or changes to capital projects that are equal to, or greater than \$1,000,000 shall be approved by the Director for Revolving Funds.

(b) All current year adjustments or changes between categories of capital projects (i.e., minor construction, equipment, ADP equipment and telecommunications, non-ADP equipment and software development) or activity groups that increase a category or a activity group by a cumulative amount equal to, or greater than 1,000,000 within a program year shall be approved by the Director for Revolving Funds. If either of these thresholds is breached, then the Director for Revolving Funds must approve substitutions prior to their initiation. Subdividing of projects is not allowed. (e.g. If a Component wishes to add a project to activity group x. for 1.5 million. It may do this either by an internal transfer of authority between CPP categories of the same activity group, reduce or eliminate an item within the same CPP category within the activity group or reduce the authority of another activity group. No matter how this is accomplished, if the amount of the individual adjustment is 1,000,000 or more, then prior approval must be obtained from the Director for Revolving Funds.

(c) Components may approve transfers between CPP categories or among their activity groups if the change is less than \$1,000,000. However, they are required to notify the Director for Revolving Funds so that such changes may be documented in subsequent Annual Operating Budgets.

(d) Capital obligation adjustments must be charged to the program year cited in the President's Budget for the original project. The prior year capital investment program limitation is equal to actual obligations at September 30 of that fiscal year plus adjustments approved by the Director for Revolving Funds to the prior year program. Other than these approved adjustments, the only time after September 30 that a prior year CIP authority will exceed its obligations is when de-obligations occur in a prior year CIP after September 30.

(e) Capital obligation authority is automatically provided for prior year within-scope increases of less than \$100,000 provided the unobligated balance in the prior fiscal year capital program is sufficient to finance the increase. Prior year within-scope increases of \$100,000 or greater or increases of less than \$100,000 for which there is no unobligated balance will be approved by the Directorate for Revolving Funds. The request should propose, when possible, equal offsetting reductions to the current year capital authority to finance the prior year increase. If an activity cannot fully obligate its current year program and can justify a request for additional current year authority in the following fiscal year, the activity should submit such a request (including justification) to the Revolving Funds Directorate for each capital purchase line item NLT August 5 of each fiscal year. Approved adjustments to the prior year CIP will be included in the subsequent year's capital purchase apportionment request to OMB. Normally, prior year CIP authority will not be approved above the level requested by DoD in the President's Budget and approved by the Congress. However, prior year CIP authority may be increased above the President's Budget approved levels for high priority and unanticipated purposes(e.g. retroactive safety, environmental, or audit finding related requirements). Requests to increase prior year CIP authority received after August 5<sup>th</sup> (for which there is no apportioned contract authority) should propose offsetting decreases to the current year CIP authority.

D. Exclusions from the Capital Purchases Program

The following are mandatory exclusions from the Fund capital purchases program and must be financed directly from appropriated funds:

1. Major Range and Test Facility Activities Items (equipment and minor construction) that meet the DoD investment capitalization criteria for use by major ranges and test facility bases operating within the Fund.

2. Military and tenant support functions.

3. Aircraft, ships, barges, and general-purpose passenger-type vehicles.

4. Equipment and minor construction projects purchased to meet mobilization requirements, but not used during peacetime operations.

5. Equipment initially procured and usually furnished as part of a weapon system and/or support system to include initial common support equipment for depot maintenance support of new weapon systems.

6. Equipment normally funded by appropriated funds and provided to contractors as Governmentfurnished equipment to be incorporated into, used in conjunction with, or consumed in the production of, an end product. (Such equipment should be funded by appropriated funds and provided to the applicable DWCF activity at no cost to the DWCF activity.)

7. Minor construction projects for a non-DWCF activity or military support function.

8. Construction and facility investment projects that exceed the amount specified in 10 U.S.C. 2805 for funding from accounts available for operations and therefore must be funded by the Military Construction appropriation.

9. Environmental projects financed or submitted for funding by the Defense Environmental Restoration Account.

10. Capital investments for morale, welfare, and recreation activities.

11. Such other exclusions as may be approved by the USD (C).

### E. Construction

1. Minor construction projects of \$500,000 or more shall be funded within the Military Construction appropriation.

2. Effective in FY 1996, 10 U.S.C. 2805(c)(1) was amended to increase the threshold for unspecified military construction projects funded by the Fund and intended solely to correct a deficiency that is lifethreatening, health-threatening, or safety-threatening from \$300,000 to \$1,000,000. However, projects costing \$500,000 or more must still be approved by the USD (C) and identified on the AOB prior to execution to avoid an Anti-Deficiency Act violation. Reprogramming thresholds identified in paragraph 090103.C.11 still apply.

3. Effective in FY 1996, 10 U.S.C. 2805(c)(1)(B) was amended to increase the threshold for minor construction projects from \$300,000 to \$1,000,000 for activities designated under the DoD Laboratory Demonstration Program. Fund activities designated to participate in the DoD Laboratory Revitalization Demonstration Program must still obtain prior USD(C) for projects costing over \$500,000 and have it separately identified on the AOB prior to execution of the project to avoid an Anti-Deficiency Act violation. Reprogramming thresholds for the capital asset program identified in paragraph 090103.C.11 still apply. The authority for the Laboratory Revitalization Demonstration Program expires on September 30, 1998.

4. Project planning and design costs are considered a capital investment cost that is capitalized by the DWCF activity and financed in the minor construction portion of the capital budget. Planning and design costs are not included as part of the statutory threshold for minor construction projects. The amount of planning and design funds should be separately identified from individual projects in the Budget Estimates Submission.

F. Mobilization/Surge Costs and War Reserve Material

Mobilization capability costs include the costs to maintain a surge capacity, to procure and maintain approved war reserve material levels, and/or to maintain other assets, functions, or capabilities required to meet an operational contingency as documented in Defense Planning guidance or operational plans.

All costs at businesses within the Fund related to maintaining a capacity to meet mobilization requirements will be reimbursed by funds that are from direct appropriations and will not be financed through customer rates.

1. <u>War Reserve Material</u>. Obligations for war reserve material will be funded by a direct appropriation to the Fund or after notification to Congress. Such appropriated amounts for secondary items shall be reflected as a separate goal within the applicable Supply Management or Commissary Resale activity group AOB. A new exhibit, SM-6 War Reserve Material, will be prepared by the Components to justify War Reserve Material Requirements.

2. Unutilized and Underutilized Plant Capacity.

- As provided in Program Budget Decision 407 dated December 11, 1996, Unutilized Plant Capacity (UPC) represents costs associated with maintaining facilities to meet necessary surge capacity due to mobilization or war. UPC costs are not to be included in the DWCF rate structure. Rather, budget these costs in the Operations and Maintenance Accounts. As a general rule, any month during which these mobilization facilities are not used, or if utilized only 20% or less of available work days, the pro-rata support costs for those facilities will be included in the UPC funding. Unutilized capacity is considered a mobilization requirement that is to be funded by appropriated funds provided by the DoD Component having management responsibility for the Fund activity.

- Mobilization Program expenses related to UPC may include both maintenance and labor costs related to the Program.

- Each non-Supply Activity Group will prepare an UPC Budget Exhibit (Fund – 30). This exhibit documents activity group total capacity, Unutilized Capacity Index, and Justification and cost used in developing

the request for UPC. All non-Supply Activity Groups will complete the three capacity index metrics found in Part I of the exhibit. Any non Supply Activity Group requesting UPC funding will also complete the funded UPC line in Part I and the UPC justification in Part II of the exhibit.

### 3. Industrial Mobilization Costs

- The Army has established a new category of costs that includes both UPC and underutilized facilities cost. They call this Industrial Mobilization Cost. The Army will use the same UPC exhibit fund-30 to justify their IMC costs.

### G. Military Personnel

1. Since the majority of military personnel at DWCF activities are there for reasons other than DWCF business requirements (e.g., mobilization, rotational training, command opportunities), the full cost of military personnel should not be included in the DWCF cost of operations or customer rates. Instead, for development of customer rates, a civilian equivalent rate, provided by the USD (C), will be used to price military personnel at DWCF activities during budget formulation. The difference between the civilian equivalent costs, included in the DWCF budget, and the actual military personnel cost will be budgeted directly in the appropriate military personnel appropriation. The number of military included in the budget will be the number of military average strength assigned to the DWCF business. The budget amount will equal the average strength multiplied by the civilian equivalency rate for each grade. The average strength for the budget year(s) will be calculated using the authorized strength for each grade. No adjustments will be made to the DWCF cost of operations to reflect the actual cost of military personnel employed by DWCF activities.

2. The amount expensed for military personnel by DWCF activities and the amount reimbursed to the appropriate military personnel appropriation will be the same as the amount budgeted. No adjustments will be made to the DWCF cost of operations to reflect the actual cost of military personnel employed by DWCF activities. Military Departments having military personnel assigned to other Components will provide to each Component the number of workyears that should be included in the DWCF budget submission.

3. The civilian equivalent costs are provided by the OUSD(Comptroller) and are calculated as follows: (a) The current General Schedule of civilian pay rates, step 5 or Executive Service pay rates of the equivalent grade are used. (b) The amount in (a) should be multiplied by any proposed pay raise effective in future periods that may impact the level and cost for negotiated military support. (c) The amount calculated in (b) is to be multiplied by the civilian personnel fringe benefits factor applicable to the Military Service or Defense Business Operations Fund to arrive at the total civilian cost. The 14.7 percent for unfunded civilian retirement is not to be included in the calculation. (d) Civilian personnel fringe benefit rates and military composite rates are provided by the OUSD(Comptroller).

4. See Volume 2A, paragraph 010217 for military personnel pricing policy.

### H. Full Recovery of Costs and the Setting of Prices

1. Managers of activity groups within the Fund are required to set their prices based upon full cost recovery, including all general and administrative support provided by others. Prices are established through the budget process and *except for* the Depot Maintenance *and Central Design Agent Activity Groups*, remain fixed during the year of execution. This stabilized rate policy serves to protect customers from unforeseen inflationary increases and other cost uncertainties and better assures customers that they will not have to reduce programs to pay for potentially higher-than-anticipated prices. In turn, this policy allows activities to execute the budgeted program level and permits a more effective use of Fund resources.

2. Prices for the budget year will be set to recover costs over the long run. This means that prices will be set to achieve an Accumulated Operating Result (AOR) in the budget year of zero. During budget execution, activity groups will record either a positive or negative Net Operating Result. Accordingly, prices in the budget year will be set to either make up actual or projected losses or to return actual or projected gains in the budget year(s).

3. An activity group may request that AOR losses be recovered over a two year period. The request must be included in the budget submission, may recover no more than 50% of the loss in the second fiscal year, and must demonstrate that the delay in the recovery of losses will not adversely effect the cash balance of the activity group. A phased recovery schedule must be provided with the budget. The Directorate for Revolving Funds will provide final approval for any extended AOR loss recovery plans.

4. Unbudgeted Depot Maintenance or Central Design Agent operating losses or operating gains of \$10 million or more per activity group will be recouped or returned as appropriate. This recoupment will occur in the current fiscal year or, in the case of fourth quarter gains and losses, in the subsequent quarter of the next fiscal year. This rate adjustment will increase financial discipline, encourage depot commanders to implement cost controls more rapidly, and provide the right incentives to set rates correctly in the budget, eliminate the routine use of advance billing to cover execution losses, and improve operational efficiency.

5. The established procedures will impose a surcharge on customer bills to recoup losses. The amount of the losses to be recouped will be determined at the first budget execution review meeting of the fiscal year. Additional adjustments will be determined during the mid-year review as needed. Customers will be required to absorb or finance all cost increases.

6. Non-Organic Contract Costs

As stated above, DWCF policy requires that Components budget for total costs incurred for activity groups. Thus, Components will include in prices contract costs for effort funded at a DWCF activity group by the customer but performed by contractor (non-organic effort) in the total cost of that DWCF activity group. In addition, the budget estimate will recover all costs associated with contract award and administration through prices charged to the customer.

7. Unbillable Expenses and Operational Losses.

Expenses that cannot be billed to an identifiable customer or that were generated from unforeseen cost overruns are to be treated as expenses in the fiscal year is which the costs were incurred. The operating losses accruing, therefore, will be included in calculating net operating results.

8. The prices set for all activity groups processes will match the rate changes approved during the budget review.

### I. Reimbursement for Contingency Operations and Humanitarian Efforts.

1. All Working Capital Fund (WCF) business areas, including transportation services provided by the United States Transportation Command (USTRANSCOM), operate on a reimbursement basis with users paying for goods and services provided. Payment for contingency operations, including deployment or other emergency response for military or humanitarian assistance, is no exception

2. The users ordering the WCF service must pay the bill, and no orders are to be accepted without funding. The Military Department Headquarters is responsible for determining which level within the Military Department will pay (that is, the unit, major command, or Military Department level). This process also applies when a Unified Combatant Command tasks a Service-funded unit to perform a mission (such as transportation of military personnel or equipment by USTRANSCOM). The Military Department that controls the equipment or personnel is responsible for payment of costs incurred to accomplish the mission.

3. Consistent with this policy, third party collections for transportation provided in response to a Request for Assistance (RFA) from another government agency is prohibited. The Military Department that controls the equipment or personnel being transported is responsible for reimbursing USTRANSCOM. It is then the responsibility of the Military Department that accepted the RFA to collect any required reimbursements due that Military Department by the requesting government agency

### Volume 2B, Chapter 9 ★June 2000

4. The sole exception to this policy occurs when the USTRANSCOM receives an order from the Joint Chiefs of Staff requiring transportation of non-U.S. owned equipment and/or non-U.S. personnel such as un-reimbursed efforts in support of the United Nations. In those instances, the Army will pay Military Traffic Management Command (MTMC) costs, the Navy will pay Military Sealift Command (MSC) costs, and the Air Force will pay Air Mobility Command (AMC) costs. Bills may be centralized for more convenient processing if appropriate; however, billings shall be forwarded to the appropriate Military Department within 30 days from the commencement of service or the humanitarian effort. Payment of these bills, including transportation bills, by the Military Departments must be made in a timely manner

5. This guidance does not address any contingency operation designated by the Secretary of Defense as a "National Contingency Operation" under the provision of the United States Code Title 10, Section 127. Special rules apply for such an operation and those rules should be promulgated separately in conjunction with any designation by the Secretary under the provisions of that section.

J. Base Realignment and Closure (BRAC)

1. <u>BRAC Costs</u> - Costs incurred in implementing the recommendations of the Base Realignment and Closure (BRAC) Commissions will be funded by the appropriate BRAC account and are not to be included in the rates and costs of businesses within the Fund. Prior year, current year, or budget year operating losses in DWCF are not to be budgeted in the base closure accounts. Costs attributable to base closure actions at DWCF activities to be budgeted in BRAC may include:

- BRAC directed reductions-in-force, separation incentives, plant closures, plant layaway or custody costs or other BRAC related expenses, such as all costs not associated with a valid work order during the year of closure.

- Environmental Restoration and Mitigation. This includes reducing, removing, and recycling hazardous waste, and removing unsafe building debris.

- <u>Planning</u>. Conduct of such advance planning and design as may be required to transfer from an activity being closed to another military installation.

- <u>Outplacement Assistant</u>. Assistance in relocation, training, or other necessary assistance to civilian employees employed by the Department at installations being closed.

- <u>Community Programs</u>. This includes economic adjustment assistance to a community in which the closed base is located, or community planning assistance to the community to which functions will be transferred as a result of closure of a military installation.

2. <u>BRAC and DWCF Rates</u> - Overhead, not specific to BRAC and not in support of producing goods or services for customers, will be financed in the year the costs are incurred with the Components' Operation and Maintenance (O&M) appropriations. DWCF losses occurring in years prior to closure will be recovered through the rate structure to the extent that there are new customer orders. When there are no new customer orders in the budget year, all overhead not included in rates supported by ongoing work or prior year losses to be recovered in the budget year must be financed as a pass through to the DWCF from the O&M appropriations of the Military Department or Component responsible for the activity incurring the loss. All costs at a closing activity in the year of closure that are not associated with a valid work order or are not valid BRAC costs are O&M costs and must be budgeted in the fiscal year when they will be incurred. BRAC costs are defined in the paragraph above.

K. Funding of Civilian Voluntary Separation Incentive Program.

The Fund will finance and include costs in stabilized rates for civilian separation incentive requirements of assigned employees unless they must be offered as a result of directed base realignment and closure action. If the offering is a result of a base realignment and closure action then the appropriate Base Realignment and Closure Account will fund the civilian separation incentive.

### L. Base Support

DWCF activities that use any of the services as listed in Exhibit Fund-22 must reimburse host activities in accordance with DoDI 4000.19 (Inter-service and Intra-governmental Support) to the extent that the specified support for the DWCF activity increases the host activity's direct costs. Costs for DWCF mission products and services (e.g., depot supply, depot maintenance, Public Works Center services, information processing, communications, and software development) shall be based on the approved stabilized rate. Other support incidental to the DWCF activity's primary mission or purpose shall be budgeted based on direct costs measurable and directly attributable to the DWCF activity (incremental direct cost). Only the incremental change in cost attributable to the DWCF activity (incremental direct cost) shall be chargeable to the DWCF activity. Indirect costs are not to be included as a cost to the DWCF activity. The cost of operations budgeted for these services either as a host or tenant activity should be noted by activity group in Exhibit Fund-22 (Summary of Base Support) that is provided to OSD/OMB with the fall budget submission.

### M. First Line Supervision

First line supervision is that level immediately over non-supervisory workers. First line supervisors and above are official supervisory positions and, when acting in a supervisory capacity, their labor costs shall always be budgeted and charged as an indirect cost of the cost center supervised. Crew chiefs, snappers, team leaders, and other subordinate job leaders are not considered first line supervisors. Volume 11B, Chapter 63, paragraph K contains additional information related to charging labor costs.

### N. DWCF Management Headquarters Costs

A DWCF management headquarters is a discrete organization or part of an organization that has authority over the management of the DWCF activity group. OSD and Service Departmental activities normally do not have this direct responsibility. All the major systems/logistics organizations in the Services include headquarters elements directly supporting DWCF activities that should be funded or reimbursed by DWCF activity groups.

Costs for discrete DWCF management headquarters organizations and parts of organizations that perform direct DWCF management headquarters functions should be directly funded by DWCF, if feasible, or reimbursed by DWCF. Only significant costs (exceeding 1 percent of the total activity group costs, or if less than 1 percent, costs that exceed \$1 million) should be reimbursed. In addition, significant costs for common support functions (e.g., counsel, personnel, etc.) at organizations partially funded or reimbursed by DWCF (i.e. that has direct DWCF management responsibilities) should also be allocated, if feasible.

### O. Dual Funded Organizations

A dual funded organization is an organization that is funded (including reimbursable funding) by both the DWCF and other appropriations or accounts. In those instances where a function is funded with a combination of both DWCF and appropriated funds, the function initially will be funded in its entirety either by the DWCF or by appropriated funds. The determination of whether the particular function initially is to be funded by the DWCF or by appropriated funds will be based on the predominance of definable units of measure for the function--e.g., work load, productive hours, outputs, or ultimate use. The part of the organization (or funding source provided) initially funding the function shall be reimbursed for appropriate amounts by other parts of the organization (or financing sources or customers) involved. Reimbursement (and the allocation of costs) between the provider and customer shall be made based on the same unit of measure--e.g., work load, productive hours, outputs, or ultimate use--as was used to determine which organization (or funding source) initially funded the applicable costs; and the amount of reimbursement shall be determined based on the relative portion of that unit of measure attributable to each part of the organization (or funding source) involved. Notwithstanding this policy, the amount of reimbursement for base support services provided by the DWCF to tenant activities shall be determined in accordance with the policies in paragraph 090103.K and DoDI 4000.19.

For example, if the part of an organization that is within the DWCF account for 60 percent of the unit of measure for a function shared with the part of the organization funded through appropriated funds, then the DWCF portion of the organization initially would fund all of the costs of performing that function. However, the applicable part of the organization funded through appropriated funds would reimburse the DWCF for (and be allocated) 40 percent of the costs.

When a capital asset purchased by the DWCF is also used by the appropriated fund part of the organization, the Fund activity will capitalize the capital asset and bill the appropriated fund customer for the use of the capital asset. Such billings will utilize a stabilized rate that recoups both depreciation and operating costs.

When a capital asset purchased by an appropriated fund part of the organization is also used by the DWCF part of the organization, the appropriated fund side will capitalize the asset and bill the DWCF for operating costs only. (Appropriated fund activities do not bill DoD activities for depreciation of capital assets.)

### P. Revenue Recognition

Revenue and associated costs must be recognized in the same accounting period. Revenue must be recognized in the same manner (that is, a standard policy for recognizing and reporting revenue must apply) for all activities within a DWCF activity group. Beginning in FY 2000, the "Percentage of Completion Method" will be the only method of Revenue Recognition used by non-Supply DWCF activities. The amount of revenue recognized cannot exceed the amount specified in the order. The policy varies based on the type of customer order, the length of time necessary to complete the order, and the value of the order. There are two types of customer orders: (1) end-product (end-item) type orders which, at the completion of the customer order, produce a usable end-product (an overhaul, repair, manufacture, construction, modification, etc.); and (2) service type orders which provide a service over a specified period of time.

It is important that current period net income/loss include revenues earned and costs incurred in the same periods in order for the activity group manager to better evaluated the performance of an organization for the period(s) in which the work is performed. The revenue recognition policy does not encompass or establish policies for billings to customers or payments from customers.

DoD Financial Management Regulation (DoD 7000-14R), Volume 11B, Chapter 61 provides specific revenue recognition guidance by DWCF activity group.

### Q. Customer Mandated Schedule

When a job order is canceled or reduced in scope after a DWCF activity has commenced work or incurred costs on the order, the costs incurred, plus the applied overhead (that is indirect and other normally allocated overhead (G&A) costs)), plus costs associated with the cancellation or reduction shall be charged to the customer.

DoD 7000-14R, Chapter 1, paragraph 010222, provides specific guidance for the types of directly associated cancellation or reduction costs that can be charged to customers.

R. Extraordinary Write-offs.

Extraordinary write-offs of losses, chargeable against AOR in accordance with accounting policies, shall not be recovered through increases in customer rates in the following circumstances: losses resulting from the disposal or divestiture of capital budget items that have not been fully depreciated at the time they are taken out of service due to BRAC action; gains from customer returns without credit; or losses associated with systematic inventory reductions by disposal of assets associated with force draw downs. All such extraordinary write-offs will be separately identified in the Component's budget submission using either Form SM-5B or Fund-7B and will include an attached explanation which cites the fiscal year, the action which precipitated the divestiture action, the basis of the proposed write-off, and the dollar value. All requests for extraordinary write-offs must be approved by the OUSD(C). Any out of cycle requests for extraordinary write-offs should be forwarded to the Directorate for Revolving Funds, Program and Budget for review and approval.

S. Funding policies reflecting relationships with, and requirements of, other appropriations are provided in Chapter 1, Section 0102.

### 090104 Rate Setting in the Activity Groups

A. In accordance with paragraph 090103, stabilized rates reflecting full costing will be set during the budget process for all activity groups. The Fund includes a variety of activity groups that are categorized in two groups for rate setting purposes.

1. Supply Management Activity groups. Utilize commodity costs in conjunction with a surcharge to establish customer rates (see paragraph 090203 Supply Management).

2. Non-Supply Management Activity groups: Depot Maintenance, Research and Development, Transportation, Distribution Depots, Base Support, and all other activity groups have unit cost rates established based on identified output measures or representative outputs. These output measures establish fully cost burdened rates per output, such as a cost per direct labor hour, cost per product, cost per item received, cost per item shipped, etc. These activity groups establish both their output rates and the stabilized customer rates through the same general process. An example of this process is described below, and a more detailed explanation is provided in paragraph 090204.

### B. Definitions and Procedures

1. <u>Stabilized Rate</u>. The stabilized rate is the cost per direct labor hour (or other output measure) customers are charged for the products and services provided by the depot or activity group. A stabilized rate is established for the fiscal year(s) budget being formulated during the budget review process. The stabilized rate is determined by taking the approved Direct Labor Hour rate (or other cost per output measure) for the budget year and adjusting it for both inter-Fund transactions (adjustments to reflect changes in the costs of purchases between activity groups within the Fund), and for the impact of prior year gains or losses as reflected by the AOR. This annual stabilized rate is the rate that will be charged for all new customer orders received and accepted during that specific fiscal year, regardless of the fiscal year the work is actually executed and billed. The only exception to this stabilized rate policy is for unplanned gains or losses in the Depot Maintenance or Central Design Agent Activity Groups. See paragraph 010218B or 090103H for more specific guidance. In Supply Management, customers are charged the stabilized price in effect when the item is dropped from inventory.

2. <u>Rate Change</u>. The annually published rate change for activity groups is the percentage change of the stabilized rate or price between fiscal years. As an example, for depot maintenance, the budget year rate is determined by dividing the approved Direct Labor Hour rate proposed for the budget year by the stabilized Direct Labor Hour rate in effect for the current execution year. That value, expressed as a percentage (plus or minus from a base of one), is the composite price change rate customers will use in their appropriated funds submissions.

C. <u>Budgeted Rates</u>. DoD(C) will review and approve all final rates and prices developed for the President's budget submission during the Budget Review. Rates to be charged customers will be developed by the Components in their budget estimate submission to recoup all costs associated with the Activity group operating and capital budgets including all labor and non-labor, direct, indirect, and general and administrative overhead costs. Following the determination of required costs and proposed rate structures necessary to recover the full costs of executing the Components' planned support program. During budget formulation, Components may propose more detailed rates that break out overall composite rates by activity or product line within an activity group. If approved, these rates would be used in final budget development and execution. Components will make corresponding adjustments in appropriated customer account budget requests to ensure the customer and Fund business budgets are in balance.

D. <u>Alternative Rate Development</u>. Components may propose methods other than the traditional rate per direct labor hour for recovering the full cost of operations. Any alternative pricing methods must be fully documented and justified in the Components Budget Estimate Submission. Any new method must demonstrate that all operating costs are still recovered, provide a comparison of the current method to the method proposed, show the impact to customer funding requirements, and provide a timeline for implementation. Any change in rate structure must be approved in advance by the USD Comptroller and documented in the appropriate activity groups Program Budget Decision. E. <u>Budget Formulation Rates and Prices</u>. Rates will be established in a multiple step process as described below:

1. Each Service or DoD Component managing a activity group should carefully review all projected costs for all operations projected for the fiscal year, and propose the most cost-efficient operation possible.

2. Customer requirements must be projected to include all anticipated work load programmed for accomplishment during the budget year based on identified outputs such as direct labor hours by product, tons shipped, line items received, and all other approved output measures for each activity group.

3. Adjustments required to conform to OSD and OMB guidance on the impact of inflation, projected pay changes, and other programmatic and policy changes will also be included by Components in developing proposed rates.

4. DoD Components will propose costs, program levels, and rate changes by activity group in their budget estimate submissions. Components may propose that customer unique, non-labor direct costs be excluded from the stabilized rates charged to customers. These costs would instead be charged on an actual cost reimbursable basis. Components should show the impact the change in rates structure would have on overall stabilized rates. Final approval of any rate structure proposal will be made by the OUSD(C) P/B in the budget process.

5. Final approved costs, program levels, and rate changes will be established by Program Budget Decision documents, after adjustments required to balance changes to the customer account program levels with anticipated Fund costs, inter-Fund sales and transactions, and adjustments for NOR in order to bring Accumulated Operating Result to zero for the Budget Year for each activity group. Exceptions to this policy are found in paragraph 090103H.

### **090105** Preparation of Materials

General guidance with regard to format and preparation of material is presented in Chapter 1. Chapter 9 provides additional specific guidance with regard to the back-up material required for the Fund and other unit cost budget areas.

### 090106 References

Chapter 1 provides funding policies to be adhered to include those that impact other appropriations and accounts. Chapter 2 provides guidance related to Military Personnel costs. Chapter 3 provides guidance related to Operation and Maintenance costs and Chapter 8 provides guidance related to Real Property Maintenance and Minor Construction.

### 0902 BUDGET FORMULATION

### 090201 Purpose

This section provides guidance for preparation and submission of fall budget and execution review estimates for the Defense Working Capital Funds (DWCF)

### 090202 General

A. Copies. Numbers of copies of the required materials to be submitted with the annual budget estimates are identified in Chapter 1. *Electronic version of individual activity group budgets will be available for download from your web site plus a copy made available to the OUSD(C) Program and Financial Control Directorate. Any additional copies required will be included in the Budget Call.* An execution review will be conducted when approved by DoD(C).

B. Classification. The DWCF justification books prepared by the Components are to be unclassified. Any classified exhibits will be submitted under separate cover.

C. Formats. Exhibits will be submitted on  $8-1/2 \times 11$  inch paper, with 3 holes punched along the 11-inch side. Minor variations in format to facilitate automation must be approved by OUSD(Comptroller) prior to September 1. Provide written request for variations to the Director for Revolving Funds no later than August 1. The response to the request will be forthcoming within 10 working days.

D. Automated Requirements. Consistent with the guidance contained in paragraph 010505, the DWCF budget estimates will be entered into the Budget Review System (BRS). BRS entries are in obligations.

1. DWCF Operating Budgets will be entered into the BRS as new obligations. However, the hard copy submission should reflect costs with a correlation provided of the relationship between obligations and cost.

2. DWCF Capital Budgets will be entered into the BRS as obligations regardless of program year. Do not enter into the BRS the program year totals. However, the hard copy submission should reflect the full costs of the project or item with Exhibit Fund-9c providing the correlation between the program and obligations.

3. Enter estimates of civilian full-time equivalents (FTEs) for civilian personnel data and military end strength for military personnel data.

4. During the budget review, the alternative estimate contained within Program Budget Decisions will be expressed as obligations, FTEs for civilian personnel, and end strength for military personnel, and will adjust the BRS. Program Budget Decisions will also, based on the proper correlation provided by the Components, contain compatible cost adjustment summaries to be used for rate and price adjustments and for adjusting financial statements used for budget justification.

### 090203 Supply Management Activity Groups

A. The methodology formerly contained in DoD Instruction 4140.24, "Requirements Priority and Asset Application for Secondary Items," will be used to develop budgetary requirements until updated. Stratification products will be submitted on a routine basis. A copy of the transition from the stratification to the budget will be provided for each wholesale division.

B. The following statements/tables/exhibits are prescribed for the supply management activity groups of the Fund.

|         |                                                        | OSD/OMB<br>Budget | Backup to<br>Pres Budget | President's<br>Budget | Execution<br>Review |
|---------|--------------------------------------------------------|-------------------|--------------------------|-----------------------|---------------------|

C. Definition of Terms Used in Supply Management Activity groups

<u>Acquisition Lead Time</u>. The interval in months between the initiation of procurement action and the receipt into the supply system of the production model (excludes prototypes) purchased as the result of such actions. Acquisition Lead Time is composed of two elements, production lead time and administrative lead time.

Administrative Lead-Time. That portion of the procurement lead-time that begins with the identification of the need to buy and the awarding of the contract.

<u>Allocation</u>. Under the appropriations act, direct funds may be appropriated to the DWCF; therefore, obligations may be made against DWCF to procure war reserve material inventory. Obligation authority for Mobilization purposes should be separately identified in annual funding documents. Obligations shall be separately accounted for and reported as mobilization and operating.

Beginning of Period (BOP, BP). The start of a specified fiscal year normally on October 1 used to determine the opening "snapshot" status of resources.

### Capitalized Inventory.

On-hand and on-order inventories of supplies funded by other appropriations and funds are considered as contributed capital as of the date when management responsibility for the items is undertaken.

<u>Capitalization</u>. The process whereby the Fund assumes management responsibility and ownership without reimbursement for inventories financed from other DoD appropriations or funds.

<u>Commitment</u>. A firm administrative reservation of funds, based upon firm procurement directives, orders, requisitions, authorizations to issue travel orders, or requests which authorize the recipient to create obligations without further recourse to the official responsible for certifying the availability of funds. The recording of a commitment reserves funds for future obligations.

<u>Contingency Retention Stock</u>. That portion of the quantity of an item excess to the Approved Acquisition Objective and for which there is no predictable demand or quantifiable requirement and which normally would be allocated as potential reutilization stock, except for a determination that the quantity will be retained for possible contingencies.

<u>Cost of Goods Sold (COGS)</u>. COGS represents the latest acquisition price or the latest repair price of the items sold at the standard or exchange price respectively. This matches the sales revenue in one period with the transactions affecting costs, which may have occurred in several previous periods. COGS is not affected by surcharge rates, obligations for replenishment, or net outlays. COGS is the essential baseline to establish prices.

<u>Decapitalization</u>. The transfer of Fund inventories to other appropriations or funds without reimbursement.

<u>Demands</u>. An indication of a requirement (requisition, request, issue, repairable generation, etc.) for issue of serviceable material. Demands are categorized as either recurring or nonrecurring and are also referred to as orders. Demands for repairable items should indicate whether or not a carcass will be returned.

<u>Direct Appropriations</u>. Amounts appropriated by the Congress to the Fund for war reserve material, Defense Commissary Agency, or other purposes.

<u>Economic Retention Stock</u>. That portion of the quantity of an item greater than the Approved Acquisition Objective determined to be more economical to retain for future peacetime issue than to dispose and satisfy projected future requirements through procurement or repair. To warrant economic retention, items must have a reasonably predictable demand rate.

End of Period (EOP, EP). The last day of a specified fiscal year normally on September 30 used to determine the closing status of resources.

Exchange Price. This is the price charged to customers exchanging a repairable item (DLR) for a serviceable one (new or repaired). Equates to the latest repair price plus wash out costs per item plus the surcharges necessary to recover other *operating* costs in the supply management activity group.

Expendable Supplies and Material. Supplies which are consumed in use, such as paint, fuel, cleaning, preserving materials, surgical dressing, drugs, and medicines, etc., or which lose their identity in use, such as spare parts, etc. They are sometimes referred to as consumable supplies and material.

<u>Initial Spare and Repair Parts</u>. Those spares and repair parts introduced through the provisioning process to sustain material systems programmed operations until requirements are forecast based on actual demands (i.e., replenishment).

Insurance Item. A non-demand-based stocked essential item for which no failure is predicted through normal usage. However, if a failure were to be experienced or a loss occur through accident, abnormal equipment or system failure, or other unexpected occurrence, lack of replacement would seriously hamper the operational capability of a weapon system.

<u>Inventory (Supply)</u>. An aggregation of material (supplies, equipment or end items) which are maintained for the primary purpose of issue to replace a failed, lost, or consumed item, or to provide initial stockage or stock replenishment to supported or supporting units or activities.

• Consumer Level of Inventory: An inventory, usually of limited range and depth, held only by the final element in an established supply distribution system for the sole purpose of internal consumption. Inventory at the consumer level is normally no longer considered Fund inventory.

• Intermediate Level of Inventory: An inventory between the wholesale and consumer levels, regardless of funding source.

• Wholesale Level of Inventory: Inventory, regardless of funding sources, over which the inventory manager at the inventory control point level has asset knowledge and exercises unrestricted asset control to meet worldwide inventory management responsibilities.

### Inventory Cost Categories

• <u>Operating Costs</u>, other than initial purchase of war reserve material, consist of orders placed, contracts awarded, and similar transactions which legally encumber the government to a specified future outlay of funds.

• <u>Mobilization Costs</u> cover fiscal year New Budget Authority to procure items with funds provided specifically for war reserve stocks. These quantities of material are required to support approved force mobilization objectives. The approved force mobilization objective is the quantity required, in addition to peacetime assets normally available on any given date, to equip and support the approved force structure in accordance with current Defense Guidance.

<u>Numeric Retention Stock</u>. Formerly, the quantity of an item in excess of all identified requirement objectives but for which disposal is currently infeasible or uneconomical or for which a management decision has been made to retain stock in the supply system. This category of stock is no longer valid.

Latest Acquisition Cost (LAC)). The price paid for each item the last time it was purchased from a supplier (latest invoice price), unless the last purchase is not a representative purchase. Can be based on an earlier buy if the latest purchase is considered non-representative. Does not include any surcharges or inflation factors.

<u>Numeric Stockage Objective (NSO) Item</u>. A non-demand-based, stocked, essential item for which, although failure may be predicted, the probability of demand is so low that it does not meet the stockage criteria at a given activity and, as a demand-based item, would not be stocked. Since the lack of a replacement item would

seriously hamper the operational capability of a weapon or weapon systems, the item is therefore stocked; but as non-demand-based. Also included in this category are:

• Items needed to support particular programs of a nonrecurring or sporadic nature (e.g., set assembly, non-repetitive overhaul programs) where re-procurement is not required once the particular program has been completed.

• Items that are procured on a life-of-type basis or which are "bought out" at the termination of a production program.

• Items that are not fully consumed during a one-time or non-repetitive program but which should be retained for possible future need on a similar program.

Other War Reserve Material Requirements. The total war reserve material requirement less the sum of the pre-positioned war reserve requirements.

<u>Outlays</u>. Checks issued or other payments made by the government for goods and services received. Gross outlays are equal to the cumulative amount of disbursements made for the fiscal period to date. Net outlays are equal to gross outlays less the cumulative amount of collections received for the fiscal period to date.

<u>Peacetime Operating Level of Supply</u>. The quantities of material required to sustain operations in the interval between requisitions and the arrival of successive shipments. These quantities should be based on the established replenishment period (monthly, quarterly, etc.).

<u>Pre-positioned War Reserve Material Requirement (PWRMR)</u>. That portion of the war reserve stocks required to be on hand on M-Day which approved Defense Guidance dictates be reserved and/or positioned at or near the point of planned use or issued to the user prior to hostilities, to reduce reaction time and to assure timely support of a specific force/project until replenishment can be effected.

<u>Price Stabilization</u>. The policy through which the standard price of each cataloged item shall remain constant throughout each fiscal year except for correction of errors.

<u>Production Lead Time</u>. The time interval between the letting of a contract or the placing of an order and the first significant receipt into the supply system of material purchased as a result of such action.

<u>Provisioning Item</u>. Spares and repair parts required as both demand and non-demand-based levels in the supply system to support new fielding of end items.

<u>Provisioning Item (Outfitting)</u>. That portion of Provisioning consisting of items for which a sale is anticipated to an appropriated outfitting (buy-out) account.

Reclassification. The transfer of assets between inventory strata.

<u>Repair Cycle Level</u>. The quantity of repairable items required to sustain operations during the repair cycle that commences when a maintenance replacement takes place and ends when the unserviceable asset is returned to stock in a serviceable condition. This includes such stages as removed, awaiting shipment, in transit, in pre-repair screening, in process of repair, and being returned to serviceable stock. Any extraordinary awaiting-parts delays and any intentional extended-transit, storage, or repair-process delays should be excluded from the repair cycle.

<u>Repairable Item</u>. An item of supply subject to economical repair and for which the repair (at either depot or field level) is considered in satisfying computed requirements at any inventory level.

<u>Requisitioning Objective</u>. The maximum quantities of material to be maintained on hand and on order to sustain current operations and core war reserve. It will consist of the sum of stocks represented by the operating level, safety level, and the order and shipping time or procurement time, as appropriate.

<u>Retail Inventory</u>. Supplies/material held below the wholesale level (e.g., the intermediate and consumer levels of inventory).

<u>Replenishment Spare and Repair Parts</u>. Those spare and repair parts required to re-supply or increase initial stockage of reparable or consumable parts in support of fielded items.

<u>Safety Level of Supply</u>. The quantity of material required to be on hand to permit continuous operations in the event of minor interruption of normal replenishment or unpredictable fluctuations in demand.

<u>Standard Price</u>. The price customers are charged which, for DoD ICP managed item (excluding subsistence), remains constant throughout a fiscal year except for the correction of significant errors. The standard price is computed based on various factors which include the latest acquisition cost of the item plus surcharges to recover costs for transportation; inventory loss, obsolescence and maintenance; depreciation; and supply operations. Customers are ultimately charged exchange price for DLRs unless the carcass is not returned. If the carcass is not returned, the customer is charged the full standard price.

<u>Stockage Objective</u>. The maximum authorized quantity of material on hand to sustain current operations. It consists of the sum of stock represented by the operating level, the safety level, the repair cycle level, and authorized additive levels.

<u>Stratification Process</u>. A uniform portrayal of requirements and asset application that is a computergenerated simulation of actions causing changes in the supply position, e.g., procurement, repair, receipt, issue, terminations, and disposal of material.

<u>Surcharge</u>. Factors added to the latest acquisition cost or repair cost price of an item to arrive at the customer's standard or exchange price. Surcharges will include: (1) transportation, for such costs as deliveries from production site to points of use or storage; (2) inventory

obsolescence and loss, for the costs of pilferage, damage, deterioration, physical inventory shortages and excess; (3) inventory maintenance; (4) supply operations support costs; (5) inventory augmentation; (6) depreciation; and (7) DLR carcass attrition costs, if applicable.

<u>Unfunded Requirement</u>. The difference between the spare and/or repair parts requirement computed in accordance with DoD Policy (such as, DoDI 4110.24, DoDI 4140.39, and DoDI 4140.24) and the amount of that requirement that is funded.

<u>Unobligated Commitments</u>. Amount of commitments incurred this fiscal year to date which have not resulted in obligation at the end of the report period.

<u>War Reserves</u>. War reserves are stocks of material amassed in peacetime to meet the increase in military requirements forecasts contingent on an outbreak of war. War reserves are intended to provide the interim support essential to sustain operations until re-supply can be effected.

D. Budget Submission Formats are provided in Section 0904.

.

### 090204 Non-Supply Activity Groups

A. The following statements/tables/exhibits are prescribed for the remaining activity groups of the Fund other than Supply Management. Exhibits Fund-7a and Fund-7b are to be included for all activity groups that use direct labor hours in their rate computation. Exhibit Fund-8b is to be included only for the Transportation activity groups.

### B. Definitions Used in Non-Supply Activity groups

<u>Maintenance Depot</u>. Industrial facilities of the Defense Business Operations Fund including; Army and Marine Corps Multiple Commodity Maintenance Depots, Ordnance Depots, Arsenals, Navy and Air Force Aviation Depots, Shipyards, and DLA Industrial Plant Equipment Repair Sites.

<u>Direct Labor Hour Rate</u>. The fully burdened cost per direct labor hour used as the initial basis for establishing stabilized rates The direct labor hour rate is computed by dividing the sum of all labor, non-labor, and material direct, indirect, general and administrative expenses projected to be incurred by the depot (or other activity group) during the fiscal year, by the total number of direct labor hours (or other outputs) anticipated to be accomplished during the fiscal year.

<u>Direct Labor Hour (DLH)</u>. DLHs, sometimes referred to as Direct Product Standard Hours, are the number of hours required to perform the direct work on a product, or to perform a billable service for customers. Direct labor hours generally include the hands-on maintenance, repair, overhaul, test, and related direct production effort that follows the established sequence and content of work necessary to accomplish the billable job. Direct Labor Hours do not include the support work or man-hours identified as either indirect or general and administrative in nature. DLHs are estimated for budget purposes, by product or service, based on industrial or management engineering standards developed using time, method, and motion studies, historical usage averages, or professional estimating and evaluation (E&E) techniques.

<u>Fixed Price Catalogs</u>. Depot Maintenance activity groups may maintain a catalog of products and services (major end items, components, depot level repairables, modification kits, etc.) with their associated rework, repair, overhaul, installation, etc., based on the Standard Depot Level Maintenance (SDLM) or Planned Depot Maintenance (PDM), work package Direct Labor Hours (DLHs). The DLHs associated with the product or service multiplied by the stabilized composite rate for a fiscal year constitutes the firm fixed price for the catalog item. Catalogs may be maintained in hard copy or in electronic data bases accessible to customers.

<u>Total Cost of Goods Sold</u>. Refers to the total costs incurred in the operating budget of the activity group associated with the revenue planned to be recognized for the budgeted fiscal year.

C. <u>Component Estimates of Rates</u>. Each Activity group will include proposed new customer order rates for each budget year in accordance with paragraph 090104. The rates will be established during the budget review process and will remain stabilized through the execution year.

1. Total direct labor hours (DLHs) required to accomplish the budget year's work program will be identified by the Component in their OSD/OMB submission. The work program is the total number of DLHs planned to be executed in support of known and projected customer requirements during execution of the budget.

2. Total costs estimated to be incurred in execution of this work load will also be projected. This process should include application of general inflation, pay raise, and other inflation or DoD(C)-directed price adjustments, as specified in the DoD(C) budget formulation Budget Call. The sum of all these costs (including supplies, materials, pay, depreciation, and other charges, etc.) is the estimate of the total cost of goods sold.

3. Customer requirements must be projected and separately identified to include: current (on hand) unfilled customers orders expected to be executed during the budget year (carry-in or backlog), and work in process that will be completed; new orders anticipated to be accepted and executed during the budget year; and orders anticipated to be accepted but will not be executed during the year (anticipated carry-over).

4. Work load mix, availabilities, and production schedules must be assessed, along with any other factors that may impact program outputs such as policy changes, productivity initiatives, planned work load competitions, plant capacity, and other factors. Based on this analysis the total anticipated work load both by major work load category (or product), and the associated Direct Labor Hours needed to accomplish this work during the program year will be identified and reported.

5. Total costs required to execute the planned program to produce the outputs in the approved execution program will be identified and reported in budget exhibits, with significant changes from the prior year highlighted in the Exhibit Fund-2, Changes in the Costs of Operations.

6. To determine program financing requirements and initial rates, the estimate of the total cost of goods sold will be divided by the programmed output (total Direct Labor Hours), to identify an initial cost per direct labor hour.

7. The number of DLHs associated with carry-in work load (unfilled customer orders on hand at the start of the year), times the prior year stabilized rate (rate in effect when the carry-in orders were accepted) will be identified. Since this work load is already financed, its DLHs and associated dollars will be subtracted from the FY total DLHs and Cost identified in step 5 above.

8. The orders anticipated to be accepted but not recognized as revenue during the fiscal year (the carry-over) will be identified in the same manner as the carry-in orders. The initial cost per direct labor hour for these carry-over DLHs (set in step 5 above) will be inflated in accordance with DoD(C) guidance for the following fiscal year when the work will actually be executed. The value of this additional inflation cost for these carry-over DLHs will be added to the total program base cost identified in step 4.

9. The revised base cost from step 7 above, plus the additional inflation cost for carry-over orders will be divided by the total number of DLHs associated with new program orders planned to be accepted whether scheduled to be worked or carried-over to the next fiscal year (all orders planned for acceptance or execution in the fiscal year program except unfilled customer orders that were carried-in to the fiscal year). The resulting cost per direct labor hour should be used as the basis for the DoD Components' proposed initial rate. The proposed initial rate is adjusted for prior year gains or losses necessary to achieve an end-of-year AOR of zero for the budget year. The end result is a proposed New Customer Order Stabilized Rate.

10. Components may develop, report, and use subsidiary rates (engine rate, airframe rate, missile rate, etc.) as long as these subsidiary rates are rolled into a single composite rate for activity group rate setting.

### 090205 Submission Requirements

A. All businesses, except Supply Management, operating within the Fund or under Unit Cost will provide a <u>Summary by Component</u> in table form. For part I, each Component will provide a summary *table* for each of its Activity Groups.

<u>Component Activity Group Narrative Analysis</u> - For each activity group, the Component will submit a narrative analysis that, as a minimum, addresses the following areas: a general description of the activity group, its outputs and customers, and significant changes in the nature of the business over the period encompassed by the President's budget submission; an analysis of the budget statements covering revenue and expenses, costs of operation, and the statement of financial condition. The analysis should focus on the changes from year to year and how these changes are related to work load and productivity trends; an analysis of any special business-type schedules requested in the Budget Call letter; and a discussion of work load and manpower trends, productivity initiatives/cost reductions, unit costs, and customer prices incorporated in activity group budgets.

B. Section 090203 listed submission requirements for Supply Management and Section 090204 listed submission requirements for the remaining activity groups.

C. Budget Submission Formats are provided in Section 0904.

D. All DWCF BES budgets will be submitted electronically to the OUSD(C) Directorate for Program and Financial Control. Any additional submission instructions will be provided in the Budget Call Letter.

#### 0903 CONGRESSIONAL JUSTIFICATION/PRESENTATION

#### 090301 Purpose

This chapter provides the policies and procedures to guide the development of budget justification and supporting narrative to be submitted by Components to the OUSD(Comptroller) in development of congressional justification material. The OUSD(Comptroller) will prepare the executive overview. Each Component will prepare a separate volume including their operating and capital budgets for direct submission to the Congress following review and approval by the OUSD(Comptroller). The Defense-wide volume material will be prepared by each Defense Agency and submitted to DoD(C), Revolving Funds Directorate, for review and approval prior to submission to DLA. DLA, with appropriate support from the submitting organization, will assemble the volume containing Defense-wide businesses and supervise its printing and distribution.

#### 090302 Organization of Justification Books

#### A. Background

1. The OSD/OMB budget review focuses on a set of business-type schedules as a means of evaluating progress towards meeting cost and productivity targets, developing (with Component financial management personnel) unit cost goals by activity group and setting prices for the budget year(s).

2. The Budget Call for budget justification and supporting narrative will request that selected Fund schedules be updated for inclusion in congressional justification material.

3. All data submitted for the President's budget should be consistent with approved costs, work load and productivity assumptions, customer prices, and unit costs. Any deviation from the approved level must be completely justified and coordinated with the appropriate Revolving Fund Directorate activity group analyst.

4. The justification books submitted to Congress are to be unclassified, will be in one volume organized into three sections: Component Overview, Operating Budget, and Capital Budget. All Congressional Budget Material will be submitted electronically and be available on the Services unclassified Web Site. Defense Working Capital Fund Activity Groups (DLA, DSS, DeCA, etc.) will submit an electronic version of their budget to OUSD(C) Program and Financial Control Directorate.

5. Justification books should follow the guidance contained in the DoD Financial Management Regulation, volume 2, paragraph 010401 for preparation of budget materials to Congress.

6. Financial exhibits required by Chapter 9 will agree with the Annual Financial Statements required by the Chief Financial Officers Act of 1990. Proposed deviations from data reported on the Annual Financial Statements are to be coordinated with the Revolving Funds analyst responsible for the affected activity group.

#### B. Component Operating and Capital Budgets

1. <u>Component Overview</u>: This volume summary section and other Component justification will be submitted to Congress during February. The Component summary will consist of individual Component inputs in the following main sections:

a. <u>Component Activity Group Narrative Analysis</u> - For each activity group, the Component will submit a narrative analysis that, as a minimum, addresses the following areas: a general description of the activity group, its outputs and customers, and significant changes in the nature of the business over the period encompassed by the President's budget submission; an analysis of the budget statements covering revenue and expenses, costs of operation, analysis of government equity, and the statement of financial condition. The analysis should focus on the changes from year to year and how these changes are related to work load and productivity trends; an analysis of any special business-type schedules requested in the Budget Call letter; and a discussion of

#### **DoD Financial Management Regulation**

work load and manpower trends, productivity initiatives/cost reductions, unit costs, and customer prices incorporated in activity group budgets.

b. <u>Budget Statements</u> - The Component will submit summary budget statements requested to support the external budget submission.

c. <u>Special Schedules</u> - For the Supply Management activity groups, the narrative must include a section on work load and economic assumptions. These assumptions must include the following data for the prior, current, and budget fiscal years: items managed (#), requisitions received (¤), receipts (#), issues (#), contracts executed (#), purchase inflation (%), and supply material availability (%).

2. <u>Component Operating Budget</u>: For each activity group, the Component will submit a narrative description that explains the activity group as well as the budget statements indicated in Section 0904.

# 0904 ACTIVITY GROUP ANALYSIS FORMATS

# 090401 Purpose

The formats provided on the following pages reflect guidance presented in previous sections of this chapter. These formats should be adhered to unless modified in a submission budget call.

# 090402 Defense Working Capital Fund Exhibits

| SM-1 Supply Management Summary                                                                                | . 33  |

# INSTRUCTIONS FOR PREPARATION OF SUPPLY MANAGEMENT SUMMARY (EXHIBIT SM-1)

The purpose of the SM-1, Supply Management Summary by Division, is to provide summary justification for the Service or Defense Agency request. Instructions for preparation of SM-1 and SM-1a follow:

1. Prepare the SM-1 for each year being reviewed.

2. Dollars in millions and tenths of a million.

3. Both approved and proposed should be shown if they differ.

4. Peacetime Inventory will reflect the numbers shown on SM-2, line 6C.

5. Net Customer Orders will reflect the numbers shown on SM-2, line 2B.

6. Net Sales will reflect the numbers shown on SM-2, line 1.

7. <u>Obligation Targets</u> will reflect the targets shown on SM-2, lines 3A, 3B, 3C, 3D, and 3E. An obligation target total (*excludes capital obligations*) will be shown and be equal to line 3F of the SM-2. Only obligations will be shown on this form. Any other cost data, such as depreciation, will not be shown on this form.

8. Other Obligation Target includes appropriated dollars for any purpose other than mobilization.

9. Commitment Targets will reflect the numbers shown on SM-2, line 4.

10. Target Total will reflect the numbers shown on SM-2, line 5.

Page 1 of 3

# INSTRUCTIONS FOR PREPARATION OF GENERAL NARRATIVE JUSTIFICATION (EXHIBIT SM-2)

The purpose of the <u>General Narrative Justification, SM-2</u> is to provide the basic justification for the budget request. Instructions for preparation of SM-2, General Narrative Justification follows:

1. Prepare a SM-2 for each supply management material division except for the Defense Logistics Agency and the Army, which may submit a consolidated statement for the retail divisions for the President's budget and the apportionment and midyear review. No summary SM-2 is required. A SM-2 is not required for a supply operations division.

2. Dollars in millions and tenths of a million except the Air Force Academy Division exhibits will be prepared in thousands.

3. For <u>Net Sales</u> use reimbursable issues minus stock fund credits and allowances (line 1). Amount entered will agree with the amount entered on SM-1.

4. For <u>Gross Customer Orders</u> (Demands) use gross sales (reimbursable issues) plus or minus the change (from the prior year) in unfilled orders (line 2A). An unfilled order is an unsatisfied requisition, which upon issue of the material will become a sale. For <u>Net Customers Orders</u> (line 2B) subtract credits and allowances.

5. <u>Obligation Targets</u> will be divided into Operating less Repair of DLRs (line 3A), Repair of DLRs (line 3B), Provisioning (line 3C), Mobilization (War Reserves) (line 3D), and Other (line 3E). Other obligations include appropriated dollars for any purpose other than mobilization. These categories may be subdivided if approved by OSD. The total requested by division will reflect the total obligations shown on the Program and Financing Statement for the OSD/OMB Review and the President's budget *for Operating Budget*. See definitions of terms Section 090203, Supply Management Activity groups, for description of categories.

6. <u>Commitment Targets</u> will provide an administrative reservation of authority which when approved authorizes the supply management activity group to incur additional obligations on a dollar-for-dollar basis if customer orders (demands) increase without the requirement for a revised apportionment and reapportionment request. Commitment targets will also provide for normal unobligated end-of-year commitments (line 4).

7. Total Authority (line 5) is the total of obligations (line 3F) and commitment target (line 4).

8. <u>Operating Inventory EOP</u> (End Of Period) is the total applicable peacetime on hand and in transit inventory at standard price (include any provisioning inventory on hand or in transit) (line 6C). Peacetime inventory EOP (End Of Period) is the total Operating Inventory (line 6A) and Other Inventory (line 6B). <u>Mobilization Inventory</u> is shown on line 7. <u>Total Inventory</u> is line 6C plus line 7.

9. <u>General Description</u> (item 9) is a short narrative describing what the supply management division covers and supports.

10. <u>Number of Items Managed</u> (item 10) should provide quantitative data and narrative explanation of major changes.

Exhibit SM-2 Justification by Division Page 2 of 3 11. <u>Measures of Effectiveness</u> (item 11) should provide quantitative data and narrative explanation of major changes in measures of supply effectiveness. The following measures of effectiveness will be used:

Percent stock availability (fill rate)--The number of units requisitioned that are immediately available expressed as a percent of the total units demanded for the period. This percent should be shown for both the wholesale and the retail level of supply.

Requisition delay time--The length of time between the date a supplier receives a requisition for an item and the date he ships the item. This should be expressed as a number of days for all stock funded items.

Mission capable rate supply--The number of weapon systems either fully or partially mission capable because of a stock funded item expressed as a percent of the total number of weapon systems. This measure should be shown for each major weapon system.

Quality Deficiency Reports (QDRs)--This measures the percentage of discrepancies in customer receipts in comparison to total item issuances by the ICP (in response to customer requisitions). It is a measure of customer satisfaction.

QDR Processing Time--This measures the time interval from ICP receipt of QDR to the issuance of corrective action. It is a measure of timeliness and customer satisfaction.

12. <u>Operating Tempo Assumptions</u> (item 12) should provide quantitative data such as flying hours (by aircraft type), steaming days, programmed overhauls, training days, etc., which may impact the supply management division's requirements.

13. <u>Narrative Explanation</u> (item 13) should cover an explanation of major changes between fiscal years as well as in the relationship between sales, orders (demands), and obligations.

Exhibit SM-3a Operating Budget Page 2 of 5

## INSTRUCTIONS FOR PREPARATION OF OPERATING BUDGET REQUIREMENTS (EXHIBIT SM-3a)

The purpose of the <u>SM-3a</u>, <u>Operating Budget Requirements</u> is to provide backup information to support the obligations. Instructions for preparation of the SM-3a:

1. Prepare an SM-3a for each supply management material division except for the Defense Logistics Agency and the Army, which may submit a consolidated statement for the retail divisions. An SM-3a is not required for a supply cost of operations division. For the requested columns for the current year, display estimated actuals. For budget year and budget year plus one display revised request.

2. Dollars in millions and tenths of a million except the Air Force Academy Division exhibits will be prepared in thousands.

3. See Section 090203, Supply Management, for definitions of inventory categories.

4. <u>Operating Requirements</u> (line A1E) should include the total requirements for new customer orders (demands), unfilled orders at the beginning of the period, operating inventory requirement to replace sales, and others (listed and explained as necessary) at standard price.

5. <u>Mobilization Requirement</u> (line A2) should be the funded requirement as of the end of the period. Show unfunded mobilization requirement on line D7.

6. Total Inventory Requirement (line A4) should be the total of lines A1E, A2, and A3.

7. <u>Applicable Resources</u> should be shown in Section B.

8. <u>Requirement (Standard Price)</u> is shown on line C1. Line C1 is line A4 minus line B4. Line C2 is the <u>surcharges</u> amount included in line C1.

.9. Line D1, <u>Funding Requirement at Cost</u>, is line C1 minus line C2. It includes obligations plus commitments for inventory requirements. Lines D2 through D4 are other obligation requirements for non-inventory requirements. Line D5 is the total obligation requirement (the sum of D1 through D4). Line D6 is any unfunded operating requirement included in D5. (Explain in narrative.) D7 will reflect line 4C on SM-3C. D8 will reflect line 6B on SM-3a.

10. Line F5 is the total obligation target, line D5 minus lines D6 through D8 and E, and will agree with SM-2 (line 3F) total obligation target.

11. <u>Basis of Operating Objectives</u>. (Section G) This section contains an analysis in financial terms of peacetime on-hand and on-order objectives for the end of the past year, current year, and the budget year. Objectives will be based on subsequent fiscal year estimated demands, and will be constructed by element (e.g., safety levels, production lead-time, review cycle, repair cycle, and the like). Column 1 will reflect the actual end-of-period objectives for the past fiscal year.

The purpose of this exhibit is to portray statistically computed supply inventory objectives that will be used to test the reasonableness of the total inventory objectives computed by means of the simulation-of-buy stratification process. Substitute formats may be used provided they present substantially the same information, and provided that prior approval for substitution is obtained from the Director for Revolving Funds, USD(C).

Exhibit SM-3 Operating Budget Page 3 of 5 The following is an explanation of specific entries.

a. <u>Safety Level</u>. (Days/Dollars) This entry will reflect the relationship between the dollar value of issues/transfers, and the dollar value of the safety level, to the average number of days of supply contained in the safety level. Requirements for numeric stockage objectives are excluded. Provision is made for more than one echelon of supply by permitting the safety level at the highest echelon to consider, in addition to issues, transfers to lower echelons. This section is applicable to both repairable and consumable items. The narrative should describe significant changes in safety level requirements or average days from one fiscal period to the next period.

b. <u>Lead-time</u>. (Days/Dollars) The requirement to support demands (requiring replacement through acquisition) over the acquisition lead-time period of procurement or order and ship time, depending on the echelon of supply, is included in this entry. No lead-time requirement is to be included for issues replaced through the repair cycle or for issues that will not be replaced. Therefore, these types of issues are subtracted from gross demands in the computation. The narrative should describe significant changes in lead-time requirements or average days from one fiscal period to the next period.

c. <u>Procurement Cycle/Operating Level</u>. (Days/Dollars) The procurement cycle applies to the first echelon of supply. This requirement supports demands from the end of the fiscal year until the next scheduled procurement. For each fiscal year it represents the dollar value of that portion of the procurement cycle which requires funding during that fiscal year. The operating level applies to the second echelon of supply. The operating level requirement support demands during the interval, between arrival of successive replenishment shipments. Only one-half of the dollar value of the operating level requirement is included here since it is assumed that on the average one-half of this requirement would be on order at any given period in time.

No procurement cycle or operating level requirement is to be included for issues replaced through the repair cycle. The narrative should describe significant changes in procurement cycle/operating levels or average days from one fiscal period to the next period.

d. <u>Repair Cycle</u>. (Days/Dollars) This entry will consist of the requirement for material to be on hand at the end of the fiscal year to accomplish repair operations during the repair turnaround period. This will include the time interval required to generate, through returns, sufficient stocks of an item to warrant an economical repair work order (accumulation time), and the time interval between approval of a work order for repair until the item is reclassified as serviceable (repair lead-time). The repair cycle will consist of the time interval between pickup of the unserviceable item on inventory control records and the time when the item is reclassified as serviceable. In those instances where asset visibility has been extended below the wholesale (first) echelon of supply, repair cycle requirements should include the full range of funding needed to support the visible portions of the repair cycle as first echelon requirements process does not comprehend all repair cycle requirements within the first echelon. The narrative should describe significant changes in repair cycle requirements or average days from one fiscal period to the next period.

e. <u>Other Operating Inventory Objectives</u>. (Days/Dollars) Objectives included here will be limited to those that cannot be properly assigned to any of the objectives identified above. The narrative analysis will include appropriate data to support each objective listed under this classification. This entry excludes requirements/funding for peacetime inventory augmentation or mobilization. The narrative should describe significant changes in other operating inventory objectives from one fiscal period to the next period.

Exhibit SM-3 Operating Budget Page 4 of 5 f. <u>Total Operating Inventory Objective</u>. (Days/Dollars) This entry is the sum of total computed on-hand and on-order peacetime operating inventory requirements as of the end of each fiscal period. (Sums of lines G1 through G7.)

12. <u>Narrative</u>. This provides a narrative explanation of significant changes. Also, this narrative provides a presentation of the adjustment required to the basic stratification tables prescribed by DoDI 4140.24 in order to adjust the basic data or to add data not considered. A detailed explanation of operating obligation requirements in excess of orders will be provided. The narrative should describe significant revisions or additions to the stratification tables that provide the basis for budget review and analysis. Individual statements for each budget submission should be prepared for each budget category.

## INSTRUCTIONS FOR PREPARATION OF OPERATING REQUIREMENT BY WEAPON SYSTEM (EXHIBIT SM-3B)

The purpose of the SM-3B, <u>Operating Requirement by Weapon System</u> is to provide a breakout of the operating obligation request by type of supply system action (procurement versus repair) and by weapon system or category.

1. For the OSD/OMB budget review, prepare SM-3B for each Service stock fund wholesale division that provides military spare parts. (This excludes fuel, medical/dental, subsistence, etc.). For each division, one Exhibit SM-3B should be prepared for each fiscal year (CY, BY1, and BY2).

2. Definitions.

a. Basic Replenishment consist of the sales replacement spares.

b. <u>Outfits</u> are initial outfittings to support a new weapon system or modification to an existing weapon system. This material is anticipated to be sold to an appropriated outfitting (buy-out) account that finances the lay-in of authorized allowances at the outfitting site.

c. <u>Special Programs</u> are instances where special management action is required, such as a Service initiative responding to abnormally high wear-out rates.

d. Basic Rework is repair obligations for sales replacement.

3. Dollars in millions and tenths of a million. Weapon systems, as defined by the applicable Service, may be aggregated into categories when individual systems are less than \$25 million. The Director for Revolving Funds will approve appropriate levels of aggregation. Common parts may be grouped by category such as radios or may be allocated to specific systems such as F-16 aircraft. Obligation authority requests for non-weapon system-related requirements such as reverse engineering and forging & casting must be separately identified.

4. Estimated data may be used and noted as such until accurate systems can be developed to provide accurate data.

5. This form will be prepared at latest acquisition cost or repair cost as appropriate.

Exhibit SM-3c By Division

# INSTRUCTIONS FOR PREPARATION OF MOBILIZATION REQUIREMENT (EXHIBIT SM-3C)

The purpose of the SM-3C, <u>Mobilization Requirement</u> is to provide a breakout of the funded and unfunded mobilization requirement.

1. Prepare SM-3C for each supply management division that has a mobilization requirement.

2. Dollars in millions and tenths of a million.

3. Provide for current year through FYDP. Only totals for each category (1 through 4) need be shown for FYDP years.

4. Show all data at cost.

5. See Section 090203, Supply Management, for definition of prepositioned. All other war reserve requirements will be included under sustaining.

6. The unfunded deficit is that portion of the total requirement for which no funds are available. The total requirement will encompass the minimum number of days specified in the Defense Guidance. Explain in narrative any constraints not due to funding.

#### **INVENTORY STATUS (EXHIBIT SM-4)**

The purpose of the <u>Inventory Status, SM-4</u> Exhibit is to show estimated inventory levels that will result from the proposed budgets and operating levels. Prepare SM-4 for each budget submission or review. This report shall be submitted for the prior fiscal year, the current fiscal year to date, the total current year, and the budget year for each supply management division. For each fiscal year, the form will be prepared at standard price. Line 7 will show the ending inventory converted to cost with discounting factors for repair cost and salvage value applied as appropriate. A consolidated summary for the total fund will be prepared for the OSD/OMB Review. The prior fiscal year and the current fiscal year to date exhibits shall reflect in column (1) the amount, at standard price, from supply management general ledgers used in preparation of fiscal and accounting reports. Amounts in columns (2), (3), and (4) may be statistically derived based upon related inventory stratification reports. Instructions for preparation of SM-4 Inventory Status at standard price are as follows:

1. <u>Inventory, BOP at Standard Price</u>. (Beginning of Period) Amounts of inventory on hand and in transit reported must equal amounts reported as of the end of the prior year. If not, explain any difference in a footnote. The Component must have title to all inventory listed here.

2. <u>Inventory, Repriced at New Standard Price</u>. Stratified inventory, valued at new standard price. Memorandum entry for amount due to price change (line 2B) and for change due to reclassification (line 2A) will be shown. Reclassification nets to zero in total column.

3. <u>Receipts</u>. Add the amount of inventory value on which title has passed or will pass to the reporting supply management division during the period of the report. Use standard price.

4. <u>Gross Sales</u>. Material sold to customer during the period of the report at standard price.

5. Inventory Adjustments.

a. <u>Capitalization (Net</u>). Report at standard price the inventory value of material capitalized or decapitalized during the period of the report. Show a net decapitalization with (-) preceding value.

b. <u>Returns from Customers for Credit</u>. Show the cumulative amount of material returned from customers on which title has passed to the reporting supply management division during the period of the report for which credit has been given. Use standard price.

c. <u>Returns from Customers without Credit</u>. Show the cumulative amount of material returned from customers on which title has passed to the reporting supply management division during the period of the report for which credit was not given. Use standard price.

d. <u>Returns to Suppliers</u>. Show as a negative number the cumulative amount of material returned to supplier during the period of the report. Use standard price.

e. <u>Transfers to Property Disposal</u>. Show the net amount of material transferred to/from the Defense Reutilization and Marketing Service (DRMS) on which title has been passed to DRMS. Use standard price.

f. <u>Issues/Receipts without Reimbursement</u>. Show the net cumulative amount of material issued or received without reimbursement during the period of the report. This item could include transfers from other divisions or material categories, etc., as required. Show net issued with (-) preceding value. Use standard price.

Page 2 of 3 EXHIBIT SM-4 Inventory Status g. <u>Other Adjustments</u>. Identify and report the amounts of other adjustments to inventory. Include all other adjustments to inventory such as adjustments to record for physical inventory count and extraordinary losses (fire, weather). Explain with footnotes if necessary. Show (+) or (-) as appropriate. Use standard price.

h. Total. Add 5a through 5g.

6. <u>Inventory EOP</u>. (End of Period) Report the amount of inventory available as of the end of the reporting period. Includes all on hand, in transit, work-in-process, and other stocks on which title is rested in the reporting stock fund division. Use standard price.

7. <u>Inventory EOP at Approved Valuation Method</u>. Convert the inventory at standard price in line 6 to latest acquisition cost. Then apply the discounting factors for repair cost and salvage value as appropriate. Provide breakout of Peacetime Other Inventory (column 4, line 6) value as economic retention, policy retention, potential excess, and other for OSD/OMB review only.

8. <u>Inventory on Order, EOP at Cost</u>. (End of Period) Report the amount of peacetime (operating and other) and mobilization undelivered orders (excluding in transit) for material outstanding at the end of the period.

Exhibit SM-5a Wholesale Only - Surcharge Calculation

9-50

#### INSTRUCTIONS FOR PREPARATION OF EXHIBIT SM-5a SURCHARGE COMPUTATION

The purpose of the SM-5a, Surcharge Computation Exhibit, is to show the surcharge elements for the wholesale divisions of supply management activity groups. This form will be prepared for each wholesale division. Each Service/Agency will provide a consolidated form for the sum of all wholesale divisions managed by that Service/Agency.

1. Components will provide the estimated surcharge and customer price changes on this form and the SM-5B, Customer Price Change, that will be reflected in the upcoming budget years to OUSD(C) by August 1. OUSD(C) will review these estimates and distribute pricing factors to all Components in seven working days after receipt of these products.

2. On line 1 of the form, enter net sales at cost for that wholesale division. If the division is consumable, the sales at cost should be at latest acquisition cost (LAC). For example, in estimating FY 2000 costs, FY 1998 contract prices plus FY 1999 inflation should be used. If the division is repairable, separate exhibits should be prepared for sales at standard price and sales at exchange price. For the estimated sales at standard price, the net sales reflected should represent sales at LAC. (Note: Since Air Force pricing computation modules can compute only forecast acquisition price, the Air Force must manually compute the difference between latest acquisition cost and forecast acquisition price and provide that computation for review with the rest of the exhibits required. That calculation of latest acquisition cost will be used as sales at cost in the Air Force budget exhibits). For sales at exchange price, the net sales reflected should represent sales at latest repair cost (LRC). For example, in setting FY 2000 prices, FY 1998 repair prices plus approved depot rate changes should be used. The surcharge elements described below should be allocated to sales at standard price or sales at exchange price. There should also be a composite exhibit for repairables that sums both the sales at LAC and LRC and the surcharge elements. For the Current Year (CY) the sales at cost should reflect the number approved in the President's budget for that fiscal year. This is the only form in which President's budget approved numbers are required. All other forms will reflect actual, estimated actual, or new projections as appropriate. For the BY1/BY2 the sales at cost should reflect the Components' best estimate of sales for that fiscal year including the approved inflation for that fiscal year only. On this line do not fill out the percent of sales column. For the composite supply management surcharge, the net sales at cost line will be comprised of a mix of consumable and repairable sales at LRC and LAC based on the estimated standard price and exchange price sales.

3. On line 2A enter obligations for supply operations approved in the President's budget for the CY less other supply operations obligations separately identified such as distribution depots obligations and transportation obligations. For the BY1/BY2 enter the estimated obligations for the budget year less obligations reflected under other categories. For the percent of sales column, divide the dollar amount in each category by the sales at cost in line one for each column. Inflation for each fiscal year should be included in the obligations cited for each surcharge element. At Component discretion, obligations for supply operations may be further broken down and displayed on this form.

4. On line 2B enter obligations to reimburse DLA distribution depots for receipts and issues approved in the President's budget for the PY and the CY. For the BY1/BY2 enter anticipated obligations to reimburse DLA distribution depots for receipts and issues. Work with DLA as you develop your rates to identify the number of receipts and issues and the price DLA plans to charge in estimating the budget year amount. During the budget review these estimates will be adjusted based on the budget decisions.

5. On line 2C enter the sum of obligations to reimburse DLSC, DAASO, and DRMS approved in the President's budget for the PY and the CY. For the BY1/BY2 enter anticipated obligations to reimburse DLSC, DAASO, and DRMS. *List the amounts applicable to each of these organization on lines 2C1, 2C2, and 2C3*. Work with DLA as you develop your rates to determine the amount of funding required to support these activities in the budget year. During the budget review these estimates will be adjusted based on the budget decisions.

Page 2 of 3

Exhibit SM-5a Wholesale Only - Surcharge Calculation

6. On line 2D enter obligations to reimburse DFAS for accounting services approved in the President's budget for the PY and the CY. For the BY1/BY2 enter anticipated obligations to reimburse DFAS. Work with DFAS as you develop your rates to identify the obligations required to reimburse DFAS for the budget year. During the budget review these estimates will be adjusted based on the budget decisions.

7. On line 2E enter depreciation expense approved in the President's budget for the PY and the CY. For the BY1/BY2 enter anticipated depreciation expense.

8. On line 2F enter the obligational impact associated with the approved inflation related to material for the PY and CY. For the BY1/BY2 inflation should be calculated based on several factors: (1) actual experience over production lead-time preceding the CY setting of prices; (2) approved inflation over the production lead-time preceding the CY setting of prices; and (3) a combination of these two factors based on an estimation of the gain/loss resulting from the inflation estimate in prior year price setting. Inflation for supply operations and other surcharge elements should be included within the supply operations element listed above.

9. On line 2G enter the obligations required to replace items that have either been lost, pilfered, or have become obsolescent approved in the President's budget for the PY and the CY. For the BY1/BY2 enter anticipated obligations associated with replacing items that have become lost or obsolete. If the carcass return rate is less than 100 percent for repairables, obligations required to replace items should be included in this category.

10. On line 2H, for repairable items only, enter the obligations required to replace items that have attrited through the repair process approved in the President's budget for the PY and the CY. For the BY1/BY2 enter anticipated obligations associated with replacing items that have attrited in the repair process. Attrition for repairable items occurs on items that have been sold at exchange price. Subsequently, the items wash out in the repair process and some must be replaced.

11. On line 2I enter the obligations required for first and second destination transportation of secondary items approved in the President's budget for the PY and the CY. For the BY1/BY2 enter anticipated obligations associated with transportation of secondary items. Obligations for first destination transportation of secondary items should only be included as a surcharge element if not included in the price of the item.

12. On line 2J enter the capital surcharge required to support disbursements for capital investments that will not be covered by depreciation approved in the President's budget for the PY and the CY. For the BY1/BY2 enter anticipated surcharge amount required to support disbursements for capital investments that will not be covered by depreciation.

13. On line 2L enter the amount added to prices to adjust for prior year gains/losses approved in the President's budget for the PY and the CY. For the BY1/BY2 enter anticipated surcharge amount required to adjust prices for prior year gains/losses. This estimate for the BY1/BY2 must be based on actual PY results and revised CY estimates in the President's budget.

14. This form is not intended to limit the Component in the display of surcharge elements. The Other (List) category permits the Component to display other costs as required.

15. On line 2M sum up line 2A through 2L across the columns.

Note: 1/ Exclude direct reimbursable costs such as tenant base support. Identify the amount excluded by footnote on this form.

| a. Previous Year's Surcharge (%)                                             |         |     |     |
| b. This year's Surcharge and material inflation divided by line 3 above (\$) |         |     |     |
| c. Percent change to customer                                                |         |     |     |

Line 1. On this line enter the net sales at cost for each fiscal year. The dollar value on this line should match the net sales at cost line on the composite line 1, SM-5A and include an estimate for material inflation.

Line 2. This line should have the dollar value of the material inflation adjustment applicable between the previous year and the fiscal year of the column, i.e., in the budget year column, enter the amount of material inflation included in line 1 between BY and CY.

Line 3. Subtract line 2 from line 1.

Line 4. Enter the surcharge (\$) for that fiscal year from the SM-5A, i.e., for the budget year enter the composite total surcharge for line 2M of the SM-5A.

Line 5a. Enter the percentage (decimal) of the previous fiscal year's surcharge, i.e., for the budget year enter the percentage (decimal) from the CY line 2M of the SM-5A.

Line 5b. Add together line 4 and line 2. Divide the total of line 4 and line 2 by line 3 to get the entry for this line.

Line 5c. Divide line 5b plus one by line 5a plus one and subtract one from the result.

Exhibit SM-6 War Reserve Material 1 of 2

#### WAR RESERVE MATERIAL (WRM) EXHIBIT SM-6

The purpose of the WRM exhibit is to notify Congress of the Departments intentions regarding the management of secondary item war reserves. Stockpile status and costs sections show the current and budgeted amounts for the inventory and the costs associated with maintaining these levels. The budget request section notifies Congress of the amounts of obligations to be used to acquire or maintain war reserve items and quantities. Exhibit instructions are as follows:

1. <u>Stockpile Status</u> (Same instructions as the SM-4). Components should use the "reclassification" line to transfer inventory into the "protected" WRM category from "WRM Other", if desired.

2. <u>Stockpile Costs</u>. WRM stockpile costs are those incurred in the working capital fund (WCF) to store WRM material, to manage WRM stocks to include a portion of total ICP costs (normally based on surcharges for purchased/repaired items funded with the obligations identified below), and any other WCF costs to maintain the WRM inventory.

3. <u>WRM Budget Request.</u> This area addresses the amounts of obligation authority to be used specifically for WRM items or WRM quantities, whether from an appropriation, from cash balances, or from future sales.

a. <u>Additional WRM Investment</u> (normally reimbursed or funded by an appropriation). The amount of obligations to purchase or repair new or additional items that will increase the value of the total WRM inventory...

b. <u>Replen/Repair WRM Reinvestment</u>. The amount of obligation authority to be used to replenish or repair WRM inventory that is sold, and the amount to be used to reinvest in new inventory with the funds from the sale of old inventory. Should normally be a one for one or dollar for dollar (excluding surcharges) replacement.

c. <u>Stock Rotation/Obsolescence</u> (separate from the stock replenishment from sales above). This is to replace stocks that are not sold but must be rotated or replaced periodically because of shelf life or obsolescence (can be related to an appropriation, if required, but normally maintains, and not increases, the value of the WRM inventory).

d. <u>Assemble/Disassemble</u>. The amount of obligations to be used to change the configuration of WRM inventory items.

e. Other. As appropriate.

Exhibit SM-8 Collections/Disbursements 1 of 2

#### INSTRUCTIONS FOR PREPARATION OF COLLECTIONS/DISBURSEMENTS (EXHIBIT SM-8)

The purpose of the <u>Collections/Disbursements Exhibit, SM-8</u>, is to provide detailed backup for cash impacts. Instructions are:

1. The exhibit is required to be submitted with each budget submission or review. It may be determined based upon computation from amounts recorded in general ledgers, from memorandum records, or projections of recent experiences. Amounts shall be rounded to the nearest tenth of a million dollars. Prepare SM-8 for prior fiscal year and each succeeding fiscal year through the FYDP.

# a. Prior Fiscal Year:

(1) Balance, BOP. Report the balance at the beginning of the period.

- (2) Appropriations. Report the amount of appropriations realized in the prior fiscal year.
- (3) <u>Transfers</u>. Report the amount of transfers from or to other funds during the prior fiscal year.
- (4) <u>Collections</u>. Report the amount of collections received.
- (5) Disbursements. Report the amount of disbursements made.

(6) <u>Net Outlays</u>. Report the amount of net outlays for columns 1 and 4 by subtracting the estimated collections line 1.d from expenditures line 1.e.

(7) <u>Cash Balance, EOP</u>. (End of Period). Report the fund balance as of the end of the reporting period.

b. <u>Current Fiscal Year</u>. Provide the same data as for the prior fiscal year, allowing balance EOP + BOP to compute based on transactions.

c. Budget Year. Provide the same data as for the current fiscal year.

d. <u>Outyears</u>. Provide the same data for the year following the budget year for the OSD/OMB Budget Review only.

2. Other Fund Balance (column 2) includes appropriated dollars for any purpose other than mobilization.

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
