MISSION

The SOPMOD Program Management Office at NSWC Crane, IN, will provide standardized, versatile weapons accessories to meet needs across SOF mission scenarios. These accessories will increase operator survivability and lethality by enhanced weapon performance, target acquisition, signature suppression, and fire control. SOPMOD PMO will provide these accessories when they are operationally suitable, affordable, sustainable, and funded.

HISTORIC BACKGROUND

- 1970-1990, Duct tape and hose clamps for carbine and rifle accessories. Multitude of non-standard optical sights, flashlights, etc.
- SOST Modular Close Combat Carbine Project, funded Sept 1989
- SOPMOD MNS, 15 May 1992
- BOIP's were originally low, since component commands were cautious about buy-in to a new joint program
- Original ORD, validated 15 September 1993
- As commands accepted SOPMOD, demand for capabilities and quantities of items increased, funding did not. ORD was amended 4 times between 1994 and 1998

RECENT BACKGROUND

- May 99, USCINCSOC/PEO-SP Directive to SOPMOD PMO to study and improve the M4A1 Carbine. Extraction Parts Set #1 fielded to Navy and Air Force in July 1999
- ORD Amendment 5, 29 October 1999, added MNVS, SPR, UPM, Soft and Hard Cases, and increased BOIP from 1961 kits to 2972 kits
- September 2000, Congressional Plus-up, \$5M in general procurement and \$0.9M earmarked for Grenade Launcher research.

SOPMOD M4 Accessory Kit

DESCRIPTION

Capabilities Required:

- *Standardized versatile weapons accessories*
- *Modular- meets needs across SOF mission scenarios*
- *Increased operator survivability and lethality by weapon improvements, enhanced target acquisition, signature suppression, and fire control*
- *Evolutionary Acquisition Block Upgrades*
 - *Block I*
 - *Block II*
 - *Block III and IV*
