Ways to Get INDOPACOM S&T Project Support

March 4, 2021

This brief is classified:

Approved for *public release*: distribution unlimited

Ways to Get INDOPACOM S&T Project Support

JCTD

1. Leave behind capability (More is better, with prototype sustainment and POR transition)
2. Mitigates INDOPACOM Capability Gap, e.g. IPL
3. Strong backing by S&T Board members
4. Credible CONEMP for our AOR – Talk to us before locking this in
5. Technical Merit, credible TRL level start/finish
6. Joint capability with more than one service actively involved (cash, IMT, etc.)
7. Appropriate IMT
   - Prefer OM at INDOPACOM or Service Component; TM, XM, IA in different, cross-service organizations
8. Real matching funds (cash, not just in-kind resources
9. Appropriate cost to JCTD office

CWP

1. Endorsement <u>and</u> management by a member of the S&T Board
2. Partnership with country(ies) in our AOR.
3. Project Agreement existent or in progress
4. Credibly addresses a general need for the Combined Force. Leave behind capability is a big discriminator.

RIF/RRTO/ECTD

1. Real leave-behind capability has highest chance of support, then Pre-EMD prototype and finally Proof of Principle
2. Valid contracting vehicle
3. Technical Merit, credible TRL level start/finish
4. Endorsement and management by a member of the S&T Board
5. Credible CONEMP for our AOR

WLIF

1. High TRL
2. O&M Appropriate 1 year Effort
3. Connected to INDOPACOM high Priority (IPL, NDS, JEON, etc.)
4. Preference Given to:
   - Joint Relevance / Benefit
   - Operationally Relevant
   - Leave Behind Capability
   - Clear Transition Path

These are the general guidelines used when determining INDOPACOM S&T Endorsement.
